The Secretary is authorized to conduct research and to construct, operate, and maintain cooperative demonstration projects for the development and demonstration of appropriate treatment technologies for the reclamation of municipal, industrial, domestic, and agricultural wastewater, and naturally impaired ground and surface waters. The Federal share of the costs of demonstration projects shall not exceed 50 percent of the total cost including operation and maintenance. Rights to inventions developed pursuant to this section shall be governed by the provisions of the Stevenson-Technology Innovation Act of 1980 (Pub L. 96-480) as amended by the Technology Transfer Act of 1986 (Pub. L. 99-502).

SEC. 1606. SOUTHERN CALIFORNIA COMPREHENSIVE WATER RECLAMATION AND REUSE STUDY.

(a) The Secretary is authorized to conduct a study to assess the feasibility of a comprehensive water reclamation and reuse system for Southern California. For the purpose of this title, the term "Southern California" means those portions of the counties of Imperial, Los Angeles, Orange, Sand Bernadino, Riverside, San Diego, and Ventura within the south coast and Colorado River hydrologic regions as defined by the California Department of Water Resources.

(b) The Secretary shall conduct the study authorized by this section in cooperation with the

State of California and appropriate local and regional entities. The Federal share of the costs associated with this study shall not exceed 50 per centum of the total.

(c) The Secretary shall submit the report authorized by this section to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives not later than six years after appropriation of funds authorized by this title.

SEC. 1607. SAN JOSE AREA WATER RECLAMATION AND REUSE PROGRAM.

(a) The Secretary, in cooperation with the city of San Jose, California, and the Santa Clara Valley Water District, and local water suppliers, shall participate in the planning, design and construction of demonstration and permanent facilities to reclaim and reuse water in the San Jose metropolitan service area.

(b) The Federal share of the costs of the facilities authorized by subsection (a) shall not exceed 25 per centum of the total. The Secretary shall not provide funds for the operation or maintenance of the project.

SEC. 1608. PHOENIX METROPOLITAN WATER RECLAMATION STUDY AND PROGRAM.

(a) The Secretary, in cooperation with the city of Phoenix, Arizona, shall conduct a feasibility study of the potential for development of facilities to utilize fully wastewater from the regional wastewater treatment plant for direct municipal, industrial, agricultural, and environmental purposes, groundwater recharge and direct potable reuse in the Phoenix metropolitan area, and in cooperation with the city of Phoenix design and construct facilities for environmental purposes, ground water recharge and direct potable reuse.

(b) The Federal share of the costs of the study authorized by this section shall not exceed 50 per centum of the total. The Federal share of the costs associated with the project described in subsection (a) shall not exceed 25 per centum of the total. The Secretary shall not provide funds for operation or maintenance of the project.

(c) The Secretary shall submit the report authorized by this section to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives not later than two years after appropriation of funds authorized by this title.

SEC. 1609. TUCSON AREA WATER RECLAMATION STUDY.

(a) The Secretary, in cooperation with the State of Arizona and appropriate local and regional entities, shall conduct a feasibility study of comprehensive water reclamation and reuse system for Southern Arizona. For the purpose of this section, the term "Southern Arizona" means those portions of the counties of Pima, Santa Cruz, and Pinal within the Tucson Active Management Hydrologic Area as defined by the Arizona Department of Water Resources.

(b) The Federal share of the costs of the study authorized by this section shall not exceed 50 per centum of the total.

(c) The Secretary shall submit the report authorized by this section to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives not later than four years after appropriation of funds authorized by this title.

SEC. 1610. LAKE CHERAW WATER RECLAMATION AND REUSE STUDY.

(a) The Secretary is authorized, in cooperation with the State of Colorado and appropriate local and regional entities, to conduct a study to assess and develop means of reclaiming the waters of Lake Cheraw, Colorado, or otherwise ameliorating, controlling and mitigating potential negative impacts of pollution in the waters of Lake Cheraw on groundwater resources or the waters of the Arkansas River.

(b) The Federal share of the costs of the study authorized by this section shall not exceed 50 per centum of the total.

(c) The Secretary shall submit the report authorized by this section to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives not later than two years after appropriation of funds authorized by this title.

SEC. 1611. SAN FRANCISCO AREA WATER RECLAMATION STUDY.

(a) The Secretary, in cooperation with the city and county of San Francisco, shall conduct a feasibility study of the potential for development of demonstration and permanent facilities to reclaim water in the San Francisco area for the purposes of export and reuse elsewhere in California.

(b) The Federal share of the costs of the study authorized by this section shall not exceed 50 per centum of the total.

(c) The Secretary shall submit the report authorized by this section to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives not later than four years after appropriation of funds authorized by this title.

SEC. 1612. SAN DIEGO AREA WATER RECLAMATION PROGRAM.

(a) The Secretary, in cooperation with the city of San Diego, California or its successor agency in the management of the San Diego Area Wastewater Management District, shall participate in the planning, design and construction of demonstration and permanent facilities to reclaim and reuse water in the San Diego metropolitan service area.

(b) The Federal share of the costs of the facilities authorized by subsection (a) shall not exceed 25 per centum of the total. The Secretary shall not provide funds for the operation or maintenance of the project.

SEC. 1613. LOS ANGELES AREA WATER RECLAMATION AND REUSE PROJECT.

(a) The Secretary is authorized to participate with the city and county of Los Angeles, State of California, West Basin Municipal Water District, and other appropriate authorities, in the design, planning, and construction of water reclamation and reuse projects to treat approximately one hundred and twenty thousand acre-feet per year of effluent from the city and county of Los Angeles, in order to provide new water supplies for industrial, environmental, and other beneficial purposes, to reduce the demand for imported water, and to reduce sewage effluent discharged into Santa Monica Bay.

(b) The Secretary's share of costs associated with the project described in subsection (a) shall not exceed 25 per centum of the total. The Secretary shall not provide funds for operation or maintenance of the project.

SEC. 1614. SAN GABRIEL BASIN DEMONSTRATION PROJECT.

(a) The Secretary, in cooperation with the Metropolitan Water District of Southern California and the Main San Gabriel Water Quality Authority or a successor public agency, is authorized to participate in the design, planning and construction of a conjunctive-use facility designed to improve the water quality in the San Gabriel groundwater basin and allow the utilization of the basin as a water storage facility; Provided, That this authority shall not be construed to limit the authority of the United States under any other Federal statute to pursue remedial actions or recovery of costs for work performed pursuant to this subsection.

(b) The Secretary's share of costs associated with the project described in subsection (a) shall not exceed 25 per centum of the total. The Secretary shall not provide funds for the operation or maintenance of the project.

SEC. 1615. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as may be necessary to carry out the purposes and provisions of sections 1601 through 1614 of this title.

SEC. 1616. GROUNDWATER STUDY.

(a) In furtherance of the High Plains Groundwater Demonstration Program Act of 1983 (98 Stat. 1675), the Secretary of the Interior, acting through the Bureau of Reclamation and Geological Survey, shall conduct an investigation and analysis of the impacts of existing Bureau of Reclamation projects on the quality and quantity of groundwater resources. Based on such investigation and analysis, the Secretary shall prepare a reclamation groundwater management and technical assistance report which shall include—

(1) a description of the findings of the investigation and analysis, including the methodology employed;

(2) a description of methods for optimizing Bureau of Reclamation project operations to ameliorate adverse impacts on groundwater, and

(3) The Secretary's recommendations, along with the recommendations of the Governors of the affected States, concerning the establishment of a groundwater management and technical assistance program in the Department of the Interior in order to assist Federal and non-Federal entity development and implementation of groundwater management plans and activities.

(b) In conducting the investigation and analysis, and in preparation of the report referred to in this section, the Secretary shall consult with the Governors of the affected States.

(c) The report shall be submitted to the Committees on Appropriations and Interior and Insular Affairs of the House of Representatives and the Committees on Appropriations and Energy and Natural Resources of the Senate within three years of the appropriation of funds authorized by section 1617.

SEC. 1617. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated for fiscal years beginning after September 30, 1992, $4,000,000 to carry out the study authorized by section 1616.

TITLE XVII—IRRIGATION ON STANDING ROCK INDIAN RESERVATION, NORTH DAKOTA

SEC. 1701. IRRIGATION ON STANDING ROCK INDIAN RESERVATION.

(a) Section 5(e) of Public Law 89-108, as amended by section 3 of the Garrison Diversion Unit Reformulation Act of 1986 (Pub. L. 99-294), is amended by striking "Fort Yates" and inserting "one or more locations within the Standing Rock Indian Reservation".

(b) Section 10 of Public Law 89-108, as amended by section 8 of Public Law 99-294, is further amended by adding subsection (e) as follows:

"(e) The portion of the $61 million authorized for Indian municipal, rural, and industrial water features shall be indexed as necessary to allow for ordinary fluctuations of construction costs incurred after October 1, 1986, as indicated by engineering costs indices applicable for the type of construction involved. All other authorized cost ceilings shall remain unchanged."

TITLE XVIII—GRAND CANYON PROTECTION

SEC. 1801. SHORT TITLE.

This Act may be cited as the "Grand Canyon Protection Act of 1992".

SEC. 1802. PROTECTION OF GRAND CANYON NATIONAL PARK.

(a) IN GENERAL.—The Secretary shall operate Glen Canyon Dam in accordance with the addi-

tional criteria and operating plans specified in section 1804 and exercise other authorities under existing law in such a manner as to project, mitigate adverse impacts to, and improve the values for which Grand Canyon National Park and Glen Canyon National Recreation Area were established, including, but not limited to natural and cultural resources and visitor use.

(b) COMPLIANCE WITH EXISTING LAW.—The Secretary shall implement this section in a manner fully consistent with and subject to the Colorado River Compact, the Upper Colorado River Basin Compact, the Water Treaty of 1944 with Mexico, the decree of the Supreme Court in Arizona v. California, and the provisions of the Colorado River Storage Project Act of 1956 and the Colorado River Basin Project Act of 1968 that govern allocation, appropriation, development, and exportation of the waters of the Colorado River basin.

(c) RULE OF CONSTRUCTION.—Nothing in this title alters the purposes for which the Grand Canyon National Park or the Glen Canyon National Recreation Area were established or affects the authority and responsibility of the Secretary with respect to the management and administration of the Grand Canyon National Park and Glen Canyon National Recreation Area, including natural and cultural resources and visitor use, under laws applicable to those areas, including, but not limited to, the Act of August 25, 1916 (39 Stat. 535) as amended and supplemented.

SEC. 1803. INTERIM PROTECTION OF GRAND CANYON NATIONAL PARK.

(a) INTERIM OPERATIONS.—Pending compliance by the Secretary with section 1804, the Secretary shall, on an interim basis, continue to operate Glen Canyon Dam under the Secretary's announced interim operating criteria and the Interagency Agreement between the Bureau of Reclamation and the Western Area Power Administration executed October 2, 1991 and exercise other authorities under existing law, in accordance with the standards set forth in Section 1802, utilizing the best and most recent scientific data available.

(b) CONSULTATION.—The Secretary shall continue to implement Interim Operations in consultation with—

(1) Appropriate agencies of the Department of the Interior, including the Bureau of Reclamation, United States Fish and Wildlife Service, and the National Park Service;

(2) The Secretary of Energy;

(3) The Governors of the States of Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming;

(4) Indian Tribes; and

(5) The general public, including representatives of the academic and scientific communities, environmental organizations, the recreation industry, and contractors for the purchase of Federal power produced at Glen Canyon Dam.

(c) DEVIATION FROM INTERIM OPERATIONS.—The Secretary may deviate from Interim Operations upon a finding that deviation is necessary and in the public interest to—

(1) comply with the requirements of Section 1804(a);

(2) respond to hydrologic extremes or power system operation emergencies;

(3) comply with the standards set forth in Section 1802;

(4) respond to advances in scientific data; or

(5) comply with the terms of the Interagency Agreement.

(d) TERMINATION OF INTERIM OPERATIONS.—Interim operations described in this section shall terminate upon compliance by the Secretary with Section 1804.

SEC. 1804. GLEN CANYON DAM ENVIRONMENTAL IMPACT STATEMENT; LONG-TERM OPERATION OF GLEN CANYON DAM.

(a) FINAL ENVIRONMENTAL IMPACT STATEMENT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall complete a final Glen Canyon Dam environmental impact statement, in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(b) AUDIT.—The Comptroller General shall—

(1) audit the costs and benefits to water and power users and to natural, recreational, and cultural resources resulting from management policies and dam operations identified pursuant to the environmental impact statement described in subsection (a); and

(2) report the results of the audit to the Secretary and the Congress.

(c) ADOPTION OF CRITERIA AND PLANS.—(1) Based on the findings, conclusions, and recommendations made in the environmental impact statement prepared pursuant to subsection (a) and the audit performed pursuant to subsection (b), the Secretary shall—

(A) adopt criteria and operating plans separate from and in addition to those specified in section 602(b) of the Colorado River Basin Project Act of 1968 and

(B) exercise other authorities under existing law, so as to ensure that Glen Canyon Dam is operated in a manner consistent with section 1802.

(2) Each year after the date of the adoption of criteria and operating plans pursuant to paragraph (1), the Secretary shall transmit to the Congress and to the Governors of the Colorado River Basin States a report, separate from and in addition to the report specified in section 602(b) of the Colorado River Basin Project Act of 1968 on the preceding year and the projected year operations undertaken pursuant to this Act.

(3) In preparing the criteria and operating plans described in section 602(b) of the Colorado River Basin Project Act of 1968 and in this subsection, the Secretary shall consult with the Governors of the Colorado River Basin States and with the general public, including—

(A) representatives of academic and scientific communities;

(B) environmental organizations;

(C) the recreation industry; and

(D) contractors for the purchase of Federal power produced at Glen Canyon Dam.

(d) REPORT TO CONGRESS.—Upon implementation of long-term operations under subsection (c), the Secretary shall submit to the Congress the environmental impact statement described in subsection (a) and a report describing the long-term operations and other reasonable mitigation measures taken to protect, mitigate adverse impacts to, and improve the condition of the natural recreational, and cultural resources of the Colorado River downstream of Glen Canyon Dam.

(e) ALLOCATION OF COSTS.—The Secretary of the Interior, in consultation with the Secretary of Energy, is directed to reallocate the costs of construction, operation, maintenance, replacement and emergency expenditures for Glen Canyon Dam among the purposes directed in section 1802 of this Act and the purposes established in the Colorado River Storage Project Act of April 11, 1956 (70 Stat. 170). Costs allocated to section 1802 purposes shall be nonreimbursable. Except that in Fiscal Year 1993 through 1997 such costs shall be nonreimbursable only to the extent to which the Secretary finds the effect of all provisions of this Act is to increase net offsetting receipts; Provided, further that if the Secretary finds in any such year that the enactment of this Act does cause a reduction net offsetting receipts generated by all provisions of this Act, the costs allocated to section 1802 purposes shall remain nonreimbursable. The Secretary shall determine the effect of all the provisions of this Act and submit a report to the appropriate House and Senate committees by January 31 of each fiscal year, and such report shall contain for that fiscal year a detailed accounting of expenditures incurred pursuant to this Act, offsetting receipts generated by this Act, and any increase or reduction in net offsetting receipts generated by this Act.

SEC. 1805. LONG-TERM MONITORING.

(a) IN GENERAL.—The Secretary shall establish and implement long-term monitoring programs and activities that will ensure that Glen Canyon Dam is operated in a manner consistent with that of section 1802.

(b) RESEARCH.—Long-term monitoring of Glen Canyon Dam shall include any necessary research and studies to determine the effect of the Secretary's actions under section 1804(c) on the natural, recreational, and cultural resources of Grand Canyon National Park and Glen Canyon National Recreation Area.

(c) CONSULTATION.—The monitoring programs and activities conducted under subsection (a) shall be established and implemented in consultation with—

(1) the Secretary of Energy;

(2) the Governors of the States of Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming;

(3) Indian tribes; and

(4) the general public, including representatives of academic and scientific communities, environmental organizations, the recreation industry, and contractors for the purchase of Federal power produced at Glen Canyon Dam.

SEC. 1806. RULES OF CONSTRUCTION.

Nothing in this title is intended to affect in any way—

(1) the allocations of water secured to the Colorado Basin States by any compact, Law, or decree; or

(2) any Federal environmental law, including the Endangered Species Act (16 U.S.C. et seq.).

SEC. 1807. STUDIES NONREIMBURSABLE.

All costs of preparing the environmental impact statement described in section 1804, including supporting studies, and the long-term monitoring programs and activities described in section 1805 shall be nonreimbursable. The Secretary is authorized to use funds received from the sale of electric power and energy from the Colorado River Storage Project to prepare the environmental impact statement described in section 1804, including supporting studies, and the long-term monitoring programs and activities described in section 1805, except that such funds will be treated as having been repaid and returned to the general fund of the Treasury as costs assigned to power for repayment under section 5 of the Act of April 11, 1956 (70 Stat. 170). Except that in Fiscal Year 1993 through 1997 such provisions shall take effect only to the extent to which the Secretary finds the effect of all the provisions of this Act is to increase net offsetting receipts; Provided, further that if the Secretary finds in any such year that the enactment of this Act does cause a reduction in net offsetting receipts generated by all provisions of this Act, all costs described in this section shall remain nonreimbursable. The Secretary shall determine the effect of all the provisions of this Act and submit a report to the appropriate House and Senate committees by January 31 of each fiscal year, and such report shall contain for that fiscal year a detailed accounting of expenditures incurred pursuant to this Act, offsetting receipts generated by this Act, and any increase or reduction in net offsetting receipts generated by this Act.

SEC. 1808. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this title.

SEC. 1809. REPLACEMENT POWER.

The Secretary of Energy in consultation with the Secretary of the Interior and with represent-

atives of the Colorado River Storage Project power customers, environmental organizations and the states of Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming shall identify economically and technically feasible methods of replacing any power generation that is lost through adoption of long-term operational criteria for Glen Canyon Dam as required by Section 1804 of this title. The Secretary shall present a report of the findings, and implementing draft legislation, if necessary, not later than two years after adoption of long-term operating criteria. The Secretary shall include an investigation of the feasibility of adjusting operations at Hoover Dam to replace all or part of such lost generation. The Secretary shall include an investigation of the modifications or additions to the transmission system that may be required to acquire and deliver replacement power.

TITLE XIX—MID-DAKOTA RURAL WATER SYSTEM

SEC. 1901. SHORT TITLE.

This title may be cited as the "Mid-Dakota Rural Water System Act of 1992".

SEC. 1902. DEFINITIONS.

For purposes of this title—

(1) the term "feasibility study" means the study entitled "Mid-Dakota Rural Water System Feasibility Study and Report" dated November 1988 and revised January 1989 and March 1989, as supplemented by the "Supplemental Report for Mid-Dakota Rural Water System" dated March 1990 (which supplemental report shall control in the case of any inconsistency between it and the study and report), as modified to reflect consideration of the benefits of the water conservation programs developed and implemented under section 1905 of this title;

(2) the term "pumping and incidental operational requirements" means all power requirements incident to the operation of intake facilities, pumping stations, water treatment facilities, reservoirs, and pipelines up to the point of delivery of water by the Mid-Dakota Rural Water System to—

(A) each entity that distributes water at retail to individual users; or

(B) each rural use location;

(3) the term "rural use location" includes a water use location—

(A) that is located in or in the vicinity of a municipality identified in appendix A of the feasibility report, for which municipality and vicinity there was on December 31, 1988, no entity engaged in the business of distributing water at retail to users in that municipality or vicinity; and

(B) that is one of no more than 40 water use locations in that municipality and vicinity;

(4) the term "Secretary" means the Secretary of the Interior;

(5) the term "summer electrical season" means May through October of each year;

(6) the term "water system" means the Mid-Dakota Rural Water System, substantially in accordance with the feasibility study;

(7) the term "Western" means the Western Area Power Administration;

(8) the term "wetland component" means the wetland development and enhancement component of the water system, substantially in accordance with the wetland component report; and

(9) the term "wetland component report" means the report entitled "Wetlands Development and Enhancement Component of the Mid-Dakota Rural Water System" dated April 1990.

SEC. 1903. FEDERAL ASSISTANCE FOR RURAL WATER SYSTEM.

(a) IN GENERAL.—The Secretary is authorized to make grants and loans to Mid-Dakota Rural Water System, Inc., a nonprofit corporation, for the planning and construction of the water system.

(b) SERVICE AREA.—The water system shall provide for safe and adequate municipal, rural, and industrial water supplies; mitigation of wetland areas; and water conservation in Beadle County (including the city of Huron), Buffalo, Hand, Hughes, Hyde, Jerauld, Potter, Sanborn, Spink, and Sully Counties, and elsewhere in South Dakota.

(c) TERMS AND CONDITIONS.—The Secretary shall make the grants and loans authorized by subsection (a) on terms and conditions equivalent to those applied by the Secretary of Agriculture in providing assistance to projects for the conservation, development, use, and control of water under section 306(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)), except to the extent that those terms and conditions are inconsistent with this title.

(d) AMOUNT OF GRANTS.—Grants made available under subsection (a) to Mid-Dakota Rural Water System, Inc. and water conservation measures consistent with section 1905 of this title shall not exceed 85 percent of the amount authorized to be appropriated by section 1912 of this title.

(e) LOAN TERMS.—

(1) a loan or loans made to Mid-Dakota Rural Water System, Inc. under the provisions of this title shall be repaid, with interest, within thirty years from the date of each loan or loans and no penalty for pre-payment; and

(2) interest on a loan or loans made under subsection (a) to Mid-Dakota Rural Water System, Inc.—

(A) shall be determined by the Secretary of the Treasury on the basis of the weighted average yield of all interest bearing, marketable issues sold by the Treasury during the fiscal year in which the expenditures by the United States were made; and

(B) shall not accrue during planning and construction of the water system, and the first payment on such a loan shall not be due until after completion of construction of the water system.

(f) LIMITATION ON AVAILABILITY OF CONSTRUCTION FUNDS.—The Secretary shall not obligate funds for the construction of the Mid-Dakota Water Supply System until—

(1) the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) have been met; and

(2) a final engineering report has been prepared and submitted to the Congress for a period of not less than ninety days.

(g) COORDINATION WITH THE DEPARTMENT OF AGRICULTURE.—

(1) The Secretary shall coordinate with the Secretary of Agriculture, to the maximum extent practicable, grant and loan assistance made under this section with similar assistance available under the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.).

(2) The Secretary of Agriculture shall take into consideration grant and loan assistance available under this section when considering whether to provide similar assistance available under the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) to an applicant in the service area defined in subsection (b).

SEC. 1904. FEDERAL ASSISTANCE FOR WETLAND DEVELOPMENT AND ENHANCEMENT.

(a) INITIAL DEVELOPMENT.—The Secretary shall make grants and otherwise make funds available to Mid-Dakota Rural Water System, Inc. and other private, State, and Federal entities for the initial development of the wetland component.

(b) OPERATION AND MAINTENANCE.—The Secretary shall make a grant, not to exceed $100,000 annually, to the Mid-Dakota Rural Water System, Inc., for the operation and maintenance of the wetland component.

(c) NONREIMBURSEMENT.—Funds provided under this section shall be nonreimbursable and nonreturnable.

SEC. 1905. WATER CONSERVATION.

(a) WITHHOLDING OF FUNDS.—The Secretary shall not obligate Federal funds for construction of the water system until the Secretary finds the non-Federal entities have developed and implemented water conservation programs throughout the service area of the water system.

(b) PURPOSE OF PROGRAMS.—The water conservation programs required by subsection (a) shall be designed to ensure that users of water from the water system will use the best practicable technology and management techniques to reduce water use and water system costs.

(c) DESCRIPTION OF PROGRAMS.—Such water conservation programs shall include (but are not limited to) adoption and enforcement of the following—

(1) low consumption performance standards for all newly installed plumbing fixtures;

(2) leak detection and repair programs;

(3) metering for all elements and individual connections of the rural water supply systems to be accomplished within five years. (For purposes of this paragraph, residential buildings of more than four units may be considered as individual customers);

(4) declining block rate schedules shall not be used for municipal households and special water users (as defined in the feasibility study);

(5) public education programs; and

(6) coordinated operation among each rural water system and the preexisting water supply facilities in its service area.

Such programs shall contain provisions for periodic review and revision, in cooperation with the Secretary.

SEC. 1906. MITIGATION OF FISH AND WILDLIFE LOSSES.

Mitigation for fish and wildlife losses incurred as a result of the construction and operation of the water system shall be on an acre-for-acre basis, based on ecological equivalency, concurrent with project construction.

SEC. 1907. USE OF PICK-SLOAN POWER.

(a) IN GENERAL.—From power designated for future irrigation and drainage pumping for the Pick-Sloan Missouri River Basin Program, Western shall make available the capacity and energy required to meet the pumping and incidental operational requirements of the water system during the summer electrical season.

(b) CONDITIONS.—The capacity and energy described in subsection (a) shall be made available on the following conditions:

(1) The water system shall be operated on a not-for-profit basis.

(2) The water system shall contract to purchase its entire electric service requirements, including the capacity and energy made available under subsection (a), from a cooperative power supplier which purchases power from a cooperative power supplier which itself purchases power from Western.

(3) The rate schedule applicable to the capacity and energy made available under subsection (a) shall be Western's Pick-Sloan Eastern Division Firm Power Rate Schedule in effect when the power is delivered by Western.

(4) It shall be agreed by contract among—

(A) Western;

(B) the power supplier with which the water system contracts under paragraph (2);

(C) that entity's power supplier; and

(D) Mid-Dakota Rural Water System, Inc.;

that for the capacity and energy made available under subsection (a), the benefit of the rate schedule described in paragraph (3) shall be passed through to the water system, but the water system's power supplier shall not be pre-

cluded from including in its charges to the water system for such electric service its other usual and customary charges.

(5) Mid-Dakota Rural Water System, Inc., shall pay its power supplier for electric service, other than for capacity and energy supplied pursuant to subsection (a), in accordance with the power supplier's applicable rate schedule.

SEC. 1908. RULE OF CONSTRUCTION.

This title shall not be construed to limit authorization for water projects in the State of South Dakota under existing law or future enactments.

SEC. 1909. WATER RIGHTS.

Nothing in this title shall be construed to—

(1) invalidate or preempt State water law or an interstate compact governing water;

(2) alter the rights of any State to any appropriated share of the waters of any body of surface or groundwater, whether determined by past or future interstate compacts or by past or future legislative or final judicial allocations;

(3) preempt or modify any State or Federal law or interstate compact dealing with water quality or disposal; or

(4) confer upon any non-Federal entity the ability to exercise any Federal right to the waters of any stream or to any groundwater resources.

SEC. 1910. USE OF GOVERNMENT FACILITIES.

The use and connection of water system facilities to Government facilities at the Oahe powerhouse and pumping plant and their use for the purpose of supplying water to the water system may be permitted to the extent that such use does not detrimentally affect the use of those Government facilities for the purposes for which they are authorized.

SEC. 1911. AUTHORIZATION OF APPROPRIATIONS.

(a) Water System.—There is authorized to be appropriated to the Secretary $100,000,000 for the planning and construction of the water system under section 1903, plus such sums as are necessary to defray increases in development costs reflected in appropriate engineering cost indices after October 1, 1989, such sums to remain available under expended.

(b) Wetland Component.—There are authorized to be appropriated to the Secretary—

(1) $2,756,000 for the initial development of the wetland component under section 1904; and

(2) such sums as are necessary for the operation and maintenance of the wetland component, not exceeding $100,000 annually, under section 1904;

TITLE XX—LAKE ANDES-WAGNER/MARTY II, SOUTH DAKOTA

SEC. 2001. SHORT TITLE.

This title may be cited as the "Lake Andes-Wagner/Marty II Act of 1992".

SEC. 2002. DEMONSTRATION PROGRAM.

(a) The Secretary, acting pursuant to existing authority under the Federal reclamation laws, shall, through the Bureau of Reclamation, and in coordination with the Secretary of Agriculture and with the assistance and cooperation of an oversight committee consisting of representatives of the Bureau of Indian Affairs, Department of Agriculture, Environmental Protection Agency, United States Fish and Wildlife Service, United States Geological Survey, South Dakota Department of Game, Fish and Parks, South Dakota Department of Water and Natural Resources, Yankton-Sioux Tribe, and the Lake Andes-Wagner Water Systems, Inc., carry out a demonstration program (hereinafter in this title the "Demonstration Program") in substantial accordance with the "Lake Andes-Wagner-Mary II Demonstration Program Plan of Study," dated May 1990, a copy of which is on file with the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives.

(b) The objectives of the Demonstration Program shall include:

(1), development of accurate and definitive means of quantifying projected irrigation and drainage requirements and providing reliable estimates of drainage return flow quality and quantity with respect to glacial till and other soils found in the specific areas to be served with irrigation water by the planned Lake Andes-Wagner Unit and Marty II Unit and which may also have application to the irrigation and drainage of similar soils found in other areas of the United States;

(2) development of best management practices for the purpose of improving the efficiency of irrigation water use and developing and demonstrating management techniques and technologies for glacial till soils which will prevent or otherwise ameliorate the degradation of water quality by irrigation practices;

(3) investigation and demonstration of the potential for development and enhancement of wetlands and fish and wildlife within and adjacent to the service areas of the planned Lake Andes-Wagner Unit and the Marty II Unit through the application of water and other management practices;

(4) investigation and demonstration of the suitability of glacial till soils for crop production under irrigation, giving special emphasis to crops of agricultural commodities for which an acreage reduction program is not in effect under the provisions of the Agriculture Act of 1949 (7 U.S.C. 1461 et seq.) or by any successor programs established for crop years subsequent to 1990.

(c) Study sites shall be obtained through leases from landowners who voluntarily agree to participate in the Demonstration Program under the following conditions:

(1) rentals paid under a lease shall be based on the fair rental market value prevailing for dry land farming of lands of similar quantity and quality plus a payment representing reasonable compensation for inconveniences to be encountered by the lessor;

(2) the Demonstration Program shall provide for the—

(A) supply of all water, delivery system, pivot systems and drains;

(B) operate and maintain the irrigation system;

(C) Secretary of Agriculture to supply all seed, fertilizers and pesticides and make standardized equipment available;

(D) Secretary of Agriculture to determine crop rotations and cultural practices;

(E) have unrestricted access to leased lands;

(3) the Secretary and the Secretary of Agriculture may contract with the lessor and/or custom operators to accomplish agriculture work, which work shall be performed in accordance with the Demonstration Program;

(4) no grazing may be performed on a study site;

(5) crops grown shall be the property of the United States; and

(6) at the conclusion of the lease, the lands involved will, to the extent practicable, be restored by the Secretary to their pre-leased condition at no expense to the lessor.

(d) The Secretary of Agriculture shall offer crops grown under the Demonstration Program for sale to the highest bidder under terms and conditions to be prescribed by the Secretary. Any crops not sold shall be disposed of as the Secretary determines to be appropriate, except that no crop may be given away to any for-profit entity or farm operator. All receipts from crop sales shall be covered into the Treasury to the credit of the fund from which appropriations for the conduct of the Demonstration Program are derived.

(e) The land from each ownership in a study site shall be established by the Secretary as a separate farm. The Secretary of Agriculture shall provide for lessors to preserve the cropland base and history on lands leased to the Demonstration Project under the same terms and conditions provided for under section 1236(b) of the Food Security Act of 1985 (7 U.S.C. 3836(b)). Establishment of such study site farms shall not entitle the Secretary to participate in farm programs or to build program base.

(f) The Secretary shall periodically, but not less often than once a year, report to the Committee on Energy and Natural Resources of the Senate, to the Committee on Interior and Insular Affairs and the Committee on Agriculture of the House of Representatives, and to the Governor of South Dakota concerning the activities undertaken pursuant to this section. The Secretary's reports and other information and data developed pursuant to this section shall be available to the public without charge. Each Demonstration Program report, including the report referred to in paragraph (3) of this subsection, shall evaluate data covering the results of the Demonstration Program as carried out on the six study sites during the period covered by the report together with data developed under the wetlands enhancement aspect during that period. The demonstration phase of the Demonstration Program shall terminate at the conclusion of the fifth full irrigation season. Promptly thereafter, the Secretary shall:

(1) remove temporary facilities and equipment and restore the study sites as nearly as practicable to their prelease condition. The Secretary may transfer the pumping plant and/or distribution lines to public agencies for uses other than commercial irrigation if so doing would be less costly than removing such equipment;

(2) otherwise wind up the Demonstration Program; and

(3) prepare, in coordination with the Secretary of Agriculture, a concluding report and recommendations covering the entire demonstration phase, which report shall be transmitted by the Secretary to the Congress and to the Governor of South Dakota not later than April 1 of the calendar year following the calendar year in which the demonstration phase of the Demonstration Program terminates. The Secretary's concluding report, together with other information and data developed in the course of the Demonstration Program, shall be available to the public without charge.

(g) Costs of the Demonstration Program funded by Congressional appropriations shall be accounted for pursuant to the Act of October 29, 1971 (85 Stat. 416). Costs incurred by the State of South Dakota and any agencies thereof arising out of consultation and participation in the Demonstration Program shall not be reimbursed by the United States.

(h) Funding to cover expenses of the Federal agencies participating in the Demonstration Program shall be included in the budget submittals for the Bureau of Reclamation. The Secretary, using only funds appropriated for the Demonstration Program, shall transfer to the other Federal agencies funds appropriated for their expenses.

SEC. 2003. PLANNING REPORTS—ENVIRONMENTAL IMPACT STATEMENTS.

(a) On the basis of the concluding report and recommendations of the Demonstration Program provided for in section 2002, the Secretary, with respect to the Lake Andes-Wagner Unit and the Marty II Unit, shall comply with the study and reporting requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and regulations issued to implement the provisions thereof. The final reports prepared under this subsection shall be transmitted to the Congress simultaneously with their filing with the Environmental Protection Agency.

(b) Each report prepared under subsection (a) shall include a detailed plan providing for the

prevention or avoidance of adverse water quality conditions attributable to agricultural drainage water originating from lands to be irrigated by the Unit to which the report pertains. The Secretary shall not recommend that any funds be appropriated for construction of such Unit unless the respective report prepared pursuant to subsection (a) is accompanied by findings by the Secretary of Agriculture, the Director of the United States Fish and Wildlife Service, and the Administrator of the Environmental Protection Agency that the Unit to which the report pertains can be constructed, operated and maintained so as to comply with all applicable water quality standards and avoid significant adverse effects to fish and wildlife resulting from the bioaccumulation of selenium.

(c) The construction of a Unit may not be undertaken until the final report pertaining to that Unit, and the findings referred to in subsection (b) of this section, have lain before the Congress for not less than one hundred and eighty days and the Congress has appropriated funds for the initiation of construction.

SEC. 2004. AUTHORIZATION OF THE LAKE ANDES-WAGNER UNIT AND THE MARTY II UNIT, SOUTH DAKOTA.

Subject to the requirements of section 2003 of this title, the Secretary is authorized to construct, operate, and maintain the Lake Andes-Wagner Unit and the Marty II Unit, South Dakota, as units of the South Dakota Pumping Divisions, Pick-Sloan Missouri Basin Program. The units shall be integrated physically and financially with other Federal works constructed under the Pick-Sloan Missouri Basin Program.

SEC. 2005. CONDITIONS.

(a) The Lake Andes-Wagner Unit shall be constructed, operated and maintained to irrigate not more than approximately 45,000 acres substantially as provided in the Lake Andes-Wagner Unit Planning Report—Final Environmental Impact Statement filed September 17, 1985, supplemented as provided in section 2003 of this title. The Lake Andes-Wagner Unit shall include on-farm pumps, irrigation sprinkler systems, and other on-farm facilities necessary for the irrigation of not to exceed approximately 1,700 acres of Indian-owned lands. The use of electric power and energy required to operate the facilities for the irrigation of such Indian-owned lands and to provide pressurization for such Indian-owned lands shall be considered to be a project use.

(b) The Marty II Unit shall include a river pump, irrigation distribution system, booster pumps, irrigation sprinkler systems, farm and project drains, electrical distribution facilities, and the pressurization to irrigate not more than approximately 3,000 acres of Indian-owned land in the Yankton-Sioux Indian Reservation, substantially as provided in the final report for the Marty II Unit prepared pursuant to section 2003 of this title.

(c) The construction costs of the Lake Andes-Wagner Unit allocated to irrigation of non-Indian owned lands (both those assigned for return by the water users and those assigned for return from power revenues of the Pick-Sloan Missouri Basin Program) shall be repaid no later than forty years following a determination by the Secretary that the project is substantially complete. Repayment of the construction costs of the Lake Andes-Wagner Unit apportioned to serving Indian-owned lands and of the Marty II Unit allocated to irrigation shall be governed by the Act of July 1, 1932 (47 Stat. 564 Chapter 369; 25 U.S.C. 386a).

(d) Indian-owned lands, or interests therein, required for the Lake Andes-Wagner Unit or the Marty II Unit may, as an alternative to their acquisition pursuant to existing authority under the Federal reclamation laws, be acquired by exchange for land or interests therein of equal or greater value which are owned by the United States and administered by the Secretary or which may be acquired for that purpose by the Secretary.

(e) For purposes of participation of lands in the Lake Andes-Wagner Unit and the Marty II Unit in programs covered by title V of the Agriculture Act of 1949 (7 U.S.C. 1461 et seq.) as amended by subtitle A of title XI of the Food, Agriculture, Conservation and Trade Act of 1990 the crop acreage base determined under title V of that Act as so amended and the program payment yield determined under title V of the Act as so amended shall be the crop acreage base and program payment yield established for the crop year immediately preceding the crop year in which the development period for each Unit is initiated. For any successor programs established for crop years subsequent to 1995, the acreage and yield on which any program payments are based shall be determined without taking into consideration any increase in acreage or yield resulting from the construction and operation of the Units.

(f) Mitigation of fish and wildlife losses incurred as a result of the construction and operation of the facilities authorized by this section shall be concurrent with the construction of the Unit involved and shall be on an acre-for-acre basis, based on ecological equivalency. In addition to the fish and wildlife enhancement to be provided by the fish rearing pond of the Lake Andes Unit, other facilities of that Unit may be utilized to provide fish and wildlife benefits beyond the mitigation required to the extent that such benefits may be provided without increasing costs of construction, operation, maintenance or replacement allocable to irrigation or impairing the efficiency of that Unit for irrigation purposes.

SEC. 2006. INDIAN EMPLOYMENT.

In carrying out sections 2002, 2004 and 2005 of this title, preference shall be given to the employment of members of the Yankton-Sioux Tribe who can perform the work required regardless of age (subject to existing laws and regulations), sex, or religion, and to the extent feasible in connection with the efficient performance of such functions, training and employment opportunities shall be provided to members of the Yankton-Sioux Tribe regardless of age (subject to existing laws and regulations), sex, or religion who are not fully qualified to perform such functions.

SEC. 2007. FEDERAL RECLAMATION LAWS GOVERN.

This title is a supplement to the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts supplemental thereto and amendatory thereof). The Federal reclamation laws shall govern all functions undertaken pursuant to this title, except as otherwise provided in this title.

SEC. 2008. COST SHARING.

(a) IN GENERAL.—The Secretary is authorized and directed to enter into negotiations with State and local interests for an agreement providing for the equitable sharing of the costs of constructing the Lake Andes-Wagner Unit.

(b) The agreement shall include provisions for:

(1) the establishment and capitalization of the non-Federal fund, including, subject to the Secretary's approval, investment policies and selection of the administering financial institution, and including also provisions dealing with withdrawals of moneys in the fund for construction purposes;

(2) the District to administer the design and construction, which shall be subject to the approval of the Secretary, of the distribution and drainage systems for the Lake Andes-Wagner Unit;

(3) financing, from moneys in the fund referred to in paragraph (1), the construction cost of the ring dike; and

(4) financing, from moneys in the fund referred to in paragraph (1), the construction cost of the Unit's closed drainage system; subject to the conditions that:

(A) construction of the closed drainage system shall commence not earlier than the sixth year of full operation of the Unit and shall continue over a period of thirty-five years as required by the Secretary subject to such modifications in the commencement date and the construction period as the Secretary determines to be required on the basis of physical conditions; and

(B) the District, in addition to such annual assessment as may be required to meet its expenses (including operation and maintenance costs and any annual repayment installments to the United States) shall, commencing three years after issuance by the Secretary of a notice that construction of the Unit (other than drainage facilities) has been completed, levy assessments annually of not less than $1.00 per irrigable acre calculated to provide moneys sufficient, together with other moneys in the fund, including anticipated accruals, referred to in paragraph (1), to finance the construction of the closed drainage system.

(c) Notwithstanding any other requirements of this section, the Secretary shall require that the agreement to be negotiated pursuant to this section shall provide that the total non-Federal share of the costs of construction allocable to irrigation of the facilities of the Lake Andes-Wagner Unit to be constructed pursuant to subsection (a) of section 2004 of this title (other than the costs apportionable to serving Indian-owned lands and the facilities described in the second sentence of that subsection) shall be 30 percent. The 30 percent non-Federal share shall include:

(1) funds to be deposited in the non-Federal fund referred to in paragraph (1) of subsection (b) of this section and interest earned thereon;

(2) all funds heretofore or hereafter made available to the United States by non-Federal interests, or expended by such interests, for planning or advance planning assistance for the Lake Andes-Wagner Unit or for the Marty II Unit; and

(3) any feature to which this section applies shall not be initiated until after the District and the State have entered into the cost-share agreement with the United States required by this section.

SEC. 2009. AUTHORIZATION OF APPROPRIATIONS.

(a) LAKE ANDES-WAGNER UNIT.—There are authorized to be appropriated, subject to the findings required pursuant to section 2003(b) of this title—

(1) $175,000,000 (October 1989 price levels) for construction of the Lake Andes-Wagner Unit (other than the facilities described in the second sentence of subsection (a) of section 2005 of this title) less the non-Federal contributions as provided in subsections (b) and (c) of section 2008 of this title; and

(2) $1,350,000 (October 1989 price levels) for construction of the facilities described in the second sentence of subsection (a) of section 2005 of this title, which amounts include costs of the Lake Andes-Wagner Irrigation District in administering design and construction of the irrigation distribution and drainage systems.

(b) MARTY II UNIT.—There are authorized to be appropriated $24,000,000 (January 1989 price levels) for construction by the Bureau of Reclamation in consultation with the Bureau of Indian Affairs of the Marty II Unit.

(c) The amounts authorized to be appropriated by subsections (a) and (b) of this section shall be plus or minus such amounts, if any, as may be required by reason of changes in construction costs as indicated by engineering cost indices applicable to the type of construction involved.

(d) DEMONSTRATION PROGRAM.—There are authorized to be appropriated such amounts as may be necessary to carry out the Demonstration Program.

(e) OPERATION AND MAINTENANCE.—There are authorized to be appropriated such amounts as may be necessary for the operation and maintenance of each Unit.

SEC. 2010. INDIAN WATER RIGHTS.

Nothing in this title shall be construed as affecting any water rights or claims thereto of the Yankton-Sioux tribe.

TITLE XXI—RIO GRANDE FLOODWAY, SAN ACACIA TO BOSQUE DEL APACHE UNIT, NEW MEXICO

SEC. 2101. CLARIFICATION OF COST-SHARE REQUIREMENTS.

Notwithstanding any other provision of law, the project for flood control, Rio Grande Floodway, San Acacia to Bosque del Apache Unit, New Mexico, authorized by section 203 of the Flood Control Act of 1948 (Public Law 80–858) and amended by section 204 of the Flood Control Act of 1950 (Public Law 82–516) is modified to more equitably reflect the non-Federal benefits from the project in relation to the total benefits of the project by reducing the non-Federal contribution for the project by that percentage of benefits which is attributable to the Federal properties: Provided, however, That the Federal property benefits exceed 50 per centum of the total project benefits.

TITLE XXII—SUNNYSIDE VALLEY IRRIGATION DISTRICT, WASHINGTON

SEC. 2201. CONVEYANCE TO SUNNYSIDE VALLEY IRRIGATION DISTRICT.

The Secretary of the Interior shall convey to Sunnyside Valley Irrigation District of Sunnyside, Washington, by quitclaim deed or other appropriate instrument and without consideration, all right, title, and interest of the United States, excluding oil, gas, and other mineral deposits, in and to a parcel of public land described at lots 1 and 2 of block 34 of the town of Sunnyside in section 25, township 10 north, range 22 east, Willamette Meridian, Washington.

TITLE XXIII—PLATORO RESERVOIR AND DAM, SAN LUIS VALLEY PROJECT, COLORADO

SEC. 2301. FINDINGS AND DECLARATIONS.

The Congress finds that and declares the following:

(1) Platoro Dam and Reservoir of the Platoro Unit of the Conejos Division of the San Luis Valley Project was built in 1951 and for all practical purposes has not been usable because of the constraints imposed by the Rio Grande Compact of 1939 on the use of the Rio Grande River among the States of Colorado, New Mexico, and Texas.

(2) The usefulness of Platoro Reservoir under future compact compliance depends upon the careful conservation and wise management of water and requires the operation of the reservoir project in conjunction with privately owned water rights of the local water users.

(3) It is in the best interest of the people of the United States to—

(A) transfer operation, maintenance, and replacement responsibility for the Platoro Dam and Reservoir to the Conejos Water Conservancy District of the State of Colorado, which is the local water user district with repayment responsibility to the United States, and the local representative of the water users with privately owned water rights;

(B) relieve the people of the United States from further risk or obligation in connection with the collection of construction charge repayments and annual operation and maintenance payments for the Platoro Dam and Reservoir by providing for payment of a one-time fee to the United States in lieu of the scheduled annual payments and termination of any further repayment obligation to the United States and the District (Contract No. Ilr–1529, as amended); and

(C) determine such one-time fee, taking into account the assumption by the District of all of the operations and maintenance costs associated with the reservoir, including the existing Federal obligation for the operation and maintenance of the reservoir for flood control purposes, and maintaining a minimum stream flow as provided in section 2302(d) of this title.

SEC. 2302. TRANSFER OF OPERATION AND MAINTENANCE RESPONSIBILITY OF PLATORO RESERVOIR.

(a) IN GENERAL.—The Secretary is authorized and directed to undertake the following:

(1) Accept a one-time payment of $450,000 from the district in lieu of the repayment obligation of paragraphs 8(d) and 11 of the Repayment Contract between the United States and the District (No. Ilr–1529) as amended.

(2) Enter into an agreement for the transfer of all of the operation and maintenance functions of the Platoro Dam and Reservoir, including the operation and maintenance of the reservoir for flood control purposes, to the District. The agreement shall provide—

(A) that the District will have the exclusive responsibility for operations and the sole obligation for all of the maintenance of the reservoir in a satisfactory condition for the life of the reservoir subject to review of such maintenance by the Secretary to ensure compliance with reasonable operation, maintenance and dam safety requirements as they apply to Platoro Dam, and Reservoir under Federal and State law; and,

(B) that the District shall have the exclusive use and sole responsibility for maintenance of all associated facilities, including outlet works, remote control equipment, spillway, and land and buildings in the Platoro townsite. The District shall have sole responsibility for maintaining the land and buildings in a condition satisfactory to the United States Forest Service.

(b) TITLE.—Title to the Platoro Dam and Reservoir and all associated facilities shall remain with the United States, and authority to make recreational use of Platoro Dam and Reservoir shall be under the control and supervision of the United States Forest Service, Department of Agriculture.

(c) AMENDMENTS TO CONTRACT.—The Secretary is authorized to enter into such other amendments to such contract No. Ilr–1529, as amended, necessary to facilitate the intended operations of the project by the District. All applicable provisions of the Federal reclamation laws shall remain in effect with respect to such contract.

(d) CONDITIONS IMPOSED UPON THE DISTRICT.—The transfer of operation and maintenance responsibility under subsection (a) shall be subject to the following conditions:

(1)(A) The district will, after consultation with the United States Forest Service, Department of Agriculture, operate the Platoro Dam and Reservoir in such a way as to provide—

(i) that releases of bypass from the reservoir flush out the channel of the Conejos River periodically in the spring or early summer to maintain the hydrologic regime of the river; and

(ii) that any releases from the reservoir contribute to even flows in the river as far as possible from October 1 to December 1 so as to be sensitive to the brown trout spawn.

(b) Operation of the Platoro Dam and Reservoir by the District for water supply uses (including storage and exchange of water rights owned by the District or its constituents), interstate compact and flood control purposes shall be senior and paramount to the channel flushing and fishery objectives referred to in subparagraph (A).

(2) The District will provide and maintain a permanent pool in the Platoro Reservoir for fish, wildlife, and recreation purposes, in the amount of 3,000 acre-feet, including the initial filling of the pool and periodic replenishment of seepage and evaporation loss: Provided, however, That if necessary to maintain the winter instream flow provided in subparagraph (3), the permanent pool may be allowed to be reduced to 2,400 acre-feet.

(3) In order to preserve fish and wildlife habitat below Platoro Reservoir, the District shall maintain releases of water from Platoro Reservoir of 7 cubic feet per second during the months of October through April and shall bypass 40 cubic feet per second or natural inflow, whichever is less, during the months of May through September.

(4) The United States Forest Service, Department of Agriculture, is directed to regularly monitor operation of Platoro Reservoir, including releases from it for instream flow purposes, and to enforce the provisions of this subsection under the laws, regulations, and rules applicable to the National Forest System.

(e) FLOOD CONTROL MANAGEMENT.—The Secretary of the Army, acting through the Chief of Engineers, shall retain exclusive authority over Platoro Dam and Reservoir for flood control purposes and shall direct the District in the operation of the dam for such purposes. To the extent possible, management by the Secretary of the Army under this subsection shall be consistent with water supply use of the reservoir, with the administration of the Rio Grande compact of 1939 by the Colorado State Engineer and with the provisions of subsection (d) hereof. The Secretary of the Army shall enter into a Letter of Understanding with the District and the United States Bureau of Reclamation prior to transfer of operations which details the responsibility of each party and specifies the flood control criteria for the reservoir.

(f) COMPLIANCE WITH COMPACT AND OTHER LAWS.—The transfer under section 2302 shall be subject to the District's compliance with the Rio Grande Compact of 1939 and all other applicable laws and regulations, whether of the State of Colorado or of the United States.

SEC. 2303. DEFINITIONS.

As used in this title—

(1) the term "District" means the Conejos Water Conservancy District of the State of Colorado;

(2) the term "Federal reclamation laws" means the Act of June 17, 1902 (32 Stat. 388), and Acts supplementary thereto and amendatory thereof;

(3) the term "Platoro Reservoir" means the Platoro Dam and Reservoir of the Platoro Unit of the Conejos Division of the San Luis Valley Project; and

(4) the term "Secretary" means the Secretary of the Interior.

TITLE XXIV—REDWOOD VALLEY COUNTY WATER DISTRICT, CALIFORNIA

SEC. 2401. SALE OF BUREAU OF RECLAMATION LOANS.

(a) The Secretary of the Interior (hereinafter in this title referred to as the "Secretary") shall conduct appropriate investigations regarding, and is authorized to, sell, or accept prepayment on, loans made pursuant to the Small Reclamation Projects Act (43 U.S.C. 422a–4221) to the Redwood Valley County Water District.

(b) Any sale or prepayment of such loans, which are numbered 14–06–200–8423A and 14–06–200–842A Amendatory to the Redwood Valley County Water District, shall realize an amount to the federal government calculated by discounting the remaining payments due on the loans by the interest rate determined according to this section.

(c) The Secretary shall determine the interest rate in accordance with the guidelines set forth

in Circular A-129 issued by the Office of Management and Budget concerning loan sales and prepayment of loans.

(d) In determining the interest rate, the Secretary—

(1) shall not equate an appropriate amount of prepayment with the price of the loan if it were to be sold on the open market to a third party, and

(2) shall, in following the guidelines set forth in Circular A-129 regarding an allowance for administrative expenses and possible losses, make such an allowance from the perspective of the federal government as lender and not from the perspective of a third party purchasing the loan on the open market.

(e) If the borrower or purchaser of the loan has access to tax-exempt financing (including, but not limited to, tax-exempt bonds, tax-exempt cash reserves, and cash and loans of any kind from any tax-exempt entity) to finance the transaction, and if the Office of Management and Budget grants the Secretary the right to conduct such a transaction, then the interest rate by which the Secretary discounts the remaining payments due on the loan shall be adjusted by an amount that compensates the federal government for the direct or indirect loss of future tax revenues.

(f) Notwithstanding any other provision in this title, the interest rate shall not exceed a composite interest rate consisting of the current market yield on Treasury securities of comparable maturities.

(g) The Secretary shall obtain approval from the Secretary of the Treasury and the Director of the Office of Management and Budget of the final terms of any loan sale or prepayment made pursuant to this title.

SEC. 2402. SAVINGS PROVISIONS.

Nothing in this title, including prepayment or other disposition of any loans, shall—

(a) except to the extent that prepayment may have been authorized heretofore, relieve the borrower from the applications of the provisions of Federal Reclamation Law (Act of June 17, 1902, and Acts amendatory thereof or supplementary thereto, including the Reclamation Reform Act of 1982), including acreage limitations, to the extent such provisions would apply absent such prepayment; or

(b) authorize the transfer of title to any federally owned facilities funded by the loans specified in section 2201 of this title without a specific act of Congress.

SEC. 2403. FEES AND EXPENSES OF PROGRAM.

In addition to the amount to be realized by the United States as provided in section 2201, the Redwood Valley County Water District shall pay all reasonable fees and expenses incurred by the Secretary relative to the sale.

SEC. 2404. TERMINATION OF AUTHORITY.

The authority granted by this title to sell loans shall terminate two years after the date of enactment of this Act: Provided, That the borrower shall have at least 60 days to respond to any prepayment offer made by the Secretary.

TITLE XXV—UNITED WATER CONSERVATION DISTRICT, CALIFORNIA

SEC. 2501. SALE OF THE FREEMAN DIVERSION IMPROVEMENT PROJECT LOAN.

(a) AGREEMENT.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of the Interior shall conduct appropriate investigations regarding, and is authorized to sell, or accept prepayment on, the loan contract described in paragraph (2) to the United Water Conservation District in California (referred to in this title as the "District") for the Freeman Diversion Improvement Project.

(2) LOAN CONTRACT.—The loan contract described in paragraph (1) is numbered 7-07-20-W0615 and was entered into pursuant to the Small Reclamation Projects Act of 1956 (43 U.S.C. 422a et seq.).

(b) PAYMENT.—Any agreement negotiated pursuant to subsection (a) shall realize an amount to the Federal Government calculated by discounting the remaining payments due on the loans by the interest rate determined according to this section.

(c) The Secretary shall determine the interest rate in accordance with the guidelines set forth in Circular A-129 issued by the Office of Management and Budget concerning loan sales and prepayment of loans.

(d) In determining the interest rate, the Secretary—

(1) shall not equate an appropriate amount of prepayment with the price of the loan if it were to be sold on the open market to a third party, and

(2) shall, in following the guidelines set forth in Circular A-129 regarding an allowance for administrative expenses and possible losses, make such an allowance from the perspective of the federal government as lender and not from the perspective of a third party purchasing the loan on the open market.

(e) If the borrower or purchaser of the loan has access to tax-exempt financing (including, but not limited to, tax-exempt bonds, tax-exempt cash reserves, and cash and loans of any kind from any tax-exempt entity) to finance the transaction, and if the Office of Management and Budget grants the Secretary the right to conduct such a transaction, then the interest rate by which the Secretary discounts the remaining payments due on the loan shall be adjusted by an amount that compensates the federal government for the direct or indirect loss of future tax revenues.

(f) Notwithstanding any other provision in this title, the interest rate shall not exceed a composite interest rate consisting of the current market yield on Treasury securities of comparable maturities.

(g) The Secretary shall obtain approval from the Secretary of the Treasury and the Director of the Office of Management and Budget of the final terms of any loan sale or prepayment made pursuant to this title.

SEC. 2502. TERMINATION AND CONVEYANCE OF RIGHTS.

Upon receipt of the payment specified in section 2301(b)—

(1) the District's obligation under the loan contract described in section 2301(a)(2) shall be terminated;

(2) the Secretary of the Interior shall convey all right and interest of the United States in the Freeman Diversion Improvement Project to the District; and,

(3) the District shall absolve the United States, and its officers and agents, of any liability associated with the Freeman Diversion Improvement Project.

SEC. 2503. TERMINATION OF AUTHORITY.

The authority granted by this title to sell loans shall terminate two years after the date of enactment of this Act: Provided, That the borrower shall have at least 60 days to respond to any prepayment offer made by the Secretary.

TITLE XXVI—HIGH PLAINS GROUNDWATER PROGRAM

SEC. 2601. HIGH PLAINS STATES GROUNDWATER DEMONSTRATION PROGRAM ACT.

The High Plains States Groundwater Demonstration Program Act of 1983 (43 U.S.C. 390g-1 et seq.) is amended as follows:

(1) Section 4(c)(2) and section 5 are each amended by striking "final report" each place it appears and inserting "summary report".

(2) Section 4(c) is amended by adding at the end the following:

"(3) In addition to recommendations made under section 3, the Secretary shall make additional recommendations for design, construction, and operation of demonstration projects. Such projects are authorized to be designed, constructed, and operated in accordance with subsection (a).

"(4) Each project under this section shall terminate 5 years after the date on which construction on the project is completed.

(5) At the conclusion of phase II the Secretary shall submit a final report to the Congress which shall include, but not be limited to, a detailed evaluation of the projects under this section.".

(3) Section 7 is amended by striking "$20,000,000 (October 1983 price levels)" and inserting in lieu thereof "$31,000,000 (October 1990 price levels) plus or minus such amounts, if any, as may be required by reason of ordinary fluctuations in construction costs as indicated by engineering cost indexes applicable to the type of construction involved herein".

TITLE XXVII—MONTANA IRRIGATION PROJECTS

SEC. 2701. PICK-SLOAN PROJECT PUMPING POWER.

(a) The Secretary of the Interior, in cooperation with the Secretary of Energy, shall make available, as soon as practicable after the date of enactment of this Act, project pumping power from the Pick-Sloan Missouri River Basin Program (authorized by section 9 of the Act entitled "An Act authorizing the construction of certain public works on rivers and harbors for flood control, and for other purposes" approved December 22, 1944 (58 Stat. 891) (commonly known as the "Flood Control Act of 1944") to two existing non-Federal irrigation projects known as the—

(1) Haidle Irrigation Project, Prairie County, Montana; and

(2) Hammond Irrigation District, Rosebud County, Montana.

Provided, That the two districts are determined by the Secretary of Energy to be public agencies, as that term is used in section 9(c) of the Reclamation Project Act of 1939, U.S.C. section 485h(c).

(b) Power made available under this section shall be at the firm power rate.

TITLE XXVIII—RECLAMATION RECREATION MANAGEMENT ACT

SEC. 2801. SHORT TITLE.

This title may be cited as the "Reclamation Recreation Management Act of 1992".

SEC. 2802. FINDINGS.

The Congress finds and declares the following:

(1) There is a Federal responsibility to provide opportunities for public recreation at Federal water projects.

(2) Some provisions of the Federal Water Project Recreation Act are outdated because of increases in demand for outdoor recreation and changes in the economic climate for recreation managing entities.

(3) Provisions of such Act relating to non-Federal responsibility for all costs of operation, maintenance, and replacement of recreation facilities result in an unfair burden, especially in cases where the facilities are old or underdesigned.

(4) Provisions of such Act that limit the Federal share of recreation facility development at water projects completed before 1965 to $100,000 preclude a responsible Federal share in providing adequate opportunities for safe outdoor recreation.

(5) There should be Federal authority to expand existing recreation facilities to meet public demand, in partnership with non-Federal interests.

(6) Nothing in this title changes the responsibility of the Bureau to meet the purposes for

which Federal Reclamation projects were initially authorized and constructed.

(7) It is therefore in the best interest of the people of this Nation to amend the Federal Water Project Recreation Act to remove outdated restrictions and authorize the Secretary of the Interior to undertake specific measures for the management of Reclamation lands.

SEC. 2803. DEFINITIONS.

For the purposes of this title:

(1) The term "Reclamation lands" means real property administered by the Secretary, acting through the Commissioner of Reclamation and includes all acquired and withdrawn lands and water areas under jurisdiction of the Bureau.

(2) The term "Reclamation program" means any activity authorized under the Federal reclamation laws (the Act of June 17, 1902 (32 Stat. 388, chapter 1093; 43 U.S.C. 371)), and Acts supplementary thereto and amendatory thereof).

(3) The term "Reclamation project" means any water supply or water delivery project constructed or administered by the Bureau of Reclamation under the Federal reclamation laws (the Act of June 17, 1902 (32 Stat. 388, chapter 1093; 43 U.S.C. 371), and Acts supplementary thereto and amendatory thereof).

(4) The term "Secretary" means the Secretary of the Interior.

SEC. 2804. AMENDMENTS TO THE FEDERAL WATER PROJECT RECREATION ACT.

(a) ALLOCATION OF COSTS.—Section 2(a) of the Federal Water Project Recreation Act (16 U.S.C. 4601–13a)) is amended, in the matter preceding paragraph (1), by striking "all the costs of operation, maintenance, and replacement" and inserting "not less than one-half the costs of operation, maintenance, and replacement".

(b) RECREATION AND FISH AND WILDLIFE ENHANCEMENT.—Section 3(b)(1) of the Federal Water Project Recreation Act (16 U.S.C. 4601–14(b)(1)) is amended—

(1) by striking "within ten years"; and

(2) by striking "all costs of operation, maintenance, and replacement attributable" and inserting "not less than one-half the costs of planning studies, and the costs of operation, maintenance, and replacement attributable".

(c) LEASE OF FACILITIES.—Section 4 of the Federal Water Project Recreation Act (16 U.S.C. 4601–15) is amended by striking "costs of operation, maintenance, and replacement of existing" and inserting "not less than one-half the costs of operation, maintenance and replacement of existing".

(d) EXPANSION OR MODIFICATION OF EXISTING FACILITIES.—Section 3 of the Federal Water Project Recreation Act (16 U.S.C. 4601–14) is amended by adding at the end the following new subsection:

"(c)(1) Any recreation facility constructed under this Act may be expanded or modified if—

"(A) the facility is inadequate to meet recreational demands; and

"(B) a non-Federal public body executes an agreement which provides that such public body—

(i) will administer the expanded or modified facilities pursuant to a plan for development for the project that is approved by the agency with administrative jurisdiction over the project; and

(ii) will bear not less than one-half of the planning and capital costs of such expansion or modification and not less than one-half of the costs of the operation, maintenance, and replacement attributable to the expansion of the facility.

"(2) The Federal share of the cost of expanding or modifying a recreational facility described in paragraph (1) may not exceed 50 percent of the total cost of expanding or modifying the facility.".

(e) LIMITATION.—Section 7(a) of the Federal Water Project Recreation Act (16 U.S.C. 4601–18(a)) is amended—

(1) by striking "purposes: Provided," and all that follows through the end of the sentence and inserting "purposes"; and

(2) by striking "subsection 3(b)" and inserting "subsection (b) or (c) of section 3".

SEC. 2805. MANAGEMENT OF RECLAMATION LANDS.

(a) ADMINISTRATION.—(1) Upon a determination that any such fee, charge, or commission is reasonable and appropriate, the Secretary acting through the Commissioner of Reclamation, is authorized to establish—

(A) filing fees for applications and other documents concerning entry upon and use of Reclamation lands;

(B) recreation user fees; and

(C) charges or commissions for the use of Reclamation lands.

(2) The Secretary, acting through the Commissioner of Reclamation, shall promulgate such regulations as the Secretary determines to be necessary—

(A) to carry out the provisions of this section and section 2806;

(B) to ensure the protection, comfort, and well-being of the public (including the protection of public safety) with respect to the use of Reclamation lands; and

(C) to ensure the protection of resource values.

(b) INVENTORY.—The Secretary, acting through the Commissioner of Reclamation, is authorized to—

(1) prepare and maintain on a continuing basis an inventory of resources and uses made of Reclamation lands and resources, keep records of such inventory, and make such records available to the public; and

(2) ascertain the boundaries of Reclamation lands and provide a means for public identification (including, where appropriate, providing signs and maps).

(c) PLANNING.—(1)(A) The Secretary, acting through the Commissioner of Reclamation, is authorized to develop, maintain, and revise resource management plans for Reclamation lands.

(B) Each plan described in subparagraph (A)—

(i) shall be consistent with applicable laws (including any applicable statute, regulation, or Executive order);

(ii) shall be developed in consultation with—

(I) such heads of Federal and non-Federal departments or agencies as the Secretary determines to be appropriate; and

(II) the authorized beneficiaries (as determined by the Secretary) of any Reclamation project included in the plan; and

(iii) shall be developed with appropriate public participation.

(C) Each plan described in subparagraph (A) shall provide for the development, use, conservation, protection, enhancement, and management of resources of Reclamation lands in a manner that is compatible with the authorized purposes of the Reclamation project associated with the Reclamation lands.

(d) NONREIMBURSABLE FUNDS.—Funds expended by the Secretary in carrying out the provisions of this title shall be nonreimbursable under the Federal reclamation laws (the Act of June 17, 1902 (32 Stat. 388, chapter 1093; 43 U.S.C. 371), and Acts supplementary thereto and amendatory thereof).

SEC. 2806. PROTECTION OF AUTHORIZED PURPOSES OF RECLAMATION PROJECTS.

(a) Nothing in this title shall be construed to change, modify, or expand the authorized purposes of any Reclamation project.

(b) The expansion or modification of a recreational facility constructed under this title shall not increase the capital repayment responsibilities or operation and maintenance expenses of the beneficiaries of authorized purposes of the associated Reclamation project. The term "beneficiaries" does not include those entities who sign agreements or enter into contracts for recreation facilities pursuant to the Federal Water Project Recreation Act.

TITLE XXIX—SAN JUAN SUBURBAN WATER DISTRICT

SEC. 2901. REPAYMENT OF WATER PUMPS, SAN JUAN SUBURBAN WATER DISTRICT, CENTRAL VALLEY PROJECT, CALIFORNIA.

(a) WATER PUMP REPAYMENT.—The Secretary shall credit to the unpaid capital obligation of the San Juan Suburban Water District (District), as calculated in accordance with the Central Valley Project ratesetting policy, an amount equal to the documented price paid by the District for pumps and motors provided by the District to the Bureau of Reclamation, in 1991 and 1992, for installation at Folsom Dam, Central Valley Project, California.

(b) CONDITIONS.—(1) The amount credited shall not include any indirect or overhead costs associated with the acquisition of the pumps and motors, such as those associated with the negotiation of a sales price or procurement contract, inspection, and delivery of the pumps and motors from the seller to the Bureau of Reclamation.

(2) The credit is effective on the dates the pumps and motors were delivered to the Bureau of Reclamation for installation at Folsom Dam.

TITLE XXX—WESTERN WATER POLICY REVIEW

SEC. 3001. SHORT TITLE.

This title may be cited as the "Western Water Policy Review Act of 1992."

SEC. 3002. CONGRESSIONAL FINDINGS.

The Congress finds that—

(1) the Nation needs an adequate water supply for all states at a reasonable cost;

(2) the demands on the Nation's finite water supply are increasing;

(3) coordination on both the Federal level and the local level is needed to achieve water policy objectives;

(4) not less than fourteen agencies of the Federal Government are currently charged with functions relating to the oversight of water policy;

(5) the diverse authority over Federal water policy has resulted in unclear goals and an inefficient handling of the Nation's water policy;

(6) the conflict between competing goals and objectives by Federal, State, and local agencies as well as by private water users is particularly acute in the nineteen Western States which have arid climates which include the seventeen reclamation States, Hawaii, and Alaska;

(7) the appropriations doctrine of water allocation which characterizes most western water management regimes varies from State to State, and results in many instances in increased competition for limited resources;

(8) the Federal Government has recognized and continues to recognize the primary jurisdiction of the several States over the allocation, priority, and use of water resources of the States, except to the extent such jurisdiction has been preempted in whole or in part by the Federal government, including, but not limited to, express or implied Federal reserved water rights either for itself or for the benefit of Indian Tribes, and that the Federal Government will, in exercising its authorities, comply with applicable State laws;

(9) the Federal Government recognizes its trust responsibilities to protect Indian water rights and assist Tribes in the wise use of those resources;

(10) Federal agencies, such as the Bureau of Reclamation, have had, and will continue to

have major responsibilities in assisting States in the wise management and allocation of scarce water resources; and

(11) the Secretary of the Interior, given his responsibilities for management of public land, trust responsibilities for Indians, administration of the reclamation program, investigations and reviews into ground water resources through the Geologic Survey, and the Secretary of the Army, given his responsibilities for flood control, water supply, hydroelectric power, recreation, and fish and wildlife enhancement, have the resources to assist in a comprehensive review, in consultation with appropriate officials from the nineteen Western States, into the problems and potential solutions facing the nineteen Western States and the Federal Government in the increasing competition for the scarce water resources of the Western States.

SEC. 3003. PRESIDENTIAL REVIEW.

(a) The President is directed to undertake a comprehensive review of Federal activities in the nineteen Western States which directly or indirectly affect the allocation and use of water resources, whether surface or subsurface, and to submit a report on the President's findings, together with recommendations, if any, to the Committees on Energy and Natural Resources, Environment and Public Works and Appropriations of the Senate and the Committees on Interior and Insular Affairs, Public Works and Transportation, Merchant Marine and Fisheries and Appropriations of the House of Representatives.

(b) Such report shall be submitted within three years from the date of enactment of this Act.

(c) In conducting the review and preparing the report, the President is directed to consult with the Advisory Commission established under section 3004 of this title, and may request the Secretary of the Interior and the Secretary of the Army or other federal officials or the Commission to undertake such studies or other analyses as the President determines would assist in the review.

(d) The President shall consult periodically with the Commission, and upon the request of the President, the heads of other Federal agencies are directed to cooperate with and assist the Commission in its activities.

SEC. 3004. THE ADVISORY COMMISSION.

(a) The President shall appoint an Advisory Commission (hereafter in this title referred to as the "Commission") to assist in the preparation and review of the report required under this title.

(b) The Commission shall be composed of eighteen members as follows:

(1) Ten members appointed by the President including:

(A) the Secretary of the Interior or his designee;

(B) the Secretary of the Army or his designee;

(C) at least one representative chosen from a list submitted by the Western Governors Association;

(D) at least one representative chosen from a list submitted by Tribal governments located in the Western states.

(2) In addition to the ten members appointed by the President, twelve Members from the United States Congress shall serve as ex officio members of the Commission. For the United States Senate: the Chairmen and the Ranking Minority Members of the Committees on Energy and Natural Resources, and Appropriations, and the Subcommittee of the Committee on Energy and Natural Resources which has jurisdiction over the Bureau of Reclamation. For the United States House of Representatives: the Chairman and Ranking Minority Members of the Committees on Interior and Insular Affairs, Public Works and Transportation, and Appropriations.

(c) The President shall appoint one member of the Commission to serve as Chairman.

(d) Any vacancy which may occur on the Commission shall be filled in the same manner in which the original appointment was made.

(e) Members of the Commission shall serve without compensation but shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

SEC. 3005. DUTIES OF THE COMMISSION.

The Commission shall—

(1) review present and anticipated water resource problems affecting the nineteen Western States, making such projections of water supply requirements as may be necessary and identifying alternative ways of meeting these requirements—giving considerations, among other things, to conservation and more efficient use of existing supplies, innovations to encourage the most beneficial use of water and recent technological advances.

(2) examine the current and proposed Federal programs affecting such States and recommend to the President whether they should be continued or adopted and, if so, how they should be managed for the next twenty years, including the possible reorganization or consolidation of the current water resources development and management agencies;

(3) review the problems of rural communities relating to water supply, potable water treatment, and wastewater treatment;

(4) review the need and opportunities for additional storage or other arrangements to augment existing water supplies including, but not limited to, conservation;

(5) review the history, use, and effectiveness of various institutional arrangements to address problems of water allocation, water quality, planning, flood control and other aspects of water development and use, including, but not limited to, interstate water compacts, Federal-State regional corporations, river basin commissions, the activities of the Water Resources Council, municipal and irrigation districts and other similar entities with specific attention to the authorities of the Bureau of Reclamation under reclamation law and the Secretary of the Army under water resources law;

(6) review the legal regime governing the development and use of water and the respective roles of both the Federal Government and the States over the allocation and use of water, including an examination of riparian zones, appropriation and mixed systems, market transfers, administrative allocations, ground water management, interbasin transfers, recordation of rights, Federal-State relations including the various doctrines of Federal reserved water rights (including Indian water rights and the development in several States of the concept of a public trust doctrine); and

(7) review the activities, authorities, and responsibilities of the various Federal agencies with direct water resources management responsibility, including but not limited to the Bureau of Reclamation, the Department of the Army, and those agencies whose decisions would impact on water resource availability and allocation, including, but not limited to, the Federal Energy Regulatory Commission.

SEC. 3006. REPRESENTATIVES.

(a) The Chairman of the Commission shall invite the Governor of each Western State to designate a representative to work closely with the Commission and its staff in matters pertaining to this title;

(b) The Commission, at its discretion, may invite appropriate public or private interest groups including, but not limited to, Indian and Tribal organizations to designate a representative to work closely with the Commission and its staff in matters pertaining to this title.

SEC. 3007. POWERS OF THE COMMISSION.

(a) The Commission may—

(1) hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as it may deem advisable;

(2) use the United States mail in the same manner and upon the same conditions as other departments and agencies of the United States;

(3) enter into contracts or agreements for studies and surveys with public and private organizations and transfer funds to Federal agencies to carry out such aspects of the Commission's functions as the Commission determines can best be carried out in that manner; and

(4) incur such necessary expenses and exercise such other powers as are consistent with and reasonably required to perform its functions under this title.

(b) Any member of the Commission is authorized to administer oaths when it is determined by a majority of the Commission that testimony shall be taken or evidence received under oath.

(c) The Commission shall have a Director who shall be appointed by the Commission and who shall be paid at a rate not to exceed the maximum annual rate of basic pay payable for Level II of the Executive Schedule.

(1) With the approval of the Commission, the Director may appoint and fix the pay of such personnel as the Director considers appropriate but only to the extent that such personnel can not be obtained from the Secretary of the Interior or by detail from other federal agencies. Such personnel may be appointed without regard to the provisions of Title 5, United States Code, governing appointments in the competitive service, and may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such Title relating to classification and General Schedule pay rates.

(2) With the approval of the Commission, the Director may procure temporary and intermittent services under section 3109(b) of Title 5 of the United States Code, but at rates for individuals not to exceed the daily equivalent of the maximum annual rate of basic pay payable for GS–18 of the General Schedule.

(d) The Secretary of the Interior and the Secretary of the Army shall provide such office space, furnishings and equipment as may be required to enable the Commission to perform its functions. The Secretary shall also furnish the Commission with such staff, including clerical support, as the Commission may require.

SEC. 3008. POWERS AND DUTIES OF THE CHAIRMAN.

(a) Subject to general policies adopted by the Commission, the Chairman shall be the chief executive of the Commission and shall exercise its executive and administrative powers as set forth in paragraphs (2) through (4) of section 3007(a).

(b) The Chairman may make such provisions as he shall deem appropriate authorizing the performance of any of his executive and administrative functions by the Director or other personnel of the Commission.

SEC. 3009. OTHER FEDERAL AGENCIES.

(a) The Commission shall, to the extent practicable, utilize the services of the Federal water resource agencies.

(b) Upon request of the Commission, the President may direct the head of any other Federal department or agency to assist the Commission and such head of any Federal department or agency is authorized—

(1) to furnish to the Commission, to the extent permitted by law and within the limits of available funds, including funds transferred for that purpose pursuant to section 3007(a)(7) of this title, such information as may be necessary for carrying out its functions and as may be available to or procurable by such department or agency, and

(2) to detail to temporary duty with the Commission on a reimbursable basis such personnel

within his administrative jurisdiction as it may need or believe to be useful for carrying out its functions, each such detail to be without loss of seniority, pay, or other employee status.

(c) Financial and administrative services (including those related to budgeting, accounting, financial reporting, personnel, and procurement) shall be provided the Commission by the Secretary of the Interior.

SEC. 3010. APPROPRIATIONS.

There are hereby authorized to be appropriated not to exceed $10,000,000 to carry out the purposes of sections 3001 through 3009 of this title.

TITLE XXXI—MOUNTAIN PARK MASTER CONSERVANCY DISTRICT, OKLAHOMA

SEC. 3101. PAYMENT BY MOUNTAIN PARK MASTER CONSERVANCY DISTRICT.

(A) In General.—The Secretary shall conduct appropriate investigations regarding, and is authorized to accept prepayment of, the repayment obligation of the District for the reimbursable construction costs of the project allocated to municipal and industrial water supply for the city, and, upon receipt of such prepayment, the District's obligation to the United States shall be reduced by the amount of such costs.

(b) Payment Amount.—Any prepayment made pursuant to subsection (a) shall realize an amount to the Federal Government calculated by discounting the remaining repayment obligation by the interest rate determined according to this section.

(c) Interest Rate.—The Secretary shall determine the interest rate in accordance with the guidelines set forth in Circular A-129 issued by the Office of Management and Budget concerning loan sales and prepayment of loans.

(d) Investigations.—In determining the interest rate, the Secretary—

(1) shall not equate an appropriate amount of prepayment with the price of the loan if it were to be sold on the open market to a third party, and

(2) shall, in following the guidelines set forth in Circular A-129 regarding an allowance for administrative expenses and possible losses, make such an allowance from the perspective of the federal government as lender and not from the perspective of a third party purchasing the loan on the open market.

(e) Tax Exempt Financing.—If the borrower or purchaser of the loan has access to tax-exempt financing (including, but not limited to, tax-exempt bonds, tax-exempt cash reserves, and cash and loans of any kind from any tax-exempt entity) to finance the transaction, and if the Office of Management and Budget grants the Secretary the right to conduct such a transaction, then the interest rate by which the Secretary discounts the remaining payments due on the loan shall be adjusted by an amount that compensates the federal government for the direct or indirect loss of future tax revenues.

(f) Limit on Interest Rate.—Notwithstanding any other provision in this title, the interest rate shall not exceed a composite interest rate consisting of the current market yield on Treasury securities of comparable maturities.

(g) Approval.—The Secretary shall obtain approval from the Secretary of the Treasury and the Director of the Office of Management and Budget of the final terms of any prepayment made pursuant to this title.

(h) Termination of Authority.—The authority granted by this title to sell loans shall terminate two years after the date of enactment of this Act: Provided, That the borrower shall have at least 60 days to respond to any prepayment offer made by the Secretary.

(i) Title to Project Facilities.—Notwithstanding any payments made by the District pursuant to this section or pursuant to any contract with the Secretary, title to the project facilities shall remain with the United States.

(j) Definitions.—For the purposes of this section—

(1) the term "city" means the city of Frederick, Oklahoma; the city of Snyder, Oklahoma; or the city of Altus, Oklahoma;

(2) the term "District" means the Mountain Park Master Conservancy District of Mountain Park, Oklahoma;

(3) the term "project" means the Mountain Park Project, Oklahoma; and

(4) the term "Secretary" means the Secretary of the Interior.

SEC. 3102. RESCHEDULE OF REPAYMENT OBLIGATION.

(a) The Secretary shall conduct appropriate investigations regarding the ability of the District to meet its repayment obligation.

(b) If the Secretary finds that the District does not have the ability to pay its repayment obligation, then the Secretary shall offer the District a revised schedule of payments for purposes of meeting the repayment obligation of the District: Provided, That such schedule of payments shall—

(1) be consistent with the ability to pay of the District, and

(2) have the same discounted present value as the repayment obligation of the District.

(c) The Secretary shall conduct the investigations and make any offer of a revised schedule of payments pursuant to this section no later than 12 months after the date of enactment of this section.

TITLE XXXII—SOUTH DAKOTA PRESERVATION AND RESTORATION TRUST

Subpart A—Biological Diversity Trust

SEC. 3201. SOUTH DAKOTA BIOLOGICAL DIVERSITY TRUST.

(a) The Secretary, subject to the provisions of subsection (d) of this section, shall make an annual Federal contribution to a South Dakota Biological Diversity Trust established in accordance with subsection (b) of this section and operated in accordance with subsection (c) of this section. Contributions from the State of South Dakota may be paid to the Trust in such amounts and in such manner as may be agreed upon by the Governor and the Secretary. The total Federal contribution pursuant to this section, including subsection (d), shall not exceed $12,000,000.

(b) A South Dakota Biological Diversity Trust shall be eligible to receive Federal contributions pursuant to subsection (a) of this section if it complies with each of the following requirements:

(1) The Trust is established by non-Federal interests as a non-profit corporation under the laws of South Dakota with its principal office in South Dakota.

(2) The trust is under the direction of a Board of Trustees which has the power to manage all affairs of the corporation, including administration, data collection, and implementation of the purposes of the Trust.

(3) The Board is comprised of five persons appointed as follows, each for a term of five years:

(A) 1 person appointed by the Governor of South Dakota;

(B) 1 person appointed by each United States Senator from South Dakota;

(C) 1 person appointed by the United States Representative from South Dakota; and

(D) 1 person appointed by the South Dakota Academy of Science.

(4) Vacancies on the Board are filled in the manner in which the original appointments were made. Any member of the Board is eligible for reappointment for successive terms. Any member appointed to fill a vacancy occurring before the expiration of the term for which his or her predecessor was appointed is appointed only for the remainder of such term. A member may serve after the expiration of his or her term until his or her successor has taken office. Members of the Board shall serve without compensation.

(5) The corporate purposes of the Trust are to select and provide funding for projects that protect or restore the best examples of South Dakota's biological diversity, its rare species, exemplary examples of plant and animal communities and large-scale natural ecosystems.

(c) A South Dakota Biological Diversity Trust established by non-Federal interests as provided in subsection (b) shall be deemed to be operating in accordance with this subsection if, in the opinion of the Secretary, each of the following requirements are met:

(1) the Trust is operated to select and provide funding for projects that protect or restore the best examples of South Dakota's biological diversity; its rare species, extraordinary examples of plant and animal communities and large-scale natural ecosystems in accordance with its corporate purpose; and

(2) the Trust is managed in a fiscally responsible fashion by investing in private and public financial vehicles with the goal of producing income and preserving principal. The principal will be inviolate, but income will be used to accomplish the goals of the trust.

(3) Proceeds from the Trust are used for the following purposes;

(A) $10,000 per year or 5 percent of the total funds expended by the Trust (whichever is larger) will be provided to the South Dakota Natural Heritage Program (currently as part of the South Dakota Game, Fish, and Parks Departments), in order to do this following:

(i) maintain and update the South Dakota Biodiversity Priority Site List;

(ii) conduct inventory to discover and survey new sites for the Priority Site List; and

(iii) manage data to maintain the Natural Heritage Databases needed to produce and document the Priority Site List.

(B) Up to 5 percent of the costs of each project are used for preserve design or site planning to ensure that sites are selected for funding which are well-designed to maintain the long-term viability of the significant species and communities found at the site.

(C) Proceeds from the Trust may be used to complete land protection projects designed to protect biological diversity.

(D) Projects may include acquisition of land, water rights or other partial interests from willing sellers only, or arranging management agreements, registry and other techniques to protect significant sites.

(E) Ownership of land acquired with Trust proceeds will be held by the public agency or private non-profit organization which proposed and completed the project, or another conservation owner with the approval of the Board. The land will be managed and used for the protection of biological diversity. If the property is used or managed otherwise, title will revert to the Trust for disposition.

(F) Projects eligible for funding must be included on the South Dakota Biodiversity Priority List and located within the borders of South Dakota.

(G) At the discretion of the Board, Trust proceeds may be used for direct project costs including direct expenses incurred during project completion. Land project funding may also include the creation of a stewardship endowment subject to the following terms:

(i) Up to 25 percent of the total fair market value of the project may be placed in a separate endowment.

(ii) The proceeds from the endowment will be used for the ongoing management costs of maintaining the biological integrity and viability of the significant biological features of the site.

(iii) Endowment funds may not be used for activities which primarily promote recreational or economic use of the site.

(iv) The endowment for each site will be held in a separate account from the body of the Trust and other endowments. The endowments will be managed by the Trust Board but the owner or manager of the site may draw upon the proceeds of the stewardship endowment to fund management activities with approval of the Board. Additional management funds may be secured from other public and private sources.

(H) Should the biological significance of a site be destroyed or greatly reduced, the land may be disposed of but the proceeds and any stewardship endowment will revert to the Trust for use in other projects.

(I) Proceeds from the Trust may be used for management of public or private lands, including but not restricted to lands purchased with Trust funds, except that only those management projects that result in the maintenance or restoration of statewide biological diversity are eligible for consideration.

(d) For each fiscal year after 1992, 2 percent of the Federal contributions for the same fiscal year, determined pursuant to subsection (a) of this section, shall be used by the Secretary in order to do the following:

(1) restore damaged natural ecosystems on public lands and waterways affected by the Reclamation program outside South Dakota;

(2) acquire from willing sellers only other lands and properties or appropriate interests therein outside South Dakota with restorable damaged natural ecosystems and restore such ecosystems;

(3) provide jobs and suitable economic development in a manner that carries out the other purposes of this subsection;

(4) provide expanded recreational opportunities; and

(5) support and encourage research, training and education in methods and technologies of ecosystem restoration.

(e) In implementing subsection (d), the Secretary shall give priority to restoration and acquisition of lands and properties (or appropriate interests therein) where repair of compositional, structural and functional values will do the following:

(1) reconstitute natural biological diversity that has been diminished;

(2) assist the recovery of species populations, communities and ecosystems that are unable to survive onsite without intervention;

(3) allow reintroduction and reoccupation by native flora and fauna;

(4) control or eliminate exotic flora and fauna which are damaging natural ecosystems;

(5) restore natural habitat for the recruitment and survival of fish, waterfowl and other wildlife;

(6) provide additional conservation values to state and local government lands;

(7) add to structural and compositional values of existing preserves or enhance the viability, defensibility and manageability of preserves; and

(8) restore natural hydrological effects including sediment and erosion control, drainage, percolation and other water quality improvement capacity.

(f) The Secretary shall annually report on activities under this section to the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate and the Committee on Interior and Insular Affairs and the Committee on Appropriations of the House of Representatives.

(g) There are authorized to be appropriated not to exceed $12,000,000 for the purposes of this title.

SUBPART B—WETLAND HABITAT RESTORATION PROGRAM

SEC. 3202. DEFINITIONS.

*(a) * * **

(1) the term "Foundation" means the South Dakota Game, Fish and Parks Foundation, a nonprofit corporation under the laws of the State of South Dakota with its principal office in South Dakota; and

(2) the term "wetland trust" means a trust established in accordance with section 3602(b) and operated in accordance with section 3602(c).

SEC. 3203. WETLAND TRUST.

(a) FEDERAL CONTRIBUTIONS.—Subject to appropriations therefore, the Secretary shall make a Federal contribution to a wetland trust that is—

(1) established in accordance with subsection (b); and

(2) operated in accordance with subsection (c), in the amount of $3,000,000 in the first year in which a contribution is made and $1,000,000 in each of the following four years.

(b) ESTABLISHMENT OF WETLAND TRUST.—A wetland trust is established in accordance with this subsection if—

(1) the wetland trust is administered by the Foundation;

(2) the Foundation is under the direction of a Board of Directors that has power to manage all affairs of the Foundation, including administration, data collection, and implementation of the purposes of the wetland trust;

(3) members of the Board of Directors of the Foundation serve without compensation;

(4) the corporate purposes of the Foundation in administering the wetland trust are to preserve, enhance, restore, and manage wetland and associated wildlife habitat in the State of South Dakota;

(5) an advisory committee is created to provide the Board of Directors of the Foundation with necessary technical expertise and the benefit of a multiagency perspective;

(6) the advisory committee described in paragraph (5) is composed of—

(A) 1 member of the staff of the Wildlife Division of the South Dakota Department of Game, Fish and Parks, appointed by the Secretary of that department;

(B) 1 member of the United States Fish and Wildlife Service, appointed by the Director of Region 6 of the United States Fish and Wildlife Service;

(C) 1 representative from the Department of Agriculture, as determined by the Secretary of Agriculture; and

(D) 3 residents of the State of South Dakota who are members of wildlife or environmental organizations, appointed by the Governor of the State of South Dakota; and

(7) the wetland trust is empowered to accept non-Federal donations, gifts, and grants.

(c) OPERATION OF WETLAND TRUST.—The wetland trust shall be considered to be operated in accordance with this subsection if—

(1) the wetland trust is operated to preserve, enhance, restore, and manage wetlands and associated wildlife habitat in the State of South Dakota;

(2) under the corporate charter of the Foundation, the Board of Directors, acting on behalf of the Foundation, is empowered to—

(A) acquire lands and interests in land and power to acquire water rights (but only with the consent of the owner);

(B) acquire water rights; and

(C) finance wetland preservation, enhancement, and restoration programs;

(3)(A) all funds provided to the wetland trust under subsection (a) are to be invested in accordance with subsection (d);

(B) no part of the principal amount (including capital gains thereon) of such funds are to be expended for any purpose;

(C) the income received from the investment of such funds is to be used only for purposes and operations in accordance with this subsection or, to the extent not required for current operations, reinvested in accordance with subsection (d);

(D) income earned by the wetland trust (including income from investments made with funds other than those provided to the wetland trust under subsection (a)) is used to—

(i) enter into joint ventures, through the Division of Wildlife of the South Dakota Department of Game, Fish and Parks, with public and private entities or with private landowners to acquire easements or leases or to purchase wetland and adjoining upland; or

(ii) pay for operation and maintenance of the wetland component;

(E) when it is necessary to acquire land other than wetland and adjoining upland in connection with an acquisition of wetland and adjoining upland, wetland trust funds (including funds other than those provided to the wetlands trust under subsection (a) and income from investments made with such funds) are to be used only for acquisition of the portions of land that contain wetland and adjoining upland that is beneficial to the wetland;

(F) all land purchased in fee simple with wetland trust funds shall be dedicated to wetland preservation and use; and

(G)(i) proceeds of the sale of land or any part thereof that was purchased with wetland trust funds are to be remitted to the wetland trust;

(ii) management, operation, development, and maintenance of lands on which leases or easements are acquired;

(iii) payment of annual lease fees, one-time easement costs, and taxes on land areas containing wetlands purchased in fee simple;

(iv) payment of personnel directly related to the operation of the wetland trust, including administration; and

(v) contractual and service costs related to the management of wetland trust funds, including audits.

(4) the Board of Directors of the Foundation agrees to provide such reports as may be required by the Secretary and makes its records available for audit by Federal agencies; and

(5) the advisory committee created under subsection (b)—

(A) recommends criteria for wetland evaluation and selection: Provided, That income earned from the Trust shall not be used to mitigate or compensate for wetland damage caused by Federal water projects;

(B) recommends wetland parcels for lease, easement, or purchase and states reasons for its recommendations; and

(C) recommends management and development plans for parcels of land that are purchased.

(d) INVESTMENT OF WETLAND TRUST FUNDS.—(1) The Secretary, in consultation with the Secretary of the Treasury, shall establish requirements for the investment of all funds received by the wetland trust under subsection (a) or reinvested under subsection (c)(3).

(2) The requirements established under paragraph (1) shall ensure that—

(A) funds are invested in accordance with sound investment principles; and

(B) the Board of Directors of the Foundation manages such investments and exercises its fiduciary responsibilities in an appropriate manner.

(e) COORDINATION WITH THE SECRETARY OF AGRICULTURE.—(1) The Secretary shall make the Federal contribution under subsection (a) after consulting with the Secretary of Agriculture to provide for the coordination of activities under the wetland trust established under subsection (b) with the water bank program, the wetlands reserve program, and any similar Department of Agriculture programs providing for the protection of wetlands.

(2) The Secretary of Agriculture shall take into consideration wetland protection activities

under the wetland trust established under subsection (b) when considering whether to provide assistance under the water bank program, the wetlands reserve program, and any similar Department of Agriculture programs providing for the protection of wetlands.

SEC. 3204. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to the Secretary $7,000,000 for the Federal contribution to the wetland trust established under section 3203.

TITLE XXXIII—ELEPHANT BUTTE IRRIGATION DISTRICT, NEW MEXICO

SEC. 3301. TRANSFER.

The Secretary is authorized to transfer to the Elephant Butte Irrigation District, New Mexico, and El Paso County Water Improvement District No. 1, Texas, without cost to the respective district, title to such easements, ditches, laterals, canals, drains, and other rights-of-way, which the United States has acquired on behalf of the project, that are used solely for the purpose of serving the respective district's lands and which the Secretary determines are necessary to enable the respective district to carry out operation and maintenance with respect to that portion of the Rio Grande project to be transferred. The transfer of the title to such easements, ditches, laterals, canals, drains, and other rights-of-way located in New Mexico, which the Secretary has, that are used for the purpose of jointly serving Elephant Butte Irrigation District and El Paso County Water Improvement District No. 1, may be transferred to Elephant Butte Irrigation District and El Paso County Water Improvement District No. 1, jointly, upon agreement by the Secretary and both districts. Any transfer under this section shall be subject to the condition that the respective district assume responsibility for operating and maintaining their portion of the project.

SEC. 3302. LIMITATION.

Title to and responsibility for operation and maintenance of Elephant Butte and Caballo dams, and Percha, Leasburg, and Mesilla diversion dams and the works necessary for their protection and operation shall be unaffected by this title.

SEC. 3303. EFFECT OF ACT ON OTHER LAWS.

Nothing in this title shall affect any right, title, interest or claim to land or water, if any, of the Ysleta del Sur Pueblo, a federally recognized Indian Tribe.

TITLE XXXIV—CENTRAL VALLEY PROJECT IMPROVEMENT ACT

SEC. 3401. SHORT TITLE.

This title may be cited as the "Central Valley Project Improvement Act."

SEC. 3402. PURPOSES.

The purposes of this title shall be:

(a) to protect, restore, and enhance fish, wildlife, and associated habitats in the Central Valley and Trinity River basins of California;

(b) to address impacts of the Central Valley Project on fish, wildlife and associated habitats;

(c) to improve the operational flexibility of the Central Valley Project;

(d) to increase water-related benefits provided by the Central Valley Project to the State of California through expanded use of voluntary water transfers and improved water conservation;

(e) to contribute to the State of California's interim and long-term efforts to protect the San Francisco Bay/Sacramento-San Joaquin Delta Estuary;

(f) to achieve a reasonable balance among competing demands for use of Central Valley Project water, including the requirements of fish and wildlife, agricultural, municipal and industrial and power contractors.

SEC. 3403. DEFINITIONS.

As used in this title—

(a) the term "anadromous fish" means those stocks of salmon (including steelhead), striped bass, sturgeon, and American shad that ascend the Sacramento and San Joaquin rivers and their tributaries and the Sacramento-San Joaquin Delta to reproduce after maturing in San Francisco Bay or the Pacific Ocean;

(b) the terms "artificial propagation" and "artificial production" mean spawning, incubating, hatching, and rearing fish in a hatchery or other facility constructed for fish production;

(c) the term "Central Valley Habitat Joint Venture" means the association of Federal and State agencies and private parties established for the purpose of developing and implementing the North American Waterfowl Management Plan as it pertains to the Central Valley of California;

(d) the terms "Central Valley Project" or "project" mean all Federal reclamation projects located within or diverting water from or to the watershed of the Sacramento and San Joaquin rivers and their tributaries as authorized by the Act of August 26, 1937 (50 Stat. 850) and all Acts amendatory or supplemental thereto, including but not limited to the Act of October 17, 1940 (54 Stat. 1198, 1199), Act of December 22, 1944 (58 Stat. 887), Act of October 14, 1949 (63 Stat. 852), Act of September 26, 1950 (64 Stat. 1036), Act of August 27, 1954 (68 Stat. 879), Act of August 12, 1955 (69 Stat. 719), Act of June 3, 1960 (74 Stat. 156), Act of October 23, 1962 (76 Stat. 1173), Act of September 2, 1965 (79 Stat. 615), Act of August 19, 1967 (81 Stat. 167), Act of August 27, 1967 (81 Stat. 173), Act of October 23, 1970 (84 Stat. 1097), Act of September 28, 1976 (90 Stat. 1324) and Act of October 27, 1986 (100 Stat. 3050);

(e) the term "Central Valley Project service area" means that area of the Central Valley and San Francisco Bay Area where water service has been expressly authorized pursuant to the various feasibility studies and consequent congressional authorizations for the Central Valley Project;

(f) the term "Central Valley Project water" means all water that is developed, diverted, stored, or delivered by the Secretary in accordance with the statutes authorizing the Central Valley Project and in accordance with the terms and conditions of water rights acquired pursuant to California law;

(g) the term "full cost" has the meaning given such term in paragraph (3) of section 202 of the Reclamation Reform Act of 1982;

(h) the term "natural production" means fish produced to adulthood without direct human intervention in the spawning, rearing, or migration processes;

(i) the term "Reclamation laws" means the Act of June 17, 1902 (82 Stat. 388) and all Acts amendatory thereof or supplemental thereto;

(j) the term "Refuge Water Supply Report" means the report issued by the Mid-Pacific Region of the Bureau of Reclamation of the U.S. Department of the Interior entitled Report on Refuge Water Supply Investigations, Central Valley Hydrologic Basin, California (March 1989);

(k) the terms "repayment contract" and "water service contract" have the same meaning as provided in sections 9(d) and 9(e) of the Reclamation Project Act of 1939 (53 Stat. 1187, 1195), as amended;

(l) the terms "Restoration Fund" and "Fund" mean the Central Valley Project Restoration Fund established by this title; and,

(m) the term "Secretary" means the Secretary of the Interior.

SEC. 3404. LIMITATION ON CONTRACTING AND CONTRACT REFORM.

(a) NEW CONTRACTS.—Except as provided in subsection (b) of this section, the Secretary shall not enter into any new short-term, temporary, or long-term contracts or agreements for water supply from the Central Valley Project for any purpose other than fish and wildlife before:

(1) the provisions of subsections 3406(b)–(d) of this title are met;

(2) the California State Water Resources Control Board concludes the review ordered by the California Court of Appeals in U.S. v. State Water Resources Control Board, 182 Cal. App. 3rd 82 (1986) and determines the means of implementing its decision, including the obligations of the Central Valley Project, if any, and the Administrator of the Environmental Protection Agency shall have approved such decision pursuant to existing authorities; and,

(3) at least one hundred and twenty days shall have passed after the Secretary provides a report to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs and the Committee on Merchant Marine and Fisheries of the House of Representatives explaining the obligations, if any, of the Central Valley Project system, including its component facilities and contracts, with regard to achieving its responsibilities for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary as finally established and approved by relevant State and Federal authorities, and the impact of such obligations on Central Valley Project operations, supplies, and commitments.

(b) EXCEPTIONS TO LIMIT ON NEW CONTRACTS.—The prohibition on execution of new contracts under subsection (a) of this section shall not apply to contracts executed pursuant to section 305 of Pub. L. 102–250 or section 206 of Pub. L. 101–514 or to one-year contracts for delivery of surplus flood flows or contracts not to exceed two years in length for delivery of class II water in the Friant Unit. Notwithstanding the prohibition in the Energy and Water Development Appropriations Act of 1990, the Secretary is authorized, pursuant to section 203 of the Flood Control Act of 1962, to enter into a long-term contract in accordance with the Reclamation laws with the Tuolumne Regional Water District, California, for the delivery of water from the New Melones project to the county's water distribution system and a contract with the Secretary of Veteran Affairs to provide for the delivery in perpetuity of water from the project in quantities sufficient, but not to exceed 850 acre-feet per year, to meet the needs of the San Joaquin Valley National Cemetery, California.

(c) RENEWAL OF EXISTING LONG-TERM CONTRACTS.—Notwithstanding the provisions of the Act of July 2, 1956 (70 Stat. 483), the Secretary shall, upon request, renew any existing long-term repayment or water service contract for the delivery of water from the Central Valley Project for a period of 25 years and may renew such contracts for successive periods of up to 25 years each.

(1) No such renewals shall be authorized until appropriate environmental review, including the preparation of the environmental impact statement required in section 3409 of this title, has been completed. Contracts which expire prior to the completion of the environmental impact statement required by section 3409 may be renewed for an interim period not to exceed three years in length, and for successive interim periods of not more than two years in length, until the environmental impact statement required by section 3409 has been finally completed, at which time such interim renewal contracts shall be eligible for long-term renewal as provided above. Such interim renewal contracts shall be modified to comply with existing law, including provisions of this title. With respect to all contracts renewed by the Secretary since January 1, 1988, the Secretary shall incorporate in said contracts a provision requiring payment of the charge mandated in subsection 3406(c) and sub-

section 3407(b) of this title and all other modifications needed to comply with existing law, including provisions of this title. This title shall be deemed "applicable law" as that term is used in Article 14(c) of contracts renewed by the Secretary since January 1, 1988.

(2) Upon renewal of any long-term repayment or water service contract providing for the delivery of water from the Central Valley Project, the Secretary shall incorporate all requirements imposed by existing law, including provisions of this title, within such renewed contracts. The Secretary shall also administer all existing, new, and renewed contracts in conformance with the requirements and goals of this title.

(3) In order to encourage early renewal of project water contracts and facilitate timely implementation of this title, the Secretary shall impose on existing contractors an additional mitigation and restoration payment of one and one-half times the annual mitigation and restoration payment calculated under subsection 3407(d) of this title for every year starting October 1, 1997 or January 1 of the year following the year in which the environmental impact statement required under section 3409 is completed, whichever is sooner, and ending on the effective date of the renewed contract payable prior to the renewal of such contract, to be covered to the Restoration Fund; Provided, however, That this paragraph shall not apply to contracts renewed after January 1, 1988, and prior to the date of enactment of this title or, in the event the environmental impact statement required by section 3409 is not completed by October 1, 1997, to any holder of a contract in existence on the date of enactment of this title who enters into a binding agreement with the Secretary prior to October 1, 1997, to renew its contract immediately upon completion of that environmental impact statement, if such contract has not expired prior to such date.

SEC. 3405. WATER TRANSFERS, IMPROVED WATER MANAGEMENT AND CONSERVATION.

(a) WATER TRANSFERS.—In order to assist California urban areas, agricultural water users, and others in meeting their future water needs, subject to the conditions and requirements of this subsection, all individuals or districts who receive Central Valley Project water under water service or repayment contracts, water rights settlement contracts or exchange contracts entered into prior to or after the date of enactment of this title are authorized to transfer all or a portion of the water subject to such contract to any other California water user or water agency, State or Federal agency, Indian Tribe, or private non-profit organization for project purposes or any purpose recognized as beneficial under applicable State law. Except as provided herein, the terms of such transfers shall be set by mutual agreement between the transferee and the transferor.

(1) CONDITIONS FOR TRANSFERS.—All transfers to Central Valley Project water authorized by this subsection shall be subject to review and approval by the Secretary under the conditions specified in this subsection. Transfers involving more than 20 percent of the Central Valley Project water subject to long-term contract within any contracting district or agency shall also be subject to review and approval by such district or agency under the conditions specified in this subsection:

(A) No transfer to combination of transfers authorized by this subsection shall exceed, in any year, the average annual quantity of water under contract actually delivered to the contracting district or agency during the last three years of normal water delivery prior to the date of enactment of this title.

(B) All water under the contract which is transferred under authority of this subsection to any district or agency which is not a Central Valley Project contractor at the time of enactment of this title shall, if used for irrigation purposes, be repaid at the greater of the full-cost or cost of service rates, or, if the water is used for municipal and industrial purposes, at the greater of the cost of service or municipal and industrial rates.

(C) No transfers authorized by this subsection shall be approved unless the transfer is between a willing buyer and a willing seller under such terms and conditions as may be mutually agreed upon.

(D) No transfer authorized by this subsection shall be approved unless the transfer is consistent with State law, including but not limited to provisions of the California Environmental Quality Act.

(E) All transfers authorized by this subsection shall be deemed a beneficial use of water by the transferor for the purposes of section 8 of the Act of June 17, 1902, 32 Stat. 390, 43 U.S.C. 372.

(F) All transfers entered into pursuant to this subsection for uses outside the Central Valley Project service area shall be subject to a right of first refusal on the same terms and conditions by entities within the Central Valley Project service area. The right of first refusal must be exercised within ninety days from the date that notice is provided of the proposed transfer. Should an entity exercise the right of first refusal, it must compensate the transferee who had negotiated the agreement upon which the right of first refusal is being exercised for that entity's total costs associated with the development and negotiation of the transfer.

(G) No transfer authorized by this subsection shall be considered by the Secretary as conferring supplemental or additional benefits on Central Valley Project water contractors as provided in section 203 of Public Law 97-293 (43 U.S.C. 390(cc)).

(H) The Secretary shall not approve a transfer authorized by this subsection unless the Secretary has determined, consistent with paragraph 3405(a)(2) of this title, that the transfer will not violate the provisions of this title or other Federal law and will have no significant adverse effect on the Secretary's ability to deliver water pursuant to the Secretary's Central Valley Project contractual obligations or fish and wildlife obligations under this title because of limitations in conveyance or pumping capacity.

(I) The water subject to any transfer undertaken pursuant to this subsection shall be limited to water that would have been consumptively used or irretrievably lost to beneficial use during the year or years of the transfer.

(J) The Secretary shall not approve a transfer authorized by this subsection unless the Secretary determines, consistent with paragraph 3405(a)(2) of this title, that such transfer will have no significant long-term adverse impact on groundwater conditions in the transferor's service area.

(K) The Secretary shall not approve a transfer unless the Secretary determines, consistent with paragraph 3405(a)(2) of this title, that such transfer will have no unreasonable impact on the water supply, operations, or financial conditions of the transferor's contracting district or agency or its water users.

(L) The Secretary shall not approve a transfer if the Secretary determines, consistent with paragraph 3405(a)(2) of this title, that such transfer would result in a significant reduction in the quantity or decrease in the quality of water supplies currently used for fish and wildlife purposes, unless the Secretary determines pursuant to findings setting forth the basis for such determination that such adverse effects would be more than offset by the benefits of the proposed transfer. In the event of such a determination, the Secretary shall develop and implement alternative measures and mitigation activities as integral and concurrent elements of any such transfer to provide fish and wildlife benefits substantially equivalent to those lost as a consequence of such transfer.

(M) Transfers between Central Valley Project contractors within countries, watersheds, or other areas of origin, as those terms are utilized under California law, shall be deemed to meet the conditions set forth in subparagraphs (A) and (I) of this paragraph.

(2) REVIEW AND APPROVAL OF TRANSFERS.—All transfers subject to review and approval under this subsection shall be reviewed and approved in a manner consistent with the following:

(A) Decisions on water transfers subject to review by a contracting district or agency or by the Secretary shall be rendered within ninety days of receiving a written transfer proposal from the transferee or transferor. Such written proposal should provide all information reasonably necessary to determine whether the transfer complies with the terms and conditions of this subsection.

(B) All transfers subject to review by a contracting district or agency shall be reviewed in a public process similar to that provided for in section 226 of Pub. L. 97-293.

(C) The contracting district or agency or the Secretary shall approve all transfers subject to review and approval by such entity if such transfers are consistent with the terms and conditions of this subsection. To disapprove a transfer, the contracting district or agency or the Secretary shall inform the transferee and transferor, in writing, why the transfer does not comply with the terms and conditions of this subsection and what alternatives, if any, could be included so that the transfer would reasonably comply with the requirements of this subsection.

(D) If the contracting district or agency or the Secretary fails to approve or disapprove a proposed transfer within ninety days of receiving a complete written proposal from the transferee or transferor, then the transfer shall be deemed approved.

(3) Transfers executed after September 30, 1999 shall only be governed by the provisions of subparagraphs 3405(a)(1)(A)-(C), (E), (G), (H), (I), (L), and (M) of this title, and by State law.

(b) METERING OF WATER USE REQUIRED.—All Central Valley Project water service or repayment contracts for agricultural, municipal, or industrial purposes that are entered into, renewed, or amended under any provision of Federal Reclamation law after the date of enactment of this title, shall provide that the contracting district or agency shall ensure that all surface water delivery systems within its boundaries are equipped with water measuring devices or water measuring methods of comparable effectiveness acceptable to the Secretary within five years of the date of contract execution, amendment, or renewal, and that any new surface water delivery systems installed within its boundaries on or after the date of contract renewal are so equipped. The contracting district or agency shall inform the Secretary and the State of California annually as to the monthly volume of surface water delivered within its boundaries.

(c) STATE AND FEDERAL WATER QUALITY STANDARDS.—All Central Valley Project water service or repayment contracts for agricultural, municipal, or industrial purposes that are entered into, renewed, or amended under any provision of Federal Reclamation law after the date of enactment of this title, shall provide that the contracting district or agency shall be responsible for compliance with all applicable State and Federal water quality standards applicable to surface and subsurface agricultural drainage discharges generated within its boundaries. This

subsection shall not affect or alter any legal obligation of the Secretary to provide drainage services.

(d) WATER PRICING REFORM.—All Central Valley Project water service or repayment contracts for a term longer than three years for agricultural, municipal, or industrial purposes that are entered into, renewed, or amended under any provision of Federal Reclamation law after the date of enactment of this title shall provide that all project water subject to contract shall be made available to districts, agencies, and other contracting entities pursuant to a system of tiered water pricing. Such a system shall specify rates for each district, agency or entity based on a inverted block rate structure with the following provisions:

(1) the first rate tier shall apply to a quantity of water up to 80 percent of the contract total and shall not be less than the applicable contract rate;

(2) the second rate tier shall apply to that quantity of water over 80 percent and under 90 percent of the contract total and shall be at a level halfway between the rates established under paragraphs (1) and (3) of this subsection;

(3) the third rate tier shall apply to that quantity of water over 90 percent of the contract total and shall not be less than the full cost rate; and

(4) the Secretary shall charge contractors only for water actually delivered.

The Secretary shall waive application of this subsection as it relates to any project water delivered to produce a crop which the Secretary determines will provide significant and quantifiable habitat values for waterfowl in fields where the water is used and the crops are produced; Provided, That such waiver shall apply only if such habitat values can be assured consistent with the goals and objectives of this title through binding agreements executed with or approved by the Secretary.

(e) WATER CONSERVATION STANDARDS.—The Secretary shall establish and administer an office on Central Valley Project water conservation best management practices that shall, in consultation with the Secretary of Agriculture, the California Department of Water Resources, California academic institutions, and Central Valley Project water users, develop criteria for evaluating the adequacy of all water conservation plans developed by project contractors, including those plans required by section 210 of the Reclamation Reform Act of 1982.

(1) Criteria developed pursuant to this subsection shall be established within six months following enactment of this title and shall be reviewed periodically thereafter, but no less than every three years, with the purpose of promoting the highest level of water use efficiency reasonably achievable by project contractors using best available cost-effective technology and best management practices. The criteria shall include, but not be limited to agricultural water suppliers' efficient water management practices developed pursuant to California State law or reasonable alternatives.

(2) The Secretary, through the office established under this subsection, shall review and evaluate within 18 months following enactment of this title all existing conservation plans submitted by project contractors to determine whether they meet the conservation and efficiency criteria established pursuant to this subsection.

(3) In developing the water conservation best management practice criteria required by this subsection, the Secretary shall take into account and grant substantial deference to the recommendations for action specific to water conservation and drainage source reduction proposed in the Final Report of the San Joaquin Valley Drainage Program, entitled A Management Plan for Agricultural Subsurface Drainage and Related Problems on the Westside San Joaquin Valley (September 1990).

(f) INCREASED REVENUES.—All revenues received by the Secretary as a result of the increased repayment rates applicable to water transferred from irrigation use to municipal and industrial use under subsection 3405(a) of this section, and all increased revenues received by the Secretary as a result of the increased water prices established under subsection 3405(d) of this section, shall be covered to the Restoration Fund.

SEC. 3406. FISH, WILDLIFE AND HABITAT RESTORATION.

(a) AMENDMENTS TO CENTRAL VALLEY PROJECT AUTHORIZATIONS.—Act of August 26, 1937.—Section 2 of the Act of August 26, 1937 (chapter 832; 50 Stat. 850), as amended, is amended—

(1) in the second proviso of subsection (a), by inserting "and mitigation, protection, and restoration of fish and wildlife" after "Indian reservations,";

(2) in the last proviso of subsection (a), by striking "domestic uses;" and inserting "domestic uses and fish and wildlife mitigation, protection and restoration purposes;" and by striking "power" and inserting "power and fish and wildlife enhancement";

(3) by adding at the end the following: "The mitigation for fish and wildlife losses incurred as a result of construction, operation, or maintenance of the Central Valley Project shall be based on the replacement of ecologically equivalent habitat and shall take place in accordance with the provisions of this title and concurrent with any future actions which adversely affect fish and wildlife populations or their habitat but shall have no priority over them."; and

(4) by adding at the end the following: "(e) Nothing in this title shall affect the State's authority to condition water rights permits for the Central Valley Project."

(b) FISH AND WILDLIFE RESTORATION ACTIVITIES.—The Secretary, immediately upon the enactment of this title, shall operate the Central Valley Project to meet all obligations under state and federal law, including but not limited to the federal Endangered Species Act, 16 U.S.C. §1531, et seq., and all decisions of the California State Water Resources Control Board establishing conditions on applicable licenses and permits for the project. The Secretary, in consultation with other State and Federal agencies, Indian tribes, and affected interests, is further authorized and directed to:

(1) develop within three years of enactment and implement a program which makes all reasonable efforts to ensure that, by the year 2002, natural production of anadromous fish in Central Valley rivers and streams will be sustainable, on a long-term basis, at levels not less than twice the average levels attained during the period of 1967–1991; Provided, That this goal shall not apply to the San Joaquin River between Friant Dam and the Mendota Pool, for which a separate program is authorized under subsection 3406(c) of this title; Provided further, That the programs and activities authorized by this section shall, when fully implemented, be deemed to meet the mitigation, protection, restoration, and enhancement purposes established by subsection 3406(a) of this title; And provided further, That in the course of developing and implementing this program the Secretary shall make all reasonable efforts consistent with the requirements of this section to address other identified adverse environmental impacts of the Central Valley Project not specifically enumerated in this section.

(A) This program shall give first priority to measures which protect and restore natural channel and riparian habitat values through habitat restoration actions, modifications to Central Valley Project operations, and implementation of the supporting measures mandated by this subsection; shall be reviewed and updated every five years; and shall describe how the Secretary intends to operate the Central Valley Project to meet the fish, wildlife, and habitat restoration goals and requirements set forth in this title and other project purposes.

(B) As needed to achieve the goals of this program, the Secretary is authorized and directed to modify Central Valley Project operations to provide flows of suitable quality, quantity, and timing to protect all life stages of anadromous fish, except that such flows shall be provided from the quantity of water dedicated to fish, wildlife, and habitat restoration purposes under paragraph (2) of this subsection; from the water supplies acquired pursuant to paragraph (3) of this subsection; and from other sources which do not conflict with fulfillment of the Secretary's remaining contractual obligations to provide Central Valley Project water for other authorized purposes. Instream flow needs for all Central Valley Project controlled streams and rivers shall be determined by the Secretary based on recommendations of the U.S. Fish and Wildlife Service after consultation with the California Department of Fish and Game.

(C) The Secretary shall cooperate with the State of California to ensure that, to the greatest degree practicable, the specific quantities of yield dedicated to and managed for fish and wildlife purposes under this title are credited against any additional obligations of the Central Valley Project which may be imposed by the State of California following enactment of this title, including but not limited to increased flow and reduced export obligations which may be imposed by the California State Water Resources Control Board in implementing San Francisco Bay/Sacramento-San Joaquin Delta Estuary standards pursuant to the review ordered by the California Court of Appeals in U.S. v. State Water Resources Control Board, 182 Cal.App.3rd 82 (1986), and that, to the greatest degree practicable, the programs and plans required by this title are developed and implemented in a way that avoids inconsistent or duplicative obligations from being imposed upon Central Valley Project water and power contractors.

(D) Costs associated with this paragraph shall be reimbursable pursuant to existing statutory and regulatory procedures.

(2) upon enactment of this title dedicate and manage annually 800,000 acre-feet of Central Valley Project yield for the primary purpose of implementing the fish, wildlife, and habitat restoration purposes and measures authorized by this title; to assist the State of California in its efforts to protect the waters of the San Francisco Bay/Sacramento-San Joaquin Delta Estuary; and to help to meet such obligations as may be legally imposed upon the Central Valley Project under state or federal law following the date of enactment of this title, including but not limited to additional obligations under the federal Endangered Species Act. For the purpose of this section, the term "Central Valley Project yield" means the delivery capability of the Central Valley Project during the 1928–1934 drought period after fishery, water quality, and other flow and operational requirements imposed by terms and conditions existing in licenses, permits, and other agreements pertaining to the Central Valley Project under applicable State or Federal law existing at the time of enactment of this title have been met.

(A) Such quantity of water shall be in addition to the quantities needed to implement paragraph 3406(d)(1) of this title and in addition to all water allocated pursuant to paragraph (23) of this subsection for release to the Trinity River

for the purposes of fishery restoration, propagation, and maintenance; and shall be supplemented by all water that comes under the Secretary's control pursuant to subsections 3406(b)(3), 3408(h)–(i), and through other measures consistent with subparagraph 3406(b)(1)(B) of this title.

(B) Such quantity of water shall be managed pursuant to conditions specified by the U.S. Fish and Wildlife Service after consultation with the Bureau of Reclamation and the California Department of Water Resources and in cooperation with the California Department of Fish and Game.

(C) The Secretary may temporarily reduce deliveries of the quantity of water dedicated under this paragraph up to 25 percent of such total whenever reductions due to hydrologic circumstances are imposed upon agricultural deliveries of Central Valley Project water; Provided, That such reductions shall not exceed in percentage terms the reductions imposed on agricultural service contractors; provided further, That nothing in this subsection or subsection 3406(e) shall require the Secretary to operate the project in a way that jeopardizes human health or safety.

(D) If the quantity of water dedicated under this paragraph, or any portion thereof, is not needed for the purposes of this section, based on a finding by the Secretary, the Secretary is authorized to make such water available for other project purposes.

(3) develop and implement a program in coordination and in conformance with the plan required under paragraph (1) of this subsection for the acquisition of a water supply to supplement the quantity of water dedicated to fish and wildlife purposes under paragraph (2) of this subsection and to fulfill the Secretary's obligations under paragraph 3406(d)(2) of this title. The program should identify how the Secretary intends to utilize, in particular the following options: improvements in or modifications of the operations of the project; water banking; conservation; transfers; conjunctive use; and temporary and permanent land fallowing, including purchase, lease, and option of water, water rights, and associated agricultural land.

(4) develop and implement a program to mitigate for fishery impacts associated with operations of the Tracy Pumping Plant. Such program shall include, but is not limited to improvement or replacement of the fish screens and fish recovery facilities and practices associated with the Tracy Pumping Plant. Costs associated with this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California. The reimbursable share of funding for this and other facility repairs, improvements, and construction shall be allocated among project water and power users in accordance with existing project cost allocation procedures.

(5) develop and implement a program to mitigate for fishery impacts resulting from operations of the Contra Costa Canal Pumping Plant No. 1. Such program shall provide for construction and operation of fish screening and recovery facilities, and for modified practices and operations. Costs associated with this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(6) install and operate a structural temperature control device at Shasta Dam and develop and implement modifications in CVP operations as needed to assist in the Secretary's efforts to control water temperatures in the upper Sacramento River in order to protect anadromous fish in the upper Sacramento River. Costs associated with planning and construction of the structural temperature control device shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(7) meet flow standards and objectives and diversion limits set forth in all laws and judicial decisions that apply to Central Valley Project facilities, including, but not limited to, provisions of this title and all obligations of the United States under the "Agreement Between the United States and the Department of Water Resources of the State of California for Coordinated Operation of the Central Valley Project and the State Water Project" dated May 20, 1985, as well as Pub. L. 99–546.

(8) make use of short pulses of increased water flows to increase the survival of migrating anadromous fish moving into and through the Sacramento-San Joaquin Delta and Central Valley rivers and streams.

(9) develop and implement a program to eliminate, to the extent possible, losses of anadromous fish due to flow fluctuations caused by the operation of any Central Valley Project storage or re-regulating facility. The program shall be patterned where appropriate after the agreement between the California Department of Water Resources and the California Department of Fish and Game with respect to the operation of the California State Water Project Oroville Dam complex.

(10) develop and implement measures to minimize fish passage problems for adult and juvenile anadromous fish at the Red Bluff Diversion Dam in a manner that provides for the use of associated Central Valley Project conveyance facilities for delivery of water to the Sacramento Valley National Wildlife Refuge complex in accordance with the requirements of subsection (d) of this section. Costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(11) rehabilitate and expand the Coleman National Fish Hatchery by implementing the U.S. Fish and Wildlife Service's Coleman National Fish Hatchery Development Plan, and modify the Keswick Dam Fish Trap to provide for its efficient operation at all project flow release levels and modify the basin below the Keswick Dam spillway to prevent the trapping of fish. Costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 50 percent shall be reimbursed as main project features and 50 percent shall be considered a nonreimbursable Federal expenditure.

(12) develop and implement a comprehensive program to provide flows to allow sufficient spawning, incubation, rearing, and outmigration for salmon and steelhead from Whiskeytown Dam as determined by instream flow studies conducted by the California Department of Fish and Game after Clear Creek has been restored and a new fish ladder has been constructed at the McCormick-Saeltzer Dam. Costs associated with channel restoration, passage improvements, and fish ladder construction required by this paragraph shall be allocated 50 percent to the United States as a nonreimbursable expenditure and 50 percent to the State of California. Costs associated with providing the flows required by this paragraph shall be allocated among project purposes.

(13) develop and implement a continuing program for the purpose of restoring and replenishing, as needed, spawning gravel lost due to the construction and operation of Central Valley Project dams, bank protection projects, and other actions that have reduced the availability of spawning gravel and rearing habitat in the Upper Sacramento River from Keswick Dam to Red Bluff Diversion Dam in the American and Stanislaus Rivers downstream from the Nimbus and Goodwin Dams, respectively. The program shall include preventive measures, such as re-establishment of meander belts and limitations on future bank protection activities, in order to avoid further losses of instream and riparian habitat. Costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(14) develop and implement a program which provides for modified operations and new or improved control structures at the Delta Cross Channel and Georgiana Slough during times when significant numbers of striped bass eggs, larvae, and juveniles approach the Sacramento River intake to the Delta Cross Channel or Georgiana Slough. Costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(15) construct, in cooperation with the State of California and in consultation with local interests, a barrier at the head of Old River in the Sacramento-San Joaquin Delta to be operated on a seasonal basis to increase the survival of young outmigrating salmon that are diverted from the San Joaquin River to Central Valley Project and Sate Water Project pumping plants and in a manner that does not significantly impair the ability of local entities to divert water. The costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(16) establish, in cooperation with independent entities and the State of California, a comprehensive assessment program to monitor fish and wildlife resources in the Central Valley to assess the biological results and effectiveness of actions implemented pursuant to this subsection. 37.5 percent of the costs associated with implementation of this paragraph shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(17) develop and implement a program to resolve fishery passage problems at the Anderson-Cottonwood Irrigation District Diversion Dam as well as upstream stranding problems related to Anderson-Cottonwood-Irrigation District Diversion Dam operations. Costs associated with implementation of this paragraph shall be allocated 50 percent to the United States as a nonreimbursable expenditure and 50 percent to the State of California.

(18) if requested by the State of California, assist in developing and implementing management measures to restore the striped bass fishery of the Bay-Delta estuary. Such measures shall be coordinated with efforts to protect and restore native fisheries. Costs associated with implementation of this paragraph shall be allocated 50 percent to the United States and 50 percent to the State of California. The United

States' share of costs associated with implementation of this paragraph shall be nonreimbursable.

(19) reevaluate existing operational criteria in order to maintain minimum carryover storage at Sacramento and Trinity River reservoirs to protect and restore the anadromous fish of the Sacramento and Trinity Rivers in accordance with the mandates and requirements of this subsection and subject to the Secretary's responsibility to fulfill all project purposes, including agricultural water delivery.

(20) participate with the State of California and other federal agencies in the implementation of the on-going program to mitigate fully for the fishery impacts associated with operations of the Glenn-Colusa Irrigation District's Hamilton City Pumping Plant. Such participation shall include replacement of the defective fish screens and fish recovery facilities associated with the Hamilton City Pumping Plant. This authorization shall not be deemed to supersede or alter existing authorizations for the participation of other federal agencies in the mitigation program. 75 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(21) assist the State of California in efforts to develop and implement measures to avoid losses of juvenile anadromous fish resulting from unscreened or inadequately screened diversions on the Sacramento and San Joaquin rivers, their tributaries, the Sacramento-San Joaquin Delta, and the Suisun Marsh. Such measures shall include but shall not be limited to construction of screens on unscreened diversions, rehabilitation of existing screens, replacement of existing nonfunctioning screens, and relocation of diversions to less fishery-sensitive areas. The Secretary's share of costs associated with activities authorized under this paragraph shall not exceed 50 percent of the total cost of any such activity.

(22) provide such incentives as the Secretary determines to be appropriate or necessary, consistent with the goals and objectives of this title, to encourage farmers to participate in a program, which the Secretary shall develop, under which such farmers will keep fields flooded during appropriate time periods for the purposes of waterfowl habitat creation and maintenance and for Central Valley Project yield enhancement; Provided, That such incentives shall not exceed $2,000,000 annually, either directly or through credits against other contractual payment obligations, including the pricing waivers authorized under subsection 3405(d) of this tile; Provided further, That the holder of the water contract shall pass such incentives through to farmers participating in the program, less reasonable contractor costs, if any; And provided further, That such water may be transferred subject to section 3405(a) of this title only if the farmer waives all rights to such incentives. This provision shall terminate by the year 2002.

(23) in order to meet Federal trust responsibilities to protect the fishery resources of the Hoopa Valley Tribe, and to meet the fishery restoration goals of the Act of October 24, 1984, Pub. L. 98–541, provide through the Trinity River Division, for water years 1992 through 1996, an instream release of water to the Trinity River of not less than 340,000 acre-feet per year for the purposes of fishery restoration, propagation, and maintenance and,

(A) by September 30, 1996, the Secretary, after consultation with the Hoopa Valley Tribe, shall complete the Trinity River Flow Evaluation Study currently being conducted by the U.S. Fish and Wildlife Service under the mandate of the Secretarial Decision of January 14, 1981, in a manner which insures the development of recommendations, based on the best available scientific data, regarding permanent instream fishery flow requirements and Trinity River Division operating criteria and procedures for the restoration and maintenance of the Trinity River fishery; and

(B) not later than December 31, 1996, the Secretary shall forward the recommendations of the Trinity River Flow Evaluation Study, referred to in subparagraph (A) of this paragraph, to the Committee on Energy and Natural Resources and the Select Committee on Indian Affairs of the Senate and the Committee on Interior and Insular Affairs and the Committee on Merchant Marine and Fisheries of the House of Representatives. If the Secretary and the Hoopa Valley Tribe concur in these recommendations, any increase to the minimum Trinity River instream fishery releases established under this paragraph and the operating criteria and procedures referred to in subparagraph (A) shall be implemented accordingly. If the Hoopa Valley Tribe and the Secretary do not concur, the minimum Trinity River instream fishery releases established under this paragraph shall remain in effect unless increased by an Act of Congress, appropriate judicial decree, or agreement between the Secretary and the Hoopa Valley Tribe. Costs associated with implementation of this paragraph shall be reimbursable as operation and maintenance expenditures pursuant to existing law.

If the Secretary and the State of California determine that long-term natural fishery productivity in all Central Valley Project controlled rivers and streams resulting from implementation of this section exceeds that which existed in the absence of Central Valley Project facilities, the costs of implementing those measures which are determined to provide such enhancement shall become credits to offset reimbursable costs associated with implementation of this subsection.

(c) SAN JOAQUIN AND STANISLAUS RIVERS.—The Secretary shall, by not later than September 30, 1996:

(1) develop a comprehensive plan, which is reasonable, prudent, and feasible, to address fish, wildlife, and habitat concerns on the San Joaquin River, including but not limited to the streamflow, channel, riparian habitat, and water quality improvements that would be needed to reestablish where necessary and to sustain naturally reproducing anadromous fisheries from Friant Dam to its confluence with the San Francisco Bay/Sacramento-San Joaquin Delta Estuary. Such plan shall be developed in cooperation with the California Department of Fish and Game and in coordination with the San Joaquin River Management Program under development by the State of California; shall comply with and contain any documents required by the National Environmental Policy Act and contain findings setting forth the basis for the Secretary's decision to adopt and implement the plan as well as recommendations concerning the need for subsequent Congressional action, if any; and shall incorporate, among other relevant factors, the potential contributions of tributary streams as well as the alternatives to be investigated under paragraph (2) of this subsection. During the time that the Secretary is developing the plan provided for in this subsection, and until such time as Congress has authorized the Secretary to implement such plan, with or without modifications, the Secretary shall not, as a measure to implement this title, make releases for the restoration of flows between Gravelly Ford and the Medota Pool and shall not thereafter make such releases as a measure to implement this title without a specific Act of Congress authorizing such releases. In lieu of such requirement, and until such time as flows of sufficient quantity, quality and timing are provided at and below Gravelly Ford to meet the anadromous fishery needs identified pursuant to such plan, if any, entities who receive water from the Friant Division of the Central Valley Project shall be assessed, in addition to all other applicable charges, a $4.00 per acre-foot surcharge for all Project water delivered on or before September 30, 1997; a $5.00 per acre-foot surcharge for all Project water delivered after September 30, 1997 but on or before September 30, 1999; and a $7.00 per acre-foot surcharge for all Project water delivered thereafter, to be covered into the Restoration Fund.

(2) in the course of preparing the Stanislaus River Basin and Calaveras River Water Use Program Environmental Impact Statement and in consultation with the State of California, affected counties, and other interests, evaluate and determine existing and anticipated future basin needs in the Stanislaus River Basin. In the course of such evaluation, the Secretary shall investigate alternative storage, release, and delivery regimes, including but not limited to conjunctive use operations, conservation strategies, exchange arrangements, and the use of base and channel maintenance flows, in order to best satisfy both basin and out-of-basin needs consistent, on a continuing basis, with the limitations and priorities established in the Act of October 23, 1962 (76 Stat. 173). For the purposes of this subparagraph, "basin needs" shall include water supply for agricultural, municipal and industrial uses, and maintenance and enhancement of water quality, and fish and wildlife resources within the Stanislaus River Basin as established by the Secretary's June 29, 1981 Record of Decision; and "out-of-basin" needs shall include all such needs outside of the Stanislaus River Basin, including those of the San Francisco Bay/Sacramento-San Joaquin Delta Estuary and those of the San Joaquin River under paragraph (1) of this subsection.

(d) CENTRAL VALLEY REFUGES AND WILDLIFE HABITAT AREAS—In support of the objectives of the Central Valley Habitat Joint Venture and in furtherance of the purposes of this title, the Secretary shall provide, either directly or through contractual agreements with other appropriate parties, firm water supplies of suitable quality to maintain and improve wetland habitat areas on units of the National Wildlife Refuge System in the Central Valley of California; on the Gray Lodge, Los Banos, Volta, North Grasslands, and Mendota state wildlife management areas; and on the Grasslands Resources Conservation District in the Central Valley of California.

(1) Upon enactment of this title, the quantity and delivery schedules of water measured at the boundaries of each wetland habitat area described in this paragraph shall be in accordance with Level 2 of the "Dependable Water Supply Needs" table for those habitat areas as set forth in the Refuge Water Supply Report and two-thirds of the water supply needed for full habitat development for those habitat areas identified in the San Joaquin Basin Action Plan/Kesterson Mitigation Action Plan Report prepared by the Bureau of Reclamation. Such water shall be provided through long-term contractual agreements with appropriate parties and shall be supplemented by the increment of water provided for in paragraph (1) of this subsection; Provided, That the Secretary shall be obligated to provide such water whether or not such long-term contractual agreements are in effect. In implementing this paragraph, the Secretary shall endeavor to diversify sources of supply in order to minimize possible adverse effects upon Central Valley Project contractors.

(2) Not later than ten years after enactment of this title, the quantity and delivery schedules of water measured at the boundaries of each wetland habitat area described in this paragraph shall be in accordance with Level 4 of the "Dependable Water Supply Needs" table for those habitat areas as set forth in the Refuge Water Supply Report and the full water supply needed

for full habitat development for those habitat areas identified in the San Joaquin Basin Action Plan/Kesterson Mitigation Action Plan Report prepared by the Bureau of Reclamation. The quantities of water required to supplement the quantities provided under paragraph (1) of this subsection shall be acquired by the Secretary in cooperation with the State of California and in consultation with the Central Valley Habitat Joint Venture and other interests in cumulating increments of not less than ten percent per annum through voluntary measures which include water conservation, conjunctive use, purchase, lease, donations, or similar activities, or a combination of such activities which do not require involuntary reallocations of project yield.

(3) All costs associated with implementation of paragraph (1) of this subsection shall be reimbursable pursuant to existing law. Incremental costs associated with implementation of paragraph (2) of this subsection shall be fully allocated in accordance with the following formula: 75 percent shall be deemed a nonreimbursable Federal expenditure; and 25 percent shall be allocated to the State of California for recovery through direct reimbursements or through equivalent in-kind contributions.

(4) The Secretary may temporarily reduce deliveries of the quantity of water dedicated under paragraph (1) of this subsection up to 25 percent of such total whenever reductions due to hydrologic circumstances are imposed upon agricultural deliveries of Central Valley Project water; Provided, That such reductions shall not exceed in percentage terms the reductions imposed on agricultural service contractors. For the purpose of shortage allocation, the priority or priorities applicable to the increment of water provided under paragraph (2) of this subsection shall be the priority or priorities which applied to the water in question prior to its transfer to the purpose of providing such increment.

(5) The Secretary is authorized and directed to construct or to acquire from non-Federal entities such water conveyance facilities, conveyance capacity, and wells as are necessary to implement the requirements of this subsection; Provided, That such authorization shall not extend to conveyance facilities in or around the Sacramento-San Joaquin Delta Estuary. Associated construction or acquisition costs shall be reimbursable pursuant to existing law in accordance with the cost allocations set forth in paragraph (3) of this subsection.

(6) The Secretary, in consultation with the State of California, the Central Valley Habitat Joint Venture, and other interests, shall investigate and report on the following supplemental actions by not later than September 30, 1997:

(A) alternative means of improving the reliability and quality of water supplies currently available to privately owned wetlands in the Central Valley and the need, if any, for additional supplies; and

(B) water supply and delivery requirements necessary to permit full habitat development for water dependent wildlife on 120,000 acres supplemental to the existing wetland habitat acreage identified in Table 8 of the Central Valley Habitat Joint Venture's "Implementation Plan" dated April 19, 1990, as well as feasible means of meeting associated water supply requirements.

(e) Supporting Investigations.—Not later than five years after the date of enactment of this title, the Secretary shall investigate and provide recommendations to the Committee on Energy and Natural Resources of the Senate and the Committees on Interior and Insular Affairs and Merchant Marine and Fisheries of the House on the feasibility, cost, and desirability of developing and implementing each of the following, including, but not limited to, the impact on the project, its users, and the State of California:

(1) measures to maintain suitable temperatures for anadromous fish survival in the Sacramento and San Joaquin rivers and their tributaries, and the Sacramento-San Joaquin Delta by controlling or relocating the discharge of irrigation return flows and sewage effluent, and by restoring riparian forests;

(2) opportunities for additional hatchery production to mitigate the impacts of water development and operations on, or enhance efforts to increase Central Valley fisheries; Provided, That additional hatchery production shall only be used to supplement or to re-establish natural production while avoiding adverse effects on remaining wild stocks;

(3) measures to eliminate barriers to upstream and downstream migration of salmonids in the Central Valley, including but not limited to screening programs, barrier removal programs and programs for the construction or rehabilitation of fish ladders on tributary streams;

(4) installation and operation of temperature control devices at Trinity Dam and Reservoir to assist in the Secretary's efforts to conserve cold water for fishery protection purposes;

(5) measures to provide for modified operations and new or improved control structures at the Delta Cross Channel and Georgiana Slough to assist in the successful migration of anadromous fish; and

(6) other measures which the Secretary determines would protect, restore, and enhance natural production of salmon and steel-head trout in tributary streams of the Sacramento and San Joaquin Rivers, including but not limited to the Merced, Mokulumne, and Calaveras Rivers and Battle, Butte, Deer, Elder, Mill, and Thomes Creeks.

(f) Report on Project Fishery Impacts.—The Secretary, in consultation with the Secretary of Commerce, the State of California, appropriate Indian tribes, and other appropriate public and private entities, shall investigate and report on all effects of the Central Valley Project on anadromous fish populations and the fisheries, communities, tribes, businesses and other interests and entities that have now or in the past had significant economic, social or cultural association with those fishery resources. The Secretary shall provide such report to the Committee on Energy and Natural Resources of the Senate and the Committees on Interior and Insular Affairs and Merchant Marine and Fisheries of the House of Representatives not later than two years after the date of enactment of this title.

(g) Ecosystem and Water System Operations Models.—The Secretary, in cooperation with the State of California and other relevant interests and experts, shall develop readily usable and broadly available models and supporting data to evaluate the ecologic and hydrologic effects of existing and alternative operations of public and private water facilities and systems in the Sacramento, San Joaquin, and Trinity River watersheds. The primary purpose of this effort shall be to support the Secretary's efforts in fulfilling the requirements of this title through improved scientific understanding concerning, but not limited to, the following:

(1) a comprehensive water budget of surface and groundwater supplies, considering all sources of inflow and outflow available over extended periods;

(2) related water quality conditions and improvement alternatives, including improved temperature prediction capabilities as they relate to storage and flows;

(3) surface-ground and stream-wetland interactions;

(4) measures needed to restore anadromous fisheries to optimum and sustainable levels in accordance with the restored carrying capacities of Central Valley rivers, streams, and riparian habitats;

(5) development and use of base flows and channel maintenance flows to protect and restore natural channel and riparian habitat values;

(6) implementation of operational regimes at State and Federal facilities to increase springtime flow releases, retain additional floodwaters, and assist in restoring both upriver and downriver riparian habitats;

(7) measures designed to reach sustainable harvest levels of resident and anadromous fish, including development and use of systems of tradeable harvest rights;

(8) opportunities to protect and restore wetland and upland habitats throughout the Central Valley;

(9) measures to enhance the firm yield of existing Central Valley Project facilities, including improved management and operations, conjunctive use opportunities, development of offstream storage, levee setbacks, and riparian restoration.

All studies and investigations shall take into account and be fully consistent with the fish, wildlife, and habitat protection and restoration measures required by this title or by any other state or federal law. 75 percent of the costs associated with implementation of this subsection shall be borne by the United States as a nonreimbursable cost; the remaining 25 percent shall be borne by the State of California.

(h) The Secretary shall enter into a binding cost-share agreement with the State of California with respect to the timely reimbursement of costs allocated to the State in this title. Such agreement shall provide for consideration of the value of direct reimbursements, specific contributions to the Restoration Fund, and water, conveyance capacity, or other contributions in-kind that would supplement existing programs and that would, as determined by the Secretary, materially contribute to attainment of the goals and objectives of this title.

SEC. 3407. RESTORATION FUND.

(a) Restoration Fund Established.—There is hereby established in the Treasury of the United States the "Central Valley Project Restoration Fund" (hereafter "Restoration Fund") which shall be available for deposit of donations from any source and revenues provided under sections 3404(c)(3), 3405(f), 3406(c)(1), and 3407(d) of this title. Amounts deposited shall be credited as offsetting collections. Not less than 67 percent of all funds made available to the Restoration Fund under this title are authorized to be appropriated to the Secretary to carry out the habitat restoration, improvement and acquisition (from willing sellers) provisions of this title. Not more than 33 percent of all funds made available to the Restoration Fund under this title are authorized to be appropriated to the Secretary to carry out the provisions of paragraphs 3406(b)(4)–(6), (10)–(18), and (20)–(22) of this title. Monies donated to the Restoration Fund by non-Federal entities for specific purposes shall be expended for those purposes only and shall not be subject to appropriation.

(b) Authorization of Appropriations.—Such sums as are necessary, up to $50,000,000 per year (October 1992 price levels), are authorized to be appropriated to the Secretary to be derived from the Restoration Fund to carry out programs, projects, plans, and habitat restoration, improvement, and acquisition provisions of this title. Any funds paid into the Restoration Fund by Central Valley Project water and power contractors and which are also used to pay for the projects and facilities set forth in section 3406(b), shall act as an offset against any water and power contractor cost share obligations that are otherwise provided for in this title.

(c) Mitigation and Restoration Payments by Water and Power Beneficiaries.—

(1) To the extent required in appropriation Acts, the Secretary shall assess and collect addi-

tional annual mitigation and restoration payments, in addition to the charges provided for or collected under sections 3404(c)(3), 3405(a)(1)(C), 3405(f), and 3406(c)(1) of this title, consisting of charges to direct beneficiaries of the Central Valley Project under subsection (d) of this section in order to recover a portion or all of the costs of fish, wildfish, and habitat restoration programs and projects under this title.

(2) The payments described in this subsection shall be established at amounts that will result in collection, during each fiscal year, of an amount that can be reasonably expected to equal the amount appropriated each year, subject to subsection (d) of this section, and in combination with all other receipts identified under this title, to carry out the purpose identified in subsection (b) of this section; Provided, That, if the total amount appropriated under subsection (b) of this section for the fiscal years following enactment of this title does not equal $50,000,000 per year (October 1992 price levels) on an average annual basis, the Secretary shall impose such charges in fiscal year 1998 and in each fiscal year thereafter, subject to the limitations in subsection (d) of this section, as may be required to yield in fiscal year 1998 and in each fiscal year thereafter total collections equal to $50,000,000 per year (October 1992 price levels) on a three-year rolling average basis for each fiscal year that follows enactment of this title.

(d) ADJUSTMENT AND ASSESSMENT OF MITIGATION AND RESTORATION PAYMENTS.—

(1) In assessing the annual payments to carry out subsection (c) of this section, the Secretary shall, prior to each fiscal year, estimate the amount that could be collected in each fiscal year pursuant to subparagraphs 2(A) and (B) of this subsection. The Secretary shall decrease all such payments on a proportionate basis from amounts contained in the estimate so that an aggregate amount is collected pursuant to the requirements of paragraph (c)(2) of this section.

(2) The Secretary shall assess and collect the following mitigation and restoration payments, to be covered to the Restoration Fund, subject to the requirements of paragraph (1) of this subsection:

(A) The Secretary shall require Central Valley Project water and power contractors to make such additional annual payments as are necessary to yield, together with all other receipts, the amount required under paragraph (c)(2) of this subsection; Provided, That such additional payments shall not exceed $30,000,000 (October 1992 price levels) on a three-year rolling average basis; Provided further, That such additional annual payments shall be allocated so as not to exceed $6.00 per acre-foot (October 1992 price levels) for agricultural water sold and delivered by the Central Valley Project, and $12.00 per acre-foot (October 1992 price levels) for municipal and industrial water sold and delivered by the Central Valley Project; Provided further, that the charge imposed on agricultural water shall be reduced, if necessary, to an amount within the probable ability of the water users to pay as determined and adjusted by the Secretary no less than every five years, taking into account the benefits resulting from implementation of this title; Provided further, That the Secretary shall impose an additional annual charge of $25.00 per acre-foot (October 1992 price levels) for Central Valley Project water sold or transferred to any State or local agency or other entity which has not previously been a Central Valley Project customer and which contracts with the Secretary or any other individual or district receiving Central Valley Project water to purchase or otherwise transfer any such water for its own use for municipal and industrial purposes, to be deposited in the Restoration Fund; And Provided further, That upon the completion of the fish, wildlife, and habitat mitigation and restoration actions mandated under section 3406 of this title, the Secretary shall reduce the sums described in paragraph (c)(2) of this section to $35,000,000 per year (October 1992 price levels) and shall reduce the annual mitigation and restoration payment ceiling established under this subsection to $15,000,000 (October 1992 price levels) on a three-year rolling average basis. The amount of the mitigation and restoration payment made by Central Valley Project water and power users, taking into account all funds collected under this title, shall, to the greatest degree practicable, be assessed in the same proportion, measured over a ten-year rolling average, as water and power users' respective allocations for repayment of the Central Valley Project.

(e) FUNDING TO NON-FEDERAL ENTITIES.—If the Secretary determines that the State of California or an agency or subdivision thereof, an Indian tribe, or a non-profit entity concerned with restoration, protection, or enhancement of fish, wildlife, habitat, or environmental values is able to assist in implementing any action authorized by this title in an efficient, timely, and cost effective manner, the Secretary is authorized to provide funding to such entity on such terms and conditions as he deems necessary to assist in implementing the identified action.

(f) RESTORATION FUND FINANCIAL REPORTS.—The Secretary shall, not later than the first full fiscal year after enactment of this title, and annually thereafter, submit a detailed report to the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate, and the Committee on Interior and Insular Affairs, the Committee on Merchant Marine and Fisheries, and the Committee on Appropriations of the House of Representatives. Such report shall describe all receipts to and uses made of monies within the Restoration Fund and the Restoration Account during the prior fiscal year and shall include the Secretary's projection with respect to receipts to and uses to be made of the finds during the next upcoming fiscal year.

SEC. 3408. ADDITIONAL AUTHORITIES.

(a) REGULATIONS AND AGREEMENTS AUTHORIZED.—The Secretary is authorized and directed to promulgate such regulations and enter into such agreements as may be necessary to implement the intent, purposes and provisions of this title.

(b) USE OF ELECTRICAL ENERGY.—Electrical energy used to operate and maintain facilities developed for fish and wildlife purposes pursuant to this title, including that used for groundwater development, shall be deemed as Central Valley Project power and shall, if reimbursable, be repaid in accordance with Reclamation law at a price not higher than the lowest price paid by or charged to other Central Valley Project contractors.

(c) CONTRACTS FOR ADDITIONAL STORAGE AND DELIVERY OF WATER.—The Secretary is authorized to enter into contracts pursuant to Reclamation law and this title with any Federal agency, California water user or water agency, State agency, or private non-profit organization for the exchange, impoundment, storage, carriage, and delivery of Central Valley Project and non-project water for domestic, municipal, industrial, fish and wildlife, and any other beneficial purpose, except that nothing in this subsection shall be deemed to supersede the provisions of section 103 of Pub. L. 99-546 (100 Stat. 3051).

(d) USE OF PROJECT FACILITIES FOR WATER BANKING.—The Secretary, in consultation with the State of California, is authorized to enter into agreements to allow project contracting entities to use project facilities, where such facilities are not otherwise committee or required to fulfill project purposes or other Federal obligations, for supplying carry-over storage of irrigation and other water for drought protection, multiple-benefit credit-storage operations, and other purposes. The use of such water shall be consistent with and subject to State law. All or a portion of the water provided for fish and wildlife under this title may be banked for fish and wildlife purposes in accordance with this subsection.

(e) LIMITATION ON CONSTRUCTION.—This title does not and shall not be interpreted to authorize construction of water storage facilities, nor shall it limit the Secretary's ability to participate in water banking or conjunctive use programs.

(f) ANNUAL REPORTS TO CONGRESS.—Not later than September 30 of each calendar year after the date of enactment of this title, the Secretary shall submit a detailed report to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs and the Committee on Merchant Marine and Fisheries of the House of Representatives. Such report shall describe all significant actions taken by the Secretary pursuant to this title and progress toward achievement of the intent, purposes and provisions of this title. Such report shall include recommendations for authorizing legislation or other measures, if any, needed to implement the intent, purposes and provisions of this title.

(g) RECLAMATION LAW.—This title shall amend and supplement the Act of June 17, 1902, and Acts supplementary thereto and amendatory thereof.

(h) LAND RETIREMENT.—

(1) The Secretary is authorized to purchase from willing sellers land and associated water rights and other property interests identified in paragraph (h)(2) which receives Central Valley Project water under a contract executed with the United States, and to target such purchases to areas deemed most beneficial to the overall purchase program, including the purposes of this title.

(2) The Secretary is authorized to purchase, under the authority of paragraph (h)(i), and pursuant to such rules and regulations as may be adopted or promulgated to implement the provisions of this subsection, agricultural land which, in the opinion of the Secretary—

(A) would, if permanently retired from irrigation, improve water conservation by a district, or improve the quality of an irrigation district's agricultural wastewater and assist the district in implementing the provisions of a water conservation plan approved under section 210 of the Reclamation Reform Act of 1982 and agricultural wastewater management activities developed pursuant to recommendations specific to water conservation, drainage source reduction, and land retirement contained in the final report of the San Joaquin Valley Drainage Program (September, 1990); or

(B) are no longer suitable for sustained agricultural production because of permanent damage resulting from severe drainage or agricultural wastewater management problems, groundwater withdrawals, or other causes.

(i) WATER CONSERVATION.—

(1) The Secretary is authorized to undertake, in cooperation with Central Valley Project irrigation contractors, water conservation projects or measures needed to meet the requirements of this title. The Secretary shall execute a cost-sharing agreement for any such project or measure undertaken. Under such agreement, the Secretary is authorized to pay up to 100 percent of the costs of such projects or measures. Any water saved by such projects or measures shall be governed by the conditions of subparagraph 3405(a)(1) (A) and (J) of this title, and shall be made available to the Secretary in proportion to the Secretary's contribution to the total cost of

such project or measure. Such water shall be used by the Secretary to meet the Secretary's obligations under this title, including the requirements of paragraph 3406(b)(3). Such projects or measures must be implemented fully by September 30, 1999.

(2) There are authorized to be appropriated through the end of fiscal year 1998 such sums as may be necessary to carry out the provisions of this subsection. Funds appropriated under this subsection shall be nonreimbursable Federal expenditure.

(j) Project Yield Increase.—In order to minimize adverse effects, if any, upon existing Central Valley Project water contractors resulting from the water dedicated to fish and wildlife under this title, and to assist the State of California in meeting its future water needs, the Secretary shall, not later than three years after the date of enactment of this title, develop and submit to the Congress, a least-cost plan to increase, within fifteen years after the date of enactment of this title, the yield of the Central Valley Project by the amount dedicated to fish and wildlife purposes under this title. The plan authorized by this subsection shall include, but shall not be limited to a description of how the Secretary intends to use the following options:

(1) improvements in, modification of, or additions to the facilities and operations of the project;

(2) conservation;

(3) transfers;

(4) conjunctive use;

(5) purchase of water;

(6) purchase and idling of agricultural land; and

(7) direct purchase of water rights.

Such plan shall include recommendations on appropriate cost-sharing arrangements and shall be developed in a manner consistent with all applicable State and Federal law.

(k) Except as specifically provided in this title, nothing in this title is intended to alter the terms of any final judicial decree confirming or determining water rights.

SEC. 3409. ENVIRONMENTAL REVIEW.

Not later than three years after the date of enactment of this title, the Secretary shall prepare and complete a programmatic environmental impact statement pursuant to the National Environmental Policy Act analyzing the direct and indirect impacts and benefits of implementing this title, including all fish, wildlife, and habitat restoration actions and the potential renewal of all existing Central Valley Project water contracts. Such statement shall consider impacts and benefits within the Sacramento, San Joaquin, and Trinity River basins, and the San Francisco Bay/Sacramento-San Joaquin River Delta Estuary. The cost of the environmental impact statement described in this section shall be treated as a capital expense in accordance with Reclamation law.

SEC. 3410. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this title. Funds appropriated under this title shall remain available until expended without fiscal year limitation.

SEC. 3411. COMPLIANCE WITH STATE WATER LAW AND COORDINATED OPERATIONS AGREEMENT.

(a) Nothwithstanding any other provision of this title, the Secretary shall, prior to the reallocation of water from any purpose of use or place of use specified within applicable Central Valley Project water rights permits and licenses to a purpose of use or place of use not specified within said permits or licenses, obtain a modification in those permits and licenses, in a manner consistent with the provisions of applicable State law, to allow such change in purpose of use or place of use.

(b) The Secretary, in the implementation of the provisions of this title, shall fully comply with the United States' obligations as set forth in the "Agreement Between the United Sates of America and the Department of Water Resources of the State of California for Coordinated Operation of the Central Valley Project and the State Water Project" dated May 20, 1985, and the provisions of Pub. L. 99–546; and shall take no action which shifts an obligation that otherwise should be borne by the Central Valley Project to any other lawful water rights permittee or licensee.

SEC. 3412. EXTENSION OF THE TEHAMA-COLUSA CANAL SERVICE AREA.

The first paragraph of section 2 of the Act of September 26, 1950 (64 Stat. 1036), as amended by the Act of August 19, 1967 (81 Stat. 167), and the Act of December 22, 1980 (94 Stat. 3339), authorizing the Sacramento Valley Irrigation Canals, Central Valley Project, California, is further amended by striking "Tehama, Glenn, and Colusa Counties, and those portions of Yolo County within the boundaries of the Colusa County, Dunnigan, and Yolo-Zamora water districts or" and inserting "Tehama, Glenn, Colusa, Solano, and Napa Counties, those portions of Yolo County within the boundaries of Colusa Water District, Dunnigan Water District, Yolo-Zamora Water District, and Yolo County Flood Control and Water Conservation District, or".

TITLE XXXV—THREE AFFILIATED TRIBES AND STANDING ROCK SIOUX TRIBE EQUITABLE COMPENSATION PROGRAM, NORTH DAKOTA

SEC. 3501. SHORT TITLE.

This title may be cited as the "Three Affiliated Tribes and Standing Rock Sioux Tribe Equitable Compensation Act."

SEC. 3502. DEFINITIONS.

As used in this title, the term—

(1) "Secretary" means the Secretary of the Interior;

(2) "Three Affiliated Tribes" means the Mandan, Hidatsa, and Arikara Tribes that reside on the Fort Berthold Indian Reservation, a Federal reservation established by treaty and agreement between the Tribes and the United States;

(3) "Standing Rock Sioux Tribe" means the members of the Great Sioux Nation that reside on the Standing Rock Indian Reservation, established by treaty between the Tribe and the United States; and

(4) "Joint Tribal Advisory Committee" means the commission established by the Secretary on May 10, 1985, for the purpose of assessing the impacts of the Garrison and Oahe Dams on the Three Affiliated Tribes and the Standing Rock Sioux Tribe.

SEC. 3503. FINDINGS; DECLARATIONS.

(a) Findings.—In recognition of the findings, conclusions, and recommendations of the Secretary's Joint Tribal Advisory Committee, Congress finds that the Three Affiliated Tribes and the Standing Rock Sioux Tribe should be adequately compensated for the taking, in the case of the Three Affiliated Tribes, of 156,000 acres of reservation lands and, in the case of the Standing Rock Sioux Tribe, 56,000 acres of reservation lands, as the site for the Garrison Dam and Reservoir, and the Oahe Dam and Reservoir. Congress concurs in the Advisory Committee's findings and conclusions that the United States Government did not justly compensate such Tribes when it acquired those lands.

(b) Declarations.—(1) The Congress declares that the Three Affiliated Tribes are entitled to additional financial compensation for the taking of 156,000 acres of their reservation lands, including thousands of acres of prime agricultural bottom lands, as the site for the Garrison Dam and Reservoir, and that such amounts should be deposited in the Recovery Fund established by section 3054(a) for use in accordance with this title.

(2) The Congress declares that the Standing Rock Sioux Tribe is entitled to additional financial compensation for the taking of over 56,000 acres of its reservation lands, as the site for the Oahe Dam and Reservoir, and that such amounts should be deposited in the Standing Rock Sioux Tribe Economic Recovery Fund established by section 3504(b) for use in accordance with this title.

SEC. 3504. FUNDS.

(A) Three Affiliated Tribes Economic Recovery Fund.—(1)

There is established in the Treasury of the United States the "Three Affiliated Tribes Economic Recovery Fund" (hereinafter referred to as the "Recovery Fund").

(2) Commencing with fiscal year 1993, and each fiscal year thereafter, the Secretary of the Treasury shall deposit in the Three Affiliated Tribes Economic Recovery Fund an amount, which shall be nonreimbursable and nonreturnable equal to 25 percent of the receipts from deposits to the United States Treasury for the preceding fiscal year from the integrated programs of the Eastern Division of the Pick-Sloan Missouri River Basin Project administered by the Western Area Power Administration, but in no event shall the aggregate of the amounts deposited to the Fund established by this subsection for compensation for the Three Affiliated Tribes pursuant to this paragraph and paragraph (3) exceed $149,200,000.

(3) For payment to the Three Affiliated Tribes of amounts to which they remain entitled pursuant to the Act entitled "An Act to make certain provisions in connection with the construction of the Garrison Diversion unit, Missouri River Basin Project, by the Secretary of the Interior," approved August 5, 1965 (79 Stat. 433), there is authorized to be appropriated to the Recovery Fund established by subsection (a) for fiscal year 1994 and each of the next following 9 fiscal years, the sum of $6,000,000.

(4) The Secretary of the Treasury shall deposit the interest which accrues on deposits to the Three Affiliated Tribes Economic Recovery Fund in a separate account in the Treasury of the United States. Such interest shall be available, without fiscal year limitation, for use by the Secretary of the Interior, commencing with fiscal year 1998, and each fiscal year thereafter, in making payments to the Three Affiliated Tribes for use for educational, social welfare, economic development, and other programs, subject to the approval of the Secretary. No part of the principal of the Three Affiliated Tribes Economic Development Fund shall be available for making such payments.

(b) Standing Rock Sioux Tribe Economic Recovery Fund.—(1) There is established in the Treasury of the United States the "Standing Rock Sioux Tribe Economic Recovery Fund."

(2) Commencing with fiscal year 1993, and for each fiscal year thereafter, the Secretary of the Treasury shall deposit in the Standing Rock Sioux Tribe Economic Recovery Fund an amount, which shall be nonreimbursable and nonreturnable equal to 25 percent of the receipts from deposits to the United States Treasury for the preceding fiscal year from the integrated programs of the Eastern Division of the Pick-Sloan Missouri River Basin Project administered by the Western Area Power Administration, but in no event shall the aggregate of the amounts deposited to the Recovery Fund established by this subsection for compensation for the Standing Rock Sioux Tribe pursuant to this paragraph exceed $90,600,000.

(3) The Secretary of the Treasury shall deposit the interest which accrues on deposits to the

Standing Rock Sioux Tribe Economic Recovery Fund in a separate account in the Treasury of the United States. Such interest shall be available, without fiscal year limitation, for use by the Secretary of the Interior, commencing with fiscal year 1998, and each fiscal year thereafter, in making payments to the Standing Rock Sioux Tribe for use for educational, social welfare, economic development, and other programs, subject to the approval of the Secretary. No part of the principal of the Standing Rock Sioux Tribe Economic Recovery Fund shall be available for making such payments.

SEC. 3505. ELIGIBILITY FOR OTHER SERVICES NOT AFFECTED.

No payments pursuant to this title shall result in the reduction, or the denial, of any Federal services or programs that the Three Affiliated Tribes or the Standing Rock Sioux Tribe, or any of their members, are otherwise entitled to, or eligible for, because of their status as a federally recognized Indian tribe or member pursuant to Federal law. No payments pursuant to this title shall be subject to Federal or State income tax, or affect Pick-Sloan Missouri River Basin power rates in any way.

SEC. 3506. PER CAPITA PAYMENTS PROHIBITED.

No part of any moneys in any fund under this title shall be distributed to any member of the Three Affiliated Tribes or the Standing Rock Sioux Tribe on a per capita basis.

SEC. 3507. STANDING ROCK SIOUX INDIAN RESERVATION.

(a) IRRIGATION.—The Secretary of the Interior is authorized to develop irrigation within the boundaries of the Standing Rock Indian Reservation in a 2,380 acre project service area, except that no appropriated funds are authorized to be expended for construction of this project unless the Secretary has made a finding of irrigability of the lands to receive water as required by the Act of July 31, 1953 (43 U.S.C. 390a). Repayment for the units authorized under this subsection shall be made pursuant to the Act of July 1, 1932 (25 U.S.C. 386a).

(b) SPECIFIC.—There is authorized to be appropriated, in addition to any other amounts authorized by this title, or any other law, to the Secretary of the Interior $4,660,000 for use by the Secretary of the Interior in carrying out irrigation projects for the Standing Rock Sioux Tribe.

(c) DISCLAIMER.—This section shall not limit future irrigation development, in the event that such irrigation is subsequently authorized.

SEC. 3508. TRANSFER OF LANDS.

(a) FORMER TRIBAL LANDS.—(1) Except as provided in subsection (j), the Secretary of the Army shall transfer administrative jurisdiction over the lands described in paragraph (2) (including the improvements thereon) to the Secretary of the Interior to be administered as set out in subsection (d).

(2) The lands referred to in paragraph (1) are those Federal lands which were acquired from the Three Affiliated Tribes by the United States for the Garrison Dam Project pursuant to the Act of October 29, 1949 and which are within the external boundary of the Fort Berthold Indian Reservation and located at or above contour elevation 1,860 feet mean sea level.

(b) FOUR BEARS AREA.—All rights, title, and interest of the United States in the following described lands (including the improvements thereon) and underlying Federal minerals are hereby declared to be held in trust by the United States for the Three Affiliated Tribes as part of the Fort Berthold Indian Reservation:

(1) approximately 142.2 acres, more or less, lying above contour elevation 1,854 feet mean sea level and located south of the southerly right-of-way line of North Dakota State Highway No. 23, in the following sections of Township 152 North, Range 93 West of the 5th Principal meridian, McKenzie County, North Dakota:

Section 15: South Half of the Southwest Quarter;

section 21: Northeast Quarter and Northwest Quarter of the Southeast Quarter;

Section 22: North Half of the Northwest Quarter; and

(2) approximately 45.80 acres, more or less, situated in the East half of the Southwest Quarter and the East Half of the West Half of the Southwest Quarter of Section 15, lying at or above contour elegation 1,854 mean sea level, located North of the Northerly right-of-way line of North Dakota State Highway No. 23 and Southeasterly of the following described line:

Commencing at a point on the West line of said Section 15, said point being 528.00 feet Northerly of the existing Northerly right-of-way line of North Dakota State Highway No. 23; thence North 77 00' 00" East to the West line of said East Half of the West Half of the Southwest Quarter of section 15, and the point of beginning of such line; thence Northeasterly to the Northwest corner of the East Half of the Southwest Quarter and the point of termination.

(c) FORMER NONTRIBAL LANDS—(1) Except as provided in subsection (j), the Secretary of the Army shall transfer administrative jurisdiction over the lands described in paragraph (2) (including the improvements thereon) to the Secretary of the Interior to be administered as set out in subsection (d).

(2) The lands referred to in paragraph (1) are—

(A) those Federal lands acquired from individual Indian owners by the United States for the Garrison Dam Project pursuant to the Act of October 29, 1949; and

(B) those lands acquired from non-Indian owners by the United States for such Project (either by purchase or condemnation);

and which are within the external boundary of the Fort Berthold Reservation, and located at or above contour elevation 1,860 feet mean sea level.

(d) RIGHT OF FIRST REFUSAL.—(1) The Secretary of the Interior shall, within 1 year following the date of the enactment of this title, offer to the Three Affiliated Tribes, and to such individual Indian owners and non-Indian owners from whom such lands were acquired, or their heirs or assigns, a right of first refusal, for a period to be determined by the Secretary of the Interior not to exceed 12 months following notice of the offer to such Tribes, owners, heirs, or assigns, to purchase at fair market value any land, in the case of individual Indian and non-Indian owners, described in subsection (c), which was so acquired. If any such former owner, or his or her heirs or assigns, refuses or fails to exercise his or her right to repurchase, an option to purchase such land shall be afforded to the Three Affiliated Tribes.

(2) Lands purchased from the Secretary of the Interior by former owners, or their heirs or assigns, under this subsection shall not be sold by former owners, their heirs or assigns, within the 5-year period following such purchase, unless the Three Affiliated Tribes has been afforded a right of first refusal to purchase such lands. Such right of first refusal shall afford the Tribes—

(A) 30 days from such notification to inform the prospective seller whether the Tribes intend to exercise their right of first refusal to purchase such lands at the price of the bona fide offer; and

(B) 1 year from such notification to complete the purchase of such lands under their right of first refusal.

(e) CONSIDERATION.—In consideration for the transfer of the lands described above, the Secretary of the Interior, or his designee, shall be responsible for determining the location of contour elevations 1,860 feet mean sea level (for subsections (a) and (c)) and 1,854 feet mean sea level (for subsection (b)) by surveying and monumenting such contour at intervals no greater than 500 feet. The survey and monumentation shall be completed within 2 years after the date of the enactment of this title.

(f) RESERVATIONS.—The United States hereby reserves the perpetual right, power, privilege, and easement permanently to overflow, flood, submerge, saturate, percolate, and erode the land described in subsections (a), (b), and (c) in connection with the operation and maintenance of the Garrison Dam Project, as authorized by the Act of Congress approved December 22, 1944, and the continuing right to clear and remove any brush, debris, and natural obstructions which, in the opinion of the Secretary of the Army, may be detrimental to the Project. The Three Affiliated Tribes, and the owners or their heirs or assigns who reacquired such lands pursuant to this title may exercise all other rights and privileges on the land except for those rights and privileges which would interfere with or abridge the rights and easements hereby reserved.

(g) PROHIBITIONS.—With respect to any lands described in this section that are below 1,860 feet mean sea level, no structures for human habitation shall be constructed or maintained on the land, and no other structures shall be constructed or maintained on the land except as may be approved in writing by the Secretary of the Army.

(h) EXCAVATION.—With respect to lands described in subsections (a), (b), or (c), no excavation shall be conducted and no landfill placed on the land without approval by the Secretary of the Army as to the location and method of excavation or placement of landfill.

(i) DISCLAIMER.—Nothing in this section shall deprive any person of any right-of-way, leasehold, or other right, interest, or claim which such person may have in the lands described in subsections (a), (b), and (c) prior to the date of the enactment of this title.

(j) TRUST LANDS.—(1) All rights, title, and interest of the United States in the improvements and recreation facilities described in paragraph (2) are hereby declared to be held in trust by the United States for the Three Affiliated Tribes.

(2) The improvements and facilities referred to in paragraph (1) are the Red Butte Bay Public Use Area and the Deepwater Bay Public Use Area. The recreation facilities include those facilities located both above and below contour elevation 1,860 feet mean sea level.

(3) The improvements and facilities described in this subsection are transferred as is and without warranty of any kind, and the Corps of Engineers shall have no obligation or responsibility to operate, maintain, repair, or replace any of such improvements or facilities. Operation and maintenance of the improvements and recreational facilities in this subsection shall be the responsibility of the Department of the Interior.

SEC. 3509. TRANSFER OF LANDS AT OAHE DAM AND LAKE PROJECT.

(a) FORMER TRIBAL LANDS.—(1) Except as provided in subsection (i), the Secretary of the Army shall transfer administrative jurisdiction over the lands described in paragraph (2) (including the improvements thereon) to the Secretary of the Interior to be administered as set out in subsection (c).

(2) The lands referred to in paragraph 91) are those Federal lands which were acquired from the Standing Rock Sioux Tribe by the United States for the Oahe Dam Reservoir Project pursuant to the Act of September 2, 1958 (Public Law 85-915), and—

(A) which extend southerly from the south shore of Cannonball River, in Sioux County,

North Dakota, to a point along the boundary between the Standing Rock and Cheyenne River Indian Reservations, in Dewey County, South Dakota; and

(B) which are located at or above contour elevation 1,6520 feet mean sea level.

(b) FORMER NONTRIBAL LANDS.—(1) Except as provided in subsection (i), the Secretary of the Army shall transfer administrative jurisdiction over the lands described in paragraph (2) (including the improvements thereon) to the Secretary of the Interior to be administered as set out in subsection (c).

(2) The lands referred to in paragraph (1) are those Federal lands acquired from individual Indian owners by the United States for the Oahe Dams and Reservoir Project pursuant to the Act of September 2, 1958 (Public Law 85–915), and from non-Indian owners (either by purchase or condemnation), and-

(A) which extend southerly from the south shore of the Cannonball River, in Sioux County, North Dakota to a point along the boundary between the Standing Rock and Cheyenne River Indian Reservations, in Dewey County, South Dakota; and

(B) which are located at or above contour elevation 1,620 feet mean sea level.

(c) RIGHT OF FIRST REFUSAL.—(1) The Secretary of the Interior shall, within 1 year following the date of the enactment of this title, offer to the Standing Rock Sioux Tribe, and to such individual Indian owners and non-Indian owners from whom such lands were acquired, or their heirs or assigns, a right of first refusal, for a period to be determined by the Secretary of the Interior not to exceed 12 months following notice of the offer to the Standing Rock Sioux Tribe, owners, heirs or assigns, to purchase at fair market value and land, in the case of the Standing Rock Sioux Tribe, Described in subsection (a), and in the case of individual Indian and non-Indian owners, described in subsection (b), which was so acquired. If any such owner, or his or her heirs or assigns, refuses or fails to exercise their right to repurchase, an option to purchase such lands shall be afforded to the Standing Rock Sioux Tribe.

(2) Lands purchased from the Secretary of the Interior by such former owners, or their heirs or assigns, under this subsection shall not be sold by the former owners, their heirs or assigns, within the 5-year period following such purchase, unless the Standing Rock Sioux Tribe has been afforded a right of first refusal to purchase such lands. Such right of first refusal shall afford the Tribe—

(A) 30 days from such notification to inform the prospective seller whether the Tribe intends to exercise its right of first refusal to purchase such lands at the price of the bona fide offer, and

(B) 1 year from such notification to complete the purchase of such lands under its right of first refusal.

(d) CONSIDERATION.—In consideration for the transfer of the lands described above, the Secretary of the Interior, or his designee, shall be responsible for determining the location of contour elevation 1,620 feet mean sea level by surveying and monumenting such contour at intervals no greater than 500 feet. The survey and monumentation shall be completed within 2 years after the date of the enactment of this title.

(e) RESERVATIONS.—The United States hereby reserves the perpetual right, power, privilege and easement permanently to overflow, flood, saturate, percolate and erode the land described in subsections (a) and (b) in connection with the operation and maintenance of the Oahe Dam and Lake Project, as authorized by the Act of Congress approved December 22, 1944, and the continuing right to clear and remove any brush, debris and natural obstructions which, in the opinion of the Secretary of the Army may be detrimental to the Project. The Standing Rock Sioux Tribe, and the owners or their heirs and assigns, who reacquired any such lands pursuant to this title, may exercise all other rights and privileges on the land except for those rights and privileges which would interfere with or abridge the rights and easement and hereby reserved.

(f) PROHIBITIONS.—With respect to lands described in this section that are below 1,620 feet mean sea level, no structures for human habitation shall be constructed or maintained on the land and no other structures shall be constructed or maintained on the land and no other structures shall be constructed or maintained on the land except as may be approved in writing by the Secretary of the Army.

(g) EXCAVATION.—With respect to lands described in subsections (a) or (b), no excavation shall be conducted and no landfill placed on the land without approval by the Secretary of the Army as to the location and method of excavation or placement of landfill.

(h) DISCLAIMER.—Nothing in this section shall deprive any person of any right-of-way, leasehold, or other right, interest, or claim which such person may have in the lands described in subsections (a) and (b) prior to the date of the enactment of this title.

(i) TRUST LANDS.—(1) All rights, title and interest of the United States in the improvements and recreation facilities described in paragraph (2) are hereby declared to be held in trust by the United States for the Standing Rock Sioux Tribe.

(2) The improvements and facilities referred to in paragraph (1) are the levee around the City of Fort Yates Recreation area, the Walker Bottoms Recreation Area, and the Grand River Recreation Area, including those recreation facilities located both above and below contour elevation 1,620 feet mean sea level.

(3) The improvements and facilities described in this subsection are transferred as is and without warranty of any kind, and the Corps of Engineers shall have no obligation or responsibility to operate, maintain, repair or replace any of such improvements or facilities. Operation and maintenance of the improvements and recreations facilities in this subsection shall be the responsibility of the Department of the Interior.

(j) EXCEPTION.—Notwithstanding subsection (i), the transfer of such improvements and facilities pursuant to subsection (i) does not include the improvements and facilities located at the Indian Memorial Recreation Area and the Grand River Fish Spawning Station, unless and until the State of South Dakota consents in writing and then only upon amendment of the "Agreement Between the United States and the State of South Dakota for Recreation and Fish and Wildlife Development at Lake Oahe, South Dakota" entered into on September 2, 1983, which amendment shall specifically provide for such transfer.

(k) FISH AND WILDLIFE.—Notwithstanding any other provision of law, the lands transferred under subsection (a) which, prior to the date of enactment of this title, were designated by the Corps of Engineers as mitigation lands for purposes of fish and wildlife conservation in accordance with the Fish and Wildlife Conservation Act of 1958, shall be included in any subsequent determination of the Corps' compliance with the fish and wildlife mitigation requirements of the Fish and Wildlife Conservation Act of 1958. The Standing Rock Sioux Tribe shall use its best efforts to conduct fish and wildlife conservation and mitigation on such lands. Notwithstanding the provisions of the Fish and Wildlife Conservation Act of 1958, the State of South Dakota shall have no claim, right, or cause of action pursuant to Federal law to compel designation of additional lands currently under the jurisdiction of the Corps of Engineers, for purposes of fish and wildlife conservation in lieu of the lands transferred by subsection (a).

SEC. 3510. CONFORMING AMENDMENT.

Section 10(a)(2) of Public Law 89–108 is amended by striking "$67,910,000" and inserting "$7,910,000."

SEC. 3511. AUTHORIZATION.

There are authorized to be appropriated such sums as may be necessary to carry out the provisions of section 3504 of this title.

TITLE XXXVI—SONOMA BAYLANDS WETLAND DEMONSTRATION PROJECT, CALIFORNIA

SEC. 3601. SONOMA BAYLANDS WETLAND DEMONSTRATION PROJECT.

(a) IN GENERAL.—The Secretary of the Army is directed to develop and carry out in accordance with this section a 320-acre Sonoma Baylands wetland demonstration project in the San Francisco Bay-Delta estuary, California. The project shall utilize dredged material suitable for aquatic disposal to restore, protect, and expand the Sonoma Baylands for the purposes of preserving waterfowl, fish, and other wetland dependent species of plants and animals and to provide flood control, water quality improvement, and sedimentation control.

(b) ADDITIONAL PROJECT PURPOSES.—In addition to the purposes described in subsection (a), the purposes of the project under this section are to restore tidal wetlands, provide habitat for endangered species, expand the feeding and nesting areas for waterfowl along the Pacific flyway, and demonstrate the use of suitable dredged material as a resource, facilitating the completion of Bay Area dredging projects in an environmentally sound manner.

(c) PLAN.—

(1) GENERAL REQUIREMENT.—The Secretary, in cooperation with appropriate Federal and State agencies, and in accordance with applicable Federal and State environmental laws, shall develop in accordance with this subsection a plan for implementation of the Sonoma Baylands project under this section.

(2) CONTENTS.—The plan shall include initial design and engineering, construction, general implementation and site monitoring.

(3) TARGET DATES.—

(A) FIRST PHASE.—The first phase of the plan for final design and engineering shall be completed within 6 months of the date of the enactment of this Act.

(B) SECOND PHASE.—The second phase of the plan, including the construction of on-site improvements, shall be completed within 10 months of the date of the enactment of this Act.

(C) THIRD PHASE.—The third phase of the plan, including dredging, transportation, and placement of material, shall be started no later than July 1, 1994.

(D) FOURTH PHASE.—The final phase of the plan shall include monitoring of project success and function and remediation if necessary.

(d) NON-FEDERAL PARTICIPATION.—Any work undertaken pursuant to this title shall be initiated only after non-Federal interests have entered into a cooperative agreement according to the provisions of section 221 of the Flood Control Act of 1970. The non-Federal interests shall agree to:

(1) provide 25 percent of the cost associated with the project, including provision of all lands, easements, rights-of-way, and necessary relocations; and

(2) pay 100 percent of the cost of operation, maintenance, replacement, and rehabilitation costs associated with the project.

(e) REPORTS TO CONGRESS.—The Secretary shall report to Congress at the end of each of *the time periods referred to in subsection (c)(3) on the progress being made toward development and implementation of the project under this section.*

(f) AUTHORIZATION OF APPROPRATIONS.—There is authorized to be appropriated $15,000,000 for carrying out this section for fiscal years beginning after September 30, 1992. Such sums shall remain available until expended.

TITLE XXXVII—SAN CARLOS APACHE TRIBE WATER RIGHTS SETTLEMENT, ARIZONA

SEC. 3701. SHORT TITLE.

This title may be cited as the "San Carlos Apache Tribe Water Rights Settlement Act of 1992".

SEC. 3702. CONGRESSIONAL FINDINGS.

(a) SPECIFIC FINDINGS.—The Congress finds and declares that—

(1) it is the policy of the United States, in fulfillment of its trust responsibility to Indian tribes, to promote Indian self-determination and economic self-sufficiency, and to settle, wherever possible, the water rights claims of Indian tribes without lengthy and costly litigation;

(2) meaningful Indian self-determination and economic self-sufficiency depend on the development of viable Indian reservation economies;

(3) qualification of rights to water and development of facilities needed to utilize tribal water supplies effectively is essential to the development of viable Indian reservation economies, particularly in arid western States;

(4) on November 9, 1871, and by actions subsequent thereto, the United States Government established a reservation for the San Carlos Apache Tribe in Arizona;

(5) the United States, as trustee for the San Carlos Apache Tribe, obtained water entitlements for the Tribe pursuant to the Globe Equity Decree of 1935; however, continued uncertainty as to the full extent of the Tribe's entitlement to water has severely limited the Tribe's access to water and financial resources necessary to develop its valuable agricultural lands and frustrated its efforts to reduce its dependence on Federal program funding and achieve meaningful self-determination and self-sufficiency;

(6) proceedings to determine the full extent and nature of the Tribe's water rights are currently pending before the United States District Court in Arizona and in the Superior Court of the State of Arizona in and for Maricopa County, as part of the General Adjudication of the Gila River System and Source;

(7) recognizing that final resolution of pending litigation will take many years and entail great expense to all parties, continue economically and socially damaging limits to the Tribe's access to water, prolong uncertainty as to the availability of water supplies and seriously impair the long-term economic planning and development of all parties, the Tribe and its neighboring non-Indian communities have sought to settle their dispute to water and reduce the burdens of litigation;

(8) after lengthy negotiations, which included participation by representatives of the United States Government, the Tribe, and neighboring non-Indian communities of the Salt River and Gila River Valleys, who are all party to the General Adjudication of the Gila River System and Source, the parties are prepared to enter into an Agreement to resolve all water rights claims between and among themselves, to quantify the Tribe's entitlement to water, and to provide for the orderly development of the Tribe's lands;

(9) pursuant to the Agreement, the neighboring non-Indian communities will relinquish claims to approximately 58,735 acre-feet of surface water to the Tribe, provide the means of storing water supplies of the Tribe behind Coolidge Dam on the Gila River in Arizona to enhance fishing, recreation, and other environmental benefits, and make substantial additional contributions to carry out the Agreement's provisions; and

(10) to advance the goal of Federal Indian policy and to fulfill the trust responsibility of the United States to the Tribe, it is appropriate that the United States participate in the implementation of the Agreement and contribute funds for the rehabilitation and expansion of existing reservation irrigation facilities so as to enable the Tribe to utilize fully its water resources in developing a diverse, efficient reservation economy.

(b) PURPOSES OF TITLE.—It is the purpose of this title—

(1) to approve, ratify, and confirm the Agreement to be entered into by the Tribe and its neighboring non-Indian communities,

(2) to authorize and direct the Secretary of the Interior to execute and perform such Agreement, and

(3) to authorize the actions and appropriations necessary for the United States to fulfill its legal and trust obligations to the Tribe as provided in the Agreement and this title.

SEC. 3703. DEFINITIONS.

For purposes of this title:

(1) "Active conservation capacity" means that storage space, exclusive of bank storage, available to store water which can be released through existing reservoir outlet works.

(2) "Agreement" means that agreement among the San Carlos Apache Tribe; the United States of America; the State of Arizona; the Salt River Project Agricultural Improvement and Power District; the Salt River Valley Water Users' Association; the Roosevelt Water Conservation District; the Arizona cities of Chandler, Glendale, Globe, Mesa, Safford, Scottsdale and Tempe, the town of Gilbert; Buckeye Water Conservation and Drainage District, Buckeye Irrigation Company, the Phelps Dodge Corporation and the Central Arizona Water Conservation District, together with all exhibits thereto, as the same is executed by the Secretary of the Interior pursuant to sections 3710(c) and 3711(a)(7) of this title.

(3) "CAP" means the Central Arizona Project, a reclamation project authorized under title III of the Colorado River Basin Project Act of 1968 (43 U.S.C. 1521 et seq.).

(4) "CAWCD" means the Central Arizona Water Conservation District, organized under the laws of the State of Arizona, which is the contractor under a contract with the United States, dated December 15, 1972, for the delivery of water and repayment of costs of the Central Arizona Project.

(5) "Globe Equity Decree" means the decree dated June 29, 1935, entered in the United States of America v. Gila Valley Irrigation District, et al., Globe Equity 59, in the District Court of the United States in and for the District of Arizona and all the decrees and decisions supplemental thereto.

(6) "Reservation" means the reservation authorized by the Treaty with the Apache Nation dated July 1, 1852 (10 Stat. 979), established by the Executive orders of November 9, 1871 and December 14, 1872, as modified by subsequent Executive orders and Acts of Congress including the Executive order of August 5, 1873.

(7) "RWCD" means the Roosevelt Water Conservation District, an irrigation district organized under the laws of the State of Arizona.

(8) "Secretary" means the Secretary of the Interior.

(9) "SRP" means the Salt River Project Agricultural Improvement and Power District, a political subdivision of the State of Arizona, and the Salt River Valley Water Users' Association, an Arizona Corporation.

(10) "SCIP" means the San Carlos Irrigation Project authorized pursuant to the Act of June 7, 1924 (42 Stat. 475), expanded pursuant to the Act of March 7, 1928 (45 Stat. 200, 210), and administered by the Bureau of Indian Affairs.

(11) "Tribe" means the San Carlos Apache Tribe, a tribe of Apache Indians organized under section 16 of the Indian Reorganization Act of June 18, 1934 (48 Stat. 987; 25 U.S.C. 476), and duly recognized by the Secretary.

SEC. 3704. WATER.

(a) REALLOCATION OF WATER.—The Secretary shall reallocate, for the exclusive use of the Tribe, all of the water referred to in subsection (f)(2) of section 2 of the Act of October 19, 1984 (98 Stat. 2698), which is not required for delivery to the Ak-Chin Indian Reservation under that Act. The Secretary shall exclude, for the purposes of determining the allocation and repayment of costs of the CAP as provided in Article 9.3 of Contract No. 14–0906–09W–09245, Amendment No. 1, between the United States and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with such water from CAWCD's repayment obligation and such costs shall be nonreimbursable.

(b) PARTIAL SATISFACTION OF CLAIMS.—Notwithstanding any other provision of this title, in the event the authorizations contained in section 3708(b) do not become effective, the water referred to in subsection 3704(a) of this title shall constitute partial satisfaction of the Tribe's claims for water in the proceeding entitled "In Re the General Adjudication of All Rights To Use Water in the Gila River System and Source," Maricopa County Superior Court Nos. W–091, W–092, W–093, and W–094 (consolidated), as against the parties identified in section 3703(2) of this title.

(c) ADDITIONAL ALLOCATIONS.—The Secretary shall reallocate to the Tribe an annual entitlement to 14,655 acre-feet of water from the Central Arizona Project having a CAP municipal and industrial priority, which the Secretary previously allocated to Phelps Dodge Corporation in the Notice of Final Water Allocations to Indian and non-Indian Water Users and Related Decisions, dated March 24, 1983 (48 F.R. 12446 et seq.). The Tribe shall pay the United States or, if directed by the Secretary, CAWCD, all operation, maintenance and replacement costs associated with such CAP water. Except as provided in subsection (e)(3) of section 3706, water service capital charges, or any other charges or payments for such CAP water other than operation, maintenance and replacement costs shall be nonreimbursable. The Secretary shall exclude, for the purposes of determining the allocation and repayment of costs of the CAP as provided in Article 9.3 of Contract No. 14–0906–09W–09245, Amendment No. 1, between the United States and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with such water from CAWCD's repayment obligation and such costs shall be nonreimbursable.

(d) ADDITIONAL ALLOCATIONS.—The Secretary shall reallocate to the Tribe and annual entitlement to 3,480 acre-feet of water from the Central Arizona Project having a CAP municipal and industrial priority, which the Secretary previously allocated to the city of Globe, Arizona in the Notice of Final Water Allocations to Indian and Non-Indian Water Users and Related Decisions, dated March 24, 1983 (48 F.R. 12466 et seq.). The Tribe shall pay the United States or, if directed by the Secretary CAWCD, all operation, maintenance and replacement costs associated with such CAP water. Except as provided in subsection (e)(3) of section 3706, water service capital charges, or any other charges or payments of such CAP water other than operation, maintenance and replacement costs shall be

nonreimbursable. The Secretary shall exclude, for the purposes of determining the allocation and repayment of costs of the CAP as provided in Article 9.3 of contract No. 14–0906–09W–09245, Amendment No. 1, between the United States and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with such water from CAWCD's repayment obligation and such costs shall be reimbursable.

(e) WATER STORAGE POOL.—Notwithstanding the Act of June 7, 1924 (43 Stat. 475), as amended by the Act of March 7, 1928 (45 Stat. 200, 210), in order to permit the Tribe to maintain permanently a pool of stored water for fish, wildlife, recreation and other purposes, the Secretary shall designate for the benefit of the Tribe such active conservation capacity behind Coolidge Dam on the Gila River in Arizona as is not being used by the Secretary to meet the obligations of SCIP for irrigation storage, except that any water stored by the Tribe shall be the first water to spill ("spill water") from Coolidge Dam. The water stored by the Tribe shall be, at the Tribe's designation, the water provided to the Tribe pursuant to subsections (a), (c) and (d) of this section, its entitlement of 12,700 acrefeet of water under its Tribal CAP Delivery Contract dated December 11, 1981; the water referred to in section 3710(f), or any combination thereof. A pro rata share of evaporation and seepage losses shall be deducted daily from the Tribe's stored water balance as provided in the Agreement. The Tribe shall pay an equitable share of the operation and maintenance costs for the water stored for the benefit of the Tribe, subject to the Act of July 1, 1932 (47 Stat. 564, 25 U.S.C. 386 et seq.). The water stored by the Tribe pursuant to this subsection shall not be subject to apportionments pursuant to Article VIII (2) of the Globe Equity Decree. Not later than January 31 of each year, the Secretary shall notify the United States District Court for the District of Arizona of the Tribe's stored water balance as of January 1 of that year. The Secretary shall notify said Court of the Tribe's stored water balance at least once per calendar month and at such more frequent intervals as conditions, in the Secretary's judgment, may require.

(f) EXECUTION OF AGREEMENT.—The Secretary shall execute the Agreement which establishes, as between and among the parties to Agreement, the Tribe's permanent right, except as provided in paragraphs 13.0, 14.0 and 15.0 of the Agreement, to the on-reservation diversion and use of all ground water beneath the Tribe's Reservation, subject to the management plan referred to in section 3710(d) of this title, and all surface water in all tributaries within the Tribe's Reservation to the mainstreams of: The Black River, the Salt River below its confluence with the Black River, the San Pedro River and the Gila River, including the right, except as provided in paragraphs 14.0 and 15.0 of the Agreement, to fully regulate and store such water on the tributaries. The Tribe's rights to the mainstream of Black River, San Pedro River and the Gila River shall be as provided in the Agreement and the Globe Equity Decree. With respect to parties not subject to the waiver authorized by subsection 3708(b) of this title, the claims of the Tribe and the United States, as trustee for the Tribe, are preserved.

(g) GILA RIVER EXCHANGES.—Any exchange pursuant to this legislation of Gila River water for water supplied by the CAP shall not amend, alter or conflict with the exchanges authorized by section 304(f) of the Colorado River Basin Project Act (43 U.S.C. 1524(f)).

SEC. 3705. RATIFICATION AND CONFIRMATION OF CONTRACTS.

(a) RATIFICATION OF CONTRACT.—Except as provided in section 3710(i), the contract between the SRP and RWCD District dated October 24, 1924, together with all amendments thereto and any extension thereto entered into pursuant to the Agreement, is ratified, confirmed, and declared to be valid.

(b) SUBCONTRACT.—The Secretary shall revise the subcontract of the Roosevelt Water Conservation District for agricultural water service from the CAP to include an addendum substantially in the form of Exhibit "A" to the Agreement and to execute the subcontract as revised. Notwithstanding any other provision of law, the Secretary shall approve the conversions of agricultural water to municipal and industrial uses authorized by the addendum at such time or times as the conditions authorizing such conversions, as set forth in the addendum, are found to exist.

(c) RESTRICTIONS.—The lands within RWCD and SRP shall be free from the ownership and full cost pricing limitations of Federal reclamation law and from all full cost pricing provisions of Federal law.

(d) DISCLAIMER.—No person, entity or lands shall become subject to the provisions of the Reclamation Reform Act of 1982 (43 U.S.C. 390aa et seq.) or any full cost pricing provision of Federal law by virtue of their participation in the settlement or their execution and performance of the Agreement, or the use, storage or delivery of CAP water pursuant to a lease, sublease or exchange of water to which the Tribe is entitled under this title.

(e) FULL COST PRICING PROVISIONS.—The lands within the Tribe's Reservation shall be free from all full cost pricing provisions of Federal law.

(f) CERTAIN EXTENSIONS AUTHORIZED.—Notwithstanding any other provision of law or any other provision of this title, the Secretary, subject to tribal approval, is authorized and directed to: extend the term of that right-of-way permit granted to Phelps Dodge Corporation on March 8, 1950, and all amendments thereto, for the construction, operation and maintenance of an electrical transmission line and existing road for access to those facilities over the lands of the Tribe; extend the term of that right-of-way permit numbered 2000089 granted on July 25, 1944, to Phelps Dodge Corporation, and all amendments thereto, for the construction, use, operation and maintenance of a water plant, pipeline, canal, water flowage easement through Willow Creek and existing road for access to those facilities over the lands of the Tribe; and grant a water flowage easement through the portions of Eagle Creek flowing through the Tribe's Reservation. Notwithstanding any other provision of law, each such right-of-way and flowage easement shall be for a term expiring on March 8, 2090, and shall be subject to the right of Phelps Dodge to renew the rights-of-way and flowage easements for an additional term of up to 100 years, subject to payment of rental at a rate based upon fair market retail value.

SEC. 3706. WATER DELIVERY CONTRACT AMENDMENTS; WATER LEASE, WATER WITHDRAWAL.

(a) AMENDMENT OF CONTRACT.—The Secretary shall amend the CAP water delivery contract between the United States and the Ak-Chin Indian Community dated December 11, 1980, and the contract between the United States and the Ak-Chin Indian Community dated October 2, 1985, as is necessary to satisfy the requirements of section 3704(a) of this title.

(b) CONTRACT AMENDMENT.—The Secretary shall amend the CAP water delivery contract between the United States and the Tribe dated December 11, 1980 (hereinafter referred to as the "Tribal CAP Delivery Contract"), as follows:

(1) To include the obligation by the United States to deliver water to the Tribe upon the same terms and conditions set forth in the Tribal CAP Delivery Contract as follows: water from those sources described in subsections (a), (c), and (d) of section 3704 of this title; except that the water reallocated pursuant to such subsections shall retain the priority such water had prior to its reallocation. The cost to the United States to meet the Secretary's obligation to design and construct new facilities to delivery CAP water shall not exceed the cost of construction of the delivery and distribution system for the 12,700 acrefeet of CAP water originally allocated to the Tribe.

(2) To extend the term of such contract to December 31, 2100, and to provide for its subsequent renewal upon the same terms and conditions as the Tribal CAP Delivery Contract, as amended.

(3) To authorize the Tribe to lease or to enter into an option or options to lease the water to which the Tribe is entitled under the Tribal CAP Delivery Contract, as amended, within Maricopa, Pinal and Pima Counties for terms not exceeding one hundred years and to renew such leases.

(4) To authorize the Tribe to lease water to which the Tribe is entitled under the Tribal CAP Delivery Contract, as amended, to the city of Scottsdale under the terms and conditions of the Water Lease set forth in Exhibit "B" to the Agreement.

(5) To authorize the Tribe to lease water to which the Tribe is entitled under the Tribal CAP Delivery Contract, as amended, including, but not limited to, the cities of Chandler, Glendale, Goodyear, Mesa, Peoria, Phoenix, Scottsdale, Tempe and the town of Gilbert.

(c) APPROVAL OF AMENDMENTS.—Notwithstanding any other provision of law, the amendments to the Tribal CAP Delivery Contract set forth in Exhibit "C" to the Agreement are hereby authorized, approved and confirmed.

(d) CHARGES NOT TO BE IMPOSED.—The United States shall not impose upon the Tribe the operation, maintenance and replacement charges described and set forth in section 6 of the Tribal CAP Delivery Contract or any other charge with respect to CAP water delivered or required to be delivered to the lessee or lessees of the options to lease or leases herein authorized.

(e) WATER LEASE.—Except as provided in paragraph (3) of this subsection, any Water Lease entered into by the Tribe as authorized by section 3706 shall specifically provide that—

(1) the lessee shall pay all operation, maintenance and replacement costs of such water to the United States, or if directed by the Secretary, to CAWCD;

(2) except as provided in paragraph (3) of this subsection, the lessee shall not be obligated to pay water service capital charges or municipal and industrial subcontract charges or any other charges or payment for such CAP water other than the operation, maintenance and replacement costs and lease payments; and

(3) with respect to the water reallocated to the Tribe pursuant to subsections (c) and (d) of section 3704, the Tribe or lessee shall pay any water service capital charges or municipal and industrial subcontract charges for any water use or lease from the effective date of this title through September 30, 1995.

(f) ALLOCATION AND REPAYMENT OF COSTS.—For the purpose of determining allocation and repayment of costs of the CAP as provided in Article 9.3 of Contract Numbered 14–0906–09W–09245, Amendment No. 1, between the United States of America and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with the delivery of water to which the Tribe is entitled under the Tribal Delivery Contract, as amended, to the lessee or lessees of the options to lease or leases herein authorized shall be nonreimbursable, and such costs shall be excluded from CAWCD's repayment obligation.

(g) AGREEMENTS.—The Secretary shall, in consultation with the Tribe, enter into agreements

necessary to permit the Tribe to exchange, within the State of Arizona, all or part of the water available to its under its Tribal CAP Delivery Contract, as amended.

(h) RATIFICATION.—As among the parties to the Agreement, the right of the city of Globe to withdraw and use water from under the Cutter subarea under the Agreement, as limited and conditioned thereunder, is hereby ratified and confirmed.

(i) USE OF WATER.—As among the parties to the Agreement, the right of the city of Safford to withdraw and use water from the Bonita Creek watershed as provided in the Agreement, as limited and conditioned thereunder, is hereby ratified and confirmed.

(j) WITHDRAWAL AND USE OF WATER.—As between the Tribe and Phelps Dodge, the right of Phelps Dodge to divert, withdraw and use water as provided in the Agreement, as limited and conditioned thereunder, is hereby ratified and confirmed.

(k) PROHIBITIONS.—Except as authorized by this section, no water made available to the Tribe pursuant to the Agreement, the Globe Equity Decree, or this title may be sold, leased, transferred or in any way used off the Tribe's Reservation.

SEC. 3707. CONSTRUCTION AND REHABILITATION; TRUST FUND.

(a) DUTIES.—

(1) The Secretary is directed, pursuant to the existing authority of the Colorado River Basin Project Act (43 U.S.C. 1501 et. seq.), to design and construct new facilities for the delivery of 12,700 acre-feet of CAP water originally allocated to the Tribe to tribal reservation lands at a cost which shall not exceed the cost for such design and construction which would have been incurred by the Secretary in the absence of the Agreement and this title;

(2) The Secretary of Commerce is directed to amend the contract between the United States Economic Development Administration and the Tribe relating to the construction of Elgo Dam on the San Carlos Apache Indian Reservation, Project No. 07–0981–09000210, to provide that all remaining repayment obligations owing to the United States on the date of the enactment of this title are discharged.

(b) FUND.—There is established in the Treasury of the United States a fund to be known as the "San Carlos Apache Tribe Development Trust Fund" (hereinafter called the "Fund") for the exclusive use and benefit of the Tribe. The Secretary shall deposit into the Fund the funds authorized to be appropriated in subsection (c) and the $3,000,000 provided by the State of Arizona pursuant to the Agreement. There shall be deposited into the Fund any monies paid to the Tribe or to the Secretary on behalf of the Tribe from leases or options to lease water authorized by section 3706 of this title. Such sums shall be invested in interest-bearing deposits and securities in accordance with the Act of June 24, 1938 (25 U.S.C. 162(a).

(c) AUTHORIZATION.—There are authorized to be appropriated $38,400,000 in fiscal year 1994, together with interest accruing thereon beginning one year from the date of enactment of this title at rates determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding Federal obligations of comparable maturity, to carry out the provisions of subsection (b).

(d) USE OF FUND.—When the authorizations contained in section 3708(b) of this title are effective, the principal of the Fund and any interest or income accruing thereon may be used by the Tribe to put to beneficial use the Tribe's water entitlement, to defray the cost to the Tribe of CAP operation, maintenance and replacement charges are appropriate, and for other economic and community development purposes. The income from the Fund shall be distributed by the Secretary to the San Carlos Apache Tribe only upon presentation to the Secretary of a certified copy of a duly enacted Resolution of the Tribal Council requesting distribution and a written budget approved by the Tribal Council. Such income may thereafter be expended only in accordance with such budget. Income not distributed shall be added to principal. The principal from the Fund may be distributed by the Secretary to the San Carlos Apache Tribe only upon presentation to the Secretary of a certified copy of a duly enacted Resolution of the Tribal Council requesting distribution and a written budget approved by the Tribal Council and the Secretary. Such principal may thereafter be expended only in accordance with such budget: Provided, however, That the principal may only be utilized for long-term economic development projects. In approving a budget for the distribution of income or principal, The Secretary shall, in accordance with regulations promulgated pursuant to subsection (e) of this section, be assured that methods exist and will be employed to ensure the use of the funds shall be in accordance with the approved budget.

(e) REGULATIONS.—The Secretary shall, no later than 30 days after the date the authorizations contained in section 3708(b) are effective, promulgate regulations necessary to carry out the purposes of subsection (d).

(f) DISCLAIMER.—The United States shall not be liable for any claim or cause of action arising from the Tribe's use or expenditure of monies distributed from the Fund.

SEC. 3708. SATISFACTION OF CLAIMS

(a) FULL SATISFACTION OF CLAIMS.—Except as provided in subsection (e) of this section, the benefits realized by the Tribe and its members under this title shall constitute full and complete satisfaction of all members' claims for water rights or injuries to water rights under Federal, State and other laws (including claims for water rights in ground water, surface water, and effluent) from time immemorial to the effective date of this title. Notwithstanding the foregoing, nothing in this title shall be deemed to recognize or establish any right of a member of the Tribe to water on the Tribe's Reservation.

(b) RELEASE.—The Tribe, on behalf of itself and its members, and the Secretary on behalf of the United States, are authorized, as part of the performance of the obligations under the Agreement, to execute a waiver and release, except as provided in the Agreement, of all claims of water rights or injuries to water rights (including water rights in ground water, surface water and effluent), from time immemorial to the effective date of this title, and any and all future claims of water rights (including water rights in ground water, surface water and effluent), from and after the effective date of this title, which the Tribe and its members may have, against the United States, the State of Arizona or any agency or political subdivision thereof, or any other person, corporation, or municipal corporation, arising under the laws of the United States, the State of Arizona or otherwise.

(c) ADDITIONAL RELEASES.—Except as provided in the Agreement, the United States shall not assert any claim against the State of Arizona or any political subdivision thereof, or any person, corporation or municipal corporation, arising under the laws of the United States, the State of Arizona or otherwise in its own right or on behalf of the Tribe based upon—

(1) water rights or injuries to water rights (including water rights in ground water, surface water and effluent) of the Tribe and its members, or

(2) water rights or injuries to water rights (including water rights in ground water, surface water and effluent) held by the United States on behalf of the Tribe and its members.

(d) SAVINGS PROVISION.—In the event the authorizations contained in subsection (b) of this section do not become effective pursuant to section 3711(a), the Tribe and the United States shall retain the right to assert past and future water rights claims as to all Reservation lands.

(e) DISCLAIMER.—Nothing in this title shall affect the water right or claims related to the San Carlos Apache Allotments outside the exterior boundaries of the Reservation.

(f) CLAIMS.—(1) The United States District Court for the District of Arizona and the United States Claims Court are authorized to hear and decide any claim brought by the Central Arizona Water Conservation District or other contractors of CAP water. Any such claim shall be filed within two years of the date of enactment of this Act, and shall be heard by the court on an expedited basis. If such a claim is filed and the court grants judgment for the plaintiff(s), the court shall award such relief as it deems proper, and shall award costs and attorneys' fees to the plaintiff(s). Any judgment of the court shall be subject to appeal on the same basis that other judgments of that court are subject to review under existing law.

(2) For purposes of this subsection, "claim" means a claim that the reallocation of water to the Tribe pursuant to section 3904(a) of this Act has unlawfully deprived the Central Arizona Water Conservation District or other contractors of CAP water of legal rights to such water.

SEC. 3709. ENVIRONMENTAL COMPLIANCE.

(a) NO MAJOR FEDERAL ACTION.—Execution of the settlement agreement by the Secretary as provided for in section 3710(c) shall not constitute major Federal action under the National Environmental Policy Act (42 U.S.C. 4321 et seq.). The Secretary shall carry out all necessary environmental compliance during the implementation phase of this settlement.

(b) AUTHORIZATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out all necessary environmental compliance associated with the settlement under this title, including mitigation measures adopted by the Secretary.

(c) LEAD AGENCY.—With respect to such settlement, the Bureau of Reclamation shall be designated as the lead agency in regard to environmental compliance, and shall coordinate and cooperate with the other affected Federal agencies as required under applicable Federal environmental laws.

(d) ENVIRONMENTAL ACTS.—The Secretary shall comply with all aspects of the National Environmental Policy Act (42 U.S.C. 4321 et seq.) and the Endangered Species Act (16 U.S.C. 1531 et seq.), and other applicable Federal environmental Acts and regulations in proceeding through the implementation phase of such settlement.

SEC. 3710. MISCELLANEOUS PROVISIONS.

(a) WAIVER OF SOVEREIGN IMMUNITY—In the event any party to the Agreement files a lawsuit in any United States district court relating only and directly to the interpretation or enforcement of this title or the Agreement, naming the United States of America or the Tribe as parties, authorization is hereby granted to joining the United States of America or the Tribe, or both, in any such litigation, and any claim by the United States of America or the Tribe to sovereign immunity from such suit is hereby waived.

(b) CERTAIN CLAIMS PROHIBITED.—The United States of America shall make no claims for reimbursement of costs arising out of the implementation of this title or the Agreement against any lands within the San Carlos Apache Indian Reservation, and no assessment shall be made with regard to such costs against such lands.

(c) APPROVAL OF AGREEMENT.—Except to the extent that the Agreement conflicts with the

provisions of this title, such Agreement is hereby approved, ratified and confirmed. The Secretary shall execute and perform such Agreement as approved, ratified and confirmed. The Secretary is authorized to execute any amendments to the Agreement and perform any action required by any amendments to the Agreement which may be mutually agreed upon by the parties.

(d) Ground Water Management Plan.—The Secretary shall establish a ground water management plan for the San Carlos Apache Reservation which, except as is necessary to be consistent with the provisions of this title, will have the same effect as a management plan developed under Arizona law.

(e) Amendment to the Act of April 4, 1938.—The Act of April 4, 1938 (52 Stat. 193; 25 U.S.C. 390) is amended by inserting immediately before the period at the end thereof a colon and the following: "Provided further, That concessions for recreation and fish and wildlife purposes on San Carlos Lake may be granted only by the governing body of the San Carlos Apache Tribe upon such conditions and subject to such limitations as may be set forth in the constitution and bylaws of such Tribe".

(f) San Carlos Reservoir.—There is hereby transferred to the Tribe the Secretary's entitlement of 30,000 acre-feet of water, less any evaporation and seepage losses from the date of acquisition by the Secretary to the date of transfer, which the Secretary may have acquired through substituting CAP water for water to which the Gila River Indian Community and the San Carlos Irrigation and Drainage District had as right to be released from San Carlos Reservoir and delivered to them in 1990.

(g) Limitation.—No part of the Fund established by section 3707(b) of this title, including principal and income, or income from options to lease water or water leases authorized by section 3706, may be used to make per capita payments to members of the Tribe.

(h) Disclaimer.—Nothing in this title shall be construed to repeal, modify, amend, change or affect the Secretary's obligations to the Ak-Chin Indian Community pursuant to the Act of October 19, 1984 (98 Stat. 2698).

(i) Water Rights.—Nothing in this title shall be construed to quantify or otherwise affect the water rights, claims or entitlements to water of any Arizona tribe, band or community, other than the San Carlos Apache Tribe.

(j) Planet Ranch.—The Secretary is authorized and directed to acquire, with the consent of and upon terms mutually acceptable to the city of Scottsdale ("city") and the Secretary, all of the city's right, title and interest in Planet Ranch located in the Bill Williams River in Arizona, including all water rights appurtenant to that property, and the city's January 1988 application filed with the Arizona Department of Water Resources to appropriate water from the Bill Williams River through a land exchange based on fair market value. If an exchange is made with land purchased by the Bureau of Reclamation for the construction and operation of the Central Arizona Project, then, upon commencement of repayment by CAWCD of the reimbursable costs of the Central Arizona Project, the fair market value of those lands so exchanged shall be credited in full against the annual payments due from CAWCD under Article 9.4(a) of Contract No. 14-0906-09W-09245, Amendment No. 1, between the United States and CAWCD dated December 1, 1988, and any amendment or revision thereof, until exhausted: Provided, however, That the authorized appropriation ceiling of the Central Arizona Project shall not be affected in any manner by the provisions of this subsection.

(k) Repeal.—Section 304(c)(3) of the Colorado River Basin Project Act (43 U.S.C. 1524(c)(3)) is hereby repealed. This subsection does not authorize transportation of water pumped within the exterior boundary of a Federal reclamation project established prior to September 30, 1968 pursuant to the Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 391), as amended and supplemented, across project boundaries.

(l) Water Rights.—Nothing in this title shall be construed to affect the water rights or the water rights claims of any Federal agency other than the Bureau of Indian Affairs on behalf of the San Carlos Apache Tribe, nor shall anything in this title be construed to prohibit the United States from confirming in the Agreement, except on behalf of Indian tribes other than the San Carlos Apache Tribe, the Gila River and Little Colorado River watershed water rights of other parties to the Agreement by making express provisions for the same in the Agreement.

SEC. 3711. EFFECTIVE DATE.

(a) Effective Date of Authorization.—The authorization contained in section 3708(b) of this title shall become effective as of the date the Secretary causes to be published in the Federal Register a statement of findings that—

(1) the Secretary has fulfilled the requirements of sections 3704 and 3706;

(2) the Roosevelt Water Conservation District subcontract for agricultural water service from CAP has been revised and executed as provided in section 3705(b);

(3) the funds authorized by section 3707(c) have been appropriated and deposited into the Fund;

(4) the contract referred to in section 3707(a)(2) has been amended;

(5) the State of Arizona has appropriated and deposited into the Fund $3,000,000 as required by the Agreement;

(6) the stipulations attached to the Agreement as Exhibits "D" and "E" have been approved; and

(7) the Agreement has been modified, to the extent it is in conflict with this title, and has been executed by the Secretary.

(b) Conditions.—(1) If the actions described in paragraphs (1), (2), (3), (4), (5), (6), and (7) of subsection (a) of this section have not occurred by December 31, 1994, subsections (c) and (d) of section 3704, subsections (a) and (b) of section 3705, section 3706, subsections (a)(2), (c), (d), and (f) of section 3707, subsections (b) and (c) of section 3708, and subsections (a), (b), (c), (d), (e), (g), (h), (j), and (l) of section 3710 of this title, together with any contracts entered into pursuant to any such section or subsection, shall not be effective on and after the date of enactment of this title, and any funds appropriated pursuant to section 3707(c), and remaining unobligated and unexpended on the date of the enactment of this title, shall immediately revert to the Treasury, as general revenues, and any funds appropriated by the State of Arizona pursuant to the Agreement, and remaining unobligated on the date of enactment of this title, shall immediately revert to the State of Arizona.

(2) Notwithstanding the provisions of paragraph (1) of this subsection, if the provisions of subsections (a) and (b) of section 3705 of this title have been otherwise accomplished pursuant to provisions of the Act of October 20, 1988, the provisions of paragraph (1) of this subsection shall not be construed as affecting such subsections.

TITLE XXXVIII—SAN FRANCISCO WATER RECLAMATION AND REUSE DEMONSTRATION PROJECT

The Secretary of the Interior is authorized and directed to undertake a demonstration project in the City and County of San Francisco to examine the feasibility and effectiveness of using advanced ecologically engineered technology for water reclamation and reuse in accordance with the title 22 standards of the California Water Code. "Advanced Ecologically Engineered Technology" refers to a green house-based, ecologically engineered technology which employs highly populated pond and marsh ecosystems to produce water for reclamation and reuse. One-half of the costs associated with implementation of this title shall be borne by the United States as a nonreimbursable cost; the other one-half shall be borne by the State of California and the City and County of San Francisco.

TITLE XXXIX—SIPHON REPAIR AND REPLACEMENT

(a) Congress finds that the prestressed concrete pipe siphons installed in the Hayden-Rhodes Aqueduct portion of the Central Arizona Project designed and constructed by the Secretary pursuant to the Colorado River Basin Project Act (43 U.S.C. 1501 et seq.) have been determined to be defective, inadequate and unsuitable for aquaduct purposes and must be replaced or substantial repairs completed for the transfer of the operation of the Project to its local sponsors.

(b) Notwithstanding any other provision of law or contract, 50 percent of the costs incurred in the repair, modification or replacement, together with associated costs, of the Hayden-Rhodes Aqueduct siphons at Salt River, New River, Hassayampa River, Jackrabbit Wash, Centennial Wash and Aqua Fria River, all features of the Central Arizona Project, shall be borne by the United States and shall be nonreimbursable and nonreturnable and the remaining costs shall be allocated to the authorized purposes of the project.

TITLE XL—NATIONAL HISTORIC PRESERVATION ACT AMENDMENTS

SEC. 4001. SHORT TITLE.

This title may be cited as the "National Historic Preservation Act Amendments of 1992".

SEC. 4002. POLICY.

Section 2 of the National Historic Preservation Act (15 U.S.C. 470-1) is amended as follows—

(1) In paragraph (2) insert "and in the administration of the national preservation program in partnership with States, Indian tribes, Native Hawaiians, and local governments" after "community of nations".

(2) In paragraph (6) insert ", Indian tribes and Native Hawaiian organizations" after "local governments".

SEC. 4003. REVIEW OF THREATS TO PROPERTIES.

Section 101(a) of the National Historic Preservation Act (16 U.S.C. 470a(a)) is amended by adding the following new paragraph at the end thereof:

"(8) The Secretary shall, at least once every 4 years, in consultation with the Council and with State Historic Preservation Officers, review significant threats to properties included in, or eligible for inclusion on, the National Register, in order to—

"(A) determine the kinds of properties that may be threatened;

"(B) ascertain the causes of the threats; and

"(C) develop and submit to the President and Congress recommendations for appropriate action.".

SEC. 4004. STATE HISTORIC PRESERVATION PROGRAMS.

Section 101(b) of the National Historic Preservation Act (16 U.S.C. 470a(b)) is amended as follows:

(1) Amend paragraph (2) to read as follows:

"(2)(A) Periodically, but not less than every 4 years after the approval of any State program under this subsection, the Secretary, in consultation with the Council on the appropriate provisions of this Act, and in cooperation with the State Historic Preservation Officer, shall evaluate the program to determine whether it is consistent with this Act.

"(B) If, at any time, the Secretary determines that a major aspect of a State program is not

consistent with this Act, the Secretary shall disapprove the program and suspend in whole or in part any contracts or cooperative agreements with the State and the State Historic Preservation Officer under this Act, until the program is consistent with this Act, unless the Secretary determines that the program will be made consistent with this Act within a reasonable period of time.

"(C) The Secretary, in consultation with State Historic Preservation Officers, shall establish oversight methods to ensure State program consistency and quality without undue review burdens on State Historic Preservation Officers.

"(D) At the discretion of the Secretary, a State system of fiscal audit and management may be substituted for comparable Federal systems so long as the State system—

"(i) establishes and maintains substantially similar accountability standards; and

"(ii) provides for independent professional peer review.

The Secretary may also conduct periodic fiscal audits of State programs approved under this section as needed and shall ensure that such programs meet applicable accountability standards.".

(2) Amend paragraph (3) as follows:

(A) In subparagraph (G), strike "relating to the Federal and State Historic Preservation Programs; and" and insert "in historic preservation;".

(B) In subparagraph (H), strike the period at the end thereof and insert a semicolon.

(C) Add at the end thereof the following new subparagraphs—

"(I) consult with appropriate Federal agencies in accordance with this Act on—

"(i) Federal undertakings that may affect historic properties; and

"(ii) the content and sufficiency of any plans developed to protect, manage, or reduce or mitigate harm to such properties; and

"(J) advise and assist in the evaluation of proposals for rehabilitation projects that may qualify for Federal assistance.".

(3) Amend paragraph (5) by striking "1980" and inserting "1992".

(4) Add at the end thereof the following new paragraphs:

"(6)(A) Subject to subparagraphs (C) and (D), the Secretary may enter into contracts or cooperative agreements with a State Historic Preservation Officer for any State authorizing such Officer to assist the Secretary in carrying out one or more of the following responsibilities within that State—

"(i) Identification and preservation of historic properties.

"(ii) Determination of the eligibility of properties for listing on the National Register.

"(iii) Preparation of nominations for inclusion on the National Register.

"(iv) Maintenance of historical and archaeological data bases.

"(v) Evaluation of eligibility for Federal preservation incentives.

Nothing in this paragraph shall be construed to provide that any State Historic Preservation Officer or any other person other than the Secretary shall have the authority to maintain the National Register for properties in any State.

"(B) The Secretary may enter into a contract or cooperative agreement under subparagraph (A) only if—

"(i) the State Historic Preservation Officer has requested the additional responsibility;

"(ii) the Secretary has approved the State historic preservation program pursuant to section 101(b)(1) and (2);

"(iii) the State Historic Preservation Officer agrees to carry out the additional responsibility in a timely and efficient manner acceptable to the Secretary and the Secretary determines that such Officer is fully capable of carrying out such responsibility in such manner;

"(iv) the State Historic Preservation Officer agrees to permit the Secretary to review and revise, as appropriate in the discretion of the Secretary, decisions made by the Officer pursuant to such contract or cooperative agreement; and

"(v) the Secretary and the State Historic Preservation Officer agree on the terms of additional financial assistance to the State, if there is to be any, for the costs of carrying out such responsibility.

"(C) For each significant program area under the Secretary's authority, the Secretary shall establish specific conditions and criteria essential for the assumption by State Historic Preservation Officers of the Secretary's duties in each such program.

"(D) Nothing in this subsection shall have the effect of diminishing the preservation programs and activities of the National Park Service.".

SEC. 4005. CERTIFICATION OF LOCAL GOVERNMENTS.

Section 101(c) of the National Historic Preservation Act (16 U.S.C. 470a(c)) is amended by adding at the end thereof the following new paragraph:

"(4) For the purposes of this section the term—

"(A) 'designation' means the identification and registration of properties for protection that meet criteria established by the State or the locality for significant historic and prehistoric resources within the jurisdiction of a local government; and

"(B) 'protection' means a local review process under State or local law for proposed demolition of, changes to, or other action that may affect historic properties designated pursuant to subsection (c).".

SEC. 4006. TRIBAL HISTORIC PRESERVATION PROGRAMS.

(a) REVISION OF EXISTING LAW.—Section 101 of the National Historic Preservation Act (16 U.S.C. 470a) is amended as follows—

(1) Redesignate subsections (d), (e), (f), (g), and (h) as subsections (e), (f), (g), (h), and (i), respectively.

(2) Insert after subsection (c) the following new subsection:

"(d)(1)(A) The Secretary shall establish a program and promulgate regulations to assist Indian tribes in preserving their particular historic properties. The Secretary shall foster communication and cooperation between Indian tribes and State Historic Preservation Officers in the administration of the national historic preservation program to ensure that all types of historic properties and all public interests in such properties are given due consideration, and to encourage coordination among Indian tribes, State Historic Preservation Officers, and Federal agencies in historic preservation planning and in the identification, evaluation, protection, and interpretation of historic properties.

"(B) The program under subparagraph (A) shall be developed in such a manner as to ensure that tribal values are taken into account to the extent feasible. The Secretary may waive or modify requirements of this section to conform to the cultural setting of tribal heritage preservation goals and objectives. The tribal programs implemented by specific tribal organizations may vary in scope, as determined by each tribe's chief governing authority.

"(C) The Secretary shall consult with Indian tribes, other Federal agencies, State Historic Preservation Officers, and other interested parties and initiate the program under subparagraph (A) by not later than October 1, 1994.

"(2) A tribe may assume all or any part of the functions of a State Historic Preservation Officer in accordance with subsections (b)(2) and (b)(3), with respect to tribal lands, as such responsibilities may be modified for tribal programs through regulations issued by the Secretary, if—

"(A) the tribe's chief governing authority so requests;

"(B) the tribe's designates a tribal preservation official to administer the tribal historic preservation program, through appointment by the tribe's chief governing authority or as a tribal ordinance may otherwise provide;

"(C) the tribal preservation official provides the Secretary with a plan describing how the functions the tribal preservation official proposes to assume will be carried out;

"(D) the Secretary determines, after consulting with the tribe, the appropriate State Historic Preservation Officer, the Council (if the tribe proposes to assume the functions of the State Historic Preservation Officer with respect to review of undertakings under section 106), and other tribes, if any, whose tribal or aboriginal lands may be affected by conduct of the tribal preservation program—

"(i) that the tribal preservation program is fully capable of carrying out the functions specified in the plan provided under subparagraph (C);

"(ii) that the plan defines the remaining responsibilities of the Secretary and the State Historic Preservation Officer;

"(iii) that the plan provides, with respect to properties neither owned by a member of the tribe nor held in trust by the Secretary for the benefit of the tribe, at the request of the owner thereof, the State Historic Preservation Officer, in addition to the tribal preservation official, may exercise the historic preservation responsibilities in accordance with subsections (b)(2) and (b)(3); and

"(E) based on satisfaction of the conditions stated in subparagraphs (A), (B), (C), and (D), the Secretary approves the plan.

"(3) In consultation with interested Indian tribes, other Native American organizations and affected State Historic Preservation Officers, the Secretary shall establish and implement procedures for carrying out section 103(a) with respect to tribal programs that assume responsibilities under paragraph (2).

"(4) At the request of a tribe whose preservation program has been approved to assume functions and responsibilities pursuant to paragraph (2), the Secretary shall enter into contracts or cooperative agreements with such tribe permitting the assumption by the tribe of any part of the responsibilities referred to in subsection (b)(6) on tribal land, if—

"(A) the Secretary and the tribe agree on additional financial assistance, if any, to the tribe for the costs of carrying out such authorities;

"(B) the Secretary finds that the tribal historic preservation program has been demonstrated to be sufficient to carry out the contract or cooperative agreement and this Act; and

"(C) the contract or cooperative agreement specifies the continuing responsibilities of the Secretary or of the appropriate State Historic Preservation Officers and provides for appropriate participation by—

"(i) the tribe's traditional cultural authorities;

"(ii) representatives of other tribes whose traditional lands are under the jurisdiction of the tribe assuming responsibilities; and

"(iii) the interested public.

"(5) The Council may enter into an agreement with an Indian tribe to permit undertakings on tribal land to be reviewed under tribal historic preservation regulations in place of review under regulations promulgated by the Council to govern compliance with section 106, if the Council, after consultation with the tribe and appropriate State Historic Preservation Officers, determines that the tribal preservation regulations will afford historic properties consider-

ation equivalent to those afforded by the Council's regulations.

"(6)(A) Properties of traditional religious and cultural importance to an Indian tribe or Native Hawaiian organization may be determined to be eligible for inclusion on the National Register.

"(B) In carrying out its responsibilities under section 106, a Federal agency shall consult with any Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to properties described in subparagraph (A).

"(C) In carrying out his or her responsibilities under subsection (b)(3), the State Historic Preservation Officer for the State of Hawaii shall—

"(i) consult with Native Hawaiian organizations in assessing the cultural significance of any property in determining whether to nominate such property to the National Register;

"(ii) consult with Native Hawaiian organizations in developing the cultural component of a preservation program or plan for such property; and

"(iii) enter into a memorandum of understanding or agreement with Native Hawaiian organizations for the assessment of the cultural significance of a property in determining whether to nominate such property to the National Register and to carry out the cultural component of such preservation program or plan.".

(b) CONFORMING AMENDMENT.—Section 110(c) of the National Historic Preservation Act (16 U.S.C. 470h–2(c)) is amended by striking "101(g)" and inserting "101(h)".

SEC. 4007. MATCHING GRANTS.

Section 101(e) of the National Historic Preservation Act, as redesignated by section 4006(a)(1) of this title, is amended as follows—

(1) Amend paragraph (1) to read as follows:

"(1) The Secretary shall administer a program of matching grants to the States for the purposes of carrying out this Act.".

(2) Add the following at the end thereof:

"(4) Grants may be made under this subsection for the preservation, stabilization, restoration, or rehabilitation of religious properties listed in the National Register of Historic Places, provided that the purpose of the grant is secular, does not promote religion, and seeks to protect those qualities that are historically significant. Nothing in this paragraph shall be construed to authorize the use of any funds made available under this section for the acquisition of any property referred to in the preceding sentence.

"(5) The Secretary shall administer a program of direct grants to Indian tribes and Native Hawaiian organizations for the purpose of carrying out this Act as it pertains to Indian tribes and Native Hawaiian organizations. Matching fund requirements may be modified. Federal funds available to a tribe or Native Hawaiian organization may be used as matching funds for the purposes of the tribe's or organization's conducting its responsibilities pursuant to this section.

"(6)(A) As part of the program of matching grant assistance from the Historic Preservation Fund to States, the Secretary shall administer a program of direct grants to the Federated States of Micronesia, the Republic of the Marshall Islands, the Trust Territory of the Pacific Islands, and upon termination of the Trusteeship Agreement for the Trust Territory of the Pacific Islands, the Republic of Palau (referred to as the Micronesian States) in furtherance of the Compact of Free Association between the United States and the Federated States of Micronesia and the Marshall Islands, approved by the Compact of Free Association Act of 1985 (48 U.S.C. 1681 note), the Trusteeship Agreement for the Trust Territory of the Pacific Islands, and the Compact of Free Association between the United States and Palau, approved by the Joint Resolution entitled 'Joint Resolution to approve the "Compact of Free Association" between the United States and Government of Palau, and for other purposes' (48 U.S.C. 1681 note). The goal of the program shall be to establish historic and cultural preservation programs that meet the unique needs of each Micronesian State so that at the termination of the compacts the programs shall be firmly established. The Secretary may waive or modify the requirements of this section to conform to the cultural setting of those nations.

"(B) The amounts to be made available to the Micronesian States shall be allocated by the Secretary on the basis of needs as determined by the Secretary. Matching funds may be waived or modified.".

SEC. 4008. EDUCATION AND TRAINING.

Section 101 of the National Historic Preservation Act (16 U.S.C. 470a), as amended by section 4005 of this Act, is further amended by adding at the end thereof the following new subsection:

"(j)(1) The Secretary shall, in consultation with the Council and other appropriate Federal, tribal, Native Hawaiian, and non-Federal organizations, develop and implement a comprehensive preservation education and training program.

"(2) The education and training program described in paragraph (1) shall include—

"(A) new standards and increased preservation training opportunities for Federal workers involved in preservation-related functions;

"(B) increased preservation training opportunities for other Federal, State, tribal and local government workers, and students;

"(C) technical or financial assistance, or both, to historically black colleges and universities, to tribal colleges, and to colleges with a high enrollment of Native Americans or Native Hawaiians, to establish preservation training and degree programs;

"(D) coordination of the following activities, where appropriate, with the National Center for Preservation Technology and Training—

"(i) distribution of information on preservation technologies;

"(ii) provision of training and skill development in trades, crafts, and disciplines related to historic preservation in Federal training and development programs; and

"(iii) support for research, analysis, conservation, curation, interpretation, and display related to preservation.".

SEC. 4009. REQUIREMENTS FOR AWARDING OF GRANTS.

Section 102 of the National Historic Preservation Act (16 U.S.C. 470b) is amended as follows:

(1) Amend paragraph (3) of subsection (a) to read as follows:

"(3) for more than 60 percent of the aggregate costs of carrying out projects and programs under the administrative control of the State Historic Preservation Officer as specified in section 101(b)(3) in any one fiscal year.".

(2) In subsection (b) strike ", in which case a grant to the National Trust may include funds for the maintenance, repair, and administration of the property in a manner satisfactory for the Secretary".

(3) Add at the end thereof the following new subsections:

"(d) The Secretary shall make funding available to individual States and the National Trust for Historic Preservation as soon as practicable after execution of a grant agreement. For purposes of administration, grants to individual States and the National Trust each shall be considered to be one grant and shall be administered by the National Park Service as such.

"(e) The total administrative costs, direct and indirect, charged for carrying out State projects and programs may not exceed 25 percent of the aggregate costs except in the case of grants under section 101(e)(6).".

SEC. 4010. APPORTIONMENT OF GRANT FUNDS.

Section 103 of the National Historic Preservation Act (16 U.S.C. 470c) is amended as follows—

(1) In subsection (a) strike "for comprehensive statewide historic surveys and plans under this Act", and insert "for the purposes this Act".

(2) In subsection (b) strike "by the Secretary in accordance with needs as disclosed in approved statewide historic preservation plans." and insert "as the Secretary determines to be appropriate.".

(3) At the end of subsection (b) insert "The Secretary shall analyze and revise as necessary the method of apportionment. Such method and any revision thereof shall be published by the Secretary in the Federal Register.".

SEC. 4011. EXTENSION OF AUTHORIZATION FOR HISTORIC PRESERVATION FUND.

Section 108 of the National Historic Preservation Act (16 U.S.C. 470h-2) is amended by striking "1992" and inserting "1997".

SEC. 4012. FEDERAL AGENCY HISTORIC PRESERVATION PROGRAMS.

Section 110 of the National Historic Preservation Act (16 U.S.C. 470h-2) is amended as follows—

(1) In subsection (a)(1) strike"101(f)" and insert "101(g)".

(2) Amend subsection (a)(2) read as follows:

"(2) Each Federal agency shall establish (unless exempted pursuant to section 214), in consultation with the Secretary, a preservation program for the identification, evaluation, and nomination to the National Register of Historic Places, and protection of historic properties. Such program shall ensure—

"(A) that historic properties under the jurisdiction or control of the agency, are identified, evaluated, and nominated to the National Register;

"(B) that such properties under the jurisdiction or control of the agency as are listed in or may be eligible for the National Register are managed and maintained in a way that considers the preservation of their historic, archaeological, architectural, and cultural values in compliance with section 106 and gives special consideration to the preservation of such values in the case of properties designated as having National significance;

"(C) that the preservation of properties not under the jurisdiction or control of the agency actions are given full consideration in planning;

"(D) that the agency's preservation-related activities are carried out in consultation with other Federal, State, and local agencies, Indian tribes, Native Hawaiian organizations carrying out historic preservation planning activities, and with the private sector; and

"(E) that the agency's procedures for compliance with section 106—

"(i) are consistent with regulations issued by the Council pursuant to section 221;

"(ii) provide a process for the identification and evaluation of historic properties for listing in the National Register and the development and implementation of agreements, in consultation with State Historic Preservation Officers, local governments, Indian tribes, Native Hawaiian organizations, and the interested public, as appropriate, regarding the means by which adverse effects on such properties will be considered; and

"(iii) provide for the disposition of Native American cultural items from Federal or tribal land in a manner consistent with section 3(c) of the Native American Grave Protection and Repatriation Act (25 U.S.C. 300(c)).".

(3) Add at the end thereof the following new subsections:

"(k) Each Federal agency shall ensure that the agency will not grant a loan, loan guarantee, permit, license, or other assistance to an applicant who, with intent to avoid the requirements of section 106, has intentionally significantly adversely affected a historic property to which the grant would relate, or having legal power to prevent it, allowed such significant adverse affect to occur, unless the agency, after consultation with the Council, determines that circumstances justify granting such assistance despite the effect created or permitted by the applicant.

"(l) With respect to any undertaking subject to section 106 which adversely affects any property included in or eligible for inclusion in the National Register, and for which Federal agency has not entered into an agreement with the Council, the head of such agency shall document any decision made pursuant to section 106. The head of such agency may not delegate his or her responsibilities pursuant to such section. Where a section 106 memorandum of agreement has been executed with respect to an undertaking, such memorandum shall govern the undertaking and all of its parts.".

SEC. 4013. LEASE OR EXCHANGE OF FEDERAL HOUSING PROPERTIES.

Section 111(a) of the National Historic Preservation Act (16 U.S.C. 470h-3(a)) is amended by striking "may, after consultation with the Advisory Council on Historic Preservation," and inserting "after consultation with the Council, shall, to the extent practicable, establish and implement alternatives for historic properties, including adaptive use, that are not needed for current or projected agency purposes, and may".

SEC. 4014. PROFESSIONAL STANDARDS.

Title I of the National Historic Preservation Act (16 U.S.C. 470 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 112. PROFESSIONAL STANDARDS.

"(a) In General.—Each Federal agency that is responsible for the protection of historic resources, including archaeological resources pursuant to this Act or any other law shall ensure each of the following—

"(1)(A) All actions taken by employees or contractors of such agency shall meet professional standards under regulations developed by the Secretary in consultation with the Council, other affected agencies, and the appropriate professional societies of the disciplines involved, specifically archaeology, architecture, conservation, history, landscape architecture, and planning.

"(B) Agency personnel or contractors responsible for historic resources shall meet qualification standards established by the Office of Personnel Management in consultation with the Secretary and appropriate professional societies of the disciplines involved. The Office of Personnel Management shall revise qualification standards within 2 years after the date of enactment of this Act for the disciplines involved, specifically archaeology, architecture, conservation, curation, history, landscape architecture, and planning. Such standards shall consider the particular skills and expertise needed for the preservation of historic resources and shall be equivalent requirements for the disciplines involved.

"(2) Records and other data, including data produced by historical research and archaeological surveys and excavations are permanently maintained in appropriate data bases and made available to potential users pursuant to such regulations as the Secretary shall promulgate.

"(b) Guidelines.—In order to promote the preservation of historic resources on properties eligible for listing in the National Register, the Secretary shall, in consultation with the Council, promulgate guidelines to ensure that Federal, State, and tribal historic preservation programs subject to this Act include plans to—

"(1) provide information to the owners of properties containing historic (including architectural, curatorial, and archaeological) resources with demonstrated or likely research significqnce, about the need for protection of such resources, and the available means of protection;

"(2) encourage owners to preserve such resources intact and in place and offer the owners of such resources information on the tax and grant assistance available for the donation of the resources or of a preservation easement of the resources;

"(3) encourage the protection of Native American cultural items (within the meaning of section 2 (3) and (9) of the Native American Grave Protection and Repatriation Act (25 U.S.C. 3001 (3) and (9)) and of properties of religious or cultural importance to Indian tribes, Native Hawaiians, or other Native American groups; and

"(4) encourage owners who are undertaking archaeological excavations to—

"(A) conduct excavations and analyses that meet standards for federally-sponsored excavations established by the Secretary;

"(B) donate or lend artifacts of research significance to an appropriate research institution;

"(C) allow access to artifacts for research purposes; and

"(D) prior to excavating or disposing of a Native American cultural item in which an Indian tribe or Native Hawaiian organization may have an interest under section 3(a)(2) (B) or (C) of the Native American Grave Protection and Repatriation Act (25 U.S.C. 3002(a)(2) (B) and (C), given notice to and consult with such Indian tribe or Native Hawaiian organization.".

SEC. 4015. INTERSTATE AND INTERNATIONAL TRAFFIC IN ANTIQUITIES.

Title I of the National Historic Preservation Act (16 U.S.C. 470 et seq.) is amended by adding at the end thereof of the following new section after section 112:

"SEC. 113. INTERSTATE AND INTERNATIONAL TRAFFIC IN ANTIQUITIES.

"(a) Study.—In order to help control illegal interstate and international traffic in antiquities, including archaeological, curatorial, and architectural objects, and historical documents of all kinds, the Secretary shall study and report on the suitability and feasibility of alternatives for controlling illegal interstate and international traffic in antiquities.

"(b) Consultation.—In conducting the study described in subsection (a) the Secretary shall consult with the Council and other Federal agencies that conduct, cause to be conducted, or permit archaeological surveys or excavations or that have responsibilities for other kinds of antiquities and with State Historic Preservation Officers, archaeological, historical, conservation, and curatorial organizations, Indian tribes, Native Hawaiian organizations, and other Native American organizations, international organizations and other interested persons.

"(c) Report.—Not later than 18 months after the date of enactment of this section, the Secretary shall submit to Congress a report detailing the Secretary's findings and recommendations from the study described in subsection (a).

"(d) Authorization.—There are authorized to be appropriated not more than $500,000 for the study described in subsection (a), such sums to remain available until expended.".

SEC. 4016. MEMBERSHIP OF ADVISORY COUNCIL ON HISTORIC PRESERVATION.

Section 201(a) of the National Historic Preservation Act (16 U.S.C. 470i(a)) is amended as follows:

(1) Strike "and" at the end of paragraph (9).

(2) Strike the period at the end of paragraph (10) and insert "; and".

(3) Add at the end thereof the following new paragraph:

"(11) one member of an Indian tribe or Native Hawaiian organization who represents the interests of the tribe or organization of which he or she is a member, appointed by the President.".

SEC. 4017. AUTHORIZATION OF APPROPRIATONS FOR ADVISORY COUNCIL ON HISTORIC PRESERVATION.

Section 212(a) of the National Historic Preservation Act (16 U.S.C. 470) and following is amended by striking the last sentence thereof and inserting "There are authorized to be appropriated for purposes of this title not to exceed $5,000,000 for each of the fiscal years 1993 through 1996.".

SEC. 4018. ADVISORY COUNCIL REGULATIONS.

Section 211 of the National Historic Preservation Act (16 U.S.C. 470s) is amended by striking the period at the end of the first sentence and inserting "in its entirety.".

SEC. 4019. DEFINITIONS.

(a) Amendment and Addition of Definitions.—Section 301 of the National Historic Preservation Act (16 U.S.C. 470w) is amended as follows—

(1) In paragraph (1) strike "Code," and all that follows through the end of the paragraph, and insert in lieu thereof "Code.".

(2) In paragraph (2) strike "the Trust Territories of the Pacific Islands" and insert "the Trust Territory of the Pacific Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and, upon termination of the Trusteeship Agreement for the Trust Territory of the Pacific Islands, the Republic of Palau".

(3) Amend paragraph (4) to read as follows:

"(4) 'Indian tribe' or 'tribe' means an Indian tribe, band, nation, or other organized group or community, including a Native village, Regional Corporation or Village Corporation, as those terms are defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.".

(4) In paragraph (5) strike "Register" and all that follows through the end of the paragraph and insert "Register, including artifacts, records, and material remains related to such a property or resource.".

(5) Amend paragraph (7) to read as follows:

"(7) 'Undertaking' means a project, activity, or program funded in whole or in part under the direct or indirect jurisdiction of a Federal agency, including—

"(A) those carried out by or on behalf of the agency;

"(B) those carried out with Federal financial assistance;

"(C) those requiring a Federal permit license, or approval; and

"(D) those subject to State or local regulation administered pursuant to a delegation or approval by a Federal agency.".

(6) In paragraph (8) strike "maintenance and reconstruction," and insert "maintenance, research, interpretation, conservation, and education and training regarding the foregoing activities,".

(7) In paragraph (9) strike "urban area" and insert "area".

(8) In paragraph (10) strike "urban area of one or more neighborhoods and" and insert "area".

(9) In paragraph (11) after "of the Interior" insert "acting through the Director of the National Park Service".

(10) In paragraph (12) strike "and architecture" and insert "architecture, folklore, cultural anthropology, curation, conservation, and landscape architecture".

(11) In paragraph (13) strike "archaeology" and insert "prehistoric and historic archaeology, folklore, cultural anthropology, curation, conservation, and landscape architecture".

(12) Add at the end thereof the following new paragraphs:

"(14) 'Tribal lands' means—

"(A) all lands within the exterior boundaries of any Indian reservation; and

"(B) all dependent Indian communities.

"(15) 'Certified local government' means a local government whose local historic preservation program has been certified pursuant to section 101(c)

"(16) 'Council' means the Advisory Council on Historic Preservation established by section 201.

"(17) 'Native Hawaiian' means any individual who is a descendant of the aboriginal people who, prior to 1778, occupied and exercised sovereignty in the area that now constitutes the State of Hawaii.

"(18) 'Native Hawaiian organization' means any organization which—

"(A) serves and represents the interests of Native Hawaiians;

"(B) has as a primary and stated purpose the provision of services to Native Hawaiians; and

"(C) has demonstrated expertise in aspects of historic preservation that are culturally significant to Native Hawaiians.

The term includes, but is not limited to, the Office of Hawaiian Affairs of the State of Hawaii and Hui Malama I Na Kupuna O Hawai'i Nei, an organization incorporated under the laws of the State of Hawaii.".

(b) TECHNICAL AMENDMENT.—Section 201(a) of the National Historic Preservation Act (16 U.S.C. 470i(a)) is amended by striking "(hereafter referred to as the 'Council')".

SEC. 4020. ACCESS TO INFORMATION.

Section 304 of the National Historic Preservation Act (16 U.S.C. 4702–3) is amended to read as follows:

"SEC. 304. ACCESS TO INFORMATION.

"(a) AUTHORITY TO WITHHOLD FROM DISCLOSURE.—The head of a Federal agency or other public official receiving grant assistance pursuant to this Act, after consultation with the Secretary, shall withhold from disclosure to the public, information about the location, character, or ownership of a historic resource if the Secretary and the agency determine that disclosure may—

"(1) cause a significant invasion of privacy;

"(2) risk harm to the historic resources; or

"(3) impede the use of a traditional religious site by practitioners.

"(b) ACCESS DETERMINATION.—When the head of a Federal agency or other public official has determined that information should be withheld from the public pursuant to subsection (a), the Secretary, in consultation with such Federal agency head or official, shall determine who may have access to the information for the purpose of carrying out this Act.

"(c) CONSULTATION WITH COUNCIL.—When the information in question has been developed in the course of an agency's compliance with section 106 or 110(f), the Secretary shall consult with the Council in reaching determinations under subsections (a) and (b).".

SEC. 4021. RECOMMENDATIONS.

The Secretary of the Interior, in consultation with the Advisory Council, shall seek to ensure that historic properties preserved under the National Historic Preservation Act fully reflect the historical experience of this nation.

SEC. 4022. NATIONAL CENTER FOR PRESERVATION TECHNOLOGY AND TRAINING.

The National Historic Preservation Act (16 U.S.C. 470 and following) is amended by adding the following at the end thereof:

"TITLE IV—NATIONAL CENTER FOR PRESERVATION TECHNOLOGY AND TRAINING

"SEC. 401. FINDINGS.

"The Congress finds and declares that, given the complexity of technical problems encountered in preserving historic properties and the lack of adequate distribution of technical information to preserve such properties, a national initiative to coordinate and promote research, distribute information, and provide training about preservation skills and technologies would be beneficial.

"SEC. 402. DEFINITIONS.

"For the purposes of this title—

"(1) The term 'Board' means the National Preservation Technology and Training Board established pursuant to section 404.

"(2) The term 'Center' means the National Center for Preservation Technology and Training established pursuant to section 403.

"(3) The term 'Secretary' means the Secretary of the Interior.

"SEC. 403. ESTABLISHMENT OF NATIONAL CENTER.

"(a) ESTABLISHMENT.—There is hereby established within the Department of the Interior a National Center for Preservation Technology and Training. The Center shall be located at Northwestern State University of Louisiana in Natchitoches, Louisiana.

"(b) PURPOSES.—The purposes of the Center shall be to—

"(1) develop and distribute preservation and conservation skills and technologies for the identification, evaluation, conservation, and interpretation of prehistoric and historic resources;

"(2) develop and facilitate training for Federal, State and local resource preservation professionals, cultural resource managers, maintenance personnel, and others working in the preservation field;

"(3) take steps to apply preservation technology benefits from ongoing research by other agencies and institutions;

"(4) facilitate the transfer of preservation technology among Federal agencies, State and local governments, universities, international organizations, and the private sector; and

"(5) cooperate with related international organizations including, but not limited to the International Council on Monuments and Sites, the International Center for the Study of Preservation and Restoration of Cultural Property, and the International Council on Museums.

"(c) PROGRAMS.—Such purposes shall be carried out through research, professional training, technical assistance, and programs for public awareness, and through a program of grants established under section 405.

"(d) EXECUTIVE DIRECTOR.—The Center shall be headed by an Executive Director with demonstrated expertise in historic preservation appointed by the Secretary with advice of the Board.

"(e) ASSISTANCE FROM SECRETARY.—The Secretary shall provide the Center assistance in obtaining such personnel, equipment, and facilities as may be needed by the Center to carry out its activities.

"SEC. 404. PRESERVATION TECHNOLOGY AND TRAINING BOARD.

"(a) ESTABLISHMENT.—There is established a Preservation Technology and Training Board.

"(b) DUTIES.—The Board shall—

"(1) provide leadership, policy advice, and professional oversight to the Center;

"(2) advise the Secretary on priorities and the allocation of grants among the activities of the Center; and

"(3) submit an annual report to the President and the Congress.

"(c) MEMBERSHIP.—The Board shall be comprised of—

"(1) the Secretary, or the Secretary's designee;

"(2) 6 members appointed by the Secretary who shall represent appropriate Federal, State, and local agencies, State and local historic preservation commissions, and other public and international organizations, and

"(3) 6 members appointed by the Secretary on the basis of outstanding professional qualifications who represent major organizations in the fields of archeology, architecture, conservation, curation, engineering, history, historic preservation, landscape architecture, planning, or preservation education.

"SEC. 405. PRESERVATION GRANTS.

"(a) IN GENERAL.—The Secretary, in consultation with the Board, shall provide preservation technology and training grants to eligible applicants with a demonstrated institutional capability and commitment to the purposes of the Center, in order to ensure an effective and efficient system of research, information distribution and skills training in all the related historic preservation fields.

"(b) GRANT REQUIREMENTS.—(1) Grants provided under this section shall be allocated in such a fashion to reflect the diversity of the historic preservation fields and shall be geographically distributed.

"(2) No grant recipient may receive more than 10 percent of the grants allocated under this section within any year.

"(3) The total administrative costs, direct and indirect, charged for carrying out grants under this section may not exceed 25 percent of the aggregate costs.

"(c) ELIGIBLE APPLICANTS.—Eligible applicants may include Federal and non-Federal laboratories, accredited museums, universities, nonprofit organizations; offices, units, and Cooperative Park Study Units of the National Park System, State Historic Preservation Offices, tribal preservation offices, and Native Hawaiian organizations.

"(d) STANDARDS.—All such grants shall be awarded in accordance with accepted professional standards and methods, including peer review of projects.

"(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section such sums as may be necessary.

"SEC. 406. GENERAL PROVISIONS.

"(a) ACCEPTANCE OF GRANTS AND TRANSFERS.—The Center may accept—

"(1) grants and donations from private individuals, groups, organizations, corporations, foundations, and other entities; and

"(2) transfers of funds from other Federal agencies.

"(b) CONTRACTS AND COOPERATIVE AGREEMENTS.—Subject to appropriations, the Center may enter into contracts and cooperative agreements with Federal, State, local, and tribal governments, Native Hawaiian organizations, educational institutions, and other public entities to carry out the Center's responsibilities under this title.

"(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary for the establishment, operation, and maintenance of the Center. Funds for the Center shall be in addition to existing National Park Service programs, centers, and offices.

"SEC. 407. NATIONAL PARK SERVICE PRESERVATION.

"In order to improve the use of existing National Park Service resources, the Secretary shall fully utilize and further develop the National Park Service preservation (including conservation) centers and regional offices. The Secretary shall improve the coordination of such centers and offices within the National Park Service, and shall, where appropriate, coordinate their activities with the Center and with other appropriate parties.

SEC. 4023. REQUIREMENT FOR SPECIFIC AUTHORIZATION FOR PROJECTS UNDER THE HISTORIC SITES, BUILDINGS, AND ANTIQUITIES ACT.

Section 6 of the Act entitled "An Act to provide for the preservation of historic American *sites, buildings, objects, and antiquities of national significance, and for other purposes" (16 U.S.C. 461–467) is amended to read as follows:*

"SEC. 6. REQUIREMENT FOR SPECIFIC AUTHORIZATION FOR PROJECTS UNDER THE HISTORIC SITES, BUILDINGS, AND ANTIQUITIES ACT.

"(a) IN GENERAL.—Except as provided in subsection (b), notwithstanding any other provision of law, no funds appropriated or otherwise made available to the Secretary of the Interior to carry out section 2(e) or 2(f) may be obligated or expended after the date of enactment of this section—

"(1) unless the appropriation of such funds has been specifically authorized by law enacted on or after the date of enactment of this section; or

"(2) in excess of the amount prescribed by law enacted on or after such date.

"(b) SAVINGS PROVISION.—Nothing in this section shall prohibit or limit the expenditure or obligation of any funds appropriated prior to January 1, 1993.

"(c) AUTHORIZATION OF APPROPRIATIONS.—Except as provided by subsection (a), there is authorized to be appropriated for carrying out the purposes of this Act such sums as the Congress may from time to time determine.".

SEC. 4024. MARTIN LUTHER KING, JUNIOR, NATIONAL HISTORIC SITE AND PRESERVATION DISTRICT.

(a) BOUNDARY MODIFICATION.—Subsection (a) of the first section of the Act entitled "An Act to establish the Martin Luther King, Junior, National Historic Site in the State of Georgia, and for other purposes" (Public Law 96–428; 94 Stat. 1839), establishing the Martin Luther King, Junior, National Historic Site and Preservation District; is amended by striking "numbered NASM/SERO/20, 109–C, and dated May 1980" and inserting in lieu thereof "numbered 489/80,013B, and dated September 1992".

(b) LIMITATION ON APPROPRIATIONS.—Section 6 of Public Law 96–0428 (94 Stat. 1842) is amended by striking ", but not to exceed $1,000,000 for the development, $100,000 for local planning, and $3,500,000 for the acquisition of lands and interests therein".

SEC. 4025. SECRETARIAL REPORT.

(a) REPORT.—Not later than one year after the date of enactment of this Act, the Secretary of the Interior shall prepare and submit to the Congress a report on the manner in which properties are listed or determined to be eligible for listing on the National Register, including but not limited to, the appropriateness of the criteria used in determining such eligibility, and the effect, if any, of such listing or finding of eligibility.

(b) PREPARATION.—In preparing the report, the Secretary shall consult with, and consider the views and comments of other Federal agencies, as well as interested individuals and public and private organizations, and shall include representative comments received as an appendix to the report.

And the Senate agree to the same.

From the Committee on Interior and Insular Affairs, for consideration of titles I and VII–XL of the Senate amendment, and titles I and VII–XXXIV of the House amendment, and modifications committed to conference:

GEORGE MILLER,
NICK RAHALL,
SAM GEJDENSON,
BRUCE F. VENTO,
PETER H. KOSTMAYER,
RON DE LUGO,
ED MARKEY,
JAMES V. HANSEN,
JOHN J. RHODES,
CRAIG THOMAS,
DON YOUNG
(opposed to title 34),

From the Committee on Interior and Insular Affairs, for consideration of titles II–VI of the Senate amendment, and titles II–VI of the House amendment, and modifications committed to conference:

GEORGE MILLER,
NICK RAHALL,
SAM GEJDENSON,
BRUCE F. VENTO,
PETER H. KOSTMAYER,
RON DE LUGO,
WAYNE OWENS,
JAMES V. HANSEN,
JOHN J. RHODES,
CRAIG THOMAS,
DON YOUNG
(opposed to title 34),

As additional conferees from the Committee on Merchant Marine and Fisheries, for consideration of titles II–VI, IX, XXXIII, XXXIV, XXXVI, and XXXVIII of the Senate amendment, and titles II–VI, IX, XXX, and XXXIV of the House amendment, and modifications committed to conference:

GERRY E. STUDDS,
WILLIAM J. HUGHES,
DENNIS M. HERTEL,
TOM CARPER,
THOMAS J. MANTON,
NITA M. LOWEY,
JOLENE UNSOELD,
JACK FIELDS,

As additional conferees from the Committee on Merchant Marine and Fisheries, for consideration of titles I, VII, XI, XII, XIV, XV, XIX, and XX of the Senate amendment, and titles I, VII, XI, and XVIII–XX of the House amendment, and modifications committed to conference:

GERRY E. STUDDS,
WILLIAM J. HUGHES,

As additional conferees from the Committee on Public Works and Transportation, for consideration of titles XXI, XXXI, and XXXVIII and sections 3001–04, 3007, 3508, and 3509 of the Senate amendment, and section 3411 of the House amendment, and modifications committed to conference:

ROBERT A. ROE,
GLENN M. ANDERSON,
HENRY J. NOWAK,
ROBERT A. BORSKI,
JOE KOLTER,
TIM VALENTINE,
JOHN PAUL HAMMERSCHMIDT,
BUD SHUSTER,
WILLIAM F. CLINGER,
THOMAS E. PETRI,

As additional conferees from the Committee on Public Works and Transportation, for consideration of title VII and section 3404(c)(7) of the Senate amendment, and title VII of the House amendment, and modifications committed to conference:

ROBERT A. ROE,
HENRY J. NOWAK,
JOHN PAUL HAMMERSCHMIDT,

As additional conferees from the Committee on Agriculture, for consideration of section 212 of the Senate amendment, and title XXV and section 212 of the House amendment, and modifications committed to conference:

E DE LA GARZA,
BEN NIGHTHORSE CAMPBELL,

As additional conferees from the Committee on Agriculture, for consideration of titles XIII, XIV, XVIII, and XXXVI and section 202 of the Senate amendment, and titles XIX and XX and sections 301, 305, 308, and 2302 of the House amendment, and modifications committed to conference:

E DE LA GARZA,
Managers on the Part of the House.

J. BENNETT JOHNSTON,
DALE BUMPERS,
WENDELL H. FORD,
BILL BRADLEY,
JEFF BINGAMAN,
TIMOTHY E. WIRTH,
WYCHE FOWLER, JR.,
MALCOLM WALLOP,
MARK O. HATFIELD,
PETE V. DOMENICI,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the amendment of the Senate to the bill (H.R. 429) to amend certain Federal Reclamation laws to improve enforcement of acreage limitations, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon the managers and recommended in the accompanying conference report:

The Senate amendment struck all of the House bill after the enacting clause and inserted a substitute text.

The House amendment struck all of the Senate amendment and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House and an amendment that is a substitute for the House amendment and the Senate amendment. The differences between the Senate amendment, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clerical changes.

SECTION 1. SHORT TITLE

This Act may be cited as the "Reclamation Projects Authorization and Adjustment Act of 1992".

SECTION 2. DEFINITION AND TABLE OF CONTENTS

This section defines the term "Secretary" and contains a table of contents.

TITLE I—BUFFALO BILL DAM AND RESERVOIR, WYOMING

Title I of the House bill authorizes a 4.5 megawatt increase in hydroelectric generating capacity associated with Buffalo Bill Dam. It authorizes construction of recreational facilities and requires equal State-Federal cost-sharing for those facilities. Title I also authorizes an $80 million Federal cost ceiling for the project, deleting from existing law the requirement that the total authorized cost (State and Federal contributions) be reduced by sums contributed by the State. In addition, section 3414 of the House bill authorized additional, nonreimbursable appropriations for increased construction costs due to delays in enactment of additional appropriations authority.

Title I of the Senate amendment is identical to the House bill, but does not contain a comparable provision for section 3414.

Title I of the Conference substitute adopts the Senate provision with the addition of the House language on the nonreimbursability of supplemental appropriations.

TITLES II–VI—CENTRAL UTAH PROJECT COMPLETION

Titles II through VI of the House bill provide for the orderly completion of the Central Utah Project (CUP) by authorizing an increase in the appropriations ceiling for the project, authorizing certain water conservation and wildlife mitigation projects, and by providing for the construction of certain project features for delivery of municipal and irrigation water to specified areas within the CUP service area.

Titles II through VI of the Senate amendment are identical to titles II through VI of the House bill except for the deletion of the study of the status of Colorado River Storage Project participating projects at which construction had not begun by 1991, and certain technical, non-substantive changes.

Titles II through VI of the Conference substitute adopt the Senate language with two modifications. First, section 202 is amended to authorize the Secretary to use any unexpended budget authority to provide the Federal share of construction of the Hatchtown dam. Second, section 212 is amended to incorporate the House language on crops of certain agricultural commodities, specifying that this section applies only to the Central Utah Project.

TITLE VII—LEADVILLE MINE DRAINAGE TUNNEL, COLORADO

Title VII of both the House bill and the Senate amendment authorizes funds for the construction and operation of a facility to treat mine drainage from the Leadville Tunnel in Colorado, a facility owned by the Bureau of Reclamation. Additional activities, including restoration of fish and wildlife resources and water quality conditions, and monitoring of the effectiveness of the treatment facility, are also authorized.

The Senate amendment additionally provides for 60 percent non-Federal cost-sharing of certain project elements and indexing of project construction costs.

Title VII of the Conference substitute adopts the Senate language without modifications.

TITLE VIII—LAKE MEREDITH SALINITY CONTROL PROJECT, TEXAS AND NEW MEXICO

Title VIII of the House bill authorizes construction of this project to improve water quality entering Lake Meredith, Texas. Federal contributions are limited to 33 percent of the total project costs under the House bill.

The Senate amendment estimates the Federal share of project costs to be 33 percent, and provides for indexing of construction costs.

Title VIII of the Conference substitute adopts the House provision without modifications.

TITLE IX—CEDAR BLUFF UNIT, KANSAS

Title IX of the House bill and the Senate amendment both authorize the reformulation of the Cedar Bluff Unit. Both bills provide for the termination of the existing repayment contract upon receipt by the United States of a payment from the State of Kansas. Both bills also provide for the orderly transfer of certain facilities and various interests to the State of Kansas or others, provided that certain conditions are met.

The House bill and the Senate Amendment differ by $15,424 in the amount of payment required to allow the United States to terminate the local district's repayment obligation. Once the project reformulation goals have been accomplished, the Senate amendment provides that any revenues from the sale of project water received by the State of Kansas in excess of operating and maintenance expenses may be retained by the State of Kansas, once financial obligations to the United States have been satisfied. The House bill provides that all net revenues from the sale of project water be credited to the Reclamation Fund.

Title IX of the Conference substitute adopts the Senate language without modifications.

TITLE X—SOUTH DAKOTA WATER PLANNING STUDIES

Title XVII of the Senate amendment authorized the Secretary of the Interior to perform an assessment of the Rosebud Sioux Reservation's current and future water needs and to determine the desirability, feasibility, and cost of extending the Mni Wiconi water pipeline to the Rosebud Sioux Reservation in South Dakota. In performing the assessment work, the Bureau of Reclamation must use existing funds, not funds appropriated under the Mni Wiconi Project Act of 1988 (Public Law 100-516) for other purposes.

The House bill has no comparable provision.

The Conference substitute adopts the Senate language with two amendments. First, the last sentence of the Senate amendment is deleted as unnecessary. Second, the Secretary of the Interior is authorized to spend $1.446 million from funds appropriated under Public Law 100-516 to construct an interim water system for the White Clay and Wakpamni Districts of the Pine Ridge Indian Reservation as soon as the final engineering report and the National Environmental Policy Act requirements for that segment of the Oglala Rural Water Supply System (ORWSS) has been completed.

Title X of the House bill addressed two issues associated with the Central Valley Project, California: (1) authorizing the expansion of the service area of the Tehama-Colusa Canal, and (2) authorizing a water service contract for the Tuolumne Regional Water District. These provisions have been combined in Title XXXIV of the Conference substitute.

TITLE XI—SALTON SEA RESEARCH PROJECT, CALIFORNIA

Both the House bill and the Senate amendment authorize a saline water research project in the area of the Salton Sea in California.

Title XI of the House bill requires non-Federal interests to share 25 percent of the project costs, while the Senate amendment requires a 50 percent cost-share. Both bills authorize an appropriation of $10,000,000 for the research project.

Title XI of the Conference substitute adopts the language of the Senate amendment, with an amendment expanding the scope of the research project to include endangered species habitat, fisheries enhancement, and recreational values.

TITLE XII—AMENDMENT TO SABINE RIVER COMPACT

Title XII of the House bill and Title XXVII of the Senate amendment provide the consent of Congress to an amendment to the interstate compact relating to the waters of the Sabine River and its tributaries.

The language in the corresponding titles of the House bill and the Senate amendment is identical.

Title XII of the Conference substitute adopts the language of Title XXVII of the Senate amendment, without modification.

TITLE XIII—SALT-GILA AQUEDUCT, ARIZONA

Title XIII of the House bill and Title X of the Senate amendment re-name the Salt-Gila Aqueduct of the Central Arizona Project the "Fannin-McFarland Aqueduct".

The language in the corresponding titles of the House bill and the Senate amendment is identical.

Title XIII of the Conference substitute adopts the language of Title XIII of the House bill, without modification.

TITLE XIV—VERMEJO PROJECT RELIEF, NEW MEXICO

Title XI of the Senate amendment would transfer Lake 13 to the Vermejo Conservancy District, while preserving the right of the Secretary, acting through the United States Fish and Wildlife Service, to manage Lake 13 for the conservation, maintenance, and development of the area as a component of the Maxwell National Wildlife Refuge, in accordance with an existing contract with the District, and in a manner that does not interfere with operation of the lake for Vermejo Project purposes.

The House bill has no comparable provision.

Title XIV of the Conference substitute adopts the Senate language without amendment.

In the original House bill, Title XIV would have amended the "Warren Act" to expand its applicability to additional categories of water use in several Bureau of Reclamation projects in California. Similar language was included in H.R. 355, the Reclamation States Emergency Drought Relief Act, enacted as Public Law 102-250. The Conference adopts the position of the Senate and drops the provision from the Conference substitute.

TITLE XV—SAN LUIS VALLEY PROTECTION, COLORADO

Title XV of the Senate amendment would prohibit the United States from granting any permit, loan, or other assistance for any project to withdraw water from Colorado's San Luis Valley for export to another basin in Colorado or elsewhere unless the Secretary of the Interior finds that the project meets criteria established to protect Federal interests in San Luis Valley water resources, including two National Wildlife Refuges, the Great Sand Dunes National Monument, and the Bureau of Reclamation's Closed Basin Project.

The House bill has no comparable provision.

Title XV of the Conference substitute adopts Title XV of the Senate amendment with modification.

Title XV of the original House bill would have amended section 8(h) of the Reclamation Project Act of 1939 to eliminate the requirement that Congress be advised of increases in a project construction obligation or repayment rate resulting from a classification or reclassification of irrigable lands. The Senate amendment did not include any provision comparable to Title XV of the House bill. The Conference adopts the position of the Senate and drops this provision from the Conference substitute.

TITLE XVI—RECLAMATION WASTEWATER AND GROUNDWATER STUDIES

Title XIX of the Senate amendment directs the Secretary of the Interior to study cost-shared opportunities to reclaim and reuse agricultural, domestic, municipal, and industrial wastewater and naturally impaired ground and surface waters through five specific feasibility studies and four demonstration projects. Title XIX further directs the Secretary to study the Reclamation program's impact on groundwater resources.

The House bill has no comparable provision.

The Conference substitute adopts the Senate language without amendment. The Conferees note that several projects authorized by this title afford unique opportunities to resolve long-standing water management disputes. In particular, section 1613 of the Conference substitute, which authorizes a project to develop 120,000 acre-feet per year of reclaimed water in Southern California, is expected to offset water diversions from the environmentally sensitive Mono Lake Basin in California.

Title XVI of the original House bill authorizes the Secretary of the Interior to participate with the City of San Diego, California, in the conduct of a study of conceptual plans for water reclamation and reuse. A comparable provision is included in section 1912 of the Senate amendment and in Title XVI of the Conference substitute.

The House title would have provided for a 50 percent Federal share of the costs of the study, and authorized an appropriation of $250,000 for the study. The Senate amendment (section 1912) limits the Federal share to 25 percent of total costs, and further differs from the House bill by authorizing the Secretary of the Interior to participate in the planning, design, and construction of facilities to reclaim and reuse water in the San Diego area.

TITLE XVII—IRRIGATION ON STANDING ROCK INDIAN RESERVATION, NORTH DAKOTA

Title XVI of the Senate amendment clarifies the Garrison Diversion Unit Reformulation Act of 1986 by deleting a particular reference to "Fort Yates" and substituting therefor "one or more locations within the Standing Rock Indian Reservation." The Senate language does not modify the existing requirement that a finding of irrigability be made by the Secretary of the Interior prior to any irrigation development on the Standing Rock Sioux Indian Reservation in North Dakota.

The House bill has no comparable provision.

Title XVII of the Conference substitute adopts Title XVI of the Senate amendment with an additional provision indexing the Indian municipal, rural, and industrial water portion of the authorized limits of the Garrison Diversion Unit, resulting in an increase in the appropriation ceiling of approximately $3,000,000.

Title XVII of the original House bill incorporated a series of recommendations made in 1989 by the General Accounting Office to clarify the application of the acreage and pricing limitations contained in the Reclamation Reform Act of 1982. The Senate amendment did not include any provision comparable to Title XVII of the original House bill. The Conference adopts the position of the Senate and drops this provision from the Conference substitute.

TITLE XVIII—GRAND CANYON PROTECTION

Title XVIII of the House bill and Title XII of the Senate amendment contained similar provisions dealing with the operation of the Glen Canyon Dam and its effects on Glen Canyon National Area and Grand Canyon National Park.

The House recedes to the Senate with an amendment to make this title budget neutral.

TITLE XIX—MID-DAKOTA RURAL WATER SYSTEM

Title XIX of the House bill and Title XIV of the Senate amendment authorize the Secretary of the Interior to make grants and loans available for the construction of the Mid-Dakota Rural Water System in South Dakota.

Sections 1901–1910 of the House bill are almost identical to the corresponding sections of the Senate amendment (sections 1401–1410).

Section 1911 of the House bill authorizes the establishment of a wetland trust in South Dakota, the purposes of which are to preserve, enhance, restore, and manage wetland and associated wildlife habitat in the State of South Dakota. The Senate amendment includes the wetland trust authorization in its Title XXXVI rather than as part of the Mid-Dakota authorization.

In formulating Title XIX of the Conference substitute, the Conferees agreed to adopt Title XIV of the Senate amendment, with modification. The Conferees encourage the State and local sponsors of this project to make their cost-sharing contributions at the earliest possible time. By so doing, the added expense of possible future project cost increases attributable to inflation or other factors may be avoided.

TITLE XX—LAKE ANDES-WAGNER/MARTY II, SOUTH DAKOTA

Title XX of the House bill and Title XIII of the Senate amendment authorize a field demonstration program to study selenium contamination in agricultural drainage flows associated with the proposed Lake Andes-Wagner/Marty II Units. The Senate title would additionally authorize the Secretary of the Interior to construct, operate, and maintain the Lake Andes-Wagner Unit and the Marty II Unit, South Dakota, as units of the South Dakota Pumping Divisions, Pick-Sloan Missouri Basin Program.

Title XX of the Conference substitute adopts the Senate amendment, with the following amendments:

Section 2003 requires that, prior to requesting funding for construction of the Units, the Secretary of the Interior must obtain certain certifications of compliance with water quality standards and further requires certification that the project will not result in significant adverse environmental effects from selenium contamination;

The time allotted for Congressional review of the project planning report is extended from 125 days to 180 days;

The project repayment period is modified to begin following a determination that the project is "substantially complete", eliminating the development period; and,

A new cost-sharing agreement is required.

Inclusion of House language on the role of the Secretary of Agriculture.

TITLE XXI—RIO GRANDE FLOODWAY, SAN ACACIA TO BOSQUE DEL APACHE UNIT, NEW MEXICO

Title XXI of the Senate amendment modifies the Rio Grande Floodway Project. San Acacia to Bosque del Apache Unit, New Mexico, to reduce the non-Federal contribution for the project based on the percentage of benefits attributable to Federal properties.

The House bill has no comparable provision.

Title XXI of the Conference substitute adopts the Senate language without amendment.

Title XXI of the original House bill would have authorized a comprehensive study of how the long-term water, sewerage, and power needs of the Insular areas can be resolved. The Senate amendment did not include a comparable provision. The Conference adopts the position of the Senate and drops the Insular Areas Study provision from the Conference substitute.

TITLE XXII—SUNNYSIDE VALLEY IRRIGATION DISTRICT, WASHINGTON

Both Title XXII of the House bill and Title XXV of the Senate amendment provide for the conveyance of certain real property, and certain interests in that property, located in the town of Sunnyside, Washington, to the Sunnyside Valley Irrigation District.

The language of the House bill and the Senate amendment are identical. Title XXII of the Conference substitute adopts the language included in Senate title XXV.

TITLE XXIII—PLATORO DAM AND RESERVOIR, COLORADO

Title XXIII of the House bill and Title XVIII of the Senate amendment provide for the transfer of operation, maintenance, and replacement responsibilities for the Platoro Dam and Reservoir to the Conejos Water Conservation District of the State of Colorado.

The House bill and the Senate amendment are nearly identical.

Title XXIII of the Conference substitute adopts the language of the Senate amendment, with an amendment to section 1802(a)(2)(B) of the Senate amendment (strike section 1802(a)(2)(B) of the Senate amendment and insert in lieu thereof the text of section 2302(a)(2)(B) of the House bill).

TITLE XXIV—REDWOOD VALLEY COUNTY WATER DISTRICT, CALIFORNIA

Title XXII of the Senate amendment authorizes the Secretary of the Interior to conduct investigations and to sell or accept prepayment of two Small Reclamation Projects Act loans made to the Redwood Valley County Water District. The sale or repayment price must realize an amount to the Federal government calculated by discounting the remaining payments due on the loans by the interest rate set forth in Office of Management and Budget Circular A-129.

The House bill has no comparable provision.

Title XXIV of the Conference substitute adopts the Senate language without amendment.

Title XXIV of the original House bill would have authorized the sale of the Sly Park Unit of the Central Valley Project. The Senate amendment did not contain comparable language. The Conference adopts the position of the Senate and drops the Sly Park provision from the Conference substitute.

TITLE XXV—UNITED WATER CONSERVATION DISTRICT, CALIFORNIA

Title XXIII of the Senate amendment authorizes the Secretary of the Interior to conduct investigations and to sell or accept prepayment of the Small Reclamation Projects Act loan made to the United Water Conservation District. The sale or prepayment price must realize an amount to the Federal government calculated by discounting the remaining payments due on the loans by the interest rate set forth in OMB Circular A-129.

The House bill has no comparable provision.

Title XXV of the Conference substitute adopts the Senate language without amendment.

Title XXV of the original House bill would have required that, upon specified dates, Bureau of Reclamation contracts that are entered into, renewed, or amended shall require water users who are participants in a USDA acreage reduction program to pay 50% or 100% of full cost for the delivery of Federal irrigation water used to grow such commodities if the Secretary declares such commodities to be in surplus.

The Senate amendment did not contain a similar "surplus crops" provision. The Conference adopts the position of the Senate and drops the "surplus crops" provision from the Conference substitute.

TITLE XXVI—HIGH PLAINS GROUNDWATER PROGRAM

Title XXVI of both the House bill and the Senate amendment provides for an increase in the appropriation ceiling for the High Plains State Groundwater Demonstration Program. This program was originally authorized in 1983 by P.L. 98-434. That Act established an appropriation ceiling of $20,000,000, an amount now known to be inadequate to complete the second and final phase of the program. This title also clarifies the reporting requirements and duration of the program.

The new appropriation ceiling established in the House bill is $34,000,000. The Senate amendment provides for a new ceiling of $31,000,000. Conferees were advised by the Bureau of Reclamation that the appropriation ceiling specified in the Senate amendment is sufficient to continue the program.

Title XXVI of the Conference substitute adopts the language of the Senate amendment without modifications.

TITLE XXVII—MONTANA IRRIGATION PROJECTS

Title XXVIII of the Senate amendment directs the Secretary of Energy to make available low-cost Pick-Sloan power at the firm power rate to the Haidle Irrigation Project, Prairie County, Montana and the Hammond Irrigation District, Rosebud County, Montana.

The House bill has no comparable provision.

Title XXVII of the Conference substitute adopts the Senate language, with an amendment requiring that the district be considered as "public agencies" within the meaning of the Reclamation Project Act of 1939.

Title XXVII of the original House bill would have authorized the transfer of portions of the Solano Project, California, to local water users. This title prescribes a value for the facilities, defines the responsibilities of all affected parties, and sets forth conditions for the sale and operation of facilities to be transferred.

The Senate amendment did not contain a comparable provision. The Conference adopts the position of the Senate and drops the Solano Project transfer provision from the Conference substitute.

TITLE XXVIII—RECLAMATION RECREATION MANAGEMENT ACT

Title XXX of the Senate amendment amends the Federal Water Project Recreation Act to allow 50 percent Federal cost sharing in operation, maintenance, replacement and expansion of recreational facilities' associated with Federal water resources agencies including Bureau of Reclamation and Corps of Engineers water projects through partnerships with non-Federal sponsors.

The House bill has no comparable provision.

The Conference substitute is intended to allow the Bureau of Reclamation and the Corps of Engineers to address more effectively the condition of recreation facilities at Federal water projects, many of which are overused, inadequate, and neglected. Example of projects with critically inadequate recreation facilities include Paonia and Rifle Gap in Colorado, and Canyon Ferry in Montana.

The Conference substitute adopts the Senate language with two modifications proposed by the Administration. First, section 3006(b) of the Senate amendment is amended to clarify that the term "beneficiaries" does not include those entities who sign agreements or enter into contracts for recreation facilities pursuant to the Federal Water Project Recreation Act. Second, section 3007 of the Senate amendment is deleted to avoid limiting the authority of the Secretary to allocate funds for project purposes and reducing management flexibility.

Tile XXVIII of the original House bill would have authorized the Secretary of the Interior to provide technical assistance to states and local government entities to assist in the development, construction, and operation of water desalination project.

The Senate amendment did not contain comparable language.

A similar provision was enacted as part of the Reclamation States Emergency Drought Relief Act (P.L. 102-250, Sec. 201); the Conferees therefore agreed not to include this provision in the Conference substitute.

TITLE XXIX—SAN JUAN SUBURBAN WATER DISTRICT, CENTRAL VALLEY PROJECT, CALIFORNIA

Title XXIX of the House bill and Title XXIV of the Senate amendment require the Secretary of the Interior to credit to the unpaid capital obligation of the San Juan Suburban Water District, California, the amount paid in 1991 by the District for pumps purchased for installation at Folsom Dam.

The language of the House bill and the Senate amendment is nearly identical.

Title XXIX of the Conference substitute adopts the language of the House bill, with an amendment to authorize credit for additional purchases made on behalf of the Bureau of Reclamation in 1992.

TITLE XXX—WESTERN WATER POLICY REVIEW

Title XXXI of the Senate amendment directs the President to undertake a comprehensive review of western water resource problems and issues, including programs administered by the U.S. Geological Survey, the Bureau of Reclamation, and other operations of the Department of the Interior.

The House bill has no comparable provision.

Title XXX of the Conference substitute adopts the Senate language without modification.

Title XXX of the original House bill would have required the Seccretary of the Interior to provide a minimum instream water release of 340,000 acre-feet per year to the Trinity River, California. Additional flow releases to the Trinity will be required when inflow into Shasta Reservoir exceeds certain amounts. This title of the House bill also would have required the completion of certain studies relating to the Trinity River, with recommendations from those studies to be submitted to Congress.

The Senate amendment did not contain a comparable provision as a separate title. The Trinity River provision agreed to by the Conference has been included in Title XXXIV of the Conference substitute, the Central Valley Project Improvement Act.

TITLE XXXI—MOUNTAIN PARK MASTER CONSERVANCY DISTRICT, OKLAHOMA

Title XXXII of the Senate amendment authorizes the Secretary of the Interior to conduct investigations and to sell or accept prepayment of the repayment obligation or revise the schedule of repayments for reimbursable construction costs allocable to the municipal and industrial water supply for the City of Frederick. The sale or prepayment price must realize an amount to the Federal government calculated by discounting the remaining payments due on the loans by the interest rate set forth in OMB Circular A-129.

The House bill has no comparable provision.

Title XXXI of the Conference substitute adopts the Senate language without amendment.

Title XXXI of the original House bill would have required the Secretary of the Interior to comply with the provisions of the Buy American Act of 1933, as amended. The Senate amendment did not contain a comparable provision. The Conference adopts the position of the Senate and drops this provision from the Conference substitute.

TITLE XXXII—SOUTH DAKOTA PRESERVATION AND RESTORATION TRUST

Title XXXIII of the Senate amendment authorizes the Secretary of the Interior to make contributions to a South Dakota Biological Diversity Trust, established by non-Federal interests as a non-profit corporation in South Dakota, to select and provide funding for projects that protect or restore South Dakota's biological diversity, its rare species of plant and animal communities, and large-scale natural ecosystems.

Title XXXVI of the Senate amendment authorizes the Secretary of the Interior to make contributions to a wetland trust to be administered by the South Dakota Game, Fish and Parks Foundation, a nonprofit corporation in South Dakota, to preserve, enhance, restore, and manage wetlands and associated wildlife habitat in the State of South Dakota.

The House bill had a wetland trust as part of Title XIX, the Mid-Dakota Project.

Title XXXII of the Conference substitute adopts both Titles XXXIII and XXXVI of the Senate amendment and combines them into one title establishing a South Dakota Preservation and Restoration Trust.

Title XXXII of the original House bill would have limited expenditures authorized for Bureau of Reclamation activities for Fiscal Year 1992. The Senate amendment did not contain a comparable provision. It is noted that Fiscal Year 1992 has ended, making this Title moot. The Conference adopts the position of the Senate and drops this provision from the Conference substitute.

TITLE XXXIII—ELEPHANT BUTTE IRRIGATION DISTRICT, NEW MEXICO

Title XXXIII of the House bill and Title XXIX of the Senate amendment authorize the Secretary of the Interior to transfer to the Elephant Butte Irrigation District, New Mexico, and El Paso County Water Improvement District No. 1, Texas, title to certain facilities, easements, and rights-of-way.

The provisions of the House bill and the Senate amendment are nearly identical.

Title XXXIII of the Conference substitute adopts the Senate language without modifications.

TITLE XXXIV—CENTRAL VALLEY PROJECT IMPROVEMENT ACT

The House bill and the Senate amendment both contained titles providing for certain changes in the operation of the Bureaua of Reclamation's Central Valley Project, California. House and Senate provisions differed significantly in areas of water supply, funding, and other terms related to restoration of fish and wildlife, and presented other differences regarding voluntary water transfers, water conservation, water contract renewal, among other matters.

The Conference substitute addresses these matters as described generally below:

The Central Valley Project is authorized to be operated for fish and wildlife mitigation, protection, restoration and (subject to certain limitations) enhancement.

Purchasers of Central Valley Project water and power will be required to fund and provide a specified amount of water to support fish and wildlife mitigation and restoration programs and activities identified in the title.

Voluntary transfers of Central Valley Project water are authorized, subject to certain rules and procedures.

The Secretary of the Interior is required to renew existing water contracts, subject to certain terms and conditions, and is authorized to enter into certain new contracts.

The Secretary is directed to perform a study of measures to increase the yield of the Central Valley Project in order to provide additional water for agriculture, municipal and industrial users, fish and wildlife, and other project beneficiaries.

The Secretary is directed to undertake certain actions to encourage and assist water conservation in the Central Valley Project.

The Secretary is authorized to extend the service area of the Tehama-Colusa Canal.

TITLE XXXV—THREE AFFILIATED TRIBES AND STANDING ROCK SIOUX TRIBE EQUITABLE COMPENSATION PROGRAM, NORTH DAKOTA

Title XXXV of the Senate amendment implements certain recommendations of the Garrison Unit Joint Tribal Advisory Committee that the Federal government provide additional financial compensation to the Three Affiliated Tribes of the Fort Berthold Reservation and the Standing Rock Sioux Tribe for the taking of reservation lands for the site of the Garrison Dam and Reservoir and the Oahe Dam and reservoir; it provides financial compensation to the tribes; and orders the return of land taken from the tribes, individuals and the State of North Dakota in excess of project requirements.

The House bill has no comparable provision.

Title XXXV of the Conference substitute adopts the Senate language, but shifts the date at which time the accrued interest will become available for payments to the Three Affiliated Tribes and Standing Rock Sioux Tribe. It is not the intent of the conferees to limit the ability of the Secretary of the Army to adequately operate projects at Garrison Dam and Reservoir and Oahe Dam and Reservoir.

TITLE XXXVI—SONOMA BAYLANDS WETLANDS DEMONSTRATION PROJECT, CALIFORNIA

Title XXXVIII of the Senate amendment authorizes the Secretary of the Army to conduct a wetland demonstration project in the San Francisco Bay-Sacramento/San Joaquin Delta using dredged material to restore, protect, and expand the Sonoma Baylands.

Section 3411 of the House bill authorizes the Secretary of the Army with State and local consultation to study a program using dredged material to restore, protect, and expand San Francisco Bay and Delta wetlands.

Title XXXVI of the Conference report adopts the Senate language without amendment.

TITLE XXXVII—SAN CARLOS APACHE TRIBE WATER RIGHTS SETTLEMENT, ARIZONA

Title XXXIX of the Senate amendment authorizes and confirms the settlement of the water rights claims of the San Carlos Indian Tribe against the Federal government and a number of non-Indian entities. In return for the extinguishment of claims filed by the United States on behalf of the San Carlos Indian Tribe for 292,406 acre-feet of water per year, the Tribe would receive from both Federal and non-Federal sources 152,435 acre-feet of water per year. There is authorized to be appropriated $36.2 million, together with funds from State and local sources, to develop the beneficial uses of this water on the reservation.

The House bill has no comparable provision.

Title XXXVII of the Conference substitute adopts the Senate language with two amendments. First, the Conference substitute deletes section 3908(f) which would have exempted non-Indian users of Central Arizona Project (CAP) agricultural water from the ownership and full cost pricing limitations of Federal reclamation law. Second, the Conference substitute would allow for expedited consideration of certain claims to unallocated CAP water.

Title XXXVII of the original Senate amendment would have authorized the Secretary of the Interior and the Secretary of Veteran Affairs to enter into a permanent water service contract to provide no more than 850 acre-feet of water annually from the Central Valley Project for the San Joaquin Valley National Veterans Cemetery.

The House bill had no comparable provision. The San Joaquin Valley National Cemetery provision has been included in Title XXXIV of the Conference substitute, the Central Valley Project Improvement Act.

TITLE XXXVIII—SAN FRANCISCO WATER RECLAMATION AND REUSE DEMONSTRATION PROJECT

Section 3415 of the House bill authorized the Secretary of the Interior to undertake a demonstration project in the City and County of San Francisco to examine the feasibility and effectiveness of using advanced ecologically engineered technology for water reclamation and reuse.

The Senate amendment did not contain a comparable provision. Title XXXVIII of the Conference substitute incorporates the language of section 3415 of the House bill as a separate title.

TITLE XXXIX—SIPHON REPAIR AND REPLACEMENT

Section 3413 of the House bill provides for the repair, modification or replacement of the Hayden-Rhodes Aqueduct siphons at Salt River, New River, Hassayampa River, Jackrabbit Wash, Centennial Wash and Aqua Fria River, all features of the Central Arizona Project.

The Senate amendment did not include a comparable provision. Title XXXIX of the Conference substitute incorporates the language of section 3413 of the House bill, with an amendment providing that costs associated with these efforts shall be borne equally as a reimbursable main project feature and a nonreimbursable Federal expenditure.

TITLE XL—NATIONAL HISTORIC PRESERVATION ACT AMENDMENTS

Title XL of the Senate amendment amends the National Historic Preservation Act of 1966, as amended, to clarify, strengthen and streamline numerous provisions of that Act to help facilitate the preservation of historic resources.

The House bill has no comparable provision.

Title XL of the Conference substitute adopts the Senate language with several modifications.

From the Committee on Interior and Insular Affairs, for consideration of titles I and VII-XL of the Senate amendment, and titles I and VII-XXXIV of the House amendment, and modifications committed to conference:

GEORGE MILLER,
NICK RAHALL,
SAM GEJDENSON,
BRUCE F. VENTO,
PETER H. KOSTMAYER,
RON DE LUGO,
ED MARKEY,
JAMES V. HANSEN,
JOHN J. RHODES,
CRAIG THOMAS,
DON YOUNG
(opposed to title 34),

From the Committee on Interior and Insular Affairs, for consideration of titles II-VI of the Senate amendment, and titles II-VI of the House amendment, and modifications committed to conference:

GEORGE MILLER,
NICK RAHALL,
SAM GEJDENSON,
BRUCE F. VENTO,
PETER H. KOSTMAYER,
RON DELUGO,
WAYNE OWENS,
JAMES V. HANSEN,
JOHN J. RHODES,
CRAIG THOMAS,
DON YOUNG
(opposed to title 34),

As additional conferees from the Committee on Merchant Marine and Fisheries, for consideration of titles II-VI, IX, XXXIII, XXXIV, XXXVI, and XXXVIII of the Senate amendment, and titles II-VI, IX, XXX, and XXXIV of the House amendment, and modifications committed to conference:

GERRY E. STUDDS,
WILLIAM J. HUGHES,
DENNIS M. HERTEL,
TOM CARPER,
THOMAS J. MANTON,
NITA M. LOWEY,
JOLENE UNSOELD,
JACK FIELDS,

As additional conferees from the Committee on Merchant Marine and Fisheries, for consideration of titles I, VII, XI, XII, XIV, XV, XIX, and XX of the Senate amendment, and titles I, VII, XI, and XVIII-XX of the House amendment, and modifications committed to conference:

GERRY E. STUDDS,
WILLIAM J. HUGHES,
ROBERT A. ROE,
GLENN M. ANDERSON,
HENRY J. NOWAK,
ROBERT A. BORSKI,
JOE KOLTER,
TIM VALENTINE,
JOHN PAUL HAMMERSCHMIDT,
BUD SHUSTER,
WILLIAM F. CLINGER,
THOMAS E PETRI,
E DE LA GARZA,
BEN NIGHTHORSE CAMPBELL,

As additional conferees from the Committee on Agriculture, for consideration of titles XIII, XIV, XVIII, and XXXVI and section 202 of the Senate amendment, and titles XIX and XX and sections 301, 305, 308 and 2302 of the House amendment, and modifications committed to conference:

E DE LA GARZA,
Managers on the Part of the House.

J. BENNETT JOHNSTON,
DALE BUMPERS,
WENDELL H. FORD,
BILL BRADLEY,
JEFF BINGAMAN,
TIMOTHY E. WIRTH,
WYCHE FOWLER, JR.,
MALCOLM WALLOP,
MARK O. HATFIELD,
PETE V. DOMENICI,
Managers on the Part of the Senate.

□ 0110

CONFERENCE REPORT ON H.R. 4996, OVERSEAS PRIVATE INVESTMENT CORPORATION AMENDMENTS ACT OF 1992

Mr. GEJDENSON. Mr. Speaker, I ask unanimous consent for the immediate consideration in the House of the conference report on the bill, H.R. 4996, to extend the authorities of the Overseas Private Investment Corporation, and for other purposes.

The Clerk read the title of the bill.

(For conference report and statement, see proceedings of the House of today, Monday, October 5, 1992.)

The SPEAKER pro tempore (Mr. MAZZOLI). Is there objection to the request of the gentleman from Connecticut?

There was no objection.

Mr. GEJDENSON. Mr. Speaker, the conference agreement for H.R. 4996, the Jobs Through Exports Act of 1992, will accomplish what is needed most right now in this economic downturn—the creation of jobs here at home. It will also increase the size and improve the effectiveness of U.S. export promotion programs. This legislation will generate approximately 100,000 jobs each year.

Title VIII of the conference agreement contains language which prohibits funds authorized under this act to be used as a financial incentive to a business enterprise currently located in the United States which wishes to relocate overseas if that relocation is likely to put U.S. workers out of a job. The provision further prohibits any funding for projects or activities that violate internationally recognized worker rights.

We have all seen the recent press reports accusing the administration of exporting U.S. jobs with our foreign assistance dollars. This new language firmly states that no money in this act could be used for that purpose. This legislation will promote the export of U.S. commodities—not U.S. jobs.

Having said that, let me now describe the content of the rest of the conference agreement. The purpose of this legislation is to offer a more level playing field for U.S. exporters as they try to market their products and services overseas. The legislation reauthorizes both the Overseas Private Investment Corporation, or OPIC, and the Trade and Development Program. It also authorizes the Enterprise for the Americas Initiative.

The remaining titles will significantly enhance the ability of the U.S. Government to provide grants for capital projects using U.S. exports and services, and increase funding to the Department of Commerce. The legislation provides an authorization to establish three overseas commercial centers in order to create a partnership between the public and private sectors to identify and aggressively pursue strategic export markets.

Finally, the conference agreement authorizes approximately $30 million less than the bill which passed this body in August.

I would like to express my appreciation to the ranking minority member of the Subcommittee on International Economic Policy and Trade, Mr. ROTH. Mr. ROTH's leadership, contribution, and cooperation on this legislation stands as an example of what can be accomplished if the Congress decides to put the American worker first.

I would also like to thank Chairman FASCELL and Mr. BROOMFIELD for their continued leadership in the promotion of the competitiveness of U.S. industry. Their skills and experience on these and other issues will be sorely missed in the next Congress.

Mr. BROOMFIELD. Mr. Speaker, I rise in support of the conference report on the Jobs Through Exports Act of 1992. As we approach the end of the 102d Congress, we must ensure that we can carry through on our commitment to assist the independent States of the former Soviet Union and to implement President Bush's vision for a prosperous and democratic Latin America and Caribbean.

This conference report accomplishes both objectives in reauthorizing the programs of the Overseas Private Investment Corporation and enacting the bilateral debt restructuring provisions of the Enterprise for the Americas Initiative.

OPIC's authorization to extend its insurance and guarantee programs has lapsed as of September 30. Therefore, it is vital for us to pass this conference report and speed this measure toward enactment so that this agency can continue to play its present role on the front lines of assisting our companies in the emerging democracies of Eastern and Central Europe.

No provision in this rewrite of OPIC's charter—or any other provision in this bill for that matter—is designed to encourage the export of U.S. jobs overseas. I point out to my colleagues that a provision has been added to this bill in conference that would prevent any funds from being used for any financial incentive for a business to relocate overseas and reduce the number of jobs in this country.

I would like to commend the chairman of the Foreign Affairs Committee, Mr. FASCELL, as well as the subcommittee chairman, Mr. GEJDENSON, for their tireless efforts in bringing this bill before us today.

On our side of the aisle, I would like to pay tribute to the ranking member of the subcommittee, Mr. ROTH, for his work on this legislation. While promoting programs that assist our exporters, he has a keen eye for protecting the interests of the taxpayer and for spotting instances of waste, fraud, and abuse in our Agency for International Development programs.

Finally, I would like to pay special tribute to the gentleman from Nebraska, [Mr. BEREUTER], who has taken the leading role in fashioning some innovative and much needed reforms in our foreign aid programs.

His efforts to incorporate basic human needs concerns into the capital projects programs of AID deserve our support and that of our colleagues on the Appropriations Committee. His efforts to provide the necessary authorization for the President's Enterprise for the Americas Initiative deserve special praise. This program by itself promises to revitalize our relationship with all the countries of Latin America and the Caribbean.

I urge my colleagues to give their full support to this conference report.

Mr. BEREUTER. Mr. Speaker, this Member rises in support of the conference report to H.R. 4996, the Jobs Through Exports Act of 1992.

Thanks to the hard work and persistence of the subcommittee chairman, the distinguished gentleman from Connecticut [Mr. GEJDENSON], with important contributions from the distinguished ranking member of the subcommittee, the gentleman from Wisconsin [Mr. ROTH], and other Members, this body has the opportunity to pass legislation which can stimulate this Nation's economy by promoting the sale of United States exports in foreign markets including the Republics of the former Soviet Union. This Member commends him for his efforts and joins with him in urging its approval.

Mr. Speaker, the objectives of this bill are clear and compelling—to create American jobs through increased exports. The Jobs Through Exports Act accomplishes this objective by reauthorizing the Overseas Private Investment Corporation, providing grant funding for U.S. participation in capital projects in developing countries, and creating a public-private sector partnership to pursue strategic export markets.

OPIC is nearly unique in that it requires no Federal funds; it pays for its own operations through fees and insurance premiums, and it is extremely effective in aiding U.S. investors by providing loans and loan guarantees as well as insurance for investments in such locations as the Republics of the former Soviet Union. OPIC is a critical vehicle for new export opportunities.

Mr. Speaker, because of this Member's initiative, supported by my colleagues, the Jobs Through Exports Act also enhances the authority of the Trade and Development Program to promote U.S. exports in the world's developing countries by funding U.S. consultants, designers, and engineers involved in the crucial, earliest formative stages of projects for multilateral development bank loans. These multilateral projects, which generate a significant portion of international trade in goods and services, will provide excellent opportunities for U.S. exporters, because increased participation of U.S. consultants at the earliest stage, can often help U.S. exporters secure successful bids. Currently, our competitors are reaping extraordinary benefits from their support for their architects, engineers, and other consultants.

Thus, one of the legislatives simplest provisions has the potential to greatly increase the export of U.S. goods and services—especially for small- and medium-sized business. The legislation will boost the ability of U.S. business to tap a huge export market of $25 million per year in procurement for projects financed by the World Bank and the regional development banks in Asia, Africa, the Americas, and Eastern and Central Europe.

In the office of the U.S. Executive Director at each of the five multilateral development banks, the Secretary of Commerce is authorized to put additional procurement specialists on staff to help U.S. businesses make timely and successful bids for these billions of dollars in overseas contracts. These are real projects where the financing is already placed. The bidding is open and internationally competitive. Alert, proactive procurement officers can get the word out to U.S. medium- and small-sized businesses so they can aggressively compete and win more of the work on these projects while creating more jobs here at home.

Mr. Speaker, I am also pleased the conference report has retained a provision offered by this Member which encourages the Administrator of the Agency for International Development to study how to be more effective in addressing the basic needs of the desperately poor and the need for environmental and sanitative improvements through small-scale infrastructure capital projects as part of our development programs.

One billion people in the world do not have clean drinking water. One and a half billion do not have even rudimentary sanitation. U.S. engineering and environmental expertise is already at work in developing countries to make clean water available and to create basic sanitation systems to prevent disease and pollution. This is development assistance that is aimed at assisting the most disadvantaged people in the world, while creating jobs for the United States. This is the kind of foreign assistance and the types of capital projects that every Member can be proud to support.

Finally, Mr. Speaker, this Member is especially pleased the conference report contains a provision added by this Member which includes a substantial portion of the Enterprise for the America's Act. This important and innovative debt relief program is designed to promote trade, investment, and growth in Latin America, the Caribbean, and the United States. This goal of improved economic growth in our hemisphere will create export-oriented jobs in the United States by creating demands for U.S. exports. Already, 1 in 7 dollars of U.S. exports goes to Latin America and the Caribbean, which is the fastest growing regional market for U.S. exports. Innovative debt relief trust funds will help to ensure that these newly developing countries will pursue an environmentally sound and sustainable development path to development.

Mr. Speaker, the Jobs Through Exports Act is indeed a bipartisan effort that has enjoyed overwhelming support. It is significant and positive trade legislation designed to boost our Nation's exports—which alone have accounted for two-fifths of this Nation's real growth between 1986 and 1990. I urge my colleagues to support the conference report to H.R. 4996.

Mr. GILMAN. Mr. Speaker, I rise in strong support of the conference report to the Jobs Through Export Act of 1992. I am an ardent supporter of export promotion programs, and this legislation strengthens the export programs that will lead the United States into the 21st century.

For over 20 years, OPIC programs have been a successful means of assisting the development of third world countries, while also urging U.S. private businesses to invest in their countries. With the collapse of communism in Eastern Europe and the former Soviet Union, OPIC can only grow as it assists both United States companies invest in these countries and the development of these newly democratic States.

Another important facet of this bill is the creation of an office of capital projects in the Agency for International Development. Capital projects are a sound way for AID to use its resources because U.S. companies are hired for construction projects such as water treatment plants and roads. This is foreign aid that helps the United States as well.

This conference report also retains an important segment of the House bill: The Enterprise for the Americas Initiative. This provision sets into motion one of the most ambitious attempts to create economic and democratic growth in the Western Hemisphere. The implementation of EAI will put the dreams of a hemisphere-wide free trade area one step closer to reality.

One of the most important aspects of the conference report is protection for both U.S. and foreign workers. The report ensures that no funds from this legislation will be used to assist the relocation of U.S. companies to foreign countries at the expense of U.S. jobs. In addition, no funds can be used in projects that violate workers' rights. This language can put to rest any fears that the export promotion programs of the United States are really exporting jobs.

I would like to commend my good friends, the chairman and ranking Republican member of the Foreign Affairs Committee, Mr. FASCELL and Mr. BROOMFIELD. Their leadership on this legislation will leave an important mark on U.S. foreign policy well into the future. I would especially like to commend the subcommittee chairman and ranking Republican member, Mr. GEJDENSON and Mr. ROTH, for formulating a bipartisan measure that will not only assist less developed countries, but will do so while promoting U.S. businesses and workers as well.

I urge my colleagues to support this conference report.

Mr. ROTH. Mr. Speaker, let me just make a couple of points on the Jobs Through Exports Act. Chairman GEJDENSON and I started working on this bill more than a year ago. It is truly a bipartisan bill. It creates jobs by expanding exports. Using the Commerce Department's formula, enactment of this bill will create 100,000 new jobs.

Most important, the bill reauthorizes the Overseas Private Investment Corporation. Our companies have to be established overseas if they are going to compete in Europe and Asia. OPIC is critical to that expansion, by providing the financing and risk insurance to support our businesses.

OPIC does not cost the taxpayer $1—it is completely self-sufficient, because it earns enough on its insurance business to cover its financing activities.

Let me emphasize one provision: Our bill specifically prohibits OPIC or any of the other export promotion agencies from any activity which would move American jobs overseas. We also expand the Trade and Development Agency, which helps American companies get in on the ground floor of overseas construction projects.

Our bill establishes a capital projects office, to channel some of our aid money into projects that will be reserved for American contractors and American workers.

If Congress is going to spend money overseas, then at least American business should have preference on any projects that are funded. Our bill is a first step toward meeting that goal. To help American business people overseas, we authorize a new pilot program of business support centers in Europe, Asia, and Africa. These centers will provide translators, communications equipment, and technical advisers—the basic services that business people need when they are overseas.

The bottom line is, we are being out hustled in foreign markets by our competitors in Europe and Asia. We have to help our businesses meet that competition, or we will fall further behind. This bill helps American business. So I urge my colleagues to join me in voting for this bill, which is a solid step forward in strengthening our economic future.

The conference report was agreed to.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON H.R. 11, REVENUE ACT OF 1992

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged resolution (H. Res. 609; Rept. No. 102-1035) waiving points of order against the conference report to accompany the bill (H.R. 11) to amend the Internal Revenue Code of 1986 to provide tax incentives for the establishment of tax enterprise zones, and for other purposes, and against the consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

Mr. MOAKLEY Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 609 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 609

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 11) to amend the Internal Revenue Code of 1986 to provide tax incentives for the establishment of tax enterprise zones, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

The SPEAKER pro tempore. The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from New York [Mr. SOLOMON], pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 609 waives all points of order against the conference report on H.R. 11, the Revenue Act of 1992, and against its consideration. The rule also provides that the conference report will be considered as read.

This bill is the last big piece in the puzzle of the 102d Congress. The rule is necessary to bring up the conference report in the last hours of the session.

The conference agreement provides tax incentives for investment in distressed areas by allowing the designation of 50 enterprise zones. The agreement also authorizes Weed and Seed Programs targeted for enterprise zones.

The Revenue Act of 1992 includes growth initiatives, which the President proposed. It extends—for 1 year—several expiring tax benefits. The bill repeals the luxury tax and boat user fee, simplifies tax rules; and makes changes in Medicare, and modifies certain trade laws; it establishes trade sanctions against driftnet fishing and includes miscellaneous tax bills passed by the House under suspension.

Mr. Speaker, this conference report is a carefully crafted compromise. But I am deeply distressed that tax incentives for employer-provided prepaid legal services were dropped in conference. The provision was in both the House and Senate bills. It was dropped, as best I can understand, because of a feud between two Senators.

Mr. Speaker, I will be back in January. I am going to be working hard to see that prepaid legal services are restored for hard-working middle-class employees, and restored retroactively to the expiration date, but there is nothing more I can do at this stage.

Mr. Speaker, I urge adoption of the rule.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am hoping that my colleagues will listen a little bit so I can ask them: Do you remember 1986? The 1986 Tax Simplification Act that ruined the economy? That sent this country into a recession that we're still in? Look at this. You can get a hernia.

As my colleagues know, a lot of good work went into this tax bill that weighs—I do not know—about 40 pounds, I think. A lot of good work has gone into it, but so has a lot of other stuff, so that there is not one man or one woman in this Chamber that knows what is in this bill.

I am going to tell my colleagues, you're going to come back here in 3, and 4, and 5 years; at least some of you are, and you're going to catch it like you caught it before when you voted for that bill that did away with passive losses and did away with a lot of other things that really just about destroyed this economy.

I just want to take 1 second to mention what we tried to do upstairs because my good friend and a good friend of my colleagues over here named Senator AL D'AMATO is presently participating in a filibuster over in the Senate because we have a problem in this Nation with jobs going out of this country, and I tried to offer an amendment to this bill which would have prevented Smith Corona from going out of business, would have prevented the Zenith Corp. in Chicago from going out of business, Corning Glass up in New York, Phillips, and I could go on and I could name a corporation in every single city in this Nation that is affected by this problem.

□ 0120

Now, what I was seeking to do was to offer the amendment to the rule which would have provided an automatic adoption of House Concurrent Resolution 380 which I introduced about an hour ago on behalf of AL D'AMATO and many members of the New York delegation. It was a bill that was introduced by the gentleman from Missouri [Mr. GEPHARDT], the gentleman from Michigan [Mr. LEVIN], and the gentleman from New York [Mr. MCGRATH], and was passed in this House by a vote of 280 to 145.

The provision would have blunted efforts by foreign manufacturers to evade antidumping duties by establishing plants in the United States for assembly of foreign made products into products for sale here.

Practically everybody on that side of the aisle voted for this. A lot of Members on this side did. It was the legislation of the gentleman from Missouri [Mr. GEPHARDT].

Mr. Speaker, it would solve this problem. Yes; there is a tax increase in the bill, but it is a tax increase on foreign corporations. Not one American or one American company is taxed because of this.

We do not have to take it lying down from that other body over there. We can simply enact my amendment by defeating the rule and then send this bill over there. They will cave in. We will do American business and industry a big favor.

Mr. Speaker, I can tell Members that both business and industry and the AFL-CIO support this amendment to this bill.

Mr. MARTIN. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. I yield to my friend from New York.

Mr. MARTIN. Mr. Speaker, I would ask the gentleman from New York [Mr. SOLOMON], is what we are considering tonight that 2-foot-high pile of papers to your left?

Mr. SOLOMON. That is it.

Mr. MARTIN. Is there a print of this bill other than that pile of papers that you have in front of you?

Mr. SOLOMON. This may be the only one that you are able to lift, yes.

Mr. MARTIN. Has the gentleman from New York [Mr. SOLOMON] had the opportunity to read each and every page of that and understand what it is all about?

Mr. SOLOMON. Mr. Speaker, I just carried it downstairs. I am going to read it during this debate. I would invite anyone else to come over and read it. You would be surprised what you will find in there.

Mr. MARTIN. I would ask the gentleman from New York [Mr. SOLOMON], he has been here some 14 years. Does the gentleman have any reason to believe any single person in the world has read that stack of documents right there?

Mr. SOLOMON. Mr. Speaker, I think it is impossible.

Mr. Speaker, I reserve the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. PEASE].

Mr. PEASE. Mr. Speaker while I commend Chairman ROSTENKOWSKI for his efforts, I reluctantly rise in opposition to this bill. The fact is that the chief negotiator from the other body unabashedly made the retention of his Super IRA proposal his No. 1 objective.

The Super IRA proposal contained in this bill is terrible policy. Rest assured that this proposal will confer most of its benefit on upper income Americans. It is simply absurd to claim otherwise. Furthermore, Super IRA's will not improve net nationals savings, as supporters insist. In fact, they will likely cause a reduction in net national savings.

What I find most offensive and irresponsible about the Super IRA proposal is the manner by which it is funded in this bill. Last year, this proposal was estimated to cost $26 billion over 5 years. By budgetary sleight of hand, it was whittled down in the Senate to just over $6 billion over 5 years. Now, the effective date of much of the proposal has been pushed back in order to hide even more of the proposal's true cost.

Don't be fooled by the purported reduction in the cost of the Super IRA proposal. Super IRA's will ultimately cost over $11 billion per year. It is a travesty that these provisions have become the centerpiece of what was once an urban assistance package. I cannot in good conscience vote in favor of this bill. Vote "no" on the conference report.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the gentleman from Indiana [Mr. BURTON].

Mr. BURTON of Indiana. Mr. Speaker, let us talk a little bit about what is in this bill that nobody has read.

First, H.R. 11 violates the Budget Enforcement Act of the 1990 pay-as-you-go rule. It will lose, and get this, almost $6 billion over 6 years, and it will lose money in every year but 1997. Did anybody know that?

It contains approximately $14.5 billion in tax increases to offset its revenue losing tax provisions—$14.5 billion in tax increases.

Mr. Speaker, the tax increases I am particularly concerned about include the following:

First, it extends the 55-percent top estate tax rate until 1998. Under current law the top estate tax rate will drop from 55 to 50 percent after 1992. They call this a tax extender, but for those affected, it is a tax increase.

Second, it caps the moving expense tax deduction at $5,000. This will be bad for people who must move, and it will be bad for movers such as Mayflower Van Lines.

Third, this is a very onerous provision. It requires self-employed taxpayers to pay 115 percent of their previous year's tax liability in order to avoid tax penalties. Right now we are in a recession. People are having real trouble with just making ends meet, and we are going to tax people 115 percent of their previous year's tax liability in order to avoid tax penalties. Under prior law a taxpayer was OK as long as he paid estimated taxes equaling last year's tax liability.

Fourth, it raises corporate estimated taxes. This is going to hurt businesses who are struggling during this recession.

Fifth, it lengthens depreciation for commercial real estate from 31.5 years to 40 years. If you know anybody in the real estate business, they will tell you this is going to be extremely bad on real estate investments and it is going to hurt the economy for years to come.

Sixth, it denies 5-year forward averaging for lump sum distributions. This will force some retirees to pay a huge tax bill the year they receive a lump sum pension payment. So those who are going to retire, think what this is going to do to them.

Finally, it imposes new burdensome market-to-market security rules for security dealers.

Mr. Speaker, this is a bad bill. But the worst part of it is is that no one knows what is in that bill in addition to the things I have talked about. We are all going to go home from here and in about 3 or 4 or 5 weeks we are going to find out what is in this bill and what we have done to the American taxpayer, and it is going to be around election time. It is going to be in the newspaper, and we are all going to bear the responsibility for passing this bill that nobody knows what it contains.

□ 0130

Mr. GRANDY. Mr. Speaker, will the gentleman yield?

Mr. BURTON of Indiana. I yield to the gentleman from Iowa.

Mr. GRANDY. I just want to tell the gentleman that he is quoting provisions that have been modified from the version that we are about to vote on. Those are not the same provisions that are in this bill.

There are variations on that, and I do not know where the gentleman got that information, but it is not up to date.

I might also add that the market-to-market provisions were requested by the administration and were in their 1993 budget proposal.

Mr. BURTON of Indiana. Mr. Speaker, let me just tell my colleague that my staff spent several hours going over this. If he can go through that stack of papers of about maybe 1,000 pages and show me where all these provisions have been changed, then I will change my mind. I do not find that.

Mr. MOAKLEY. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I am going to vote for the rule and the bill. I think there are some good things in this bill. The luxury tax repeal, that affects my area, that I am thankful to the gentleman from Illinois [Mr. ROSTENKOWSKI] for the health care provisions, the tax extenders.

I want to tell my colleagues, I agree with the gentleman from New York [Mr. SOLOMON]. Only God knows what is in this bill, and he is going to have to read a very long time to figure out all the precise provisions.

It is disgraceful how we bring up tax bills. This bill will affect people's lives more than anything else we have done in the last 3 or 4 days, average people at home, and very few of us know very much about it. And we have delegated this responsibility because that is the way the customs and the procedures of the House are.

But that process has to change. Really, when we come back next year, it is incumbent upon all of us to look at the way we deal with tax bills, to try to make the process a bit more democratic. Maybe the Hamilton-Gradison proposal will do that. Because too often we get embarrassed. We get hit. We get boomeranged by secrets or by unclear provisions in tax legislation that maybe nobody means to have hurt us but ends up hurting a lot of us and a lot of our constituents.

So while I am going to support it, let us change the way we do business on tax bills next year.

Mr. DANNEMEYER. Mr. Speaker, will the gentleman yield?

Mr. GLICKMAN. I yield to the gentleman from California.

Mr. DANNEMEYER. Mr. Speaker, I have only been here 14 years, and I have heard these statements made in closing hours of sessions by Members stating that next Congress we are going to have to reform how we work so we will know what is in bills.

We all know what is going on here. These bills are brought up in closing hours with the reality of Members wanting to get out of here, and the senior Members who bring them up do it deliberately so that nobody really knows what is in them.

Mr. GLICKMAN. Mr. Speaker, I do not think there is anything insidious going on here. I think it is the way we are cultivated to deal with these kinds of things.

I operate on the theory that today is the first day of the rest of our lives. The next session is going to be better than this session, and we have got an opportunity to improve the process next session.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

The gentleman from Kansas makes an excellent point. No one does know what is in here. We are sort of taking this kind of lightly because it is 1:30 in the morning, and we are all getting a little punchy, I guess.

I think the fact that the gentleman from Indiana [Mr. BURTON] and our good friend, the gentleman from Iowa [Mr. GRANDY] had differences of opinion over what is in the bill just shows that no Member does know what is in the bill.

I was handed in the Committee on Rules about 25 minutes ago a 4-page pamphlet here which says, "Highlights of the Revenue Provisions of the Conference Report." Every Member ought to have that. They do not have it.

I was handed this rather thick summary here that says, "Estimated Budget Effects of a Possible Conference Agreement to H.R. 11." This was made up before all this was put together, yet this is the latest that we have to judge on how we are going to vote on it.

That really is not fair. Last, I would just point out that, Mr. Speaker, the Speaker has not yet appointed his members to the Hamilton-Gradison Select Committee, which is going to try to do something about this terrible mess that we have here tonight. I sure hope he will do it in the waning hours.

Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. WALSH].

Mr. WALSH. Mr. Speaker, I rise in opposition to this rule also. Just several hours ago, the gentleman from New York [Mr. SOLOMON] offered an amendment in the Committee on Rules to allow a provision that would have strengthened the laws to prevent predatory pricing practices and dumping by a Japanese company that is putting 875 people in central New York out of work. Provisions would blunt the efforts by foreign manufacturers to evade antidumping duties by establishing plants in the United States for assembly of foreign-made parts into products for sale here.

These jobs, my colleagues, are good jobs; 875 jobs, some of those people have worked at that plant for over 30 years. They are going to Mexico.

Our Commerce Department is not standing behind the rules that we have. We need to strengthen them. We need to send them a message. And without our ability to amend this rule, that message will not be sent but those jobs will.

I urge my colleagues to oppose this rule.

Mr. MOAKLEY. Mr. Speaker, for the purpose of debate only, I yield 2 minutes to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. Mr. Speaker, I thank the gentleman for yielding time to me.

I merely rise briefly to rebut some of the points made by my friend, the gentleman from Indiana [Mr. BURTON].

The point is, Mr. Speaker, that the growth initiatives in this proposal are predominantly those proposed by the President himself. No, we have not read every page of this bill. Nor did we read every page of the DOD bill we just passed. Nor every page of the Energy bill. In the last days of any session, we cannot do that. But we do expect committees to be honest with us and tell us what is in the bills.

Most of the things that are in this bill are things that have either been passed by this House and have been carefully worked over by the committee in consultation with the administration.

The growth initiatives are there. The ACE depreciation correction for real estate is very important. The gentleman from Indiana mentioned only the down side of the bill on the real estate. There are some very important up sides. For example, modification of the passive loss rules which many of the Members in this Chamber are supporting is included. So is permanent extension of low income housing credits and mortgage revenue bonds.

Orphan drug credit, deduction for health costs for the self-insured and R&D development tax credits, are also included.

All of those things are very important, as well as the appeal of the luxury tax on boats, which a large portion of this body also supports.

Also included is the taxpayer's bill of rights, which most of the Members of this body support. There are also 25 miscellaneous tax bills in this measure which have been overwhelmingly approved by this House already under suspension, requiring a two-thirds vote. Finally, most of the financing sections in this bill were taken directly from the President's budget request.

So I think it is easy to stand up tonight and criticize, but the gentleman from Indiana [Mr. BURTON], I hope, will understand that most of the items in this bill are very, very defensible. This is a solid bill with a lot of strong, carefully worked-over provisions. Although the hour is late, this is not something that has come in in a surprising or unexpected way.

This bill is revenue neutral. The gentleman from Indiana mentioned $14 billion in tax increases. He will be happy to know those are all offsets, so the bill is not a tax increase in net but revenue neutral. We should support the rule and the bill.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

I want my colleagues to look at this. This is the complete Internal Revenue Code. This is the entire U.S. Code. Look at it.

Look, can my colleagues see over there? Look at the difference. This is the whole code. This is what we are adding to it, and we are going to vote on it. We are going to vote on that.

Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. KASICH].

Mr. KASICH. Mr. Speaker, we are all going to be going home, and we are going to, in the next couple of weeks, we are going to be hearing about this tax bill.

What I wanted to say for the good of the House, because when we think about this, this really is absurd. It is 1:30 in the morning. We are probably going to debate for another hour or two, and then we are going to vote at 2:30 or 3:30 in the morning on this big thick bill, most of which was probably written by staff and maybe not signed off by Members.

The bottom line is that for all of us, Members really are tired about the way we are trying to function down here.

□ 0140

They have some legitimate complaints. To bring a bill up like this at almost 2 o'clock in the morning that we are going to be reading about for weeks, this is just no way to do our business. One would think that after all the public opinion polls and everything else that we see in this country about the way people have questions about the way we operate, we should not be doing this tonight.

I would agree with the gentleman from Wisconsin [Mr. MOODY] that there are some provisions in this bill that are good. The problem that I think many Members are going to have over here, and on the other side, as well, is to do this at this hour, without knowing, just makes no sense. We really ought to put this stuff aside and get back to this the beginning of next year, or at least wait until tomorrow, until people can have a chance to see what is in it.

Mr. MOODY. Will the gentleman yield?

Mr. KASICH. I am glad to yield to the gentleman from Wisconsin.

Mr. MOODY. Mr. Speaker, a great deal of the origin of this bill comes from the President's request.

Mr. KASICH. I understand that, Mr. Speaker.

Mr. MOODY. If the gentleman will continue to yield, the rest of the bill has already passed on the floor in many other versions.

Mr. KASICH. I know the gentleman knows this. I would say to the gentleman from Wisconsin, he just came through a very tough race where his opponent beat him up because of the way in which Congress functions. The gentleman knows as well as I do that when they analyze this bill, there is going to be stuff in there, lots of stuff in there that the gentleman does not know is in there. That is just special little deals that we are going to be reading about for weeks in the newspaper.

Mr. MOAKLEY. Mr. Speaker, for purposes of debate only I yield 4 minutes to the gentleman from New York [Mr. DOWNEY].

Mr. DOWNEY. Mr. Speaker, let me address something in the bill that is known and is important and is something that we should all contemplate. There are occasions, rare in our lives, when certain things happen that pierce our consciousness. One occurred the other day when a young man named Gregory "K" divorced his parents, and that story was national news. What was not national news was the fact that divorcing his parents and the problems that that particular case engendered happen all the time and could have been avoided.

Two weeks ago Oprah Winfrey had a show called "Scared Silent" about child abuse and neglect. In 1980, there were 900,000 American children who were neglected and abused. In 1992 there were 2.7 million. There are now 50 percent more children in foster care, nearly half a million nationwide than there were just 6 years ago.

The problems of children simply cannot wait. You cannot recover a lost childhood. The Members cannot imagine, or maybe you can, the pain and suffering that tens of thousands of American children are undergoing tonight in foster homes, living in fear with parents who have drug and alcohol problems.

We talk a great deal about the problems of American children. We do not do very much about them. In this bill we provide money to try and keep families together. It is a program that has worked all over the country. It started in Seattle in 1974. It has been tested in urban areas and rural settings. It is called Homebuilders. It puts a trained social worker in a family, often a single parent family, to try and solve family problems that might result in the child being removed from the home. It works. Over 85 percent of the cases where Homebuilders has been tried the families remain together.

We spend $2.8 billion on children in foster care, and only $274 million to try and save the family. This bill changes that. It provides over $3 billion to do this sort of intervention that will keep families together, and it also provides money to make sure when the children are in foster care, that they do not languish there.

In our subcommittee we heard testimony from a child who had been in 11 different foster care homes, and this child, a 10-year-old young boy, said he slept on a roll of his clothes because he never knew when he would have to move again.

We provide the money to stop that sort of thing. We make sure that these kids' cases are quickly reviewed and when feasible reunited with their families. Adoption assistance is also provided so they can get into permanent homes where they will be loved.

This is not a partisan issue. I understand that it is late. It is late for too many American children. I beg the Members, take the time, and I know it is short, to take a look at these provisions, but understand in this bill that the Senate and the House have done something very important, something that all of the Members will be very proud of if we pass this bill.

Mr. SOLOMON. Mr. Speaker, I yield 1 minute to the gentleman from Illinois [Mr. CRANE], a member of the Committee on Ways and Means. The gentleman has helped draft the tax-cutting part of this bill.

Mr. CRANE. Mr. Speaker, I thank my distinguished colleague for yielding. We are all sitting here assembled at 1:45 trying to kill time until we can bring the bill up for consideration, so there is opportunity for anyone to get prolix, but let me just say one thing. We know we are engaged in a charade. This is total nonsense. This is going nowhere.

Let me tell the Members something further. There are provisions involving tax cuts in this bill that everyone on a bipartisan basis embraces, but under the guidelines of our Committee on Ways and Means we have to guarantee revenue neutrality, so we are balancing that off with tax increases. The tax increases will bring us back here next year to figure out how we address the unseen grievances that are included in those tax increases, moving expenses being a basic one.

However, there are other grievances contained in this legislation. This is a charade. We know it is going nowhere. We are going to sit in here for another hour after the bill comes to the floor, when our distinguished majority leader told us we were going to get 4 hours sleep tonight.

Let us get out of this Chamber. Let them handle their special orders, and we will go get some rest in our offices. We can reconvene at 7 or 8 in the morning and forget about this nonsense. It is going nowhere. This is a total waste of all Members' time.

I thank the gentleman for yielding time to me.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. STARK].

Mr. STARK. Mr. Speaker, I thank the distinguished chairman for yielding time to me. I shall try not to take the time, but I would like to say that in the large bill that is before the gentleman from New York [Mr. SOLOMON] there are quite a few provisions that affect Medicare. These provisions have been reviewed by the ranking minority member of the Subcommittee on Health of the Committee on Ways and Means. They are all reported, almost all reported out of the Committee on Ways and Means' Subcommittee on Health on a bipartisan basis. They are largely technical, things like revising the way we pay for EKG's that most physician groups approved.

I doubt if there are many items in there that would require a great deal of debate, so I would like to assure the distinguished ranking minority member of the Committee on Rules that this was a bipartisan effort, and that particular section of the bill I think the ranking member of the Committee on Ways and Means would assure the gentleman covers issues which most Members will find acceptable.

Those items added by the Senate, they largely added some additional funds to rural hospitals, and again, I think would not be found objectionable by the Members. I hope this will not become an item. The Members may vote different ways on the tax proposals, but I think they would find broad general support for the Medicare issues.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the gentleman from Indiana [Mr. BURTON], who has had a chance to read a few pages of the bill.

Mr. BURTON of Indiana. Mr. Speaker, some of my colleagues disagreed with the things I said a few minutes ago, so I have in front of me the four-page summary that I know all of the Members have read tonight about the revenue enhancers that are in this bill. Do the Members know how many revenue enhancers there are? There are 27 tax increases or tax extenders, 27, 27.

Let me just tell the Members, I said a while ago that they were going to increase the estimated tax to 115 percent of previous years's taxes. I was wrong, it is 120 percent. It is more onerous than we though previously. That was changed in conference.

The market-market, that provision phases in the accounting change more than previous versions, and raises $3.8 billion in new revenues over 5 years. The estimated tax increase I talked about just a minute ago increases $9.6 billion over 5 years. The moving expenses, that change is going to increase revenues $3.2 billion over 5 years.

The depreciation on the real estate that is going to extend it from 31.5 years to 40 years, that increase is $3 billion over 5 years. Then we go on and on and on. There are 27 of these.

Now, we wonder why the American people are upset. The deficit is going out of sight, and in the cover of darkness, at a quarter until 2 in the morning, we are talking about raising billions and billions and billions of dollars in new taxes in a bill nobody even knows anything about, and these guys are saying this is the greatest thing since sliced bread. Baloney. You are going to go home and the people are going to find out about this and they are going to be on your necks. Start being responsible. This should not be done in the dead of night on the last day of the session.

Mr. SOLOMON. Will the gentleman yield?

Mr. BURTON of Indiana. I am happy to yield to my colleague from New York.

Mr. SOLOMON. I might just correct my colleague. He said there are 27 revenue enhancers. He is only reading from the highlights.

□ 0150

That list of 27 highlights does not include all of them, there are a lot more.

Mr. BURTON of Indiana. I stand corrected. It is worse than I thought. But probably only about 10 or 15 even read this summary that we went through just now, and I guarantee you that thousands or hundreds of pages that are in this bill nobody has looked at, and this is irresponsible.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentleman from North Dakota [Mr. DORGAN].

Mr. DORGAN of North Dakota. Mr. Speaker, I would like to say to the gentleman from New York [Mr. SOLOMON], and for those listening to the debate, I think the gentleman from New York [Mr. SOLOMON] wants them to believe that this is unusual that you have a very large bill set before you at the desk that you have not had the opportunity to read. I would say to the gentleman from New York [Mr. SOLOMON], you did not read the energy bill tonight, I am sure. That bill was nearly as large as this. I do not think you read that.

Mr. SOLOMON. I did not vote for it, either.

Mr. DORGAN of North Dakota. And you did not read the Defense bill when it came to the floor, which was larger than that. You did not read it. Nobody in here read it.

What we do is we work on these in committees, and we do the best job we can, and bring them to the floor, and the way the system works is conferences produce compromises.

But what is in this is largely not too mysterious. Much of this corrects some of the problems from the 1986 act. Much of this represents the kind of thing we have been involved in for an entire 2-year period, enterprise zones, targeted jobs tax credits, R&D tax credits. These are not things that are mysterious to you and me and others in this Chamber.

So I just do not want people to think boy, this is really unusual. We have a giant bill and no one knows what is in here.

Every conference report that comes to the floor, I say to the gentleman from New York [Mr. SOLOMON], if you set it in front of you as you have done this one, you would also have to admit, "Gee, I haven't had an opportunity to read this either." Well that is too bad. I have not had an opportunity, nor has anyone else. But most of us understand most of these committees do a pretty good job, do the best work that they can, and mostly you know what is in this bill.

What is in this bill is much of what the President has requested us to do. We have done it as well as we can. If we pass it tonight, I think it will be good for this country.

Mr. SOLOMON. Oh, for a line-item veto.

Mr. Speaker, let me yield 2 minutes to my good friend, the gentleman from Illinois, [Mr. FAWELL], chairman of the porkbusters task force.

Mr. FAWELL. Mr. Speaker, my vote on H.R. 11, the Revenue Act of 1992, is a particularly difficult one. There are several provisions of the bill that I support, including enterprise zones, the IRA provisions, the permanent extension of various tax credits, and the passive loss relief provision, to name a few.

This bill raises taxes to support new programs. Some of these new programs are good programs. This bill also raises taxes in order to get rid of bad taxes passed in 1990. Notably missing is any effort to cut spending in order to promote these new programs, again, some of which are good programs, or in order to get rid of bad taxes. I urge my colleagues not to get stuck in what I call the Washington budget box. We do not have to raise taxes to cut taxes. We do not have to raise taxes to finance new programs. We could just as easily cut spending. But Congress does not want to cut spending. Taxes are the only building blocks the majority likes to play with. So they resort to raising taxes to do most everything.

One of the many tax increases in this bill would lengthen the depreciation period for commercial real estate to 40 years. This is a tax increase for the commercial real estate industry. Before voting on this bill, I suggest every Member of this body pick up the phone and call some of their constituents in the commercial real estate industry and ask, "How is business going?" I suspect you'd hear business is not too good. And if business is finally picking up after this recession, ask them what effect a tax increase would have on business.

There are many other tax increases in this bill.

Most Members of this body have little understanding of these tax increases, no matter how much you might say we have seen them before, because we just got them, and nobody has actually read the bill.

We have been down this road before. We did it when we passed a revenue raiser called the luxury tax. We were going to raise billions of dollars. Instead it ended up losing revenue.

For a moment allow me to get back to my point of cutting spending to pay for good programs such as enterprise zones.

I just read a report called "Real Deficit Reduction Demands Real Spending Cuts," put out by the Heritage Foundation. It details $788 billion in potential savings over 5 years from cutting Federal spending. Many programs that have outlived their usefulness would be eliminated. Many lower priority programs would be cut back. There would be some sacrifices.

Just once in a while we should think in terms of cutting some spending, and notably it is absolutely absent in this bill.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentlewoman from Connecticut [Mrs. KENNELLY].

Mrs. KENNELLY. Mr. Speaker, I rise in strong support of H.R. 11. The riots in Los Angeles were the impetus for this bill. It is indeed unfortunate that it took such a tragedy to refocus attention on our Nation's cities.

The bill before us today is an attempt to deal with some of the more serious problems facing our cities. I have been a supporter of enterprise zones since coming to the House so I am pleased they have been included. My State of Connecticut has a State Enterprise Zone Program. The combination of State and Federal benefits should really help revitalize our inner cities.

This bill permanently extends the mortgage revenue bond program, the low-income housing credit and the Targeted Jobs Tax Credit Program. These are important urban programs. In 1991, in the midst of a recession, the MRB program produced 40,000 jobs and generated over $1.1 billion in wages and tax revenues. The low-income credit program produced 56,000 jobs in 1991 and generated over $1.8 billion in wages and tax revenues.

There are a number of other important items contained in this bill. Many of you have heard from your constituents by the hundreds on the luxury tax. The luxury tax on boats, planes, furs, and jewelry is repealed and is indexed for cars. While I would prefer to see the luxury tax on autos totally repealed, I understand that this was not possible due to revenue constraints.

There are a number of important things in this bill. I stand here tonight and see them look at this bill, at the size of the bill. What about our committee that spent hundreds of hours working on this bill? There has been staff time on this bill, Members' time on this bill, conference time on this bill.

This is not a bad bill. This is a bill that is going to help America. I urge Members to support it.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from North Carolina [Mr. COBLE].

Mr. COBLE. Mr. Speaker, I thank the gentleman for yielding the time.

Mr. Speaker, I rarely come to the well at 5 o'clock in the afternoon, much less at 2 o'clock in the morning. But I am about to conclude that I cannot do much worse than some of the others have done.

I want to associate myself with the statement made by the gentleman from Kansas [Mr. GLICKMAN]. It is inexcusable that this bill is before us at 2 o'clock a.m. on this day.

I do not mean to speak for the President, but I suspect if this bill had been handed to him 5 months ago he probably would have signed it. That cow is out of the barn. Too late to worry about that now. Now what we have to do, my friends, is to weigh the good versus the bad, and most of us in this Chamber are provincial by nature.

Now, my hot provincial button in this piece of legislation happens to be the repeal of the luxury tax. The finest boats in America, pardon my immodesty, are built in High Point, NC, by Hatteras Yachts. I went through their assembly line room some months ago, and it was not unlike a cemetery at midnight. There was no assembly. They employ 500 fewer people today than when we imposed that luxury tax way back yonder.

□ 0200

Mr. Speaker, my words were prophetic on that day. I heard one of my colleagues say, "Well, we will show the guy who buys these half-million-dollar boats." I said to him, "No. We show the guy who builds the boats," and that is who has been damaged.

Luxury taxes, my friends, are illusory, and it takes us, at 2 o'clock in the morning, to learn that, unfortunately.

I am not suggesting that just because the luxury tax is herein it makes it a good bill. I am sure there is much in this bill that is unsavory. But we must weigh the good against the bad and then try to be equitable and fair in the end and hopefully, before the cock crows, we will all get a wink or two of sleep.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. PICKLE].

Mr. PICKLE. Mr. Speaker, I would like to believe that most of the speeches in the last 45 minutes are for the purpose of entertaining ourselves, either individually or in groups. I would hope that we are not too serious, and I hope that the American people are not being too amused by the positions we take.

I would like to make one appeal to you. This bill is serious business. It is not something that was cooked up yesterday or this morning. This debate has been going on now for over a year.

Essentially, this bill is the same bill, the guts of it, that we had early this year. The President vetoed that. That is unfortunate. We tried again to tailor a bill that would meet with his approval. We made an earnest effort to do that. At the administration's request, we put in the enterprise zones. They are in there essentially because the administration wants them. We tried to make other corrections.

The Senate did put in the individual retirement accounts, and as the gentleman from New York [Mr. DOWNEY] said so eloquently, we have added the foster care aspect. These are very important things.

Ninety percent of the things in the bill we have seen before. You know it and I know it. It has been thoroughly worked on.

I now make one last statement to you. Yes, if we could have voted on this 5 months ago, that would have been desirable. We could not get it out 5 months ago. We could not, 5 months ago, get word from the President on what he wanted. We tried to find out how we could write a bill that would meet with his approval, that he would sign. We earnestly made that effort.

The bill you have before you tonight is an honest, intelligent effort to try to move this country forward without a big tax increase. The claims that these are nothing more than tax increases is more rhetoric than fact. There is no PEP or Pease such as we had at one point, that is, the phasing out of exemptions or limiting itemized deductions. We have accepted in many ways the suggestions the administration made to raise the revenue.

If you do not approve of this tax bill, you will never ever, in the words of a fellow we know, you will never ever be able to pass any kind of revenue bill.

This is a sound bill, and we ought to be serious about it.

I hope the rule passes and the bill passes.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE RELATIVE TO SUSPENSION CALENDAR

The SPEAKER pro tempore (Mr. MAZZOLI). Before the Chair proceeds, the Chair announces the following have been added to the list of bills on the suspension calendar previously announced: S. 3312, H.R. 3591, H.R. 5938, H.R. 5193, S. 1671, H.R. 6168, H.R. 6179, H.R. 5258, S. 2880, S. 3327, and H.R. 4844.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. RANGEL].

Mr. RANGEL. Mr. Speaker, I do hope that my colleagues in the House are not too rough on our President. Everything in this bill are things that he had requested.

Some people have called this the urban aid bill. It is not. It is not even a Band-Aid. But it is something that we can consider for the future.

It does give us an opportunity to see whether or not enterprise zones can work. It gives us a chance to take moneys and invest in social services. It gives us the opportunity not to wait until our inner cities blow up before we come in with billions of dollars and the National Guard to see how many people that we can put in jails. It gives us an opportunity to have our youth and our young people to get an education, to get job training, to get employment so that they would believe that when we talk about this land of the free that we are talking about them.

This is not just a question of what happened in Los Angeles. This is a question of the festering of people without jobs, without hope, and without homes around the United States of America.

We have the targeted jobs credit in order to bring some equity to get people employable, and we have made that permanent. We are talking about low-income housing credits, because we do not have a housing program, and we have made that permanent. We are not talking about raising $27 billion in new taxes. We are talking about balancing and cutting back taxes $27 billion and raising the funds that are necessary, so that it is revenue neutral.

I hope the President will have the guts and the courage to stand up for what he asked us to do. It was Republicans, it was Democrats, it was liberals, it was conservatives, it was House Members, it was Senate Members that came together and said that we will try to do it. It was Darman who told us from the Office of Management and Budget that it is costing this great Nation of ours $300 billion a year in lost productivity and lost revenues.

Let us turn that around and make America productive and competitive.

Mr. SOLOMON. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. THOMAS], a member of the Committee on Ways and Means.

Mr. THOMAS of California. Mr. Speaker, I take this 1-minute on the rule to explain something.

I have heard several times now mentioned commercial real estate has been extended to 40 years. Since the day after the 1986 tax bill passed, which I voted against, I have been working on passive loss. It was not until just recently that the President decided that he was for passive loss. The Democrats have come around on passive loss, and the Republicans have come around on passive loss.

Guess what, changing the Tax Code on passive loss costs money. Where does that come from? It came from the same area that is going to get the money, the commercial real estate industry, and the broadest coalition came together and said, "We want modifications in passive loss." They said, "We will pay for it." What more do you want? It is symmetry.

If you cannot understand that, this is one example. I can go through 3,000 other examples to show you the revenue treatment coming from the same people. This is a workmanlike job, and if anybody wants to blast the 40 years on depreciation, do not stand up and support passive loss. They go together.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentleman from Maryland [Mr. CARDIN].

Mr. CARDIN. Mr. Speaker, there is much in this bill that has been before this House on many occasions. In fact, a good deal of this bill has been before this House since the beginning of this term.

We have a lot of proposals that have been made by this administration and by Members of this House for economic stimulus of this country, enterprise zone legislation that is included in this legislation.

We have made the targeted jobs tax credit a permanent extension as well as the low-income housing tax credit a permanent extension, so that we do not have to go through the annual agony of whether we are going to extend those tax credits.

This legislation and conference report will make it permanent. We deal with the real estate industry and the passive losses that the gentleman from California [Mr. THOMAS] referred to.

We deal with R&D credit. We deal with the self-employed ability to deduct their insurance premiums. We deal with that. We deal with luxury taxes. Many, many of these provisions have been before this House and are important that we enact before this Congress adjourns.

The gentleman from California [Mr. THOMAS] raises a very good point. I am happy with the way that this bill is financed. I would have liked to have a look at more permanent ways of raising revenue to offset the revenue cost of these proposals. We have PEP and Pease, which would have been ways of looking at it, permanent ways to raise those revenues. We have tried to work in a way to conform to the President's definition of new taxes, and I think that the conference committee has been sensitive to that point so that we can bring you a bill that should be signed into law.

The conference report is a good report. It is a compromise. I urge my colleagues to support the rule and to support the conference report.

Mr. SOLOMON. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia [Mr. ALLEN], a gentleman we are going to miss. He is a very fine Member of this body.

Mr. ALLEN. Mr. Speaker, last July, I supported the House version of H.R. 11 because this bill contained several provisions which would have stimulated economic growth, such as some passive loss relief for real estate investors; repeal of the counterproductive luxury tax on boats; permanent extension of small issue industrial development bonds; extension of expiring tax benefits to encourage research and development, investment in employer provided educational assistance; 50 urban and rural enterprise zones; and a 12-month extension of the 25-percent health insurance deduction for the self-employed. Although, this legislation was one step in the right direction, I was disappointed the bill did not include the capital gains tax reduction; restoration of the investment tax credit; and the $5,000 tax credit for first-time home buyers, which would have created over 300,000 new jobs. These additional provisions, as well as deficit reduction and less unnecessary Federal regulation, are essential ingredients for economic recovery. These tax cuts should be offset by spending cuts not more tax increases.

Unfortunately, the conferees failed to consider any of these solid ideas, stepped backward and loaded down H.R. 11 with numerous tax increases which were not included in the House passed bill. For example, under the conference agreement, estimated tax payments will become a nightmare for many self-employed taxpayers and small businesses. Mr. Speaker, I am, therefore, unable to support this legislation, although it does include several economic growth provisions I support. Overall, it is too little, too late. And quite frankly, Mr. Speaker, it is a political ploy intended to force the President to veto economic growth legislation, as weak as it may be, just before the election because of the slew of new tax increases imposed on businesses, the self-employed and those who suffer casualty losses.

Finally, no one knows what tax provisions are actually contained in this 2,000-plus page tax bill that is dumped on the House at 1:30 a.m. to be voted upon by 3 a.m. You can be certain that there will be unscrutinized outlandish special tax breaks that will be revealed in the next few months.

I ask my colleagues to vote against this rule and against this bill not just because of the unknown but primarily because of what we do know about it.

Mr. SOLOMON. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. I thank the gentleman for yielding to me.

This Member has been beat up pretty bad today on a lot of different bills. It is late at night on this one. But if we had a bill that would increase taxes but cut the budget deficit, I think most of us would vote on it. The President tried that in 1990, made a deal that for every $1 that was brought in by taxes we would cut the deficit by $3. But that did not work out because what we have done on both sides of the aisle is increase spending $9 for every $1 that comes in.

We have got to increase revenue, but at the same time we have got to cut taxes and create the jobs that are needed.

We cannot do that without things like—in this bill there are so many that are not good, we cannot support it.

I want you to think about it. If Governor Clinton were the President, he would not veto this tax bill, and I think the American people need to think about that because there is a 2,000-page bill that we would be hurt by.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

In yielding back the balance of my time, let me just say that I do not know how many Members paid attention a few minutes ago when the Speaker read off a list of new suspension bills. Did Members notice that most of them began with the letter "S"? We do not need to play second fiddle to that other body. This is their bill.

All of it is their bill. There are hundreds of single rifle shots in this conference report. They are not single rifle shots to help our districts; they belong to the Senators.

Do not vote for this thing like we did in 1986 for that tax bill. Every one of us regrets it. I regret it. Do not be blind; stand up like a man or woman and vote down this rule.

Mr. Speaker, I yield back the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the resolution.

The question was taken, and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. SOLOMON. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 213, noes 191, not voting 28, as follows:

Messrs. SCHULZE, DAVIS, HUTTO, and TAYLOR of Mississippi changed their vote from "yea" to "nay."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Mr. ROSTENKOWSKI. Mr. Speaker, pursuant to House Resolution 609, I call up the conference report on the bill (H.R. 11) to amend the Internal Revenue Code of 1986 to provide tax incentives for the establishment of tax enterprise zones, and for other purposes.

The Clerk read the title of the bill.

(For conference report, see prior pages of the proceedings of the House of today, Monday, October 5, 1992.)

The SPEAKER pro tempore (Mr. MAZZOLI). Pursuant to House Resolution 609, the conference report is considered as having been read.

The gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 30 minutes, and the gentleman from Texas [Mr. ARCHER] will be recognized for 30 minutes.

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the pending conference report.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of the conference report on H.R. 11, the Revenue Act of 1992, and urge my colleagues on both sides of the aisle to vote in favor of it.

H.R. 11 is legislation of vital importance to this Nation's urban and rural distressed areas. It responds to many of the problems threatening our country's economic well-being. A full $11.6 billion in the conference report is dedicated to desperately needed relief for our economically distressed urban and rural areas.

The conference report also makes permanent several expiring provisions which are very important to distressed areas, such as the low-income housing credit, and extends several other popular tax incentives that have expired under current law, such as the R&D tax credit and the deduction for health insurance for self-employed individuals.

The conference report also expands individual retirement accounts to provide new savings incentives for individuals and to allow penalty-free withdrawals for certain types of major expenses that confront middle-income Americans.

It also provides important relief to real estate, one of the hardest hit sectors of our economy during this recession.

It repeals the luxury tax and boat user fee. It simplifies the tax laws for taxpayers and for the Internal Revenue Service. It provides new, straightforward rules for deducting the costs of intangible assets; strengthens incentives for charitable giving; protects taxpayers in dealing with the Internal Revenue Service with a new taxpayer bill of rights; and includes technical corrections to prior legislation. H.R. 11 pays for itself over 5 years, and does so without relying on provisions that President Bush has said he cannot support.

The $11.6 billion urban relief package is the centerpiece of this bill. The Enterprise Zone Program provides for the creation of 50 enterprise zones through 1996—25 zones in urban areas and 25 in rural areas. An array of tax incentives both for labor and capital investment will be available to entrepreneurs who invest in zone businesses—a tax credit for wages paid to zone residents who are employed in an enterprise zone, additional expensing for small businesses, more favorable loss deductions, liberalized tax-exempt bond rules, immediate deductions for purchases of stock in zone businesses, and capital gains tax reductions and deferral for gains earned on assets of zone businesses. The eligibility criteria are flexible enough to allow many needy areas of our cities and rural areas to be considered for zone designation. New economic incentives for Indian reservations with high unemployment will also be available.

The conference report also includes the permanent extension of the low-income housing tax credit, the targeted jobs tax credit, mortgage revenue bonds and mortgage credit certificates, and a 15-month extension of small-issue industrial development bonds. These extensions have enjoyed broad support in this body. For example, 286 Members of this House have cosponsored legislation to extend the targeted jobs tax credit. These extender provisions will help the most needy and impoverished families with housing and jobs.

The conference agreement also authorizes a total of $2.65 billion over 5 years for the Weed and Seed programs—programs like Head Start, community health centers and the Job Corps. Additionally, the Federal share of spending on the Job Opportunity and Basic Skills [JOBS] Program will increase.

The expansion of individual retirement accounts, although cut back considerably from the Senate bill, will allow more American families to save in tax-preferred accounts, and to apply these savings to additional purposes, beyond just retirement. The liberalized rules for early withdrawals from IRA's will waive any penalties if the funds are used for education or medical expenses, or first-time home purchases, or if the funds are withdrawn by a taxpayer who has been unemployed for a lengthy period.

The real estate provisions of H.R. 11 will relax some of the rules regarding the deduction of passive losses and will facilitate investment in real estate by pension funds. The original passive loss legislation had 338 cosponsors in the House. It will help boost the real estate industry out of its economic slump.

The changes in depreciation deductions for the corporate alternative minimum tax will facilitate investment by capital intensive industries in our Nation's future growth and competitiveness.

H.R. 11 would also repeal the excise tax on luxury boats, airplanes, jewelry, and furs and will reduce the tax on luxury autos by indexing it for inflation. This, too, attracted a significant number of cosponsors in this House—182 of my colleagues. H.R. 11 will also repeal the user fee on recreational boat owners, a proposal that 261 of our colleagues have cosponsored and that has already been passed by this body overwhelmingly three times.

The many simplification provisions in H.R. 11 will streamline taxpaying for individuals, for corporations, for partnerships and for subchapter S corporations. Simplification addresses the several areas of income taxation, tax-exempt bonds, pensions, foreign taxation, accounting, estate and gift taxation, excise taxes, and IRS administration.

H.R. 11 is funded without tax rate increases, and without the Senate provisions proposing to permanently extend the limitation on itemized deductions [Pease] and the phaseout of personal exemptions [PEP]. These latter two provisions were dropped due to the President's warning that their inclusion in the conference report would provoke a veto of the bill.

To fund the bill, the conference report would require market-to-market accounting of inventories for securities dealers, reduce allowable deductions for moving expenses, lengthen the recovery period of depreciable real estate, deny deductions for club dues, deny double-dip deductions for certain federally assisted acquisitions of savings and loan institutions, tighten certain reporting requirements, and modify estimated tax rules for both individuals and corporations.

Many of the provisions in H.R. 11, including several of the revenue raisers, were directly requested or explicitly supported by President Bush—these include enterprise zones, including capital gains tax reductions for zone assets, expanded IRA's, penalty-free early withdrawals from IRA's, passive loss relief, pension fund investment in real estate, luxury tax and boat user fee repeal, tax simplification, minimum tax depreciation changes, new rules for charitable giving, marketomarket accounting rules for securities dealers, new rules for estimated tax filings by individuals, denial of doubledip deductions for savings and loan purchasers, as well as many of the extender provisions.

The conferees have made every attempt to produce a bill the President can and should sign, and I hope that he will. In passing this conference report, Congress will have done all that it can do. It will then be up to the President. He will have to decide whether our inner city and distressed areas should receive much-needed economic assistance.

Once we pass this conference report, it will be up to the President to decide whether to extend or deny much-needed incentives for low-income housing, targeted jobs and research and development, whether to provide or deny deductions for the health insurance costs of millions of small businesses and self-employed individuals.

Once we pass this conference report, it will be up to the President to decide whether to provide or deny expanded IRA savings opportunities for millions of middle-income American families. Once we have completed our job, it will be up to the President to decide whether to provide much-needed relief to the real estate industry, whether to repeal the luxury tax and the boat user fee, whether to significantly simplify the Tax Code, to strengthen taxpayers' rights, and expand incentives for charitable giving.

The conferees have cooperated to the fullest extent possible with the President. We have extended the hand of compromise, in an effort to prove that Government—even at this late hour and in this political season—can in fact work in the best interests of the American people.

Mr. Speaker, I urge the support of my colleagues for this important conference report.

□ 0240

Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in opposition to the conference report.

Although the bill has attractive features, the overall package simply demands too dear a price.

There are hundreds of changes to the Tax Code and at least 40 significant tax increases.

When the House passed H.R. 11, it was already quite large at $19 billion. However, the other body passed a version of H.R. 11 that was nearly twice as large and pressured the House conferees to accept a compromise bill that split the difference at $28 billion. That is $28 billion of revenue increases.

Let's take a look at some of them.

For individual taxpayers, the bill increases the estimated tax safe harbor to 120 percent of last year's tax liability. By doing this, we are requiring millions of taxpayers to choose between significantly overpaying their taxes or risking punitive penalties. The estimated tax increase is not limited to those with higher incomes or those with significant income increases; it applies to everyone.

Corporations are also targeted for an estimated tax increase. The new rules would require larger corporations to know to the penny, each and every quarter, their total tax liability for the year. Do we really expect this kind of exactitude in cases where final accountings can take months, interpretations have gray areas, and regulations often have not been issued? Of course not. This is just a way to get corporations to overpay their taxes.

For individuals who move in order to take a new job, this bill increases their costs to move. Previously deductible moving expenses would not be limited both as to type and amount. Moreover, moves would have to be almost twice as far as required under current law in order for there to be any deduction at all. Taking $3.2 billion out of the pockets of people changing jobs in this economy just doesn't strike me as enlightened policy.

For other unfortunate individuals, those affected by a fire, theft, earthquake, hurricane, or other disaster, the bill would make it more difficult to deduct losses. An additional $400 of every loss would now be nondeductible. What exactly is it that we are trying to say to these people?

What about real estate? Others will talk about the good news for the industry. It falls to me to mention the bad.

This bill would increase the depreciation period for commercial real estate from 31½ years to 40 years. In 10 years the Congress will have nearly tripled the depreciation period—from 15 years in 1982 to 40 years in 1992. For a business considering building a new factory, warehouse, or office, this bill will say think again. For out-of-work people in the construction trades, this bill will say don't plan on coming back to work soon.

Time is too short for me to talk about all of the tax increases, so I will just mention a few in passing:

The diesel fuel tax would be applied to noncommercial motorboats;

Estate taxes, largely paid on family farms and businesses, would be increased starting next year;

Pension distributions would be more heavily taxed;

Employee death benefits would be made taxable;

Securities dealers would be forced to pay heavier taxes on their inventories, which can only increase the cost to investors;

Second home owners would be forced to do their accounting as if they were full-time landlords when they rent the home for even 1 day, this in a bill which prides itself on simplification;

Legitimate business deductions for travel and business promotion would be curtailed.

Finally, this bill is not revenue neutral on a year-by-year basis and will open the door to increase the deficit by $2½ billion in the fifth year.

The NFIB has written the following letter relative to this conference report:

NATIONAL FEDERATION OF
INDEPENDENT BUSINESS,
Washington, DC, October 5, 1992.

Hon. BILL ARCHER,
House of Representatives, Washington, DC.

DEAR BILL: On behalf of the 595,000 members of the National Federation of Independent Business (NFIB), I urge you to oppose the conference report to H.R. 11, The Revenue Act of 1992.

In its final form, H.R. 11 contains very little of benefit to this nation's small business owners and several provisions that could be quite damaging. Unfortunately, H.R. 11 failed to develop into legislation that would generate economic growth. Instead it contains a series of modest benefits for a few select industries. These benefits are paid for with a long list of miscellaneous tax increases that will both increase the tax burden and complicate the tax code.

The conference report contains no provision addressing the number one problem facing small businesses—the cost of health care. In addition, the report maintains the inequity in the deductibility of health insurance. Non-incorporated business owners will still be able to deduct only 25% of the cost of their health insurance.

The conference report also contains a provision that, if enacted, will almost assuredly come back to haunt Congress. This provision makes changes in the estimated tax payment rules that would force the smallest business owners to make a Hobson's choice. They must either pay more taxes than they actually owe or hire an accountant three times a year to estimate their taxes. Small business owners across the country will be outraged when they hear that they must pay more in taxes than they actually owe and then later apply for a refund. This change in the law makes no sense at a time when cash flow is cited as the third biggest problem facing small business.

The conference report on H.R. 11 would result in a net loss for the segment of our economy producing the most new jobs—small business. For that reason, I ask you to oppose its passage.

Sincerely,

JOHN J. MOTLEY III,
Vice President,
Federal Governmental Relations.

This country, at this time, does not need dozens of tax increases. I must urge the Members of the House to vote no on the conference agreement on H.R. 11.

Mr. Speaker, I reserve the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. RANGEL].

Mr. RANGEL. Mr. Speaker, when I think about the complaints that the President has had and the Secretary of HUD has had about the Congress not responding to this plea for enterprise zones, why, they went out there to Los Angeles and said,

> If the Congress had responded to this earlier, we would not have even had the problem.

The truth of the matter is this very House and Senate had already passed the enterprise zone bill, and we have done it in working with the administration and working with the Secretary.

What are we going to say this time when the President says he sends the bill down there and they don't do anything with it?

□ 0250

Do my colleagues think that this enterprise zone is going to resolve the problems that we have in urban communities, half of them for the rural communities because they identify the poor there that need some help? But what it does do is stop this business about, we can afford to ignore the problems that are festering in our cities.

I think it was Jesse Jackson who talked about some of the things that happen when a youth goes to jail. He is taken off of the street. He does not have to worry about being shot. He gets 3 meals. He gets clothing. He has a balanced adult supervision program, and he meets people who respect him.

I think what we have to do is do what we are doing in this bill, where we take $2½ billion over a 5-year period and do something in education, do something in job training, do something in providing incentives to businesses that come into these communities and start working.

There has not been a Republican on the Committee on Ways and Means that has not supported this concept. We got the support of the leaders on both sides of the aisle. It is a pilot project. It is only a demonstration, and it is the last time we will have a chance to do anything this year.

The question of targeted jobs credits we are saying, it is no excuse to be disabled. It is no excuse to be unemployable. We will give an incentive to the employer to take a risk with a person and the program has worked, and it has not cost the Government anything because we have put people off of welfare on the work rolls.

God knows, when we take a look at the housing problems that we face, it is a disgrace in this rich, beautiful country of ours that we cannot go to a city without having to walk over people who have no jobs and have no homes.

Ninety-five percent of the housing that has been built for people who make less than $20,000, where the rental is $450 or less, has been built under the low-income housing credit.

The credit is working. The credit has expired, and we owe it to those people who are in the business to provide shelters, since the Government is out of it, to continue these programs.

Members have said that we are raising taxes. Why do they not talk about the taxes that we are cutting? Why do they not talk about the incentives that we are giving? Entrepreneurs and everyone else has come and asked us to extend the breaks that we have given them because it is in the public good.

I think we owe it, no matter what the President does, to vote for this bill. It is a good bill, and we know it on both sides of the aisle.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr. SCHULZE], a member of the Committee on Ways and Means.

Mr. SCHULZE. Mr. Speaker, I rise in support of the conference report on H.R. 11. While this measure is not by any means perfect, it includes needed relief for distressed urban areas, incentives for Americans to save, relief for a beleaguered real estate industry, and important protections for taxpayer rights.

In 1988, we passed the original taxpayer bill of rights. It was a good start, but more needed to be done. H.R. 11 continues the campaign for better taxpayer safeguards.

For example, the conference report would curb the ability of the IRS to assert a tax deficiency against a taxpayer based only on uncorroborated information returns. This marks an important shift from the normal principle that the taxpayer is guilty until proven innocent. Now, taxpayers will receive the benefit of the doubt, instead of being automatically judged guilty by the IRS.

This measure also addressed the growing problem of bookkeepers or low-level employees being held responsible for their employer's failure to remit payroll withholding to the IRS. These employees are now potentially liable because they have authority to sign checks for the employer. The new taxpayer bill of rights gives important new safeguards to these employees. In particular, it will protect employees who voluntarily report missed payroll deposits within 10 days of their due date.

Finally, the taxpayer bill of rights two will curb the ability of the IRS to issue regulations with a retroactive effective date. Taxpayers are willing to obey the law, but they are not clairvoyant; they cannot read the mind of the IRS in advance.

These are just three examples of new protections for taxpayer rights. They may not grab headlines in the newspapers, but they are important provisions if we are to keep the faith of American taxpayers that they have rights when dealing with the Internal Revenue Service.

Mr. Speaker, considering the size of this bill and that we are in a Presidential election year, I'm somewhat surprised the bill is not all that bad.

I only hope that in the next Congress, we can pass a tax bill to simplify, modernize, and improve our tax code to compete in the global marketplace. Our tax system as it now stands, is an embarrassment and impediment to economic growth.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. PICKLE].

Mr. PICKLE. Mr. Speaker, I rise today in support of H.R. 11, the Revenue Act of 1992. As one of the House sponsors of the super IRA bill, which garnered the support of 269 of my colleagues in the House, I am especially pleased that this bill incorporates much needed changes for IRA's. And, of course, I am pleased we were able to extend the expiring provisions, especially the research and development tax credit. But, there are a number of provisions in this bill which have not received the attention they deserve. They are, nonetheless, very important to improving the operations of Government and maintaining the confidence of taxpayers.

The bill before us contains a number of strong, protaxpayer safeguards and protections known as taxpayer bill of rights two. Taxpayer bill of rights two will help those taxpayers who are honestly trying to comply with the tax law, but get caught up in a dispute with the IRS. As my time is short, I will share with the Members just some of the most important of these new safeguards. The bill before the House today:

Establishes a taxpayer's advocate, nominated by the President, confirmed by the Senate, and reporting directly to the Congress, with expanded authority to issue taxpayer assistance orders to force the IRS to act on behalf of taxpayers;

Improves the procedures concerning liens, levies, and offers in compromise;

Provides additional notice and protections for taxpayers who are determined to be responsible officers in Federal tax deposit situations; and,

Expands the authority of the IRS to abate interest payments and gives taxpayers 21 days after receiving a notice of additional tax due to pay the tax without further interest.

For the record, I would note that two additional provisions were not included because of the strong opposition of the administration. Currently, the IRS collects a failure to pay penalty when a taxpayer, because of financial difficulty, enters into an installment agreement to pay taxes over time. This penalty is assessed even though the taxes are paid in full and with interest.

It is very unfortunate that the Treasury insists on collecting this penalty. This penalty is being collected for revenue purposes, not to improve compliance with the law. In my judgment it is unclean money, and we ought to stop this abuse.

Further, it is unfortunate that the administration's top priority in opposing the taxpayer bill of rights two was to eliminate the provision to protect taxpayers from arbitrary, capricious, and malicious acts by IRS agents. My colleague, Mr. JACOBS has sought the adoption of this amendment for many years, in an effort to protect the public, to no avail.

Also, included in this bill is the Federal Program Improvement Act of 1992. These provisions are pure good government and will eliminate fraud, waste, and abuse in our Federal programs. Specifically, by approving this bill today, Congress can:

Stop the payment of Federal benefit checks to dead people;

Stop scams involving the sale of durable medical equipment to Medicare beneficiaries;

Stop Medicare from paying people's health bills when private insurance companies should be paying;

Stop mismanagement of inspector overtime pay by the U.S. Customs Service, and

Provide the Congress with information on underfunded federally insured pension plans.

Eliminating waste and abuse in these areas will save the American taxpayer at least $78 million and possibly hundreds of millions more. Adoption of these measures is long overdue and demonstrates how Congress is out there protecting the taxpayer's pocketbook.

H.R. 11 also contains provisions which would prohibit the use of deceptive mailings which prey on our senior citizens and other unsuspecting recipients and make tax-exempt organizations accountable to the public.

Finally, this bill reduces the risks to taxpayers posed by newly created Government related corporations by ensuring that they have adequate capital and effective Federal supervision.

Adoption of these provisions will help protect taxpayers, save money, and improve government. I strongly urge that they be favorably acted upon today.

Mr ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. MCGRATH], a member of the Committee on Ways and Means.

Mr. MCGRATH. Mr. Speaker, I thank the gentleman for yielding time to me.

I rise in support of the conference report on H.R. 11. Mr. Speaker, this is likely to be my last floor speech in this institution. And while I am not going to miss these early morning affairs much, I certainly am going to miss the membership on the Committee on Ways and Means and my colleagues on the committee, our chairman and ranking member.

□ 0300

I agree, Mr. Speaker, that with many of our earlier speakers the process of enacting tax legislation sometimes leaves much to be desired, but to those Members of both parities who have not been directly involved in these efforts, let me offer a word of advice. Support this bill. Support the last best chance to enact enterprise zones. Support the last best chance to enact an IRA provision, or a passive loss provision, or expand the expiring provisions.

I personally believe this bill represents a fair effort to do the work of the Nation. I have personally worked with a least a dozen Members of this body on provisions in this bill for those people who are not members of the Committee on Ways and Means, and this is the last best chance to enact those provisions of those people who have interest in this bill.

Many of the tax increases mentioned in this bill are offset by benefits to the same sector of the economy. Many of the provisions have been subject to lengthy hearings over the last 5 years. Our President has requested several key elements of the package. Other items have been enacted on a temporary basis by huge majorities in the past on several occasions.

Mr. Speaker, I entered public service to contribute to the process of governing our Nation, and this bill, in my estimation, is an honest initiative toward that end.

If our process was perfect, maybe we could pass the bill in the middle of the day in March or April, but democracy is not quick or clean. I hope my colleagues will recognize the good faith effort that was put forth here and support this initiative.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. DOWNEY].

Mr. DOWNEY. Mr. Speaker, the social provisions of this legislation respond to two revolutions, one that occurred on April 28 in Los Angeles. We attempt to deal with the problems of our cities with enterprise zones and Weed and Seed programs.

The other provisions address a more subtle but still pervasive revolution that is going on within the fabric of American life. In 1960 there were 64 million children under the age of 18. Of that 64 million children, 243,000 of them lived with a mother who had never been married. Move ahead 32 years, there are still 64 million children under the age of 18, but now there are 5 million who live with a mother who has never been married. The number of women who are single family heads of households has quadrupled over the last 30 years.

A canister of mace is standard equipment for women in our cities these days. They use this mace and they live in fear from a generation of children who we have left completely out in the cold. There is a connection, between the sad plight of America's children and the violence in American cities, and the desperate way American children live.

We cannot solve all those problems right away, but we make a determined effort in this legislation to try and help single families stay together, and when they are torn asunder, to try and put those children in permanent, loving homes through adoption and through the kinship placement out of foster care.

The millions of neglected and abused children have overwhelmed most State budgets. The vast majority of States today can do nothing more than simply deal with their neglected and abused kids. They cannot spend the money that we provide in this bill to try and keep families together. They cannot spend the money that we provide in this bill to give adoption subsidies so that these special children can be quickly and safely adopted. We do that here, $3 billion that the States desperately need and desperately want for child welfare services.

Welfare reform is also dealt with here, not in as comprehensive way as we did in 1988, but fine-tuning the jobs proposal to try and make sure that people who want to work can get the skills to get to work, even if they are living lives of dependence.

It is simple to say at a late hour that there are many provisions in a bill like this that the Members do not like. I understand that. But there are many more provisions here that will make an enormous difference to millions of American children. They need our help and we provide it with this bill.

Mr. ARCHER. Mr. Speaker, I yield a minute and 30 seconds to the gentleman from Pennsylvania [Mr. WALKER].

Mr. WALKER. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, the gentleman from New York [Mr. DOWNEY] has just told us about a number of problems. How do we set about, in this bill, solving those problems? I have taken a look at just one section of the bill, the human resources section, to which the gentleman referred. In that section we go about solving the problems with 18 new studies, five new advisory committees and commissions, and 12 demonstration projects. The Members might be interested in how we are spending the money for all of these things.

For example, what we have is a study of reasonable efforts, whatever that may be; a Secretary's evaluation of State programs; a Secretary's study of workloads; a Secretary's report on welfare dependency. I do not know if we are for it or against it. I assume from what I am hearing that we may be for it. A Secretary's report of the difference in the Food Stamp Program, AFDC, and Medicaid Program rules. If the Secretary does not know the difference between them, who does?

I mean, good heavens. Then we have a Commission on Staff Training, and then we are going to form another Commission on Welfare Dependency Advisory Boards. Again, I do not know if we are for it or against it.

Then we have a demonstration project. One of them is called, here, not more than three demos by States on eight topics listed in the text. We have a Home Builders, a New Hope demo. We have a ton of these things.

Mr. Speaker, that is just one section of the bill. Who knows what else is down in this bill? In just that one section, though, 18 studies, 5 committees and commissions, and 12 demonstration projects. That is not going to solve the problems that the gentleman from New York outlined, and it is certainly not going to be something which the American people are going to take very kindly to when they find out what is really down in this bill.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentlewoman from California [Ms. WATERS].

Ms. WATERS. Mr. Speaker, I rise in support of H.R. 11. I would like to thank Majority Leader GEPHARDT for all his support throughout this process. In addition, I would like to thank Congressman RANGEL for all he has done as this legislation has evolved over the months.

Over 5 months ago, the city of Los Angeles erupted in anger. It has taken this long to produce a modest, experimental response to the severe crisis we face in urban America. This bill is not a solution to the problems of our inner cities. It is barely a beginning. However, at this point, I suppose, it is all we can hope for.

It is a sad political commentary that the only way to pass an urban aid bill is to attach loads of popular tax breaks for corporations onto the same bill. I would have preferred this not to be the case, but it is the reality.

Nonetheless, there are several provisions in the investment portion of this program that if expanded and continued, could make a real difference in the lives of many inner city residents. I have talked about the 17–30 year old African-American and Latino men who have dropped off America's agenda. We have attempted to address the problems of these people—former gang members who are no longer fighting—who need an opportunity.

I would like to briefly mention the part of this bill that have the most potential to bring about real change: A stipend-based job training program for young adults; a $10-billion loan guarantee program for cities for economic development; Youthbuild, to give inner cities kids job and apprenticeship training; funds for community development corporations to give community-based organizations a say in economic development programs; family investment centers to bring job banks into public housing facilities; funds for minority farmers in rural enterprise zones; a lifting of the CDBG public service cap in Los Angeles to increase the city's ability to respond to the crisis; as well as child care and community policing funds.

This is not a final answer, Mr. Speaker. We will be back first thing next year, hopefully with a new President. This bill must be the first step in this Government's commitment to revive our inner cities.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Florida [Mr. SHAW], a member of the committee.

Mr. SHAW. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, it gets a little rough at 3 o'clock in the morning to get enthusiastic over a tax bill, but I am enthusiastic over this bill. This bill is, on the Republican side of the aisle, I can say, probably as good as we can do in this Congress, considering the ratio that we have with the Democrats here in the House and the committee.

The Committee on Ways and Means has crafted a bill which I feel is very carefully balanced. The Committee on Ways and Means in the House has really prevailed over most of the tax increases that were in the Senate bill. I think in an election year, and particularly when we are talking about no new taxes, we have to define what are "new taxes." What are no "new taxes?" In this particular bill there are revenue raisers, yes. I look at new taxes as increases in the rates, what most of the people are having to pay.

□ 0310

There are no new taxes in this bill that I look at.

We are looking at a bill that is undoing a lot of the problems that were created in the 1986 and the 1990 tax bill. We are doing away with the luxury tax on many of the items, including the boat industry in this country. The boat building industry in this country creates more jobs than the steel industry does, and it is on its knees. The problem is being created by not only a recession, but a 10-percent luxury tax. It is killing the yacht building industry in this country, which is a most important industry which creates thousands of jobs all across this country.

This bill does away with that luxury tax in addition to other luxury taxes that must be done away with.

This bill also creates a taxpayers' bill of rights, restores passive loss deductions, and creates enterprise zones, all of which are most important. I urge my colleagues to vote for H.R. 11. It is a good bill. On balance, it is the best that we on the Republican side can do.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from North Dakota [Mr. DORGAN].

Mr. DORGAN of North Dakota. Mr. Speaker, I thank the gentleman for yielding. I join those who will not be back here in the next session. Having served on the Ways and Means Committee, I must say that the chairman, the other members of the committee and the ranking member have been good members to serve with. This is an awfully good committee that tries to do a good job, and I think brings to the floor of the House tonight a bill that is very worthy of the support of the Members of the Congress.

Regrettably, the regular and the persistent attacks on this body for the failure to get things done has become pretty much a popular American sport these days. And the irony is that some of those leading attacks on this body, some of the most persistent critics of this body serve in this body and are the ones who try to prevent us from getting things done.

This bill tonight is an attempt to get something done for this country, and it is a good bill. It includes things that relate to economic developments that the President has requested, that we believe make sense to move this country ahead and help America grow again. It includes some things that are important to America's children. It includes some things that are important for tax fairness.

This is an awfully good bill, and if you are back home, and most of us have been saying we want to do things to further this country's economic interest, then you dare not, and you should not stand up here tonight and vote no on this legislation.

This legislation is a compromise. It is a bipartisan compromise that represents the best of what all of us have to offer. No, it is not perfect, but it is awfully good. And if you vote for this bill, in my judgment, you further the best interests of this country.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Kentucky [Mr. BUNNING], a member of the committee.

Mr. BUNNING. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I rise today in support of H.R. 11, the Revenue Act of 1992.

This is a good bill on issues important to Social Security. As vice chairman of the Subcommittee on Social Security and a conference on the Social Security provisions, I want to strongly endorse those provisions in this bill.

Early in the year, we took a look at organizations who use deceptive mailing practices to raise money from our Nation's senior citizens. We've all gotten calls from frantic seniors who have gotten mail making outrageous claims that Social Security was broke or that

Congress was going to slash benefits unless they send some of their hard earned money to some organization.

These letters are a blatant attempt to use fear and lies to raise money. In this bill, we protect senior citizens from these money grubbers by putting some much needed teeth in the deceptive mailings act and increasing the penalties for this despicable practice.

Also, we recently held hearings on Government employees who illegally disclose Social Security information to people outside the Government. In H.R. 11, we increase the criminal penalty for this kind of illegal disclosure.

Several other important measures which I helped initiate are also in H.R. 11. First, the conferees included the provisions of H.R. 5644, a bill which I introduced to make it easier for charitable foundations to assist in Superfund cleanup of sites they previously owned.

The Brown Foundation of Louisville, KY, has been seeking this change for many years and it had passed the Senate on three occasions. We were able to get this bill through the committee earlier this year and it passed the House as a free-standing bill. I am pleased that it is included in this package.

Second, the bill contains provisions to establish a taxpayers' ombudsman who would be totally independent from the Internal Revenue Service. When the Oversight Subcommittee dealt with the taxpayers bill of rights, I insisted that, in order to be effective, the ombudsman had to be independent.

Finally, H.R. 11 contains an oversight provision to ban the telemarketing of durable medical equipment.

Overall, this bill is a good piece of legislation which will have a positive effect on our economy.

It contains provisions to establish enterprise zones in rural and urban areas. We know that zones will not work if there is no incentive for investment in them and this bill allows for a 50-percent reduction in long-term capital investment within the zone.

State enterprise zones have worked very well in my district at creating new jobs and its time to take this show on the road creating jobs nationwide.

The bill also makes permanent several tax provisions important to Kentuckians. One of the most effective programs at getting people off welfare and into jobs is the targeted jobs tax credit and this tax credit is made permanent under H.R. 11. Also made permanent is the tax credit for mortgage revenue bonds—a program which has helped put 32,000 low- and middle-income Kentucky families into their own homes. Likewise, the low-income housing tax credit is made permanent and this program has helped build 10,000 rental housing units in Kentucky. Other tax provisions are temporarily extended.

Nearly a year ago, several of us called for an economic stimulus package to get the economy going again.

Many of the provisions which we thought deserved immediate action on are now included in this package. Changes in passive loss rules, luxury tax repeal, and making it easier for pension plans to invest in real estate are all included in H.R. 11.

Finally, this bill contains some badly needed incentives for savings in this country. Individual retirement accounts are expanded and penalty-free withdrawals are allowed for first-time home purchases, health care costs, and higher education expenses. Additionally, penalty-free withdrawals are allowed for people who are long-term unemployed.

Some may try to characterize this bill as a tax increase. I challenge them to read the bill. As a whole, it does not raise taxes. It is revenue neutral. In short, on taxes, it's a wash. It is no tax increase bill.

Mr. Speaker, I urge adoption of the Revenue Act of 1992.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I thank the chairman for yielding me the time and I rise in support of the bill. I think the enterprise zone legislation's time has come. It is important to know what will happen when we impact on our urban and rural areas that need that kind of special treatment.

And I want to associate myself with the remarks of the gentleman from New York [Mr. DOWNEY] about the profamily part of this legislation that relates to children in need, women who are heads of households. I think that is important.

I also think that there is some very valuable demonstration projects that will be continued under Medicare, such as the whole influenza immunization project, and Alzheimer's project.

I do not think the gentleman from Pennsylvania should demean these kinds of demonstration projects. I think they are very, very important.

In addition to that, there are some provisions that we know will create jobs for the boat industry, et cetera, and I think on balance it is a good bill.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan [Mr. LEVIN].

Mr. LEVIN of Michigan. Mr. Speaker, I think there is one central fact. If this bill were being considered 6 months before the Presidential election instead of 1, it would pass overwhelmingly with bipartisan support.

Some have said the bill is a political ploy, but what is really the ploy is the prospective veto. To try to cure an inconsistency, what is being imposed on some, I fear, is another inconsistency. You, in order to try to keep a no-new-tax pledge, a new one, many of you will have to be opposed to what you have been in favor of, enterprise zones, IRA provisions, extension of the low-income housing credit, the R&D tax credit, the education assistance, passive loss, the repeal of the luxury tax. And also in order to be consistent, to cure an inconsistency, you would have to be inconsistent with previous positions of the administration in terms of revenue raisers. The estimated tax payment provision was discussed and worked out with the administration. Market-to-market was a proposal of the administration as I remember it.

So this is not a perfect bill. It is not coming up at a perfect time. But most imperfect would be to allow it to become a victim of Presidential politics. This is a sound bill deserving bipartisan support, which it would have had 6 months ago. It deserved it and would have had it then. It should have it today.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa [Mr. GRANDY], another member of the committee.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Iowa [Mr. GRANDY].

The SPEAKER pro tempore. The gentleman from Iowa [Mr. GRANDY] is recognized for 3 minutes.

□ 0320

Mr. GRANDY. Mr. Speaker, I thank the gentleman for yielding me this time.

Let me begin by recalling a phrase, Mr. Speaker, that if you are careful enough, nothing good or bad will ever happen to you. We are trying to do good in this bill. We may do bad. We cannot foresee the unintended consequences of some of the tax breaks and tax increases that we levy tonight.

We could evidently not foresee in 1990 that the luxury taxes were more harmful to the economy than they were helpful. But tonight we are repealing that mistake, and inevitably we will be back at a future date dealing with some of the unintended consequences we create tonight.

But I want to talk about some of the unquestioned good in this bill, and although this is ostensibly an urban enterprise, urban aid bill, there is more for rural communities in this piece of legislation than I have seen in my 6 years in the House. I want to refer to the Medicare technicals that are highlighted in the bill referenced by the gentleman from California [Mr. STARK] earlier.

The gentleman from Texas [Mr. STENHOLM] and the gentleman from Kansas [Mr. ROBERTS], as cochairs of the rural health care coalition, have worked for years to extend the payments for Medicare-dependent hospitals. These reimbursements are a lifeline for rural small hospitals in frontier and rural areas. They have worked to get rural hospital transition grants so services could be expanded and personnel could be recruited. They have worked to get regional referral center classifications so smaller hospitals on the periphery of urban areas could be reclassified and get a higher reimbursement from Medicare. They have tried to create the essential access community hospital network which allows smaller hospitals to pool resources, band together, create resources, and develop a rural health care network.

Every single provision is in this piece of legislation and paid for. This is the greatest triumph for the rural health care coalition that I have seen since becoming a member of this body.

Let me say also that there are welfare provisions in this bill not highlighted but specifically requested by the administration. One is to expand the asset base of people on AFDC so they can save some money, so that they do not have to be penalized if they earn a little bit more money and try and set it aside and, similarly, if they try to save that money and put it into a small self-employed business, a microenterprise. That is in this bill, a provision fought for by the gentleman from Ohio [Mr. HALL] and the gentleman from Missouri [Mr. EMERSON] on the Hunger Committee and aided by myself on the Committee on Ways and Means.

These are bipartisan efforts to expand opportunities for poor people in rural and urban communities. I think that it surely deserves our support tonight over and above the good or bad consequences of the tax bill.

I hope all of us will give this bill serious consideration.

Mr. ARCHER. Mr. Speaker, I yield 1 minute to the gentlewoman from Connecticut [Mrs. JOHNSON], a member of the committee.

Mrs. JOHNSON of Connecticut. Mr. Speaker, I rise in support of this bill, recognizing that there are some problems with it that I think, and I hope, we will eventually be able to address.

I think the IRA hemorrhaging of funds after the 5-year period is going to come back to haunt us if we do not address it. I think the committee will be able to do that.

Since I only have 1 minute, I just wanted to point out a couple of things. First of all, the family preservation section, foster care reform section, are very, very, very important. It makes some money available for those approaches that we know keep families together, prevent breakups, reduce the cost of foster care, and reduce the trauma and destruction of out-of-home placements.

It also, for this first time, will allow Federal reimbursement for respite care, and provide some money for improving the court process by which we terminate parental rights, and in this age of drug parents, we have really got to do that.

So it is a very good section, desperate need, and I am proud to support that part of the bill along with the rest of the bill.

In the Medicare area, there is the rural health care, and there are some other fixes that are well worth your attention.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. PANETTA], the chairman of the Committee on the Budget.

Mr. PANETTA. Mr. Speaker, first, I want to commend the chairman and the ranking member for the effort to try to adopt a tax bill here that was fully paid for.

When H.R. 11 left this body, it was fully paid for. Unfortunately, that is not the case with the conference report that we now deal with. It obviously contains a variety of tax benefits for urban areas, for children in foster care, for upper income taxpayers, for real estate, boat dealers, for corporations, and other interests. Some of these provisions I support, and some I do not.

But that is not my main concern. My main concern is the revenue loss that the bill creates, particularly after 1997.

Because the bill is a budgetbuster outside of the budget window that has been created here, I oppose it.

It is true that within the 5-year period, the $27 billion bill that we deal with tries to be offset by revenue provisions. But afterward, the benefits live on while the offsets die away.

The IRA provisions, I think, are the worst provisions that fall into that category. While they cost less than about a billion dollars in the first 5 years, in the outyears, as they roll over, the costs go up to about $11 billion a year permanently into the future.

I do not oppose the use of tax increases to offset tax cuts. I think it is ridiculous for the President of the United States to say never, ever, ever will we use taxes when it comes to paying for anything.

But it is equally ridiculous at a time when we have entitlements that are continuing to feed into the deficit on an automatic basis to now create tax cuts that automatically are going to create deficits in the future.

It is for those reasons that I oppose this bill.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. Mr. Speaker, let me pay tribute to the chairman, since this will be my last appearance on the floor, and to the other members of the committee and to the ranking members of this excellent committee and to the staff.

Mr. Speaker, this is an excellent bill with, of course, some flaws like every big bill has. It is a bipartisan product.

I think one of the most telling features of this bill is that it enjoys the solid support of a majority of the members on the Republican side of the committee. They have worked hard on the bill. They know what is in the bill, and they have done a good job explaining to all of us tonight why this is a good bill.

Most of the revenue items, most of the correction items, and most of the initiatives, growth initiatives, in this bill are, in fact, proposed by the administration, not in every case, but in most cases they are. Certainly the guts of this bill comes out of administration proposals.

The urban and rural distressed initiatives, the enterprise zones we have heard about; we have heard about the weed and seed which is an administration proposal; we have got permanent extensions of the low-income housing credit, targeted jobs tax credit, and the mortgage revenue bonds. Most of the people on this floor want to see that made permanent. I think that should be.

You have the President's growth initiatives explicitly laid out, liberalization of the passive loss rules, elimination of barriers to pension plan investments in real estate, elimination of the ACE depreciation adjustment for the AMT, penalty-free withdrawals from IRA's for first-time home buyers, education expenses and medical expenses, all of those proposed by the administration.

The other growth incentives are R&D, development credits, deduction of health insurance costs for self-employed, and all of that is very important to most of us, employer-provided educational assistance, orphan-drug credit, qualified small issue IDBD's extended for 15 months. We have mentioned we repealed the luxury tax on boats, taxes on boats, et cetera.

Taxpayer bill of rights; the gentleman from Texas [Mr. PICKLE] explained why that is so important and why all of us in this body should support that.

We have simplified treatment of intangibles. That is very important for us also.

Technical amendments to the Medicare bill, of course, are very important to the rural parts of our country, and that has been expanded on by the gentleman from Iowa [Mr. GRANDY].

One thing I want to draw the Members' attention to, particularly on the minority side, this bill does not, repeat, not include the things that the President objected to which he said he would veto the bill if they were included. One is the Pease provision which is phasing out. It does not extend that, and that would be the elimination, I mean, the limitation on permanent tax deductions. And No. 2, the so-called PEP provision; namely, the phaseout of permanent exemptions for high-income taxpayers. Those are not in the bill at the request of the administration.

So for all of the reasons I cited, bipartisan, bicameral, worked out in close collaboration with both sides of the aisle, a long, hard work product, I urge my friends and colleagues in this body to adopt this bill.

☐ 0330

Mr. ARCHER. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois, a member of the committee [Mr. CRANE].

Mr. CRANE. Mr. Speaker, I thank my distinguished minority leader for recognizing me. I want to pay tribute to the members of the committee, especially to our chairman, who is operating under guidelines which to me are totally unacceptable. But that is not his decision. I say totally unacceptable because we just passed a defense appropriation bill $10 billion under the President's request, for 1 year.

Now we have revenue losses in some vital areas here that we could have addressed that are less than the $10 billion that we subtract from the President's request on defense. But our chairman and the committee are not allowed to subtract from expenditures as a means of covering what are defined under static analysis as revenue losses. That is what we have in this bill.

All of the tax cuts in this bill in my estimation are highly desirable. They do not go nearly far enough to satisfy me. This is especially true with regard to the extenders. It is true also with amortization of intangibles, real estate tax provisions dealing with the correction of what we did in the 1986 laws on passive loss relief, and also the luxury excise taxes. In 1990 we were going to sock it to the rich. What we did was throw thousands of people out of work.

So here we are in 1992 administering the correction to our errant behavior at that time based upon pure demagogy. It did not work. As Paul Tsongas says, you can defend the employees but you do not have employees without employers. You want to sock it to the employers; you are going to see employees out on the streets drawing relief.

Now, the interesting thing about so many of the provisions that involved tax cuts in this proposal are provisions that are remedying prior mistakes. Isn't that special?

I mean how many times have we done this? How many provisions in the revenue raisers in this are we going to be addressing next year or the year after because of the unforeseen consequences?

That is why we err tonight in dealing with this at 3:30 in the morning. We worked on this for a year. I am not faulting the chairman or the gentleman on the minority side. We tried. Here we are at the tail end of the session engaged in this charade when everybody in this Chamber knows this is not going anywhere. This is a dead issue. Yet there are vital concerns. If we had stripped it down to bare bones, dealt with the bare bones, you are talking over a 5-year timeframe of less than $10 billion in revenue losses. Over 5 years it works out to under $2.3 billion per year, $2.3 billion per year in revenue losses that would have positive dynamic impact on our economy.

I urge all of my colleagues to reject this nonsense. Let us get out of here and adjourn.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia [Mr. MORAN].

Mr. MORAN. I thank the gentleman for yielding.

Mr. Speaker, I rise in support of this tax bill. The opposition is quite right when they say this is a late hour. But they are not right when they say that nobody has read the provisions of this bill. The fact is that most of the provisions in this bill have been discussed for months, some of them years. The real estate provisions have been discussed for almost 5 years, ever since we realized what the 1986 Tax Reform Act did to the real estate industry.

Getting that passive loss provision reinstated, opening up the $2 trillion in pension funds, the creditworthy real estate investments, simplifying the UBIT requirements, eliminating the tax penalties, the loan restructuring, all of that is absolutely essential if this economy is going to get back on its feet again.

The reality is that we have lost a trillion dollars in real estate value just in the last 2½ years alone. When you think of the multiplier effect that that has, given the fact that real estate is the principal means of collateralizing small business and individual loans, it is having a devastating impact on our economy. That is why the National Association of Realtors is backing this bill so strongly.

Ladies and gentlemen, 75 percent of the funds that are spent on our schools, on our police, on our fire, ambulance, our libraries, come from real estate property taxes. We all know what is happening in the local jurisdictions because of the devaluation of real estate. Until we can stabilize that most important asset in this economy, our economy is not going to get back on its feet.

We have never recovered from a major recession without real estate leading the way. We destabilized it with many of the provisions in that 1986 Tax Reform Act put in on the Senate side. The House has got to insist on reinstating those.

Do you know that for the first time in 27 years banks today have more Federal Government debt in their portfolio than small business and real estate loans? That is why we cannot recover from this recession. This bill must be passed, and it must be passed now.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Utah [Mr. ORTON].

Mr. ORTON. I thank the chairman for yielding this time to me.

Mr. Speaker, I have just spent the last 2 hours going through every page of that material. I can tell you as a tax attorney that much of this is old material that indeed we have been working on for the last several years. The new material that is in there, most of it has been in the Senate under consideration for several months.

I can tell you there are no zingers in it.

I may not agree with it 100 percent, with everything in the bill, but there is certainly nothing in there that my colleagues or my friends on the other side of the aisle should be frightened of.

In fact, most of it is material that we on both sides of the aisle have been pleading with the chairman for months, if not years, to act upon.

The tax provisions of this bill are good provisions. They are needed. The Medicare provisions are needed. The urban aid package is needed. I do have concerns about the outlying costs and concerns over the costs of the IRA provisions.

But I would commend our chairman. He has done a magnificent job on this, eliminating what the President said he would veto. I would urge all of my colleagues to support this package and urge the President to sign it into law.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Ohio [Mr. TRAFICANT].

Mr. TRAFICANT. I thank the gentleman for yielding.

Mr. Speaker, no American should fear their Government. I do not know how this all started, but a lot of people fear the IRS.

I want to thank Chairman PICKLE, and Chairman ROSTENKOWSKI, for including in this bill my taxpayer protection bill of rights. Thank you, Mr. Chairman.

I also rise to support the chairman and say this: This is the only bill that is going to give some help to the urban areas. No urban area is hurt more in America than mine. I expect the Youngstown, Warren metropolitan area that has been hurt now for 20 years, lost 55,000 jobs—I hope HUD is listening and Congress is listening—to have that metropolitan area included in the urban enterprise zone concept here.

So, Mr. Chairman, I rise to support you, commend you for a tough bill, at a tough time, on a tough vote, and urge and encourage the Congress to support you as well.

Mr. ARCHER. Mr. Speaker, I yield the remainder of our time to the distinguished minority leader of the House, the gentleman from Illinois [Mr. MICHEL].

Mr. MICHEL. Mr. Speaker, I am not sure that my constituents are watching these proceedings at this hour, but the record has to be made.

Mr. Speaker, submerged between the flotsam and jetsam of this $28 billion tax bill is a good, simple idea: The response to unrest in Los Angeles and the President's proposed enterprise zones to aid distressed urban and rural areas announced on May 12.

How such a good idea came to be lost amidst innumerable, unidentified flying tax objects in this Revenue Act of 1992 makes an instructive and, I guess, a sad story.

Earlier in the year, the President called for an economic stimulus package. The Democratic majority responded with a blatant political ploy involving a temporary middle-income tax cut paid for by a large permanent tax increase. The tax ploy was ultimately vetoed and assigned its rightful place in the Museum of Failed Political Ploys.

At the time, we were told emphatically by the Democratic leadership that there would be only one tax bill this year. Well, imagine our surprise to discover that now, at the 11th hour before adjournment of the 102d Congress, the Democrat majority have once again led us to their favorite location: deep in the heart of taxes.

Today, as we rush to adjourn, we are all forced to vote on a $28 billion tax bill, well over 1,000 pages. Except for the members of the Committee on Ways and Means and possibly the Senate Finance Committee and a few others who have nothing else to do but do an awful lot of reading around here, most of us will be voting out of the depths of our ignorance on what is and is not in this measure.

□ 0340

We have been had before when 3 or 4 weeks afterwards the technicians really get down to telling us what this thing really does. It is a maze inside a labyrinth surrounded by a jungle—impenetrable to normal human beings even if we had the time to study it.

But I can tell you that all of these special provisions tucked away will be ferreted out over the next few weeks, after Congress has left town.

Some will argue that we must pass the legislation because it contains an extension of various tax provisions that expired on June 30. But it is not the President's fault that Congress let these provisions expire. Congress could have acted earlier this year to extend these provisions rather than waiting until after the fact. Now they are lumped together into this omnibus tax bill.

We are told the entire conglomeration must be accepted—take it or leave it, like or lump it.

Others will argue that this bill represents the President's program. As the kids say nowadays, "Not."

We may find several provisions that the President has proposed, but the heart of the President's economic stimulus proposal is nowhere to be found in this massive tax bill. The first-timer homebuyer tax credit to get the housing industry moving again; the investment tax credit and expensing of depreciation to encourage industry to modernize and retool, thereby creating new jobs.

Writing large tax bills at the end of a session behind closed doors is what angers the American people most, and this bill is going to confirm our worst fears.

I would certainly urge my colleagues to vote against the bill. I do not see how the President can possibly sign it. I am reminded of the comments of my colleague, the gentleman from Michigan [Mr. LEVIN], which were on the mark, that had some of this been done earlier in the year and not become so politicized to the degree it has, it might very well have been enacted. There are certainly things in here that I would like to have corrected from the 1986 Tax Reform Act, but in this particular climate and in this last-minute rush to adjourn, I have to tell the Members quite frankly that the President, I do not think, has any alternative but to veto the bill if it ever reaches his desk.

Mr. Speaker, I am asking the Members to oppose this bill.

The SPEAKER pro tempore (Mr. MAZZOLI). The gentleman from Illinois [Mr. ROSTENKOWSKI] has 2 minutes to close debate.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield the balance of my time to the gentleman from Maryland [Mr. CARDIN].

The SPEAKER pro tempore. The gentleman from Maryland [Mr. CARDIN] is recognized for 2 minutes to close debate.

Mr. CARDIN. Mr. Speaker, first I want to thank Chairman ROSTENKOWSKI for his patience in dealing with the tax issue during this session of Congress. I think all the Members of the House owe a debt of gratitude to Chairman ROSTENKOWSKI for bringing forward a conference report that contains in large measure those provisions that have been asked for by the overwhelming majority of the Members of this House, from tax extenders to the growth initiative to urban issues to Social Security changes to Medicare changes and human resource issues. There are all matters that have been brought to the attention of the Committee on Ways and Means through Members of this House. We have to pay for it, and the chairman has had a very difficult assignment in trying to figure out ways we can pay for this package. There are some people who believe that by extending the racing season in Arkansas we are raising taxes. We need to take a look at ways we have to pay for these particular provisions, and as Mr. THOMAS indicated, it is reasonable if we are making changes for the real estate industry in passive losses to look at the depreciation schedules in order to pay for that particular change.

We made changes in the pension law by simplification to make it easier for people to have pension plans. It is reasonable to ask that that be paid for by changing the 5-year averaging rule. That is what the conference committee has brought forward. They brought forward a balanced package.

We now have a choice. We can vote against the conference report and stop the process or we can support the conference report and move it forward. This bill is important to our constituents, from the self-employed person who depends upon the ability to deduct his medical insurance premiums to the people who work in the boatbuilding industry. They are holding on by a thread and waiting for us to pass this bill.

Mr. Speaker, I urge my colleagues in the House not to lose this opportunity. It is time to agree to this conference report.

Ms. SNOWE. Mr. Speaker, I rise in support of the conference committee report on H.R. 11, the Revenue Act of 1992. I support passage and enactment of this measure for one primary reason: it repeals the luxury tax on boats, which has devastated Maine's recreational boatbuilding industry and our State's economy.

As originally drafted during the budget summit of 1990, the luxury tax on boats was supposed to make sure that the wealthy paid their fair share of taxes. Instead, as our State has discovered, this tax has resulted in hundreds of workers losing their jobs, at a time in Maine when finding new employment is extremely difficult. And, as this tax has remained on the books for far too long, it has also jeopardized the job security of many other Mainers.

It is imperative that the 102d Congress approve legislation that repeals this tax, and that President Bush sign the bill into law, as soon as possible. Maine's boatbuilding industry has waited far too long for this much-needed relief.

Enacting legislation that repeals this tax has been one of my very highest legislative priorities for the past 18 months. Last April, I met with 50 boatbuilding workers in Ellsworth, ME. These workers told me that the luxury tax on boats was threatening their jobs, because their employees, boatbuilding companies, did not have enough work to justify maintaining their existing level of personnel. Consequently, boatbuilding companies were laying off highly skilled workers due to a lack of business.

Since that time, I have been involved in numerous bipartisan efforts to pass and enact legislation that would repeal this tax. I have introduced by own bill repealing this tax, cosponsored other similar bills, cosigned several letters to the Ways and Means Committee in support of the repeal effort, voted in support of passage and enactment of H.R. 4210, urged the Bush administration to support legislation repealing this tax, and finally, voted in support of passage and enactment for the bill before us today.

It has become painfully obvious that the luxury tax on boats has not raised any new revenues from upper income taxpayers because they are not buying any boats. Thus, no taxes are being collected. And, to make matters worse, boatbuilding companies were laying off workers because there was not sufficient demand for their products.

Before concluding my remarks in support of H.R. 11, I would like to acknowledge the fact that I am very pleased to note that it contains numerous other provisions of importance to the people and State of Maine, including: expanded individual retirement accounts [IRA's], permanent extensions of the low-income housing tax credit, Small-Issue Industrial Development Bond and Mortgage Revenue Bond Program, and the targeted jobs tax credit, 12-month extensions of the 25-percent health insurance cost deduction and employer-provided educational assistance program, passive loss relief for the real estate industry, and repeal of the U.S. Coast Guard user fee program.

In conclusion, by approving the final version of H.R. 11, and sending it to President Bush for his signature, the 102d Congress will send a positive signal to Maine's boatbuilding community that the 102d Congress is aware of their troubles and is taking corrective action to address them. I urge all of my colleagues in the House to join with me in supporting final passage of this bill.

Mr. GOSS. Mr. Speaker, I rise in decidedly reluctant opposition to this legislation, which makes many needed changes and adjustments in the Tax Code. I am afraid, however, that in trying to be all things to all people, H.R. 11 does not go far enough to provide real help for most people and the price is too high.

The first question I hear from my constituents concerning H.R. 11 is: "What is it?" If it is an urban aid bill, why have we not allowed more enterprise zones, and provided more substantial incentives inside these zones—such as elimination of the capital gains tax? If this is a growth package, then again, why are we being so timid in implementing commonsense incentives? For instance, the $5,000 tax credit for first-time homebuyers was first watered down—cut to $2,500 and offered over a severely limited window of opportunity—and finally dropped altogether.

I don't want to give the wrong impression—there are useful provisions in this bill. For instance, we would finally be rid of the so-called luxury tax. In the relatively short life of this tax, thousands of Florida boatworkers have lost their jobs, and the Treasury has actually lost revenue. One would think repeal of this tax would have been a speedy and popular motion—not so. Because some chose to make the luxury tax a political football, it has taken us 2 years to try to correct this mistake.

I have worked hard to repeal the coast guard user fee. As all recreational boaters know, this is not an actual user fee, but an arbitrary tax. Boaters receive nothing in return for their dollars; the money they are forced to pay does not go to the coast guard—which has been given the added responsibility of collecting the fee—but instead is funnelled straight into the treasury for deficit reduction. To add insult to injury, this tax too has fallen far short of the original revenue projections.

These provisions, as well as the targeted jobs tax credit, the driftnet moratorium, and the passive loss allowances are all positive steps, and we need to take them. But we should not forget the needlessly long time it has taken to act on these commonsense measures, and the sloppy way we have handled them this late in the session. Above all, how can we justify billions in tax increases when we haven't cut waste, haven't adopted a line-item veto and haven't achieved a balanced budget—or even a process to achieve one? A fitting epitaph for this legislation, one that can be applied equally well to the 102d Congress, might be: it was well within our abilities to do better. As badly as I want to pass many of the provisions, I deeply regret the price of the total package is too steep for me—and for the U.S. taxpayers.

Mrs. COLLINS of Illinois. Mr. Speaker, as chairwoman of the Subcommittee on Commerce, Consumer Protection, and Competitiveness, I was named a conferee to the section of H.R. 11 that relates to standards for issuing and selling Medigap insurance and certain other health insurance policies. I am pleased to say that the Medigap insurance standards that have been included in H.R. 11 constitute a significant improvement to existing law.

The question of how to pay for health insurance and health care has become one of the most important questions facing our country today, and it is of great concern to seniors living on limited incomes. Aware of the fact that Medicare or Medicaid does not provide 100 percent health care coverage, many of these seniors have been seduced into purchasing health insurance policies that do little to increase their health care coverage. Instead, they waste their premium dollars by duplicating benefits to which they are already entitled.

The bill we are considering now will prohibit the sale of Medigap policies that duplicate an individual's coverage for health benefits under Medicare, Medicaid, and certain other health insurance products. It further provides for the development of standardized forms that disclose the extent to which other types of health insurance policies will duplicate Medicare benefits. In addition, it directs the Secretary of Health and Human Services to establish an 800 number consumers may use to receive information on Medicare, Medicaid, and Medigap insurance.

These provisions will assist seniors and other insurance consumers in purchasing beneficial health insurance products while eliminating expensive and unnecessary purchases. They have my full support.

Mr. RANGEL. Mr. Speaker, I rise to support this bill even though I'm not sure it is quite the urban aid package that it was advertised to be. When it comes to attacking the cities' ills this package is nothing more than a Band-Aid. If I had my way I would attack the problems of poverty everywhere, but at this time I'll take what I can get from the President.

It is sad that it took the problems in Los Angeles to wake up the President and Congress to the needs of the inner city and to motivate this bill. It was only because some of us insisted that we were able to attach any of the important direct spending provisions to improve the social infrastructure of the inner city; infrastructure necessary before any entrepreneur would invest. Therefore, while this package may not be all that I would have liked to have seen, we have at least a $3.5 billion plus effort for the inner city.

I hope that whatever success there is from the enterprise zones, the low-income housing tax credit, and the TJTC they will serve as a blueprint for the effort we need to turn around every forgotten community. I hope whoever is in the White House next year will recognize how big this problem is and expand the concepts we've just passed to make a comprehensive effort to deal with despair everywhere.

I hope the President keeps his commitment to help the cities that he made when he toured Los Angeles. So, as incomplete an effort as this bill represents, I just hope he doesn't veto the bill.

I have said, and my conclusions have been confirmed with the numbers provided by OMB Director Dick Darman, that unless we address the despair of the inner city we are doomed because of drugs and crime to spend or lose in our economy in excess of $300 billion per year in police, criminal justice, jails and prisons, health care, drug treatment, and lost productivity.

I am not sure that we can continue to spend over $21 billion per year to maintain penal institutions and the people in them. We have got to get to the communities where these young men who fill the cells come from and give them the tools to make it. Chances are that if we did, a lot fewer would pass through the revolving door penal system. Consequently, we'd spend less on prisons and have a more productive society.

It has been difficult to get support for an effort to deal with the inner-city problems. But, I am convinced that the only way to bring a large segment of our Nation back from the depths of despair is to invest in people and targeted communities that are feeling the pain the most. This legislation is a step in that direction.

This bill is by itself not the answer, but it certainly will help make some difference as we battle against growing poverty rolls, the lengthening unemployment lines and the overall worsening plight of the underclass Americans who live in the inner cities, their voices unheard and their faces unseen. So much of the increase we see in drug use and crime is directly related to the lack of an effective urban policy.

I take note that in the debate on assistance to Eastern Europe the distinguished majority leader in support of the legislation drew a parallel with the Marshall plan and how against public opinion President Truman, General Marshall, and a bipartisan effort in Congress persisted in the knowledge that the money spent to rebuild Europe would return dividends in the future. He made the argument that the money spent in Eastern Europe today will return dividends as well. The majority leader pointed out how it may not be politically popular to support assistance for Eastern Europe, but that we have to look to our long term needs.

Likewise, it's obvious that it's not popular to spend money to help those in the inner city; it took a dramatic civil disturbance to make so many of us acutely aware of the need. Just as President Truman and General Marshall recognized Europe had to be raised up from the despair the war had created if there was to be a free and prosperous world, I want to tell my colleagues that money properly spent in the inner city today to produce hope instead of despair and turn young men and women into productive citizens will pay dividends for this nation for years to come.

I am mindful of the emphasis put on the tax provisions for enterprise zones in this bill. I recognize that many of my colleagues see me as a leader in the effort to enact these tax provisions. Indeed, I appreciate Secretary Jack Kemp's enthusiasm for the tax provision as a means of encouraging business in the inner city.

But, tax incentives alone cannot do the job. I am convinced no businessman is going to go into a neighborhood where the job pool is in large part junkies and ex-cons, the housing is inadequate and the education lacking, and the hospitals are overcrowded because there is an inadequate health care delivery system. We need to deal with these problems before we can make the tax benefit work.

That is why I believe the focus for the next generation should be on how to concentrate social services and improve the delivery of job training, health care, and education. We need to move away from jails and drug rehabilitation to job training and making our communities more productive. This bill gives us a blueprint on how to reach these goals.

It does not take a rocket scientist to see that America's cities are dying from within. Unless we invest in people and make every American, regardless of circumstances he or she is born into, feel as though they have a chance to succeed and be a part of the social fabric, we are doomed to continue the socioeconomic slide that we find ourselves in now. We have to destroy this cancer now before it spreads.

Since we declared the war on poverty 25 years ago, our approach has always been to put a Band-Aid on a deep cut. We have not thought long term as did Truman and Marshall. We have failed to see the importance of rebuilding communities by building up people and their families. Without jobs, educational opportunities, training, and counseling for those addicted to harmful substances and without any hope provided to people in desperate straits that they do have a shot at the American dream, we have no chance at improving the conditions of the growing underclass. No program or plan, no matter how well funded, has a chance of succeeding without these comprehensive components.

At this time I want to explain the social investment title of this bill and how it will help in dealing with the problems about which I have been talking.

Mr. Speaker, title VIII of the House bill authorized $2.5 billion over 5 years for investment in the social and economic infrastructures of those rural and urban communities designated as tax enterprise zones. For the same purposes title VIII of the Senate amendment, authorizing $5.2 billion over 5 years, closely paralleled the construction of the House title. This title is the part of the bill Members refer to as the Weed and Seed amendment.

Both bills authorize $500 million for fiscal year 1993 for appropriations signed into law by the President as part of the emergency supplemental last month.

Title XI of the conference agreement authorizes $2.650 billion over 5 years, maintaining the same $500 million authorization level for fiscal year 1993 as set forth in the House bill and Senate amendment.

Both the House and Senate provided a two-tiered formula for the allocation of the $500 million through Federal programs which strengthen the social and economic fabric of destitute neighborhoods, while making their streets more secure through more effective law enforcement.

The first tier of programs in the conference report is described as national public-private partnerships, providing $180 million for needy communities through Head Start, Job Corps, community health centers, YouthBuild, and the Neighborhood Reinvestment Corporation.

In addition, the House conferees accepted two new programs proposed in the Senate amendment to assist in economic development in the zones through nonprofit community development corporations [CDC's] and local financial intermediaries like community development credit unions and loan funds. The new National Community Development Partnership provides critical technical and financial assistance to CDC's engaged in the creation of new businesses and services in low-income communities. The enterprise capital access fund offers low-income and minority entrepreneurs access to credit and capital which has become increasingly difficult in these areas.

Community development corporations like the Ann Arbor CDC in Michigan, Coastal Enterprises Inc., in Maine, Northern Communities Investment Corporation in Vermont, the Community Development Corporation of Kansas City, Chicanos Porla Causa in Phoenix, and those represented by CANDO in Chicago are providing a critical role in bringing back distressed communities through innovative and creative local financing.

The conferees note that these kinds of community-based initiatives are playing a significant role revitalizing many inner-city neighborhoods and struggling rural communities. It is our expectation that they will be a major source of new capital for entrepreneurs and community development groups seeking to revitalize the economic infrastructure of the enterprise zone neighborhoods. Our intention is that this capital and other resources be invested in distressed communities with the intention that it remain there for reinvestment and future economic development. We expect that the infusion of resources into these zones to be an incentive for further private sector investment, particularly from banks and other for profit lending institutions. We expect our efforts to complement similar affirmative efforts of these institutions. We express our appreciation to the chairmen of the authorizing committees with jurisdiction over these programs for their cooperative and enthusiastic assistance in helping work out the details of these two new programs.

In this first tier the House conferees receded to the Senate on the House's desire to fund activities of U.S. attorneys and SBA's Minority Enterprise Business Investment Companies Program. The conferees note that funding for the U.S. attorneys' participation in the Justice Department's Weed and Seed Program has been increased and reclassified in the Commerce, Justice, State, and judiciary appropriations bill we have just sent to the President. The House conferees felt that increased access to capital by low-income and minority entrepreneurs is an important goal which can be more effectively accomplished through the new enterprise capital access fund.

Of the $180 million authorized in this first tier, $150 million is allocated to these programs for expanded activities solely within the enterprise zones. The bill provides $30 million—half the amount authorized in the National Community Development Partnerships and the enterprise capital access fund—to be available on a competitive basis to programs in other needy communities without regard to their proximity to an enterprise zone. The conferees wanted to give these two programs initial flexibility in the use of these funds in the event CDC's and financial intermediaries in the zones are not able to fully utilize them during the period in which they will be available in the next fiscal year.

The second tier of funding is provided through a new block program to expand Federal social and economic programs in the zones. Both the House and Senate bills provided for block grants in this second tier. The block grant makes available funding for those communities which have received designations as urban enterprise zones or rural development investment zones to be expended among up to 36 Federal domestic programs. This menu of programs is divided into five categories—criminal justice and community policing; job training; child care and education; health, nutrition, and family assistance; and housing and community development. Zones must allocate 20 percent of their block grant funding to programs in each of the five categories to insure a comprehensive and balanced approach in the Federal component.

The intention of conferees is that the block grant provide residents of the enterprise zones significant flexibility in designing the form and content of the Federal Government's participation in this aspect of the program. Programs in both tiers were selected to complement the configuration of tax incentives in other titles of the bills. These programs will give zone residents a significant helping hand in addressing the social and economic needs of neighborhoods in transition to a better life and a brighter future. We believe community leaders know best their own needs. Our desire is not to impose solutions to local problems from Washington, but to provide resources to those around the country who are already finding solutions to their problems through community leadership and creativity.

Funds authorized under this title will be made available to the zones within 60 days of the filing of menu designations with an interagency council comprised of Cabinet officers and agency heads whose jurisdictions are represented in menu. The primary purpose of the task force is to expedite Federal assistance to enterprise zones. The duty of the task force members is to certify program eligibility for those activities in the menu for which funds are requested. The conferees expect that the relevant Cabinet officers and agency heads will personally oversee the certification of zone eligibility and the implementation of program expansions under their jurisdictions.

The bill makes no change in eligibility standards for any existing program, nor does it provide waivers except those already authorized in law under separate statutes.

The presence of the Attorney General on the council is significant because the conferees believe that aggressive and creative law enforcement is essential for the success of the enterprise zone idea. We hope that communities in the zones will use block grant funding to develop community-based policing programs like those in New York City and Philadelphia which have successfully reduced local street violence. We expect the Attorney General will insure maximum coordination among Federal, State, and local law enforcement programs, and an integrated, comprehensive approach to addressing the needs of at-risk neighborhoods.

In selecting programs for this title, the conferees were particularly mindful of the needs of children, teenagers, and young adults in the Nation's destitute communities. It is their horizons we most fervently hope to broaden with this bill. We hope enterprise communities will utilize funds for alternative sanctions—particularly for nonviolent first-time offenders—to assist young people in trouble in discovering a positive, law-abiding role for themselves in our society.

At the urging of its Senate Members, the conferees reviewed progress on the 20 sites currently participating in the Justice Department's Weed and Seed Program. The purpose of this department initiative is to weed violent criminals from the streets of dangerous communities and seed them with programs offering alternatives to drugs and crime. While the DOJ program has never been authorized by Congress, it has received funding through the Commerce, Justice, State, and Judiciary appropriations bills for fiscal year 1991 and fiscal year 1992.

The administration has asked that $100 million of the $500 million in this title be designated for Seed programs at these sites. The program is contained in neither the House bill nor the Senate amendment.

After a lengthy review of data provided by the administration, the conferees felt the inclusion of the DOJ program would be inappropriate in this legislation even though it shows promise. Testimony we have heard from any number of experts suggests that strategic targeting of these limited funds is essential if the enterprise zone concept is to have any chance of success. This same logic guides our thinking on the tax incentives. We must make the most of finite resources available to us. Adding the 20 DOJ sites to those to be designated as enterprise zones would diminish the limited social investment in both programs almost to a point of insignificance.

Furthermore, the conferees are concerned that every community in the country be eligible to compete on an equal footing for these limited funds. The DOJ site selection process was closed. Only communities preselected by the Attorney General were invited to apply to the program, and all applicants received funding. There was no competition; nor does it appear DOJ made these awards on the basis of the precise economic criteria which we have set forth for the selection of the zones. There are many areas of our country in such great need, it would be unfair to have preassigned even some of these resources before this bill is signed into law.

While the legislative history of this DOJ program does not reflect a congressional commitment to fund it beyond that Congress which already appropriated, the conferees suggest to the Secretary of Housing and Urban Development and the Secretary of Agriculture they view favorably the presence of a successful DOJ Weed and Seed Program in areas competing for designations as enterprise zones.

As noted above, we feel this $500 million social investment component effectively implements the weed and seed concept in the enterprise zones. The concept we have applied in providing a balanced and creative approach to law enforcement, coupled with a strong investment in the social and economic life of these communities gives us confidence that we have properly applied these limited funds.

I wish to thank all those who have worked long hours to see this measure become law. It is a good bill, but more importantly it is a sound blueprint for the future of our Nation's most endangered communities.

Mr. FORD of Michigan. Mr. Speaker, I rise in opposition to the conference report on H.R. 11.

Mr. Speaker, this measure began as an effort to reach poor and unemployed people in this Nation's cities following events in Los Angeles this summer. At a time when we should be moving forward to help the poor and unemployed in this country, this bill is too little, too late. The exercise of this past summer has been lost in what has become yet another bundle of tax cuts for enterprising fat cats. This bill creates tax breaks we cannot afford for people who need them the least.

The enterprise zones in the conference report will not create jobs. They will simply shift jobs from one depressed area to another. The proposed zones will not solve the problems of urban blight nor the desperate need for employment in inner cities. It is just the wrong way to go.

Mr. Speaker, I recognize that there are some very valuable elements which have been included in this package: repealing the excise tax on boats, extending employer-provided educational assistance, extending the self-employed health deduction, making permanent the targeted jobs tax credit and the low-income housing tax credit, making permanent the authority of States and localities to issue mortgage revenue bonds, and extending a number of provisions which would benefit institutions of high education. But these good elements are far outweighed by the special interest tax breaks in the bill.

Revenue losers are offset by some 38 tax increases in the conference report. While the luxury tax on yachts and planes is retroactively repealed, the luxury tax on automobiles, while indexed, is retained. While a recreational boat registration fee would be repealed, recreational boats would lose their exemption from the 20.1-cent-per-gallon diesel tax. Moving expense deductions would be capped. This package also amends the laws governing pilot pensions to permit Federal Express to avoid collective bargaining. It creates a new definition of "leased employees" which will let employers avoid tax and pension obligations. And, it permits the write-off of intangibles—goodwill—which will encourage further mergers at the peril of workers.

The lion's share of relief in this bill is in the form of tax benefits to individuals and businesses—bonuses for those who can afford to get their high paid lobbyists to Capitol Hill.

At a time when the Nation's cities are hemorrhaging, when unemployment continues to rise, and when the American people are hurting, this tax giveaway and band-aid approach to relief is tragic. I urge my colleagues to join me in opposing H.R. 11.

I submit for the RECORD a letter from the American Federation of Labor and Congress of Industrial Organizations on H.R. 11, the Revenue Act of 1992.

AMERICAN FEDERATION OF LABOR AND CONGRESS OF INDUSTRIAL ORGANIZATIONS,
Washington, DC, October 5, 1992.

DEAR REPRESENTATIVE: The AFL–CIO urges you to vote against H.R. 11, the Revenue Act of 1992.

While some minor details of this legislation remain unclear, it is quite clear that H.R. 11 is a $28 billion "business-as-usual" tax bill. Although the legislation contains a few beneficial provisions, the legislation provides the bulk of its tax relief to wealthy individuals and corporations. It does little for working men and women and their families.

This legislation was drafted initially to provide aid for our urban areas. It was intended as a response to the violent and tragic Los Angeles riots. There is little in this bill which will provide any type of real relief for the major problems America's urban areas face.

While we support the $2 billion grant in aid to our cities, the urban tax provisions will rely exclusively on untried federal enterprises zones which we believe will just shift jobs from one area to another. However, less than $4 billion of this $28 billion is earmarked for our cities.

We oppose the new definition of "leased employees" which will facilitate the ability of employers to avoid tax and pension obligations. We oppose the provision that amends the long standing law that governs pilot pension plans and thereby assists Federal Express in avoiding collective bargaining. We oppose the intangible "reform" section which will encourage further mergers that will result in workers being fired or be required to take lower wages. H.R. 11 also eliminates an existing worker benefit, employer-provided group legal service, which is not continued in H.R. 11 along with other "extenders".

Both the content and the politics leave no alternative: H.R. 11 should be defeated. The bill is little more than a bail out for the wealthy individuals and corporations. Any necessary tax provisions that require action can be achieved early in the new Congress and may be weighed against new national priorities.

Sincerely,
ROBERT M. MCGLOTTEN,
Director.

Mr. LEWIS of Florida. Mr. Speaker, I rise in opposition to H.R. 11, the Revenue Act, and against the bill itself.

Mr. Speaker, there are many items in this bill which I support. Or let me rephrase that. I am told that there are many things in this bill which I support.

I am told that the repeal of the luxury tax is in this bill, along with modifications to passive loss rules and new individual retirement accounts.

I was also told that onerous tax increases such as to the estate tax and depreciation of real estate are in the bill. Now, I am told they have been modified.

Do we never learn our lesson in this body? Do we really believe the American people want to continue this business as usual?

According to budget rules, all tax decreases must be offset by tax increases. My colleague from Indiana, Mr. BURTON, informs me that there are 40 tax increases for offsets in this bill. This is just in the highlights in the four-page summary.

The most ironic, and most irresponsible, aspect of this debate is that this bill seeks to correct many mistakes in tax bills which were made under similar circumstances. The luxury taxes and boat fees were enacted in the dead of night without proper consideration.

Now, as we repeal those taxes, we are passing new taxes which are just as onerous, and also ill-considered. It is after 2 a.m. and nobody in this Chamber has read this bill.

Finally, we could finance these tax cuts with spending cuts. Instead, we are raising taxes again.

Mr. Speaker, I opposed the 1990 budget summit in part because of the boat taxes and the fact that we had not seen the entire bill. That bill caused a lingering recession and cost thousands of jobs. Given these same irresponsible circumstances, I cannot believe the results of this bill will be any different.

Mr. RAMSTAD. Mr. Speaker, when I voted for H.R. 11 in July, it was a $17 billion bill that included several provisions I believed would help spur economic growth. However, at the time I stated that I had reservations about certain provisions, and hoped that these concerns would be addressed in the conference committee.

Mr. Speaker, the majority party ignored those concerns, added billions of dollars in tax increases, and returned H.R. 11 to the House as a $28 billion measure. The tax increases needed to pay for the additional provisions in this bill threaten to further harm our already-fragile economy just as badly as the tax increases that resulted from the 1990 budget agreement.

In addition, rather than paying for the many laudable provisions included in the bill with spending reductions—which most Americans would welcome—the Democratic leadership arrogantly assumed that all the funding of this measure should come from increasing the tax burden on American workers.

Mr. Speaker, back in 1990, Congress adopted new taxes in an effort to raise revenue. Instead of reducing the Federal budget deficit, tax increases—like the luxury tax—virtually destroyed a number of industries, throwing thousands out of work and losing millions of dollars in tax revenue from those now-unemployed workers. Now, to repair the damage caused by that ill-fated tax hike, the Democrats propose new taxes, aimed at different industries, that will be equally harmful to our economy.

Because of the tax increases, I cannot support H.R. 11, despite the fact that it includes several critical provisions, many of which I consponsored and would wholeheartedly support in separate legislation.

For example, by reinstating the passive loss deduction for real estate professionals, this bill would have restored the attractiveness of real estate investment, boosted currently low market prices, increased construction jobs and made low-income housing more available. But the bill deals a devastating blow to the commercial real estate industry by extending the depreciation period from 31½ years to 40 years. It makes no sense to repeal one bad tax provision that harms the real estate industry only to replace it with another provision equally harmful to the real estate industry.

In addition, H.R. 11 increases taxes on the inventory of securities dealers threatening the capital formation which is so badly needed to stimulate long-term economic growth.

The bill caps the deductible of moving expenses, increases the quarterly estimate tax payments for individuals and corporations, extends the higher estate tax rates adopted in 1990, stiffens reporting requirements for charitable donations, and extends the excise tax on diesel fuel to noncommercial motor boats. H.R. 11 includes 18 other tax hikes, all of which will adversely impact a number of industries.

Mr. Speaker, it is simply wrong to force feed the American people these tax increases in exchange for the incentives our economy so desperately needs. The fact that the democratic leadership of Congress transformed H.R. 11 into an 11th hour, $28 billion tax hike is nothing more than the politics-as-usual that the American people so disdain.

It's time to put an end to the politics and do what's best for the American people—even in an election year.

Mr. CARDIN. Mr. Speaker, I rise in support of the conference report to accompany H.R. 11.

First, my thanks go to Chairman ROSTENKOWSKI for his work, under tremendous time pressure, to conclude this conference agreement. He has presented the House with a package that deserves the support of the members of the House.

This bill is the product of 5 months' work by the President, the House, and the Senate. The heart of the bill is a proposal to establish 50 enterprise zones, half in rural areas, half in urban areas.

To those who say the plan's economic stimulus for the America's battered, neglected cities is too little, too late, I offer a different view. Surely the bill will not solve all the miseries of Baltimore or America's other great urban centers. This bill, if signed into law by the President, would put in place incentives to invest in the cities.

For years, private employers who hire disadvantaged workers under the targeted jobs tax credit program have lived with the uncertainty of whether Congress would extend the credit beyond the next 6 or 9 months, or year and a half. The same uncertainty has constrained the planning of developers who use the low-income housing tax credit to expand the nation's inadequate supply of housing for the poor.

Under this bill, those uncertainties would finally be eliminated. The bill extends permanently the targeted jobs and low income housing tax credits. These popular, effective, proven programs have brought jobs and housing to millions of Americans. This bill, if signed into law by the President, would extend those opportunities permanently.

The bill also offers badly needed relief to the real estate industry by easing the passive loss restrictions enacted in 1986. For 6 years the real estate industry has sought relief from those overly restrictive measures. Those Americans engaged in the real estate business as their principal life's work deserve the same fair treatment of passive losses as any other American currently can claim under the tax laws. H.R. 11, if the President signs it into law, will extend this fairness.

I am particularly pleased that the conference report retains a provision of pension simplification that I sponsored in the House. We have a crisis in this country of Americans who have no pension coverage. The complexity of nondiscrimination testing of pension plans has discouraged many businesses from offering pension coverage to their workers.

H.R. 11 includes a design-based safe harbor for 401(k) plans that will permit employers to offer pension coverage without meeting the burden of nondiscrimination testing. Modeled after the Federal thrift plan, the design requires employers to provide a very generous match as an incentive to employees to participate, or to make a nonelective contribution of 3 percent of payroll for every employee. If it is signed by the President, this proposal will expand the opportunity of 401(k) plans to millions of Americans.

To pay for these proposals for economic growth and enhanced savings, the bill includes a range of revenue-raising provisions. Raising revenue is always less pleasant than lowering taxes, and so we have a tendency to seek the least painful methods we can devise to do so.

In this bill, regrettably, in the attempt to raise revenues necessary to offset the revenue-losing provisions of the bill, I believe we have resorted to bookkeeping gimmicks. Of the $29 billion in revenues raised by this bill, nearly one-fourth of the money comes from provisions that count as new revenues only because of our strange scoring system.

Of course, Mr. Speaker, the principal reason we must employ such methods is to satisfy the President's refusal to deal responsibly and constructively with this legislation. The President insists on defining the term "tax increase" to include ridiculous items like an extension of the racing season in Arkansas, or the imposition of a $1 fee on convicted criminals to cover court costs. By boxing himself into that corner, the President now threatens to deny the American people the many worthwhile and positive economic growth incentives in this legislation.

Mr. Speaker, as I stated earlier, H.R. 11 deserves the support of this House. In addition to the provisions I have already described, the bill includes other provisions which enjoy the support of most members. The bill expands eligibility for individual retirement accounts. It extends the research and development tax credit. It eliminates the ACE depreciation adjustment under the alternative minimum tax, which has unfairly penalized American manufacturing.

For the boat-building industry of Maryland, which has lost thousands of jobs since enactment of the luxury tax, this bill offers the hope of economic renewal. As a cosponsor of legislation to repeal the luxury tax, I strongly believe it is critically important that we repeal this ill-conceived tax and help the America's boatbuilding industry get back on its feet.

In addition, there are many provisions in the conference report which deal with technical changes that are long overdue in our laws. For example, there is a provision that clarifies the Maryland waiver under the Medicare rules that allows this program to continue to benefit the people of my State and save tax dollars for the Federal taxpayer. I believe the Maryland program should serve as a model for national health care reform.

On balance, this is a bill that will stimulate economic activity, remove offensive and unduly complex provisions from the Tax Code, and ease a backlog that has kept us bottled up, in some cases, for years. If the President will sign it into law.

I urge the House to adopt the conference report.

Mr. STARK. Mr. Speaker, I am pleased that H.R. 11, the Revenue Act of 1992, includes a number of important Medicare provisions.

The Subcommittee on Health devoted a great deal of effort this year to the Medicare amendments that were incorporated in title IV of H.R. 5502, the Health Care Cost Containment and Reform Act of 1992 that was reported by the Subcommittee on Health on July 22, 1992. Many of the Medicare provisions adopted in H.R. 5502 were included in the conference agreement.

The conference agreement addresses several important modifications to Medicare part A, including an extension of programs that are of particular concern to rural hospitals.

Modifications are also made in the area of physician payments. In particular, the agreement includes provisions pertaining to payments for EKG's and payments for new physicians. While I have concerns about the effect of these two provisions on payments for primary care services, they are strongly supported by the physician community, including the American Medical Association.

In line with our continuing efforts to strengthen Medicare's antifraud and abuse provisions, the conference agreement includes tough new policies to reduce fraud and abuse in the area of durable medical equipment and to improve collections from private payers when Medicare is secondary payer.

Current law in the area of physician ownership referral is improved, particularly with respect to treatment of group practice laboratories. In addition, Medigap consumer protection standards pertaining to the sale of duplicate health insurance policies and other matters are clarified.

A summary of the major provisions follow:

SUMMARY OF MEDICARE PROVISIONS OF H.R. 11

1. MEDICARE PART A

General Hospital Provisions: Medicare's new hospital outlier payment policy would be phased in. Hemophilia clotting factor payments would be extended through fiscal year 1994. Certain wage areas would be held harmless from reductions caused by geographic reclassification. Uniformed services treatment facilities would be protected. Clinical psychologists would be authorized to supervise inpatients.

Rural Hospitals: Special payments to Medicare-dependent, small rural hospitals would be extended. The Rural Transition Grant program would be reauthorized for 5 years. The designation of hospitals as regional referral centers would be extended for two years. Rural demonstration projects would be extended through 1995. The EACH program would be expanded from 7 to 9 States, and a variety of clarifying amendments would be made to the program.

State Hospital Payment Programs: Provisions relating to the New Jersey and Maryland hospital payment programs are included.

2. MEDICARE PART B

Payments for EKGs and New Physicians: The prohibition on payment for interpretations of EKGs performed in conjunction with a visit would be repealed. The reductions in Medicare payments in the first four years of practice of new physicians and practitioners would be repealed.

Extra-billing Limits: The agreement provides that physicians who collect amounts in excess of the extra-billing limits would be required to refund or credit excess charges.

The agreement includes additional provisions relating to physicians for anesthesiology, allergy antigens, use of more recent data in determining geographic adjustments, and development of RB RVS for pediatric services.

DME Fraud and Abuse: DME suppliers would be prohibited from telemarketing items to Medicare beneficiaries. Suppliers would be required to submit claims to the carrier having jurisdiction over the geographic area that includes the patient's home. The agreement would establish standards that must be met by DME suppliers. Payments for TENS devices would be reduced, and rental and purchase payments for nebulizers and aspirators would be limited. National payment limits would be established for ostomy supplies.

Extension of Demonstrations: The Alzheimer's Disease Demonstration would be extended for one year. The Medicare Influenza Vaccination Demonstration would be extended for six months. The four municipal health service demonstration projects would be extended for four years.

Other items in Part B include capping the penalty for late enrollment under Part B for certain Federal retirees, extending coverage to oral cancer therapies, and modifying Medicare payments for services provided in facilities operated by Indian tribes.

3. MEDICARE PARTS A AND B

Physician Ownership and Referral: A variety of clarifying amendments would be made to the ban on physician financial relationships with laboratories to which referrals are made including provisions exempting multiple group practice laboratories, services provided under arrangements to hospitals, shared service provided under arrangements to hospitals, shared service laboratories, bona fide employment relationships, relationships involving rural providers, and various other compensation arrangements.

Graduate Medical Education: The Secretary would be required to adjust the base year payment amount for certain State family practice residency programs. The base year amount would also be adjusted for hospitals not required to pay FICA taxes or make a contribution to certain pension plans prior to the passage of OBRA '90.

Immunosuppressive Drugs: Medicare coverage of immunosuppressive drug therapy for Medicare beneficiaries who have received organ transplants would be extended beyond 12 months to 36 months on a phased-in basis.

Payments for Erythropoietin: Medicare payments for erythropoietin (EPO) would be reduced by $1.00 per 1,000 units.

Secondary Payer Fraud and Abuse: A number of provisions would improve identification of cases and collection of payments when Medicare is secondary payer to other plans.

Qualified Medicare Beneficiary Outreach: The Secretary would collect information that could be used to identify Medicare beneficiaries whose family incomes are below 100 percent of poverty (120 percent in 1995) who may be eligible for certain benefits under the Qualified Medicare Beneficiary program.

Medicare Appeals: The appeals process under Part B would be clarified.

Medicare Administration Budget Process: The Budget Enforcement Act would be amended to authorize additional spending for Medicare administration in each of the next three fiscal years.

Standards for Medicare Supplemental Insurance (Medigap): Technical and conforming amendments would be made to the Medigap provisions of OBRA '90 pertaining to preventing duplication, loss ratios and pre-existing condition limitations.

Mr. KOLBE. Mr. Speaker, one of the last notes of the 102d Congress' swan song is the vote on H.R. 11, the Revenue Act of 1992. And like many of the discordant songs heard on the House floor at the 11th hour, this song is no different.

The bill was written behind closed doors with no conferees. We have no hard copy to analyze, no time to review the document, and we will be restricted to only a single up-or-down vote on a complicated tax proposal. This is the way we do tax proposals around here. What was originally presented to the House as an urban aid measure has now ballooned into a major omnibus bill during its progress through the Congress—and it includes tax increases. It is because of these tax increases that I will oppose this bill, despite the many good provisions that are a part of H.R. 11. I simply cannot support a bill that relies on tax increases rather than spending cuts to finance its tax reform provisions, and strays so far from its original intent to aid distressed urban cities.

Mr. Speaker, this bill contains many good proposals that I have supported this year and in the past. Proposals such as enterprise zones, super-IRA's that would permit the penalty free withdrawal from an IRA for first-time homebuyers, educational expenses, medical expenses, and long-term unemployment, and the so-called taxpayers bill of rights, a new advocate for IRS accountability.

H.R. 11 would also make permanent important expiring tax provisions such as the low-income housing tax credit, targeted jobs tax credit, and mortgage revenue bonds—measures that should have been made permanent years ago.

H.R. 11 would extend for 15 months small issue industrial development bonds and for 12 months the R&E tax credit. H.R. 11 would also provide for the amortization of intangibles, passive loss relief, repeal of luxury taxes and the income tax credit for payroll taxes on cash tips.

These are all good proposals, but not in this fashion, not in this form. That is because these good ideas have been coupled with tax increases that simply are bad economic policy.

If we were serious about fiscal responsibility, then we should have to find a way to offset these important proposals with spending reductions.

The revenue raisers in H.R. 11 include increasing the estimated tax payment for individuals to 120 percent of prior year tax liability to qualify for the safe harbor provision, and permanently increasing the estimated tax payments for large corporations to 100 percent, from 97 percent, of estimated current year taxes. These two provisions would actually force taxpayers to loan the Government, interest free, another 23 percent of your tax liability.

H.R. 11 would also slow the depreciation write-off of commercial real estate to 40 years from 31½ years—a provision that bodes ill for the real estate industry.

H.R. 11 would also cap the deductibility of moving expenses at $10,000, phase-in the mark to marketing accounting change more quickly, extend the top estate tax rate of 55 percent for 5 years instead of permitting it to drop to 50 percent on January 1, 1993, as provided in current law, and increase the casualty loss deductible threshold from $100 to $500—a real kick in the teeth to victims of Hurricane Andrew.

No matter how I size it—I see tax increases and tax increases are bad policy. Period. Why do we always seem to forget that spending cuts is another way to pay for tax reductions?

Yes Mr. Speaker, I have endorsed many parts of this bill before, just as the President has, but not in this patchwork of provisions we have before us today. It is not sound fiscal policy. H.R. 11 would place unwarranted tax burdens on the self-employed and small businesses—the engines producing the most new jobs in our economy.

Plain and simple—the bad outweighs the good—and we don't even know what is really in the bill. H.R. 11, though well intentioned, would increase the deficit and fail to generate economic growth. It demands too dear a price to pay at $28 billion in revenue increases, at this hour in the morning and for years to come.

Mr. FAZIO. Mr. Speaker, I rise in support of passage of the conference report on H.R. 11, the bill which will make a much needed long-term investment in both rural and urban areas across the country. It will also stimulate the economy and make it easier for American families—both rural and urban—to succeed and prosper.

H.R. 11 is a prompt, responsible response to the poverty, unemployment and hopelessness that grip so many areas of our Nation. It provides an effective method of addressing the obvious problems that have been plaguing our communities for years, but that have only been highlighted in recent months.

H.R. 11 creates 25 rural development investment zones and 25 urban enterprise zones in distressed areas across the country. This concept provides incentives—in the way of tax credits—to businesses in an effort to attract them to relocate and invest in targeted areas. The end result is improved economic development for the involved community and its people.

Then, to stimulate growth within the targeted zone community itself, H.R. 11 funds job training, education, health and nutrition, housing and community development, child care and crime prevention. It supports solutions proven to be successful—like Head Start, community health centers, and drug treatment and housing assistance programs. These include job training and education for welfare recipients to get them off welfare and working. It will permit communities to attack crime, address their health and welfare needs, and invest in their own development. It fosters activities which have shown over time to have the greatest benefit across the country.

In addition to providing tax breaks for businesses that invest in enterprise zones, H.R. 11 includes tax provisions designed to stimulate overall economic growth throughout the Nation. For example, H.R. 11 provides penalty-free withdrawals from IRAs for first-time home buyers, for education and medical expenses, and for the long-term unemployed. For single taxpayers with incomes up to $75,000 and married taxpayers with incomes up to $100,000, the bill restores deductible IRA's and creates special IRA's to which nondeductible amounts may be contributed and withdrawn without incurring tax liability if held by the special IRA for at least 5 years. H.R. 11 repeals the luxury tax on boats, furs, and jewelry—a tax that had an adverse impact on employment in the affected industries. By repealing this tax, H.R. 11 will alleviate the job loss and economic strain placed on those industries affected by this tax. It also repeals the boat user fee and provides a new business tax credit for employers for FICA taxes paid on tip income. H.R. 11 also simplifies tax rules and contains a provision that will protect taxpayer rights.

Last, but not least, the bill pays for itself. It includes provisions designed to generate revenue, including requiring that some securities firms' inventories be marked to market for income tax purposes and modifying the substantiation requirements for charitable contributions.

We must again begin to place domestic issues at the top of our agenda. The investment that H.R. 11 makes in our communities is a good place to start. We have to see that all our children have safe schools and safe neighborhoods. We must ensure that everyone who can work, does. We must see that every member of society has access to equal opportunity and fair treatment. These are great challenges that we began to address in the 1960's and must continue to meet today.

H.R. 11 will promote development in our communities, support businesses who participate in this effort, provide economic relief for families trying to make ends meet, help to jump-start our economy, and generate revenue to pay for itself. I urge my colleagues on both sides of the aisle to support passage of this important piece of legislation.

Mr. REED. Mr. Speaker, I rise in support of the conference report on H.R. 11, the Revenue Act of 1992. However, I am very concerned that a proposal to allow amortization of intangible assets could be detrimental to the economy. As such, my support of the conference report is premised on my hope that Congress will move to eliminate this provision.

I plan to support the House-Senate compromise because it contains a number of important provisions including: The permanent extension of mortgage revenue bonds and the low-income housing tax credit, passive loss reform, continuing the health insurance deduction for the self-employed, a 12-month extension of the targeted jobs tax credit and the research and development tax credit, and urban enterprise zones.

However, as I mentioned above, I am disturbed that this conference report contains language which could lead to a merger and acquisition binge similar to that which occurred during the 1980's. I speak specifically of the language dealing with the amortization of certain intangible assets, particularly goodwill.

As I have argued before, there is a need to address the issue of intangibles like small business customer lists. Goodwill on the other hand, is not so easily quantifiable, hence the potential for a repeat of the 1980's debacle of leveraged buyouts driven by tax benefits, not financial worth or long-term strategies. Businesses undertook buyouts for the great tax writeoffs. Meanwhile, this tax writeoff translated into the jobs of American workers being written off.

Mr. Speaker, in the interest of addressing the needs of many Americans for affordable housing, urban job creation, and the President's call for a tax bill he can sign, I will vote for the conference report on H.R. 11. However, it is my belief that this conference report's provision on intangible assets should have been removed during conference. I hope that next year, Congress will strike this provision from the Tax Code.

Mr. WAXMAN. Mr. Speaker, I rise in support of the conference report on H.R. 11, the Revenue Act of 1992.

This legislation includes a number of important Medicare provisions that will expand coverage of certain benefits and improve administration of the program.

I would like to particularly highlight several key provisions which would:

Make clinics and other health facilities operated by tribes under the Indian Self-Determination Act and similar clinics serving native Americans residing in urban areas eligible for payment under Medicare;

Provide coverage of certain oral cancer drugs and immunosuppressive drugs under Medicare; and

Extend Medicare demonstrations projects relating to coverage of influenza vaccinations, Alzheimer's disease, and social health maintenance organizations.

These provisions take important steps toward improving access for Medicare beneficiaries to needed health services. In addition, the bill clarifies and strengthens the extra-billing limits which protect beneficiaries from increasing out-of-pocket expenses for their health care.

Mr. Speaker, H.R. 11 also repeals the ban on medicare payments for the interpretation of electrocardiograms [EKG's] and the reductions in payments for new physicians and other practitioners. These changes are intended to make the Medicare fee schedule for physicians' services more equitable.

Finally, this bill includes a number of important revisions to the standards for Medigap policies which were enacted in OBRA 1990. These amendments clarify the intent of Congress with respect to the prohibition on the sale or issuance of duplicate policies, application of the loss ratio and premium refund requirements, and limitations on the use of preexisting conditions in such policies.

Mr. Speaker, the conferees on H.R. 11 have worked hard to forge an agreement on these important Medicare policies. I recognize that this legislation also includes other, controversial provisions, but I want to urge my colleagues in the House not to overlook these valuable improvements in the Medicare Program.

I urge adoption of the conference report.

Mr. DEFAZIO. Mr. Speaker, members should know what they aren't voting on today when we vote for H.R. 11, the urban aid tax bill. You aren't voting for real urban aid. Only about 10 percent of the $27 billion in this bill will actually go to urban aid. Both liberal and conservative critics of the bill have labeled the urban aid provisions too little, too late. You're not voting for economic stimulus either, since the conferees dropped virtually all of the parts of the bill that were intended to give our economy a boost. Among the major omissions is the incredible shrinking first-time home buyer tax credit. First it was $5,000, then $2,500, now it's nothing.

So what are you voting for, if you support this bill? Instead of helping urban America and first-time homebuyers, this bill gives a bonanza to wealthy investors. Among other things, you are voting to refuel and reignite the mergers and acquisitions mania that built so many paper fortunes in the 1980's while it was erasing millions of American jobs. With almost no attention, a new tax break for amortization of corporate goodwill snuck its way through both Houses of Congress. Make no mistake about it; the primary purpose of this goodwill loophole is to make sure that U.S. taxpayers subsidize a whole new round of corporate takeovers, to the tune of more than $2 billion a year. Writing for the County NatWest Securities Spotlight, a prominent securities analyst noted:

> Under the proposed legislation, buyers would be able to add goodwill to interest payments for deduction, adding fuel to any resurgence in LBOs. Deal value should escalate from the moment the ink is dry on [this proposal].

In fact, buy-out sharks like RJR/Nabisco and Philip Morris began circling companies with high brand loyalty and customer goodwill long before the conference committee finished its work. If you want to go back to the debt-laden days of merger mania, again at taxpayer expense, I can't think of a better way than to vote for this bill.

Not only will this bill set up a whole new range of tax shelters for wealthy speculators, it includes at least one special tax break for the Federal Express Co. The only purpose of this tax giveaway is to influence the outcome of a union organizing election by the company's pilots. No matter which side you support, it is incredible that this Congress could endorse the use of taxpayer money to prevent workers from organizing.

There are parts of this bill that I strongly support. I've always been a firm believer in the targeted jobs tax credit, the research and experimentation tax credit, the exclusion for employer-provided education assistance, and deductibility for the health insurance payments for the self-employed. But I'm afraid that these important provisions and the desperate need for help in urban America are being used to drag a whole series of special tax breaks for Wall Street and the wealthy into our Tax Code. Instead of passing a whole grab-bag of tax breaks for the wealthy under the guise of helping the urban poor, we should defeat this bill and go back to the drawing board.

Mrs. MEYERS of Kansas. Mr. Speaker, with great reluctance, I will be voting against H.R. 11, the Revenue Act of 1992. This entire exercise is a charade, as the President has said he will veto the bill. We don't know what unexpected surprises are lurking in this legislation, and Members should not be expected to vote in the middle of the night on a bill they have not had an opportunity to review.

This bill includes $28 billion in tax increases that will hurt many of our constituents. You may not have heard from them yet on these tax increases, but you will once the revenue provisions are fully enacted and become effective. The two provisions that come to mind are the changes in estimated taxes and the elimination of 5-year averaging for lump-sum pension distributions. The estimated tax changes will adversely affect many self-employed individuals, and this is why the bill is opposed by the National Federation of Independent Business.

While I will vote against this bill, there are many provisions in it that I support, and that I have advocated for quite some time. The passive-loss changes and the enterprise zone developments will be beneficial to economic growth. In addition, I have cosponsored repeal of the luxury taxes, and that measure is included in H.R. 11.

I have supported continuation of most of the tax extenders, including the R&D tax credit, low-income housing tax credits, mortgage revenue bonds, health insurance deductions for the self-employed, and targeted jobs tax credits.

The expanded IRA provisions of H.R. 11 will encourage savings, and this is helpful to the long-term welfare of our economy.

It does seem preposterous, however, that we have waited all year to enact an economic growth/urban aid bill. Frankly, there isn't much in this bill that will promote economic growth—other than the passive loss changes for real estate. Two measures that I think would be most effective in jump-starting the economy—a first-time home buyer tax credit and additional investment tax allowances for business equipment purchases—are not even included in the conference report.

Mr. Speaker, let's reject the conference report to H.R. 11 and the likely surprises we and our constituents will face should this bill actually pass and be signed into law.

Mr. KOSTMAYER. Mr. Speaker, today we have before us a bill that has some very important provisions, provisions which will help Americans in need. These provisions are aimed at helping needy individuals and working families; the very people for whom this bill was initially intended.

I am pleased that the conference committee included changes to the Medicare Program for which I have been fighting. The Medicare section of this bill includes provisions without increasing Federal expenditure, which will reduce inequities and administrative hassles in the Medicare Program and will go a long way in making Medicare a friendlier place for recipients and providers. I am particularly pleased that the conference included a provision, which I sponsored, eliminating administrative burdens in the processing of certificates of medical necessity for home medical equipment supplies. Correcting problems with the reimbursement of electrocardiograms and new physicians and eliminating unnecessary paper shuffling and administrative hassles are also important provisions for which I have long fought and which are included in this bill.

I particularly want to highlight two health care provisions aimed at assisting low-income individuals which were included at my request. The first involves the Qualified Beneficiary Program [QMB]. This program, established in 1988, was intended to ensure that Medicare out-of-pocket costs for low-income senior citizens would be paid by the Medicaid Program. At that time, Congress determined that a senior citizen earning less than $7,000 a year could ill afford to pay thousands of dollars a year in premiums, deductible, and copayments. Unfortunately, over 50 percent of those eligible for this program are not enrolled, and the Department of Health and Human Services [HHS] and the States refuse to make the efforts necessary to enroll seniors in this program. This legislation includes a provision, at my request, which mandates that HHS determine the QMB eligibly status for all Medicare recipients. Once we know their status, it will be quite simple to ensure that they are enrolled.

The second issue involves residential drug treatment programs for pregnant women and their chairman. Every year 375,000 infants are exposed to drugs before birth, yet pregnant women are largely shut out of substance abuse treatment services. Essentially, poor pregnant women are forced to choose between seeking treatment and keeping their family intact. Earlier this year, along with Mr. TOWNS, I introduced legislation to expand Medicaid coverage for residential drug treatment programs for pregnant women and their children. The conference committee included a language to increase this coverage. Pennsylvania has established one of this Nation's best residential drug treatment programs, and with this language they will be able to expand it.

There are other portions of this bill which I also wanted to take note of. While I am very disappointed that the committee removed the language pertaining to tax credits for first-time home buyers, I am pleased that the committee did include provisions allowing for penalty-free IRA withdrawals for first-time home buyers, modification of passive-loss regulations, and permanent extension of the low-income housing tax credit and the mortgage revenue bond program.

I have long supported these provisions and I am grateful to see them included along with the valuable health care provisions I've already noted. I appreciate the efforts of those who have worked on behalf of these measures, and I thank those Members who supported my efforts to include items of special interests to me. I regret that other provisions of the bill, outweigh, in my judgment, these very positive measures, and that therefore, with much reluctance, I will cast my vote against this bill.

Mr. HUGHES. Mr. Speaker, I rise today in opposition to H.R. 11, the Revenue Act of 1992.

Tonight I face one of the most difficult decisions in my career. In good conscience, I can not support H.R. 11, the urban aid tax bill. Unfortunately, in the fray of partisan politics, the original intent of this bill—urban aid—has been sadly lost. Regrettably, so has our opportunity to reach out and offer true assistance to those Americans who are now in the greatest need of assistance.

Although H.R. 11 contains some worthwhile tax relief provisions, it is inundated with shortsighted revenue-raising gimmicks which leave the bill fiscally irresponsible. Simply stated, the bill forgives more taxes for the less needy and fails to raise sufficient revenue to cover the cost.

For instance, the heralded super-IRA provision essentially creates a constant stream of tax-exempt income for the more affluent. The advocates of the super-IRA merely speculate that this will increase the incentive retirement saving. Clearly, all this provision will accomplish is give tax relief to the upper echelon of income earners and increase the deficit. What ever happened to urban aid?

Undoubtedly, this bill contains some very worthwhile provisions that I have, and always will strongly support; for instance, the provisions to repeal the boat user fee as well as the luxury tax. This ill-advised tax has burdened individual boat builders, since its enactment; and has absolutely decimated the entire boating industry before my very eyes. I have fought very hard to repeal this tax and it deeply saddens me to see the opportunity to help this deteriorating industry go by.

In addition, the relaxation of the passive loss rules, as well as the overall simplification of the Tax Code are both changes that are long overdue. Such provisions would tremendously help the wavering real estate market as well as struggling small businesses.

Furthermore, I strongly support the responsible provisions in this bill that would make permanent the targeted job credits, the Mortgage Revenue Bond Program, as well as the Low-income Housing Credit Program which is, to date, the most productive Government-run, low-income housing program.

Clearly, these particular tax credits are aimed to help those hard-working Americans in the greatest need of assistance. These tax credits are, indeed the very essence of urban aid. However, the cost for these worthwhile provisions is far too excessive.

Overall, H.R. 11 will increase the deficit, hurt our economy and in the long term, seriously jeopardize the future financial soundness of America.

H.R. 11, offers urban aid in name only; it is for this reason that I, painfully, cannot support the measure.

The SPEAKER pro tempore. All time has expired.

Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DANNEMEYER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 208, nays 202, not voting 23, as follows:

Mr. BROOMFIELD and Mr. STAGGERS changed their vote from "yea" to "nay."

Mr. WAXMAN and Mr. COLEMAN of Texas changed their vote from "nay" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. MILLER of Ohio. Mr. Speaker, on rollcall No. 482, I was present in the House Chamber and voted "no" on the conference report on H.R. 11, the Revenue Act of 1992; however, my vote was not recorded. I would like the RECORD to show that I was opposed to the conference report.

BROWN VERSUS BOARD OF EDUCATION HISTORIC SITE

Mr. VENTO. Mr. Speaker, I ask unanimous consent to vacate the ordering of the yeas and nays on S. 2890, as amended, and that the Speaker put the question de novo.

The SPEAKER. Is there objection to the request of the gentleman from Minnesota?

Mr. VOLKMER. Mr. Speaker, reserving the right to object, I do so to allow the gentleman from Minnesota [Mr. VENTO] to explain his request.

Mr. VENTO. Mr. Speaker, if the gentleman will yield, Brown versus Board of Education, which was on suspension last night, is a noncontroversial and bipartisan bill.

Mr. VOLKMER. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

The SPEAKER. The unfinished business is the question of suspending the rules and passing the Senate bill, S. 2890, as amended.

The Clerk read the title of the Senate bill.

The SPEAKER. The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the Senate bill, S. 2890, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill, as amended, was passed.

A motion to reconsider was laid on the table.

□ 0410

CONFERENCE REPORT ON H.R. 5739, EXPORT ENHANCEMENT ACT OF 1992

Ms. OAKAR. Mr. Speaker, pursuant to House Resolution 591, I call up the conference report on the bill (H.R. 5739) to reauthorize the Export-Import Bank of the United States.

The Clerk read the title of the bill.

The SPEAKER. Pursuant to House Resolution 591, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of Sunday, October 4, 1991, at page 31429.)

The SPEAKER. The gentlewoman from Ohio [Ms. OAKAR] will be recognized for 30 minutes, and the gentleman from Ohio [Mr. WYLIE] will be recognized for 30 minutes.

The Chair recognizes the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the conference report on H.R. 5739, the Export Enhancement Act of 1992, legislation that reauthorizes the charter of the Export-Import Bank for another 5 years. I would like to commend my distinguished Banking Committee colleague and ranking member of my subcommittee—Congressman JIM LEACH—for his outstanding work and invaluable help on this legislation. In this regard, I would also like to thank the members of the International Development Subcommittee for their active and able participation during the process of developing this bill.

H.R. 5739 originated in our Subcommittee on International Development, where an impressive parade of trade and export groups testified in behalf of Exim charter renewal. Subsequently, both the House and Senate passed similar Exim charter renewal bills this past August, and this conference report represents the diligent work since then of the Banking Committee members and their staffs from the two Chambers to resolve minor differences. This is, therefore, consensus legislation whose speedy passage is essential, in view of the fact that Exim's current charter expired on September 30, 1992.

H.R. 5739 is intended to protect and strengthen Eximbank's ability to finance American exports and keep our country competitive in the global marketplace. To accomplish this, H.R. 5739 extends the general authority of the Bank for 5 years and the war chest authority for 3 years; increases the Bank's aggregate ceiling for total financing; enhances the commercial bank guarantee program; provides one-stop centers to assist small and medium-sized exporters; and consolidates the Bank's programs into a coherent export strategy.

Exports play a major role in trade and commerce and, ultimately, in economic growth and prosperity. United States exports expanded from $227 billion in 1986 to $422 billion in 1991—an increase of 85.6 percent. Eximbank's 1991 annual report estimates that exports support about 7 million American jobs and a considerable proportion of this country's economic growth. Eximbank possesses the tools required to assist American exporters to be competitive abroad and take advantage of historic new trading opportunities in the post-cold-war era.

My own State of Ohio illustrates both the necessity and impact of Exim bank financing. Ohio ranks third among the States in the value of exported goods. In 1991, Eximbank financed $165 million worth of Ohio-based exports. In addition, 20 to 25 percent of manufacturing employment in northeast Ohio is tied directly to export markets.

The city of Cleveland itself is home to several companies that supply critical parts to Boeing commercial airplane group—one of Exim's biggest and most important users of export financing.

This legislation also provided much-needed assistance to small business through a number of Exim programs and designed specifically for that purpose. In this regard, I'd like to thank my good friend and colleague, Chairman LAFALCE of the Small Business Committee, for his hard work in helping us craft language that reflected his expert understanding of the special needs of small businessmen and women.

Mr. Speaker, we cannot delay further in approving this legislation, if Eximbank is to be permitted to fulfill its crucial function as our Government's preeminent agency in financing U.S. goods and services abroad. I ask my colleagues for their support in passing this conference report, because it's good for the export business community, good for our economy, and good for our country.

COMMENDATION OF THE BANK AND ITS MANAGEMENT

Mr. Speaker, the Bank in recent years has done an admirable job. Last year, Eximbank financed $12.1 billion in U.S. exports, the highest total in a decade. In the opinion of the business community, and of the committees that have exercised legislative oversight in these matters over the past year, the Bank is being well managed by President John Macomber. Our conference report is a bipartisan vote of confidence on the recent operations of the Bank, and I am asking that the House add its approval, which, in my opinion, it amply deserved.

FUTURISTIC THRUST OF THE LEGISLATION

Mr. Speaker, one of the Banking Committee's prime objectives in drafting this conference report legislation was to focus the Export-Import Bank of the future. Traditionally, the Bank has responded to the applications placed before it by private sector businesses seeking direct loans, commercial bank guarantees, or foreign credit insurance.

Since the charter is being renewed for 5 years, we wanted to equip the Bank to make the most of the opportunities that are being presented by global markets now and over the 5-year period during which the new charter will be in force.

The following are some graphic examples of export opportunities that came to light during our public hearings of May 6, 1992, and associated committee research:

Environmental products and services, including waste and sanitation items—$300 billion annually world-wide.

Power generation and distribution—$100 billion yearly.

Telecommunications systems—$100 billion yearly.

Aircraft—$45 billion yearly.

Beyond these industries, the Commerce Department informed the subcommittee that, over the past 5 years, we have seen 11 industrial groups whose exports have grown more than 100 percent and 4 that have grown more than 200 percent including radio and TV products and steel mill products. Witnesses also made the subcommittee aware of the almost limitless possibilities of agricultural products such as advanced, environmentally benign herbicides and pesticides, genetically engineered seeds, and other biotech products.

In order to help position the United States to provide the maximum help to our exporters in this post-cold-war era of new business possibilities during the next 5 years, this bill enacts a series of forward looking provisions, as follows:

A rather long renewal period of 5 years, so the Bank can operate and plan in a stable environment;

Elevation of the trade promotion coordinating committee to statutory status, so export policy can be coordinated across the lines of Federal agencies in the context of some overall strategy;

Instructions to the Bank to study and closely monitor the forthcoming demand for, and current market development in, export financing to the newly emergent economies of Central and Eastern Europe, the Baltic States, and the former Soviet Union, so the Bank, as a matter of sound management, can gain an idea of the magnitude of the future demand for its services in these important areas;

Providing for an innovative initiative by the Bank, in cooperation with other Federal agencies, in maximizing the possibility of future environmental exports world-wide, which is consistent with the potential brought to light in our hearings;

A direction to the Bank to study the demand for high technology service and intangible exports to newly emergent economies;

Authorization for a program of working with high technology and small firms to promote the export of leading edge technology products to these emergent nations;

A series of measures to help small businesses, including:

Expanding the financing authority of the Bank from 80 to 100 percent of U.S. export,

Setting up one-stop centers where representatives of various Federal agencies will be cross-trained to inform potential exporters of the range of Federal information and financing programs,

Expanding the Bank's horizons regarding the contribution of small businesses to existing and potential exporters by means of the studies described above,

Enhancing cooperative relationships between the Bank and State export promotion and financing agencies, and

Making clear that the previous 1983 set-aside of 10 percent of the Bank's resources for small business is to be interpreted as direct support, rather than indirect support.

IMPORTANCE OF WORLD TRADE AND U.S. EXPORT TRADE

Trade has been one of the great success stories of the post-World War II era. Trade has grown faster than world output in nearly every year since 1946.

Since the value of the dollar began to decline from its lofty peaks of the mid-1980's, the United States has regained its status as the world's largest exporter.

In fact, from 1986 to 1991, U.S. exports rose from $227 to $421.6 billion, an increase of 85.6 percent.

Exports mean that products originate in this country, and generate jobs for American workers, orders for American suppliers, and business for American service providers.

Exports are therefore critical to our national economic health. Over the past several years, the Commerce Department has estimated that U.S. exports, which support about 7 million U.S. jobs, account for the equivalent of between 40 and 70 percent of the meager, recession-dampened U.S. economic growth for this period. Without exports, the current recession, with 9.7 million Americans out of work, could be a depression.

Trade NOW accounts for about 25 percent of the American economy, up from about 10.6 percent in 1965, according to the March 1992 report of the congressionally appointed Competitiveness Policy Council. Thus, competition is being forced on us, year by year by day by day. American industry and workers must increasingly be world-class just to hold our own in our domestic markets.

PERFORMANCE OF THE U.S. GOVERNMENT IN EXPORT POLICY

We know that maintaining or penetrating the promising export markets of the future will not be easy. American companies and American workers must demonstrate quality, price, delivery, and financing terms that equal or exceed those offered by foreign sellers and their export credit agencies. We know from past experience that our foreign competitors will have the full backing of their governments in this competition.

How is our own Government doing in this competitive environment? The answer is: Not as well as it should.

A book recently published by the Brookings Institution called the United States the world's biggest export underachiever—"Going Global," by William Nothdurft. The book points out that European nations spend up to 8 times more than the United States for export promotion (see "The U.S. as Exporter: Superpower on Subpar," Washington Post, Sept. 20, 1992, P. H1).

The General Accounting Office [GAO] has also emphasized that exports play a larger role in the economies of other industrial nations, constituting 27 percent of the gross domestic product [GDP] of Germany and 16 percent of the GDP of Italy and 7.1 percent of United States GDP in 1990, which was a good year for American exports, "Export Promotion," GAO/GGD 92-97, June 1992.

GAO found that not only is the United States at the lower end of the scale of export promotion expenditures—59 cents per $1,000 compared to a high of $1.99 per $1,000 for France—but what our country does spend is not well allocated. In testimony before my subcommittee on May 6, 1992, GAO stated that, although the Export-Import Bank accounts for over half of the export credits, 52 percent, it controls only 12.3 percent of the promotion funds. This 52 percent closely parallels the 48 percent of U.S. exports accounted for by capital goods and automotive products, according to the 1991 Economic Report of the President, page 406. Industrial materials account for another 25.1 percent. Now, agriculture, which accounts for 11.5 percent of U.S. exports, expends 74.3 percent of the promotional funds.

Is this a cost-effective or competitive Federal export policy?

The GAO also found that many foreign governments assign more staff to promoting exports than the United States, and most significantly of all, U.S. export efforts "are not centrally managed or implemented under a strategic plan based on a set of national priorities." Moreover, said GAO: In the United States "private sector groups play a much more limited role in promotion activities and are not coordinated with Federal efforts," "Export Promotion," June 1992, page 3.

So, the bottom line is that Federal export policy and implementation are not up to par, and the U.S. private sector could do much better in world markets if the Federal Government cleans up its act and does what many other governments are already doing.

Our Export Enhancement Act legislation attempts to remedy the Government problems recognized by the Brookings Institution, the Washington Post, and the GAO by elevating the recently established Trade Promotion Coordinating Committee to statutory status, and giving it, and the Export-Import Bank, additional responsibilities to coordinate U.S. export promotion efforts, particularly to small- and medium-sized businesses.

Mr. Speaker, I reserve the balance of my time.

Mr. WYLIE. Mr. Speaker, I yield myself 1½ minutes.

Mr. Speaker, I rise in support of the Export Enhancement Act conference report. As the gentlewoman from Ohio has mentioned, this bill would renew the charter of the Export-Import Bank for 5 years. The charter of the Eximbank expired on September 30, 1992, and I think it is imperative that the Congress quickly act on this renewal before Eximbank operations are impeded any further.

No money is being appropriated by this bill. We are simply renewing its charter.

Many industries in Columbus and, indeed, in the State of Ohio benefit from the Eximbank. I think the Eximbank is one of the best tools the United States has to encourage exports abroad. And through the use of its war chest, the Eximbank is also an instrument in combating unfair export financing practices from other countries.

The conference report contains language implementing the President's enterprise for the Americas initiative. The authority to sell and reduce the amount of Eximbank debt owed by these countries was requested by the administration as part of the initiative.

During these slow economic times exports have been the bright spots of the American economy. The Export-Import Bank has been a key to that success, and I urge support of the conference report.

Mr. Speaker, I yield such time as he may consume to the gentleman from Nebraska [Mr. BEREUTER].

Mr. BEREUTER. Mr. Speaker, this Member rises in strong support of the Conference Report on H.R. 5739. It is urgent and important to move forward with this 5-year reauthorization of the export financing programs of the Export-Import Bank of the United States, which expired on September 30, 1992.

Strong and expanding exports are a key to renewed economic growth for the United States. Export markets are changing rapidly with the many changes in the world's political and economic situation. Stable export finance programs must be in place to allow U.S. firms to enter and remain in these markets on a competitive basis. The Export-Import Bank, with its direct loan, guarantee, and insurance programs, is a cornerstone of that stability for the export sector and for the private financial institutions that are active in trade finance. The overall lending authority in the bill will allow present program levels to be maintained and even expanded, subject to annual appropriations of the subsidy to be set aside under credit reform calculations. For fiscal year 1993, the subsidy amount approved in the conference report on foreign operations appropriations approved earlier today was $757 million, an increase over fiscal year 1992.

The war chest, also reauthorized in this legislation for 3 years at up to $500 million per year, has been and continues to be an important instrument of leverage to obtain and enforce the OECD agreements that limit predatory use of tied aid and export finance. The reauthorization of substantial sums for aggressive war chest use—whenever and wherever necessary to deter unfair, trade-distorting use of mixed credits by other countries in violation of international OECD guidelines—is critical to maintain a level playing field for U.S. exporters.

This conference report also includes an important measure to improve the climate for U.S. exports to Latin America and the Caribbean, our fastest growing export region. In his enterprise for the Americas proposal, the President requested, and this bill contains, an authority to restructure Eximbank debts of eligible countries in the region, when such restructuring contributes to a better climate for U.S. exports and jobs.

There are other excellent features of this bill: a stronger focus on assisting exports by small businesses, legislative recognition of the importance of a Trade Promotion Coordinating Committee in the executive branch with a clear responsibility for coordinated strategic planning and implementation of Federal trade promotion efforts, further clarification that Eximbank will not finance defense articles or dual-use articles for military uses, and updating outmoded provisions.

Mr. Speaker, this legislation is good for U.S. exporters, good for the U.S. economy, and good for U.S. jobs. I urge my colleagues to support it.

GENERAL LEAVE

Ms. OAKAR. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks on the conference report under consideration.

The SPEAKER pro tempore (Mr. MONTGOMERY). Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

Mr. WYLIE. Mr. Speaker, I yield 2 minutes to the gentleman from Tennessee [Mr. DUNCAN].

Mr. DUNCAN. Mr. Speaker, I rise in opposition to this bill. We have American companies which cannot get loans from the SBA or even from private sources. This bill increases the cap on American taxpayer loans to foreign companies up to $72 billion. We paid $12 billion worth of these loans to foreign companies last year alone.

This bill authorizes $600 to subsidize or pay the expenses of making these loans.

Already so many of these loans are nonperforming or underperforming, in other words, are bad that the president of the Export-Import Bank himself estimated that the American taxpayers would end up with a $5.4 billion loss or $5.4 billion in the hole, if we liquidated the bank today.

According to the GAO, the Bank lost $889 million in 1990 and, even worse, it lost almost $2 billion in 1991.

American taxpayers should not be subsidizing bad loans to foreign companies. A portion of the Caribbean Basin initiative, which received such controversial publicity Sunday night on "60 Minutes", is combined into the Enterprise for the Americas Act, which is in this bill.

This is a bill which we do not need and which we cannot afford at this time of a $4 trillion national debt.

□ 0420

I realize this bill would not pass by a large margin, but this is definitely a bill that should be looked into and studied more and should not be passed at 4:20 in the morning, at a time when almost no one has had a chance to see what is in the conference report.

Mr. LEACH. Mr. Speaker, the Export-Import Bank is a key element of U.S. trade policy. This conference report will renew its charter for 5 more years.

In the 6 years since the Congress last renewed the Eximbank charter, trade throughout the world has become increasingly interdependent, competitive, and critical to U.S. economic health. In 1991 alone, Eximbank supported about 12 billion dollars' worth of U.S. exports; since its inception in 1935, $260 billion.

In addition to the charter extension, the conference report we are voting on today contains a portion of the President's highly acclaimed enterprise for the Americas initiative. This legislation grants the President authority to conduct debt sales and reduction of Eximbank debt owed by some Latin American and Caribbean countries. The savings from this debt restructuring will help promote environmental and other progressive development programs and provide a more favorable climate for private investment and free enterprise.

Eximbank has distinguished itself as a flexible institution that responds to private sector demand and market trends. This legislation will ensure that U.S. exporters will not be denied legitimate foreign sales because of financing. It will also ensure that they are able to compete against the predatory and unfair export financing practices of other countries.

Mr. Speaker, I urge passage of the Export Enhancement Act of 1992.

Mr. MORAN. Mr. Speaker, I rise in support of the conference report on the Export-Import Bank charter renewal, H.R. 5739.

This legislation was developed during a year-long process which included a series of hearings, a study by the General Accounting Office, and extensive consultation with major industry exporter and financial organizations.

The result is a forward-looking bill that calls upon the Federal Government to coordinate its export assistance efforts and the Export-Import Bank to assess the export opportunities over the 5-year period of the charter renewal, and to take steps to maximize these opportunities for small, medium-sized, and large industry exporters.

I am particularly pleased that the two amendments which I proposed to the House Banking Committee are included in the final version of the bill.

These amendments instruct the Bank to survey the possibilities for enhancing exports of high-technology services, such as computer software, information technology, and, generally, services and products that may be intangible in nature. We look forward to the Bank's report as to these matters which tend to be in the highest value categories of exports.

My amendments also support a bank initiative to work with high technology and small entrepreneurial business in promoting cutting edge products and services to newly emerging economies.

These authorities—together with the provision of one-stop centers for potential exporters—will allow the Export-Import Bank to be more proactive during the 5-year period of its charter renewal.

I urge a favorable vote on the conference report.

Mr. WYLIE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Ms. OAKAR. Mr. Speaker, I reluctantly yield back the balance of my time.

The SPEAKER pro tempore (Mr. MONTGOMERY). Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DUNCAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 332, nays 44, not voting 56, as follows:

□ 0439

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. BALLENGER. Mr. Speaker, unfortunately I was detained and missed rollcall votes 471 and 483. Had I been present, I would have voted "nay" on rollcall vote 471 and "aye" on rollcall vote 483.

PERSONAL EXPLANATION

Mr. PASTOR. Mr. Speaker, during rollcall vote no. 483 on H.R. 5739 conference report I was unavoidably detained. Had I been present I would have voted "yea".

PERSONAL EXPLANATION

Mr. FIELDS. Mr. Speaker, due to official business in my district, I was unable to vote on S. 3100, S. 1704, H.R. 5739, and H.R. 6179. Had I been here, I would have voted against final passage of S. 3100, No. 484; S. 1704, No. 485; and H.R. 6179, No. 487; and voted in favor of H.R. 5739, No. 483.

LEGISLATIVE PROGRAM

(Without objection, Mr. MICHEL was given permission to address the House for 1 minute.)

Mr. MICHEL. Mr. Speaker, I have asked to proceed for 1 minute that I might again inquire of the distinguished majority leader how we will proceed for the balance of the morning.

I am happy to yield to my distinguished friend.

Mr. GEPHARDT. I thank the gentleman for yielding.

We will now go into a conference report on the Defense Production Act. I am told there will likely not be a vote on that, and consideration will be very short.

We will then take up the adjournment resolution, which we are now talking about with the minority, and we will have it ready in a few minutes. On that there may be vote.

We then will go to a period of time for unanimous-consent requests that have been approved, and suspensions. We now have 18 unanimous-consent requests that have been approved on both sides, and 22 suspensions that have been approved on both sides.

□ 0440

During that period of time, which could be 2 hours, maybe 3 hours, I do not know exactly how long it will take us to go through those, there will not be votes. Members can rest, get breakfast, do whatever, and then at the end of that period we will come back. There may be some more suspensions that may be added to that list. If there are not, whatever suspensions are left will be taken up, and there may be votes on those suspensions, but we will finish at 12 noon.

Mr. MICHEL. I thank the distinguished gentleman. No question.

Obviously being a party to this, I will ask the majority leader, he just mentioned that we would bring the adjournment resolution up following the vote on the bill.

Mr. GEPHARDT. Following the Defense Production Act.

Mr. GUNDERSON. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I am happy to yield to the gentleman from Wisconsin.

Mr. GUNDERSON. I appreciate the distinguished minority leader yielding. Is it not possible to set a time certain when the votes on the suspensions begin, say, 9 or 10 o'clock or something like that? If we are going to hold votes over, could we not hold those votes over to a time certain so the Members could go home and take a shower?

Mr. GEPHARDT. My only concern is if we go through that quickly, in, say 2 hours, we then may want to start up the rest of the suspensions that we can get done by noon. We will give Members 30 minutes' notice before any votes could begin.

Mr. GUNDERSON. I do not think anybody has any objection to bringing up further suspensions if they have been approved on both sides. What I think most Members would like to do is simply hold the votes over to a time certain, 10 o'clock or whatever, so that we then can act accordingly.

Mr. GEPHARDT. Let us say 9 o'clock would be the time we would shoot for.

Mr. GUNDERSON. Thank you very much.

Mr. KOSTMAYER. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I am happy to yield to the gentleman from Pennsylvania.

Mr. KOSTMAYER. If I could ask the gentleman from Illinois [Mr. MICHEL] a question, there was an original list of suspensions, I think of about 50 or 60, and apparently that list has been shortened to a list which has received the approval of the minority and the majority. There is also a UC list.

Can I ask: What was the basis for arriving at that list? And if the ranking member of the Committee on the Interior, the gentleman from Alaska [Mr. YOUNG], supports the one that I had on the suspension list, could we add that?

Mr. MICHEL. We have been in constant touch with the majority side. We were frank to say that that large list was just going to keep us bogged down here for indefinitely and could we not scrub that somewhat. There are those that have a priority over others for whatever reasons, timing or something, that would not matter if it went over.

Mr. KOSTMAYER. Well, I could assure the gentleman from Illinois that we could limit the discussion to 60 seconds or less on H.R. 6179 if it could be added to the list. I would ask if I could ask unanimous consent, along with the gentleman from Alaska [Mr. YOUNG], the ranking member, that it be added to the list.

Mr. MICHEL. Well, I think that could not be made under my time. But let me simply say that let us give consideration to that one and ask the appropriate parties here where we are on the gentleman's request.

CONFERENCE REPORT ON S. 347, DEFENSE PRODUCTION ACT AMENDMENTS OF 1991

Mr. CARPER. Mr. Speaker, pursuant to House Resolution 591, I call up the conference report on the Senate bill (S. 347) to amend the Defense Production Act of 1950 to revitalize the defense industrial base of the United States, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

(For conference report, see prior proceedings of the House of today, Monday, October 5, 1992.)

The SPEAKER pro tempore (Mr. MONTGOMERY). The gentleman from Delaware [Mr. CARPER] will be recognized for 30 minutes, and the gentleman from Pennsylvania [Mr. RIDGE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Delaware [Mr. CARPER].

Mr. CARPER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of this conference agreement on the Defense Production Act Amendments of 1992. Our efforts to provide a comprehensive reauthorization of the act date back to the 101st Congress.

Considering the conference agreement before us, the time was well spent. This legislation would bring the Defense Production Act of 1950—a cold war baby—into the postcold war era. It would do so in the following ways:

First, recognize the need to transition our defense industrial base into a competitive civilian industry by promoting the production of dual-use technologies;

Second, ensure reliable supplies of critical technology items and components;

Third, prohibit anyone who is found to have fraudulently used "made in America" labels on products from getting contracts under the Defense Production Act—a problem brought to light by the "60 Minutes" program just last Sunday night.

Fourth, provide for a top-to-bottom review of Federal programs to ensure they are all geared toward the preservation of this Nation's defense industrial base; and

Fifth, require the President to conduct a review of foreign efforts to undermine U.S. technological leadership through coordinated acquisitions of U.S. techology firms or industrial espionage.

This legislation is a real step forward in our efforts to shore up U.S. competitiveness in industry and to ensure that our industrial base is capable of providing essential materials to ensure our national security both in peacetime and emergency. The bill has been years in the works, and has improved with age.

At this time, I would like to thank Mr. GONZALEZ, Mr. WYLIE, Mr. RIDGE, and Ms. OAKAR, who was critical in developing this bill as chairwoman of the Economic Stabilization Subcommittee, in the 101st Congress.

Many thanks also to members of the Armed Services, Energy and Commerce, Government Operations, Ways and Means, and Judiciary Committees who participated in this successfull conference.

I urge my colleagues to support this conference report.

Mr. Speaker, I reserve the balance of my time.

Mr. RIDGE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this Defense Production Act bill recognizes the impending world of civilian technology competition rather than military competition. Mr. CARPER has worked hard on this bill. Let me give you some examples. The bill adds a new test that Federal assistance should, as far as possible, go to projects that will have useful life beyond the Federal assistance. Such a policy will encourage dual-use technologies, where the civilian sector will benefit from the creativity of the defense sector.

The bill also directs that all projects receiving DPA assistance will be tested for production if the producer so requests, thus strengthening a link between assistance and marketplace performance. We've got to stress real-world performance at every step.

By passing this legislation, we also recognize the growing interdependence among foreign countries for military materials. A fair and open trade policy does not mean we should be cavalier about protecting our defense needs. This bill therefore requires a better accounting of where this Nation procures its critical defense technologies, and it requires a very important report on the identification of potential vulnerabilities—situations where a foreign adversary could deny this country, directly or indirectly, access to a vital component.

The bill will allow the United States to stockpile critical components that cannot be acquired from domestic producers, and it allows the President some discretion in limiting the production of critical components to domestic manufacturers.

Finally, the bill also puts more faith in the productive capacity and creativity of our small business sector, a sector that generally receives more lip service than legislation.

I thank Mr. CARPER for his perseverance on this bill. For a great long time the fair trade in financial services bill held up the DPA. We worked long and hard on the fair trade bill. This member wanted a fair trade bill, one that increased Treasury's leverage on target countries denying U.S. firms access without harmfully diffusing the power of the trade representative. I deeply regret that we never found the formula to allow that policy to become law. We will try again in the future.

Mr. Speaker, this Defense Production Act has been long in coming, and I commend it to my peers.

Mr. CARPER. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I congratulate the chairman for a terrific job.

Mr. Speaker, I rise in support of the conference report on S. 347, the Defense Production Act Amendments of 1992. I'd like to thank Chairman CARPER of the Economic Stabilization Subcommittee for his able leadership in getting this legislation to the floor. As former chair of this subcommittee from 1986 to 1990, I take special pride in seeing this legislation come to fruition as a result of the extensive series of hearings and passage of a DPA bill in the previous Congress. This legislation will enable us to establish and sustain an industrial base that not only meets our defense needs but also our peacetime requirements.

S. 347 reflects both an awareness and consensus that statutory authority is essential to maintaining our country's military and industrial readiness to respond to crisis situations without having to depend on uncertain foreign sources of critical defense components. The Persian Gulf conflict is only the most recent evidence of the compelling necessity for keeping our industrial base self-sufficient and self-sustaining. Indeed, it is neither hyperbole nor exaggeration to say that ensuring the integrity and the independence of our domestic defense supplies is vital to the long-term security of our Nation.

The testimony given to the Congress during the past several years has dramatized in vivid detail the urgent need to encourage and assist the domestic production of materials that are critical to our defense requirements. Since my first days in Congress, I have argued strenuously and steadfastly for protection of our metal fastener industry in the interest of our Nation's security. Metal fasteners and machine tools are an essential component of many kinds of defense articles. This bill, for example, would benefit my own State of Ohio, which has an important metal fastener and machine tool industry and which is the ninth largest defense contractor, with $5 billion in defense contracts.

What gives this bill its real clout is the information system it sets up to perform production base analysis, with the ability to identify potential production-stopping conditions, such as dependence on foreign sources.

The legislation before us this evening would help American makers of defense-critical components to reclaim their lost share of the domestic market by enacting the statutory authority to modernize, strengthen, and secure the permanent productive capacity of our defense-industrial base. A vote in favor of this legislation is truly a vote in favor of assuring the ready availability, in times of international crisis or national emergency, of essential materials that serve the strategic and national security needs of our country.

I urge my colleagues to support this legislation.

Mr. RIDGE. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio [Mr. WYLIE].

Mr. WYLIE. Mr. Speaker, I include my statement in the RECORD at this point.

I would call attention to one provision in here which all the Members would want to brag about, and that is the fact that the conference report would prohibit the use of any funds being used under this act to hire a contractor that has fraudulently used a Made in the USA label. I support this.

If people feel a desire to buy American, it should be the real thing, not a fake.

Mr. RIDGE. Mr. Speaker, I say to my colleagues there are a variety of reasons to support this conference report. You know them all.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CARPER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the conference report.

There was no objection.

The conference report was agreed to.

A motion to reconsider was laid on the table.

FEDERALLY SUPPORTED HEALTH CENTERS ASSISTANCE ACT OF 1992

Mr. FRANK of Massachusetts. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary and the Committee on Energy and Commerce be discharged from further consideration of the bill (H.R. 6183) to amend the Public Health Service Act to provide protections from legal liability for certain health care professionals providing services pursuant to such act, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

Mr. GEKAS. Mr. Speaker, reserving the right to object, I would ask the gentleman from Massachusetts [Mr. FRANK] if he would explain to the body the procedure that leads to this request.

Mr. FRANK of Massachusetts. Mr. Speaker, will the gentleman yield?

Mr. GEKAS. Further reserving the right to object, I am happy to yield to the gentleman from Massachusetts.

Mr. FRANK of Massachusetts. Mr. Speaker, this is a bill only very slightly altered from one we passed on suspension unanimously a couple of weeks ago cosponsored by the gentleman from Oregon [Mr. WYDEN] and the gentlewoman from Connecticut [Mrs. JOHNSON] and others.

It essentially allows neighborhood health centers to use part of their appropriation at no additional cost to be covered under the Federal Court Claims Act, obviating the need for them to spend millions of dollars a year on private malpractice insurance.

□ 0450

We have tried to work out with the esteemed, distinguished, estimable Senate how to do this and, having passed it once and sent it to them, we now have to pass it again and send it to them to give that very distinguished, eminent legislative body a chance to get it right the second time.

Mr. GEKAS. Mr. Speaker, further reserving the right to object, I simply want to state that indeed this body has already registered its approval of this measure. I want to thank Ray Smeitanka, of our staff, for bringing us up to date on all of this.

Mr. Speaker, I withdraw my reservation of objection and ask that the bill be passed.

The SPEAKER pro tempore. (Mr. SKAGGS). Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The Clerk read the bill, as follows:

H.R. 6183

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federally Supported Health Centers Assistance Act of 1992".

SEC. 2. LIABILITY PROTECTIONS FOR CERTAIN HEALTH CARE PROFESSIONALS.

(a) IN GENERAL.—Section 224 of the Public Health Service Act (42 U.S.C. 233) is amended by adding at the end the following new subsection:

"(g)(1) For purposes of this section, an entity described in paragraph (4) and any officer, employee, or contractor (subject to paragraph (5)) of such an entity who is a physician or other licensed or certified health care partitioner shall be deemed to be an employee of the Public Health Service for a calendar year that begins during a fiscal year for which a transfer of the full amount estimated under subsection (k)(1)(A) was made under subsection (k)(3) (subject to paragraph (3)). The remedy against the United States for an entity described in paragraph (4) and any officer, employee, or contractor (subject to paragraph (5)) of such an entity who is deemed to be an employee of the Public Health Service pursuant to this paragraph, shall be exclusive of any other civil action or proceeding to the same extent as the remedy against the United States is exclusive pursuant to subsection (a).

"(2) If, with respect to an entity or person deemed to be an employee for purposes of paragraph (1), a cause of action is instituted against the United States pursuant to this section, any claim of the entity or person for benefits under an insurance policy with respect to medical malpractice relating to such cause of action shall be subrogated to the United States.

"(3) This subsection shall apply with respect to a cause of action arising from an act or omission which occurs on or after January 1, 1993. This subsection shall not apply with respect to a cause of action arising from an act or omission which occurs on or after January 1, 1996.

"(4) An entity described in this paragraph is a public or non-profit private entity receiving Federal funds under any of the following grant programs:

"(A) Section 329 (relating to grants for migrant health centers).

"(B) Section 330 (relating to grants for community health centers).

"(C) Section 340 (relating to grants for health services for the homeless).

"(D) Section 340A (relating to grants for health services for residents of public housing).

"(5) For purposes of paragraph (1), an individual may be considered a contractor of an entity described in paragraph (4) only if—

"(A) the individual normally performs on average at least 32½ hours of service per week for the entity for the period of the contract; or

"(B) in the case of an individual who normally performs on average less than 32½ hours of services per week for the entity for the period of the contract and is a licensed or certified provider of obstetrical services—

"(i) the individual's medical malpractice liability insurance coverage does not extend to services performed by the individual for the entity under the contract, or

"(ii) the Secretary finds that patients to whom the entity furnishes services will be deprived of obstetrical services if such individual is not considered a contractor of the entity for purposes of paragraph (1)."

(b) Requirement of Appropriate Polices and Procedures Regarding Health Care Professionals.—Section 224 of the Public Health Service Act, as amended by subsection (a), is further amendment by adding at the end the following new subsection

"(h) Nothwithstanding subsection (g)(1), the Secretary, in consultation with the Attorney General, may not deem an entity described in subsection (g)(4) to be an employee of the Public Health Service Act for purposes of this section unless the entity—

"(1) has implemented appropriate policies and procedures to reduce the risk of malpractice and the risk of lawsuits arising out of any health or health-related functions performed by the entity;

"(2) has reviewed and verified the professional credentials, references, claims history, fitness, professional review organization findings, and license status of its physicians and other licensed or certified health care practitioners, and, where necessary, has obtained the permission from these individuals to gain access to this information;

"(3) has no history of claims having been filed against the United States as a result of the application of this section to the entity or its officers, employees, or contractors as provided for under this section, or, if such a history exists, has fully cooperated with the Attorney General in defending against any such claims and either has taken, or will take, any necessary corrective steps to assure against such claims in the future; and

"(4) has fully cooperated with the Attorney General in providing information relating to an estimate described under subsection (k).".

(c) Authorization for the Attorney General To Exclude Certain Health Care Professionals From Coverage.—Section 224 of the Public Health Service Act, as amended by subsections (a) and (b), is further amended by adding at the end the following new subsection:

"(i)(1) Notwithstanding subsection (g)(1), the Attorney General, in consultation with the Secretary, may determine, after notice and opportunity for a hearing, that an individual physician or other licensed or certified health care practitioner who is an officer, employee, or contractor of an entity described in subsection (g)(4) shall not be deemed to be an employee of the Public Health Service for purposes of this section, if treating such individual as such an employee would expose the Government to an unreasonably high degree of risk of loss because such individual—

"(A) does not comply with the policies and procedures that the entity has implemented pursuant to subsection (h)(1);

"(B) has a history of claims filed against him or her as provided for under this section that is outside the norm for licensed or certified health care practitiones within the same specialty;

"(C) refused to reasonably cooperate with the Attorney General in defending against any such claim;

"(D) provided false information relevant to the individual's performance of his or her duties to the Secretary, the Attorney General, or an applicant for or recipient of funds under this Act, or

"(E) was the subject of disciplinary action taken by a State medical licensing authority or a State or national professional society.

"(2) A final determination by the Attorney General under this subsection that an individual physician or other licensed or certified health care professional shall not be deemed to be an employee of the Public Health Service shall be effective upon receipt by the entity employing such individual of notice of such determination, and shall apply only to acts or omissions occurring after the date such notice is received.".

SEC. 3. HOSPITAL ADMITTING PRIVILEGES FOR CERTAIN HEALTH CARE PROVIDERS.

Section 224 of the Public Health Service Act, as amended by section 2, is further amended by adding at the end the following new subsection:

"(j) In the case of a health care provider who is an officer, employee, or contractor of an entity described in subsection (g)(4), section 335(a) shall apply with respect to the provider to the same extent and in the same manner as such section applies to any member of the National Health Service Corps.".

SEC. 4. PAYMENTS OF JUDGMENTS.

Section 224 of the Public Health Service Act, as amended by sections 2 and 3, is further amended by adding at the end the following new subsection:

"(k)(1)(A) For each of the fiscal years 1993, 1994, and 1995, the Attorney General, in consultation with the Secretary, shall estimate by the beginning of the year (except that an estimate shall be made for fiscal year 1993 by December 31, 1992, subject to an adjustment within 90 days thereafter) the amount of all claims which are expected to arise under this section (together with related fees and expenses of witnesses) for which payment is expected to be made in accordance with section 1346 and chapter 171 of title 28, United States Code, from the acts or omissions, during the calendar year that begins during that fiscal year, of entities described in subsection (g)(4) and of officers, employees, or contractors (subject to subsection (g)(5) of such entities.

"(B) The estimate under subparagraph (A) shall take into account—

"(i) the value and frequency of all claims for damage for personal injury, including death, resulting from the performance of medical, surgical, dental, or related functions by entities described in subsection (g)(4) or by officers, employees, or contractors (subject to subsection (g)(5)) of such entities who are deemed to be employees of the Public Health Service under subsection (g)(1) that, during the preceding 5-year period, are filed under this section or, with respect to years occurring before this subsection takes effect, are filed against persons other than the United States,

"(ii) the amounts paid during that 5-year period on all claims described in clause (i), regardless of when such claims were filed, adjusted to reflect payments which would not be permitted under section 1346 and chapter 171 of title 28, United States Code, and

"(iii) amounts in the fund established under paragraph (2) but unspent from prior fiscal years.

"(2) Subject to appropriations, for each of the fiscal years 1993, 1994, and 1995, the Secretary shall establish a fund of an amount equal to the amount estimated under paragraph (1) that is attributable to entities receiving funds under each of the grant programs described in paragraph (4) of subsection (g), but not to exceed a total of $30,000,000 for each such fiscal year.

"(3) In order for payments to be made for judgments against the United States (together with related fees and expenses of witnesses) pursuant to this section arising from the acts or omissions of entities described in subsection (g)(4) and of officers, employees, or contractors (subject to subsection (g)(5)) of such entities, the total amount contained within the fund established by the Secretary under paragraph (2) for a fiscal year shall be transferred not later than December 31 that occurs during the fiscal year to the appropriate accounts in the Treasury.".

SEC. 5. REPORT ON RISK EXPOSURE OF COVERED ENTITIES.

(a) In General.—Not later than April 1, 1995, the Attorney General, in consultation with the Secretary of Health and Human Services (hereafter referred to as the "Secretary"), shall submit a report to Congress on the medical malpractice liability claims experience of entities subject to section 224(g) of the Public Health Service Act (as added by section 3(a)) and the risk exposure associated with such entities.

(b) Effect of Liability Protections on Costs Incurred by Covered Entities.—The Attorney General's report under subsection (a) shall include an analysis by the Secretary comparing—

(1) the Secretary's estimate of the aggregate amounts that such entities (together

with the officers, employees, and contractors of such entities who are subject to section 224(g) of such Act) would have directly or indirectly paid to obtain medical malpractice liability insurance coverage had section 224(g) of the Public Health Service Act not been enacted into law, with

(2) the aggregate amounts by which the grants received by such entities under the Public Health Service Act were reduced as a result of the enactment of section 224(k)(2) of such Act.

SEC. 6. EFFECTIVE DATE.

The amendments made by this Act shall take effect on the date of the enactment of this Act.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

SUPPLEMENTAL COMPACT BETWEEN THE COMMONWEALTH OF PENNSYLVANIA AND THE STATE OF NEW JERSEY

Mr. FRANK of Massachusetts. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2964) granting the consent of the Congress to a supplemental compact or agreement between the Commonwealth of Pennsylvania and the State of New Jersey concerning the Delaware River Port Authority and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

Mr. GEKAS. Mr. Speaker, reserving the right to object, I ask the gentleman from Massachusetts [Mr. FRANK] to detail the contents of this legislation.

Mr. FRANK of Massachusetts. I thank the gentleman for yielding.

Mr. Speaker, we did this one, again, 2 weeks ago and, again, we have to give the Senate a second chance. This is a compact between the State of New Jersey and the Commonwealth of Pennsylvania. We have to ratify compacts.

They made a compact, we have to ratify it. And that is what this is.

Mr. GEKAS. Mr. Speaker, I withdraw my reservation of objection and ask for a unanimous vote in favor of the legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2964

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Congress consents to a supplemental compact or agreement between The Commonwealth of Pennsylvania and the State of New Jersey amending articles I, II, III, IV, XII, and XIII of the compact or agreement between the Commonwealth of Pennsylvania and the State of New Jersey entitled "Agreement Between The Commonwealth of Pennsylvania and The State of New Jersey creating the Delaware River Joint Commission as a body corporate and politic and defining its powers and duties". The supplemental compact or agreement is substantially as follows:

(1) Article I of the "Agreement Between The Commonwealth of Pennsylvania and The State of New Jersey creating the Delaware River Joint Commission as a body corporate and politic and defining its powers and duties", as amended and supplemented, is amended to read as follows:

"The body corporate and politic, heretofore created and known as the Delaware River Joint Commission hereby is continued under the name of the Delaware River Port Authority (hereinafter in this agreement called the 'commission'), which shall constitute the public corporate instrumentality of the Commonwealth of Pennsylvania and the State of New Jersey for the following public purposes, and which shall be deemed to be exercising an essential governmental function in effectuating such purposes, to wit:

"(a) The operation and maintenance of the bridge, owned jointly by the 2 States, across the Delaware River between the city of Philadelphia in the Commonwealth of Pennsylvania and the city of Camden in the State of New Jersey, including its approaches, and the making of additions and improvements thereto.

"(b) The effectuation, establishment, construction, acquisition, operation, and maintenance of railroad or other facilities for the transportation of passengers across any bridge or tunnel owned or controlled by the commission, including extensions of such railroad or other facilities necessary for efficient operation in the Port District.

"(c) The improvement and development of the Port District for port purposes by or through the acquisition, construction, maintenance, or operation of any and all projects for the improvement and development of the Port District for port purposes, or directly related thereto, either directly by purchase, lease, or contract, or by lease or agreement with any other public or private body or corporation or in any other manner.

"(d) Co-operation with all other bodies interested or concerned with, or affected by the promotion, development or use of the Delaware River and the Port District.

"(e) The procurement from the Government of the United States of any consents which may be requisite to enable any project within its powers to be carried forward.

"(f) The construction, acquisition, operation and maintenance of other bridges and tunnels across or under the Delaware River, between the city of Philadelphia or the county of Delaware in the Commonwealth of Pennsylvania and the State of New Jersey, including approaches and the making of additions and improvements thereto.

"(g) The promotion as a highway of commerce of the Delaware River, and the promotion of increased passenger and freight commerce on the Delaware River and for such purpose the publication of literature and the adoption of any other means as may be deemed appropriate.

"(h) To study and make recommendations to the proper authorities for the improvement of terminal, lighterage, wharfage, warehouse and other facilities necessary for the promotion of commerce on the Delaware River.

"(i) Institution through its counsel, or such other counsel as it shall designate, or intervention in, any litigation involving rates, preferences, rebates, or other matters vital to the interest of the Port District; provided, that notice of any such institution of or intervention in litigation shall be given promptly to the Attorney General of the Commonwealth of Pennsylvania and to the Attorney General of the State of New Jersey, and provision for such notices shall be made in a resolution authorizing any such intervention or litigation and shall be incorporated in the minutes of the commission.

"(j) The establishment, maintenance, rehabilitation, construction and operation of a rapid transit system for the transportation of passengers, express mail, and baggage, or any of them, between points in New Jersey within the Port District and points in Pennsylvania within the Port District, and intermediate points. Such system may be established either by utilizing existing rapid transit systems, railroad facilities, highways, and bridges within the territory involved or by the construction or provision of new rail facilities where deemed necessary, and may be established either directly by purchase, lease, or contract, or by lease or agreement with any other public or private body or corporation, or in any other manner.

"(k) The performance of such other functions which may be of mutual benefit to the Commonwealth of Pennsylvania and the State of New Jersey insofar as concerns the promotion and development of the Port District for port purposes and the use of its facilities by commercial vessels.

"(l) The performance or effectuation of such additional bridge, tunnel, railroad, rapid transit, transportation, transportation facility, terminal, terminal facility, and port improvement and development purposes within the Port District as may hereafter be delegated to or imposed upon it by the action of either State concurred in by legislation of the other.

"(m) The unification of the ports of the Delaware River through (i) the acquisition or taking control of any terminal, terminal facility, transportation facility or marine terminal or port facility or associated property within the Port District through purchase, lease, or otherwise, or by the acquisition, merger, becoming the successor to or entering into contracts, agreements, or partnerships with any other port corporation, port authority, or port related entity which is located within the Port District, all in accordance with the applicable laws of the State in which the facility, corporation, or authority is located; (ii) the exercise of the other powers granted by this compact; or (iii) the establishment (whether solely or jointly with any other entity or entities) of such subsidiary corporation or corporations or maritime or port advisory committees as may be necessary or desirable to effectuate this purpose.

"(n) The planning, financing, development, acquisition, construction, purchase, lease, maintenance, marketing, improvement and operation of any project, including but not limited to any terminal, terminal facility, transportation facility, or any other facility of commerce or economic development activity; from funds available after appropriate allocation for maintenance of bridge and other capital facilities.".

(2) Article II of the agreement is amended to read as follows:

"The commission shall consist of sixteen commissioners, eight resident voters of the Commonwealth of Pennsylvania and eight resident voters of the State of New Jersey, who shall serve without compensation.

"The commissioners for the State of New Jersey shall be appointed by the Governor of New Jersey with the advice and consent of the Senate of New Jersey, for terms of five years, and in case of a vacancy occurring in the office of commissioner during a recess of the Legislature, it may be filled by the Governor by an ad interim appointment which shall expire at the end of the next regular session of the Senate unless a successor shall be sooner appointed and qualify and, after the end of the session, no ad interim appointment to the same vacancy shall be made unless the Governor shall have submitted to the Senate a nomination to the office during the session and the Senate shall have adjourned without confirming or rejecting it, and no person nominated for any such vacancy shall be eligible for an ad interim appointment to such office if the nomination shall have failed of confirmation by the Senate.

"Six of the eight commissioners for the Commonwealth of Pennsylvania shall be appointed by the Governor of Pennsylvania for terms of five years. The Auditor General and the State Treasurer of said Commonwealth shall be ex officio commissioners for said Commonwealth, each having the privilege of appointing a representative to serve in his place at a meeting of the commission which he does not attend personally. Any commissioner who is an elected public official shall have the privilege of appointing a representative to serve and act in his place at any meeting of the commission which he does not attend personally.

"All commissioners shall continue to hold office after the expiration of the terms for which they are appointed or elected until their respective successors are appointed and qualify, but a period during which any commissioner shall hold over shall be deemed to be an extension of his term of office for the purpose of computing the date on which his successor's term expires.".

(3) Article III of the agreement is amended to read as follows:

"The commissioners shall have charge of the commission's property and affairs and shall for the purpose of doing business constitute a board, but no action of the commissioners shall be binding unless a majority of the members of the commission from Pennsylvania and a majority of the members of the commission from New Jersey shall vote in favor thereof.

"Notwithstanding the above, each State reserves the right to provide by law for the exercise of a veto power by the Governor of that State over any action of any commissioner from that State at any time within 10 days (Saturdays, Sundays, and public holidays in the particular State excepted) after receipt at the Governor's office of a certified copy of the minutes of the meeting at which such vote was taken. Each State may provide by law for the manner of delivery of such minutes, and for notification of the action thereon.".

(4) Article IV of the agreement is amended to read as follows:

"For the effectuation of its authorized purposes the commission is hereby granted the following powers:

"(a) To have perpetual succession.

"(b) To sue and be sued.

"(c) To adopt and use an official seal.

"(d) To elect a chairman, vice-chairman, secretary, and treasurer, and to adopt suitable bylaws for the management of its affairs. The secretary and treasurer need not be members of the commission.

"(e) To appoint, hire, or employ counsel and such other officers and such agents and employees as it may require for the performance of its duties, by contract or otherwise, and fix and determine their qualifications, duties, and compensation.

"(f) To enter into contracts.

"(g) To acquire, own, hire, use, operate, and dispose of personal property.

"(h) To acquire, own, use, lease, operate, mortgage, and dispose of real property and interests in real property, and to make improvements thereon.

"(i) To grant by franchise, lease, or otherwise, the use of any property or facility owned or controlled by the commission and to make charges therefor.

"(j) To borrow money upon its bonds or other obligations, either with or without security, and to make, enter into, and perform any and all such covenants and agreements with the holders of such bonds or other obligations as the commission may determine to be necessary or desirable for the security and payment thereof, including without limitation of the foregoing, covenants and agreements as to the management and operation of any property or facility owned or controlled by it, the tolls, rents, rates, or other charges to be established, levied, made, and collected for any use of any such property or facility, or the application, use, and disposition of the proceeds of any bonds or other obligations of the commission or the proceeds of any such tolls, rents, rates, or other charges or any other revenues or moneys of the commission.

"(k) To exercise the right of eminent domain within the Port District.

"(l) To determine the exact location, system, and character of and all other matters in connection with any and all improvements or facilities which it may be authorized to own, construct, establish, effectuate, operate, or control.

"(m) In addition to the foregoing, to exercise the powers, duties, authority, and jurisdiction heretofore conferred and imposed upon the aforesaid the Delaware River Joint Commission by the Commonwealth of Pennsylvania or the State of New Jersey, or both of the said 2 States.

"(n) To exercise all other powers not inconsistent with the constitutions of the 2 States or of the United States, which may be reasonably necessary or incidental to the effectuation of its authorized purposes or to the exercise of any of the foregoing powers, except the power to levy taxes or assessments, and generally to exercise in connection with its property and affairs, and in connection with property within its control, any and all powers which might be exercised by a natural person or a private corporation in connection with similar property and affairs.

"(o) To acquire, purchase, construct, lease, operate, maintain, and undertake any project, including any terminal, terminal facility, transportation facility, or any other facility of commerce and to make charges for the use thereof.

"(p) To make expenditures anywhere in the United States and foreign countries, to pay commissions, and hire or contract with experts or consultants, and otherwise to do indirectly anything which the commission may do directly.

"(q) To establish 1 or more operating divisions as deemed necessary to exercise the power and effectuate the purposes of this agreement.

"The commission shall also have such additional powers as may hereafter be delegated to or imposed upon it from time to time by the action of either State concurred in by legislation of the other.

"It is the policy and intent of the Legislature of the Commonwealth of Pennsylvania and the State of New Jersey that the powers granted by this article shall be so exercised that the American system of free competitive private enterprise is given full consideration and is maintained and furthered. In making its reports and recommendations to the Legislatures of the Commonwealth of Pennsylvania and the State of New Jersey on the need for any facility or project which the commission believes should be undertaken for the promotion and development of the Port District, the commission shall include therein its findings which fully set forth that the facility or facilities operated by private enterprise within the Port District and which it is intended shall be supplanted or added to are not adequate.".

(5) Article XII of the agreement is amended to read as follows:

"The Commission shall, within 90 days after the end of each fiscal year, submit to the Governors and Legislatures of the Commonwealth of Pennsylvania and the State of New Jersey a complete and detailed report of the following:

"(1) its operations and accomplishments during the completed fiscal year;

"(2) its receipts and disbursements or revenues and expenses during that year in accordance with the categories and classifications established by the commission for its own operating and capital outlay purposes;

"(3) its assets and liabilities at the end of the fiscal year, including the status of reserve, depreciation, special or other funds including debits and credits of these funds;

"(4) a schedule of bonds and notes outstanding at the end of the fiscal year;

"(5) a list of all contracts exceeding $100,000 entered into during the fiscal year;

"(6) a business or strategic plan for the commission and for each of its operating divisions; and

"(7) a five year capital plan.

"Not less than once every five years, the commission shall cause a management audit of its operational effectiveness and efficiency to be conducted by an independent consulting firm selected by the commission. The first management audit to be conducted shall commence within 3 years of the date of coming into force of the supplemental compact or agreement authorized by this 1991 amendatory act. This audit is in addition to any other audit which the commission determines to conduct from time to time.

"The commission shall, not later than 2 years after the date of the coming into force of the supplemental compact or agreement authorized by this 1991 amendatory act, prepare a comprehensive master plan for the development of the Port District. The plan shall include, but not be limited to, plans for the construction, financing, development, reconstruction, purchase, lease, improvement, and operation of any terminal, terminal facility, transportation facility or any other facility of commerce or economic development activity. The master plan shall include the general location of such projects and facilities as may be included in the master plan and shall to the maximum extent practicable include, but not be limited to, a general description of each such project and facility, the land use requirements necessary therefor, and estimates of project costs and of a schedule for commencement of each such project. Prior to adopting such master plan, the commission shall give written notice to, afford a reasonable opportunity for comment, consult with and consider any recommendations from States, county and municipal government, as well as commissions, public corporations and authorities, and the private sector. The commission may modify or change any part of the plan in the same form and manner as provided for the adoption of the original plan. At the time the commission authorizes any project or facility, the commission shall promptly provide to the Governor and Legislature of each State a detailed report on the project including its status within the master plan. The commission shall include within the authorization a status of the project or facility in the master plan and any amendment thereof, and no project shall be authorized if not included in the master plan or amendment thereof. Any project which has been commenced and approved by the commission prior to the adoption of the master plan shall be included, for informational purposes only, in the master plan. The commission shall provide notice of such on-going projects to those States, county and municipal governments, as well as entities in the private sector who would be entitled to such notice had the project not been commenced in anticipation of adopting the master plan, but there shall be no requirement that the project be delayed or deferred due to these provisions.

"In addition to other powers conferred upon it, and not in limitation thereof, the commission may acquire all right, title and interest in and to the Tacony-Palmyra bridge, across the Delaware River at Palmyra, New Jersey, together with any approaches and interests in real property necessary thereto. The acquisition of such bridge, approaches and interests by the commission shall be by purchase or by condemnation in accordance with the provisions of the Federal law consenting to or authorizing the construction of such bridge or approaches, or the acquisition of such bridge, approaches or interests by the commission shall be pursuant to and in accordance with the provisions of section 48:5–22 and 48:5–23 of the Revised Statutes of New Jersey, and for all the purposes of said provisions and sections the commission is hereby appointed as the agency of the State of New Jersey and the Commonwealth of Pennsylvania exercising the rights and powers granted or reserved by said Federal law or sections to the State of New Jersey and Commonwealth of Pennsylvania jointly or to the State of New Jersey acting in conjunction with the Commonwealth of Pennsylvania. The commission shall have authority to so acquire such bridge, approaches and interests, whether the same be owned, held, operated or maintained by any private person, firm, partnership, company, association or corporation or by any instrumentality, public body, commission, public agency or political subdivision (including any county or municipality) of, or created by or in, the State of New Jersey or the Commonwealth of Pennsylvania, or by any instrumentality, public body, commission, or public agency of, or created by or in, a political subdivision (including any county or municipality) of the State of New Jersey or the Commonwealth of Pennsylvania. None of the provisions of the preceding paragraph shall be applicable with respect to the acquisition by the commission, pursuant to this paragraph, of said Tacony-Palmyra bridge, approaches and interests. The power and authority herein granted to the commission to acquire said Tacony-Palmyra bridge, approaches and interests shall not be exercised unless and until the Governor of the State of New Jersey and the Governor of the Commonwealth of Pennsylvania have filed with the commission their written consents to such acquisition.

"Notwithstanding any provision of this agreement, nothing herein contained shall be construed to limit or impair any right or power granted or to be granted to the Pennsylvania Turnpike Commission or the New Jersey Turnpike Authority, to finance, construct, operate, and maintain the Pennsylvania Turnpike System or any turnpike project of the New Jersey Turnpike Authority, respectively, throughout the Port District, including the right and power, acting alone or in conjunction with each other, to provide for the financing, construction, operation, and maintenance of one bridge across the Delaware River south of the city of Trenton in the State of New Jersey; provided that such bridge shall not be constructed within a distance of 10 miles, measured along the boundary line between the Commonwealth of Pennsylvania and the State of New Jersey, from the existing bridge, operated and maintained by the commission, across the Delaware River between the city of Philadelphia in the Commonwealth of Pennsylvania and the city of Camden in the State of New Jersey, so long as there are any outstanding bonds or other securities or obligations of the commission for which the tolls, rents, rates, or other revenues, or any part thereof, of said existing bridge shall have been pledged. Nothing contained in this agreement shall be construed to authorize the commission to condemn any such bridge.

"Anything herein contained to the contrary notwithstanding, no bridge or tunnel shall be constructed, acquired, operated, or maintained by the commission across or under the Delaware River north of the boundary line between Bucks County and Philadelphia county in the Commonwealth of Pennsylvania as extended across the Delaware River to the New Jersey shore of said river, and any new bridge or tunnel authorized by or pursuant to this compact or agreement to be constructed or erected by the commission may be constructed or erected at any location south of said boundary line notwithstanding the terms and provisions of any other agreement between the Commonwealth of Pennsylvania and the State of New Jersey. Except as may hereafter be otherwise provided in conformity with Article IX hereof with respect to specific properties designated by action of the Legislatures of both of the signatory States, no property or facility owned or controlled by the commission shall be acquired from it by any exercise of powers of condemnation or eminent domain.".

(6) Article XIII of the agreement is amended to read as follows:

"As used herein, unless a different meaning clearly appears from the context:

" 'Port District' shall mean all the territory within the counties of Bucks, Chester, Delaware, Montgomery, and Philadelphia in Pennsylvania, and all the territory within the counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Ocean, and Salem in New Jersey.

" 'Commission' shall mean the Delaware River Port Authority and, when required by the context, the board constituting the governing body thereof in charge of its property and affairs.

" 'Commissioner' shall mean a member of the governing body of the Delaware River Port Authority.

" 'Economic development activity' or 'economic development' means any structure or facility or any development within the Port District in connection with manufacturing, port-oriented development, foreign trade zone site development or research, commercial, industrial, or recreational purposes, or for purposes of warehousing or consumer and supporting services directly relating to any of the foregoing or to any authority project or facility which are required for the sound economic development of the Port District.

" 'Terminal' shall include any marine, motor truck, motorbus, railroad, and air terminal or garage, also any coal, grain, and lumber terminal and any union freight and other terminals used or to be used in connection with the transportation of passengers and freight, and equipment, materials, and supplies therefor.

" 'Transportation facility' and 'facilities for transportation of passengers' shall include railroads operated by steam, electricity, or other power, rapid transit lines, motor trucks, motorbuses, tunnels, bridges, airports, boats, ferries, carfloats, lighters, tugs, floating elevators, barges, scows, or harbor craft of any kind, and aircraft, and equipment, materials, and supplies therefor.

" 'Terminal facility' shall include wharves, piers, slips, berths, ferries, docks, drydocks, ship repair yards, bulkheads, dock walls, basins, carfloats, floatbridges, dredging equipment, radio receiving and sending stations, grain or other storage elevators, warehouses, cold storage, tracks, yards, sheds, switches, connections, overhead appliances, bunker coal, oil, and fresh water stations, markets, and every kind of terminal, storage, or supply facility now in use, or hereafter designed for use to facilitate passenger transportation and for the handling, storage, loading, or unloading of freight at terminals, and equipment, materials, and supplies therefor.

" 'Transportation of passengers' and 'passenger transportation' shall mean the transportation of passengers by railroad or other facilities.

" 'Rapid transit system' shall mean a transit system for the transportation of passengers, express mail, and baggage by railroad or other facilities, and equipment, materials, and supplies therefor.

" 'Project' shall mean any improvement, betterment, facility or structure authorized by or pursuant to this compact or agreement to be constructed, erected, acquired, owned, or controlled or otherwise undertaken by the commission. 'Project' shall not include undertakings for purposes described in Article I, subdivisions (d), (e), (g), (h), and (i).

" 'Railroad' shall include railways, extensions thereof, tunnels, subways, bridges, elevated structures, tracks, poles, wires, conduits, powerhouses, substations, lines for the transmission of power, carbarns, shops, yards, sidings, turnouts, switches, stations, and approaches thereto, cars, and motive equipment.

" 'Bridge' and 'tunnel' shall include such approach highways and interests in real property necessary therefor in the Commonwealth of Pennsylvania or the State of New Jersey as may be determined by the commission to be necessary to facilitate the flow of traffic in the vicinity of a bridge or tunnel or to connect a bridge or tunnel with the highway system or other traffic facilities in said Commonwealth or said State; provided, however, that the power and authority herein granted to the commission to construct new or additional approach highways shall not be exercised unless and until the Department of Transportation of the Commonwealth of Pennsylvania shall have filed with the commission its written approval as to approach highways to be located in said Commonwealth and the State Highway Department of the State of New Jersey shall have filed with the commission its written approval as to approach highways to be located in said State.

" 'Facility' shall include all works, buildings, structures, property, appliances, and equipment, together with appurtenances necessary and convenient for the proper construction, equipment, maintenance, and operation of a facility or facilities or any 1 or more of them.

" 'Personal property' shall include choses in action and all other property now commonly, or legally, defined as personal property, or which may hereafter be so defined.

" 'Lease" shall include rent or hire.

" 'Municipality' shall include a county, city, borough, village, township, town, public agency, public authority, or political subdivision.

"Words importing the singular number include the plural number and vice versa.

"Wherever legislation or action by the Legislature of either signatory State is herein referred to it shall mean an act of the Legislature duly adopted in accordance with the provisions of the Constitution of such State.".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PROVIDING FOR THE SINE DIE ADJOURNMENT OF THE 2D SESSION, 102D CONGRESS

Mr. GEPHARDT. Mr. Speaker, I send to the desk a privileged concurrent resolution (H. Con. Res. 384) and ask unanimous consent for its immediate consideration.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 384

Resolved by the House of Representatives (the Senate concurring), That when the House adjourns on the legislative day of Thursday, October 8, 1992, or Friday, October 9, 1992, pursuant to a motion by the Majority Leader, or his designee, it stand adjourned sine die, and that when the Senate adjourns on the calendar day of Thursday, October 8, 1992, or any day thereafter, pursuant to a motion made by the Majority Leader, or his designee, in accordance with this resolution, it stand adjourned sine die or until noon on the second day after Members are notified to reassemble pursuant to section 2 of this resolution.

SEC. 2. The Speaker of the House and the Majority Leader of the Senate, acting jointly after consultation with the Minority Leader of the House and the Minority Leader of the Senate, shall notify the Members of the House and Senate, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

The SPEAKER. Without objection, the concurrent resolution is agreed to.

There was no objection.

A motion to reconsider was laid on the table.

ADJOURNMENT TO THURSDAY, OCTOBER 8, 1992

Mr. GEPHARDT. I ask unanimous consent that when the House adjourns today it adjourn to meet at noon on Thursday, October 8, 1992.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

VETERANS HEALTH CARE ACT OF 1992

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 5193) to improve the delivery of health-care services to eligible veterans and to clarify the authority of the Secretary of Veterans Affairs with Senate amendments thereto, and concur in the Senate amendments with the amendments that are at the desk.

The Clerk read the title of the bill.

The Clerk read the Senate amendments and the House amendments to the Senate amendments as follows:

Senate amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE; REFERENCE TO TITLE 38.

(a) SHORT TITLE.—This Act may be cited as the "Veterans Health Programs Improvement Act of 1992".

(b) REFERENCES TO TITLE 38.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

TITLE I—NURSE PAY

SEC. 101. REVISION TO NURSE PAY GRADE SCHEDULE.

(a) REVISION.—Section 7404(b)(1) is amended in the matter relating to "NURSE SCHEDULE" by striking out "Director grade." and all that follows through "Entry grade." and inserting in lieu thereof the following:

"Nurse V.
"Nurse IV.
"Nurse III.
"Nurse II.
"Nurse I.".

(b) CONFORMING AMENDMENT.—Section 7451(b) of such title is amended by striking out "four" and inserting in lieu thereof "five".

SEC. 102. AUTHORITY TO ESTABLISH SPECIAL RATES OF PAY FOR EMPLOYEES OF FACILITIES LOCATED OUTSIDE THE CONTIGUOUS UNITED STATES, ALASKA, AND HAWAII.

Section 7451(a)(3) is amended—

(1) by striking out "(3) The rates" and inserting in lieu thereof "(3)(A) Except as provided in subparagraph (B), the rates"; and

(2) by adding at the end the following new subparagraph:

"(B) Under such regulations as the Secretary shall prescribe, the Secretary shall establish and adjust the rates of basic pay for covered positions at the following health-care facilities in order to provide rates that enable the Secretary to recruit and retain sufficient numbers of health-care personnel in such positions at such facilities:

"(i) The Veterans Memorial Medical Center in the Republic of the Philippines.

"(ii) Department of Veterans Affairs health-care facilities located outside the contiguous States, Alaska, and Hawaii.".

SEC. 103. AUTHORITY TO CARRY OUT CERTAIN SURVEYS OF LABOR MARKETS IN DETERMINING RATES OF COMPENSATION OF HEALTH CARE PROFESSIONALS.

Section 7451(d)(3) is amended—

(1) by redesignating subparagraphs (C) and (D) as subparagraphs (E) and (F), respectively; and

(2) by inserting after subparagraph (B) the following new subparagraphs (C) and (D):

"(C) In the event that the director of a Department health-care facility who conducts a survey of beginning rates of compensation for corresponding health-care professionals in the labor-market area of the facility under subparagraph (B) determines (under regulations prescribed by the Secretary) that the size or composition of the labor-market area provides information that is not sufficient to permit the adjustments referred to in that subparagraph for the applicable covered positions, the director may conduct a survey of such rates of compensation in other comparable labor-market areas (as so determined). Any survey under this subparagraph shall be conducted in accordance with the provisions of subparagraph (B).

"(D) In the event that the director of a Department health-care facility who conducts a survey of beginning rates of compensation for certified registered nurse anesthetists in the labor-market area of the facility under subparagraph (B), and, if appropriate, a survey of such rates of compensation for such nurse anesthetists in comparable labor-market areas under subparagraph (C), determines (under regulations prescribed by the Secretary) that neither of the survey methods described in such subparagraphs is sufficient to permit the adjustments referred to in subparagraph (B) for such nurse anesthetists employed by the facility, the director may use data on the beginning rates of compensation paid to certified registered nurse anesthetists who are employed on a salary basis by entities that provide anesthesia services through certified registered nurse anesthetists in the labor-market area. For the purposes of this subparagraph, certified registered nurse anesthetists who are so employed by such entities shall be deemed to be corresponding health-care professionals to the certified registered nurse anesthetists employed by the facility.".

SEC. 104. REVISION OF BASIS FOR CALCULATION OF COMPENSATION OF CORRESPONDING HEALTH CARE POSITIONS.

Section 7451(d)(6)(A)(i) is amended by striking out "established" and inserting in lieu thereof "paid".

SEC. 105. ADJUSTMENT IN GRADE OR STEP OF CERTAIN HEALTH-CARE PROFESSIONALS WHO TRANSFER TO OTHER DEPARTMENT OF VETERANS AFFAIRS FACILITIES.

(a) AUTHORITY TO ADJUST.—Subsection (e) of section 7452 is amended—

(1) by inserting "(1)" after "(e)"; and

(2) by adding at the end the following new paragraph (2):

"(2) The Secretary may establish for an employee referred to in paragraph (1) who transfers upon the request of the Secretary (but not pursuant to a disciplinary action otherwise authorized by law) to a new facility a rate of basic pay that is higher than the rate of basic pay otherwise paid by the new facility to an employee of that grade and step if the Secretary determines that such rate of pay is necessary to recruit the employee for employment in the new facility. Whenever the Secretary exercises the authority under the preceding sentence relating to the rate of basic pay of a transferred employee, the Secretary shall, in the next annual report required under section 7451(g) of this title, provide justification for doing so.".

(b) CONFORMING AMENDMENT.—Section 7451(g) is amended by adding at the end the following new paragraph:

"(9) The justification required by section 7452(e)(2) of this title.".

TITLE II—PREVENTIVE HEALTH CARE

SEC. 201. IMPROVEMENT OF PREVENTIVE HEALTH SERVICES.

(a) In General.—The text of section 1762 is—

(1) transferred to section 1701; and

(2) redesignated as paragraph (9) of such section 1701.

(b) Improvement.—Such paragraph (9) is amended—

(1) by striking out "For the purposes of this subchapter, the term 'preventive health-care services' means" and inserting in lieu thereof "The term 'preventive health services' means";

(2) by redesignating paragraphs (1), (2), (3), (4), (5), (6), (7), (8), (9), (10), and (11) as subparagraphs (A), (B), (C), (D), (E), (F), (G), (H), (I), (J), and (K), respectively; and

(3) by striking out subparagraphs (A) and (B) (as so redesignated) and inserting in lieu thereof the following:

"(A) periodic medical and dental examinations (including screening for high blood pressure, glaucoma, high cholesterol, and colorectal and gender-specific cancers);

"(B) patient health education (including education relating to nutrition, stress management, physical fitness, and stopping smoking);".

(c) Conforming Amendment.—Section 1701(6)(A)(i) is amended by striking out "preventive health-care services as defined in section 1762 of this title," and inserting in lieu thereof "preventive health services,".

(d) Effective Date.—The amendments made by subsections (a), (b), and (c) shall take effect on the date of the enactment of this Act.

SEC. 202. REPEAL OF PILOT PROGRAM.

(a) Repeal.—Subchapter VII of chapter 17 is repealed.

(b) Clerical Amendment.—The table of sections at the beginning of chapter 17 is amended by striking out the matter relating to subchapter VII.

(c) Effective Date.—The amendments made by subsections (a) and (b) shall take effect on the date of the enactment of this Act.

SEC. 203. NATIONAL CENTER FOR PREVENTIVE HEALTH.

(a) Establishment.—(1) Subchapter II of chapter 73 is amended by adding at the end the following new section:

"§7318. National Center for Preventive Health

"(a)(1) The Chief Medical Director shall establish and operate in the Veterans Health Administration a National Center for Preventive Health (hereafter in this section referred to as the 'Center').

"(2) The head of the Center is the Director of Preventive Health (hereafter in this section referred to as the 'Director').

"(3) The Chief Medical Director shall provide the Center with such staff and other support as may be necessary for the Center to carry out effectively its functions under this section.

"(b) The purposes of the Center are as follows:

"(1) To provide a central office for monitoring and encouraging the activities of the Veterans Health Administration with respect to the provision, evaluation, and improvement of preventive health services.

"(2) To promote the expansion and improvement of clinical, research, and educational activities of the Veterans Health Administration with respect to such services.

"(c) In carrying out the purposes of the Center under this section, the Director shall—

"(1) develop and maintain current information on clinical activities of the Veterans Health Administration relating to preventive health services, including activities relating to—

"(A) the on-going provision of regularly-furnished services; and

"(B) patient education and screening programs carried out throughout the Administration;

"(2) develop and maintain detailed current information on research activities of the Veterans Health Administration relating to preventive health services;

"(3) in order to encourage the effective provision of preventive health services by Veterans Health Administration personnel—

"(A) ensure the dissemination to such personnel of any appropriate information on such services that is derived from research carried out by the Administration; and

"(B) acquire and ensure the dissemination to such personnel of any appropriate information on research and clinical practices relating to such services that are carried out by researchers, clinicians, and educators who are not affiliated with the Administration;

"(4) encourage and monitor the implementation within the Veterans Health Administration of the recommendations on preventive health services of the Advisory Committee on Preventive Health Services established under section 7319 of this title;

"(5) ensure transmission to the Advisory Committee of inquiries of the Secretary or the Chief Medical Director, and the responses of the Advisory Committee to such inquiries;

"(6) facilitate the optimal use of the unique resources of the Department for cooperative research into health outcomes by initiating recommendations, and responding to requests of the Chief Medical Director and the Director of the Medical and Prosthetic Research Service, for such research into preventive health services; and

"(7) provide advisory services to personnel of Department health-care facilities with respect to the planning or furnishing of preventive health services by such personnel.

"(d) In this section, the term 'preventive health services' has the meaning given such term in section 1701(9) of this title.".

(2) The table of sections at the beginning of chapter 73 is amended by adding after the item relating to section 7317 the following:

"7318. National Center for Preventive Health.".

(b) Position of Director of Center.—

(1) Position.—Subsection (a) of section 7306 is amended—

(A) by redesignating paragraph (7) as paragraph (8); and

(B) by inserting after paragraph (6) the following new paragraph (7):

"(7) The Director of the National Center for Preventive Health, who shall be responsible to the Chief Medical Director for the operation of the Center.".

(2) Conforming Amendment.—Subsection (c) of such section is amended in the second sentence by striking out "and (4)" and inserting in lieu thereof "(4), and (7)".

(c) Annual Report.—(1) Not later than August 31, 1993, and on an annual basis thereafter, the National Center for Preventive Health established under section 7318 of title 38, United States Code (as added by subsection (a)), shall issue a report on the programs, activities, and findings of the Department of Veterans Affairs on preventive health services during the 12-month period preceding the date of the report to health-care professionals and organizations that have an interest in the provision of such services.

(2) In this subsection, the term 'preventive health services' has the meaning given such term in section 1701(9) of title 38, United States Code (as added by section 201 of this Act).

(d) Authorization of Appropriations.—There is authorized to be appropriated $2,500,000 to the Medical Care General and Special Fund of the Department of Veterans Affairs for each fiscal year after fiscal year 1992 for the purpose of permitting the National Center for Preventive Health established under section 7318 of title 38, United States Code (as added by subsection (a)), to carry out research, clinical, educational, and administrative activities under such section 7318. Such activities shall be deemed to be part of the operation of health-care facilities of the Department without regard to the location at which such activities are carried out.

SEC. 204. ADVISORY COMMITTEE ON PREVENTIVE HEALTH SERVICES.

(a) Establishment.—Subchapter II of chapter 73, as amended by section 203 of this Act, is further amended by inserting after section 7318 the following new section:

"§7319. Preventive Health Services Advisory Committee

"(a) The Secretary shall establish a Preventive Health Services Advisory Committee (hereafter in this section referred to as the 'Committee').

"(b)(1) The membership of the Committee shall be appointed by the Secretary, upon the recommendation of the Chief Medical Director, from individuals who are not employees of the Department, and shall include individuals who are not employees of the Federal Government and who have demonstrated interest and expertise in research, education, and clinical activities related to the provision of preventive health services, and at least one representative of veterans who receive health-care services from the Veterans Health Administration.

"(2) The Secretary, upon the recommendation of the Chief Medical Director, shall invite appropriate representatives of other departments and agencies of the Federal Government to participate in the activities of the Committee.

"(3) The Secretary shall provide the Committee with such staff and other support as may be necessary for the Committee to carry out effectively its functions under this section.

"(c)(1) The Committee shall—

"(A) identify for the Secretary—

"(i) the types of preventive health services that are appropriate for particular groups of veterans; and

"(ii) the areas of inquiry within the field of such services that the Committee determines to be suitable for the pursuit of new or additional clinical research by the Department;

"(B) make recommendations to the Secretary on—

"(i) various means of initiating, enhancing, modifying, or discontinuing the provision of preventive health services by the Department in order to ensure that such groups of veterans are provided with appropriate preventive health services; and

"(ii) various means of ensuring the continued provision of preventive health services by the Department;

"(C) advise the Secretary on general developments in the fields of research and clinical activities related to preventive health services; and

"(D) respond to requests of the Secretary or the Chief Medical Director for information on specific research and clinical activities and ethical matters related to such activities.

"(2) The Committee shall transmit any identifications, recommendations, and advice to the Secretary under subparagraphs (A), (B), and (C) of paragraph (1) through the Chief Medical Director.

"(d)(1) Not later than August 1, 1993, and on an annual basis thereafter, the Committee shall submit to the Secretary a report on the activities of the Committee with respect to the matters referred to in subsection (c)(1) during the 12-month period preceding the date of the report.

"(2) The Committee shall submit to the Secretary, through the Chief Medical Director, such reports in addition to the reports referred to in paragraph (1) as the Committee considers appropriate with respect to the matters referred to in subsection (c)(1). Not later than 90 days

after receipt of a report under this paragraph, the Secretary shall transmit the report, together with the Secretary's comments and recommendations thereon, to the appropriate committees of the Congress.

"(e) In this section, the term 'preventive health services' has the meaning given such term in section 1701(9) of this title.".

(b) Clerical Amendment.—The table of sections at the beginning of chapter 73 is amended by inserting after the item relating to section 7318, as added by section 203 of this Act, the following:

"7319. Preventive Health Services Advisory Committee.".

SEC. 205. REPORTS.

(a) Reports.—Not later than October 31, 1993, and on an annual basis thereafter, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report including the following:

(1) A description of the programs and activities of the Department of Veterans Affairs with respect to preventive health services during the 12-month period preceding the date of the report, including—

(A) the programs conducted by the Department—

(i) to educate veterans with respect to health promotion and disease prevention; and

(ii) to provide veterans with preventive health screenings and other clinical services, with such description setting forth the types of resources used by the Department to conduct such screenings and services and the number of veterans reached by such screenings and services;

(B) the means by which the Secretary addressed the specific preventive health services needs of particular groups of veterans (including veterans with service-connected disabilities, elderly veterans, low-income veterans, women veterans, institutionalized veterans, and veterans who are at risk for mental illness);

(C) the manner in which the provision of such services was coordinated with the activities of the Medical and Prosthetic Research Service of the Department and the National Center for Preventive Health;

(D) the manner in which the provision of such services was integrated into training programs of the Department, including initial and continuing medical training of medical students, residents, and Department staff;

(E) the manner in which the Department participated in cooperative preventive health efforts with other governmental and private entities (including State and local health promotion offices and not-for-profit organizations);

(F) the specific research carried out by the Department with respect to the long-term relationships among screening activities, treatment, and morbidity and mortality outcomes; and

(G) the cost effectiveness of such programs and activities, including an explanation of the means by which the costs and benefits (including the quality of life of veterans who participate in such programs and activities) of such programs and activities are measured.

(2) A specific description of research activities on preventive health services carried out during that period using employees, funds, equipment, office space, or other support services of the Department, with such description setting forth—

(A) the source of funds for such activities;

(B) the articles or publications (including the authors of such articles and publications) in which such activities are described;

(C) the Federal, State, or local governmental entity or private entity, if any, with which such activities were carried out; and

(D) the clinical, research, or staff education projects for which funding applications were submitted (including the source of the funds applied for) and upon which a decision is pending or was denied.

(3) With respect to the Preventive Health Services Advisory Committee established under section 7319 of title 38, United States Code (as added by section 204 of this Act)—

(A) the membership list of the Advisory Committee during the 12-month period preceding the date of the report;

(B) a description of matters referred by the Secretary or the Chief Medical Director of the Department to the Advisory Committee during that period;

(C) the most recent annual report submitted to the Secretary by the head of the Advisory Committee;

(D) the comments and recommendations of the Secretary, after consultation with the Chief Medical Director, with respect to that annual report; and

(E) a description of any activities of the Department to carry out any proposals or recommendations contained in that annual report.

(4) An accounting of the expenditure of funds during that period by the National Center for Preventive Health established under section 7318 of title 38, United States Code (as added by section 204 of this Act).

(b) Definition.—In this section, the term "preventive health services" has the meaning given such term in section 1701(9) of title 38, United States Code (as added by section 201 of this Act).

TITLE III—STATE HOME FACILITIES

SEC. 301. TREATMENT OF COMPENSATION OF VETERANS UNDER CERTAIN REHABILITATIVE SERVICES PROGRAMS.

Section 1718 is amended by adding at the end the following new subsection:

"(g)(1) Neither a veteran's participation in a program of rehabilitative services that is provided as part of the veteran's care furnished by a State home and is approved by the Secretary as conforming appropriately to standards for activities carried out under this section nor a veteran's receipt of payment as a result of such participation may be considered as a basis for the denial or discontinuance of a rating of total disability for purposes of compensation or pension based on the veteran's inability to secure or follow a substantially gainful occupation as a result of disability.

"(2) A payment made to a veteran under a program of rehabilitative services described in paragraph (1) shall be considered for the purposes of chapter 15 of this title to be a donation from a public or private relief or welfare organization.".

SEC. 302. EXTENSION OF PERIOD FOR COMPLETION OF CONDITIONALLY APPROVED APPLICATIONS FOR CONSTRUCTION.

(a) Extension of Period.—Section 8135(b)(6)(A) is amended by striking out "90 days" and inserting in lieu thereof "180 days".

(b) Effective Date.—The amendment made by subsection (a) shall take effect on October 1, 1992, and shall apply to projects conditionally approved on or after that date.

SEC. 303. LIMITED PROHIBITION ON OBLIGATION OF FUNDS FOR RESCINDED PROJECTS.

(a) Prohibition.—Section 8135(b)(6)(B) is amended by adding at the end the following: "In the event the Secretary rescinds conditional approval of a project under this subparagraph, the Secretary may not further obligate funds for the project during the fiscal year in which the Secretary rescinds such approval.".

(b) Effective Date.—The amendment made by subsection (a) shall take effect on October 1, 1992, and shall apply to rescissions made on or after that date.

SEC. 304. COMMENCEMENT DATE FOR RECAPTURE PERIOD.

(a) Commencement Date.—Section 8136 is amended by striking out "within 20 years after completion of any project" and inserting in lieu thereof "within the 20-year period beginning on the date of the approval by the Secretary of the final architectural and engineering inspection of any project".

(b) Technical Amendment.—Such section is further amended by striking out "such facilities cease" and inserting in lieu thereof "the facilities covered by the project cease".

SEC. 305. COMMENCEMENT DATE FOR PAYMENT OF PER DIEM.

Section 1741 is amended by adding at the end the following:

"(e) Subject to section 1743, the payment of per diem for care furnished in a State home facility shall commence on the date of the completion of the inspection for recognition of the facility under section 1742(a) of this title if the Secretary determines, as a result of that inspection, that the State home meets the standards described in such section 1742(a).".

TITLE IV—RURAL HEALTH-CARE CLINICS

SEC. 401. RURAL HEALTH-CARE CLINIC PROGRAM.

(a) Establishment of Program.—Chapter 17 is amended by adding at the end of subchapter II the following new section:

"§1720D. Health care through rural clinics

"(a) During the three-year period beginning on October 1, 1992, the Secretary shall conduct a rural health-care clinic program in States where significant numbers of veterans reside in areas geographically remote from existing health-care facilities (as determined by the Secretary). The Secretary shall conduct the program in accordance with this section.

"(b)(1) In carrying out the rural health-care clinic program, the Secretary shall furnish medical services to the veterans described in subsection (c) through use of—

"(A) mobile health-care clinics equipped, operated, and maintained by personnel of the Department; and

"(B) other types of rural clinics, including part-time stationary clinics for which the Secretary contracts and part-time stationary clinics operated by personnel of the Department.

"(2) The Secretary shall furnish services under the rural health-care clinic program in areas—

"(A) that are more than 100 miles from a Department general health-care facility; and

"(B) that are less than 100 miles from such a facility, if the Secretary determines that the furnishing of such services in such areas is appropriate.

"(c) A veteran eligible to receive medical services through rural health-care clinics under the program is any veteran eligible for medical services under section 1712 of this title.

"(d) The Secretary shall commence operation of at least three rural health-care clinics (at least one of which shall be a mobile health-care clinic) in each fiscal year of the program. The Secretary may not operate more than one mobile health-care clinic under the authority of this section in any State in any such fiscal year.

"(e) Not later than December 31, 1996, the Secretary shall submit to Congress a report containing an evaluation of the program. The report shall include the following:

"(1) A description of the program, including information with respect to—

"(A) the number and type of rural health-care clinics operated under the program;

"(B) the States in which such clinics were operated;

"(C) the medical services furnished under the program, including a detailed specification of the cost of such services;

"(D) the veterans who were furnished services under the program, setting forth (i) the numbers and percentages of the veterans who had service-connected disabilities, (ii) of the veterans

having such disabilities, the numbers and percentages who were furnished care for such disabilities, (iii) the ages of the veterans, (iv) taking into account the veterans' past use of Department health-care facilities, an analysis of the extent to which the veterans would have received medical services from the Department outside the program and the types of services they would have received, and (v) the financial circumstances of the veterans; and

"(E) the types of personnel who furnished services to veterans under the program, including any difficulties in the recruitment or retention of such personnel.

"(2) An assessment by the Secretary of the cost-effectiveness and efficiency of furnishing medical services to veterans through various types of rural clinics (including mobile health-care clinics operated under the pilot program conducted pursuant to section 113 of the Veterans' Benefits and Services Act of 1988 (Public Law 100–322; 38 U.S.C. 1712 note)).

"(3) Any plans for administrative action, and any recommendations for legislation, that the Secretary considers appropriate.

"(f) For the purposes of this section, the term 'Department general health-care facility' has the meaning given such term in section 1712A(i)(2) of this title.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 17 is amended by inserting after the item relating to section 1720C the following new item:

"1720D. Health care through rural clinics.".

(c) AUTHORIZATION OF APPROPRIATIONS.—(1) There is authorized to be appropriated to the Department of Veterans Affairs to carry out the rural health-care clinics program provided for in section 1720D of title 38, United States Code (as added by subsection (a)), the following:

(A) For fiscal year 1993, $3,000,000.

(B) For fiscal year 1994, $6,000,000.

(C) For fiscal year 1995, $9,000,000.

(2) Amounts appropriated pursuant to such authorization may not be used for any other purpose.

(3) No funds may be expended to carry out the rural health-care clinics program provided for in such section 1720D (as so added) unless expressly provided for in an appropriations Act.

TITLE V—TELEPHONE USE DEMONSTRATION PROJECT

SEC. 501. DEMONSTRATION PROJECTS TO EVALUATE TELEPHONES FOR PATIENT USE AT DEPARTMENT HEALTH-CARE FACILITIES.

(a) DEMONSTRATION PROJECTS.—In accordance with this section, the Secretary of Veterans Affairs shall carry out demonstration projects to evaluate the feasibility and desirability of—

(1) the installation of telephones in Department of Veterans Affairs health-care facilities; and

(2) the use of such telephones by the patients of such health-care facilities.

(b) DEMONSTRATION FACILITIES.—The Secretary shall carry out a demonstration project under this section at the following Department health-care facilities:

(1) Philadelphia Department of Veterans Affairs Medical Center, Philadelphia, Pennsylvania.

(2) Tucson Department of Veterans Affairs Medical Center, Tucson, Arizona.

(c) PROJECT ACTIVITIES.—(1) In carrying out a demonstration project under this section at a facility referred to in subsection (b), the Secretary shall—

(A) install and maintain telephones of an appropriate number and type (as determined by the Secretary) in patient rooms of the facility; and

(B) subject to paragraph (2), provide for the use of such telephones by patients who are assigned to such rooms while receiving care at the facility.

(2) The Secretary shall ensure that patients who use telephones pursuant to paragraph (1)(B) shall bear financial responsibility for the cost of any long-distance telephone calls made during such use.

(d) PROJECT EVALUATION.—In evaluating the feasibility and desirability of the installation and use of the telephones referred to in subsection (c), the Secretary shall determine—

(1) the cost to each health-care facility referred to in subsection (b) of the installation, use, and maintenance of such telephones, including—

(A) the cost to the facility of such installation, use, and maintenance;

(B) the amount of any savings which accrue to the facility by reason of such installation and use (including the amount of any savings that result from a decrease in the amount of assistance in using telephones that the staff of the facility would otherwise provide to patients); and

(C) any costs that result from the necessity of providing special telephones or other special equipment to facilitate the use of telephones by disabled veterans (including veterans who are receiving long term psychiatric care or nursing care or who are blind or hearing impaired); and

(2) the impact of the use of such telephones on the therapeutic course of veterans who receive care at the facility, including the veterans referred to in paragraph (1)(C).

(e) REPORT.—Not later than September 30, 1994, the Secretary shall submit to the Committee on Veterans' Affairs of the Senate and the Committee on Veterans' Affairs of the House of Representatives a report containing—

(1) the determinations of the Secretary under subsection (d);

(2) an assessment by the Secretary of the feasibility and desirability of providing telephones for patients in other health-care facilities of the Department; and

(3) any additional information and recommendations with respect to the provision and use of patient telephones at Department health-care facilities as the Secretary considers appropriate.

TITLE VI—PROCUREMENT OF PHARMACEUTICALS

SEC. 601. SHORT TITLE.

This title may be cited as the "Federal Health Programs Pharmaceutical Pricing Act of 1992".

SEC. 602. MASTER AGREEMENTS WITH GENERAL SERVICES ADMINISTRATION.

(a) IN GENERAL.—The Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.) is amended by adding at the end thereof the following new title:

"TITLE X—PHARMACEUTICAL PRICING AGREEMENTS

"SEC. 1001. MASTER AGREEMENTS.

"(a) IN GENERAL.—(1)(A) A manufacturer of a drug or biological may not—

"(i) sell drugs or biologicals to any Federal agency described under subsection (b),

"(ii) be deemed to have an agreement under section 1927 of the Social Security Act (42 U.S.C. 1396r–8), or

"(iii) receive payment for the purchase of a drug or biological directly or indirectly from any entity that receives funds under the Public Health Service Act (42 U.S.C. 201 et seq.),

unless such manufacturer enters into an agreement with the Administrator as described in subparagraph (B)(i) within 5 months of the date of the enactment of this title or, in the case of a drug or biological first marketed by such manufacturer after such date, such manufacturer complies with the requirements of paragraph (2).

"(B)(i) An agreement is described in this subparagraph if such agreement requires a manufacturer referred to in subparagraph (A) to enter into one or more pharmaceutical pricing agreements with Federal agencies desiring such agreements with respect to any drug or biological marketed by such manufacturer within 6 months of the date of the enactment of this title, or, if such a pricing agreement is not desired by a Federal agency within such period, within 30 days after such Federal agency requests such a pricing agreement.

"(ii) The Administrator shall prescribe procedures under which a Federal agency shall notify a drug or biological manufacturer that the Federal agency desires to enter into a pharmaceutical pricing agreement under clause (i).

"(2) Any manufacturer of a drug or biological first marketed after the date of the enactment of this title shall—

"(A) within 2 months after the date such marketing begins—

"(i) if the manufacturer has an agreement with the Administrator under paragraph (1)(A), enter into an amendment of such agreement with respect to such drug or biological, or

"(ii) if the manufacturer does not have an agreement with the Administrator under paragraph (1)(A), enter into such an agreement with respect to such drug or biological; and

"(B) enter into pharmaceutical pricing agreements with respect to such drug or biological—

"(i) within 3 months after the date such marketing begins; or

"(ii) if such a pricing agreement is not desired by a Federal agency within such 3-month period, within 30 days after such Federal agency requests such a pricing agreement.

"(b) FEDERAL AGENCIES.—Federal agencies described in this subsection are as follows:

"(1) The Department of Veterans Affairs with respect to sales to the Department of Veterans Affairs and State homes receiving funds under section 1741 of title 38, United States Code.

"(2) The Department of Defense.

"(3) The Department of Health and Human Services with respect to sales to the Public Health Service and certain clinics described in section 2145(a) of the Public Health Service Act.

"(c) PHARMACEUTICAL PRICING AGREEMENTS.—For purposes of subsection (a), the term 'pharmaceutical pricing agreement' means an agreement or amendments to an agreement in force on the date of the enactment of this title with any Federal agency described in subsection (b) or with the Department of Health and Human Services under title XIX of the Social Security Act regarding pharmaceutical pricing and subject to the following relevant provisions:

"(1) Subchapter VI of chapter 81 of title 38, United States Code.

"(2) Section 1107 of title 10, United States Code.

"(3) Section 1927 of the Social Security Act (42 U.S.C. 1396r–8).".

SEC. 603. PRICES OF DRUGS AND BIOLOGICALS UNDER THE FEDERAL SUPPLY SCHEDULE.

(a) IN GENERAL.—Chapter 81 is amended by adding at the end the following new subchapter:

"SUBCHAPTER VI—PROCUREMENT OF DRUGS AND BIOLOGICALS

"§8171. Definitions

"For the purposes of this subchapter—

"(1) The term 'additional price discount amount', in the case of the price of a drug or biological whose price is established under an agreement under this subchapter, means—

"(A) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the amount of the difference, if any, between—

"(i) the Federal average price differential (as determined under paragraph (6)(A)); and

"(ii) the amount equal to—

"(I) the Federal average manufacturer price of the drug or biological for the 3-month period ending on the date that is 12 months before the last day of the last month before the effective date of the agreement for which price index data and price data for the drug or biological are available, multiplied by

"(II) the percentage increase in the price index during that 12-month period; or

"(B) in the case of a drug or biological for which such data does not permit the calculation of that price for as many months, the amount of the difference, if any, between—

"(i) the Federal average price differential (as determined under paragraph (6)(B)); and

"(ii) an amount equal to—

"(I) the Federal average manufacturer price of the drug or biological for the 3-month period beginning on the first day of the month next following the month in which marketing of the drug or biological begins, multiplied by

"(II) the percentage increase in the price index during the period beginning on such day and ending on the last day of the last month before the effective date of the agreement for which price index data are available.

"(2) The term 'covered drug or biological' means—

"(A) any drug marketed under a new drug application approved by the Secretary of Health and Human Services under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355); and

"(B) any biological marketed under a product licensing application approved by the Administrator of the Food and Drug Administration pursuant to section 351 of the Public Health Service Act (42 U.S.C. 262).

"(3) The term 'depot' means a centralized commodity management system operated by the Department through which drugs and biologicals procured for the use of entities of the Department are—

"(A) received, stored, and delivered through—

"(i) a warehouse system under the jurisdiction and operation of the Department; or

"(ii) a commercial entity operating under contract with the Department; or

"(B) delivered directly from the manufacturer to the entity using the drugs or biologicals.

"(4) The term 'depot price' means the price of a drug or biological under an agreement between the Secretary and the manufacturer of the drug or biological to determine the price of the drug or biological for purchase through depots.

"(5) The term 'manufacturer', with respect to a drug or biological, means—

"(A) an entity that both manufactures and distributes the drug or biological; or

"(B) if no such entity exists, an entity that distributes the drug or biological.

The term does not include a wholesale distributor of drugs or biologicals, a retail pharmacy licensed under State law, or a practitioner licensed under State law and authorized to dispense drugs or biologicals.

"(6) The term 'non-Federal average manufacturer price', with respect to a covered drug or biological and a specified period of time, means—

"(A) in the case of a covered drug or biological for which the majority of units were distributed to the retail class of trade during that period, the weighted average price of a single form and dose unit of the drug or biological that is paid to the manufacturer of the drug or biological, taking into account any prompt payment discounts, cash discounts, rebates, or similar price reductions, during that period in the United States by wholesalers for distribution to the retail class of trade; or

"(B) in the case of a covered drug or biological for which the majority of units were not distributed to the retail class of trade during that period, the weighted average price of a single form and dose unit of the drug or biological that is paid to the manufacturer of the drug or biological, taking into account any prompt payment discounts, cash discounts, rebates, or similar price reductions, during that period in the United States by wholesalers (other than a price paid by the Federal Government).

"(7) The term 'non-Federal average price differential', with respect to a covered drug or biological whose price is established under an agreement under this subchapter, means—

"(A) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months—

"(i) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the last day of the last month before the effective date of the agreement for which price data and price index data are available, minus

"(ii) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the date that is 1 year before the ending of such 3-month period; or

"(B) in the case of a drug or biological for which such data does not permit the calculation of that price for as many months—

"(i) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the last day of the last month before effective date of the agreement for which price data and price index data are available, minus

"(ii) the Federal average manufacturer price of the drug or biological during the 3-month period beginning on the first day of the first month next following the month in which marketing of the drug or biological begins.

"(8) The term 'price index' means the Consumer Price Index for all urban consumers (U.S. city average) published monthly by the Bureau of Labor Statistics.

"(9) The term 'weighted average price', with respect to a covered drug or biological and a specified period of time, means—

"(A) the sum of the products of—

"(i) the average price per unit of each package quantity of the drug or biological sold during the period, and

"(ii) the number of units of the drug or biological sold of each package quantity; divided by

"(B) the total number of units of the drug or biological sold during the period.

"§8172. Prices of drugs and biologicals under Federal Supply Schedule contracts

"(a)(1) In accordance with the provisions of this section, the Secretary may enter into agreements with the manufacturers referred to in paragraph (2) under which agreements the Secretary and such manufacturers shall provide for the price under the supply schedule of drugs and biologicals that are marketed by such manufacturers.

"(2) The Secretary may enter into agreements under this section with each manufacturer of a drug or biological that enters into a master agreement with the Administrator of the General Services Administration with respect to that drug or biological under section 1001 of the Federal Property and Administrative Services Act of 1949.

"(b) Subject to subsection (g), the price under an agreement under this section of a covered drug or biological that was listed on the supply schedule on September 1, 1990, and is listed on the supply schedule on the date of the enactment of this Act, shall be as follows:

"(1) During the 1-year period beginning on the effective date of the agreement, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(A) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is positive—

"(i) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(ii) the additional price discount amount (as determined under section 8171(1)(A) of this title); or

"(B) in the case of a drug or biological whose Federal average price differential is not positive (as determined under section 8171(6)(A) of this title), the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based).

"(2) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(c) Subject to subsection (g), the price under an agreement under this section of a covered drug or biological that was listed on the supply schedule on September 1, 1990, but not listed on the supply schedule on the date of the enactment of this Act, shall be as follows:

"(1) During the 1-year period beginning on the effective date of the agreement, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(A) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is positive—

"(i) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(ii) the additional price discount amount (as determined under section 8171(1)(A) of this title); or

"(B) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based).

"(2) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(d) Subject to subsection (g), the price under an agreement under this section of a covered drug or biological that was not listed on the supply schedule on September 1, 1990, but was approved by the Administrator of the Food and Drug Administration on or before the date of the enactment of this Act, shall be as follows:

"(1) During the 1-year period beginning on the effective date of the agreement—

"(A) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the price shall be an amount no

greater than .76 multiplied by an amount equal to—

"(i) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is positive—

"(I) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(II) the additional price discount amount (as determined under section 8171(1)(A) of this title); or

"(ii) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based); or

"(B) in the case of a drug or biological for which such data does not permit the calculation of Federal average manufacturer price for as many months, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(i) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(B) of this title) is positive—

"(I) the Federal average manufacturer price of the drug or biological for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before the effective date of the agreement for which price data are available (as so based), minus

"(II) the additional price discount amount (as determined under section 8171(1)(B) of this title); or

"(ii) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(B) of this title) is not positive, the Federal average manufacturer price of the drug or biological for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before the effective date of the agreement for which price data are available (as so based).

"(2) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(e) Subject to subsection (g), the price under an agreement under this section of a covered drug or biological that is approved by the Administrator of the Food and Drug Administration after the date of the enactment of this Act shall be as follows:

"(1) During the 1-year period beginning on the effective date of the agreement—

"(A) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(i) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is positive—

"(I) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(II) the additional price discount amount (as determined under section 8171(1)(A) of this title); or

"(ii) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based); or

"(B) in the case of a drug or biological for which such data does not permit the calculation of Federal average manufacturer price for as many months, the price shall be an amount no greater than .76 multiplied by an amount equal to the Federal average manufacturer price of the drug or biological (as so based) for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before such effective date for which such data are available.

"(2) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(f) Subject to subsection (g), the price under an agreement under this section of a covered drug or biological whose price under the supply schedule was determined under subsection (b), (c), (d), or (e), or under this subsection, pursuant to an agreement that is expiring, shall be as follows:

"(1) During the 1-year period beginning on the effective date of the agreement, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(A) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is positive—

"(i) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(ii) the additional price discount amount (as determined under section 8171(1)(A) of this title); or

"(B) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based).

"(2) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(g)(1) In entering into an agreement under subsections (b) through (f) for the price under the supply schedule of a covered drug or biological, the Secretary may provide for a price of a drug or biological during the 1-year period beginning on the effective date of the agreement that is nominally in excess (as determined by the Secretary) of the price that would be determined for the drug or biological during that period under that subsection if the Secretary determines that such excess price is in the best interests of the Department.

"(2) If the Secretary exercises the authority under this section to establish an excess price with respect to the price of a drug or biological during a 1-year period, the determination of the amount of the increase in the price of the drug or biological for the succeeding 1-year period, if any, shall be based on such excess price.

"(h) The price under an agreement under this section of a drug or biological (other than a covered drug or biological) shall be jointly determined by the Secretary and the manufacturer of the drug or biological.

"(i)(1) Except as provided in paragraph (2), the Secretary shall enter into agreements with manufacturers under this section not later than the later of—

"(A) 6 months after the date of the enactment of this section; or

"(B) 30 days after the Secretary notifies the manufacturers of the Secretary's intention to enter into such agreements.

"(2) In the case of a drug or biological that is first marketed after the date that is 5 months after the date of the enactment of this section, the Secretary shall enter into an agreement referred to in paragraph (1) not later than the later of—

"(A) 3 months after the date such marketing begins; or

"(B) 30 days after the Secretary notifies the manufacturer of the Secretary's intention to enter into such an agreement.

"(j) The Secretary shall determine the term of any agreement entered into by the Secretary and a manufacturer under this section.

"§8173. Report and audit of prices of drug and biologicals

"(a)(1) The manufacturer of a covered drug or biological whose price is determined by an agreement under section 8172 or 8174 of this title shall report to the Secretary the Federal average manufacturers price of the drug or biological during each calendar quarter in which the agreement is in force. The manufacturer shall report such price not more than 30 days after the expiration of a covered quarter.

"(2) The reports required under paragraph (1) shall be in addition to the reports required under subparagraphs (A)(i) and (B) of subsection (b)(1), subparagraphs (A)(i) and (B) of subsection (c)(1), clauses (i)(I) and (ii) of subsection (d)(1)(A), clauses (i)(I) and (ii) of subsection (d)(1)(B), clauses (i)(I) and (ii) of subsection (e)(1)(A), and subsection (e)(1)(B) of section 8172 of this title, under clauses (i)(I) and (ii) of section 8174(c)(1)(A) of this title, and under subsections (d) and (e) of section 8174 of this title. The reports required under such subparagraphs shall be submitted upon the request of the Secretary.

"(b)(1) The Secretary may impose a civil monetary penalty in an amount equal to $10,000 on any manufacturer that fails to report the information required under paragraph (1) of subsection (a) on a timely basis. Such amount shall be paid to the Treasury. The amount of the penalty shall be increased by $10,000 for each day in which such information has not been reported, and such amount shall be paid to the Treasury. If such information with respect to a drug or biological is not reported within 90 days of the deadline imposed, the Secretary may prohibit the purchase of the drug or biological through the supply schedule or Department depots after the end of such 90-day period and until the date such information is reported but in no case shall such prohibition be for a period of less than 30 days.

"(2) Any manufacturer that knowingly reports false information to the Secretary under

paragraph (1) of subsection (a) or the provisions of law referred to in paragraph (2) of that subsection is subject to a civil monetary penalty in an amount not to exceed $100,000 for each item of false information reported. Such amount shall be paid to the Treasury.

"(3) The civil money penalties described in paragraphs (1) and (2) are in addition to other penalties as may be prescribed by law.

"(c) In order to determine the accuracy of any price of a drug or biological that is reported to the Secretary under the provisions of law referred to in subsection (b)(2), the Secretary may audit—

"(1) the relevant records of any manufacturer of a covered drug or biological that is the subject of an agreement under subsections (b) through (f) of section 8172 or under subsections (c) through (f) of section 8174 of this title; and

"(2) the relevant records of any wholesaler that distributes such a drug or biological.

"(d) All information contained in a report submitted to the Secretary under this section by a manufacturer shall remain confidential.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 81 is amended by adding after the item relating to subchapter V the following new items:

"SUBCHAPTER VI—PROCUREMENT OF DRUGS AND BIOLOGICALS

"8171. Definitions.

"8172. Prices of drugs and biologicals under Federal Supply Schedule contracts.

"8173. Report and audit of prices of drugs and biologicals.".

SEC. 604. PROCUREMENT OF DRUGS AND BIOLOGICALS UNDER CONTRACTS RELATING TO DEPARTMENT OF VETERANS AFFAIRS DEPOTS.

(a) IN GENERAL.—Subchapter VI of chapter 81 (as added by section 603 of this Act) is amended by adding at the end the following new section:

"§8174. Procurement of drugs and biologicals through Department depots

"(a) The Secretary shall enter into agreements with manufacturers referred to in section 8172(a)(2) of this title under which agreements the Secretary and such manufacturers shall determine the prices of drugs and biologicals manufactured by such manufacturers and available for purchase through depots of the Department.

"(b) Notwithstanding section 8125(a) of this title, the Secretary may procure for any Department health-care facilities any drug or biological that is subject to an agreement under this section.

"(c)(1) Subject to paragraph (2), the price under an agreement under subsection (a) of a covered drug or biological that was the subject of a contract for procurement by the Department through a depot on September 1, 1990, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(i) in the case of a drug or biological whose Federal average price differential (as determined under section 8171(6)(A) of this title) is positive—

"(I) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(II) the additional price discount amount (as determined under section 8171(1)(A) of this title); or

"(ii) in the case of a drug or biological whose Federal average price differential is not positive (as determined under section 8171(6)(A) of this title), the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based).

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(2)(A) In entering into an agreement under paragraph (1) for the price of a drug or biological, the Secretary may provide for a price of a drug or biological during the 1-year period beginning on the effective date of the agreement that is nominally in excess (as determined by the Secretary) of the price that would be determined for the drug or biological during that period under that paragraph if the Secretary determines that such excess price is in the best interests of the Department.

"(B) If the Secretary exercises the authority under this section to establish an excess price with respect to the price of a drug or biological during a 1-year period, the determination of the amount of the increase in the price of the drug or biological for the succeeding 1-year period, if any, shall be based on such excess price.

"(d) The price under an agreement under subsection (a) of a covered drug or biological that was not the subject of a contract referred to in subsection (c) on September 1, 1990, but was approved by the Administrator of the Food and Drug Administration on or before the date of the enactment of this Act, shall be determined in the manner set forth for the determination of the price of a drug or biological under section 8172(d) of this title.

"(e) The price under an agreement under subsection (a) of a covered drug or biological that is approved by such Administrator after such date, shall be determined in the manner set forth for the determination of the price of a drug or biological under section 8172(e) of this title.

"(f) The price under an agreement under subsection (a) of a covered drug or biological whose price was determined under subsections (c), (d), or (e), or under this subsection, pursuant to an agreement that is expiring, shall be determined in the manner set forth for the determination of the price of a drug or biological under section 8172(f) of this title.

"(g) The price under an agreement under subsection (a) of a drug or biological (other than a covered drug or biological) shall be jointly determined by the Secretary and the manufacturer of the drug or biological.

"(h)(1) Except as provided in paragraph (2), the Secretary shall enter into agreements with manufacturers under this section not later than the later of—

"(A) 6 months after the date of the enactment of this section; or

"(B) 30 days after the Secretary notifies the manufacturers of the Secretary's intention to enter into such agreements.

"(2) In the case of a drug or biological that is first marketed after the date that is 5 months after the date of the enactment of this section, the Secretary shall enter into an agreement referred to in paragraph (1) not later than the later of—

"(A) 3 months after the date such marketing begins; or

"(B) 30 days after the Secretary notifies the manufacturer of the Secretary's intention to enter into such an agreement.

"(i) The Secretary shall determine the term of any agreement entered into by the Secretary and a manufacturer under this section.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 81 is amended by adding after the item relating to section 8173 (as added by section 603(b) of this Act) the following new item:

"8174. Procurement of drugs and biologicals through Department depots.".

(c) CONFORMING AMENDMENT.—Section 8125(a) is amended by striking out "this section," and inserting in lieu thereof "this section and section 8174(b) of this title,".

SEC. 605. PRICES OF DRUGS AND BIOLOGICALS PROCURED BY STATE HOMES.

(a) IN GENERAL.—Subchapter VI of chapter 81 (as amended by section 604 of this Act), is further amended by adding at the end the following new section:

"§8175. Prices of drugs and biologicals purchased by State homes

"In the event that a State home procures a drug or biological listed on the supply schedule, the price of the drug or biological shall be not more than the price of the drug or biological on the supply schedule on the date of the procurement.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 81 is amended by adding after the item relating to section 8174 (as added by section 604(b) of this Act) the following new item:

"8175. Prices of drugs and biologicals purchased by State homes.".

SEC. 606. DEMONSTRATION PROJECT ON UNIFIED PHARMACEUTICAL AWARD CONTRACTS.

(a) IN GENERAL.—Subchapter VI of chapter 81 (as amended by section 605 of this Act) is further amended by adding at the end the following new section:

"§8176. Unified pharmaceutical award contracts

"(a) The Secretary shall conduct a demonstration project to evaluate the cost and effectiveness of a unified contracting process for procuring pharmaceuticals on behalf of the entities referred to in subsection (d).

"(b) The Secretary may, on behalf of the entities referred to in subsection (c), negotiate and enter into one or more unified pharmaceutical award contracts (hereafter in this section referred to as a 'UPAC') with manufacturers relating to the procurement by such entities under such contracts of drugs or biologicals that are manufactured by such manufacturers.

"(c)(1) Subject to paragraph (2), an entity on whose behalf the Secretary may enter into a UPAC under this section is any of the following entities that directly furnishes health-care services and procures a drug or biological in connection with the furnishing of health-care services:

"(A) A department or agency of the Federal Government, including the Department of Veterans Affairs.

"(B) A State home.

"(C) An entity of the type described in section 2145(a) of the Public Health Service Act which the Secretary of Health and Human Services has certified is eligible to receive a discount under such section 2145.

"(2) The Secretary may not negotiate or enter into a UPAC on behalf of an entity unless the entity enters into an agreement with the Secretary—

"(A) to participate in a UPAC on a basis to be determined by the Secretary;

"(B) to purchase under the UPAC a quantity (as determined by the Secretary) of the drug or biological that is the subject of the UPAC;

"(C) to provide to the Secretary adequate evidence (as determined by the Secretary) of the entity's fiscal capability of making the purchase referred to in subparagraph (B);

"(D) to ensure that the drug or biological purchased through the UPAC is not resold; and

"(E) to pay into the revolving supply fund referred to in section 8121 of this title an amount that the Secretary determines is sufficient to cover any administrative costs of the Secretary in negotiating, entering into, or administering the UPAC.

"(d)(1) A entity on whose behalf the Secretary enters into a UPAC under this section with respect to a drug or biological may not—

"(A) resell or otherwise transfer the drug or biological to a person other than a patient of the entity;

"(B) purchase the drug or biological on behalf of any person or entity other than the entity on whose behalf the Secretary enters into the UPAC; or

"(C) dispense or administer, directly or through a contract, the drug or biological to an individual who is not receiving the drug or biological as a patient of the entity.

"(2)(A) An entity found to have sold, dispensed, or administered a drug or biological in violation of this subsection shall be subject to a civil penalty in the amount of $25,000 for each such violation. Such amount shall be paid to the Treasury.

"(B) The civil money penalty referred to in subparagraph (A) is in addition to any other such penalties as may be prescribed by law.

"(e) The authority of the Secretary to enter into unified pharmaceutical award contracts under this section shall terminate on December 31, 1997.

"(f) Not later than March 31, 1997, the Secretary shall transmit to the Committees on Veterans' Affairs of the House of Representatives and the Senate a report on the use of the authority under this section.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 81 is amended by adding after the item relating to section 8175 (as added by section 605(b) of this Act) the following new item:

"8176. Unified pharmaceutical award contracts.".

SEC. 607. PROCUREMENT OF DRUGS AND BIOLOGICALS UNDER CONTRACTS RELATING TO DEPARTMENT OF DEFENSE DEPOTS.

(a) IN GENERAL.—Chapter 55 of title 10, United States Code, is amended by adding at the end the following new section:

"§1107. Procurement of drugs and biologicals through depots

"(a) IN GENERAL.—(1) The Secretary of Defense may enter into agreements with manufacturers referred to in paragraph (2) under which agreements the Secretary of Defense and such manufacturers shall determine the price of drugs and biologicals manufactured by such manufacturers and available for purchase through depots of the Department of Defense.

"(2) The manufacturers referred to in paragraph (1) are any manufacturers of drugs or biologicals that have entered into an agreement with the Administrator of the General Services Administration with respect to such drugs or biologicals under section 1001 of the Federal Property and Administrative Services Act of 1949.

"(b) PROCUREMENT OF DRUGS AND BIOLOGICALS.—The Secretary of Defense may procure for any facility of the uniformed services any drug or biological that is subject to an agreement under this section.

"(c) PRICES.—(1) Subject to subsection (d), the price under an agreement under this section of a covered drug or biological that was the subject of a contract for procurement by the Department of Defense through a depot on September 1, 1990, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(i) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(A)) is positive—

"(I) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary of Defense by the manufacturer), minus

"(II) the additional price discount amount (as determined under subsection (h)(1)(A)); or

"(ii) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(A)) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based).

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(2) Subject to subsection (d), the price under an agreement under this section of a covered drug or biological that was not the subject of a contract referred to in paragraph (1) on September 1, 1990, but was approved by the Administrator of the Food and Drug Administration on or before the date of the enactment of this Act, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement—

"(i) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(I) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(A)) is positive—

"(aa) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary of Defense by the manufacturer), minus

"(bb) the additional price discount amount (as determined under subsection (h)(1)(A)); or

"(II) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(A)) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based); or

"(ii) in the case of a drug or biological for which such data does not permit the calculation of Federal average manufacturer price for as many months, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(I) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(B)) is positive—

"(aa) the Federal average manufacturer price of the drug or biological for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before the effective date of the agreement for which price data are available (as so based), minus

"(bb) the additional price discount amount (as determined under subsection (h)(1)(B)); or

"(II) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(B)) is not positive, the Federal average manufacturer price of the drug or biological for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before the effective date of the agreement for which price data are available (as so based).

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during such the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(3) Subject to subsection (d), the price under an agreement under this section of a covered drug or biological that is approved by the Administrator of the Food and Drug Administration after the date of the enactment of this Act, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement—

"(i) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(I) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(A)) is positive—

"(aa) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary of Defense by the manufacturer), minus

"(bb) the additional price discount amount (as determined under subsection (h)(1)(A)); or

"(II) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(A)) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based); or

"(ii) in the case of a drug or biological for which such data does not permit the calculation of Federal average manufacturer price for as many months, the price shall be an amount no greater than .76 multiplied by an amount equal to the Federal average manufacturer price of the drug or biological (as so based) for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before such effective date for which such data are available.

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during such the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(4) Subject to subsection (d), the price under an agreement under this section of a covered drug or biological whose price was determined under paragraph (1), (2), or (3), or under this paragraph, pursuant to an agreement that is expiring, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement, the price of the drug or biological shall be an amount no

greater than .76 multiplied by an amount equal to—

"(i) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(A)) is positive—

"(I) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(II) the additional price discount amount (as determined under subsection (h)(1)(A)); or

"(ii) in the case of a drug or biological whose Federal average price differential (as determined under subsection (h)(6)(A)) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based).

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(5) The price under an agreement under this section of a drug or biological (other than a covered drug or biological) shall be jointly determined by the Secretary of Defense and the manufacturer of the drug or biological.

"(d) Excess Price.—(1) In entering into an agreement under paragraphs (1), (2), (3), or (4) of subsection (c) for the depot price of a drug or biological, the Secretary of Defense may provide for a price of a drug or biological during the 1-year period beginning on the effective date of the agreement that is nominally in excess (as determined by that Secretary) of the price that would be determined for the drug or biological during that period under that paragraph if that Secretary determines that such excess price is in the best interests of the Department of Defense.

"(2) If the Secretary of Defense exercises the authority under this subsection to establish an excess price with respect to the price of a drug or biological during a 1-year period, the determination of the amount of the increase in the price of the drug or biological for the succeeding 1-year period, if any, shall be based on such excess price.

"(e) Entry Into Agreements.—(1) Except as provided in paragraph (2), the Secretary of Defense shall enter into agreements with manufacturers under this section not later than the later of—

"(A) 6 months after the date of the enactment of this section; or

"(B) 30 days after that Secretary notifies the manufacturers of that Secretary's intention to enter into such agreements.

"(2) In the case of a drug or biological that is first marketed after the date that is 5 months after the date of the enactment of this section, the Secretary of Defense shall enter into an agreement referred to in paragraph (1) not later than the later of—

"(A) 3 months after the date such marketing begins; or

"(B) 30 days after that Secretary notifies the manufacturer of that Secretary's intention to enter into such an agreement.

"(f) Term of Agreement.—The Secretary of Defense shall determine the term of any agreement entered into by that Secretary and a manufacturer under this section.

"(g) Reports on Prices.—(1)(A) The manufacturer of a covered drug or biological whose price is determined by an agreement under this section shall report to the Secretary of Defense the Federal average manufacturers price of the drug or biological during each calendar quarter in which the agreement is in force. The manufacturer shall report such price not more than 30 days after the expiration of a covered quarter.

"(B) The reports required under subparagraph (A) shall be in addition to the reports required under clauses (i)(I) and (ii) of subsection (c)(1)(A), subclauses (I)(aa) and (II) of subsection (c)(2)(A)(i), subclauses (I)(aa) and (II) of subsection (c)(2)(A)(ii), subclauses (I)(aa) and (II) of subsection (c)(3)(A)(i), and subsection (c)(3)(A)(ii). The reports required under such subparagraphs shall be submitted upon the request of the Secretary of Defense.

"(2) The Secretary of Defense may impose a civil monetary penalty in an amount equal to $10,000 on any manufacturer that fails to report the information required under paragraph (1) on a timely basis. Such amount shall be paid to the Treasury. The amount of the penalty shall be increased by $10,000 for each day in which such information has not been reported, and such amount shall be paid to the Treasury. If such information with respect to a drug or biological is not reported within 90 days of the deadline imposed, the Secretary of Defense may prohibit the purchase of the drug or biological through the supply schedule or Department depots after the end of such 90-day period and until the date such information is reported but in no case shall such prohibition be for a period of less than 30 days.

"(3) Any manufacturer that knowingly reports false information to the Secretary of Defense under subparagraph (A) of paragraph (1) or the provisions of law referred to in subparagraph (B) of such paragraph is subject to a civil monetary penalty in an amount not to exceed $100,000 for each item of false information reported. Such amount shall be paid to the Treasury.

"(4) The civil money penalties described in paragraphs (2) and (3) are in addition to other penalties as may be prescribed by law.

"(5) In order to determine the accuracy of the price of a covered drug or biological that is reported to the Secretary of Defense under the provisions of law referred to in paragraph (3), the Secretary of Defense may audit—

"(A) the relevant records of any manufacturer of a covered drug or biological that is the subject of an agreement under this section; and

"(B) the relevant records of any wholesaler that distributes such a drug or biological.

"(6) All information contained in a report submitted to the Secretary of Defense under this section by a manufacturer shall remain confidential.

"(h) Definitions.—In this section:

"(1) The term 'additional price discount amount', in the case of the price of a drug or biological whose price is established under an agreement under this subchapter, means—

"(A) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the amount of the difference, if any, between—

"(i) the Federal average price differential (as determined under paragraph (6)(A)); and

"(ii) the amount equal to—

"(I) the Federal average manufacturer price of the drug or biological for the 3-month period ending on the date that is 12 months before the last day of the last month before the effective date of the agreement for which price index data and price data for the drug or biological are available, multiplied by

"(II) the percentage increase in the price index during that 12-month period; or

"(B) in the case of a drug or biological for which such data does not permit the calculation of that price for as many months, the amount of the difference, if any, between—

"(i) the Federal average price differential (as determined under paragraph (6)(B)); and

"(ii) an amount equal to—

"(I) the Federal average manufacturer price of the drug or biological for the 3-month period beginning on the first day of the month next following the month in which marketing of the drug or biological begins, multiplied by

"(II) the percentage increase in the price index during the period beginning on such day and ending on the last day of the last month before the effective date of the agreement for which price index data are available.

"(2) The term 'covered drug or biological' means—

"(A) any drug marketed under a new drug application approved by the Secretary of Health and Human Services under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355); and

"(B) any biological marketed under a product licensing application approved by the Administrator of the Food and Drug Administration pursuant to section 351 of the Public Health Service Act (42 U.S.C. 262).

"(3) The term 'depot' means a centralized commodity management system operated by the Department of Defense through which drugs and biologicals procured for the use of entities of the Department of Defense are—

"(A) received, stored, and delivered through—

"(i) a warehouse system under the jurisdiction and operation of the Department of Defense; or

"(ii) a commercial entity operating under contract with the Department of Defense; or

"(B) delivered directly from the manufacturer to the entity using the drugs or biologicals.

"(4) The term 'depot price' means the price of a drug or biological under an agreement between the Secretary of Defense and the manufacturer of the drug or biological to determine the price of the drug or biological for purchase through depots.

"(5) The term 'manufacturer', with respect to a drug or biological, means—

"(A) an entity that both manufactures and distributes the drug or biological; or

"(B) if no such entity exists, an entity that distributes the drug or biological.

The term does not include a wholesale distributor of drugs or biologicals, a retail pharmacy licensed under State law, or a practitioner licensed under State law and authorized to dispense drugs and biologicals.

"(6) The term 'non-Federal average manufacturer price', with respect to a covered drug or biological and a specified period of time, means—

"(A) in the case of a covered drug or biological for which the majority of units were distributed to the retail class of trade during that period, the weighted average price of a single form and dose unit of the drug or biological that is paid to the manufacturer of the drug or biological, taking into account any prompt payment discounts, cash discounts, rebates, or similar price reductions, during that period in the United States by wholesalers for distribution to the retail class of trade; or

"(B) in the case of a covered drug or biological for which the majority of units were not distributed to the retail class of trade during that period, the weighted average price of a single form and dose unit of the drug or biological that is paid to the manufacturer of the drug or biological, taking into account any prompt payment discounts, cash discounts, rebates, or similar price reductions, during that period in the United States by wholesalers (other than a price paid by the Federal Government).

"(7) The term 'non-Federal average price differential', with respect to a covered drug or biological whose price is established under an agreement under this subchapter, means—

"(A) in the case of a drug or biological for which data that is available before the effective

date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months—

"(i) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the last day of the last month before the effective date of the agreement for which price data and price index data are available, minus

"(ii) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the date that is 1 year before the ending of such 3-month period; or

"(B) in the case of a drug or biological for which such data does not permit the calculation of that price for as many months—

"(i) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the last day of the last month before effective date of the agreement for which price data and price index data are available, minus

"(ii) the Federal average manufacturer price of the drug or biological during the 3-month period beginning on the first day of the first month next following the month in which marketing of the drug or biological begins.

"(8) The term 'price index' means the Consumer Price Index for all urban consumers (U.S. city average) published monthly by the Bureau of Labor Statistics.

"(9) The term 'weighted average price', with respect to a covered drug or biological and a specified period of time, means—

"(A) the sum of the products of—

"(i) the average price per unit of each package quantity of the drug or biological sold during the period, and

"(ii) the number of units of the drug or biological sold of each package quantity; divided by

"(B) the total number of units of the drug or biological sold during the period.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 55 of title 10, United States Code, is amended by adding after the item relating to section 1106 the following new item:

"1107. Procurement of drugs and biologicals through depots.".

TITLE VII—SEXUAL TRAUMA SERVICES

SEC. 701. CARE AND SERVICES FOR WOMEN VETERANS WHO HAVE EXPERIENCED SEXUAL TRAUMA.

(a) REQUIREMENT TO FURNISH CARE AND SERVICES.—Chapter 17 is amended by adding at the end of subchapter II the following new section:

"§1720D. Counseling and treatment of women veterans for sexual trauma

"(a) A woman veteran who is diagnosed by a Department health professional designated by the Chief Medical Director (following an examination of the veteran by such professional) to be in need of counseling or treatment for sexual trauma resulting from events that occurred during the period of the woman veteran's service on active duty, shall be furnished care and services with respect to such trauma pursuant to sections 1710(a)(1)(A) and 1712(a)(1)(A) of this title, even though such trauma has not been determined to be service-connected.

"(b)(1) The Secretary may enter into contracts with appropriate non-Department facilities (as determined by the Secretary) in order to furnish women veterans with the care and services (including any diagnostic services) referred to in subsection (a).

"(2) Not later than March 31, 1994, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the use made of the authority provided under paragraph (1) before the date of the report. The report shall (A) describe the extent of the use of that authority and the types of care and services furnished to women veterans under contracts entered into under that authority, and (B) contain such recommendations regarding the extension or modification of that authority as the Secretary considers appropriate.

"(3) The Secretary may not enter into contracts under this subsection after September 30, 1994. Any contract entered into under this subsection shall expire not later than 90 days after that date.

"(c) For the purposes of this section, the term 'sexual trauma' means the immediate and long-term physical or psychological trauma resulting from rape, sexual assault, sexual harassment, or other act of sexual violence.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding after the item relating to section 1720C the following new item:

"1720D. Counseling and treatment of women veterans for sexual trauma."

SEC. 702. INFORMATION AND REFERRALS FOR WOMEN VETERANS.

(a) INFORMATION SYSTEM.—(1) Not later than 90 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall commence the provision of information and referrals relating to the care and services referred to in paragraph (2) by means of a telephone information system utilizing a toll-free telephone number (commonly referred to as an 800 number).

(2) The care and services referred to in paragraph (1) are the care and services relating to sexual trauma that are available to women veterans in the communities in which such veterans reside, including care and services available under programs of the Department of Veterans Affairs (including the care and services available under section 1720D of title 38, United States Code (as added by section 701 of this Act)) and from non-Department agencies or organizations.

(b) SYSTEM REQUIREMENTS.—In providing information and referrals under subsection (a), the Secretary shall ensure that the telephone information system described in that subsection—

(1) is operated by Department personnel who are trained in the provision of the information and referrals described in that subsection to persons who have experienced sexual trauma;

(2) is operated in a manner that protects the confidentiality of persons who place telephone calls to the system; and

(3) operates at all times.

SEC. 703. REPORT ON NEED FOR CARE AND SERVICES OF VETERANS WHO HAVE EXPERIENCED SEXUAL TRAUMA.

(a) REPORT.—Not later than December 31, 1993, the Secretary of Veterans Affairs shall submit to Committees on Veterans' Affairs of the Senate and House of Representatives a report on the study carried out by the Secretary under subsection (b).

(b) STUDY.—(1) The Secretary, in consultation with and with the assistance of the Secretary of Defense, shall carry out a study of the needs of women veterans for counseling, medical care, and other services for sexual trauma.

(2) In carrying out the study, the Secretary of Veterans Affairs shall, to the extent feasible and to the extent that data are available, determine the following:

(A) The extent to which women have experienced rape, sexual assault, sexual harassment, or other acts of sexual violence while on active military, naval, or air service.

(B) The extent of any under-reporting of incidents of rape, sexual assault, sexual harassment, or other acts of sexual violence among the population of women members of the Armed Forces, and the extent to which the rate of such under-reporting differs from the rate of under-reporting of such incidents among the general population of women in the United States.

(C) The extent to which women members of the Armed Forces and women veterans who have experienced sexual trauma have utilized counseling, medical care, and other services furnished by the Department of Defense and the Department of Veterans Affairs in order to respond to such experiences.

(D) The same types of information with respect to men who are members of the Armed Forces and men who are veterans as is required under subparagraphs (A), (B), and (C) with respect to women members and veterans.

SEC. 704. REPORT RELATING TO SERVICES AVAILABLE TO VETERANS WHO HAVE EXPERIENCED SEXUAL TRAUMA.

Not later than March 1, 1993, and December 31 of each of calendar years 1993 through 1997, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a comprehensive report on the care and services furnished by the Department of Veterans Affairs to veterans who have experienced sexual trauma. The report shall include the following:

(1) A detailed description and review of the medical care, counseling, outreach, and other services available under programs of the Department to veterans who have experienced sexual trauma resulting from events that occurred during the period of such veterans' service in the active military, naval, or air service, including the number of male and female counselors employed by the Department who have been provided specialized training in the counseling of persons who have experienced sexual trauma.

(2) An assessment by the Secretary of any quantitative or qualitative deficiencies in such programs in meeting the needs of such veterans for counseling, medical care, and other services in response to such experiences.

(3) A detailed description of the plans of the Secretary to eliminate such deficiencies and a schedule for implementation of such plans.

SEC. 705. PROVISION OF INFORMATION ON SERVICES TO WOMEN WHO ARE SEPARATING FROM THE ARMED FORCES.

The Secretary of Veterans Affairs and the Secretary of Defense shall jointly carry out a program to ensure that women who are being separated from active military, naval, or air service are provided information on (1) the counseling, medical care, and other services and assistance relating to sexual trauma that are available to women veterans under programs carried out by the Department of Veterans Affairs, and (2) the requirements of eligibility for or entitlement to, and the procedures for applying for, such counseling, medical care, and other services and assistance. The Secretaries shall ensure that such information is provided through an in-person interview conducted with the woman being separated.

SEC. 706. REPORT RELATING TO DETERMINATIONS OF SERVICE CONNECTION FOR SEXUAL TRAUMA.

(a) Not later than December 31, 1992, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report containing—

(1) the Secretary's assessment of—

(A) the difficulties that women veterans encounter in obtaining from the Department of Veterans Affairs determinations that disabilities relating to sexual trauma that are the results of events that occurred during active duty are service-connected disabilities; and

(B) the extent to which Department personnel fail to make determinations that such disabilities are service-connected disabilities; and

(2) the Secretary's recommendation of actions to be undertaken to respond in a fair manner to such difficulties and to eliminate such failures.

SEC. 707. DEFINITIONS.

For the purposes of this title—

(1) The terms "Armed Forces", "service-connected", and "active military, naval, or air service" have the meanings given such terms in paragraphs (10), (16), and (24) of section 101 of title 38, United States Code, respectively.

(2) The term "sexual trauma" means the immediate and long-term physical or psychological trauma resulting from rape, sexual assault, sexual harassment, or other act of sexual violence.

TITLE VIII—HEALTH CARE FOR WOMEN VETERANS

SEC. 801. WELL-WOMEN CARE SERVICES.

(a) WELL-WOMEN CARE SERVICES.—Section 1701 is amended—

(1) in paragraph (6)(A)(i), by inserting "well-women care services," after "section 1762 of this title,"; and

(2) by adding at the end the following new paragraph:

"(9)(A) The term 'well-women care services' means health care services provided to women outside the maternity cycle, including counseling and services relating to the following:

"(i) Papanicolaou tests (pap smear).

"(ii) Breast examinations and mammography.

"(iii) General reproductive health care.

"(iv) The management of infertility.

"(v) Menopause.

"(vi) Physical or psychological conditions arising out of acts of sexual violence.

"(B) The term does not include the following services:

"(i) Pregnancy care (including prenatal and delivery care), except care relating to a pregnancy that is complicated, or in which the risks of complication are increased, by a service-connected condition.

"(ii) Abortion.".

(b) CONTRACTS FOR WELL-WOMEN CARE SERVICES.—Section 1703(a) is amended by adding at the end the following new paragraph:

"(9) Well-women care services for veterans on an ambulatory or outpatient basis, but only under contracts that expire not later than December 31, 1994.".

(c) REPORT ON THE PROVISION OF HEALTH CARE TO WOMEN.—(1) Not later than January 1 of each of 1993 through 1997, the Secretary shall submit to Congress a report on the provision of health care services to women veterans.

(2) The report shall contain the following with respect to the most recent fiscal year before the date of the report:

(A) A description of the personnel of the Department who provided health-care services to women veterans, including the number of employees (including both the number of individual employees and the number of full-time employee equivalents) and the professional qualifications or specialty training of such employees and the Department facilities to which such personnel were assigned.

(B) A description of any actions taken by the Secretary to ensure the retention of the personnel described in subparagraph (A), and any actions undertaken to recruit additional personnel or personnel to replace such personnel.

(C) A description of the type and amount of well-women care services provided by such personnel, including information on—

(i) the type and amount of such services provided at each Department facility;

(ii) the number of women provided such services at each Department facility; and

(iii) the numbers of inpatient stays and the number of outpatient visits through which such services were provided.

(D) A description of the type and amount of well-women care services provided under contracts with non-Department facilities, including information on—

(i) the type and amount of such services provided under each contract;

(ii) the number of women provided such services through each non-Department facility under each contract; and

(iii) the numbers of inpatient stays and the number of outpatient visits through which such services were provided.

(E) An assessment by the Secretary of any difficulties experienced by the Secretary in the furnishing of such services and the actions taken by the Secretary to resolve such difficulties.

(F) A description of the actions taken by the Secretary to foster and encourage the expansion of research relating to health care issues of concern to women veterans.

(3) In this subsection, the term "well-women care services" has the meaning given such term in section 1701(8) of title 38, United States Code (as added by subsection (a)).

SEC. 802. EXPANSION OF RESEARCH RELATING TO WOMEN VETERANS.

(a) EXPANSION OF MEDICAL RESEARCH PROGRAM.—(1) Subject to paragraph (3), in carrying out the medical research program of the Department under section 7303 of title 38, United States Code, the Secretary, in consultation with the Chief Medical Director (who shall consult with the Director of Nursing Service, officials of the Central Office assigned responsibility for women's programs and the program carried out under such section 7303, members of the Advisory Committee on Women Veterans established under section 542 of such title, and members of appropriate task forces within the Department of Veterans Affairs (such as the Task Force on Treatment of Women Who Suffer Sexual Abuse)), shall foster and encourage the initiation and expansion of research into the health consequences for women veterans of the matters referred to in paragraph (2).

(2) The Secretary shall foster and encourage the initiation and expansion of research under paragraph (1) on the following matters as they relate to women:

(A) Breast Cancer.

(B) Gynecological and hormonal matters.

(C) Cancer of the organs of the reproductive system.

(D) Alzheimer's Disease.

(E) Osteoporosis.

(F) Post-traumatic stress disorder.

(G) Substance abuse.

(H) Sexual violence.

(b) STUDY OF ADMITTANCE OF VETERANS TO DEPARTMENT MEDICAL CARE FACILITIES.—The Comptroller General of the United States shall carry out a study to determine—

(1) the percentage of all admissions of women veterans to Department facilities that are based on a diagnosis of psychotic illness;

(2) the percentage of all admissions of men veterans to such facilities that are based on a diagnosis of psychotic illness;

(3) an explanation of the difference, if any, in the percentages referred to in paragraphs (1) and (2), including an assessment of—

(A) the extent, if any, to which psychotic illness is more prevalent among women veterans who seek care at Department facilities than among men veterans who seek such care;

(B) the extent to which gender-related factors impede or complicate diagnoses made by Department personnel; and

(C) the extent to which, among veterans with psychotic illness, women and men seek and receive Department health-care services in different proportions.

(c) AUTHORIZATION OF APPROPRIATIONS.—(1) Funds are authorized to be appropriated for the Department of Veterans Affairs to carry out subsections (a) and (b) as follows:

(A) For fiscal year 1993, $1,500,000.

(B) For fiscal year 1994, $2,000,000.

(C) For fiscal year 1995, $2,500,000.

(2) Funds appropriated pursuant to the authorization of appropriations under paragraph (1) are in addition to other funds appropriated or otherwise made available to the Department of Veterans Affairs for research.

SEC. 803. RESEARCH OF THE DEPARTMENT OF VETERANS AFFAIRS RELATING TO WOMENS' HEALTH-CARE ISSUES.

Section 7303 is amended by adding at the end the following new subsection:

"(d)(1) To the extent that the Secretary determines that the quantity and nature of information available to Department personnel with respect to issues relating to health care for women veterans is inadequate to permit such personnel to carry out research relevant to the health-care needs of women veterans, the Secretary shall take actions to ensure that medical research carried out by the Secretary gives consideration to issues relating to the health of the general population of adult women in the United States, with particular emphasis on health conditions that affect large numbers of such women and therefore are likely to be prevalent to a significant degree among women veterans and health conditions for which the risk factors, treatment responses, and other factors determined relevant by the Secretary of women veterans may differ from those of the general population of adult women in the United States.

"(2) To the maximum extent practicable, the Secretary shall ensure that the personnel engaged in research pursuant to the research program described under paragraph (1)—

"(A) include—

"(i) personnel of the Department in facilities of the Department, including personnel of the geriatric research, education, and clinical centers designated pursuant to section 7314 of title 38, United States Code; and

"(ii) personnel of the National Center for Post-Traumatic Stress Disorder established pursuant to section 110(c) of the Veterans Health Care Act of 1984 (Public Law 98–528; 98 Stat. 2692); and

"(B) are informed of the existence and progress of other research relating to women veterans conducted by or under the jurisdiction of the Secretary.".

SEC. 804. POPULATION STUDY OF THE NEED OF WOMEN VETERANS FOR HEALTH-CARE SERVICES.

(a) STUDY.—(1) The Secretary shall conduct an on-going study to determine the needs of women veterans for health-care services.

(2) Before carrying out the study, the Secretary shall—

(A) request the advice of the Advisory Committee on Women Veterans established under section 542 of title 38, United States Code; and

(B) in consultation with the Secretary of Defense, request the advice of the Advisory Committee on Women in the Services.

(3)(A) In carrying out the study, the Secretary (with the assistance of the Secretary of Defense) shall—

(i) examine the medical, biopsychosocial, and demographic histories of an appropriate sample of women veterans and women members of the Armed Forces who are serving on active duty;

(ii) to the extent feasible, use data from the most recent decennial census and official census statistics; and

(iii) to the extent feasible, use information contained in the report submitted to the Secretary under section 102(b) of the Veterans' Health Care Amendments of 1983 (Public Law 98–160; 38 U.S.C. 1712A note).

(B) The sample referred to in subparagraph (A)(i) shall include women veterans and women members of the Armed Forces who are serving on active duty and shall, to the extent feasible, provide a representative sampling (as determined by the Secretary) of the ages, the ethnic, social, and economic backgrounds, the enlisted and officer grades, and the branches of service of all women veterans and women members of the Armed Forces.

(C) The protocol for the study shall meet standards for scientific merit prescribed by the Secretary.

(b) REPORTS.—The Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives reports relating to the results of the study as follows:

(1) Not later than 6 months after the date of the enactment of this Act, an interim report on the study describing—

(A) the status of the study on the date of the report; and

(B) the information and advice obtained by the Secretary from the Advisory Committees referred to in paragraph (2)(A).

(2) Not later than April 1, 1994, a report describing the results of the report as of that date.

(3) Not later than April 1 of each of 1996, 1998, 2000, 2002, and 2004, a report describing the results of the study as of the date of such report.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Department of Veterans Affairs $1,500,000 to carry out the purposes of this section. Amounts appropriated pursuant to this authorization of appropriations shall be available for obligation until expended without fiscal year limitation.

SEC. 805. REPORT ON RESEARCH RELATING TO WOMEN VETERANS.

Not later than July 1 of each of 1993, 1994, 1995, and 1996, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report containing—

(1) a description (as of May 31 of the year in which the report is submitted) of the status of any research relating to women veterans being carried out by or under the jurisdiction of the Secretary (including the research carried out under section 7303(d) of title 38, United States Code (as added by section 803 of this Act)); and

(2) recommendations of the Secretary as to future research (including a proposal for any legislation relating to such research) relating to women veterans.

SEC. 806. SUPPORT FOR WOMEN VETERANS COORDINATORS.

The Secretary shall take appropriate actions to ensure that—

(1) sufficient funding is provided to each Department facility in order to permit the women veterans coordinator to carry out the functions of the coordinator at the facility;

(2) sufficient clerical and communications support is provided to each such coordinator for that purpose; and

(3) each such coordinator has direct access to the Director or Chief of Staff of the facility to which the coordinator is assigned.

SEC. 807. REGIONAL WOMEN VETERANS COORDINATORS.

(a) REQUIREMENT OF APPOINTMENT.—The Secretary shall appoint a regional women veterans coordinator to serve in each regional office of the Veterans Health Administration. A person appointed as a coordinator under this section shall serve in the position on a full-time basis.

(b) RESPONSIBILITIES.—Each regional women veterans coordinator shall—

(1) coordinate the training of women veterans coordinators who are assigned to Department facilities in the region under the jurisdiction of such regional coordinator; and

(2) provide appropriate technical support and guidance to Department facilities in that region with respect to outreach activities to women veterans.

SEC. 808. FUNDING FOR CERTAIN ACTIVITIES OF THE ADVISORY COMMITTEE ON WOMEN VETERANS.

From funds available to the Department of Veterans Affairs, the Secretary shall provide funds to be used for the members of the Advisory Committee on Women Veterans established under section 542 of title 38, United States Code, for the following purposes:

(1) For travel in connection with a reasonable number of visits to Department facilities in order to permit such members to carry out the responsibilities of the Advisory Committee.

(2) For the conduct of meetings of the Advisory Committee.

SEC. 809. DEFINITIONS.

For the purposes of this title—

(1) The term "Secretary" means the Secretary of Veterans Affairs.

(2) The term "Department" means the Department of Veterans Affairs.

(3) The term "Department facilities" means the following facilities at which the Secretary furnishes medical services:

(A) Facilities over which the Secretary has direct jurisdiction.

(B) Government facilities for which the Secretary contracts.

(4) The term "medical services" has the meaning given such term in section 1701(6) of title 38, United States Code (as amended by section 801(a) of this Act).

(5) The term "veteran" has the meaning given such term in section 101(2) of title 38, United States Code.

TITLE IX—MISCELLANEOUS

SEC. 901. PERMANENT AUTHORITY TO FURNISH RESPITE CARE.

Section 1720B is amended by striking out subsection (c).

SEC. 902. EXTENSION OF AUTHORITY TO ENTER INTO CONTRACTS WITH RESPECT TO THE VETERANS MEMORIAL MEDICAL CENTER IN THE PHILIPPINES.

Section 1732(a) is amended in the matter above paragraph (1) by striking out "September 30, 1992," and inserting in lieu thereof "December 31, 1996,".

SEC. 903. PERMANENT AUTHORITY TO WAIVE CERTAIN LIMITATIONS APPLICABLE TO RECEIPT OF RETIREMENT PAY BY NURSES.

Section 7426(c) is amended by striking out the second sentence.

SEC. 904. EXTENSION OF AUTHORITY TO CARRY OUT HEALTH PROFESSIONAL SCHOLARSHIP PROGRAM.

Section 7618 is amended by striking out "September 30, 1992" and inserting in lieu thereof "December 31, 1997".

SEC. 905. PERMANENT AUTHORITY TO MAKE GRANTS TO STATES RELATING TO STATE HOMES.

Section 8133(a) is amended in the first sentence by striking out "through September 30, 1992." and inserting in lieu thereof a period.

SEC. 906. MEDICAL CARE COST RECOVERY.

(a) RECOVERY OF CARE FURNISHED CHAMPVA BENEFICIARIES.—(1) Section 1729 is amended—

(A) by striking out "veteran" and "veteran's" each place they appear and inserting in lieu thereof "VA beneficiary" and "VA beneficiary's", respectively;

(B) by striking out "veterans" in subsection (h)(1)(B) and inserting in lieu thereof "VA beneficiary"; and

(C) by adding at the end of subsection (i) the following new paragraph:

"(4) The term 'VA beneficiary' means a veteran or a person eligible for care under section 1713 of this title.".

(2) The amendments made by paragraph (1) shall apply with respect to care and services furnished under section 1713 of title 38, United States Code, after the date of the enactment of this Act.

(b) INCLUSION OF MEDICARE SUPPLEMENTAL INSURANCE IN CLASS OF THIRD-PARTY PAYORS.—(1) Subsection (i)(1)(A) of section 1729 is amended by inserting ", including a medicare supplemental insurance policy," after "arrangement".

(2) The amendment made by paragraph (1) shall take effect on the date of the enactment of this Act.

(c) COST RECOVERY FROM ISSUERS OF MEDICARE SUPPLEMENTAL INSURANCE.—(1) Subsection (c) of section 1729 is amended by adding at the end the following new paragraph:

"(3)(A) The Secretary shall collect or recover the cost of care or services furnished to VA beneficiaries under subsection (a)(1) from third party issuers of medicare supplemental insurance policies to such VA beneficiaries in accordance with the provisions of this paragraph.

"(B) The Secretary, in consultation with the Secretary of Health and Human Services, shall establish procedures for the treatment of claims of the Department for the recovery of the cost of care or services under this paragraph.

"(C) In establishing procedures under subparagraph (B), the Secretary shall provide for—

"(i) the review of such claims by persons or entities jointly designated by the Secretary and the Secretary of Health and Human Services, for the purpose of determining the extent, if any, to which the cost of such care or services would be covered under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.) if provided by a participating provider; and

"(ii) the transmittal to third party issuers of the results of such reviews and any additional information that may be necessary to determine the liability of such third party issuers for the cost of the care or services.

"(D) The results and information referred to in subparagraph (C)(ii) shall be transmitted to issuers of medicare supplemental insurance policies not later than the later of—

"(i) the expiration of the period provided for under title XVIII of such Act for the timely filing of claims; or

"(ii) the expiration of the period provided for in the medicare supplemental insurance policy for such filing.

"(E) The Secretary of Health and Human Services shall establish a fee for each claim reviewed by the persons or entities designated under subparagraph (C)(i) under the procedures established under that subparagraph. The amount of the fee (i) shall reflect the estimated cost of processing the claim for which the fee is collected, (ii) shall be paid to such persons or entities, and (iii) shall reduce the amount recovered by the Secretary of Veterans Affairs under this paragraph.".

(2) The amendments made by paragraph (1) shall take effect on the date of the enactment of this Act and apply to the recovery of costs for care and services furnished after that date.

SEC. 907. MEDICAL CARE COST RECOVERY.

(a) RECOVERY OF CARE FURNISHED CHAMPVA BENEFICIARIES.—(1) Section 1729 is amended—

(A) by striking out "veteran" and "veteran's" each place they appear and inserting in lieu thereof "VA beneficiary" and "VA beneficiary's", respectively;

(B) by striking out "veterans" in subsection (h)(1)(B) and inserting in lieu thereof "VA beneficiary"; and

(C) by adding at the end of subsection (i) the following new paragraph:

"(4) The term 'VA beneficiary' means a veteran or a person eligible for care under section 1713 of this title.".

(2) The amendments made by paragraph (1) shall apply with respect to care and services furnished under section 1713 of title 38, United States Code, after the date of the enactment of this Act.

(b) INCLUSION OF MEDICARE SUPPLEMENTAL INSURANCE IN CLASS OF THIRD-PARTY PAYORS.—(1) Subsection (i)(1)(A) of section 1729 is amended by inserting ", including a medicare supplemental insurance policy," after "arrangement".

(2) The amendment made by paragraph (1) shall take effect on the date of the enactment of this Act.

(c) COST RECOVERY FROM ISSUERS OF MEDICARE SUPPLEMENTAL INSURANCE.—(1) Subsection (c) of section 1729 is amended by adding at the end the following new paragraph:

"(3)(A) The Secretary shall collect or recover the cost of care or services furnished to VA beneficiaries under subsection (a)(1) from third party issuers of medicare supplemental insurance policies to such VA beneficiaries in accordance with the provisions of this paragraph.

"(B) The Secretary, in consultation with the Secretary of Health and Human Services, shall establish procedures for the treatment of claims of the Department for the recovery of the cost of care or services under this paragraph.

"(C) In establishing procedures under subparagraph (B), the Secretary shall provide for—

"(i) the review of such claims by an entity or entities jointly designated by the Secretary and the Secretary of Health and Human Services, for the purpose of determining the extent, if any, to which the cost of such care or services would be covered under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.) if provided by a participating provider; and

"(ii) the transmittal to third party issuers of the results of such reviews and any additional information that may be necessary to determine the liability of such third party issuers for the cost of the care or services.

"(D) The results and information referred to in subparagraph (C)(ii) shall be transmitted to issuers of medicare supplemental insurance policies not later than the later of—

"(i) the expiration of the period provided for under title XVIII of such Act for the timely filing of claims; or

"(ii) the expiration of the period provided for in the medicare supplemental insurance policy for such filing.

"(E) The Secretary of Health and Human Services shall establish a fee for each claim reviewed the entity or entities designated under subparagraph (C)(i) under the procedures established under that subparagraph. The amount of the fee (i) shall reflect the estimated cost of processing the claim for which the fee is collected, (ii) shall be paid to the entities designated under subparagraph (C)(i), and (iii) shall reduce the amount recovered by the Secretary of Veterans Affairs under this paragraph.".

(2) The amendments made by paragraph (1) shall take effect on the date of the enactment of this Act and apply to the recovery of costs for care and services furnished after that date.

SEC. 908. DISCOUNTS FOR THE PURCHASE OF CERTAIN DRUGS.

Title XXI of the Public Health Service Act (42 U.S.C. 300aa-1 et seq.) is amended—

*(1) in the title heading by adding at the end thereof the following: "**AND CERTAIN DRUG PURCHASES**"; and*

(2) by adding at the end thereof the following new part:

"Part E—Prices For The Purchase of Certain Drugs

"Subpart 1—General Provisions

"SEC. 2141. DEFINITIONS.

"As used in this part:

"(1) ADDITIONAL PRICE DISCOUNT AMOUNT.—The term 'additional price discount amount', in the case of the price of a drug or biological whose price is established under an agreement under this section, means—

"(A) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the amount of the difference, if any, between—

"(i) the Federal average price differential (as determined under paragraph (8)(A)); and

"(ii) the amount equal to—

"(I) the Federal average manufacturer price of the drug or biological for the 3-month period ending on the date that is 12 months before the last day of the last month before the effective date of the agreement for which price data and price index data for the drug or biological are available, multiplied by

"(II) the percentage increase in the price index during that 12-month period; or

"(B) in the case of a drug or biological for which such data does not permit the calculation of that price for as many months, the amount of the difference, if any, between—

"(i) the Federal average price differential (as determined under paragraph (8)(B)); and

"(ii) an amount equal to—

"(I) the Federal average manufacturer price of the drug or biological for the 3-month period beginning on the first day of the month next following the month in which marketing of the drug or biological begins, multiplied by

"(II) the percentage increase in the price index during the period beginning on such day and ending on the last day of the last month before the effective date of the agreement for which price index data are available.

"(2) COVERED DRUG OR BIOLOGICAL.—The term 'covered drug or biological' means—

"(A) for the purposes of section 2142—

"(i) any drug marketed under a new drug application approved by the Secretary of Health and Human Services under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355); and

"(ii) any biological marketed under a product licensing application approved by the Administrator of the Food and Drug Administration pursuant to section 351 of the Public Health Service Act (42 U.S.C. 262); or

"(B) for the purposes of section 2145, the meaning given such term in subsection (a) of such section 2145.

"(3) COVERED ENTITY.—The term 'covered entity' means an entity described in any of paragraphs (1) through (13), and the matter immediately following such paragraphs, of section 2145(a).

"(4) DEPARTMENT.—The term 'Department' means the Department of Health and Human Services.

"(5) DEPOT.—The term 'depot' means a centralized commodity management system operated by the Department through which drugs and biologicals procured for the use of entities of the Department are—

"(A) received, stored, and delivered through—

"(i) a warehouse system under the jurisdiction and operation of the Department; or

"(ii) a commercial entity operating under contract with the Department; or

"(B) delivered directly from the manufacturer to the entity using the drugs or biologicals.

"(6) DEPOT PRICE.—The term 'depot price' means the price of a drug or biological under an agreement between the Secretary and the manufacturer of the drug or biological to determine the price of the drug or biological for purchase through depots.

"(7) FEDERAL AVERAGE MANUFACTURER'S PRICE.—The term 'Federal average manufacturer price', with respect to a covered drug or biological and a specified period of time, means the weighted average price of a single form and dose unit of the drug or biological that is paid to the manufacturer of the drug or biological, taking into account any cash discounts or similar price reductions, during that period in the United States by wholesalers (other than a price paid by the Federal Government).

"(8) FEDERAL AVERAGE PRICE DIFFERENTIAL.—The term 'Federal average price differential', with respect to a covered drug or biological whose price is established under an agreement under this section, means—

"(A) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months—

"(i) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the last day of the last month before the effective date of the agreement for which price data and price index data are available, minus

"(ii) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the date that is 1 year before the ending of such 3-month period; or

"(B) in the case of a drug or biological for which such data does not permit the calculation of that price for as many months—

"(i) the Federal average manufacturer price of the drug or biological during the 3-month period ending on the last day of the last month before effective date of the agreement for which price data and price index data are available, minus

"(ii) the Federal average manufacturer price of the drug or biological during the 3-month period beginning on the first day of the first month next following the month in which marketing of the drug or biological begins.

"(9) MANUFACTURER.—The term 'manufacturer', with respect to a drug or biological, means—

"(A) an entity that both manufactures and distributes the drug or biological; or

"(B) if no such entity exists, an entity that distributes the drug or biological.

Such term does not include a wholesale distributor of drugs or biologicals or a retail pharmacy licensed under State law and authorized to dispense drugs and biologicals.

"(10) OVER THE COUNTER DRUG.—The term 'over the counter drug' means a drug that may be sold without a prescription and which is prescribed by a physician (or other persons authorized to prescribe such drug under State law). Such drugs shall be subject to a discount equal to the percentage provided under section 1927(c)(4) of the Social Security Act (as such section existed on the date of the enactment of this Act).

"(11) PRICE INDEX.—The term 'price index' means the Consumer Price Index for all urban consumers (United States city average) published monthly by the Bureau of Labor Statistics.

"(12) WEIGHTED AVERAGE.—The term 'weighted average price', with respect to a covered drug or biological and a specified period of time, means—

"(A) the sum of the products of—

"(i) the average price per unit of each package quantity of the drug or biological sold during the period, and

"(ii) the number of units of the drug or biological sold of each package quantity; divided by

"(B) the total number of units of the drug or biological sold during the period.

"SEC. 2142. PROCUREMENT OF DRUGS AND BIOLOGICALS THROUGH DEPARTMENT DEPOTS.

"(a) IN GENERAL.—The Secretary shall enter into agreements with manufacturers of drugs or biologicals that enter into a master agreement with the Administrator of the General Services Administration with respect to such drugs or biologicals under section 1001 of the Federal Property and Administrative Services Act of 1949, under which agreements the Secretary and such manufacturers shall determine the prices of drugs and biologicals manufactured by such manufacturers and available for purchase through depots of the Department.

"(b) PROCUREMENT.—The Secretary may procure for any Department health-care facilities any drug or biological that is subject to an agreement under this section.

"(c) PRICES.—

"(1) PRICE OF COVERED DRUGS AND BIOLOGICALS SUBJECT TO DEPOT CONTRACTS ON SEPTEMBER 1, 1990.—Subject to subsection (d), the price under an agreement under this section of a covered drug or biological that was the subject of a contract for procurement by the Department through a depot on September 1, 1990, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement, the price shall be an amount no greater than an amount equal to .76 multiplied by an amount equal to—

"(i) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(A) is positive—

"(I) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(II) the additional price discount amount (as determined under section 2141(1)(A)); or

"(ii) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(A) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based).

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(2) PRICE OF COVERED DRUGS AND BIOLOGICALS NOT SUBJECT TO SUCH CONTRACTS BUT APPROVED BEFORE DATE OF ENACTMENT.—Subject to subsection (d), the price under an agreement under subsection (a) of a covered drug or biological that was not the subject of a contract referred to in paragraph (1) on September 1, 1990, but was approved by the Administrator of the Food and Drug Administration on or before the date of the enactment of this Act, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement—

"(i) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(I) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(A) is positive—

"(aa) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(bb) the additional price discount amount (as determined under section 2141(1)(A)); or

"(II) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(A)) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based); or

"(ii) in the case of a drug or biological for which such data does not permit the calculation of Federal average manufacturer price for as many months, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(I) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(B)) is positive—

"(aa) the Federal average manufacturer price of the drug or biological for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before the effective date of the agreement for which price data are available (as so based), minus

"(bb) the additional price discount amount (as determined under section 2141(1)(B)); or

"(II) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(B)) is not positive, the Federal average manufacturer price of the drug or biological for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before the effective date of the agreement for which price data are available (as so based).

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during such the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(3) PRICES OF COVERED DRUGS AND BIOLOGICALS APPROVED AFTER DATE OF ENACTMENT.—Subject to subsection (d), the price under an agreement under this section of a covered drug or biological that is approved by the Administrator of the Food and Drug Administration after the date of the enactment of this Act, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement—

"(i) in the case of a drug or biological for which data that is available before the effective date of the agreement permits the calculation of Federal average manufacturer price for at least 15 months, the price shall be an amount no greater than .76 multiplied by an amount equal to—

"(I) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(A)) is positive—

"(aa) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer), minus

"(bb) the additional price discount amount (as determined under section 2141(1)(A)); or

"(II) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(A)) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based); or

"(ii) in the case of a drug or biological for which such data does not permit the calculation of Federal average manufacturer price for as many months, the price shall be an amount no greater than .76 multiplied by an amount equal to the Federal average manufacturer price of the drug or biological (as so based) for the period beginning on the first day of the month next following the month in which marketing of the drug or biological begins and ending on the last day of the last month before such effective date for which such data are available.

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during such the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(4) PRICES UNDER EXPIRING AGREEMENTS.—Subject to subsection (d), the price under an agreement under this section of a covered drug or biological whose price was determined under paragraph (1), (2), or (3), or under this paragraph, pursuant to an agreement that is expiring, shall be as follows:

"(A) During the 1-year period beginning on the effective date of the agreement, the price shall be an amount not greater than .76 multiplied by an amount equal to—

"(i) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(A)) is positive—

"(I) the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (based on reports of such price to the Secretary by the manufacturer); minus

"(II) the additional price discount amount (as determined under section 2141(1)(A)); or

"(ii) in the case of a drug or biological whose Federal average price differential (as determined under section 2141(8)(A)) is not positive, the Federal average manufacturer price of the drug or biological for the most recent 12-month period before such effective date for which data used to calculate such price are available (as so based).

"(B) During a succeeding 1-year period (including a 1-year period that succeeds a succeeding 1-year period), the price may not exceed the price of the drug or biological during the preceding 1-year period, increased by the same percentage as the increase in the price index during the most recent 12-month period before the commencement of such succeeding 1-year period for which price index data are available.

"(5) PRICES OF NON-COVERED DRUGS AND BIOLOGICALS.—The price under an agreement under this section of a drug or biological (other than a covered drug or biological) shall be jointly determined by the Secretary and the manufacturer of the drug or biological.

"(d) PRICE IN BEST INTERESTS.—

"(1) IN GENERAL.—In entering into an agreement under paragraph (1), (2), (3), or (4) of subsection (c) for the price of a covered drug or biological, the Secretary may provide for a price of a drug or biological during the 1-year period beginning on the effective date of the agreement that is nominally in excess (as determined by the Secretary) of the price that would be determined for the drug or biological during that period under that paragraph if the Secretary determines that such excess price is in the best interests of the Department.

"(2) EXCESS PRICE.—If the Secretary exercises the authority under this section to establish an excess price with respect to the price of a drug or biological during a 1-year period, the determination of the amount of the increase in the price of the drug or biological for the succeeding 1-year period, if any, shall be based upon such excess price.

"(e) TIME FOR ENTERING INTO AGREEMENTS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall enter into agreements with manufacturers under this section not later than the later of—

"(A) 6 months after the date of the enactment of this section; or

"(B) 30 days after the Secretary notifies the manufacturers of the Secretary's intention to enter into such agreements.

"(2) EXCEPTION.—In the case of a drug or biological that is first marketed after the date that is 5 months after the date of the enactment of this section, the Secretary shall enter into an

agreement referred to in paragraph (1) not later than the later of—

"(A) 3 months after the date such marketing begins; or

"(B) 30 days after the Secretary notifies the manufacturer of the Secretary's intention to enter into such an agreement.

"(f) REPORTING AND AUDIT REQUIREMENTS FOR FEDERAL AVERAGE MANUFACTURER PRICES.—

"(1) REPORTING.—

"(A) QUARTERLY REPORT.—The manufacturer of a drug or biological whose price is determined by an agreement under paragraph (1), (2), (3), or (4) of subsection (c) shall report to the Secretary the Federal average manufacturers price of the drug or biological during each calendar quarter in which the agreement is in force. The manufacturer shall report such price not more than 30 days after the expiration of a covered quarter.

"(B) SPECIAL REPORTING REQUIREMENT.—The reports required under subparagraph (A) shall be in addition to the reports required under subclauses (I)(aa) and (II) of subsection (c)(1)(A)(ii), subclauses (I)(aa) and (II) of subsection (c)(2)(A)(i), subclauses (I)(aa) and (II) of subsection (c)(2)(A)(ii), and subclauses (I)(aa) and (II) of subsection (c)(3)(A)(i). The reports required under such subparagraphs shall be submitted upon the request of the Secretary.

"(2) PENALTIES.—

"(A) FAILURE TO REPORT.—The Secretary may impose a civil monetary penalty in an amount equal to $10,000 on any manufacturer that fails to report the information required under paragraph (1)(A) on a timely basis. Such amount shall be paid to the Treasury. The amount of the penalty may be increased by $10,000 for each day in which such information has not been reported, and such amount shall be paid to the Treasury. If such information is not reported within 90 days of the deadline imposed, the Secretary may prohibit purchase of the drug or biological through Public Health Service depots after the end of such 90-day period and until the date such information is reported but in no case shall such prohibition be for a period of less than 30 days.

"(B) FALSE INFORMATION.—Any manufacturer that knowingly reports false information to the Secretary under subparagraph (A) of paragraph (1) and the provisions of law referred to in subparagraph (B) of that paragraph is subject to a civil monetary penalty in an amount not to exceed $100,000 for each item of false information reported. Such amount shall be paid to the Treasury.

"(C) CIVIL MONEY PENALTIES.—Such civil money penalties imposed pursuant to subparagraph (A) or (B) are in addition to other penalties as may be prescribed by law.

"(3) AUDITS.—In order to determine the accuracy of the price of the drug or biological that is reported to the Secretary under paragraph (1), the Secretary may audit—

"(A) the relevant records of any manufacturer of a covered drug or biological that is the subject of an agreement under this section; and

"(B) any wholesaler that distributes such a drug or biological.

"(g) TERM OF AGREEMENT.—The Secretary shall determine the term of any agreement entered into by the Secretary and a manufacturer under this section.

"Subpart 2—Discounts for the Purchase of Certain Drugs

"SEC. 2143. PURPOSE.

"It is the purpose of this subpart to ensure that certain entities funded under this Act receive a discount on prices for prescription drugs comparable to the Medicaid rebate amount without creating a new best price for purposes of calculating the Medicaid rebate, and with a minimum of administrative costs and burdens.

"SEC. 2144. REQUIREMENT.

"(a) IN GENERAL.—An entity that receives funds under this Act may not purchase any drug or biological described in this subpart that is produced by a manufacturer unless the manufacturer has entered into the agreements described in section 1107 of title 10, United States Code, section 8172 of title 38, United States Code, section 1001 of title 40, United States Code, and section 2142(a) of this Act, if appropriate, and an agreement under this subpart that requires the manufacturer to provide a discount price, as determined under section 2145(b), to a covered entity for the purchase of drugs as described in section 2145(a) or the manufacturer enters into a negotiated agreement under subsection (b) of such section.

"(b) PHARMACEUTICAL PRICING AGREEMENTS.—Pharmaceutical pricing agreements with the Department of Health and Human Services, as described in section 1001(c) of the Federal Property and Administrative Services Act of 1949, shall be subject to the provisions of this part.

"SEC. 2145. DISCOUNTS.

"(a) COVERED ENTITIES.—A drug of the type described in section 2144 shall be a drug as defined in section 1927(k)(2) of the Social Security Act (as such section existed on the date of the enactment of this Act), and any over the counter drug, birth control device, or vaccine that is purchased and dispensed by, or under a contract entered into for on-site pharmaceutical services with—

"(1) a migrant health center receiving assistance under section 329;

"(2) a community health center receiving assistance under section 330;

"(3) an entity receiving assistance under section 340;

"(4) an alcohol or drug treatment entity or mental health entity receiving assistance under title V or title XIX;

"(5) a family planning project described in section 1001;

"(6) an entity receiving assistance under title XXVI;

"(7) a black lung clinic authorized under this Act;

"(8) a clinic that treats sexually transmitted diseases and is authorized under section 318;

"(9) an entity receiving funds to provide primary health services to residents of public housing under section 340A;

"(10) a non-Federal entity authorized under the Indian Self-Determination Act;

"(11) a tuberculosis clinic receiving assistance under section 317(j)(2) or 317(k)(2);

"(12) a Federally-qualified health center (as defined in section 1905(l)(2)(B) of the Social Security Act); and

"(13) a subsection (d) hospital (as defined in section 1886(d)(1)(B) of the Social Security Act as such section existed on the date of enactment of this section) that the Secretary certifies—

"(A) is owned or operated by a unit of State or local government, is a public or private non-profit corporation which is formally granted governmental powers by a unit of State or local government, or is a private non-profit hospital which has a contract with a State or local government to provide health care services to low income individuals who are not entitled to benefits under title XVIII of the Social Security Act or eligible for assistance under the State plan under title XIX of such Act;

"(B) for the most recent cost reporting period that ended before the calendar quarter involved, had a disproportionate share adjustment percentage (as determined under section 1886(d)(5)(F) of the Social Security Act) greater than 11.75 percent or was described in section 1886(d)(5)(F)(i)(II) of such Act; and

"(C) does not obtain covered outpatient drugs through a group purchasing organization or other group purchasing arrangement;

or purchased or dispensed by any satellite entity of any of the entities described in paragraphs (1) through (12), and used for the purpose for which funding is provided for such entities pursuant to this section as specified in paragraphs (1) through (12). This section shall apply to entities described in paragraphs (1) through (12) only if such entities are principally engaged in the purpose for which funding is provided under this Act. An entity with respect to which funds are provided under this Act and which is a distinct part of a larger organization (whether or not it is legally distinct) shall be treated as a separate entity for purposes of this section.

"(b) AMOUNT.—

"(1) IN GENERAL.—The discount price described in section 2144 shall not exceed an amount equal to the average manufacturer price for covered drugs and biologicals (as defined in section 1927 of the Social Security Act as such section exited on the date of enactment of this section) in the preceding calendar quarter, reduced by the rebate percentage described in paragraph (2).

"(2) REBATE PERCENTAGE DEFINED.—For a covered drug or biological procured in a calendar quarter, the 'rebate percentage' is the amount (expressed as a percentage) equal to—

"(A)(i) the average total rebate required under section 1927 of the Social Security Act (as such section existed on the date of enactment of this section) with respect to the covered drug or biological (for a unit of the dosage form and strength involved) during the preceding calendar quarter; divided by

"(ii) the average manufacturer price for such a unit of the drug during such quarter;

except that vaccines and birth control devices shall be subject to such rebate percentage as if they were included under such section 1927 (as such section existed on the date of the enactment of this Act); or

"(B) the price negotiated with or on behalf of the covered entity making the purchase;

whichever is lowest.

"(3) NO PROHIBITION ON LARGER DISCOUNTS.—Nothing in this section shall prohibit a manufacturer from providing a discount that is greater than the discount required under this section.

"(c) CERTIFICATION OF ELIGIBLE ENTITIES.—

"(1) DEVELOPMENT OF PROCESS.—Not later than 60 days after the date of enactment of this section, the Secretary shall develop and implement a process for the certification of entities that are eligible to receive the discounts provided for under this section.

"(2) INCLUSION OF PURCHASE INFORMATION.—The process developed under paragraph (1) shall include a requirement that an entity applying for certification under such paragraph submit information to the Secretary concerning the amount such entity expended for drugs and biologicals in the preceding year so as to assist the Secretary and drug manufacturers in evaluating the validity of the entity's subsequent purchases of drugs and biologicals at discounted prices.

"(3) CRITERIA.—The Secretary shall submit to all drug and biological manufacturers a description of the criteria for eligibility for discounts under this section and the certification process developed under paragraph (1).

"(4) LIST OF PURCHASERS AND DISPENSERS.—The certification process developed by the Secretary under paragraph (1) shall include procedures under which each State shall, not later than 30 days after the submission of the descriptions under paragraph (3), prepare and submit a report to the Secretary that contains a list of those entities in the State that purchase and dispense drugs and biologicals and are provided with assistance under part B of title XIX.

"(5) RECERTIFICATION.—The Secretary shall require the recertification of eligible entities on

a not more frequent than annual basis, and shall require that such entities submit information to the Secretary to permit the Secretary to evaluate the validity of subsequent purchases by such entities in the same manner as that required under paragraph (2).

"(d) Bid Process.—Not later than 90 days after the date of enactment of this section, the Secretary, in consultation with the Secretary of Veterans Affairs, shall develop and implement a bid process to establish a prime vendor program under which covered entities compensate wholesalers for distribution and related services to facilitate drug purchases to which discounts will apply under this section. In order to receive discounts under this section, distribution with respect to drug purchases must be made through wholesalers. If a manufacturer distributes drugs or biologicals to which this section applies directly to a covered entity, such manufacturer shall be responsible for the distribution costs incurred.

"(e) Relation to Rebates.—The Secretary shall establish a mechanism to ensure that a manufacturer is not required to pay both a discount under this section and a rebate under title XIX of the Social Security Act with respect to a covered outpatient drug (as defined in section 1927(k)(2) of the Social Security Act (as such section existed on the date of the enactment of this Act)) dispensed to an individual entitled to benefits under a State plan approved under such title XIX.

"(f) Report.—Not later than 18 months after the date of enactment of this section, the Secretary shall prepare and submit to the appropriate committees of Congress a report that shall contain—

"(1) a description of the drugs or biologicals purchased under agreements entered into under this section and the amounts of such purchases;

"(2) an assessment of the effectiveness of the discount program under this section, including the savings achieved and the administrative costs associated with such program;

"(3) recommendations for legislation that would improve such program, including the desirability of excluding from the coverage of an agreement under this section any product of a manufacturer that the Secretary determines is purchased in such small quantities by covered entities so as to make the savings achieved in applying this section to such purchases insignificant when compared to the administrative burden; and

"(4) any other information determined appropriate by the Secretary.

"(g) Prohibition on Resale.—A covered entity that receives a discount under this section for the purchase of a drug or biological may not—

"(1) resell or otherwise transfer such drug or biological to a person other than a patient of the covered entity;

"(2) purchase such drug or biological on behalf of an entity that is considered a separate entity under subsection (a) or on behalf of any person other than the covered entity; or

"(3) dispense or administer, directly or through a contract, such drug or biological to an individual who is not receiving the drug or biological as a patient of the covered entity.

A covered entity found to have sold a drug in violation of this subsection shall be subject to a civil penalty in the amount of $25,000 for each such violation.

"(h) Dispute Resolution.—

"(1) Application.—This subsection shall apply when a manufacturer that is subject to an agreement under this section, or when a covered entity, believes that—

"(A) information utilized under this section with respect to such manufacturer or covered entity is inaccurate, incomplete, or discrepant in a material respect; or

"(B) the Secretary has breached the discount agreement with respect to such manufacturer or covered entity in any material respect.

"(2) Notice.—If a manufacturer determines that a dispute may exist with respect to any of the matters described in paragraph (1), such manufacturer shall provide prompt notice of the disputed item to the Secretary. Such notice shall describe the disputed item in sufficient detail to permit the Secretary to understand the issue, prepare a response, and participate in negotiations with the manufacturer concerning such dispute.

"(3) Best efforts at resolution.—The Secretary and a manufacturer submitting a notice described in paragraph (2) shall utilize their best efforts to resolve the dispute informally within 60 days of the Secretary's receipt of such notification.

"(4) Failure to resolve.—If the Secretary and a manufacturer submitting a notice under paragraph (2) are unable to resolve the dispute through the informal process undertaken under paragraph (3) within the period specified in such paragraph, the Secretary shall appoint a hearing officer to conduct a hearing concerning the dispute, either on the record or through the presentation of testimony.

"(5) Hearing.—

"(A) Conduct.—A hearing shall be conducted not earlier than 30 days after notice of such hearing is provided to the parties by the hearing officer appointed under paragraph (4).

"(B) Recommendation.—Not later than 10 days after the close of a hearing conducted under this paragraph, the hearing officer shall issue a recommended decision.

"(C) Decisions.—The decision of a hearing officer under subparagraph (B) shall be based upon the evidence presented at the hearing or otherwise included in the hearing record. Such decision shall be made in writing and shall contain findings of fact and statement of reasons. A copy of such decision shall be mailed to each party to the hearing.

"(D) Submissions.—Not later than 30 days after receiving a copy of the hearing officer's recommendation under subparagraph (C), a party to the hearing may file a written submission in support of the position of such party.

"(E) Final decision.—Not later than 60 days after the issuance of a recommendation under subparagraph (B), the Secretary shall issue a final decision with respect to the dispute involved. If such decision is adverse to the manufacturer, the manufacturer may seek such any judicial review available under Federal law.

"(F) Suspension of discount.—A manufacturer's obligation to provide a discount with respect to that quantity of a covered drug that is the subject of a dispute under this paragraph shall be suspended until the Secretary has made a final decision under subparagraph (E). Once the Secretary issues a final decision with respect to such dispute that is adverse to the manufacturer, the discount price determined by the Secretary under such decision shall apply retroactively to the date on which such dispute arose.

"(i) Audits.—The Secretary and the manufacturer of a covered drug to which a discount has been applied under this section may perform audits under this section. The Secretary, covered entities, wholesalers, and such manufacturers shall make available the statements and information utilized in making determination under such subsection and such underlying records as may exist. Adjustments to discounts shall be made to the extent that information indicates that the number of units of a covered drug purchased by such covered entities or the prices provided by the manufacturer were greater or lesser than previously specified. The manufacturer may only audit those records relating to their products.

"(j) Confidentiality.—All information contained in any statements, information or records provided or made available by a manufacturer or a wholesaler to the Secretary or a hearing officer under this section shall remain confidential.".

Amend the title so as to read: "An Act to amend title 38, United States Code, to revise certain pay authorities that apply to Department of Veterans Affairs nurses, to improve preventive health services for veterans, to improve health-care services for women veterans, and to enable the Department to purchase pharmaceuticals at reasonable prices, and for other purposes.".

House amendments to Senate amendments.

In lieu of the matter proposed to be inserted by the Senate amendment to the text of the bill, insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) Short Title.—This Act may be cited as the "Veterans Health Care Act of 1992".

(b) Table of Contents.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. References to title 38, United States Code.

TITLE I—WOMEN VETERANS HEALTH PROGRAMS

Sec. 101. Short title.
Sec. 102. Sexual trauma counseling.
Sec. 103. Priority for outpatient care for sexual trauma counseling.
Sec. 104. Commencement of provision of information on services.
Sec. 105. Report on implementation of sexual trauma counseling program.

Sec. 708. Definition.

TITLE VIII—COURT OF VETERANS APPEALS

Sec. 801. Disciplinary procedures for judges of Court of Veterans Appeals.

SEC. 2. REFERENCES TO TITLE 38, UNITED STATES CODE.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to or repeal of a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

TITLE I—WOMEN VETERANS HEALTH PROGRAMS

SEC. 101. SHORT TITLE.

This title may be cited as the "Women Veterans Health Programs Act of 1992".

SEC. 102. SEXUAL TRAUMA COUNSELING.

(a) IN GENERAL.—(1) Chapter 17 of title 38, United States Code, is amended by adding at the end of subchapter II the following new section:

"§ 1720D. Counseling to women veterans for sexual trauma

"(a)(1) During the period through December 31, 1995, the Secretary may provide counseling to a woman veteran who the Secretary determines requires such counseling to overcome psychological trauma, which in the judgment of a mental health professional employed by the Department, resulted from a physical assault of a sexual nature, battery of a sexual nature, or sexual harassment which occurred while the veteran was serving on active duty.

"(2) To be eligible to receive counseling under this subsection, a veteran must seek such counseling from the Secretary within two years after the date of the veteran's discharge or release from active military, naval, or air service.

"(3) In furnishing counseling to a veteran under this subsection, the Secretary may, during the period through December 31, 1994, provide such counseling pursuant to a contract with a qualified mental health professional if (A) in the judgment of a mental health professional employed by the Department, the receipt of counseling by that veteran in facilities of the Department would be clinically inadvisable, or (B) Department facilities are not capable of furnishing such counseling to that veteran economically because of geographical inaccessibility.

"(b) In providing services to a veteran under subsection (a), the period for which counseling is provided may not exceed one year from the date of the commencement of the furnishing of such counseling to the veteran. However, the Secretary may authorize a longer period in any case if, in the judgment of the Secretary, a longer period of counseling is required.

"(c)(1) The Secretary shall give priority to the establishment and operation of the program to provide counseling under subsection (a). In the case of a veteran eligible for such counseling who requires other care or services under this chapter for trauma described in subsection (a)(1), the Secretary shall ensure that the veteran is furnished counseling under this section in a way that is coordinated with the furnishing of such other care and services under this chapter.

"(2) In establishing a program to provide counseling under subsection (a), the Secretary shall—

"(A) provide for appropriate training of mental health professionals and such other health care personnel as the Secretary determines necessary to carry out the program effectively;

"(B) seek to ensure that such counseling is furnished in a setting that is therapeutically appropriate, taking into account the circumstances that resulted in the need for such counseling; and

"(C) provide referral services to assist women veterans who are not eligible for services under this chapter to obtain those from sources outside the Department.

"(d) The Secretary shall provide information on the counseling available to women veterans under this section. Efforts by the Secretary to provide such information—

"(1) may include establishment of an information system involving the use of a toll-free telephone number (commonly referred to as an 800 number), and

"(2) shall include coordination with the Secretary of Defense seeking to ensure that women who are being separated from active military, naval, or air service are provided appropriate information about programs, requirements, and procedures for applying for counseling under this section.

"(e) In this section, the term 'sexual harassment' means repeated, unsolicited verbal or physical contact of a sexual nature which is threatening in character.".

(2) The table of sections at the beginning of chapter 17 is amended by inserting after the item relating to section 1720C the following new item:

"1720D. Counseling to women veterans for sexual trauma.".

(b) TRANSITION PROVISION.—In the case of a veteran who was discharged or released from active military, naval, or air service before December 31, 1991, the two-year period specified in section 1720D(a)(2) of title 38, United States Code, as added by subsection (a), shall be treated as ending on December 31, 1993.

SEC. 103. PRIORITY FOR OUTPATIENT CARE FOR SEXUAL TRAUMA COUNSELING.

Section 1712(i)(2) is amended—

(1) by striking out "or (B)" and inserting in lieu thereof ", (B)"; and

(2) by inserting before the period at the end thereof the following: ", or (C) who is eligible for counseling under section 1720D of this title, for the purposes of such counseling".

SEC. 104. COMMENCEMENT OF PROVISION OF INFORMATION ON SERVICES.

Not later than 90 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall commence the provision of information on the counseling relating to sexual trauma that is available to women veterans under section 1720D of title 38, United States Code (as added by section 102) in accordance with the provisions of subsection (d) of that section.

SEC. 105. REPORT ON IMPLEMENTATION OF SEXUAL TRAUMA COUNSELING PROGRAM.

Not later than March 31, 1994, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a comprehensive report on the Secretary's actions under section 1720D of title 38, United States Code (as added by section 102), and on the use made of the authority provided under that section. The report shall include the following:

(1) The numbers of veterans who have received counseling under such section, shown by reference to the facility that provided that counseling and including the use made of the contract authority under such section.

(2) The number of veterans who received care or services under chapter 17 of title 38, United States Code, under the circumstances described in subsection (c)(1) of such section and the numbers referred to sources outside

the Department, shown by reference to the facility that provided those services or made those referrals.

(3) A listing and description of the specific training programs which the Secretary has instituted to ensure that the counseling program established under such section is carried out effectively.

(4) A description of the specific efforts taken by the Secretary to ensure that the counseling furnished by the Secretary under such section is furnished in settings that are therapeutically appropriate, taking into account the circumstances that resulted in the need for such counseling.

SEC. 106. HEALTH CARE SERVICES FOR WOMEN.

(a) GENERAL AUTHORITY.—In furnishing hospital care and medical services under chapter 17 of title 38, United States Code, the Secretary of Veterans Affairs may provide to women the following health care services:

(1) Papanicolaou tests (pap smears).

(2) Breast examinations and mammography.

(3) General reproductive health care, including the management of menopause, but not including under this section infertility services, abortions, or pregnancy care (including prenatal and delivery care), except for such care relating to a pregnancy that is complicated or in which the risks of complication are increased by a service-connected condition.

(b) RESPONSIBILITIES OF DIRECTORS OF FACILITIES.—The Secretary shall ensure that directors of medical facilities of the Department identify and assess opportunities under the authority provided in title II of this Act to (1) expand the availability of, and access to, health care services for women veterans under sections 1710 and 1712 of title 38, United States Code, and (2) provide counseling, care, and services authorized by this title.

SEC. 107. REPORT ON HEALTH CARE AND RESEARCH.

(a) IN GENERAL.—Not later than January 1, 1993, January 1, 1994, and January 1, 1995, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the provision of health care services and the conduct of research carried out by, or under the jurisdiction of, the Secretary relating to women veterans.

(b) CONTENTS.—The report under subsection (a) shall include the following information with respect to the most recent fiscal year before the date of the report:

(1) The number of women veterans who have received services described in section 106 of this Act in facilities under the jurisdiction of the Secretary (or the Secretary of Defense), shown by reference to the Department facility which provided (or, in the case of Department of Defense facilities, arranged) those services;

(2) A description of (A) the services provided at each such facility, and (B) the extent to which each such facility relies on contractual arrangements under section 1703 or 8153 of title 38, United States Code, to furnish care to women veterans in facilities which are not under the jurisdiction of the Secretary where the provision of such care is not furnished in a medical emergency.

(3) The steps taken by each such facility to expand the provision of services at such facility (or under arrangements with a Department of Defense facility) to women veterans.

(4) A description (as of October 1 of the year preceding the year in which the report is submitted) of the status of any research relating to women veterans being carried out by or under the jurisdiction of the Secretary, including research under section 109 of this Act.

SEC. 108. COORDINATION OF SERVICES.

The Secretary of Veterans Affairs shall ensure that an official in each regional office of the Veterans Health Administration shall serve as a coordinator of women's services. The responsibilities of such official shall include the following:

(1) Conducting periodic assessments of the needs for services of women veterans within such region.

(2) Planning to meet such needs.

(3) Assisting in carrying out the purposes of section 106(b) of this title.

(4) Coordinating the training of women veterans coordinators who are assigned to Department facilities in the region under the jurisdiction of such regional coordinator.

(5) Providing appropriate technical support and guidance to Department facilities in that region with respect to outreach activities to women veterans.

SEC. 109. RESEARCH RELATING TO WOMEN VETERANS' HEALTH.

(a) INITIATION AND EXPANSION OF RESEARCH.—The Secretary of Veterans Affairs, in carrying out the Secretary's responsibilities under section 7303 of title 38, United States Code, shall foster and encourage the initiation and expansion of research relating to the health of veterans who are women.

(b) AUTHORIZATION OF APPROPRIATIONS.—(1) Funds are authorized to be appropriated to the Secretary to initiate new studies in accordance with subsection (a) as follows:

(A) For fiscal year 1993, $1,500,000.

(B) For fiscal year 1994, $2,000,000.

(C) For fiscal year 1995, $2,500,000.

(2) Amounts appropriated pursuant to the authorization of appropriations in paragraph (1) are in addition to other funds appropriated or otherwise made available to the Department of Veterans Affairs for research.

SEC. 110. POPULATION STUDY OF WOMEN VETERANS.

(a) STUDY.—(1) The Secretary, subject to subsection (d), shall conduct a study to determine the needs of veterans who are women for health-care services. The study shall be based on an appropriate sample of veterans who are women.

(2) Before carrying out the study, the Secretary shall request the advice of the Advisory Committee on Women Veterans on the conduct of the study.

(3) In carrying out the study, the Secretary shall include in the sample veterans who are women and members of the Armed Forces serving on active duty who are women.

(b) REPORTS.—The Secretary shall submit to the Committees on Veterans Affairs of the Senate and House of Representatives reports relating to the study as follows:

(1) Not later than 9 months after the date of the enactment of this Act, an interim report describing (A) the information and advice obtained by the Secretary from the Advisory Committee on Women Veterans, and (B) the status of the study.

(2) Not later than December 31, 1995, a final report describing the results of the study.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the general operating expenses account of the Department of Veterans Affairs $2,000,000 to carry out the purposes of this section. Amounts appropriated pursuant to this authorization of appropriations shall be available for obligation until expended without fiscal year limitation.

(d) LIMITATION.—No funds may be used to conduct the study described in subsection (a) unless expressly provided for in an appropriation Act.

TITLE II—HEALTH-CARE SHARING AGREEMENTS BETWEEN DEPARTMENT OF VETERANS AFFAIRS AND DEPARTMENT OF DEFENSE

SEC. 201. TEMPORARY EXPANSION OF AUTHORITY FOR SHARING AGREEMENTS.

The Secretary of Veterans Affairs may enter into an agreement with the Secretary of Defense under this section to expand the availability of health-care sharing arrangements with the Department of Defense under section 8111(c) of title 38, United States Code. Under such an agreement—

(1) the head of a Department of Veterans Affairs medical facility may enter into agreements under section 8111(d) of that title with (A) the head of a Department of Defense medical facility, (B) with any other official of the Department of Defense responsible for the provision of care under chapter 55 of title 10, United States Code, to persons who are covered beneficiaries under that chapter, in the region of the Department of Veterans Affairs medical facility, or (C) with a contractor of the Department of Defense responsible for the provision of care under chapter 55 of title 10, United States Code, to persons who are covered beneficiaries under that chapter, in the region of the Department of Veterans Affairs medical facility; and

(2) the term "primary beneficiary" shall be treated as including—

(A) with respect to the Department of Veterans Affairs, any person who is described in section 1713 of title 38, United States Code; and

(B) with respect to the Department of Defense, any person who is a covered beneficiary under chapter 55 of title 10, United States Code.

SEC. 202. REQUIREMENT FOR IMPROVEMENT IN SERVICES FOR VETERANS.

A proposed agreement authorized by section 201 that is entered into by the head of a Department of Veterans Affairs medical facility may take effect only if the Chief Medical Director finds, and certifies to the Secretary of Veterans Affairs, that implementation of the agreement—

(1) will result in the improvement of services to eligible veterans at that facility; and

(2) will not result in the denial of, or a delay in providing, access to care for any veteran at that facility.

SEC. 203. EXPANDED SHARING AGREEMENTS WITH DEPARTMENT OF DEFENSE.

Under an agreement under section 201, guidelines under section 8111(b) of title 38, United States Code, may be modified to provide that, notwithstanding any other provision of law, any person who is a covered beneficiary under chapter 55 of title 10 and who is furnished care or services by a facility of the Department of Veterans Affairs under an agreement entered into under section 8111 of that title, or who is described in section 1713 of title 38, United States Code, and who is furnished care or services by a facility of the Department of Defense, may be authorized to receive such care or services—

(1) without regard to any otherwise applicable requirement for the payment of a copayment or deductible; or

(2) subject to a requirement to pay only part of any such otherwise applicable copayment or deductible, as specified in the guidelines.

SEC. 204. EXPIRATION OF AUTHORITY.

The authority to provide services pursuant to agreements entered into under section 201 expires on October 1, 1996.

SEC. 205. CONSULTATION WITH VETERANS SERVICE ORGANIZATIONS.

In carrying out this title, the Secretary of Veterans Affairs shall consult with organizations named in or approved under section 5902 of title 38, United States Code.

SEC. 206. ANNUAL REPORT.

(a) IN GENERAL.—For each of fiscal years 1993 through 1996, the Secretary of Defense and the Secretary of Veterans Affairs shall include in the annual report of the Secretaries under section 8111(f) of title 38, United States Code, a description of the Secretaries' implementation of this section.

(b) ADDITIONAL MATTERS FOR FISCAL YEAR 1996 REPORT.—In the report under subsection (a) for fiscal year 1996, the Secretaries shall include the following:

(1) An assessment of the effect of agreements entered into under section 201 on the delivery of health care to eligible veterans.

(2) An assessment of the cost savings, if any, associated with provision of services under such agreements to retired members of the Armed Forces, dependents of members or former members of a uniformed service, and beneficiaries under section 1713 of title 38, United States Code.

(3) Any plans for administrative action, and any recommendations for legislation, that the Secretaries consider appropriate to include in the report.

TITLE III—NURSE PAY

SEC. 301. REVISION TO NURSE PAY GRADE SCHEDULE.

(a) REVISION.—Section 7404(b)(1) is amended in the matter relating to "NURSE SCHEDULE" by striking out "Director grade." and all that follows through "Entry grade." and inserting in lieu thereof the following:

"Nurse V.
"Nurse IV.
"Nurse III.
"Nurse II.
"Nurse I.".

(b) CONFORMING AMENDMENT.—Section 7451(b) of such title is amended by striking out "four" and inserting in lieu thereof "five".

SEC. 302. AUTHORITY TO ESTABLISH SPECIAL RATES OF PAY FOR EMPLOYEES OF FACILITIES LOCATED OUTSIDE THE CONTIGUOUS UNITED STATES, ALASKA, AND HAWAII.

Section 7451(a)(3) is amended—

(1) by striking out "(3) The rates" and inserting in lieu thereof "(3)(A) Except as provided in subparagraph (B), the rates"; and

(2) by adding at the end the following new subparagraph:

"(B) Under such regulations as the Secretary shall prescribe, the Secretary shall establish and adjust the rates of basic pay for covered positions at the following health-care facilities in order to provide rates of basic pay that enable the Secretary to recruit and retain sufficient numbers of health-care personnel in such positions at those facilities:

"(i) The Veterans Memorial Medical Center in the Republic of the Philippines.

"(ii) Department of Veterans Affairs health-care facilities located outside the contiguous States, Alaska, and Hawaii.".

SEC. 303. SALARY DATA FOR NURSE ANESTHETISTS.

Section 7451(d)(3) is amended—

(1) by redesignating subparagraphs (C) and (D) as subparagraphs (D) and (E), respectively; and

(2) by inserting after subparagraph (B) the following new subparagraph (C):

"(C)(i) A director of a Department health-care facility may use data on the beginning rates of compensation paid to certified registered nurse anesthetists who are employed on a salary basis by entities that provide anesthesia services through certified registered nurse anesthetists in the labor-market area only if the director—

"(I) has conducted a survey of beginning rates of compensation for certified registered nurse anesthetists in the local labor market area of the facility under subparagraph (B);

"(II) has used all available administrative authority with regard to collection of survey data; and

"(III) makes a determination (under regulations prescribed by the Secretary) that such survey methods are insufficient to permit the adjustments referred to in subparagraph (B) for such nurse anesthetists employed by the facility.

"(ii) For the purposes of this subparagraph, certified registered nurse anesthetists who are so employed by such entities shall be deemed to be corresponding health-care professionals to the certified registered nurse anesthetists employed by the facility.

"(iii) The authority of the director to use such additional data under this subparagraph with respect to certified registered nurse anesthetists expires on April 1, 1995.".

SEC. 304. RATES OF PAY FOR TRANSFERRING NURSES.

(a) SAVE-PAY AUTHORITY FOR NURSES TRANSFERRING TO ANOTHER FACILITY.—Section 7452(e) is amended by striking out the period at the end and inserting in lieu thereof ", except that in the case of an employee whose transfer (other than pursuant to a disciplinary action otherwise authorized by law) to another health-care facility is at the request of the Secretary, the Secretary may provide that for at least the first year following such transfer the employee shall be paid at a rate of basic pay up to the rate applicable to such employee before the transfer, if the Secretary determines that such rate of pay is necessary to fill the position. Whenever the Secretary exercises the authority under the preceding sentence relating to the rate of basic pay of a transferred employee, the Secretary shall, in the next annual report required under section 7451(g) of this title, provide justification for doing so.".

(b) CONFORMING AMENDMENT.—Section 7451(g) is amended by adding at the end the following new paragraph:

"(9) The justification required by section 7452(e) of this title.".

SEC. 305. NURSING PERSONNEL QUALIFICATION STANDARDS.

(a) REVISION.—The Secretary of Veterans Affairs shall conduct a review of the qualification standards used for nursing personnel at Department health-care facilities and the relationship between those standards and the compression of nursing personnel in the existing intermediate and senior grades. Based upon that review, the Secretary shall revise those qualification standards—

(1) to reflect the five grade levels for nursing personnel under the Nurse Schedule, as amended by section 301; and

(2) to reduce the compression of nursing personnel in the existing intermediate and senior grades.

(b) DEADLINE FOR PRESCRIBING STANDARDS.—The Secretary shall prescribe revised qualification standards for nursing personnel pursuant to subsection (a) not later than six months after the date of the enactment of this Act.

(c) REPORT.—The Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the Secretary's findings and actions under this section. The report shall be submitted not later than six months after the date on which revised qualification standards for nursing personnel are prescribed pursuant to subsection (b).

SEC. 306. REPORT ON PAY FOR CHIEF NURSE POSITION.

(a) REVIEW.—The Secretary of Veterans Affairs shall conduct a review of—

(1) the process for determining the rate of basic pay applicable to the Chief Nurse position at Department of Veterans Affairs health-care facilities; and

(2) the relationship between the rate of such basic pay and the rate of basic pay applicable to nurses in positions subordinate to the Chief Nurse at the respective Department facilities.

The review shall include an assessment of the adequacy of that process in determining an equitable pay rate for the Chief Nurse position, including an assessment of the accuracy of data collected in the survey process and the difficulties in obtaining accurate data.

(b) REPORT.—The Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the review and assessment conducted under subsection (a). To the extent that the review discloses difficulties in obtaining accurate data in the survey process with respect to the Chief Nurse position at Department facilities, the Secretary shall include in the report recommendations for corrective action. The Secretary shall also include in the report (1) a listing of the salary differential (expressed as a percentage) between the Chief Nurse at a facility and the highest paid nurse (excluding certified registered nurse anesthetists) serving in a position subordinate to the Chief Nurse, and (2) an analysis of such data. The report shall be submitted not later than 12 months after the date of the enactment of this Act.

SEC. 307. REPORT ON PAY COMPRESSION.

Section 7451(g) (as amended by section 304(b)) is further amended by adding at the end the following new paragraph:

"(10) The number of nurses, shown by facility and by grade, who are on pay retention or in the top step of any grade and, with respect to those employees, comprehensive information (by facility) as to whether an extension of the pay grades was sought for these positions, and with respect to each such request for extension, whether such request was granted or denied.".

SEC. 308. EFFECTIVE DATE.

The amendments made by sections 301, 302, 303, and 304 shall take effect with respect to the first pay period beginning on or after the end of the six-month period beginning on the date of the enactment of this Act.

TITLE IV—STATE HOME AMENDMENTS

SEC. 401. TREATMENT OF EARNINGS OF VETERANS UNDER CERTAIN REHABILITATIVE SERVICES PROGRAMS.

Subsection (f) of section 1718 is amended to read as follows:

"(f)(1) The Secretary may not consider any of the matters stated in paragraph (2) as a basis for the denial or discontinuance of a rating of total disability for purposes of compensation or pension based on the veteran's inability to secure or follow a substantially gainful occupation as a result of disability.

"(2) Paragraph (1) applies to the following:

"(A) A veteran's participation in an activity carried out under this section.

"(B) A veteran's receipt of a distribution as a result of participation in an activity carried out under this section.

"(C) A veteran's participation in a program of rehabilitative services that (i) is provided as part of the veteran's care furnished by a State home and (ii) is approved by the Secretary as conforming appropriately to standards for activities carried out under this section.

"(D) A veteran's receipt of payment as a result of participation in a program described in subparagraph (C).

"(3) A distribution of funds made under this section and a payment made to a veteran under a program of rehabilitative services described in paragraph (2)(C) shall be considered for the purposes of chapter 15 of this title to be a donation from a public or private relief or welfare organization.".

SEC. 402. PERMANENT AUTHORITY TO MAKE GRANTS TO STATES RELATING TO STATE HOMES.

Section 8133(a) is amended in the first sentence by striking out "through September 30, 1992".

SEC. 403. EXTENSION OF PERIOD FOR COMPLETION OF CONDITIONALLY APPROVED APPLICATIONS FOR CONSTRUCTION.

(a) EXTENSION OF PERIOD.—Section 8135(b)(6)(A) is amended by striking out "90 days" and inserting in lieu thereof "180 days".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to projects that are conditionally approved after September 30, 1992.

SEC. 404. LIMITED PROHIBITION ON OBLIGATION OF FUNDS FOR RESCINDED PROJECTS.

(a) PROHIBITION.—Section 8135(b)(6)(B) is amended by adding at the end the following: "In the event the Secretary rescinds conditional approval of a project under this subparagraph, the Secretary may not further obligate funds for the project during the fiscal year in which the Secretary rescinds such approval.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to rescissions of conditional approval of projects after the date of the enactment of this Act.

SEC. 405. COMMENCEMENT DATE FOR RECAPTURE PERIOD.

(a) COMMENCEMENT DATE.—Section 8136 is amended by striking out "If, within 20 years after completion of any project" and inserting in lieu thereof "If, within the 20-year period beginning on the date of the approval by the Secretary of the final architectural and engineering inspection of any project".

(b) TECHNICAL AMENDMENT.—Such section is further amended by striking out "such facilities cease" and inserting in lieu thereof "the facilities covered by the project cease".

SEC. 406. COMMENCEMENT DATE FOR PAYMENT OF PER DIEM.

Section 1741 is amended by adding at the end the following new subsection:

"(e) Subject to section 1743 of this title, the payment of per diem for care furnished in a State home facility shall commence on the date of the completion of the inspection for recognition of the facility under section 1742(a) of this title if the Secretary determines, as a result of that inspection, that the State home meets the standards described in such section.".

TITLE V—GENERAL HEALTH CARE AND ADMINISTRATION

Subtitle A—General Health

SEC. 501. CONTRACT HOSPITAL CARE FOR VETERANS WITH PERMANENT AND TOTAL SERVICE-CONNECTED DISABILITIES.

Section 1703(a)(1) is amended—

(1) by striking out "or" at the end of subparagraph (A);

(2) by striking out the period at the end of subparagraph (B) and inserting in lieu thereof "; or"; and

(3) by adding at the end the following new subparagraph:

"(C) a disability of a veteran who has a total disability permanent in nature from a service-connected disability.".

SEC. 502. PERMANENT AUTHORITY FOR RESPITE CARE PROGRAM.

Section 1720B is amended by striking out subsection (c).

SEC. 503. EXTENSION OF AUTHORITY TO CONTRACT WITH THE VETERANS MEMORIAL MEDIAL CENTER, REPUBLIC OF THE PHILIPPINES.

Section 1732(a) is amended by striking out "September 30, 1992" and inserting in lieu thereof "September 30, 1994".

Subtitle B—Preventive Health

SEC. 511. NATIONAL CENTER FOR PREVENTIVE HEALTH.

(a) ESTABLISHMENT.—(1) Subchapter II of chapter 73 is amended by adding at the end the following new section:

"§ 7318. National Center for Preventive Health

"(a)(1) The Chief Medical Director shall establish and operate in the Veterans Health Administration a National Center for Preventive Health (hereinafter in this section referred to as the 'Center'). The Center shall be located at a Department health care facility.

"(2) The head of the Center is the Director of Preventive Health (hereinafter in this section referred to as the 'Director').

"(3) The Chief Medical Director shall provide the Center with such staff and other support as may be necessary for the Center to carry out effectively its functions under this section.

"(b) The purposes of the Center are the following:

"(1) To provide a central office for monitoring and encouraging the activities of the Veterans Health Administration with respect to the provision, evaluation, and improvement of preventive health services.

"(2) To promote the expansion and improvement of clinical, research, and educational activities of the Veterans Health Administration with respect to such services.

"(c) In carrying out the purposes of the Center, the Director shall do the following:

"(1) Develop and maintain current information on clinical activities of the Veterans Health Administration relating to preventive health services, including activities relating to—

"(A) the on-going provision of regularly-furnished services; and

"(B) patient education and screening programs carried out throughout the Administration.

"(2) Develop and maintain detailed current information on research activities of the Veterans Health Administration relating to preventive health services.

"(3) In order to encourage the effective provision of preventive health services by Veterans Health Administration personnel—

"(A) ensure the dissemination to such personnel of any appropriate information on such services that is derived from research carried out by the Administration; and

"(B) acquire and ensure the dissemination to such personnel of any appropriate information on research and clinical practices relating to such services that are carried out by researchers, clinicians, and educators who are not affiliated with the Administration.

"(4) Facilitate the optimal use of the unique resources of the Department for cooperative research into health outcomes by initiating recommendations, and responding to requests of the Chief Medical Director and the Director of the Medical and Prosthetic Research Service, for such research into preventive health services.

"(5) Provide advisory services to personnel of Department health-care facilities with respect to the planning or furnishing of preventive health services by such personnel.

"(d) There is authorized to be appropriated $1,500,000 to the Medical Care General and Special Fund of the Department of Veterans Affairs for each fiscal year for the purpose of permitting the National Center for Preventive Health to carry out research, clinical, educational, and administrative activities under this section. Such activities shall be considered to be part of the operation of health-care facilities of the Department without regard to the location at which such activities are carried out.

"(e) In this section, the term 'preventive health services' has the meaning given such term in section 1701(9) of this title.".

(2) The table of sections at the beginning of chapter 73 is amended by inserting after the item relating section 7317 the following new item:

"7318. National Center for Preventive Health.".

(b) DIRECTOR OF CENTER.—(1) Subsection (a) of section 7306 is amended—

(A) by redesignating paragraph (7) as paragraph (8); and

(B) by inserting after paragraph (6) the following new paragraph (7):

"(7) The Director of the National Center for Preventive Health, who shall be responsible to the Chief Medical Director for the operation of the Center.".

(2) Subsection (c) of such section is amended in the second sentence by striking out "and (4)" and inserting in lieu thereof "(4), and (7)".

(c) SELECTION OF FACILITY AT WHICH CENTER TO BE ESTABLISHED.—In order to establish the National Center for Preventive Health pursuant to section 7318 of title 38, United States Code, as added by subsection (a), the Chief Medical Director of the Department of Veterans Affairs shall solicit proposals from Department health care facilities to establish the center. The Chief Medical Director shall establish such center at the facility or facilities which the Chief Medical Director determines, on the basis of a review and analysis of such proposals, would most effectively carry out the purposes set forth in subsection (b) of such section.

SEC. 512. ANNUAL REPORT ON PREVENTIVE HEALTH SERVICES.

(a) ANNUAL REPORT.—Chapter 17 in amended by inserting after section 1703 the following new section:

"§ 1704. Preventive health services: annual report

"Not later than October 31 each year, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on preventive health services. Each such report shall include the following:

"(1) A description of the programs and activities of the Department with respect to preventive health services during the preceding fiscal year, including a description of the following:

"(A) The programs conducted by the Department—

"(i) to educate veterans with respect to health promotion and disease prevention; and "(ii) to provide veterans with preventive health screenings and other clinical services, with such description setting forth the types of resources used by the Department to conduct such screenings and services and the number of veterans reached by such screenings and services.

"(B) The means by which the Secretary addressed the specific preventive health services needs of particular groups of veterans (including veterans with service-connected disabilities, elderly veterans, low-income veterans, women veterans, institutionalized veterans, and veterans who are at risk for mental illness).

"(C) The manner in which the provision of such services was coordinated with the activities of the Medical and Prosthetic Research Service of the Department and the National Center for Preventive Health.

"(D) The manner in which the provision of such services was integrated into training programs of the Department, including initial and continuing medical training of medical students, residents, and Department staff.

"(E) The manner in which the Department participated in cooperative preventive health efforts with other governmental and private entities (including State and local health promotion offices and not-for-profit organizations).

"(F) The specific research carried out by the Department with respect to the long-term relationships among screening activities, treatment, and morbidity and mortality outcomes.

"(G) The cost effectiveness of such programs and activities, including an explanation of the means by which the costs and benefits (including the quality of life of veterans who participate in such programs and activities) of such programs and activities are measured.

"(2) A specific description of research activities on preventive health services carried out during that period using employees, funds, equipment, office space, or other support services of the Department, with such description setting forth—

"(A) the source of funds for those activities;

"(B) the articles or publications (including the authors of the articles and publications) in which those activities are described;

"(C) the Federal, State, or local governmental entity or private entity, if any, with which such activities were carried out; and

"(D) the clinical, research, or staff education projects for which funding applications were submitted (including the source of the funds applied for) and upon which a decision is pending or was denied.

"(3) An accounting of the expenditure of funds during that period by the National Center for Preventive Health under section 7318 of this title.".

(b) Clerical Amendment.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1703 the following new item:

"1704. Preventive health services: annual report.".

SEC. 513. PREVENTIVE HEALTH SERVICES.

(a) In General.—The text of section 1762 is transferred to the end of section 1701, redesignated as paragraph (9), and amended—

(1) by striking out "For the purposes of this subchapter, the term 'preventive health-care services' means" and inserting in lieu thereof "The term 'preventive health services' means"; and

(2) by redesignating paragraphs (1), (2), (3), (4), (5), (6), (7), (8), (9), (10), and (11) as subparagraphs (A), (B), (C), (D), (E), (F), (G), (H), (I), (J), and (K), respectively.

(b) Conforming Amendment.—Section 1701(6)(A)(i) is amended by striking out "preventive health-care services as defined in section 1762 of this title," and inserting in lieu thereof "preventive health services,".

SEC. 514. REPEAL OF PILOT PROGRAM.

(a) Repeal.—Subchapter VII of chapter 17 is repealed.

(b) Clerical Amendment.—The table of sections at the beginning of chapter 17 is amended by striking out the items relating to subchapter VII (including the items relating to the sections of that subchapter).

Subtitle C—Health Care Administration and Personnel

SEC. 521. GERIATRIC RESEARCH, EDUCATION, AND CLINICAL CENTERS.

Section 7314 is amended—

(1) in subsection (c), by inserting after "unless" in the matter preceding paragraph (1) the following: "the peer review panel established under subsection (d) has determined under that subsection that the proposal submitted by such facility as a location for a new center under subsection (a) is among those proposals which have met the highest competitive standards of scientific and clinical merit, and";

(2) by redesignating subsections (d), (e), and (f) as subsections (e), (f), and (g), respectively; and

(3) by inserting after subsection (c) the following new subsection (d):

"(d)(1) In order to provide advice to assist the Chief Medical Director and the Secretary to carry out their responsibilities under this section, the Assistant Chief Medical Director described in section 7306(b)(3) of this title shall establish a panel to assess the scientific and clinical merit of proposals that are submitted to the Secretary for the establishment of new centers under this section.

"(2) The membership of the panel shall consist of experts in the fields of geriatric and gerontological research, education, and clinical care. Members of the panel shall serve as consultants to the Department for a period of no longer than six months.

"(3) The panel shall review each proposal submitted to the panel by the Assistant Chief Medical Director and shall submit its views on the relative scientific and clinical merit of each such proposal to the Assistant Chief Medical Director.

"(4) The panel shall not be subject to the Federal Advisory Committee Act.".

SEC. 522. EXTENSION OF AUTHORITY TO WAIVE CERTAIN LIMITATIONS APPLICABLE TO RECEIPT OF RETIREMENT PAY BY NURSES.

Section 7426(c) is amended by striking out "September 30, 1992" and inserting in lieu thereof "December 31, 1994".

SEC. 523. HEALTH PROFESSIONALS EDUCATION PROGRAMS.

(a) Extension of Health Scholarship Program.—Section 7618 is amended by striking out "September 30, 1992" and inserting in lieu thereof "December 31, 1995".

(b) Health Professionals.—Notwithstanding any other provision of law, the Secretary of Veterans Affairs may not provide payments to health-care professional employees of the Department of Veterans Affairs for payment of tuition loans.

SEC. 524. REAL PROPERTY AT TEMPLE JUNIOR COLLEGE, TEMPLE, TEXAS.

(a) Removal of Restrictions on Use of Previously Conveyed Land.— Subject to subsection (b), the Secretary of Veterans Affairs shall release all restrictions and conditions (including a right of reverter) imposed in a quitclaim deed executed by the Administrator of Veterans' Affairs on March 8, 1968, pursuant to Public Law 90-197 (81 Stat. 582; December 14, 1967), in which the United States, acting through the Administrator of Veterans Affairs, conveyed a tract of land consisting of 73 acres, more or less, to Temple Junior College, Temple, Texas.

(b) Requirement for Payment.—Subsection (a) shall be effective upon the payment to the Secretary of Veterans Affairs of such monetary consideration as the Secretary determines to be appropriate. Any amount received by the Secretary pursuant to this subsection shall be deposited in the general fund of the Treasury.

(c) Execution of Legal Instruments.—The Secretary of Veterans Affairs shall execute such legal documents as necessary to carry out subsection (a). The Secretary may include in such legal documents such terms, conditions, reservations, easements, and restrictions (other than those released pursuant to subsection (a)) as the Secretary considers necessary to protect the interest of the United States.

SEC. 525. DEMONSTRATION PROJECT TO EVALUATE INSTALLATION OF TELEPHONES FOR PATIENT USE AT DEPARTMENT HEALTH-CARE FACILITIES.

(a) Demonstration Project.—The Secretary of Veterans Affairs shall carry out a demonstration project to evaluate—

(1) the feasibility and desirability of (A) providing telephone service in patient rooms in Department of Veterans Affairs health-care facilities which do not currently provide such service, and (B) the use of telephones by the patients of such health-care facilities; and

(2) the relative feasibility and cost-effectiveness of a variety of options for providing such service.

(b) Project Activities.—(1) In carrying out the demonstration project under this section, the Secretary shall, at an appropriate number (as determined by the Secretary) of health care facilities, provide patients reasonable access to telephone service in patients' rooms to the extent feasible, and subject to paragraph (2).

(2) The Secretary shall ensure that patients who use such telephones bear financial responsibility for the cost of any long-distance telephone calls made during such use.

(c) Project Evaluation.—In carrying out the evaluation under subsection (a), the Secretary shall determine—

(1) the cost of the installation, use, and maintenance of such telephones, including—

(A) the amount of any savings which accrue to the facility by reason of such installation and use (including the amount of any savings that may result from any decrease in the amount of assistance in using telephones that the staff of the facility would otherwise provide to patients); and

(B) any costs that result from providing special telephones or other special equipment to facilitate the use of telephones by disabled veterans; and

(2) the effect of the use of such telephones on the therapeutic course of veterans who receive care at the facility; and

(3) the relative feasibility and cost effectiveness of a range of options for providing access to telephone service, including—

(A) the expenditure of appropriated funds;

(B) the receipt of donated funds, equipment, and services; and

(C) the procuring of equipment and services by the Veterans Canteen Service.

(d) Report.—Not later than September 30, 1994, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives a report on the demonstration project. The report shall contain the following:

(1) The determinations of the Secretary under subsection (c).

(2) An assessment by the Secretary of the feasibility and desirability of providing telephones for patients in other health-care facilities of the Department.

(3) The experience of the Secretary in using, and an assessment by the Secretary of the feasibility and cost effectiveness of, alternative arrangements to the expenditure of appropriated funds for securing telephone service for patients in health-care facilities of the Department.

(4) Any additional information and recommendations with respect to the provision and use of patient telephones at Department health-care facilities as the Secretary considers appropriate.

SEC. 526. USE OF TOBACCO PRODUCTS IN DEPARTMENT FACILITIES.

(a) IN GENERAL.—The Secretary of Veterans Affairs shall take appropriate actions to ensure that, consistent with medical requirements and limitations, each facility of the Department described in subsection (b)—

(1) establishes and maintains—

(A) a suitable indoor area in which patients or residents may smoke and which is ventilated in a manner that, to the maximum extent feasible, prevents smoke from entering other areas of the facility; or

(B) an area in a building that—

(i) is detached from the facility;

(ii) is accessible to patients or residents of the facility; and

(iii) has appropriate heating and air conditioning; and

(2) provides access to an area established and maintained under paragraph (1), consistent with medical requirements and limitations, for patients or residents of the facility who are receiving care or services and who desire to smoke tobacco products.

(b) COVERED FACILITIES.—A Department facility referred to in subsection (a) is any Department of Veterans Affairs medical center, nursing home, or domiciliary care facility.

(c) REPORTS.—(1) Not later than 180 days after the date of the enactment of this Act, the Comptroller General shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the feasibility of the establishment and maintenance of areas for smoking in Department facilities under this section. The report shall include information on—

(A) the cost of, and a proposed schedule for, the establishment of such an area at each Department facility covered by this section;

(B) the extent to which the ventilating system of each facility is adequate to ensure that use of the area for smoking does not result in health problems for other patients or residents of the facility; and

(C) the effect of the establishment and maintenance of an area for smoking in each facility on the accreditation score issued for the facility by the Joint Commission on the Accreditation of Health Organizations.

(2) Not later than 120 days after the effective date of this section, the Secretary shall submit to the committees referred to in paragraph (1) a report on the implementation of this section. The report shall include a description of the actions taken at each covered facility to ensure compliance with this section.

(d) EFFECTIVE DATE.—The requirement to establish and maintain areas for smoking under subsection (a) shall take effect 60 days after the date on which the Comptroller General submits to the committees referred to in subsection (c)(1) that report required under that subsection.

TITLE VI—DRUG PRICING AGREEMENTS

SEC. 601. TREATMENT OF PRESCRIPTION DRUGS PROCURED BY DEPARTMENT OF VETERANS AFFAIRS OR PURCHASED BY CERTAIN CLINICS AND HOSPITALS.

(a) EXCLUSION OF PRICES FROM CALCULATION OF BEST PRICES FOR MEDICAID REBATE AGREEMENTS.—Section 1927(c)(1)(C) of the Social Security Act (42 U.S.C. 1396r-8(c)(1)(C)) is amended by striking "(excluding" and inserting "(excluding any prices charged on or after October 1, 1992, to the Indian Health Service, the Department of Veterans Affairs, a State home receiving funds under section 1741 of title 38, United States Code, the Department of Defense, the Public Health Service, or a covered entity described in subsection (a)(5)(B), any prices charged under the Federal Supply Schedule of the General Services Administration, or any prices used under a State pharmaceutical assistance program, and excluding".

(b) AGREEMENTS REQUIRED TO RECEIVE PAYMENT.—

(1) IN GENERAL.—The first sentence of section 1927(a)(1) of such Act (42 U.S.C. 1396r-8(a)(1)) is amended by striking "manufacturer)." and inserting "manufacturer), and must meet the requirements of paragraph (5) (with respect to drugs purchased by a covered entity on or after the first day of the first month that begins after the date of the enactment of title VI of the Veterans Health Care Act of 1992) and paragraph (6).".

(2) AGREEMENTS DESCRIBED.—Section 1927(a) of such Act (42 U.S.C. 1396r-8(a)) is amended by adding at the end the following new paragraphs:

"(5) LIMITATION ON PRICES OF DRUGS PURCHASED BY COVERED ENTITIES.—

"(A) AGREEMENT WITH SECRETARY.—A manufacturer meets the requirements of this paragraph if the manufacturer has entered into an agreement with the Secretary that meets the requirements of section 340B of the Public Health Service Act with respect to covered outpatient drugs purchased by a covered entity on or after the first day of the first month that begins after the date of the enactment of this paragraph.

"(B) COVERED ENTITY DEFINED.—In this subsection, the term 'covered entity' means an entity described in section 340B(a)(4) of the Public Health Service Act.

"(C) ESTABLISHMENT OF ALTERNATIVE MECHANISM TO ENSURE AGAINST DUPLICATE DISCOUNTS OR REBATES.—If the Secretary does not establish a mechanism under section 340B(a)(5)(A) of the Public Health Service Act within 12 months of the date of the enactment of such section, the following requirements shall apply:

"(i) ENTITIES.—Each covered entity shall inform the single State agency under section 1902(a)(5) when it is seeking reimbursement from the State plan for medical assistance described in section 1905(a)(12) with respect to a unit of any covered outpatient drug which is subject to an agreement under section 340B(a) of such Act.

"(ii) STATE AGENCY.—Each such single State agency shall provide a means by which a covered entity shall indicate on any drug reimbursement claims form (or format, where electronic claims management is used) that a unit of the drug that is the subject of the form is subject to an agreement under section 340B of such Act, and not submit to any manufacturer a claim for a rebate payment under subsection (b) with respect to such a drug.

"(D) EFFECT OF SUBSEQUENT AMENDMENTS.—In determining whether an agreement under subparagraph (A) meets the requirements of section 340B of the Public Health Service Act, the Secretary shall not take into account any amendments to such section that are enacted after the enactment of title VI of the Veterans Health Care Act of 1992.

"(E) DETERMINATION OF COMPLIANCE.—A manufacturer is deemed to meet the requirements of this paragraph if the manufacturer establishes to the satisfaction of the Secretary that the manufacturer would comply (and has offered to comply) with the provisions of section 340B the Public Health Service Act (as in effect immediately after the enactment of this paragraph) and would have entered into an agreement under such section (as such section was in effect at such time), but for a legislative change in such section after the date of the enactment of this paragraph.

"(6) REQUIREMENTS RELATING TO MASTER AGREEMENTS FOR DRUGS PROCURED BY DEPARTMENT OF VETERANS AFFAIRS AND CERTAIN OTHER FEDERAL AGENCIES.—

"(A) IN GENERAL.—A manufacturer meets the requirements of this paragraph if the manufacturer complies with the provisions of section 8126 of title 38, United States Code, including the requirement of entering into a master agreement with the Secretary of Veterans Affairs under such section.

"(B) EFFECT OF SUBSEQUENT AMENDMENTS.—In determining whether a master agreement described in subparagraph (A) meets the requirements of section 8126 of title 38, United States Code, the Secretary shall not take into account any amendments to such section that are enacted after the enactment of title VI of the Veterans Health Care Act of 1992.

"(C) DETERMINATION OF COMPLIANCE.—A manufacturer is deemed to meet the requirements of this paragraph if the manufacturer establishes to the satisfaction of the Secretary that the manufacturer would comply (and has offered to comply) with the provisions of section 8126 of title 38, United States Code (as in effect immediately after the enactment of this paragraph) and would have entered into an agreement under such section (as such section was in effect at such time), but for a legislative change in such section after the date of the enactment of this paragraph.".

(3) CONFIDENTIALITY OF INFORMATION.—Section 1927(b)(3)(D) of such Act (42 U.S.C. 1396r-8(b)(3)(D)) is amended—

(A) by striking "this paragraph" and inserting "this paragraph or under an agreement with the Secretary of Veterans Affairs described in subsection (a)(6)(A)(ii)";

(B) by striking "Secretary" each place it appears and inserting "Secretary or the Secretary of Veterans Affairs"; and

(C) by striking "except" and all that follows through the period and inserting: "except—

"(i) as the Secretary determines to be necessary to carry out this section,

"(ii) to permit the Comptroller General to review the information provided, and

"(iii) to permit the Director of the Congressional Budget Office to review the information provided.".

(4) TERMINATION OF REBATE AGREEMENTS.—Section 1927(b)(4)(B) of such Act (42 U.S.C. 1396r-8(b)(4)(B)) is amended—

(i) in clause (ii), by striking "such period" and inserting "the calendar quarter beginning at least 60 days",

(ii) in clause (ii), by striking "of the notice" and all through "the agreement)." and inserting "the manufacturer provides notice to the Secretary.", and

(iii) by adding at the end the following new clauses:

"(iv) NOTICE TO STATES.—In the case of a termination under this subparagraph, the Secretary shall provide notice of such termination to the States within not less than 30 days before the effective date of such termination.

"(v) APPLICATION TO TERMINATIONS OF OTHER AGREEMENTS.—The provisions of this subparagraph shall apply to the terminations of agreements described in section 340B(a)(1) of the Public Health Service Act and master agreements described in section 8126(a) of title 38, United States Code.".

(c) BUDGET NEUTRALITY ADJUSTMENT.—Section 1927(c)(1)(B) of the Social Security Act (42 U.S.C. 1396r–8(c)(1)(B)) is amended—

(1) by striking "January 1, 1993," and inserting "October 1, 1992,";

(2) by striking "and" at the end of clause (i); and

(3) by striking clause (ii) and inserting the following:

"(ii) for quarters (or other periods) beginning after September 30, 1992, and before January 1, 1994, the greater of—

"(I) 15.7 percent of the average manufacturer price for the drug, or

"(II) the difference between the average manufacturer price for the drug and the best price (as defined in subparagraph (C)) for such quarter (or period) for such drug;

"(iii) for quarters (or other periods) beginning after December 31, 1993, and before January 1, 1995, the greater of—

"(I) 15.4 percent of the average manufacturer price for the drug, or

"(II) the difference between the average manufacturer price for the drug and the best price (as defined in subparagraph (C)) for such quarter (or period) for such drug;

"(iv) for quarters (or other periods) beginning after December 31, 1994, and before January 1, 1996, the greater of—

"(I) 15.2 percent of the average manufacturer price for the drug, or

"(II) the difference between the average manufacturer price for the drug and the best price (as defined in subparagraph (C)) for such quarter (or period) for such drug; and

"(v) for quarters (or other periods) beginning after December 31, 1995, the greater of—

"(I) 15.1 percent of the average manufacturer price for the drug, or

"(II) the difference between the average manufacturer price for the drug and the best price (as defined in subparagraph (C)) for such quarter (or period) for such drug.".

(d) REPORTS ON BEST PRICE CHANGES AND PAYMENT OF REBATES.—

(1) IN GENERAL.—Not later than 90 days after the expiration of each calendar quarter that begins on or after October 1, 1992, and ends on or before December 31, 1995, the Secretary of Health and Human Services shall submit a report to Congress that contains the following information relating to prescription drugs dispensed in the quarter (subject to paragraph (2)):

(A) With respect to single source drugs and innovator multiple source drugs (as such terms are defined in section 1927(k)(7) of the Social Security Act)—

(i) the percentage of such drugs whose best price (as reported to the Secretary under section 1927(b) of the Social Security Act) increased compared to the best price during the previous calendar quarter, and the amount of expenditures under State plans under title XIX of such Act attributable to such drugs;

(ii) the percentage of such drugs whose best price (as so reported) decreased compared to the best price during the previous calendar quarter, and the amount of expenditures under State plans under title XIX of such Act attributable to such drugs;

(iii) the percentage of such drugs whose best price (as so reported) was the same as the best price during the previous calendar quarter, and the amount of expenditures under State plans under title XIX of such Act attributable to such drugs;

(iv) the median and mean percentage increase (or decrease) in the best price of such single source drugs (as so reported) compared to the best price during the previous calendar quarter, unweighted and weighted (in the case of the mean percentage increase or decrease) by the dollar volume of drugs dispensed;

(v) the median and mean percentage increase (or decrease) in the best price of such innovator multiple source drugs (as so reported) compared to the best price during the previous calendar quarter, unweighted and weighted (in the case of the mean percentage increase or decrease) by the dollar volume of drugs dispensed; and

(vi) the median and mean percentage increase (or decrease) in the best price of all such drugs (as so reported) compared to the best price during the previous calendar quarter, unweighted and weighted (in the case of the mean percentage increase or decrease) by the dollar volume of drugs dispensed.

(B) With respect to all drugs for which manufacturers are required to pay rebates under section 1927(c) of the Social Security Act, the Secretary's estimate, on a State-by-State and a national aggregate basis, of—

(i) the total amount of all rebates paid under such section during the quarter, broken down by the portions of such total amount attributable to rebates described in paragraphs (1), (2), and (3) of such section;

(ii) the percentages of such total amount attributable to rebates described in paragraphs (1), (2), and (3) of such section; and

(iii) the amount of the portion of such total amount attributable to the rebate described in paragraph (1) of such section that is solely attributable to the application of subclause (II) of clause (i), (ii), (iii), (iv), or (v) of such paragraph.

(2) LIMITATION ON DRUGS SUBJECT TO REPORT.—No report submitted under paragraph (1) shall include any information relating to any prescription drug unless the Secretary finds that expenditures for the drug are significant expenditures under the medicaid program. In the previous sentence, expenditures for a drug are "significant" if the drug was one of the 1,000 drugs for which the greatest amount of the Federal financial assistance attributable to prescription drugs was paid under section 1903(a) of the Social Security Act during calendar year 1991.

(3) SPECIAL RULE FOR INITIAL REPORT.—For purposes of the first report required to be submitted under paragraph (1)—

(A) the Secretary shall submit the report not later than May 1, 1993; and

(B) the information contained in the report shall include information on prescription drugs dispensed during each calendar quarter that began on or after January 1, 1991, and ended on or before December 31, 1992.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to payments to State plans under title XIX of the Social Security Act for calendar quarters (or periods) beginning on or after January 1, 1993 (without regard to whether or not regulations to carry out such amendments have been promulgated by such date).

SEC. 602. LIMITATIONS ON PRICES OF DRUGS PURCHASED BY CERTAIN CLINICS AND HOSPITALS.

(a) IN GENERAL.—Part D of title III of the Public Health Service Act is amended by adding the following subpart:

"Subpart VII—Drug Pricing Agreements

"LIMITATION ON PRICES OF DRUGS PURCHASED BY COVERED ENTITIES

"SEC. 340B. (a) REQUIREMENTS FOR AGREEMENT WITH SECRETARY.—

"(1) IN GENERAL.—The Secretary shall enter into an agreement with each manufacturer of covered drugs under which the amount required to be paid (taking into account any rebate or discount, as provided by the Secretary) to the manufacturer for covered drugs (other than drugs described in paragraph (3)) purchased by a covered entity on or after the first day of the first month that begins after the date of the enactment of this section, does not exceed an amount equal to the average manufacturer price for the drug under title XIX of the Social Security Act in the preceding calendar quarter, reduced by the rebate percentage described in paragraph (2).

"(2) REBATE PERCENTAGE DEFINED.—

"(A) IN GENERAL.—For a covered outpatient drug purchased in a calendar quarter, the 'rebate percentage' is the amount (expressed as a percentage) equal to—

"(i) the average total rebate required under section 1927(c) of the Social Security Act with respect to the drug (for a unit of the dosage form and strength involved) during the preceding calendar quarter; divided by

"(ii) the average manufacturer price for such a unit of the drug during such quarter.

"(B) OVER THE COUNTER DRUGS.—

"(i) IN GENERAL.—For purposes of subparagraph (A), in the case of over the counter drugs, the 'rebate percentage' shall be determined as if the rebate required under section 1927(c) of the Social Security Act is based on the applicable percentage provided under section 1927(c)(4) of such Act.

"(ii) DEFINITION.—The term 'over the counter drug' means a drug that may be sold without a prescription and which is prescribed by a physician (or other persons authorized to prescribe such drug under State law).

"(3) DRUGS PROVIDED UNDER STATE MEDICAID PLANS.—Drugs described in this paragraph are drugs purchased by the entity for which payment is made by the State under the State plan for medical assistance under title XIX of the Social Security Act.

"(4) COVERED ENTITY DEFINED.—In this section, the term 'covered entity' means an entity that meets the requirements described in paragraph (5) and is one of the following:

"(A) A Federally-qualified health center (as defined in section 1905(l)(2)(B) of the Social Security Act).

"(B) An entity receiving a grant under section 340A.

"(C) A family planning project receiving a grant or contract under section 1001.

"(D) An entity receiving a grant under subpart II of part C of title XXVI (relating to categorical grants for outpatient early intervention services for HIV disease).

"(E) A State-operated AIDS drug purchasing assistance program receiving financial assistance under title XXVI.

"(F) A black lung clinic receiving funds under section 427(a) of the Black Lung Benefits Act.

"(G) A comprehensive hemophilia diagnostic treatment center receiving a grant under section 501(a)(2) of the Social Security Act.

"(H) A Native Hawaiian Health Center receiving funds under the Native Hawaiian Health Care Act of 1988.

"(I) An urban Indian organization receiving funds under title V of the Indian Health Care Improvement Act.

"(J) Any entity receiving assistance under title XXVI (other than a State or unit of local government or an entity described in subparagraph (D)), but only if the entity is certified by the Secretary pursuant to paragraph (7).

"(K) An entity receiving funds under section 318 (relating to treatment of sexually transmitted diseases) or section 317(j)(2) (relating to treatment of tuberculosis) through a State or unit of local government, but only if the entity is certified by the Secretary pursuant to paragraph (7).

"(L) A subsection (d) hospital (as defined in section 1886(d)(1)(B) of the Social Security Act) that—

"(i) is owned or operated by a unit of State or local government, is a public or private non-profit corporation which is formally granted governmental powers by a unit of State or local government, or is a private non-profit hospital which has a contract with a State or local government to provide health care services to low income individuals who are not entitled to benefits under title XVIII of the Social Security Act or eligible for assistance under the State plan under this title;

"(ii) for the most recent cost reporting period that ended before the calendar quarter involved, had a disproportionate share adjustment percentage (as determined under section 1886(d)(5)(F) of the Social Security Act) greater than 11.75 percent or was described in section 1886(d)(5)(F)(i)(II) of such Act; and

"(iii) does not obtain covered outpatient drugs through a group purchasing organization or other group purchasing arrangement.

"(5) REQUIREMENTS FOR COVERED ENTITIES.—

"(A) PROHIBITING DUPLICATE DISCOUNTS OR REBATES.—

"(i) IN GENERAL.—A covered entity shall not request payment under title XIX of the Social Security Act for medical assistance described in section 1905(a)(12) of such Act with respect to a drug that is subject to an agreement under this section if the drug is subject to the payment of a rebate to the State under section 1927 of such Act.

"(ii) ESTABLISHMENT OF MECHANISM.—The Secretary shall establish a mechanism to ensure that covered entities comply with clause (i). If the Secretary does not establish a mechanism within 12 months under the previous sentence, the requirements of section 1927(a)(5)(C) of the Social Security Act shall apply.

"(B) PROHIBITING RESALE OF DRUGS.—With respect to any covered outpatient drug that is subject to an agreement under this subsection, a covered entity shall not resell or otherwise transfer the drug to a person who is not a patient of the entity.

"(C) AUDITING.—A covered entity shall permit the Secretary and the manufacturer of a covered outpatient drug that is subject to an agreement under this subsection with the entity (acting in accordance with procedures established by the Secretary relating to the number, duration, and scope of audits) to audit at the Secretary's or the manufacturer's expense the records of the entity that directly pertain to the entity's compliance with the requirements described in subparagraphs (A) or (B) with respect to drugs of the manufacturer.

"(D) ADDITIONAL SANCTION FOR NONCOMPLIANCE.—If the Secretary finds, after notice and hearing, that a covered entity is in violation of a requirement described in subparagraphs (A) or (B), the covered entity shall be liable to the manufacturer of the covered outpatient drug that is the subject of the violation in an amount equal to the reduction in the price of the drug (as described in subparagraph (A)) provided under the agreement between the entity and the manufacturer under this paragraph.

"(6) TREATMENT OF DISTINCT UNITS OF HOSPITALS.—In the case of a covered entity that is a distinct part of a hospital, the hospital shall not be considered a covered entity under this paragraph unless the hospital is otherwise a covered entity under this subsection.

"(7) CERTIFICATION OF CERTAIN COVERED ENTITIES.—

"(A) DEVELOPMENT OF PROCESS.—Not later than 60 days after the date of enactment of this subsection, the Secretary shall develop and implement a process for the certification of entities described in subparagraphs (J) and (K) of paragraph (4).

"(B) INCLUSION OF PURCHASE INFORMATION.—The process developed under subparagraph (A) shall include a requirement that an entity applying for certification under this paragraph submit information to the Secretary concerning the amount such entity expended for covered outpatient drugs in the preceding year so as to assist the Secretary in evaluating the validity of the entity's subsequent purchases of covered outpatient drugs at discounted prices.

"(C) CRITERIA.—The Secretary shall make available to all manufacturers of covered outpatient drugs a description of the criteria for certification under this paragraph.

"(D) LIST OF PURCHASERS AND DISPENSERS.—The certification process developed by the Secretary under subparagraph (A) shall include procedures under which each State shall, not later than 30 days after the submission of the descriptions under subparagraph (C), prepare and submit a report to the Secretary that contains a list of entities described in subparagraphs (J) and (K) of paragraph (4) that are located in the State.

"(E) RECERTIFICATION.—The Secretary shall require the recertification of entities certified pursuant to this paragraph on a not more frequent than annual basis, and shall require that such entities submit information to the Secretary to permit the Secretary to evaluate the validity of subsequent purchases by such entities in the same manner as that required under subparagraph (B).

"(8) DEVELOPMENT OF PRIME VENDOR PROGRAM.—The Secretary shall establish a prime vendor program under which covered entities may enter into contracts with prime vendors for the distribution of covered outpatient drugs. If a covered entity obtains drugs directly from a manufacturer, the manufacturer shall be responsible for the costs of distribution.

"(9) NOTICE TO MANUFACTURERS.—The Secretary shall notify manufacturers of covered outpatient drugs and single State agencies under section 1902(a)(5) of the Social Security Act of the identities of covered entities under this paragraph, and of entities that no longer meet the requirements of paragraph (5) or that are no longer certified pursuant to paragraph (7).

"(10) NO PROHIBITION ON LARGER DISCOUNT.—Nothing in this subsection shall prohibit a manufacturer from charging a price for a drug that is lower than the maximum price that may be charged under paragraph (1).

"(b) OTHER DEFINITIONS.—In this section, the terms 'average manufacturer price', 'covered outpatient drug', and 'manufacturer' have the meaning given such terms in section 1927(k) of the Social Security Act.

"(c) REFERENCES TO SOCIAL SECURITY ACT.—Any reference in this section to a provision of the Social Security Act shall be deemed to be a reference to the provision as in effect on the date of the enactment of this section.

"(d) COMPLIANCE WITH REQUIREMENTS.—A manufacturer is deemed to meet the requirements of subsection (a) if the manufacturer establishes to the satisfaction of the Secretary that the manufacturer would comply (and has offered to comply) with the provisions of this section (as in effect immediately after the enactment of the Veterans Health Care Act of 1992), as applied by the Secretary, and would have entered into an agreement under this section (as such section was in effect at such time), but for a legislative change in this section (or the application of this section) after the date of the enactment of such Act.".

(b) STUDY OF TREATMENT OF CERTAIN CLINICS AS COVERED ENTITIES ELIGIBLE FOR PRESCRIPTION DRUG DISCOUNTS.—

(1) STUDY.—The Secretary of Health and Human Services shall conduct a study of the feasibility and desirability of including entities described in paragraph (3) as covered entities eligible for limitations on the prices of covered outpatient drugs under section 340B(a) of the Public Health Service Act (as added by subsection (a)).

(2) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit a report to Congress on the study conducted under paragraph (1), and shall include in the report—

(A) a description of the entities that are the subject of the study;

(B) an analysis of the extent to which such entities procure prescription drugs; and

(C) an analysis of the impact of the inclusion of such entities as covered entities under section 340B(a) of the Public Health Service Act on the quality of care provided to and the health status of the patients of such entities.

(3) ENTITIES DESCRIBED.—An entity described in this paragraph is an entity—

(A) receiving funds from a State for the provision of mental health or substance abuse treatment services under subparts I or II of part B of title XIX of the Public Health Service Act or under title V of such Act; or

(B) receiving funds from a State under title V of the Social Security Act for the provision of maternal and child health services that are furnished on an outpatient basis (other than an entity described in section 340B(a)(4)(G) of the Public Health Service Act).

SEC. 603. LIMITATION ON PRICES OF DRUGS PROCURED BY DEPARTMENT OF VETERANS AFFAIRS AND CERTAIN OTHER FEDERAL AGENCIES.

(a) AGREEMENTS WITH SECRETARY OF VETERANS AFFAIRS.—(1) Subchapter II of chapter 81 is amended by adding at the end the following new section:

"§8126. Limitation on prices of drugs procured by Department and certain other Federal agencies

"(a) Each manufacturer of covered drugs shall enter into a master agreement with the Secretary under which—

"(1) beginning January 1, 1993, the manufacturer shall make available for procurement on the Federal Supply Schedule of the General Services Administration each covered drug of the manufacturer;

"(2) with respect to each covered drug of the manufacturer procured by a Federal agency described in subsection (b) on or after January 1, 1993, that is purchased under depot contracting systems or listed on the Federal Supply Schedule, the manufacturer has entered into and has in effect a pharmaceutical pricing agreement with the Secretary (or the Federal agency involved, if the Secretary delegates to the Federal agency the authority to enter into such a pharmaceutical pricing agreement) under which the price charged during the one-year period beginning on the date on which the agreement takes effect may not exceed 76 percent of the non-Federal average manufacturer price (less the amount of any additional discount required under subsection (c)) during the one-year period ending one month before such date (or, in the case of a covered drug for which sufficient data for determining the non-Federal average manufacturer price during such period are not available, during such period preceding such date as the Secretary considers appropriate), except that such price may nominally exceed such amount if found by the Secretary to be in the best interests of the Department or such Federal agencies;

"(3) with respect to each covered drug of the manufacturer procured by a State home receiving funds under section 1741 of this title, the price charged may not exceed the price charged under the Federal Supply Schedule at the time the drug is procured; and

"(4) unless the manufacturer meets the requirements of paragraphs (1), (2), and (3), the manufacturer may not receive payment for the purchase of drugs or biologicals from—

"(A) a State plan under title XIX of the Social Security Act, except as authorized under section 1927(a)(3) of such Act,

"(B) any Federal agency described in subsection (b), or

"(C) any entity that receives funds under the Public Health Service Act.

"(b) The Federal agencies described in this subsection are as follows:

"(1) The Department.

"(2) The Department of Defense.

"(3) The Public Health Service, including the Indian Health Service.

"(c) With respect to any covered drug the price of which is determined in accordance with a pharmaceutical pricing agreement entered into pursuant to subsection (a)(2), for calendar quarters beginning on or after January 1, 1993, the manufacturer shall provide a discount in an amount equal to the amount by which the change in non-Federal price exceeds the amount equal to—

"(1) the non-Federal average manufacturer price of the drug during the 3-month period that ends one year before the last day of the month preceding the month during which the contract for the covered drug goes into effect (or, in the case of a covered drug for which sufficient data for determining the non-Federal average manufacturer price during such period is not available, during such period preceding the month during which the contract goes into effect as the Secretary considers appropriate); increased by

"(2) the percentage increase in the Consumer Price Index for all urban consumers (U.S. city average) between the last month of the period described in paragraph (1) and the last month preceding the month during which the contract goes into effect for which Consumer Price Index data are available.

"(d) In the case of a covered drug of a manufacturer that has entered into a multi-year contract with the Secretary under subsection (a)(2) for the procurement of the drug—

"(1) during any one-year period that follows the first year for which the contract is in effect, the price charged may not exceed the price charged during the preceding one-year period, increased by the percentage increase in the Consumer Price Index for all urban consumers (U.S. city average) between the last months of such one-year periods for which Consumer Price Index data are available; and

"(2) in applying subsection (c) to determine the amount of the discount provided with respect to the drug during a year that follows the first year for which the contract is in effect, any reference in such subsection to 'the month during which the contract goes into effect' shall be considered a reference to the first month of such following year.

"(e)(1) The manufacturer of any covered drug the price of which is determined in accordance with a pharmaceutical pricing agreement entered into pursuant to subsection (a)(2) shall—

"(A) not later than 30 days after the first day of the last quarter that begins before the agreement takes effect (or, in the case of an agreement that takes effect on January 1, 1993, not later than 30 days after the date of the enactment of this section), report to the Secretary the non-Federal average manufacturer price for the drug during the 1-year period that ends on the last day of the previous quarter; and

"(B) not later than 30 days after the last day of each quarter for which the agreement is in effect, report to the Secretary the non-Federal average manufacturer price for the drug during such quarter.

"(2) The provisions of subparagraphs (B) and (C) of section 1927(b)(3) of the Social Security Act shall apply to drugs described in paragraph (1) and the Secretary in the same manner as such provisions apply to covered outpatient drugs and the Secretary of Health and Human Services under such subparagraphs, except that references in such subparagraphs to prices or information reported or required under 'subparagraph (A)' shall be deemed to refer to information reported under paragraph (1).

"(3) In order to determine the accuracy of a drug price that is reported to the Secretary under paragraph (1), the Secretary may audit the relevant records of the manufacturer or of any wholesaler that distributes the drug, and may delegate the authority to audit such records to the appropriate Federal agency described in subsection (b).

"(4) Any information contained in a report submitted to the Secretary under paragraph (1) or obtained by the Secretary through any audit conducted under paragraph (3) shall remain confidential, except as the Secretary determines necessary to carry out this section and to permit the Comptroller General and the Director of the Congressional Budget Office to review the information provided.

"(f) The Secretary shall supply to the Secretary of Health and Human Services—

"(1) upon the execution or termination of any master agreement, the name of the manufacturer, and

"(2) on a quarterly basis, a list of manufacturers who have entered into master agreements under this section, and

"(g)(1) Any reference in this section to a provision of the Social Security Act shall be deemed to be a reference to the provision as in effect on the date of the enactment of this section.

"(2) A manufacturer is deemed to meet the requirements of subsection (a) if the manufacturer establishes to the satisfaction of the Secretary that the manufacturer would comply (and has offered to comply) with the provisions of this section (as in effect immediately after the enactment of this section), and would have entered into an agreement under this section (as such section was in effect at such time), but for a legislative change in this section after the date of the enactment of this section.

"(h) In this section:

"(1) The term 'change in non-Federal price' means, with respect to a covered drug that is subject to an agreement under this section, an amount equal to—

"(A) the non-Federal average manufacturer price of the drug during the 3-month period that ends with the month preceding the month during which a contract goes into effect (or, in the case of a covered drug for which sufficient data for determining the non-Federal average manufacturer price during such period is not available, during such period as the Secretary considers appropriate); minus

"(B) the non-Federal average manufacturer price of the drug during the 3-month period that ends one year before the end of the period described in subparagraph (A) (or, in the case of a covered drug for which sufficient data for determining the non-Federal average manufacturer price during such period is not available, during such period preceding the period described in subparagraph (A) as the Secretary considers appropriate).

"(2) The term 'covered drug' means—

"(A) a drug described in section 1927(k)(7)(A)(ii) of the Social Security Act, or that would be described in such section but for the application of the first sentence of section 1927(k)(3) of such Act;

"(B) a drug described in section 1927(k)(7)(A)(iv) of the Social Security Act, or that would be described in such section but for the application of the first sentence of section 1927(k)(3) of such Act;

"(C) any biological product identified under section 600.3 of title 21, Code of Federal Regulations; or

"(D) insulin certified under section 506 of the Federal Food, Drug, and Cosmetic Act.

"(3) The term 'depot' means a centralized commodity management system through which covered drugs procured by an agency of the Federal Government are—

"(A) received, stored, and delivered through—

"(i) a federally owned and operated warehouse system, or

"(ii) a commercial entity operating under contract with such agency; or

"(B) delivered directly from the commercial source to the entity using such covered drugs.

"(4) The term 'manufacturer' means any entity which is engaged in—

"(A) the production, preparation, propagation, compounding, conversion, or processing of prescription drug products, either directly or indirectly by extraction from substances of natural origin, or independently by means of chemical synthesis, or by a combination of extraction and chemical synthesis, or

"(B) in the packaging, repackaging, labeling, relabeling, or distribution of prescription drug products.

Such term does not include a wholesale distributor of drugs or a retail pharmacy licensed under State law.

"(5) The term 'non-Federal average manufacturer price' means, with respect to a covered drug and a period of time (as determined by the Secretary), the weighted average price of a single form and dosage unit of the drug that is paid by wholesalers in the United States to the manufacturer, taking into account any cash discounts or similar price reductions during that period, but not taking into account—

"(A) any prices paid by the Federal Government; or

"(B) any prices found by the Secretary to be merely nominal in amount.

"(6) The term 'weighted average price' means, with respect to a covered drug and a period of time (as determined by the Secretary) an amount equal to—

"(A) the sum of the products of the average price per package unit of each quantity of the drug sold during the period and the number of package units of the drug sold during the period; divided by

"(B) the total number of package units of the drug sold during the period.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 8125 the following new item:

"8126. Limitation on prices of drugs procured by Department.".

TITLE VII—PERSIAN GULF WAR VETERANS' HEALTH STATUS

SEC. 701. SHORT TITLE.

This title may be cited as the "Persian Gulf War Veterans' Health Status Act".

SEC. 702. PERSIAN GULF WAR VETERANS HEALTH REGISTRY.

(a) Establishment of Registry.—The Secretary of Veterans Affairs shall establish and maintain a special record to be known as the "Persian Gulf War Veterans Health Registry" (in this section referred to as the "Registry").

(b) Contents of Registry.—Except as provided in subsection (c), the Registry shall include the following information:

(1) A list containing the name of each individual who served as a member of the Armed Forces in the Persian Gulf theater of operations during the Persian Gulf War and who—

(A) applies for care or services from the Department of Veterans Affairs under chapter 17 of title 38, United States Code;

(B) files a claim for compensation under chapter 11 of such title on the basis of any disability which may be associated with such service;

(C) dies and is survived by a spouse, child, or parent who files a claim for dependency and indemnity compensation under chapter 13 of such title on the basis of such service;

(D) requests from the Department a health examination under section 703; or

(E) receives from the Department of Defense a health examination similar to the health examination referred to in subparagraph (D) and requests inclusion in the Registry.

(2) Relevant medical data relating to the health status of, and other information that the Secretary considers relevant and appropriate with respect to, each individual described in paragraph (1) who—

(A) grants to the Secretary permission to include such information in the Registry; or

(B) at the time the individual is listed in the Registry, is deceased.

(c) Individuals Submitting Claims or Making Requests Before Date of Enactment.—If in the case of an individual described in subsection (b)(1) the application, claim, or request referred to in such subsection was submitted, filed, or made, before the date of the enactment of this Act, the Secretary shall, to the extent feasible, include in the Registry such individual's name and the data and information, if any, described in subsection (b)(2) relating to the individual.

(d) Department of Defense Information.—The Secretary of Defense shall furnish to the Secretary of Veterans Affairs such information maintained by the Department of Defense as the Secretary of Veterans Affairs considers necessary to establish and maintain the Registry.

(e) Relation to Department of Defense Registry.—The Secretary of Veterans Affairs, in consultation with the Secretary of Defense, shall ensure that information is collected and maintained in the Registry in a manner that permits effective and efficient cross-reference between the Registry and the registry established under section 734 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102–190; 105 Stat. 1411; 10 U.S.C. 1074 note), as amended by section 704.

(f) Ongoing Outreach to Individuals Listed in Registry.—The Secretary of Veterans Affairs shall, from time to time, notify individuals listed in the Registry of significant developments in research on the health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War.

SEC. 703. HEALTH EXAMINATIONS AND COUNSELING FOR VETERANS ELIGIBLE FOR INCLUSION IN CERTAIN HEALTH-RELATED REGISTRIES.

(a) In General.—(1) The Secretary of Veterans Affairs—

(A) shall, upon the request of a veteran described in subsection (b)(1), provide the veteran with a health examination and consultation and counseling with respect to the results of the examination; and

(B) may, upon the request of a veteran described in subsection (b)(2), provide the veteran with such an examination and such consultation and counseling.

(2) The Secretary shall carry out appropriate outreach activities with respect to the provision of any health examinations and consultation and counseling services under paragraph (1).

(b) Covered Veterans.—(1) In accordance with subsection (a)(1)(A), the Secretary shall provide an examination, consultation, and counseling under that subsection to any veteran who is eligible for listing or inclusion in the Persian Gulf War Veterans Health Registry established by section 702.

(2) In accordance with subsection (a)(1)(B), the Secretary may provide an examination, consultation, and counseling under that subsection to any veteran who is eligible for listing or inclusion in any other similar health-related registry administered by the Secretary.

SEC. 704. EXPANSION OF COVERAGE OF PERSIAN GULF REGISTRY.

(a) In General.—Subsections (a) and (b) of section 734 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102–190; 105 Stat. 1411; 10 U.S.C. 1074 note) are amended to read as follows:

"(a) Establishment of Registry.—The Secretary of Defense shall establish and maintain a special record (in this section referred to as the 'Registry') relating to the following members of the Armed Forces:

"(1) Members who, as determined by the Secretary, were exposed to the fumes of burning oil in the Operation Desert Storm theater of operations during the Persian Gulf conflict.

"(2) Any other members who served in the Operation Desert Storm theater of operations during the Persian Gulf conflict.

"(b) Contents of Registry.—(1) The Registry shall include—

"(A) with respect to each class of members referred to in each of paragraphs (1) and (2) of subsection (a)—

"(i) a list containing each such member's name and other relevant identifying information with respect to the member; and

"(ii) to the extent that data are available and inclusion of the data is feasible, a description of the circumstances of the member's service during the Persian Gulf conflict, including the locations in the Operation Desert Storm theater of operations in which such service occurred and the atmospheric and other environmental circumstances in such locations at the time of such service; and

"(B) with respect to the members referred to in subsection (a)(1), a description of the circumstances of each exposure of each such member to the fumes of burning oil as described in such subsection (a)(1), including the length of time of the exposure.

"(2) The Secretary shall establish the Registry with the advice of an independent scientific organization.".

(b) Conforming Amendments.—(1) Subsection (c)(1) of such section is amended by striking out "subsection (a)" and inserting in lieu thereof "subsection (a)(1)".

(2) Subsection (d) of such section is amended by inserting "pursuant to subsection (a)(1)" after "Registry".

SEC. 705. STUDY BY OFFICE OF TECHNOLOGY ASSESSMENT OF PERSIAN GULF REGISTRY AND PERSIAN GULF WAR VETERANS HEALTH REGISTRY.

(a) Study.—The Director of the Office of Technology Assessment shall, in a manner consistent with the Technology Assessment Act of 1972 (2 U.S.C. 472(d)), assess—

(1) the potential utility of each of the Persian Gulf Registry and the Persian Gulf War Veterans Health Registry for scientific study and assessment of the intermediate and long-term health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War;

(2) the extent to which each registry meets the requirements of the provisions of law under which the registry is established;

(3) the extent to which data contained in each registry—

(A) are maintained in a manner that ensures permanent preservation and facilitates the effective, efficient retrieval of information that is potentially relevant to the scientific study of the intermediate and long-term health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War; and

(B) would be useful for scientific study regarding such health consequences;

(4) the adequacy of any plans to update each of the registries;

(5) the extent to which the Department of Defense or the Department of Veterans Affairs, as the case may be, is assembling and maintaining information on the Persian Gulf theater of operations (including information on troop locations and atmospheric and weather conditions) in a manner that facilitates the usefulness of, maintenance of, and retrieval of information from, the applicable registry; and

(6) the adequacy and compatibility of protocols for the health examinations and counseling provided under section 703 and health

examinations provided by the Department of Defense to members of the Armed Forces for the purpose of assessing the health status of members of the Armed Forces who served in the Persian Gulf theater of operations during the Persian Gulf War.

(b) ACCESS TO INFORMATION.—The Secretary of Veterans Affairs and the Secretary of Defense shall provide the Director with access to such records and information under the jurisdiction of each such secretary as the Director determines necessary to permit the Director to carry out the study required under this section.

(c) REPORTS.—The Director shall—

(1) not later than 270 days after the date of the enactment of this Act, submit to Congress a report on the results of the assessment carried out under this section of the Persian Gulf Registry and health-examination protocols; and

(2) not later than 15 months after such date, submit to Congress a report on the results of the assessment carried out under this section of the Persian Gulf War Veterans Health Registry.

(d) DEFINITIONS.—For the purposes of this section:

(1) The term "Persian Gulf Registry" means the registry established under section 734 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102–190; 105 Stat. 1411; 10 U.S.C. 1074 note), as amended by section 704.

(2) The term "Persian Gulf War Veterans Health Registry" means the Persian Gulf War Veterans Health Registry established under section 702.

SEC. 706. AGREEMENT WITH NATIONAL ACADEMY OF SCIENCES FOR REVIEW OF HEALTH CONSEQUENCES OF SERVICE DURING THE PERSIAN GULF WAR.

(a) AGREEMENT.—(1) The Secretary of Veterans Affairs and Secretary of Defense jointly shall seek to enter into an agreement with the National Academy of Sciences for the Medical Follow-Up Agency (MFUA) of the Institute of Medicine of the Academy to review existing scientific, medical, and other information on the health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War.

(2) The agreement shall require MFUA to provide members of veterans organizations and members of the scientific community (including the Director of the Office of Technology Assessment) with the opportunity to comment on the method or methods MFUA proposes to use in conducting the review.

(3) The agreement shall permit MFUA, in conducting the review, to examine and evaluate medical records of individuals who are included in the registries referred to in section 705(d) for purposes that MFUA considers appropriate, including the purpose of identifying illnesses of those individuals.

(4) The Secretary of Veterans Affairs and the Secretary of Defense shall seek to enter into the agreement under this section not later than 180 days after the date of the enactment of this Act.

(b) REPORT.—(1) The agreement under this section shall require the National Academy of Sciences to submit to the committees and secretaries referred to in paragraph (2) a report on the results of the review carried out under the agreement. Such report shall contain the following:

(A) An assessment of the effectiveness of actions taken by the Secretary of Veterans Affairs and the Secretary of Defense to collect and maintain information that is potentially useful for assessing the health consequences of the military service referred to in subsection (a).

(B) Recommendations on means of improving the collection and maintenance of such information.

(C) Recommendations on whether there is sound scientific basis for an epidemiological study or studies on the health consequences of such service, and if the recommendation is that there is sound scientific basis for such a study or studies, the nature of the study or studies.

(2) The committees and secretaries referred to in paragraph (1) are the following:

(A) The Committees on Veterans' Affairs of the Senate and House of Representatives.

(B) The Committees on Armed Services of the Senate and House of Representatives.

(C) The Secretary of Veterans Affairs.

(D) The Secretary of Defense.

(c) FUNDING.—(1) The Secretary of Veterans Affairs and the Secretary of Defense shall make available up to a total of $500,000 in fiscal year 1993, from funds available to the Department of Veterans Affairs and the Department of Defense in that fiscal year, to carry out the review. Any amounts provided by the two departments shall be provided in equal amounts.

(2) If the Secretary of Veterans Affairs and the Secretary of Defense enter into an agreement under subsection (a) with the National Academy of Sciences—

(A) the Secretary of Veterans Affairs shall make available $250,000 in each of fiscal years 1994 through 2003, from amounts available to the Department of Veterans Affairs in each such fiscal year, to the National Academy of Sciences for the general purposes of conducting epidemiological research with respect to military and veterans populations; and

(B) the Secretary of Defense shall make available $250,000 in each of fiscal years 1994 through 2003, from amounts available to the Department of Defense in each such fiscal year, to the National Academy of Sciences for the purposes of conducting the research referred to in subparagraph (A).

SEC. 707. COORDINATION OF GOVERNMENT ACTIVITIES ON HEALTH-RELATED RESEARCH ON THE PERSIAN GULF WAR.

(a) DESIGNATION OF COORDINATING ORGANIZATION.—The President shall designate, and may redesignate from time to time, the head of an appropriate department or agency of the Federal Government to coordinate all research activities undertaken or funded by the Executive Branch of the Federal Government on the health consequences of military service in the Persian Gulf theater of operations during the Persian Gulf War.

(b) REPORT.—Not later than March 1 of each year, the head of the department or agency designated under subsection (a) shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the status and results of all such research activities undertaken or funded by the Executive Branch of the Federal Government during the previous year.

SEC. 708. DEFINITION.

For the purposes of this title, the term "Persian Gulf War" has the meaning given such term in section 101(33) of title 38, United States Code.

TITLE VIII—COURT OF VETERANS APPEALS

SEC. 801. DISCIPLINARY PROCEDURES FOR JUDGES OF COURT OF VETERANS APPEALS.

Section 7253(g) is amended—

(1) by inserting "(1)" after "(g)"; and

(2) by adding at the end the following:

"(2) The provisions of paragraphs (7) through (15) of section 372(c) of title 28, regarding referral or certification to, and petition for review in, the Judicial Conference of the United States and action thereon, shall apply to the exercise by the Court of the powers of a judicial council under paragraph (1) of this subsection. The grounds for removal from office specified in subsection (f)(1) shall provide a basis for a determination pursuant to paragraph (7) or (8) of section 372(c) of title 28, and certification and transmittal by the Conference shall be made to the President for consideration under subsection (f).

"(3)(A) In conducting hearings pursuant to paragraph (1), the Court may exercise the authority provided under section 1821 of title 28 to pay the fees and allowances described in that section.

"(B) The Court shall have the power provided under section 372(c)(16) of title 28 to award reimbursement for the reasonable expenses described in that section. Reimbursements under this subparagraph shall be made from funds appropriated to the Court.".

In lieu of the Senate amendment to the title of the bill, amend the title so as to read: "An Act to amend title 38, United States Code, to improve health care services for women veterans, to expand authority for health care sharing agreements between the Department of Veterans Affairs and the Department of Defense to revise certain pay authorities that apply to Department of Veterans Affairs nurses, to improve preventive health services for veterans, to establish discounts on pharmaceuticals purchased by the Department of Veterans Affairs, to provide for a Persian Gulf War Veterans Health Registry, and to make other improvements in the delivery and administration of health care by the Department of Veterans Affairs.".

Mr. MONTGOMERY (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments and the House amendments to the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Mississippi?

Mr. STUMP. Mr. Speaker, reserving the right to object, I shall not object, and I yield to the gentleman for an explanation.

Mr. MONTGOMERY. I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of H.R. 5193, as amended, which includes most of the health care provisions considered by our committee this year. These amendments represent an agreement we have reached with the leadership of the Senate Veterans' Affairs Committee on S. 2575 which they sent to the House last week.

During each Congress, the Veterans' Committee brings many bills to the floor. But this year we were unusually busy, especially in working on VA medical programs. A review of the agreement we're taking up today is a good example of our concern about the status of health care for our veterans.

This is a wide-ranging measure. Among other things, it establishes a comprehensive health services program for women veterans. The agreement would expand the range of services provided to women veterans; establish a new counseling program for women who were sexually harassed or assaulted in service, and provide a new emphasis on research on women's health issues in VA.

The agreement would provide much-needed help to others as well. It takes a series of steps toward providing answers for Persian Gulf veterans concerned about possible health risks associated with their service. These include authorizing VA to establish a registry for those who served, and establishing a scientific framework for further analysis of possible health risks. The bill would call on the congressional Office of Technology Assessment to review the manner in which VA and DOD maintain their registries and would authorize VA to enter into an agreement with the National Academy of Sciences to review these health care concerns.

VA nurses who face problems of pay compression will also find relief in this agreement. It has provisions to fine-tune the Nurse Pay Act which was enacted in the 101st Congress.

This agreement should also provide a good solution to the problem of excessive pharmaceutical prices that has plagued the Department since April 1991. We have tried to bring the Department back to the market environment which was in place prior to 1991 and to reestablish discounted drug prices without hurting the Medicaid Program. Developing this remedial legislation was difficult, but I want to thank Mr. DINGELL, Mr. WAXMAN, Mr. LENT, and Mr. DANNEMEYER of the Energy and Commerce Committee for sticking with veterans and helping us resolve this issue.

Of course, I want to thank the ranking minority member of our Subcommittee on Hospitals and Health Care, JOHN PAUL HAMMERSCHMIDT, as well as the ranking minority member of the full committee, BOB STUMP. BOB and I appeared before Mr. WAXMAN's subcommittee on behalf of this legislation, and I am very grateful for his strong support of this bill.

Another important provision of the agreement would expand VA's authority to share health care resources with the Department of Defense. It would permit the VA hospitals to enter into agreements with DOD facilities to provide services on a space-available basis to members of the military, their dependents and military retirees. Before entering into such an agreement, however, VA would be required to show that it would improve services to veterans at the facility and that care to veterans would not be diminished. This measure promises veterans improved services through better access or shorter waiting times.

The agreement also contains certain improvements to general health care and administration programs. It will make permanent VA's authority to provide respite care to veterans who are cared for in a home-setting, establish a National Center for Preventive Health and extend the Health Professional Scholarship Program.

The agreement authorizes a demonstration project to examine options for, and the cost effectiveness of, providing bedside telephones in VA hospitals. This project would tell the committee more about the problems, if any, and the cost involved in providing telephone service for veteran patients in our veterans hospitals.

Finally, the agreement includes a very reasonable compromise on the issue of accommodating veterans who want to smoke at our veterans hospitals by requiring the Secretary to provide an accessible, protected area for smoking, either inside the hospital or nearby, that will not adversely affect the health of other patients and staff.

I urge my colleagues to support the proposed House amendments.

Mr. STUMP. Mr. Speaker, further reserving the right to object, I yield to the gentleman from California [Mr. WAXMAN].

Mr. WAXMAN. Mr. Speaker, I just want to point out that we worked very closely together on this legislation insofar as it applies to the Medicaid Program. I urge support for the legislation.

Mr. STUMP. Mr. Speaker, further reserving the right to object, I rise in strong support of H.R. 5193, the Veterans Health Care Improvement Act of 1992. It contains many important provisions which will improve certain programs at the Department of Veterans Affairs.

The bill reflects compromises which have been worked out between the House and Senate Committees on Veterans' Affairs, as well as, the Energy and Commerce Committee. This bill also marks the last legislative initiative bearing the efforts of two prominent congressional advocates for our Nation's veterans. Mr. Speaker, my good friend Congressman JOHN PAUL HAMMERSCHMIDT the ranking minority member of the Subcommittee on Hospitals and Health Care and long-time member of the committee and Senator ALAN CRANSTON, the chairman of the Senate Committee on Veterans' Affairs are retiring.

I want the RECORD to show my deep appreciation for all of their efforts because they have greatly improved the lives of many individual veterans, and I would like to take this opportunity to pay tribute to JOHN PAUL.

Along with Chairman MONTGOMERY, JOHN PAUL has worked tirelessly to promote veterans' programs and garner support for them at the highest levels of Government. He has provided leadership and experienced counsel to the minority members of this committee for two decades. He has been the ranking member of the subcommittee since 1975. Additionally, JOHN PAUL served as ranking member of the full Committee on Veterans' Affairs from 1973 to 1987.

His nonpartisan approach to veterans' issues forged the best working relationship between minority and majority members of any committee in Congress. In all the years I have known JOHN PAUL, he has always set aside partisan politics in the name of advancing veterans' programs and benefits.

JOHN PAUL, on behalf of the minority members of this committee let me say thanks for your commitment and monumental contributions to American's 27 million veterans.

The Veterans' Committee is also losing CHALMERS WYLIE, CRAIG JAMES, and DICK NICHOLS at the end of this session and I would like to take this opportunity to recognize each one of them.

CHALMERS has long been a supporter of veterans' benefits and services, particularly in his role as former ranking minority member of the Education, Training and Employment Subcommittee.

CRAIG, while relatively new to the committee, has shown solid commitment to Florida veterans, and we thank him for his work.

Despite the harsh realities of redistricting, which put his reelection in jeopardy some time ago, DICK has made an extra effort to acquaint himself with the issues and fully participate in the committee's deliberations.

On behalf of the minority members of the committee we certainly wish them all the best in their future endeavors.

The compromise agreement we have before us today will provide counseling services for women veterans who have incurred sexual trauma while on active duty in the Armed Forces and makes general improvements to providing health care services to women.

Recent hearings have highlighted the need for the Department to take a more active role in providing services to women who now make up more than 4.2 percent of all veterans. In addition, we have expanded sharing agreements between the VA and the Department of Defense with the intention of adding more CHAMPS eligible women to VA's case mix which will promote cost-effective expansion of services to women veterans and in fact, all veterans. Title III of the bill contains certain improvements to the locality base pay system for VA nurses. The committee enacted nurse pay reform in the 101st Congress and the law is working extremely well overall. The amendments to that law will only serve to make technical improvements to nurse pay.

This bill also contains a compromise agreement on provisions contained in H.R. 2890, the Drug Procurement Amendments of 1992. H.R. 2890 pass this body on September 22, and is intended to reverse a trend of pharmaceutical price hikes which the Department has experienced since the enactment of OBRA 90.

This bill requires the Secretary of Veterans Affairs to establish a special registry of all veterans who served in the Persian Gulf theater of operations, provide medical examinations upon the veteran's request and list in the registry all relevant medical data regarding the veteran's health status. It also establishes a registry maintained by the Secretary of Defense which would identify where in the theater of operations the veteran served and to the extent feasible, the atmospheric and environmental circumstances at that location. This provision is intended to put in law what the Department of Defense is already doing on its own initiative.

The remainder of the bill contains general health care and administration improvements such as amendments to the Veterans State Home Programs, and the establishment of a National Center for Preventive Health.

Finally, Mr. Speaker, the bill contains a demonstration project which will provide bedside telephones at VA medical centers. Many veterans have complained over the years that the difficulty in accessing a phone while recuperating from an illness in a VA medical center only increases the isolation associated with hospitalization. This demo will identify for the committee the problems, if any, and the expense of wiring VA medical centers in order to provide bedside telephones to veterans.

I want to thank my colleagues, chairman MONTGOMERY, Senator CRANSTON, Senator SPECTER, and Congressman JOHN PAUL HAMMERSCHMIDT for their hard work on these provisions. Mr. Speaker, H.R. 5193 is a good bill and the administration has no objection to its passage. I urge the support of my colleagues.

Mrs. SCHROEDER. Mr. Speaker, over the past year and a half, America has been hearing heartwrenching stories of women who were sexually abused in the military. These women need help—help in bringing a sense of justice back into their lives and help in getting services they deserve.

In August, with the support of many of my colleagues from the Veterans' Committee, Representatives LANE EVANS, JILL LONG MARILYN LLOYD, and DON EDWARDS and I introduced H.R. 5885 to provide veterans who suffered sexual violence in the military with comprehensive psychological and medical services on a priority basis. The bill improved necessary women's health services care at VA hospitals. It also mandated extensive research on women veterans so we can learn why women veterans contract cancer at twice the rate of civilian women, and make the VA more responsive to the unique health problems facing women.

The bill we are considering tonight, H.R. 5193, does not go as far as H.R. 5885, but it is a good beginning.

H.R. 5193 allows women veterans, at the discretion of the Secretary, to receive sexual trauma counseling at the VA for 1 year, and only if the veteran applies for services within 2 years of separating from the military. This bill provides limited contract authority to the VA for such treatment only through 1994. Furthermore, although H.R. 5193 will improve mammography, pap smears, and general reproductive health care at VA hospitals, it does not provide services for medical complications due to sexual trauma. In addition, the research provisions for women veterans remain vague.

H.R. 5193 is a start, but we're not finished yet. I look forward to working with the committee next year on making the VA more receptive to women veterans.

Mr. HAMMERSCHMIDT. I rise today in strong support of H.R. 5193, as amended, the Veterans Health Care Improvement Act of 1992. This is a very comprehensive and substantive bill which contains provisions relating to issues affecting a broad range of veterans' programs. I want to thank Chairman MONTGOMERY and the ranking member, Representative STUMP, or their hard work and resolve in bringing H.R. 5193 before us today as we near the end of a hectic legislative schedule.

First, H.R. 5193 contains a provision to establish a Persian Gulf war veterans registry to track adverse health effects experienced by these men and women. We are hearing more and more reports each day of Persian Gulf veterans suffering from health effects related to exposure to such environmental hazards as the oil fires in Kuwait and other potentially toxic materials.

The Department of Veterans Affairs [VA] is to be commended for their efficiency in establishing three referral centers in Houston, Washington, DC, and Los Angeles, to handle cases of unusual symptoms in our newest group of veterans. Nevertheless, it is critical that we provide the VA with the legislative authority to set up this computerized registry to further assess the health condition of Persian Gulf veterans.

H.R. 5193 also contains the provisions of H.R. 2890, the VA-Medicaid Drug Procurement Amendments of 1992, which the House passed on September 22. This measure is critical to alleviating the effect of unprecedented pharmaceutical price increases to the VA health care system. H.R. 5193 will exclude Federal prices from pharmaceutical manufacturers' calculation of best price used to fix Medicaid rebates. Additionally, this legislation requires that the VA receive a 24-percent discount off the average prices charged to non-Federal pharmaceutical buyers.

H.R. 5193 also expands current health care sharing agreements between the VA and the Department of Defense [DOD]. The Secretary of Veterans Affairs would be authorized to provide services on a space-available basis to any CHAMPUS beneficiary under VA–DOD sharing agreements, as well as permit the VA to provide such services in areas where there is no DOD health care facility or where such a facility will be closing.

This legislation is very timely in light of two factors, the first being the numerous base closings that are leaving military retirees and their dependents without direct access to health care facilities. Second, a 10-year trend of underfunding of the VA health care system has naturally taken its toll. It is imperative that these cost-sharing proposals be tested in order to preserve and enhance the ability of the VA to care for its veteran population.

Furthermore, H.R. 5193 establishes counseling services for women veterans who have suffered from sexual trauma in the Armed Forces and makes much needed improvements in VA health care services for women.

Finally, I want to mention that H.R. 5193 makes technical improvements to Public Law 101–366, the Nurse Pay Act, to address some problem areas, specifically pay compression at the intermediate and senior grades.

Mr. Speaker, H.R. 5193 is a compromise bill which will greatly improve a range of services for our Nation's veterans. I urge my colleagues to support H.R. 5193.

Mr. SLATTERY. Mr. Speaker, I rise in support of this measure, which I believe is landmark legislation regarding the health care of our Nation's veterans.

I specifically would like to highlight title VI of this legislation which reflects provisions that were included in a bill I introduced earlier this evening on behalf of Energy and Commerce Committee Chairman DINGELL and Veterans' Committee Chairman MONTGOMERY, both committees on which I serve. This bill, the Medicaid and Department of Veterans Affairs Drug Rebate Amendments of 1992 Act, is a carefully crafted compromise between the House and Senate Veterans' Committees and the House Energy and Commerce Committee.

I commend the efforts of Representatives WAXMAN, BLILEY, and STUMP for their work reflected in the title VI provisions which establish limits on the price of drugs procured by the Department of Veterans Affairs [DVA] and by certain Federal health care entities.

While I believe that more work needs to be done in this area, I believe we've done as much as we can this year. I regret that we could not achieve a compromise on this issue which would have fixed the problem in a more comprehensive way. However, I am very pleased that there is a real fix in this bill for veterans and for attendees of public health service clinics and other Federal entities who will now be better protected from unfair drug pricing.

Title VI, the Medicaid and Department of Veterans Affairs Drug Rebate Amendments of 1992 Act, basically exempts the DVA and certain Federal health care entities from the Medicaid Best Price Program enacted in 1990 with requirements for agreements to be made by manufacturers and the Secretaries of Health and Human Services and Veterans Affairs.

I do remain concerned that Congressional Budget Office [CBO] predictions will come true and that the best price discounts we have seen for brand name drugs will continue to fade away. I believe that a flat rebate program would minimize the cost shifting that is currently taking place under the best price program. And that is why earlier this year I introduce H.R. 5614, a flat rebate alternative.

I would have preferred, at this time, to have addressed the concerns voiced by many public and private institutions such as nursing homes, HMO's, and hospitals which have experienced massive drug price hikes on their most frequently purchased products. These groups represent an important segment of consumers and include many of our constituents. They should not have to bear the brunt of cost shifting taking place under the current best price system.

I am encouraged, however, that Representatives WAXMAN and BLILEY recognize that this issue will have to be revisited and have indicated a willingness to hold hearings early next Congress before the House Energy and Commerce Subcommittee on Health. In the meantime, the data from the rebate-reporting provision included in this title will be very useful in assessing all aspects of the current rebate program.

I believe that title VI provisions of this bill accomplish an important first step in an effort to more broadly reform the current Medicaid prescription drug reimbursement system.

Mr. KOSTMAYER. Mr. Speaker, I rise today to support the compromise version of the veterans health care bill of 1992 because it includes a number of important provisions. It will insure that those veterans who need special respite care will continue to get it. It will also extend the Department of Veterans Affairs [VA] Health Professions Scholarship Program, which provides incentives and assistance to people who want to enter the health profession, yet find it difficult to pay for.

I also support this bill because it contains legislation which I introduced several months ago requiring the VA to install bedside telephones as a pilot program in the Philadelphia VA hospital.

It is unconscionable that in order for a patient to make a telephone call in a VA hospital, one must search for quarters and wander up and down the halls searching for an available pay phone. That it is nearly impossible for a patient to receive a phone call from family or friends is equally disturbing. The inclusion of this provision should go far in finally providing veterans needing hospital care with some of the conveniences which the rest of us have come to expect.

Mr. STUMP. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Mississippi?

There was no objection.

A motion to reconsider was laid on the table.

VETERANS HOME LOAN PROGRAM REVITALIZATION ACT OF 1992

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 939) to amend title 38, United States Code, with respect to housing loans for veterans, and for other purposes, with Senate amendments thereto, and concur in the Senate amendments with an amendment.

The Clerk read the Senate amendments and the House amendment to the Senate amendments, as follows:

Senate amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Veterans Home Loan Program Revitalization Act of 1992".

SEC. 2. ADJUSTABLE RATE MORTGAGE PILOT PROGRAM.

(a) IN GENERAL.—The Secretary of Veterans Affairs shall carry out a pilot program under this section during fiscal years 1993 through 1997 to demonstrate the feasibility of guaranteeing mortgages that provide for periodic adjustments by the mortgagee in the effective rate of interest charged. A mortgage may be guaranteed under this section only if it meets the requirements of chapter 37 of title 38, United States Code, except as those requirements are modified by this section.

(b) ADJUSTMENTS AUTHORIZED.—Interest rate adjustments or a mortgage guaranteed under this section shall—

(1) correspond to a specified national interest rate index approved in regulations by the Secretary, information on which is readily accessible to mortgagors from generally available published sources;

(2) be made by adjusting the monthly payment on an annual basis on the anniversary of the date on which the loan was closed;

(3) be limited, with respect to any single annual interest rate adjustment, to a maximum increase or decrease of 1 percentage point; and

(4) be limited, over the term of the mortgage, to a maximum increase of 5 percentage points above the initial contract interest rate.

(c) UNDERWRITING STANDARDS.—The Secretary shall promulgate underwriting standards for loans guaranteed under this section, taking into account—

(1) the status of the interest rate index referred to in subsection (b)(1) and available at the time an underwriting decision is made, regardless of the actual initial rate offered by the lender;

(2) the maximum and likely amounts of increases in mortgage payments that the loans would require;

(3) the underwriting standards applicable to adjustable rate mortgages insured under title II of the National Housing Act; and

(4) such other factors as the Secretary finds appropriate.

(d) REGULATIONS.—The Secretary shall issue regulations requiring that the mortgagee make available to the mortgagor, at the time of loan application, a written explanation of the features of the adjustable rate mortgage, including a hypothetical payment schedule that displays the maximum potential increases in monthly payments to the mortgagor over the first 5 years of the mortgage term.

(e) LIMITATIONS.—The aggregate number of mortgages and loans guaranteed under this section, may not exceed 10 percent of the aggregate number of mortgages and loans guaranteed by the Secretary under chapter 37 of title 38, United States Code, during the preceding fiscal year.

(f) REPORTS.—Not later than 1 year after the date on which the Secretary first exercises the authority to guarantee loans under this section, and for each of the four years thereafter, the Secretary shall transmit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the pilot program under this section. Each report shall contain a summary of loan activity for loans guaranteed under this section, including information pertaining to defaults and comparisons with the default rates for fixed-rate loans guaranteed under chapter 37 of title 38, United States Code, fixed-rate and adjustable rate loans insured under title II of the National Housing Act, and loans made in the conventional mortgage market.

SEC. 3. ENERGY EFFICIENT MORTGAGES.

(a) IN GENERAL.—The Secretary of Veterans Affairs shall carry out a pilot program under this section during fiscal years 1993 and 1994 to demonstrate the feasibility of guaranteeing mortgages for the acquisition of an existing dwelling and the cost of making energy efficiency improvements to the dwelling. A mortgage may be guaranteed under this section only if it meets the requirements of chapter 37 of title 38, United States Code, except as those requirements are modified by this section.

(b) IMPROVEMENTS AUTHORIZED.—The cost of energy efficiency measures that may be financed by a loan guaranteed under this section may not—

(1) exceed the greater of—

(A) $4,000; or

(B) an amount that is equal to 5 percent of the value of the dwelling before installation of the energy efficiency improvements but does not exceed $8,000; or

(2) increase the monthly payment for principal and interest by an amount greater than the likely reduction in monthly utility costs resulting from the energy efficiency improvements.

(c) GUARANTEE.—The Secretary shall guarantee a loan under this section in the same proportion as the guaranty that would be provided under section 3703(a)(1)(A) of title 38, United States Code, for the dwelling without the energy efficiency improvements. The amount of a veteran's entitlement, calculated in accordance with section 3703(a)(1)(B) of title 38, shall not be affected by the incremental amount of the guaranty provided for the portion of the loan necessary to finance the energy efficiency improvements.

(d) REGULATIONS.—The Secretary shall issue such regulations as may be necessary to carry out this section.

(e) LIMITATIONS.—The pilot program under this section shall be carried out in not fewer than 5 nor more than 10 States. The aggregate number of mortgages and loans guaranteed under this section, may not exceed 1,250 during fiscal years 1993 and 1994.

(f) OUTREACH.—The Secretary shall take appropriate actions to notify eligible veterans, participating lenders, and interested realtors in the States in which the pilot program will be carried out of the availability of loan guarantees under this section and the procedures and requirements that apply to the obtaining of such guarantees.

(g) TERMINATION.—If the Secretary finds that the aggregate incremental cost of the pilot program under this section will exceed a total of $2,000,000 during fiscal years 1993 and 1994, the Secretary may terminate the program under this section prior to the close of fiscal year 1994.

(h) REPORTS.—Not later than 1 year after the date on which the Secretary first exercises the authority to guarantee loans under this section, and for each of the 5 years thereafter, the Secretary shall transmit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the pilot program under this section. Each such report shall contain information pertaining to default rates on the mortgages guaranteed under this section and information on the effect of energy efficiency improvements on resale values and home utility consumption and costs.

(i) EFFECT ON OTHER LAW.—This section does not supersede or otherwise affect the guarantee authority under section 3710(a)(7) of title 38, United States Code.

SEC. 4. NEGOTIATED INTEREST RATES.

(a) IN GENERAL.—Section 3703(c) of title 38, United States Code, is amended—

(1) in the first sentence of paragraph (1)—

(A) by striking "the Secretary of Housing and Urban Development considers necessary to meet the mortgage market for" and inserting "applicable to"; and

(B) by striking all that follows "(12 U.S.C. 1709(b))" and inserting a period; and

(2) by adding at the end the following:

"(4)(A) In guaranteeing or insuring loans under this chapter, the Secretary shall elect to require that such loans bear interest at a rate that is—

"(i) agreed upon by the veteran and the mortgagee; or

"(ii) established under paragraph (1).

The Secretary may, from time to time, change the election under this subparagraph.

"(B) Any veteran, under a loan described in subparagraph (A)(i), may pay reasonable discount points in connection with the loan. Discount points may not be financed as part of the principal amount of a loan guaranteed or insured under this chapter.

"(C) Not later than 10 days after an election under subparagraph (A), the Secretary shall transmit to the Committees on Veterans' Affairs of the Senate and House of Representatives a notification of the election, together with an explanation of the reasons therefor.

"(D) This paragraph shall expire on December 31, 1994.".

(b) Report.—Not later than March 1, 1994, the Secretary of Veterans Affairs shall transmit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on whether the Secretary has implemented the authority to guarantee and insure loans that bear negotiated interest rates and points. If the Secretary has implemented that authority, the Secretary shall include in the report an assessment of the effect of that action on—

(1) the ability of veterans to obtain guaranteed and insured loans;

(2) the interest rates applicable to the loans bearing negotiated rates; and

(3) the prices paid by veterans for homes securing the loans bearing negotiated rates.

SEC. 5. EXTENSION OF ENHANCED LOAN ASSET SALE AUTHORITY.

Section 3720(h)(2) of title 38, United States Code, is amended by striking out "December 31, 1992" and inserting in lieu thereof "December 31, 1995".

SEC. 6. ELIGIBILITY OF SELECTED RESERVE FOR HOUSING LOANS.

(a) Eligibility.—Chapter 37 of title 38, United States Code, is amended—

(1) in section 3701(b), by adding at the end the following:

"(5)(A) The term 'veteran' also includes an individual not otherwise eligible for the benefits of this chapter who has completed a total of service of at least 6 years in the Selected Reserve and who, following the completion of such service, was discharged from service with an honorable discharge, was placed on the retired list, was transferred to the Standby Reserve or an element of the Ready Reserve other than the Selected Reserve after service in the Selected Reserve characterized by the Secretary concerned as honorable service, or continues serving in the Selected Reserve.

"(B) In this paragraph, the term 'Selected Reserve' means the Selected Reserve of the Ready Reserve of any of the reserve components, as required to be maintained under section 268(b) of title 10."; and

(2) in section 3702(a)(2), by adding at the end the following:

"(E) Each veteran described in section 3701(b)(5) of this title.".

(b) Fees.—(1) Section 3729(a)(2) of such title is amended—

(A) by striking out "and" at the end of subparagraph (B);

(B) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof "; and"; and

(C) by adding after subparagraph (C) the following new subparagraph:

"(D) in the case of a loan under this chapter made to, or guaranteed or insured on behalf of, a veteran described in section 3701(b)(5) of this title, the amount of such fee shall be—

"(i) two percent of the total loan amount;

"(ii) in the case of a loan for any purpose specified in section 3712 of this title, one percent of such amount; or

"(iii) in the case of a loan for a purchase (other than a purchase referred to in section 3712 of this title) or for construction with respect to which the veteran makes a downpayment of 5 percent or more of the total purchase price or construction cost—

"(I) 1.50 percent of the total loan amount if such downpayment is less than 10 percent of such price or cost; or

"(II) 1.25 percent of the total loan amount if such downpayment is 10 percent or more of such price or cost.".

(2) Subparagraphs (A) and (B) of section 3725(c)(2) of such title are each amended by inserting "(other than loans described in section 3729(a)(2)(D) of this title)" after "for each loan".

(c) Effective Date; Sunset.—The amendments made by subsections (a) and (b) shall take effect on October 1, 1992, and expire on December 31, 1998.

(d) Report by Secretary of Veterans Affairs.—Not later than September 30, 1997, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the veterans provided housing loan benefits under chapter 37 of title 38, United States Code, as a result of the amendments made by subsection (a). The report shall contain information on—

(1) the number of individuals provided such benefits under that chapter by reason of such amendments during the period beginning on October 1, 1992, and ending on the date of the report;

(2) the default rates on loans provided to such veterans under that chapter by reason of such amendments during that period; and

(3) the extent to which such default rates differ from the default rates on other loans provided under that chapter during that period.

Amend the title so as to read: "An Act to amend title 38, United States Code, with respect to housing loans for veterans.".

House amendment to Senate amendments: In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Veterans Home Loan Program Amendments of 1992".

SEC. 2. ELIGIBILITY OF SELECTED RESERVE.

(a) Selected Reserve.—Chapter 37 of title 38, United States Code, is amended—

(1) in section 3701(b), by adding at the end the following:

"(5)(A) The term 'veteran' also includes an individual who is not otherwise eligible for the benefits of this chapter and who has completed a total service of at least 6 years in the Selected Reserve and, following the completion of such service, was discharged from service with an honorable discharge, was placed on the retired list, was transferred to the Standby Reserve or an element of the Ready Reserve other than the Selected Reserve after service in the Selected Reserve characterized by the Secretary concerned as honorable service, or continues serving in the Selected Reserve.

"(B) The term 'Selected Reserve' means the Selected Reserve of the Ready Reserve of any of the reserve components (including the Army National Guard of the United States and the Air National Guard of the United States) of the Armed Forces, as required to be maintained under section 268(b) of title 10."; and

(2) in section 3702(a)(2), by adding at the end the following:

"(E) For the 7-year period beginning on the date of enactment of this subparagraph, each veteran described in section 3701(b)(5) of this title.".

(b) Fees.—(1) Section 3729(a)(2) of such title is amended—

(A) by striking out "and" at the end of subparagraph (B);

(B) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof a semicolon; and

(C) by adding after subparagraph (C) the following new subparagraph:

"(D) in the case of a loan made to, or guaranteed or insured on behalf of, a veteran described in section 3701(b)(5) of this title under this chapter, the amount of such fee shall be—

"(i) two percent of the total loan amount;

"(ii) in the case of a loan for any purpose specified in section 3712 of this title, one percent of such amount; or

"(iii) in the case of a loan for a purchase (other than a purchase referred to in section 3712 of this title) or for construction with respect to which the veteran has made a downpayment of 5 percent or more of the total purchase price or construction cost—

"(I) 1.50 percent of the total loan amount if such downpayment is less than 10 percent of such price or cost; or

"(II) 1.25 percent of the total loan amount if such downpayment is 10 percent or more of such price or cost; and".

(2) Subparagraphs (A) and (B) of section 3725(c)(2) of such title are amended by inserting "(other than loans described in section 3729(a)(2)(D) of this title)" after "for each loan".

(c) Report.—The Secretary of Veterans Affairs shall transmit a report to the Committees on Veterans' Affairs of the Senate and House of Representatives no later than December 31, 1994, and annually thereafter. The report shall contain—

(1) a declaration of the number of veterans (as defined by section 3701(b)(5) of title 38, United States Code) who receive mortgage loans guaranteed by the Secretary as a result of the amendments made by subsection (a);

(2) a comparison of the default rate of veterans described in paragraph (1) with the default rate for all other veterans who have received loans guaranteed or insured by the Secretary; and

(3) a comparison of the proportion of veterans who receive mortgage loans guaranteed by the Secretary as a result of the amendments made by subsection (a) who are first time homebuyers with the proportion of all other veterans who receive mortgage loans guaranteed or insured by the Secretary and who are first time homebuyers.

SEC. 3. ADJUSTABLE RATE MORTGAGE DEMONSTRATION PROGRAM.

(a) In General.—(1) Chapter 37 of title 38, United States Code, is amended by adding after section 3706 the following new section:

"§ 3707. Adjustable rate mortgages

"(a) The Secretary shall carry out a demonstration project under this section during fiscal years 1993, 1994, and 1995 for the purpose of guaranteeing loans in a manner similar to the manner in which the Secretary of Housing and Urban Development insures adjustable rate mortgages under section 251 of the National Housing Act.

"(b) Interest rate adjustment provisions of a mortgage guaranteed under this section shall—

"(1) correspond to a specified national interest rate index approved by the Secretary, information on which is readily accessible to mortgagors from generally available published sources;

"(2) be made by adjusting the monthly payment on an annual basis on the anniversary of the date on which the loan was closed;

"(3) be limited, with respect to any single annual interest rate adjustment, to a maximum increase or decrease of 1 percentage point; and

"(4) be limited, over the term of the mortgage, to a maximum increase of 5 percentage points above the initial contract interest rate.

"(c) The Secretary shall promulgate underwriting standards for loans guaranteed under this section, taking into account—

"(1) the status of the interest rate index referred to in subsection (b)(1) and available at the time an underwriting decision is made, regardless of the actual initial rate offered by the lender;

"(2) the maximum and likely amounts of increases in mortgage payments that the loans would require;

"(3) the underwriting standards applicable to adjustable rate mortgages insured under title II of the National Housing Act; and

"(4) such other factors as the Secretary finds appropriate.

"(d) The Secretary shall require that the mortgagee make available to the mortgagor, at the time of loan application, a written explanation of the features of the adjustable rate mortgage, including a hypothetical payment schedule that displays the maximum potential increases in monthly payments to the mortgagor over the first five years of the mortgage term.".

(2) The table of sections for chapter 37, of title 38, United States Code, is amended by inserting after the item relating to section 3706 the following new item:

"3707. Adjustable rate mortgages.".

(b) REPORT.—The Secretary shall transmit a report to the Committees on Veterans' Affairs of the Senate and House of Representatives no later than December 31, 1993, containing a description of the project carried out under section 3707 of title 38, United States Code (as added by subsection (a)), and shall continue to make annual reports to the Committees with respect to the default rate and other information concerning the loans guaranteed under such section. Such reports shall—

(1) compare the number of adjustable rate mortgages guaranteed under such section with the number of fixed rate loans guaranteed or insured under chapter 37 of such title and contrast this ratio with a corresponding ratio for loans for single family housing insured by the Secretary of Housing and Urban Development pursuant to the National Housing Act;

(2) compare the initial interest rate of the adjustable rate mortgages guaranteed under such section with the fixed interest rate on loans guaranteed or insured under chapter 37 of such title;

(3) describe the monthly mortgage payment savings to the veteran, if any, under an adjustable rate mortgage guaranteed under such section compared with the payments that would have been required if the loan bore interest at a maximum fixed rate established by the Secretary;

(4) discuss whether the market share for housing loans guaranteed under chapter 37 of such title has increased or decreased since the implementation of such section;

(5) compare the default rate on mortgages guaranteed under such section with the default rate of fixed-rate mortgages guaranteed or insured under chapter 37 of such title; and

(6) compare the number of first time homebuyers using adjustable rate mortgage loans under such section with the number of first time homebuyers using any other loan guaranteed under chapter 37 of such title.

SEC. 4. ENHANCED LOAN ASSET SALE AUTHORITY.

Section 3720(h)(2) of title 38, United States Code, is amended by striking out "December 31, 1992" and inserting in lieu thereof "December 31, 1995".

SEC. 5. FEES FOR REFINANCING LOANS.

Section 3729(a)(2) of title 38, United States Code (as amended by section 2(b) of this Act), is amended—

(1) in subparagraph (A), by inserting "(other than section 3712(a)(1)(F))" after "section 3712"; and

(2) by inserting after subparagraph (D) the following new subparagraph:

"(E) in the case of a loan guaranteed under section 3710(a)(8), 3710(a)(9)(B)(i), or 3712(a)(1)(F) of this title, the amount of such fee shall be 0.5 percent of the total loan amount.".

SEC. 6. GUARANTY AMOUNT RELATIVE TO LOAN REFINANCINGS.

Chapter 37 of title 38, United States Code, is amended—

(1) in section 3710(e), by amending paragraph (1)(D) to read as follows:

"(D) notwithstanding section 3703(a)(1) of this title, the amount of the guaranty of the loan may not exceed the greater of (i) the original guaranty amount of the loan being refinanced, or (ii) 25 percent of the loan;"; and

(2) in section 3712(a)(4), by amending subparagraph (A)(iv) to read as follows:

"(iv) notwithstanding section 3703(a)(1) of this title, the amount of the guaranty of the loan may not exceed the greater of (I) the original guaranty amount of the loan being refinanced, or (II) 25 percent of the loan;".

SEC. 7. EXTENSION OF LENDER APPRAISAL PROGRAM.

Section 3731(f)(3) of title 38, United States Code, is amended by striking out "1992" and inserting in lieu thereof "1995".

SEC. 8. NATIVE AMERICAN VETERANS DIRECT HOUSING LOAN PILOT PROGRAM.

(a) PROGRAM.—Chapter 37 of title 38, United States Code, is amended by adding at the end the following new subchapter:

"SUBCHAPTER V—NATIVE AMERICAN VETERAN HOUSING LOAN PILOT PROGRAM

"§3761. Pilot program

"(a) The Secretary shall establish and implement a pilot program under which the Secretary may make direct housing loans to Native American veterans. The purpose of such loans is to permit such veterans to purchase, construct, or improve dwellings on trust land. The Secretary shall establish and implement the pilot program in accordance with the provisions of this subchapter.

"(b) In carrying out the pilot program under this subchapter, the Secretary shall, to the extent practicable, make direct housing loans to Native American veterans who are located in a variety of geographic areas and in areas experiencing a variety of economic circumstances.

"(c) No loans may be made under this subchapter after September 30, 1997.

"§3762. Direct housing loans to Native American veterans

"(a) The Secretary may make a direct housing loan to a Native American veteran if—

"(1) the Secretary has entered into a memorandum of understanding with respect to such loans with the tribal organization that has jurisdiction over the veteran; and

"(2) the memorandum is in effect when the loan is made.

"(b)(1) Subject to paragraph (2), the Secretary shall ensure that each memorandum of understanding that the Secretary enters into with a tribal organization shall provide for the following:

"(A) That each Native American veteran who is under the jurisdiction of the tribal organization and to whom the Secretary makes a direct loan under this subchapter—

"(i) holds, possesses, or purchases using the proceeds of the loan a meaningful interest in a lot or dwelling (or both) that is located on trust land; and

"(ii) will purchase, construct, or improve (as the case may be) a dwelling on the lot using the proceeds of the loan.

"(B) That each such Native American veteran will convey to the Secretary by an appropriate instrument the interest referred to in subparagraph (A) as security for a direct housing loan under this subchapter.

"(C) That the tribal organization and each such Native American veteran will permit the Secretary to enter upon the trust land of that organization or veteran for the purposes of carrying out such actions as the Secretary determines are necessary—

"(i) to evaluate the advisability of the loan; and

"(ii) to monitor any purchase, construction, or improvements carried out using the proceeds of the loan.

"(D) That the tribal organization has established standards and procedures that apply to the foreclosure of the interest conveyed by a Native American veteran pursuant to subparagraph (B), including—

"(i) procedures for foreclosing the interest; and

"(ii) procedures for the resale of the lot or the dwelling (or both) purchased, constructed, or improved using the proceeds of the loan.

"(E) That the tribal organization agrees to such other terms and conditions with respect to the making of direct loans to Native American veterans under the jurisdiction of the tribal organization as the Secretary may require in order to ensure that the pilot program established under this subchapter is implemented in a responsible and prudent manner.

"(2) The Secretary may not enter into a memorandum of understanding with a tribal organization under this subsection unless the Secretary determines that the memorandum provides for such standards and procedures as are necessary for the reasonable protection of the financial interests of the United States.

"(c)(1)(A) Except as provided in subparagraph (B), the principal amount of any direct housing loan made to a Native American under this section may not exceed $80,000.

"(B) The Secretary may make loans exceeding the amount specified in subparagraph (A) in a geographic area if the Secretary determines that housing costs in the area are significantly higher than average housing costs nationwide. The amount of such increase shall be the amount that the Secretary determines is necessary in order to carry out the pilot program under this subchapter in a manner that demonstrates the advisability of making direct housing loans to Native American veterans who are located in a variety of geographic areas and in geographic areas experiencing a variety of economic conditions.

"(2) Loans made under this section shall bear interest at a rate determined by the Secretary, which rate may not exceed the appropriate rate authorized for guaranteed loans under section 3703(c)(1) or section 3712(f) of this title, and shall be subject to such requirements or limitations prescribed for loans guaranteed under this title as the Secretary may prescribe.

"(3) Notwithstanding section 3704(a) of this title, the Secretary shall establish minimum requirements for planning, construction, improvement, and general acceptability relating to any direct loan made under this section.

"(d)(1) The Secretary shall establish credit underwriting standards to be used in evaluating loans made under this subchapter. In establishing such standards, the Secretary shall take into account the purpose of this program to make available housing to Native American veterans living on trust lands.

"(2) The Secretary shall determine the reasonable value of the interest in property that will serve as security for a loan made under this section and shall establish procedures for appraisals upon which the Secretary may base such determinations. The procedures shall incorporate generally the relevant requirements of section 3731 of this title, unless the Secretary determines that such requirements are impracticable to implement in a geographic area, on particular trust lands, or under circumstances specified by the Secretary.

"(e) Loans made under this section shall be repaid in monthly installments.

"(f) In connection with any loan under this section, the Secretary may make advances in cash to provide for repairs, alterations, and improvements and to meet incidental expenses of the loan transaction. The Secretary shall determine the amount of any expenses incident to the origination of loans made under this section, which expenses, or a reasonable flat allowance in lieu thereof, shall be paid by the veteran in addition to the loan closing costs.

"(g) Without regard to any provision of this chapter (other than a provision of this section), the Secretary may—

"(1) take any action that the Secretary determines to be necessary with respect to the custody, management, protection, and realization or sale of investments under this section;

"(2) determine any necessary expenses and expenditures and the manner in which such expenses and expenditures shall be incurred, allowed, and paid;

"(3) make such rules, regulations, and orders as the Secretary considers necessary for carrying out the Secretary's functions under this section; and

"(4) in a manner consistent with the provisions of this chapter and with the Secretary's functions under this subchapter, employ, utilize, and compensate any persons, organizations, or departments or agencies (including departments and agencies of the United States) designated by the Secretary to carry out such functions.

"(h) The Secretary shall carry out an outreach program to inform and educate tribal organizations and Native American veterans of the pilot program provided for under this subchapter and the availability of direct housing loans for Native American veterans who live on trust lands.

"§ 3763. Housing loan program account

"(a) There is hereby established in the Treasury of the United States an account known as the 'Native American Veteran Housing Loan Program Account' (hereafter in this subchapter referred to as the 'Account').

"(b) The Account shall be available to the Secretary to carry out all operations relating to the making of direct housing loans to Native American veterans under this subchapter, including any administrative expenses relating to the making of such loans. Amounts in the Account shall be available without fiscal year limitation.

"§ 3764. Definitions

"For the purposes of this subchapter—

"(1) The term 'trust land' means any land that—

"(A) is held in trust by the United States for Native Americans;

"(B) is subject to restrictions on alienation imposed by the United States on Indian lands (including native Hawaiian homelands);

"(C) is owned by a Regional Corporation or a Village Corporation, as such terms are defined in section 3(g) and 3(j) of the Alaska Native Claims Settlement Act, respectively (43 U.S.C. 1602(g), (j)); or

"(D) is on any island in the Pacific Ocean if such land is, by cultural tradition, communally-owned land, as determined by the Secretary.

"(2) The term 'Native American veteran' means any veteran who is a Native American.

"(3) The term 'Native American' means—

"(A) an Indian, as defined in section 4(d) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(d));

"(B) a native Hawaiian, as that term is defined in section 201(a)(7) of the Hawaiian Homes Commission Act, 1920 (Public Law 67–34; 42 Stat. 108);

"(C) an Alaska Native, within the meaning provided for the term 'Native' in section 3(b) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(b)); and

"(D) a Pacific Islander, within the meaning of the Native American Programs Act of 1974 (42 U.S.C. 2991 et seq.).

"(4) The term 'tribal organization' shall have the meaning given such term in section 4(l) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(l)) and shall include the Department of Hawaiian Homelands, in the case of native Hawaiians, and such other organizations as the Secretary may prescribe.".

(b) CONSULTATION.—In carrying out the direct housing loan pilot program authorized under subchapter V of chapter 37 of title 38, United States Code (as added by subsection (a)), the Secretary of Veterans Affairs shall consider the views and recommendations, if any, of the Advisory Committee on Native-American Veterans established under section 19032 of the Veterans' Health-Care Amendments of 1986 (title XIX of Public Law 99–272; 100 Stat. 388).

(c) CONFORMING AMENDMENT.—The table of sections of such chapter is amended by adding at the end the following new matter:

"SUBCHAPTER V—NATIVE AMERICAN VETERAN HOUSING LOAN PILOT PROGRAM

"3761. Pilot program.
"3762. Direct housing loans to Native American veterans.
"3763. Housing loan program account.
"3764. Definitions.".

(d) ANNUAL REPORTS.—Not later than February 1 of each of 1994 through 1998, the Secretary of Veterans Affairs shall transmit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report relating to—

(1) the implementation of the Native American veterans direct housing loan pilot program established under subchapter V of chapter 37 of title 38, United States Code (as added by subsection (a)), during the period ending on September 30 of the year preceding the date of the report;

(2) the Secretary's exercise of the authority provided under section 3762(c)(1)(B) of such title (as so added) to make loans exceeding the maximum loan amount;

(3) the appraisals performed for the Secretary during that period under the authority of section 3732(d)(2) of such title (as so added), including a description of—

(A) the manner in which such appraisals were performed;

(B) the qualifications of the appraisers who performed such appraisals; and

(C) the actions taken by the Secretary with respect to such appraisals to protect the interests of veterans and the United States; and

(4) the Secretary's recommendations, if any, for legislation regarding the pilot program.

(e) AUTHORIZATION OF APPROPRIATIONS.—New direct loan obligations for Native American veteran housing loans under subchapter V of chapter 37 of title 38, United States Code (as added by subsection (a)), may be incurred only to the extent that appropriations of budget authority to cover the anticipated cost, as defined in section 502 of the Congressional Budget Act of 1974, for such loans are made in advance. There is authorized to be appropriated for such purpose $5,000,000 for fiscal year 1993, which amount shall remain available without fiscal year limitation.

(f) CONFORMING FUNDING AMENDMENT.—Title I of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1993 is amended by striking out "direct loans authorized by" and all that follows through "Veterans' Affairs)" under the heading "NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT" and inserting in lieu thereof "direct loans authorized by subchapter V of chapter 37 of title 38, United States Code".

SEC. 9. ENERGY EFFICIENT MORTGAGES.

(a) IN GENERAL.—Subsection (d) of section 3710 of title 38, United States Code, is amended to read as follows:

"(d)(1) The Secretary shall carry out a program to demonstrate the feasibility of guaranteeing loans for the acquisition of an existing dwelling and the cost of making energy efficiency improvements to the dwelling or for energy efficiency improvements to a dwelling owned and occupied by a veteran. A loan may be guaranteed under this subsection only if it meets the requirements of this chapter, except as those requirements are modified by this subsection.

"(2) The cost of energy efficiency measures that may be financed by a loan guaranteed under this section may not exceed the greater of—

"(A) the cost of the energy efficiency improvements, up to $3,000; or

"(B) $6,000, if the increase in the monthly payment for principal and interest does not exceed the likely reduction in monthly utility costs resulting from the energy efficiency improvements.

"(3) Notwithstanding the provisions of section 3703(a)(1)(A) of this title, any loan guaranteed under this subsection shall be guaranteed in an amount equal to the sum of—

"(A) the guaranty that would be provided under those provisions for the dwelling without the energy efficiency improvements; and

"(B) an amount that bears the same relation to the cost of the energy efficiency improvements as the guaranty referred to in subparagraph (A) bears to the amount of the loan minus the cost of such improvements.

"(4) The amount of the veteran's entitlement, calculated in accordance with section 3703(a)(1)(B) of this title, shall not be affected by the amount of the guaranty referred to in paragraph (3)(B).

"(5) The Secretary shall take appropriate actions to notify eligible veterans, participating lenders, and interested realtors of the availability of loan guarantees under this subsection and the procedures and requirements that apply to the obtaining of such guarantees.

"(6) For the purposes of this subsection:

"(A) The term 'energy efficiency improvement' includes a solar heating system, a solar heating and cooling system, or a combined solar heating and cooling system, and the application of a residential energy conservation measure.

"(B) The term 'solar heating' has the meaning given such term in section 3(1) of the Solar Heating and Cooling Demonstration Act of 1974 (42 U.S.C. 5502(1)) and, in addition, includes a passive system based on conductive, convective, or radiant energy transfer.

"(C) The terms 'solar heating and cooling' and 'combined solar heating and cooling' have the meaning given such terms in section 3(2) of the Solar Heating and Cooling Demonstration Act of 1974 (42 U.S.C. 5502(2)) and, in addition, include a passive system based on conductive, convective, or radiant energy transfer.

"(D) The term 'passive system' includes window and skylight glazing, thermal floors, walls, and roofs, movable insulation panels (when in conjunction with glazing), portions of a residential structure that serve as solar furnaces so as to add heat to the structure, double-pane window insulation, and such other energy-related components as are determined by the Secretary to enhance the natural transfer of energy for the purpose of heating or heating and cooling a residence.

"(E) The term 'residential energy conservation measure' means—

"(i) caulking and weatherstripping of all exterior doors and windows;

"(ii) furnace efficiency modifications limited to—

"(I) replacement burners, boilers, or furnaces designed to reduce the firing rate or to achieve a reduction in the amount of fuel consumed as a result of increased combustion efficiency,

"(II) devices for modifying flue openings which will increase the efficiency of the heating system, and

"(III) electrical or mechanical furnace ignition systems which replace standing gas pilot lights;

"(iii) clock thermostats;

"(iv) ceiling, attic, wall, and floor insulation;

"(v) water heater insulation;

"(vi) storm windows and doors;

"(vii) heat pumps; and

"(viii) such other energy conservation measures as the Secretary may identify for the purposes of this subparagraph.

"(7) A loan may not be guaranteed under this subsection after December 31, 1995.".

(b) PURCHASE OR CONSTRUCTION WITH ENERGY EFFICIENCY IMPROVEMENTS.—(1) Section 3710(a)(7) of such title is amended to read as follows:

"(7) To improve a dwelling or farm residence owned by the veteran and occupied by the veteran as the veteran's home through energy efficiency improvements, as provided in subsection (d).".

(2) Section 3710(a) of such title is further amended by adding after paragraph (9) the following:

"(10) To purchase a dwelling to be owned and occupied by the veteran as a home and make energy efficiency improvements, as provided in subsection (d).".

(c) REPORTS.—Not later than 1 year after the date on which the Secretary of Veterans Affairs first exercises the authority to guarantee loans under section 3710(d) of title 38, United States Code (as added by subsection (a) of this section), and for each of the 3 years thereafter, the Secretary shall transmit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the program under such section. Each such report shall contain information pertaining to—

(1) the number of mortgages guaranteed under such section;

(2) the average amount of money added to the mortgage to finance energy efficiency features;

(3) the types of energy efficiency features obtained with mortgages under such section; and

(4) the default rates on the mortgages guaranteed under such section compared with the default rates on all other types of mortgages guaranteed by the Secretary.

SEC. 10. NEGOTIATED INTEREST RATES.

(a) IN GENERAL.—Section 3703(c) of title 38, United States Code, is amended—

(1) in the first sentence of paragraph (1)—

(A) by striking "the Secretary of Housing and Urban Development considers necessary to meet the mortgage market for" and inserting "applicable to"; and

(B) by striking all that follows "(12 U.S.C. 1709(b))" and inserting a period; and

(2) by adding at the end the following:

"(4)(A) In guaranteeing or insuring loans under this chapter, the Secretary may elect whether to require that such loans bear interest at a rate that is—

"(i) agreed upon by the veteran and the mortgagee; or

"(ii) established under paragraph (1).

The Secretary may, from time to time, change the election under this subparagraph.

"(B) Any veteran, under a loan described in subparagraph (A)(i), may pay reasonable discount points in connection with the loan. Discount points may not be financed as part of the principal amount of a loan guaranteed or insured under this chapter.

"(C) Not later than 10 days after an election under subparagraph (A), the Secretary shall transmit to the Committees on Veterans' Affairs of the Senate and House of Representatives a notification of the election, together with an explanation of the reasons therefor.

"(D) This paragraph shall expire on December 31, 1995.".

(b) REPORT.—Not later than December 31, 1993, and annually thereafter, the Secretary of Veterans Affairs shall transmit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on whether the Secretary has implemented the authority to guarantee and insure loans that bear negotiated interest rates and points under section 3703(c)(4) of title 38, United States Code (as added by subsection (a)). If the Secretary has implemented that authority, the Secretary shall include in the report—

(1) a comparison of the interest rates paid by veterans for loans that bear interest rates negotiated under section 3703(c)(4) of such title with interest rates allowable under mortgages for single family housing insured by the Secretary of Housing and Urban Development pursuant to the National Housing Act and interest rates charged under conventional mortgage loan programs for single family housing;

(2) a comparison of the negotiated interest rates being charged under paragraph 4 of section 3703(c) of such title with the interest rate that the Secretary would have established under paragraph (1) of such section during the same time period;

(3) a comparison of the number of discount points charged by the lender for mortgage loans that bear interest rates negotiated under section 3703(c)(4) of such title with the number of discount points charged for mortgages for single family housing insured by the Secretary of Housing and Urban Development pursuant to the National Housing Act and the number of discount points charged under conventional mortgage loan programs for single family housing;

(4) a discussion of the extent to which borrowers or sellers are paying the discount points on negotiated interest rate loans under section 3703(c)(4) of such title;

(5) a discussion of whether the market share for housing loans guaranteed under such title has increased or decreased since the implementation of the authority to guarantee and insure loans that bear negotiated interest rates under section 3703(c)(4) of such title, and a discussion of the extent to which any change in market share was the result of that authority;

(6) in claims paid following foreclosure, a discussion of the difference in the interest portion paid on loans guaranteed under section 3703(c)(4) of such title to what the interest portion would have been under the interest rate established under section 3703(c)(1) of such title; and

(7) the number of first time homebuyers using loans that bear negotiated interest rates under section 3703(c)(4) of such title.

SEC. 11. ELIGIBILITY FOR FLAGS AND GRAVE MARKERS.

(a) FLAGS.—Section 2301(a) of title 38, United States Code, is amended to read as follows:

"(a) The Secretary shall furnish a flag to drape the casket of each—

"(1) deceased veteran who—

"(A) was a veteran of any war, or of service after January 31, 1955;

"(B) had served at least one enlistment; or

"(C) had been discharged or released from the active military, naval, or air service for a disability incurred or aggravated in line of duty; and

"(2) deceased individual who at the time of death was entitled to retired pay under chapter 67 of title 10 or would have been entitled to retired pay under that chapter but for the fact that the person was under 60 years of age.".

(b) HEADSTONES OR MARKERS.—Section 2306(a) of title 38, United States Code, is amended by adding at the end thereof the following:

"(5) Any individual who at the time of death was entitled to retired pay under chapter 67 of title 10 or would have been entitled to retired pay under that chapter but for the fact that the person was under 60 years of age.".

SEC. 12. TECHNICAL AMENDMENT.

Section 5 of Public Law 102-54 (105 Stat. 268) is amended by striking out "3102" and inserting in lieu thereof "5302".

Mr. MONTGOMERY (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments and the House amendment to the Senate amendments be considered as read and printed in the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Mississippi?

Mr. STUMP. Mr. Speaker, reserving the right to object, and I shall not object, I yield to the gentleman from Mississippi for an explanation.

Mr. MONTGOMERY. I thank the gentleman for yielding.

Mr. Speaker, the compromise measure we have agreed to with the Senate would enhance the home loan guaranty program for veterans and extend the program to members of the Reserves and National Guard who have served at least 6 years.

My colleagues will recall the role of the Reserve and National Guard units that were called to active duty during the Persian Gulf war. They proved they are a critical part of the total force concept and the individuals who served there are already entitled to home loan benefits because of their active duty service. This bill will extend the home loan benefit to those who are not called to active duty but who have demonstrated their commitment to this Nation by serving at least one term.

The Montgomery GI Bill Act of 1984 extended education benefits to certain reservists. Studies have indicated that the continuing rate for Montgomery GI bill participants is 15.2 percent higher than that for Reserve members not participating. It is not unrealistic to expect that the opportunity to participate in the home loan guaranty program would also have an effect on the numbers joining and staying in the Reserves. This measure would also extend gravemarker and burial flag eligibility to reservists and National Guardsmen who have 20 years of service.

The compromise measure certain reforms to the home loan guaranty program which hopefully will reduce veterans' costs in housing. Some of these include the introduction of adjustable rate mortgages, lower fees for interest rate reduction loans, financing energy efficiency improvements to lower heating and cooling utility bills.

Finally, the compromise would establish a 5-year direct loan program for native Americans residing on trust lands. The loan could not exceed $80,000. This provision of the bill is identical to the bill introduced by our colleague, Mr. Nighthorse Campbell, H.R. 6097. I want to commend the gentleman from Illinois [Mr. Evans], who also introduced a bill for this purpose.

I want to thank my friend, the very able ranking minority member of the full committee, Bob Stump, and the ranking Minority member of the Subcommittee, Dan Burton, for their leadership in helping reach a compromise with the other body on this housing bill. In particular, I want to commend Harley "Bucky" Staggers for his efforts during his chairmanship of the Subcommittee on Housing and Memorial Affairs.

Mr. Speaker, I submit for the Record a joint explanatory statement which outlines in further detail the differences between the House and Senate-passed measures and the compromise agreement reached between the two bodies as follows.

Mr. Speaker, I urge my colleagues to support H.R. 939.

Joint Explanatory Statement for H.R. 939, the Proposed Veterans Home Loan Amendments of 1992

H.R. 939, the proposed, "Veterans Home Loan Amendments of 1992" reflects a compromise agreement that the Senate and House of Representatives Committees on Veterans' Affairs have reached on four bills passed by the Senate and the House during the 102nd Congress. These are: H.R. 939 as passed by the House on March 3, 1992 (hereinafter referred to as "House bill"), H.R. 4368 as passed by the House on June 9, 1992 (hereinafter referred to as "H.R. 4368"), S. 3108 as passed by the Senate as a substitute amendment to H.R. 939 on October 1, 1992 (hereinafter referred to as "Senate amendment"), and S. 2528 as passed by the Senate on September 18, 1992, (hereinafter referred to as "S. 2528").

The Committees on Veterans' Affairs have prepared the following explanation of H.R. 939 as amended (hereinafter referred to as "compromise agreement"). Differences between the provisions contained in the compromise agreement and the related provisions in the bills listed above are noted in this document, except for clerical corrections and conforming changes made necessary by the compromise agreement, and minor drafting, technical, and clarifying changes.

ELIBILITY OF SELECTED RESERVE

Current law: Section 3702(a)(2) of title 38, United States Code, requires, as a condition of eligibility for VA-guaranteed loans, active-duty service of at least 180 consecutive days, or a total of 90 days if at least one day was during a designated wartime period. Section 5303A imposes an additional minimum-service requirement for VA benefits eligibility. Under section 5303A, a person who originally enlists after September 7, 1980 (or enters active duty as an officer after October 16, 1981) generally must have served either two years of active-duty service or the length of the period for which he or she was called to active duty.

Section 3729 requires veterans to pay a loan fee of 1.25 percent of the loan for loans with no downpayment, 0.75 percent for loans with a downpayment of at least 5 percent, or 0.5 percent for loans with a downpayment of at least 10 percent. Veterans with compensable service-connected disabilities are exempt from paying the VA loan fee. Loans for manufactured housing require a VA fee of 1 percent.

House bill: Section 1(a) would amend section 3701(b) of title 38 to make eligible for VA-guaranteed loans individuals who have completed a total of six years of service in the Selected Reserve (as defined by section 286(b) of title 10) and continue serving in the Selected Reserve or, following the completion of service, are honorably discharged or transferred to the Standby Reserve or another element of the Selected Reserve after honorable service during the six-year period.

Section 1(b) would amend section 3729 of title 38 to require these individuals to pay a VA loan fee 0.75 percent higher than the equivalent fees for veterans.

Senate amendment: Section 6 is similar to the House provision, except that it would take effect October 1, 1992, and expire December 31, 1998. Section 6(d) would require the Secretary to report to the Senate and House Committees on Veterans' Affairs by September 30, 1997, on reservists' participation in the VA guaranteed home loan program.

Compromise agreement: Section 2 follows the House bill, except that the provisions would expire seven years after the date of enactment. Section 2(c) would require the Secretary to report annually to the Committees on Veterans' Affairs on reservists' participation in the home-loan program. The first report would be due by December 31, 1994.

ADJUSTIBLE RATE MORTGAGES

Current law: Section 3703(c)(1) prohibits VA-guaranteed loans from bearing interest at a rate exceeding the rate that the Secretary finds the loan market demands. In setting this rate, the Secretary must consult with the Secretary of Housing and Urban Development to coordinate interest-rate policy on FHA-insured and VA-guaranteed loans.

House bill: Section 3 would require the Secretary of Veterans Affairs to establish a demonstration program, during FYs 1993 and 1994, of VA-guaranteed adjustable rate mortgages (ARMs) in a manner similar to the Federal Housing Administration (FHA) insured ARMs program under section 251 of the National Housing Act. The Secretary would be required to conduct the pilot program at not fewer than two nor more than 10 regional offices.

Senate amendment: Section 2(a) would establish a pilot program, during FY 1993 through FY 1997, of VA-guaranteed ARMs. Section 2(b) would require annual adjustments in the interest rate on the ARMs, on the anniversary date of the loan closing, based on an index specified in regulations promulgated by the Secretary. Information on the index would have to be readily accessible to mortgagors at any time from generally available, published sources. The annual interest-rate adjustment would be limited to no more than 1 percentage point higher or lower than the interest rate of the loan at the time of the adjustment, and the maximum interest rate at any time during the term of the loan would be limited to no more than 5 percentage points above the initial rate.

Section 2(c) would require the Secretary to promulgate underwriting requirements for these loans that take into account (a) the interest rate derived from the most recent VA-specified index available at the time the underwriting decision is made, regardless of the actual initial rate offered by the lender; (b) the maximum and likely increases in mortgage payments that the loans would require; (c) the underwriting standards that apply to FHA ARMs; and (d) any other factors specified by the Secretary.

Section 2(e) would limit the number of ARMs VA could guarantee each fiscal year to no more than 10 percent of the total number of all loans VA guaranteed during the previous fiscal year.

Section 2(f) would require the Secretary to submit to the Veterans' Affairs Committees five annual reports on the program, beginning one year after the date on which VA guarantees the first loan under this program. The reports would have to contain information about defaults, including comparisons with the default rates for fixed-rate VA-guaranteed home loans and both fixed- and adjustable-rate loans either insured by FHA or made under conventional terms for single-family homes.

Compromise agreement: Section 3 follows the House bill, except that it would incorporate the interest-rate limitations and underwriting guidelines in the Senate amendment. There would be no limitation on the number of ARMs VA would guarantee during a fiscal year.

Section 3(b) would require the Secretary to submit to the Senate and House Committees on Veterans' Affairs annual reports on the pilot program, with the first report due by December 31, 1993.

ENHANCED LOAN ASSET SALE AUTHORITY

Current law: Under section 3720(h) of title 38, VA is authorized to guarantee timely payment of principal and interest on securities backed by VA "vendee" loans. These are direct loans VA makes to those who purchase houses that VA acquired through the foreclosure of a VA-guaranteed loan. VA pools these loans and sells them to a trust that issues pass-through securities backed by the vendee-loan pool. VA's authority to guarantee such payment for certificates or other securities expires December 31, 1992.

House bill: Section 4 would make the authority permanent.

Senate amendment: Section 5 would extend the expiration date of section 3720(h) of title 38 from December 31, 1992, to December 31, 1995.

Compromise agreement: Section 4 follows the Senate amendment.

LOAN FEES FOR REFINANCING

Current law: Section 3710(a)(8) of title 38 requires VA to guaranty, under certain circumstances, loans to refinance an existing loan guaranteed, insured, or made by VA. Section 3710(e) requires that the interest rate on the refinancing loan be lower than the interest rate on the original loan and establishes several other requirements for such "interest-rate-reduction" refinancing loans.

Section 3710(a)(9) of title 38 requires VA to guarantee certain interest-rate-reduction refinancing loans for manufactured housing under generally the same conditions that apply to other interest-rate-reduction refinancing loans.

Section 3729 of title 38 requires those eligible for a VA-guaranteed home loan to pay a fee to VA, unless the borrower is a veteran with a compensable, service-connected disability or the surviving spouse of a veteran who died on active duty or as a result of a service-connected disability. The fee generally is 1.25 percent of the loan, but is reduced to 0.75 percent if the borrower makes a downpayment of at least 5 percent but not more than 10 percent of the purchase price, and reduced to 0.5 percent if the borrower makes a downpayment of at least 10 percent. VA-guaranteed loans for manufactured housing require a 1-percent VA loan fee.

House bill: Section 2 of H.R. 4368 would reduce the VA loan fee for VA-guarantee interest-rate-reduction refinancing loan to 0.5 percent of the loan. The reduced fee also would apply to all VA-guaranteed refinancing loans for manufactured housing, regardless of whether the interest rate is reduced by the new loan.

Senate amendment: No provision.

Compromise agreement: Section 5 follows the House bill, except that the reduced fee would not apply to refinancing loans for manufactured housing unless the interest rate is lower on the new loan.

GUARANTY AMOUNT RELATIVE TO LOAN REFINANCING

Current law: Under sections 3710(e) and 3712(a)(4) of title 38, interest-rate-reduction refinancing loans secured by a home or manufactured housing may include certain closing costs, fees, and discount points. These sections, however, limit the guaranty on the new home to no more than the amount of the guaranty on the loan being refinanced.

Section 3703(a) sets forth specific limits on the amount of the VA guaranty for loans of various amounts. The lowest guaranty-to-loan ratio specified in that section is 25 percent.

The maximum principal amount of an interest-rate-reduction refinancing loan is the sum of the principal balance of the original loan, plus closing costs, fees, and discount points. Since the guaranty cannot exceed the amount of the guaranty on the original loan, however, the guaranty-to-loan ratio can drop below the 25-percent level. This can require the borrower to make a down payment on a portion of the new loan in order to meet the lender security requirements.

House bill: Section 3 of H.R. 4368 would ensure that the VA guaranty on interest-rate-reduction refinancing loans is at least 25 percent of the new loan, regardless of the amount of the guaranty on the original loan.

Senate amendment: No provision.

Compromise agreement: Section 6 follows the House bill.

EXTENSION OF LENDER APPRAISAL PROGRAM

Current law: Section 3710(b) of title 38 establishes limits on the amount of a VA-guaranteed home loan, based on the reasonable value of the property or construction being financed or refinanced. Section 3731 of title 38 sets forth the requirements for reasonable-value determinations and the appraisals upon which they are based.

Generally, under section 3731(c) of title 38, the appraiser forwards an appraisal directly to VA, which makes the determination of reasonable value and notifies the veteran and, upon request, to the lender proposing to make the VA-guaranteed loan.

Under section 3731(f), the Secretary may authorize qualified lenders to determine the reasonable value of the property based on an appraisal submitted by the appraiser directly to the lender, rather than to VA. The Secretary is required to monitor this lender appraisal processing program (LAPP) by reviewing lenders' determinations of reasonable value and the appraisals upon which the determinations are based.

The LAPP expires on December 31, 1992.

House bill: Section 4 of H.R. 4368 would extend LAPP through December 31, 1995.

Senate amendment: No provision.

Compromise agreement: Section 7 follows the House provision.

NATIVE AMERICAN VETERANS DIRECT HOUSING LOAN PILOT PROGRAM

Current law: Section 312 of the Veterans Home Loan Indemnity and Restructuring Act of 1989, title III of Public Law 101-237, required the Secretaries of Veterans Affairs and of the Interior jointly to conduct a study to determine the extent of participation in the VA-guaranteed home loan program by Native American veterans who live on trust lands; the reasons for any lower participation by these veterans, compared to other veterans; and the legislative, regulatory, and administrative actions necessary to improve the access of these Native American veterans to VA housing benefits. The Secretaries were required to report to the Senate and House Committees on Veterans' Affairs on the results of the study by June 1, 1990, and the Secretaries submitted the report to the Committees on August 8, 1991.

VA-guaranteed loans, which are made by private lenders and guaranteed by VA under chapter 37 of title 38, generally require clear title to the property in order to provide adequate security for the loan. Land on Indian reservations and other land held in trust for Native Americans are not freely alienable and generally cannot serve as security for a VA-guaranteed loan.

VA currently is authorized to make direct loans to veterans under two programs. Section 3711 of title 38 authorizes VA to make direct loans to veterans in "housing credit shortage areas," rural areas or small cities or towns in which the Secretary finds that private capital for housing loans is not generally available. Public law 91-506 expanded the direct-loan program to allow loans for specially adapted housing for veterans with certain service-connected disabilities. Appropriations acts since 1981 have restricted VA direct loans to severely disabled veterans who require specially adapted housing.

House bill: No provision.

Senate bill: Section 2(a) of S. 2528 would amend chapter 37 of title 38 by adding a new subchapter V under which VA would conduct a five-year pilot program of direct loans to Native American veterans to purchase, construct, or improve dwellings on trust lands. The Secretary would be required, to the extent practicable, to make the loans to eligible veterans who are located in a variety of geographic areas and in areas experiencing a variety of economic circumstances.

Under proposed new section 3762 of title 38, before VA would be authorized to make a loan to a veteran, VA and the tribal organization having jurisdiction over the veteran would be required to enter into a memorandum of understanding providing that (a) the veteran would have a meaningful interest in the trust-land property on which the home is or will be located; (b) the veteran would convey to the Secretary by an appropriate instrument a security interest in the veteran's interest in the property as collateral for the loan; (c) VA would have access to trust lands in connection with the loan; (d) the tribal organization would be required to have established procedures for foreclosure and resale of the veteran's interest in the property in the event of default by the veteran; and (e) the tribal organization would agree to other terms and conditions the Secretary may require to carry out the loan program. The Secretary would be required to determine that the memorandum of understanding reasonably protects the financial interests of the United States.

Under proposed new section 3762(c) of title 38, VA would be authorized to make loans of up to $80,000, at an interest rate determined by the Secretary (not to exceed the rate for VA-guaranteed loans), and the veteran would be required to pay closing costs and loan-origination expenses or a fee representing these expenses. The Secretary would be authorized to exceed the $80,000 loan limit in areas with high housing costs.

Under proposed new section 3762(c) of title 38, the Secretary would be required to establish special credit underwriting standards that take into account the purpose of the pilot program, which is to make housing available to Native American veterans living on trust lands. VA would be allowed to accept the appraisal of qualified, but not necessarily VA-approved, appraisers.

Under proposed new subsection (f) of section 3762 of title 38, the Secretary would be authorized to make cash advances in connection with construction or home-improvement loans.

Under proposed new subsection (h) of section 3762 of title 38, the Secretary would be required to conduct outreach and education to increase the awareness of tribal governments and education to increase the awareness of tribal governments and Native American veterans of the availability of direct housing loans for veterans living on tribal trust lands.

Proposed new section 3763 of title 38 would establish a native American Veterans Housing Loan program account in the Treasury to provide the funding mechanism necessary to carry out the pilot program.

Proposed new section 3764 of title 38 would define "trust land" as any land that is (a) held in trust by the United States for Native Americans; (b) subject to restrictions on alienation imposed by the United States on Indian lands (including native Hawaiian homelands); (c) owned by a Regional Corporation or a Village Corporation, as those terms are defined in the Alaska Native Claims Settlement Act; or (d) on any island in the Pacific Ocean if the land is, by cultural tradition (as determined by the secretary), communally owned land.

The term "Native American" would be defined as (a) an Indian, as defined in the Indian Self-Determination and Education Assistance Act; (b) a native Hawaiian, as defined in the Hawaiian Homes Commission Act; (c) an Alaska Native, within the meaning provided for the term "Native" in the Alaska Native Claims Settlement Act; and (d) a Pacific islander, within the meaning of the Native American Programs Act of 1974.

The term "tribal organization" would be defined as having the meaning given to that term in the Indian Self-Determination and Education Assistance Act, and would include the Department of Hawaiian Homelands, in the case of Native Hawaiians, and such other organizations as the Secretary may prescribe.

Under proposed section 3764(b) of title 38, the Secretary would be required, in carrying out the pilot program, to consider the views and recommendations of the Advisory Committee on Native American Veterans.

Section 3 of S. 2528 would require the Secretary to submit to the Senate and House Committees on Veterans' Affairs on February 1 of 1994 through 1998, reports on implementation of the pilot program, including any recommendations by the Secretary for legislation regarding the pilot program.

Section 4 of S. 2528 would authorize appropriations during FY 1993 of $5 million for loans made under the pilot program.

Compromise agreement: Section 8 contains the Senate provision. The conference report on H.R. 5679, the VA, HUD, and Independent Agencies Appropriations Act for FY 1993, appropriates $5 million for the pilot program.

ENERGY EFFICIENT MORTGAGES

Current law: Section 3710(a)(7) provides a VA guaranty on loans to improve a dwelling or farm residence owned and occupied by the veteran through installation of a solar heating system, a solar heating and cooling system, or a combined solar heating and cooling system or through the application of a residential energy conservation measure. Subsection (d) of that section defines these terms and includes in the definition of "residential energy conservation measure" a subparagraph authorizing the Secretary to identify additional energy conservation measures that would qualify for energy efficient mortgages under subsection (a)(7).

House bill: No provision.

Senate amendment: Sections 3 (a) and (e) would establish a pilot program of energy efficient mortgages (EMMs) under which the Secretary would be authorized to guarantee not more than a total of 1,250 EEMs during Fys 1993 and 1994 in at least five, but not more than 10, States.

Section 3(b) would allow the new EEMs only for existing homes for which the energy efficiency measures being financed are likely to reduce monthly energy costs by at least as much as they would increase the borrower's monthly payments of principal and interest on the EEM.

Section 3 (b) and (c) would require VA to guarantee the loan for the energy efficiency improvements in the same proportion as the guaranty that VA could provide for the underlying loan without the energy efficiency improvements, provided that the cost of the energy efficiency measures is no more than the greater of (a) $4,000, or (b) 5 percent of the value of the home without the energy efficiency improvements, not to exceed $8,000.

Section 3(c) would provide that the portion of the guaranty attributable to energy efficiency measures may be in addition to the current applicable maximum guaranty and shall not affect the loan-guaranty benefit to which the borrower otherwise is entitled.

Section 3(f) would require VA to encourage participation in the program by notifying eligible veterans, participating lenders, and interested realtors in the States in which the pilot program would be carried out about the availability of loan guaranties under the pilot program and the procedures and requirements to obtain these loans.

Section 3(g) would provide the Secretary with authority to halt the demonstration project if the Secretary estimates that the total incremental costs (government subsidy) attributable to the two-year pilot program will exceed $2 million.

Section 3(h) would require the Secretary to report to the Committees on Veterans' Affairs on the program one year after VA guarantees the first EEM under the program and annually thereafter for five more years. The reports would be required to include information on the default rates for EEMs and the effects, if any, of the energy efficiency measures on resale values and home utility consumption and costs.

Section 3(i) would provide that the pilot program would not affect the VA EEM program currently operated under the authority of section 3710(a)(7) of title 38.

Compromise agreement: Section 9 would amend chapter 37 of title 38 to modify the current EEM program by (a) allowing EEMs for improvements to a veteran's current home or to finance the combined cost of acquiring an existing dwelling and making energy efficiency improvements to the dwelling; (b) allowing veterans to finance the cost of energy efficiency measures that do not exceed the greater of (1) $3,000 or (2) $6,000, if the increase in the monthly payment for principal and interest does not exceed the likely reduction in monthly utility costs resulting from the improvements; (c) requiring VA to guarantee the EEM in the same proportion as the guaranty VA would have provided for the underlying loan without the energy efficiency improvements; (d) providing that the portion of the guaranty attributable to energy efficiency measures may be in addition to the guaranty limits set forth in section 3703(a)(1)(A) and would not affect the veteran's maximum loan-guaranty entitlement; and (e) requiring the Secretary to take appropriate actions to notify eligible veterans, participating lenders, and interested realtors of the availability of VA-guaranted EEMs and the procedures and requirements to obtain these loans. The Secretary would be required to report to the Senate and House Committees on Veterans' Affairs on the EEM program no later than one year after guaranteeing the first EEM under the amendments made by section 8 and for each of the three years thereafter.

NEGOTIATED INTERESTED RATES

Current law: Section 3703(c)(1) of title 38 requires VA-guaranteed loans to bear interest at a rate that does not exceed such rate as the Secretary may from time to time find the loan market demands. In setting this rate, the Secretary must consult with the Secretary of Housing and Urban Development to coordinate interest-rate policy on loans insured by the Federal Housing Administration and VA-guaranteed loans.

Section 3703(c)(3) allows a veteran to pay discount points on loans guaranteed under chapter 37 of title 38 if the loan is for a purpose specified in that section. The specified loans do not include loans to purchase or construct a dwelling or purchase a farm residence or condominium.

House bill: No provision.

Senate amendment: Section 4(a) would, during FY 1993 and FY 1994, require the Secretary to establish either (a) a uniform maximum interest rate and general prohibition on a borrower paying discount points, as required under current section 3703(c) of title 38, or (b) procedures for allowing interest on VA-guaranteed loans at rates negotiated between borrowers and lenders. The Secretary would be authorized to change between uniform maximum rates and negotiated rates at any time.

If the Secretary allows negotiated interest rates, the Secretary would be required to allow a borrower to pay reasonable discount points on the loan, as negotiated between the borrower, the seller, and the lender. Veterans would be prohibited from financing the discount points as part of the VA-guaranteed loan.

The Secretary would be required to notify the Committees on veterans' Affairs within 10 days after exercising the authority to provide for negotiated rates and discount points or returning to a uniform maximum rate and to provide with the notification an explanation of the reasons for the change in policy.

Section 4(b) would require the Secretary to report to the Committees on Veterans' Affairs no later than March 1, 1994, on whether the Secretary has implemented negotiated interest rates and discount points under the authority of this legislation and, if so, the effects of this policy on borrowers' ability to obtain VA-guaranteed loans and on the interest rates at which borrowers were able to obtain the loans.

Compromise agreement: Section 10 follows the Senate provision, except that the pilot program would expire on December 31, 1995, and reports would be by December 31, 1993, and annually thereafter.

The Committees expect the Secretary to exercise the authority to allow negotiated interest rates and discount points, but has provided a mechanism for returning to an administered rate at any time if experience with negotiated rates indicated that the policy is harming veterans.

ELIGIBILITY FOR FLAGS AND GRAVE MARKERS

Current law: Under section 2402(2) of title 38, members of any Reserve component of the Armed Forces, the Army National Guard, or the Air National Guard are eligible for burial in any open national cemetery in the National Cemetery System only if the member's death occurs under honorable conditions while the member is hospitalized or undergoing treatment, at the expense of the United States, for an injury or disease contracted or incurred under honorable conditions while the member is performing active duty for training, inactive duty training, or undergoing hospitalization or treatment at the expense of the United States. Section 2402(6) of title 38 authorizes the Secretary to designate other persons or classes of persons eligible for burial in any open national cemetery.

Section 2301 of title 38 requires the Secretary to furnish a flag to drape over the casket of certain deceased veterans and deceased persons buried in a national cemetery by virtue of eligibility under section 2402(6) of title 38 for such burial.

Under section 2306 of title 38, deceased members of the Reserves are eligible for headstones or grave markers only if they are eligible for burial in a national cemetery.

House bill: Section 1 of H.R. 4368 would extend eligibility for burial in a national cemetery and burial flags to individuals who have 20 years of service that counts toward retired pay as members of a Reserve component of the Armed Forces.

Senate amendment: No provision.

Compromise agreement: Section 11 would make eligible for a headstone or grave marker, and a flag to drape the casket of, a person who, at the time of death, was entitled to retired pay under chapter 67 of title 10, United States Code, or would have been entitled to retired pay under that chapter but for the fact that the person was under 60 years of age.

Mr. STUMP. I thank the gentleman for his explanation.

Mr. Speaker, I support H.R. 939, as amended, a bill to amend title 38 with respect to housing loans for veterans and other purposes.

H.R. 939 will expand VA home loan entitlement to include members of the National Guard and Reserve. It will authorize a demonstration program to test the use of adjustable rate mortgages. And it will allow veterans to negotiate interest rates directly with lenders.

This measure was originally passed in the House over a year and a half ago. Since then, many hours of hard work and negotiation with the other body have gone into this bill. My good friend, SONNY MONTGOMERY, the chairman of the Committee on Veterans' Affairs, has done an outstanding job in moving this legislation.

Mr. Speaker, I also want to commend HARLEY STAGGERS, chairman of the Subcommittee on Housing and Memorial Affairs, and DAN BURTON, the ranking member of that subcommittee, for their joint achievement in H.R. 939.

Mr. Speaker, I urge my colleagues to consider favorably this veterans' housing legislation, and I withdraw my reservation to object.

Mr. FALEOMAVAEGA. Mr. Speaker, I rise today in support of H.R. 939, and in particular the section of the bill which establishes a direct loan program for native American veterans.

Mr. Speaker, the statistics on the VA Home Loan Program provide a succinct statement of a major problem with the VA home loan guaranty program: the program has been in existence since 1944; 13 million veterans have purchased homes under the program; VA home loans total $13 billion; and there is not one documented loan to a native American veteran on trust or communal land.

Mr. Speaker, I have been trying to get a VA home loan program in my district since I assumed office in 1989, yet I feel like I have encountered one stumbling block after another. Through a Veterans' Committee oversight hearing Chairman LANE EVANS held in Honolulu earlier in this Congress, members of the Veterans' Affairs Committee and Members representing veterans in the Pacific were able to see and hear for ourselves the many problems veterans in the Pacific encounter.

Mr. Speaker, I cannot go home for longer than 48 hours without at least one veteran asking me why he cannot get a VA home loan in Samoa. I always explain to them the difficulties in trying to adapt general Federal legislation to the unique features of other cultures, but they are never really satisfied with that explanation.

H.R. 939 will provide at least a partial answer to their questions, and for that the veterans in my district are extremely grateful.

Mr. Speaker, I want to commend the distinguished chairman of the House Veterans Affairs Committee, Mr. MONTGOMERY, for bringing this legislation to the floor for final consideration and passage in the Congress.

I also want to thank Chairman LANE EVANS, House Veterans' Affairs Subcommittee on Oversight/Investigations, for his outstanding leadership and assistance to provide for this special provision in H.R. 939 to allow our military veterans who are native Americans, Native Alaskans, native Hawaiians, and native Samoans to participate in the VA Home Loan Program under the auspices of this pilot program where trust and communal lands are to be utilized to benefit them and their families.

Mr. STAGGERS. Mr. Speaker, I want to commend the gentleman from Mississippi [Mr. MONTGOMERY], the chairman of the full committee for his leadership in moving the compromise measure through so expeditiously, and in addition, I want to thank the gentleman from Arizona [Mr. STUMP], and the ranking minority member of the subcommittee, the gentleman from Indiana [Mr. BURTON], and all of the committee members for their favorable support. In particular, I want to acknowledge the efforts of Mr. JONES, Mr. HARRIS, and Mr. NICHOLS. All of these subcommittee members demonstrated a strong commitment to helping the Nation's veterans. You could count on them to come to the subcommittee meetings on time and to contribute greatly to the shaping of legislation to benefit veterans. They will be missed, but I wish them and their families all the best in their future endeavors.

Mr. Speaker, the proposed compromise agreement contains most of the provisions passed by the House in two bills, H.R. 939 and H.R. 4168. The agreement we have reached with the other body is a reasonable compromise. Let me explain what we have agreed to do.

The compromise measure would expand entitlement to the Department of Veterans Affairs Home Loan Guaranty Program to members of the Reserves and National Guard who have served at least 6 years. Both the House and Senate bills had a similar provision. As demonstrated by the Persian Gulf war, the scope, size, and importance of missions assigned to Reserve components have increased dramatically.

The change to afford home loan entitlement to reservists is needed at this time to recognize the expanded responsibilities of the Reserves in this Nation's defense. An overwhelming majority of reservists responded willingly to the call to active duty during the Persian Gulf war, but the recent call up did disrupt lives and, in many cases, caused real economic hardship. Many reservists will be reevaluating their participation in the Reserve components on the basis of their Desert Storm experience. Whether or not members of the Guard and Reserve continue to serve in the Reserve components depends in part on the relief and benefits that are made available to them. With the reduction of the active military forces, the Reserve components will be relied on to provide an adequate cost-effective total force. Hence incentives to recruit and retain reservists and National Guardsmen may become even more important, particularly in light of the personal sacrifices required of recently recalled reservists.

The compromise would also establish a 3-year pilot program on adjustable rate mortgages in order to make the program fully responsive to market developments. Both the House and Senate bills contained provisions of this issue. Adjustable rate mortgages [ARMS] have become commonplace in the home loan market and the Department of Veterans Affairs is the only major mortgage market participant without the authority to guaranty an ARM. The 3-year pilot program will determine whether veteran borrowers would benefit from this type of mortgage which is often the preferred mortgage arrangement of nonveteran borrowers.

This ARM is tailored in a manner similar to those insured by the Federal Housing Administration [FHA] with limits on yearly interest rate increases as well as a maximum cap over the life of the loan. The interest rate may not escalate more than 1 percent per year with a cap of 5 percent over the life of the loan. The Department of Veterans Affairs would also be required to furnish the Congress with a report by December 31, 1994, containing a description of the results of this project.

The VA's vendee loan sale program would benefit by extending the authority for the guaranty of certificates that are marketed and traded as securities from December 31, 1992, through December 31, 1995. Again, both the House and the Senate bills contained provisions which addressed this matter. Public Law 102–291, which became effective May 20, 1992, authorized VA to guaranty the timely payment of principal and interest on certificates evidencing an interest in a pool of mortgage loans—vendee loans—made in connection with the sale of properties acquired under chapter 37. This change in law offered the kind of simple, straightforward, full faith and credit promise that investors are familiar with in the case of Government National Mortgage Association [GNMA] certificates. A VA analysis of the first sale of these securities on June 25, 1992, indicated that the Government guaranty produced $5 million more in proceeds than VA would have received without providing this guaranty. Extension of this authority should result in additional gains.

Mr. Speaker, I am pleased that the Senate agreed to adopt the House provision which would decrease the funding fee on interest rate reduction refinancing loans from 1.25 percent to 0.5 percent. Currently, section 3729 of title 38, United States Code, requires collection of a funding fee on Department of Veterans Affairs [VA] guaranteed home loans, except loans to veterans receiving or entitled to receive service-connected disability compensation. This fee is collected on all loans, including those for the purchase of new or existing homes and those to refinance existing liens of record. The fee is currently 1.25 percent of the loan except when the Veteran makes a downpayment on a loan to purchase or construct a home. Funding fees for loans with downpayments of 5 and 10 percent are 0.75 and 0.5 percent respectively. The purpose of this fee is to partially offset the cost to the Government for the loan guaranty program.

When a veteran obtains an interest rate reduction refinancing loan [IRRRL], it not only serves to substantially reduce the mortgage payment, the foreclosure risk to the government is reduced. As an example, the Department of Veterans Affairs furnished statistics on the foreclosure liquidation rates to the committee for fiscal years 1985–91. These indicated that the foreclosure rate on loans closed in 1985 was 12.82 percent when the interest rate averaged almost 12 percent compared to a 3.65-percent foreclosure rate on loans closed in 1987 when the interest rate averaged approximately 9 percent. Requiring that the veteran pay an additional funding fee of 1.25 percent to obtain an interest rate reduction refinancing loan could deter some veterans from seeking these loans. Since the veteran has already paid a fee to offset the cost of administering the loan guaranty benefit, it seems inequitable to charge the veteran the same fee or even more in some instances, to obtain the benefit of a reduced interest rate, especially since the Government shares in the benefit through a reduced risk of loss on the loan.

The Senate also agreed to the House provision to permit the amount of guaranty of the new IRRRL to be increased to an amount equal to the greater of the original guaranty amount or 25 percent of the new loan. In most cases, the increase in guaranty needed to achieve 25 percent would be minimal, but would help many veterans obtain loans to lower their interest rates and reduce their monthly mortgage payments.

Under current law, a problem arises when the guaranty amount of the interest rate reduction refinancing loan falls below 25 percent due to the inclusion of closing costs and discount points. In these cases, the secondary mortgage market requires the veteran to pay the difference—between 25 percent of the loan amount and the guaranty amount—in cash. Veterans who do not have the additional cash required at closing may be unable to obtain the loan needed to reduce the interest rate on their mortgages. This is an unfortunate result since, as noted above, IRRRL's benefit the veterans by reducing the monthly mortgage payment and also benefit the Government, as the lower monthly payments resulting from the lower interest rate reduce the likelihood of mortgage default by the borrower.

The Senate also agreed to the House provision to extend authority for the lender appraisal processing program from December 31, 1992 to December 31, 1995. Public Law 100–198 provided that the Department of Veterans Affairs may, in accordance with standards and procedures established in regulations, authorize a lender to determine the reasonable value of property if the lender is authorized to make loans which are automatically guaranteed. In such a case, the appraiser, selected by the Department on a rotational basis from the panel of appraisers it has determined are qualified, submits the completed appraisal report directly to the lender for review. The lender reviews the appraisal, determines the reasonable value of the property and, as soon as possible thereafter, furnishes a copy of the appraisal to the veteran who is applying for the loan. The lender can then close the loan on an automatic basis. The intended benefit of the lender appraisal processing program [LAPP] to veterans is to speed the time to loan closing.

Mr. Speaker, the compromise agreement would establish a 5-year pilot program of direct loans up to $80,000 to native Americans on trust lands. Currently, the American Indian and Alaska Native population living on trust lands have very limited opportunities for financing homes. The nature of Indian trust land is that it is held by the Federal Government in a unique Government-to-Government relationship with Indian tribes and is considered inalienable from the tribes. This complicates the ability of a private lender from obtaining a security interest in the property which is nearly always required in private real estate transactions. So while other Americans may take advantage of private financing or even federally guaranteed mortgages, residents on trust land have few options to finance a home. Thus, Native American veterans, who are entitled to certain benefits such as assistance with home financing because of their veteran status, cannot exercise this right in their homeland areas to obtain decent and affordable housing.

The compromise would require the Secretary to demonstrate the feasibility of guaranteeing mortgages for the acquisition of an existing dwelling and the cost of making energy efficiency improvements to the dwelling. The VA currently has a program to facilitate including the cost of energy conservation improvements in VA loans. Under this program, VA guaranteed home loans may be increased by: First, the actual cost of the improvements up to $2,000 without a separate determination of the value of the energy-related improvements; second, the actual cost of the improvements up to $3,500 if supported by a value determination by a designated appraiser; or third more than $3,500 subject to a value determination by VA. These dollar limitations were established in 1980 and have not been updated since that time.

Under the compromise, the cost of energy efficiency measures that may be financed by a loan guaranteed under this section may not exceed the greater of the cost of the energy efficiency improvements up to $3,000 or $6,000 if the increase in the monthly payment for principal and interest does not exceed the likely reduction in monthly utility costs resulting from the energy efficiency improvements. Energy related improvements may include solar heating and/or cooling systems, thermostats, water heaters, other types of heating/cooling systems, attic insulation, insulation for floors and foundation walls, weatherstripping/caulking, storm windows/doors.

Mr. Speaker, the compromise measure would permit the Secretary to elect whether loans bear interest at a rate that is agreed upon by the veteran and the mortgagee. Under current law, VA administratively establishes a national maximum interest rate for VA-guaranteed loans, and veterans are prohibited from paying discount points. When the administered rate lags behind the market rate, lenders are willing to make VA-guaranteed loans only if they can receive a substantial upfront premium in the form of discount points. Since current law requires the seller to pay the points on a VA-guaranteed loan, sellers generally attempt to make up the difference by requiring a higher purchase price. It is hoped that this new authority will ultimately reduce veterans' cost in housing.

Mr. Speaker, I am disappointed that the Senate did not accept the House provision to extend national cemetery burial eligibility to reservists and National Guardsmen who have 20 years of service creditable for retired pay as members of a reserve component on the Armed Forces. I am pleased, however, that they did agree on our provision to provide these reservists and National Guardsmen burial flag and gravemarker eligibility.

GENERAL LEAVE

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent to revise and extend my remarks and that all Members may have 5 legislative days to revise and extend their remarks, and include extraneous matter, on H.R. 939.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

Mr. STUMP. Mr. Speaker, I withdraw my reservation.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Mississippi?

There was no objection.

The House amendment to the Senate amendment was agreed to.

A motion to reconsider was laid on the table.

□ 0500

UNIFORMED SERVICES EMPLOYMENT AND REEMPLOYMENT RIGHTS ACT OF 1992

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent to take from

the Speaker's table the bill (H.R. 1578) to amend title 38, United States Code, with respect to employment and reemployment rights of veterans and other members of the uniformed services, with a Senate amendment thereto, and concur in the Senate amendment with an amendment.

The Clerk read the title of the bill.

The Clerk read the House amendment to the Senate amendment, as follows:

House amendment to Senate amendment:

In lieu of the matter proposed to be inserted by the amendment made by the Senate, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Uniformed Services Employment and Reemployment Rights Act of 1992".

SEC. 2. REVISION OF CHAPTER 43 OF TITLE 38.

(a) RESTATEMENT AND IMPROVEMENT OF EMPLOYMENT AND REEMPLOYMENT RIGHTS.—Chapter 43 of title 38, United States Code, is amended to read as follows:

"CHAPTER 43—EMPLOYMENT AND REEMPLOYMENT RIGHTS OF MEMBERS OF THE UNIFORMED SERVICES

"SUBCHAPTER I—PURPOSES, RELATION TO OTHER LAW, AND DEFINITIONS

"Sec.
"4301. Purposes; sense of Congress.
"4302. Relation to other law and plans or agreements.
"4303. Definitions.
"4304. Character of service.

"SUBCHAPTER II—EMPLOYMENT AND REEMPLOYMENT RIGHTS AND LIMITATIONS; PROHIBITIONS

"4321. Discrimination against persons who serve in the uniformed services and acts of reprisal prohibited.
"4322. Reemployment rights of persons who serve in the uniformed services.
"4323. Reemployment positions.
"4324. Rights, benefits, and obligations of persons absent from employment for service in a uniformed service.
"4325. Employee pension benefit plans.

"SUBCHAPTER III—PROCEDURES FOR ASSISTANCE AND ENFORCEMENT

"4331. Assistance in obtaining employment or reemployment; assistance in asserting claims with respect to State or local government or private employers.
"4332. Assistance in obtaining employment or reemployment by the Federal Government.
"4333. Enforcement of employment or reemployment rights with the Federal Government.
"4334. Enforcement of employment or reemployment rights with a State or private employer.

"SUBCHAPTER IV—INVESTIGATION OF COMPLAINTS

"4341. Conduct of investigation; subpoenas.

"SUBCHAPTER V—MISCELLANEOUS PROVISIONS

"4351. Regulations.
"4352. Reports.
"4353. Outreach.

"SUBCHAPTER I—PURPOSES, RELATION TO OTHER LAW, AND DEFINITIONS

"§ 4301. Purposes; sense of Congress

"(a) The purposes of this chapter are—

"(1) to encourage noncareer service in the uniformed services by eliminating or minimizing the disadvantages to civilian careers and employment which can result from such service;

"(2) to minimize the disruption to the lives of persons performing service in the uniformed services as well as to their employers, their fellow employees, and their communities, by providing for the prompt reemployment of such persons upon their completion of such service under honorable conditions; and

"(3) to prohibit discrimination against persons because of their service in the uniformed services.

"(b) It is the sense of Congress that the Federal Government should be a model employer in carrying out the reemployment practices provided for in this chapter.

"§ 4302. Relation to other law and plans or agreements

"(a) Nothing in this chapter shall supersede, nullify, or diminish any Federal or State law (including any local law or ordinance) or any practice, policy, agreement, plan, or other matter provided by an employer which establishes rights or benefits which are greater than or in addition to those provided in this chapter.

"(b) This chapter supersedes State laws (including any local law or ordinance), employer practices, policies, agreements, and plans, and other matters that reduce, limit, or eliminate in any manner rights or benefits provided by this chapter, including the establishment of additional prerequisites to the exercise of such rights.

"§ 4303. Definitions

"For the purposes of this chapter:

"(1) The term 'Attorney General' means the Attorney General of the United States or any person designated by the Attorney General to carry out a responsibility of the Attorney General under this chapter.

"(2) The term 'benefit', 'benefit of employment', or 'rights and benefits' means any aspect of the employment relationship, other than wages or salary for work performed, provided by contract or employer practice or custom, that offers advantage, profit, privilege, gain, status, account, or interest and includes, but is not limited to, pension plans and payments, insurance coverage and awards, employee stock ownership plans, bonuses, severance pay, supplemental unemployment benefits, vacations, and selection of work hours or locations of employment.

"(3)(A) Except as provided in subparagraphs (B) and (C), the term 'employer' means any person, institution, organization, or other entity that pays salary or wages for work performed or that has control over employment opportunities, including—

"(i) a person, institution, organization, or other entity to whom the employer has delegated the performance of employment-related responsibilities;

"(ii) the Federal Government;

"(iii) a State; and

"(iv) any successor in interest to a person, institution, organization, or other entity referred to in this subparagraph.

"(B) In the case of a National Guard technician employed under section 709 of title 32, the term 'employer' means the adjutant general of the State in which the technician is employed.

"(C) Except as an actual employer of employees, an employee pension benefit plan described in section 3(2) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(2)) shall be deemed to be an employer only with respect to the obligation to provide benefits described in section 4325.

"(4) The term 'Federal Government' includes the executive branch, the judicial branch, and the legislative branch, with the executive branch including—

"(A) any department, administration, agency, commission, board, or independent establishment in, or other part of, the executive branch (including any executive agency as defined in section 105 of title 5);

"(B) the United States Postal Service and the Postal Rate Commission;

"(C) any nonappropriated fund activity of the United States; and

"(D) any corporation wholly owned by the United States.

"(5) The term 'health plan' means an insurance policy or contract, medical or hospital service agreement, membership or subscription contract, or other arrangement under which health services for individuals are provided or the expenses of such services are paid.

"(6) The term 'notice' means (with respect to subchapter II) any written or verbal notification of an obligation or intention to perform service in the uniformed services provided to an employer by the employee who will perform such service or by the uniformed service in which such service is to be performed.

"(7) The term 'other than a temporary position' means a position of employment as to which there is a reasonable expectation that it will continue indefinitely.

"(8) The term 'qualified' means having the ability to perform the essential tasks of an employment position.

"(9) The term 'reasonable efforts' means actions, including training provided by an employer, that do not create an undue hardship on the employer.

"(10) Notwithstanding section 101 of this title, the term 'Secretary' means the Secretary of Labor or any person designated by such Secretary to carry out an activity under this chapter.

"(11) The term 'seniority' means longevity in employment together with any benefits of employment which accrue with, or are determined by, longevity in employment.

"(12) The term 'service in the uniformed services' means the performance of duty on a voluntary or involuntary basis in a uniformed service under competent authority and includes active duty, active duty for training, initial active duty for training, inactive duty training, full-time National Guard duty, and a period for which a person is absent from a position of employment for the purpose of an examination to determine the fitness of the person to perform any such duty.

"(13) The term 'State' means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, and other territories of the United States (including the agencies and political subdivisions thereof).

"(14) The term 'uniformed services' means the Armed Forces, the Army National Guard and the Air National Guard when engaged in active duty for training, inactive duty training, or full-time National Guard duty, the commissioned corps of the Public Health Service, and any other category of persons designated by the President in time of war or emergency.

"§ 4304. Character of service

"A person's entitlement to the benefits of this chapter by reason of the service of such person in one of the uniformed services terminates upon the occurrence of any of the following events:

"(1) A separation of such person from such uniformed service with a dishonorable or bad conduct discharge.

"(2) A separation of such person from such uniformed service under other than honorable conditions, as characterized pursuant to regulations prescribed by the Secretary concerned.

"(3) A dismissal of such person permitted under section 1161(a) of title 10.

"(4) A dropping of such person from the rolls pursuant to section 1161(b) of title 10.

"SUBCHAPTER II—EMPLOYMENT AND REEMPLOYMENT RIGHTS AND LIMITATIONS; PROHIBITIONS

"§ 4321. Discrimination against persons who serve in the uniformed services and acts of reprisal prohibited

"(a) A person who is a member of, applies to be a member of, performs, has performed, applies to perform, or has an obligation to perform service in a uniformed service shall not be denied initial employment, reemployment, retention in employment, promotion, or any benefit of employment by an employer on the basis of that membership, application for membership, service, application for service, or obligation.

"(b) An employer shall be considered to have denied a person initial employment, reemployment, retention in employment, promotion, or a benefit of employment in violation of this section if the person's membership, application for membership, service, application for service, or obligation for service in the uniformed services is a motivating factor in the employer's action, unless the employer can demonstrate that the action would have been taken in the absence of such membership, application for membership, service, application for service, or obligation.

"(c)(1) An employer may not discriminate in employment against or take any adverse employment action against any person because such person has taken an action to enforce a protection afforded any person under this chapter, has testified or otherwise made a statement in or in connection with any proceeding under this chapter, has assisted or otherwise participated in an investigation under this chapter, or has exercised a right provided for in this chapter.

"(2) The prohibition in paragraph (1) shall apply with respect to a person regardless of whether that person has performed service in the uniformed services.

"§ 4322. Reemployment rights of persons who serve in the uniformed services

"(a) Subject to subsections (b) and (c), any person who is absent from a position of employment (other than a temporary position) by reason of service in the uniformed services shall be entitled to the reemployment rights and benefits and other employment benefits of this chapter if—

"(1) the person (or an appropriate officer of the uniformed service in which such service is performed) has given advance written or verbal notice of such service to such person's employer;

"(2) except as provided in subsection (c) of this section, the cumulative length of the absence and of any previous absences from a position of employment with that employer by reason of service in the uniformed services does not exceed five years; and

"(3) the person reports to, or submits an application for reemployment to, such employer in accordance with the provisions of subsection (d).

"(b) No notice is required under subsection (a)(1) if the giving of such notice is precluded by military necessity or, under all of the relevant circumstances, the giving of such notice is otherwise impossible or unreasonable. A determination of military necessity for the purposes of this subsection shall be made pursuant to regulations prescribed by the Secretary of Defense and shall not be subject to judicial review.

"(c) Subsection (a) shall apply if such person's cumulative period of service in the uniformed services, with respect to the employer relationship for which a person seeks reemployment, does not exceed five years, except that any such period of service shall not include any service—

"(1) that is required, beyond five years, to complete an initial period of obligated service;

"(2) during which such person was unable to obtain orders releasing such person from a period of service in the uniformed services before the expiration of such five-year period and such inability was through no fault of such person;

"(3) performed as required pursuant to section 270 of title 10, under section 502(a) or 503 of title 32, or to fulfill additional training requirements determined and certified in writing by the Secretary concerned to be necessary for professional development or for completion of skill training or retraining; or

"(4) performed by a member of a uniformed service who is—

"(A) ordered to or retained on active duty under section 672(a), 672(g), 673, 673b, 673c, or 688 of title 10;

"(B) ordered to or retained on active duty (other than for training) under any provision of law during a war or during a national emergency declared by the President or the Congress;

"(C) ordered to active duty (other than for training) in support, as determined by the Secretary concerned, of an operational mission for which personnel have been ordered to active duty under section 673b of title 10;

"(D) ordered to active duty in support, as determined by the Secretary concerned, of a critical mission or requirement of the uniformed services; or

"(E) called into Federal service as a member of the National Guard under chapter 15 of title 10 or under section 3500 or 8500 of title 10.

"(d)(1) Subject to paragraphs (2) and (3), a person referred to in subsection (a) shall, upon the completion of a period of service in the uniformed services, notify the employer referred to in such subsection of the person's intent to return to a position of employment with such employer as follows:

"(A) In the case of a person whose period of service in the uniformed services was less than 31 days, by reporting to the employer—

"(i) not later than the beginning of the first full regularly scheduled work period on the first full calendar day following the completion of the period of service and the expiration of eight hours after a period allowing for the safe transportation of the person from the place of that service to the workplace of the employer; or

"(ii) as soon as possible after the expiration of the eight-hour period referred to in clause (i), if reporting within the period referred to in such clause is impossible or unreasonable through no fault of the person.

"(B) In the case of a person who is absent from a position of employment for a period of any length for the purposes of an examination to determine the person's fitness to perform service in the uniformed services, by reporting in the manner and time referred to in subparagraph (A).

"(C) In the case of a person whose period of service in the uniformed services was for more than 30 days but less than 181 days, by submitting an application for reemployment with the employer not later than 14 days after the completion of the period of service.

"(D) In the case of a person whose period of service in the uniformed services was for more than 180 days, by submitting an application for reemployment with the employer not later than 90 days after the completion of the period of service.

"(2) A person who is hospitalized for, or convalescing from, an illness or injury incurred in, or aggravated by, the performance of a period of service in the uniformed services shall report to the person's employer (in the case of a person described in subparagraph (A) or (B) of paragraph (1)) or submit an application for reemployment with such employer (in the case of a person described in subparagraph (C) or (D) of such paragraph) at the end of the period (not to exceed two years) that is necessary for the person to recover from such illness or injury. Such two-year period shall be extended by the minimum time required to accommodate the circumstances beyond such person's control which make reporting within the time limit specified in this paragraph impossible or unreasonable.

"(3) A person referred to in subparagraphs (A) or (B) of paragraph (1) who fails to report to an employer within the time period referred to in such subparagraph shall be considered to have failed to report for such work on schedule but may be treated by the employer no less favorably than the employer treats other absent employees pursuant to the employer's established policy or the general practices of the employer relating to employee absences.

"(e) A person who fails to report for employment or reemployment within the time limits specified in subsection (d) does not automatically forfeit such person's right under subsection (a) but shall be subject to the conduct rules of the employer pertaining to explanations and discipline with respect to absence from scheduled work.

"(f)(1) A person who submits an application for reemployment in accordance with subparagraph (C) or (D) of subsection (d)(1) shall provide to the person's employer (upon the request of such employer) documentation to establish that—

"(A) the person's application is timely;

"(B) the person has not exceeded the service limitations set forth in subsection (a)(2) (except as permitted under subsection (c)); and

"(C) the person's entitlement to the benefits under this chapter has not terminated under section 4304 of this title.

"(2) Documentation of any matter referred to in paragraph (1) that satisfies regulations prescribed by the Secretary shall satisfy the documentation requirements in such paragraph.

"(3) The failure of a person to provide documentation that satisfies regulations prescribed pursuant to paragraph (2) shall not be a basis for denying reemployment in accordance with the provisions of this chapter if the failure occurs because such documentation does not exist or is not readily available at the time of the request of the employer. If, after such reemployment, documentation becomes available that establishes that such person does not meet one or more of the requirements referred to in subparagraphs (A) through (C) of paragraph (1), the employer of such person may terminate the employment of the person and the provision of any rights or benefits afforded the person under this chapter.

"(4) It shall be unlawful for an employer to delay or attempt to defeat a reemployment obligation by demanding documentation that does not then exist or is not then readily available.

"(g) The right of a person to reemployment under this section shall not entitle such person to retention, preference, or displacement rights over any person with a superior claim under the provisions of title 5, United States Code, relating to veterans and other preference eligibles.

"(h) In any determination of a person's entitlement to protection under this chapter, the timing, frequency, and duration of the person's training or service or the nature of such training or service (including voluntary service) in the uniformed services shall not be a basis for denying protection of such training or service if the service does not exceed the limitations set forth in subsection (c) and the notice requirements established in subsection (a)(1) and the notification requirements established in subsection (d) are met.

"§4323. Reemployment positions

"(a) Subject to subsections (b) and (c), a person entitled to reemployment under section 4322 of this title upon completion of a period of service in the uniformed services shall be promptly reemployed in a position of employment in accordance with the following priority:

"(1) Except as provided in paragraphs (3) and (4), in the case of a person whose period of service in the uniformed services was for less than 91 days—

"(A) in the position of employment in which the person would have been employed if the continuous employment of such person with the employer had not been interrupted by such service, the duties of which the person is qualified to perform; or

"(B) in the position of employment in which the person was employed on the date of the commencement of the service in the uniformed services, if the person is not qualified to perform the duties of the position referred to in subparagraph (A) after reasonable efforts by the employer to qualify the person.

"(2) Except as provided in paragraphs (3) and (4), in the case of a person whose period of service in the uniformed services was for more than 90 days—

"(A) in the position of employment in which the person would have been employed if the continuous employment of such person with the employer had not been interrupted by such service, or a position of like seniority, status and pay, the duties of which the person is qualified to perform; or

"(B) in the position of employment in which the person was employed on the date of the commencement of the service in the uniformed services, or a position of like seniority, status and pay, the duties of which the person is qualified to perform, if the person is not qualified to perform the duties of a position referred to in subparagraph (A) after reasonable efforts by the employer to qualify the person.

"(3) In the case of a person who has a disability incurred during, or as a result of, a period of service in the uniformed services, and if, after reasonable efforts by the employer to accommodate the disability, such person is not qualified due to such disability to be employed in the position of employment in which the person would have been employed if the continuous employment of such person with the employer had not been interrupted by such service or the position of employment in which such person was employed on the date of the commencement of the service in the uniform services—

"(A) in any other position which is equivalent in seniority, status, and pay, the duties of which the person is qualified to perform or would become qualified to perform with reasonable efforts by the employer; or

"(B) if not employed under subparagraph (A), in a position which is the nearest approximation in terms of seniority, status, and pay consistent with circumstances of such person's case.

"(4) In the case of a person who is not qualified to be employed in the position of employment in which the person would have been employed if the continuous employment of such person with the employer had not been interrupted by such service or in the position of employment in which such person was employed on the date of the commencement of the service in the uniform services for any reason other than disability incurred during, or as a result of, a period of service in the uniformed services and who cannot become qualified with reasonable efforts by the employer, in any other position of lesser status and pay which such person is qualified to perform, with full seniority.

"(b)(1) An employer is not required to reemploy a person under this chapter if the employer's circumstances have so changed as to make such reemployment impossible or unreasonable or, in the case of a person entitled to reemployment under subsections (a)(3), (a)(4), and (c)(2)(B), would impose an undue hardship on the operation of the employer.

"(2) In any administrative or judicial proceeding involving an issue of whether (A) any reemployment referred to in paragraph (1) is impossible or unreasonable because of a change in an employer's circumstances, or (B) any accommodation, training, or effort referred to in subsection (a)(3) would impose an undue hardship on the operation of the business of the employer, the employer shall have the burden of proving the impossibility or unreasonableness or undue hardship.

"(c)(1) If two or more persons are entitled to reemployment under section 4322 in the same position of employment and more than one of them has reported for such reemployment, the person who left the position first shall have the prior right to be reemployed in that position.

"(2) Any person entitled to reemployment under this section who is not reemployed in a position of employment by reason of paragraph (1) shall be entitled to be reemployed as follows:

"(A) Except as provided in subparagraph (B), in any other position of employment referred to in subsection (a)(1) or (a)(2), as the case may be (in the order of priority set out in the applicable subsection), that provides a similar status and pay to a position of employment referred to in paragraph (1) of this subsection, consistent with circumstances of such person's case.

"(B) In the case of a person who has a disability incurred during, or as a result of, a period of service in the uniform services that requires reasonable efforts by the employer for the person to be able to perform the duties of the position of employment, in any other position referred to in subsection (a)(3) (in the order of priority set out in that subsection) that provides a similar status and pay to a position referred to in paragraph (1) of this subsection, consistent with circumstances of such person's case.

"§4324. Rights, benefits, and obligations of persons absent from employment for service in a uniformed service

"(a) A person who is reemployed under this chapter is entitled to the seniority and other rights and benefits determined by seniority that the person had on the date of the commencement of service in the uniformed services plus the additional seniority and rights and benefits that such person would have attained if the person had remained continuously employed.

"(b) A person who performs service in the uniformed services is considered to be on furlough or leave of absence while in the uniformed services and is also entitled to such other rights and benefits, not determined by seniority, relating to other employees on furlough or leave of absence which were in effect by contract, policy, or practice, at the commencement of such period of service or were established while such person is performing such service. Such person may be required to pay the employee cost, if any, of any funded benefit continued pursuant to the preceding sentence.

"(c)(1) A person who performs service in the uniformed services shall, at such person's request, continue to be covered by any insurance provided by such employer for up to 18 months. Such person may be required to pay the entire cost of any benefit continued pursuant to the preceding sentence, except that in the case of persons ordered to training or service for fewer than 31 days, such person may be required to pay only the employee share, if any, of the cost of such benefit.

"(2) In the case of employer-sponsored health benefits, an exclusion or waiting period may not be imposed in connection with coverage of a health or physical condition of a person entitled to participate in these benefits, either under paragraph (1) or upon reinstatement, or in connection with a health or physical condition of any other person who is covered by the benefit by reason of the coverage of such person, if—

"(A) the condition arose before or during that person's period of training or service in the uniformed services;

"(B) an exclusion or waiting period would not have been imposed for the condition during a period of coverage resulting from participation by such person in the benefits; and

"(C) the condition of such person has not been determined by the Secretary of Veterans Affairs to be service-connected.

"(d) A person who is reemployed by an employer under this chapter shall not be discharged from such employment, except for cause—

"(1) if such person's period of service was 181 days or more, within one year;

"(2) if such person's period of service was 31 days or more but less than 181 days, within six months; or

"(3) if such person's period of service was less than 31 days, within a period of time that is equal to the period of service concerned.

"(e) Any person who is absent from or leaves a position (other than a temporary position) in the employ of any employer for voluntary or involuntary service in the uniformed services may utilize, with respect to the employer and during any period of such service, accrued or other leave which the person could have utilized if the person had remained in such position.

"§4325. Employee pension benefit plans

"(a)(1) In the case of a right provided pursuant to an employee pension benefit plan described in section 3(2) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(2)) or a right provided under any Federal or State law governing pension benefits for governmental employees, the right to pension benefits of a person reemployed under this chapter shall be determined under this section.

"(2)(A) A person reemployed under this chapter shall be treated as not having incurred a break in service with the employer or employers maintaining the plan by reason of such person's period or periods of service in the uniformed services.

"(B) Each period served by a person in the uniformed services shall, upon reemployment under this chapter, be deemed to constitute service with the employer or employers maintaining the plan for the purpose of determining the nonforfeitability of the person's accrued benefits and for the purpose of determining the accrual of benefits under the plan.

"(b)(1) An employer reemploying a person under this chapter shall be liable to an employee benefit pension plan for funding any obligation of the plan to provide the benefits described in subsection (a)(2). For purposes of determining the amount of such liability and for purposes of section 515 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1145) or any similar Federal or State law governing pension benefits for governmental employees, service in the uniformed services that is deemed under subsection (a) to be service with the employer shall be deemed to be service with the employer under the terms of the plan or any applicable collective bargaining agreement. In the case of a multiemployer plan, as defined in section 3(37) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(37)), any liability of the plan described in this paragraph shall be allocated by the plan in such manner as the sponsor maintaining the plan may provide (or, if the sponsor does not so provide, shall be allocated to the last employer employing the person before the period described in subsection (a)(2)(B)).

"(2) A person reemployed under this chapter shall be entitled to accrued benefits pursuant to subsection (a) that are contingent on the making of, or derived from, employee contributions or elective deferrals (as defined in section 402(g)(3) of the Internal Revenue Code of 1986) only to the extent the person makes payment to the plan with respect to such contributions or deferrals. No such payment may exceed the amount the person or employer would have been permitted or required to contribute had the person remained continuously employed by the employer throughout the period of service described in subsection (a)(2)(B). Any payment to the plan described in this paragraph shall be made during any continuous period (beginning with the date of reemployment) as the employer and the person may agree.

"(3) For purposes of computing an employer's liability under paragraph (1) or the employee's contributions under paragraph (2), the employee's compensation during the period of service described in subsection (a)(2)(B)—

"(A) shall be computed at the same rate as the employee received from the employer immediately before such period; or

"(B) if the employee's compensation was not based on a fixed rate, shall be computed on the basis of the employee's average rate of compensation during the 12-month period immediately preceding such period (or, if shorter, the period of employment immediately preceding such period).

"(c) Any employer who reemploys a person under this chapter and who is an employer contributing to a multiemployer plan, as defined in section 3(37) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(37)), under which benefits are or may be payable to such person by reason of the obligations set forth in this chapter, shall, within 30 days after the date of such reemployment, provide information, in writing, of such reemployment to the administrator of such plan.

"SUBCHAPTER III—PROCEDURES FOR ASSISTANCE AND ENFORCEMENT

"§ 4331. Assistance in obtaining employment or reemployment; assistance in asserting claims with respect to State or local government or private employers

"(a) The Secretary (through the Veterans' Employment and Training Service) shall provide assistance in obtaining employment or reemployment to any person entitled to rights or benefits under this chapter. The Secretary may use existing Federal and State agencies engaged in similar or related activities and the assistance of volunteers.

"(b) Any person who claims that a private employer or a State or political subdivision thereof has denied or is about to deny such person any right or benefit under this chapter may apply to the Secretary for assistance in asserting that claim.

"§ 4332. Assistance in obtaining employment or reemployment by the Federal Government

"(a) Except as provided in subsections (c), (d), and (e), if a person is entitled to be reemployed under section 4322 by the Federal Government, such person shall be reemployed in a position of employment as described in sections 4323 and 4324.

"(b) Any person who claims that the Federal Government, as employer, has denied or is about to deny such person any right or benefit under this chapter may apply to the Secretary for assistance in asserting that claim.

"(c) If the employer of a person described in subsection (a) was, at the time such person entered service in the uniformed services, an agency in the executive branch, and the Director of the Office of Personnel Management determines that—

"(1) such employer no longer exists and its functions have not been transferred to another part of the executive branch; or

"(2) it is not feasible for such employer to reemploy such person.

the Director shall identify an alternative position of like seniority, status, and pay for which such person is qualified in another part of the executive branch, and the Director shall cause employment in such position to be offered to such person.

"(d) If the employer of a person described in subsection (a) was, at the time such person entered service in the uniformed services, a part of the judicial branch or the legislative branch of the Federal Government, and such employer determines that—

"(1) it is not feasible for such employer to reemploy such person; and

"(2) such person is otherwise eligible to acquire a status for transfer to a position in the competitive service in accordance with section 3304(c) of title 5,

such person shall, upon application to the Director of the Office of Personnel Management, be considered for and offered employment in an alternative position in the executive branch on the same basis as described in subsection (c).

"(e) If the adjutant general of a State determines that it is not feasible to reemploy a person who was a National Guard technician employed under section 709 of title 32, and such person is otherwise eligible to acquire a status for transfer to a position in the competitive service in accordance with section 3304(d) of title 5, such person shall, upon application to the Director of the Office of Personnel Management, be considered for and offered employment in an alternative position in the executive branch of the Federal Government on the same basis as described in subsection (c).

"§ 4333. Enforcement of employment or reemployment rights with the Federal Government

"(a) Any person who claims that—

"(1) such person is entitled under this chapter to employment or reemployment rights or benefits with respect to employment by the Federal Government; and

"(2)(A) such employer has failed or refused to comply with the provisions of this chapter; or

"(B) the Office of Personnel Management has failed or refused to comply with the provisions of this chapter,

may file a complaint with the Secretary, and the Secretary shall investigate such complaint. Subsection (a) of section 4341 shall be applicable to such investigation but not subsections (b) and (c) of such section.

"(b) Such complaint shall be in writing, be in such form as the Secretary may prescribe, include the name and address of the employer against whom the complaint is filed, and contain a summary of the allegations that form the basis for the complaint. Before the receipt of a written complaint, the Secretary shall, upon request, provide advice or technical assistance to the potential claimant and, if the Secretary determines it appropriate, to such claimant's employer.

"(c) If the Secretary, after investigation, is reasonably satisfied that such a failure to comply with the provisions of this chapter has occurred, if efforts to obtain voluntary compliance are not successful, and if the claimant requests that the claim be referred for litigation before the Merit Systems Protection Board, the Secretary shall refer the case to the Office of the Special Counsel. If the Special Counsel is reasonably satisfied that the person requesting representation is entitled to the rights or benefits sought, the Special Counsel shall appear and act as attorney for the claimant in filing an appeal to the Merit Systems Protection Board and in pursuing that appeal.

"(d) If the Special Counsel declines to represent a person after receiving a referral from the Secretary or if a person chooses not to apply to the Secretary for assistance or to utilize the Special Counsel for representation under this section, such person may be represented before the Merit Systems Protection Board by counsel of the person's choice.

"(e)(1) If the Merit Systems Protection Board concludes that the Federal Government, as employer, has failed or refused to comply with the provisions of this chapter or that the Director of the Office of Personnel Management has not met an obligation set forth in subsection (c), (d), or (e) of section 4332, the Board shall enter an order specifically requiring the employing agency or the Director to comply with such provisions and to compensate such person for any loss of wages or benefits suffered by reason of the employing agency's or the Director's unlawful action.

"(2) Any such compensation shall be in addition to and shall not be deemed to diminish any of the other rights or benefits provided for by this chapter.

"(f)(1) A claimant under this chapter may petition the United States Court of Appeals for the Federal Circuit to review a decision of the Merit Systems Protection Board denying such claimant the relief sought, in whole or in part, subject to the conditions and in accordance with the procedures set forth in section 7703 of title 5.

"(2) The Secretary and the Special Counsel shall not represent persons with respect to review of decisions of the Merit Systems Protection Board under this chapter in the United States Court of Appeals for the Federal Circuit or the Supreme Court.

"(3) If a person seeks such judicial review, or in any case in which a person is involved in the Board's decision being appealed by another party, such person may be represented by counsel of the person's choice.

"§ 4334. Enforcement of employment or reemployment rights with a State or private employer

"(a) A person who claims that—

"(1) such person is entitled under this chapter to employment or reemployment rights or benefits with respect to employment by a State or political subdivision thereof or a private employer; and

"(2) such employer or potential employer has failed or refused to comply with the provisions of this chapter,

may file a complaint with the Secretary, and such complaint shall be investigated under the provisions of subchapter IV.

"(b) Such complaint shall be in writing, be in such form as the Secretary may prescribe, include the name and address of the employer against whom the complaint is filed, and contain a summary of the allegations that form the basis for the complaint. Before the receipt of a written complaint, the Secretary shall, upon request, provide advice or technical assistance to the potential claimant and, if the Secretary determines it appropriate, to such claimant's employer.

"(c) If the Secretary, after investigation, is reasonably satisfied that the employer has failed to comply with the provisions of this chapter, if efforts to obtain voluntary compliance are not successful, and if the claimant requests that the claim be referred for litigation, the Secretary shall refer the case to the Attorney General. If the Attorney General is reasonably satisfied that the person requesting representation is entitled to the rights or benefits sought, the Attorney General shall appear and act as attorney for the claimant in the filing of a complaint and other appropriate motions and pleadings and the prosecution thereof.

"(d)(1)(A) The district courts of the United States may—

"(i) require the employer to comply with the provisions of this chapter;

"(ii) require the State or private employer, as the case may be, to compensate the person for any loss of wages or benefits suffered by reason of such employer's failure to comply with the provisions of this chapter; and

"(iii) require the employer to pay the person an amount equal to the amount referred to in clause (ii) as liquidated damages, if the court determines that the employer's failure to comply with the provisions of this chapter was willful.

"(B) Any compensation under clauses (ii) and (iii) of subparagraph (A) shall be in addition to, and shall not be deemed to diminish, any of the benefits provided for in the provisions of this chapter.

"(2)(A) No fees or court costs shall be charged or taxed against any person claiming rights or benefits under this chapter.

"(B) In any action or proceeding to enforce a provision of this chapter by a person described in subsection (a) who obtained private counsel for such action or proceeding, the court, in its discretion, may award any such person who prevails in such action or proceeding a reasonable attorney's fee, expert witness fees, and other litigation expenses.

"(3) The court may use its full equity powers, including temporary or permanent injunctions and temporary restraining orders, to vindicate fully the rights or benefits of persons under this chapter.

"(4) An action under this chapter may be initiated only by a person claiming rights or benefits under this chapter, not by an employer, prospective employer, or other entity with obligations under this chapter.

"(5) If the Attorney General refuses to represent a person after receiving a referral from the Secretary or if a person chooses not to apply to the Secretary for assistance or to utilize the Attorney General for representation under this section, such person may be represented before the district court by counsel of the person's choice.

"(6) In any action under this chapter, only the employer shall be deemed a necessary party respondent.

"(7) No State statute of limitations shall apply to any proceedings under this chapter.

"(8) A State shall be subject to the same remedies, including prejudgment interest, as may be imposed upon any private employer under this section.

"SUBCHAPTER IV—INVESTIGATION OF COMPLAINTS

"§ 4341. Conduct of investigation; subpoenas

"(a) In carrying out investigations under this chapter, the Secretary's duly authorized representatives shall at all reasonable times have access to, for the purpose of examination, and the right to copy and receive, any documents of any person or employer.

"(b) In carrying out investigations under this chapter, the Secretary may require by subpoena the attendance and testimony of witnesses and the production of documents relating to any matter under investigation. In case of disobedience of the subpoena or contumacy and on request of the Secretary, the Attorney General may apply (other than with respect to an investigation carried out under section 4333(a)) to any district court of the United States in whose jurisdiction such disobedience or contumacy occurs for an order enforcing the Secretary's subpoena.

"(c) Upon application, the district courts of the United States shall have jurisdiction to issue writs commanding any person or employer to comply with the subpoena of the Secretary or to comply with any order of the Secretary made pursuant to a lawful investigation under this chapter (other than an investigation carried out under section 4333(a)). The district courts shall have jurisdiction to punish failure to obey a subpoena or other lawful order of the Secretary as a contempt of court (other than with respect to an investigation carried out under section 4333(a)).

"SUBCHAPTER V—MISCELLANEOUS PROVISIONS

"§ 4351. Regulations

"(a) The Secretary (in consultation with the Secretary of Defense) may prescribe regulations implementing the provisions of this chapter with regard to the application of this chapter to States, local governments, and private employers.

"(b)(1) The Director of the Office of Personnel Management (in consultation with the Secretary and the Secretary of Defense) may prescribe regulations implementing the provisions of this chapter with regard to the application of this chapter to the Federal Government as employer. Such regulations shall be consistent with the regulations pertaining to the States and private employers, except that employees of the Federal Government may be given greater or additional rights. Nothing in this subsection constitutes authority for the Director to prescribe any matter for which any regulation may be prescribed under paragraph (2).

"(2) Regulations may be prescribed—

"(A) by the Merit Systems Protection Board to carry out its responsibilities under this chapter; and

"(B) by the Office of Special Counsel to carry out its responsibilities under this chapter.

"§ 4352. Reports

"The Secretary shall, after consultation with the Attorney General and the Special Counsel referred to in section 4333(c) and no later than February 1, 1994, and each February 1 thereafter, transmit to the Congress, a report containing the following matters for the fiscal year ending before such February 1:

"(1) The number of cases reviewed by the Department of Labor under this chapter during the fiscal year for which the report is made.

"(2) The number of cases referred to the Attorney General or the Special Counsel pursuant to section 4334(c) or 4333(c), respectively, during such fiscal year.

"(3) The number of pleadings filed by the Attorney General pursuant to section 4334(c) during such fiscal year.

"(4) The nature and status of each case reported on pursuant to paragraph (1), (2), or (3).

"(5) An indication of whether there are any apparent patterns of violation of the provisions of this chapter, together with an explanation thereof.

"(6) Recommendations for administrative or legislative action that the Secretary, the Attorney General, or the Special Counsel considers necessary for the effective implementation of this chapter, including any action that could be taken to encourage mediation, before claims are filed under this chapter, between employers and persons seeking employment or reemployment.

"§ 4353. Outreach

"The Secretary, the Secretary of Defense, and the Secretary of Veterans Affairs shall take such actions as such Secretaries determine are appropriate to inform persons entitled to rights and benefits under this chapter and employers of the rights, benefits, and obligations of such persons and such employers under this chapter.".

SEC. 3. EXEMPTION FROM MINIMUM SERVICE REQUIREMENTS.

Section 5303A(b)(3) of title 38, United States Code, is amended—

(1) by striking out "or" at the end of subparagraph (E);

(2) by striking out the period at the end of subparagraph (F) and inserting in lieu thereof "; or"; and

(3) by adding at the end thereof the following new subparagraph;

"(G) to benefits under chapter 43 of this title.".

SEC. 4. CONFORMING AMENDMENTS.

(a) AMENDMENTS TO TITLE 38.—The tables of chapters at the beginning of title 38, United States Code, and the beginning of part III of such title are each amended by striking out the item relating to chapter 43 and inserting in lieu thereof the following:

"43. Employment and reemployment rights of persons who serve in the uniformed services .... 4301".

(b) Amendment to Title 5.—(1) Section 1204(a)(1) of title 5, United States Code, is amended by striking out "section 2023" and inserting in lieu thereof "chapter 43".

(2) Subchapter II of chapter 35 of such title is repealed.

(3) The table of sections for chapter 35 of such title is amended by striking out the items relating to subchapter II.

(c) Amendment to Title 10.—Section 706(c)(1) of title 10, United States Code, is amended by striking out "section 2021" and inserting in lieu thereof "chapter 43".

(d) Amendments to Title 28.—Section 631 of title 28, United States Code, is amended—

(1) by striking out subsection (j);

(2) by redesignating subsections (k) and (l) as subsections (j) and (k), respectively; and

(3) in subsection (j), as redesignated by paragraph (2), by striking out "under the terms of" and all that follows through "section," the first place it appears and inserting in lieu thereof "under chapter 43 of title 38,".

SEC. 5. TECHNICAL AMENDMENT.

Section 9(d) of Public Law 102–16 (105 Stat. 55) is amended by striking out "Act" the first place it appears and inserting in lieu thereof "section".

SEC. 6. TRANSITION RULES AND EFFECTIVE DATES.

(a) Applicability of Chapter 43 to Persons Commencing Service After Date of Enactment.—

(1) After 90 days after such date.—The provisions of chapter 43 of title 38, United States Code (as amended by section 2(a) of this Act), and section 5303A(b)(3)(G) of such title (as added by section 3 of this Act) shall apply to persons who commence periods of service in the uniformed services after the 90-day period beginning on the date of the enactment of this Act.

(2) Within 90 days after such date.—Any person who commences the performance of a period of service in the uniformed services during the 90-day period referred to in paragraph (1) shall be covered during such 90-day period by the provisions of chapter 43 of title 38, United States Code, in effect on the day before the date of the enactment of this Act.

(b) Applicability of Chapter 43 to Persons Performing Active Duty on Date of Enactment.—

(1) In general.—Any person who is performing service in the uniformed services on the date of the enactment of this Act shall be covered during the 90-day period beginning on such date by the provisions of chapter 43 of title 38, United States Code, in effect on the day before such date.

(2) Continuing service.—(A) Any person whose service in the uniformed services described under paragraph (1) continues after the 90-day period referred to in that paragraph shall be covered during the period of such service after that 90-day period by the provisions of chapter 43 of title 38, United States Code, as amended by section 2(a) of this Act, and section 5303A(b)(3)(G) of such title (as added by section 3 of this Act).

(B)(i) Except as provided in clause (ii), for the purposes of section 4322(a)(1) of such title (as added by section 2(a) of this Act), a person referred to in subparagraph (A) shall be deemed to have satisfied the notification requirement referred to in such section.

(ii) Any person referred to in subparagraph (A) who was subject to the requirement under section 2024(d) of title 38, United States Code (as in effect on the day before the date of the enactment of this Act), of requesting a leave of absence with respect to the service described in that subparagraph from the person's employer shall be deemed to have met the requirement of notifying the person's employer under such section 4322(a)(1) if the person requested the leave of absence.

(C) For the purposes of calculating the cumulative length of service performed by a person referred to in this paragraph under section 4322(a)(2) of such title (as so added), any service in the uniformed services (other than service referred to in section 4322(c) of such title (as so added) shall be included.

(3) Alternative reporting requirement.—A person referred to in paragraph (1) shall report to work in accordance with the provisions of section 2024(d) of title 38, United States Code, in effect on the day before the date of the enactment of this Act.

(c) Special Rule for Applicability of Insurance Provisions.—Notwithstanding subsections (a)(2) and (b)(2), a person referred to in such subsections shall be covered by the provisions of section 2021(b)(1) of title 38, United States Code (relating to insurance benefits), in effect on the day before the date of the enactment of this Act until the person has received notice of the provisions of section 4324(c) of such title (as added by section 2(a) of this Act) and has had a reasonable opportunity to elect to be covered by the provisions of such section 4324(c) (as so added). If such an election is made, insurance coverage may remain in effect for the remaining portion of the 18-month period that began on the date of such person's separation from civilian employment.

(d) Reemployment of Disabled Persons.—

(1) In general.—Section 4323(a)(3) of chapter 43 of title 38, United States Code (as added by section 2(a) of this Act) shall apply to reemployments initiated on or after August 1, 1990.

(2) Repeal.—(A) Effective as of August 1, 1990, section 2027 of title 38, United States Code (as in effect on the day before the date of the enactment of this Act), is repealed.

(B) Effective as of August 1, 1990, the table of sections at the beginning of chapter 43 of such title (as in effect on the day before the date of the enactment of this Act) is amended by striking out the item relating to section 2027.

(e) Discrimination.—The provisions of section 4321(c) of title 38, United States Code (as added by section 2(a) of this Act) and the provisions of subchapters III and IV of such title (as so added), shall become effective on the date of the enactment of this Act.

(f) Employee Pension Benefit Plan.—Section 4325 of title 38, United States Code (as amended by section 2(a) of this Act), shall apply to reemployment initiated on or after August 1, 1990.

(g) Savings Provision.—Except as otherwise provided in this Act, the provisions of this Act and the amendments made by this Act do not effect rights, benefits, and duties that matured, penalties that were incurred, or proceedings that were begun before the effective date of the pertinent provision of this Act.

(h) Definition.—For the purposes of this section, the term "service in the uniformed services" shall have the meaning given such term in section 4303(12) of title 38, United States Code (as added by section 2(a) of this Act).

Mr. MONTGOMERY (during the reading). Mr. Speaker, I ask unanimous consent that the House amendment to the Senate amendment be considered as read and printed in the Record.

The SPEAKER pro tempore (Mr. Skaggs). Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The SPEAKER pro tempore. Is there objection to the original request of the gentleman from Mississippi?

Mr. STUMP. Reserving the right to object, Mr. Speaker, I yield to the gentleman for an explanation.

Mr. MONTGOMERY. Mr. Speaker, the House first approved the Uniformed Services Employment and Reemployment Rights Act of 1991—H.R. 1578, as amended—on May 14, 1991. On October 1, 1992, the Senate amended H.R. 1578 with the language of S. 1095 and returned the bill to the House. Unfortunately, after many hours of discussion and good-faith negotiating on both sides, we were not able to reach agreement with the other body on compromise language. Although there are few areas of disagreement, we believe the unresolved issues are critical to the fair and equitable implementation of veterans' employment and reemployment rights. Accordingly, the measure we are now considering reflects only House views.

By way of background, the veterans' reemployment rights [VRR] provisions of Federal law, which protect employment and reemployment rights in civilian employment of members of the uniformed services, have been in effect for over 50 years. Although the law has effectively served the interests of veterans, members of the Selected Reserve, the armed services, and employers, the current statute—chapter 43, title 38, United States Code—is complex, at times ambiguous, and in some instances does not reflect court interpretations made through the years. Consequently, members of the uniformed services and employers have expressed concern that they are occasionally uncertain of their rights and responsibilities under VRR. It was, and continues to be, the intent of the committee, when undertaking the rewriting of chapter 43, to clarify, simplify, and, where necessary, to strengthen the existing veterans' employment and reemployment rights provisions.

The underlying principle of VRR law is to ensure that the men and women who serve in our Nation's uniform services are not disadvantaged by the service. Without such protection, it would be impossible to recruit the smart, competent individuals our military needs to maintain a strong national defense, and the total force policy, under which members of the Reserve components have been tasked with greater responsibility for every phase of military preparedness, would be unworkable.

The employer community, for 50 years, has understood the absolute necessity for their full cooperation and compliance with the VRR statutes and has generally gone the extra mile to accommodate and assist our men and women in uniform. This commitment was most recently demonstrated during the Persian Gulf war, when employers across the country not only complied with their responsibilities under chapter 43 but in many instances went well beyond the requirements of law in order to do their part during a national emergency. Many businesses, both large and small, even made up the salary differences for those members of the Selected Reserve whose military pay was lower than their civilian wages.

The strength of the United States is dependent on the recognition of all citizens that they are a responsibility to contribute to the national well-being and that, in order to ensure the preservation of our country, some sacrifice may be required. Clearly, those who volunteer for duty in the uniform services made significant sacrifices and, in order to support their effort, concessions and adjustments must be made by their families, friends, coworkers, and employers. The enactment of H.R. 1578, as amended, would protect the rights and benefits of members of the uniformed services and, at the same time, ensure that no unreasonable burden is imposed on the employer community.

H.R. 1578, as amended, is a good bill, and I urge my colleagues to support it.

Further reserving the right to object, Mr. Speaker, I rise in strong support of the House amendment to the Senate amendment to H.R. 1578, the Uniformed Services Employment and Reemployment Rights Act of 1992.

The House amendment reflects a number of compromise agreements with the other body. Unfortunately, the two bodies have not been able to reach agreement on the provision regarding employee pension benefit plans. This is a complex and highly technical area, and I firmly believe it is extremely important for this provision to be perfected.

Agreement may still be possible, but the time left in this session is very short indeed. If no agreement is reached, reemployment rights should be a top item on the agenda for the next session.

Mr. Speaker, I urge my colleagues to approve the House amendment to the Senate amendment.

Mr. PENNY. Mr. Speaker, I am very disappointed that we were unable to reach a compromise with the other body on H.R. 1578, veterans' reemployment rights legislation. This is a very technical area, and I know that a great deal of time, thought, and study went into the development of the bills on both sides. Our fundamental disagreements, however, regarding certain rights and benefits for members of the uniformed services could not be resolved.

The amendment we are considering tonight, which largely clarifies current law, would continue to provide the protection necessary to ensure that active duty service members and members of the Selected Reserve are not in any way disadvantaged as a result of their military service when they return to their civilian employment. Additionally, responsibilities imposed on employers under the amendment are not significantly different from those now in place.

Although current law—chapter 43, title 38, United States Code—adequately protect the employment and reemployment rights of members of the uniformed services, clarification of the statute is necessary, and I expect to pursue this issue in the 103d Congress. Our military personnel and the employer community deserve to have in place a statute which clearly delineates their rights and responsibilities.

Mr. Speaker, I want to take this opportunity to extend my thanks to the employer community for their extraordinary support of our service men and women during the Persian Gulf war. In spite of the hundreds of thousands of members of the Selected Reserve who were activated during Desert Shield/Desert Storm, very few service members had problems when they returned to their civilian jobs, and we on the committee did not receive a single letter of complaint from an employer regarding employer responsibilities under chapter 43.

I commend the employers of this country for their cooperation and patriotism, and I know this spirit of support will continue as we consider veterans' reemployment rights legislation in the next Congress.

Mr. STUMP. Mr. Speaker, I thank the gentleman for the explanation, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Mississippi?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks, and include therein extraneous material on H.R. 1578 and the amendments thereto.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

ESTABLISHING MEMORIAL TO HONOR THOMAS PAYNE

Mr. GEJDENSON. Mr. Speaker, I ask unanimous consent that the Committee on House Administration be discharged from further consideration of the bill (H.R. 6165) to amend certain provisions of laws relating to establishment in the District of Columbia or its environs of the memorial to honor Thomas Payne, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. MCDERMOTT). Is there objection to the request of the gentleman from Connecticut?

Mr. ALLEN. Reserving the right to object. Mr. Speaker, I yield to the gentleman for an explanation.

Mr. GEJDENSON. Mr. Speaker, this bill accomplishes two purposes. First, I correct the name of the organization authorized to establish the Thomas Payne Memorial; and second, it corrects the text of an earlier passed bill which should have contained the language in this bill.

The House and the Senate sponsors have asked that these corrections be made, and the authorizing committees of the House and the Senate concur.

Mr. ALLEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

The Clerk read the bill, as follows:

H.R. 6165

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That effective as of the enactment of the Act entitled "An Act to authorize the construction of a monument in the District of Columbia or its environs to honor Thomas Paine, and for other purposes" (H.R. 1628, One Hundred Second Congress), such Act is amended to read as follows:

"SECTION 1. AUTHORITY TO ESTABLISH MEMORIAL.

"(a) IN GENERAL.—The Thomas Paine National Historical Association is authorized to establish a memorial on Federal land in the District of Columbia or its environs to honor Thomas Paine.

"(b) COMPLIANCE WITH STANDARDS FOR COMMEMORATIVE WORKS.—The establishment of the memorial shall be in accordance with the Act entitled 'An Act to provide standards for placement of commemorative works on certain Federal lands in the District of Columbia and its environs, and for other purposes' approved November 14, 1986 (40 U.S.C. 1001, et seq.).

"SEC. 2. PAYMENT OF EXPENSES.

"The Thomas Paine National Historical Association shall be solely responsible for acceptance of contributions for, and payment of the expenses of, the establishment of the memorial. No Federal funds may be used to pay any expense of the establishment of the memorial.

"SEC. 3. DEPOSIT OF EXCESS FUNDS.

"If, upon payment of all expenses of the establishment of the memorial (including the maintenance and preservation amount provided for in section 8(b) of the Act referred to in section 1(b)), or upon expiration of the authority for the memorial under section 10(b) of that Act, there remains a balance of funds received for the establishment of the memorial, the Thomas Paine National Historical Association shall transmit the amount of the balance to the Secretary of the Treasury for deposit in the account provided for in section 8(b)(1) of that Act.".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GEJDENSON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks, and include therein extraneous material, on H.R. 6165, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

RELATING TO HUMANITARIAN RELIEF AND THE HUMAN RIGHTS SITUATION IN SUDAN

Mr. GEJDENSON. Mr. Speaker, I ask unanimous consent that the Committee on Foreign Affairs be discharged from further consideration of the Senate concurrent resolution (S. Con. Res. 140) relating to humanitarian relief and the human rights situation in Sudan, and ask for its immediate consideration.

The Clerk read the title of the Senate concurrent resolution.

The Speaker pro tempore. Is there objection to the request of the gentleman from Connecticut?

Mr. ROTH. Reserving the right to object, Mr. Speaker, I yield to the gentleman for an explanation.

Mr. GEJDENSON. Mr. Speaker, this resolution recognizes the situation in Sudan, the tremendous human rights situation. I am sure all the Members of the House would like to see it passed.

Mr. GILMAN. Mr. Speaker, I rise in strong support for Senate Concurrent Resolution 140, legislation regarding humanitarian relief and human rights in Sudan. I want to thank the chairman of the Foreign Affairs Committee, the gentleman from Florida [Mr. FASCELL,] and the ranking minority member, the gentleman from Michigan [Mr. BROOMFIELD,] for bringing Senate Concurrent Resolution 140 to the floor. I also want to thank the chairman and ranking minority member of the Africa Subcommittee, Mr. DYMALLY and Mr. BURTON, for their deep concern and attention to this issue.

I am outraged and angered that the Government of Sudan recently executed one, possibly two employees of the United States Agency for International Development after trials in which the victims had no possibility of appropriate counsel or appeal.

This is an extraordinary action that demands a strong and uncompromising response. We must demand that those responsible are brought to justice. In addition, we should hold accountable the Government of Sudan for the crime.

Accordingly, I strongly support Senate Concurrent Resolution 140 and urge my colleagues to vote for the bill.

Mr. ROTH. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

The Clerk read the Senate concurrent resolution, as follows:

S. CON. RES. 140

Whereas the Government of Sudan engages in a consistent pattern of gross violations of internationally recognized human rights;

Whereas Sudanese military forces and the resistance movement, the Sudan Peoples' Liberation Army, are currently engaged in a battle for the southern capital of Juba without regard for the welfare of its civilian population, some 300,000 of whom are existing only on the intermittent provision of relief supplies;

Whereas the Government of Sudan is engaging in gross abuses of human rights elsewhere in the country, including a campaign of forced displacement of tens of thousands of Nuba from their ancestral homes in southern Kordofan Province, the destruction of Nuba villages, and the killing of hundreds of civilians;

Whereas the Government of Sudan has undertaken a cruel campaign to relocate some 500,000 internally displaced southerners and westerners from the outskirts of Khartoum to inhospitable camps far from the city, has announced plans to relocate an additional 250,000 in the coming months, and inhibited many international relief agencies from aiding the displaced;

Whereas the Government of Sudan has systematically harassed international relief agencies and workers whose only objective is to reduce suffering among Sudanese citizens in need;

Whereas the Government of Sudan is engaging in the imprisonment, torture, and execution of suspected dissidents across the country; and

Whereas, in September 1992, the Government of Sudan executed in Juba one and possibly two employees of the United States Agency for International Development after trials in which the victims had no possibility of appropriate counsel or appeal: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring),

(1) condemns the egregious human rights abuses by the Government of Sudan and calls upon the Government of Sudan to cease its abuses of internationally recognized human rights and specifically—

(A) to allow free movement for all civilians who wish to leave the southern city of Juba and to cease the human rights abuses, including summary executions, of those civilians held against their will in Juba;

(B) to allow unrestricted and unconditional access for the International Committee of the Red Cross, United States officials, and other relief organizations to all parts of the country, including Juba;

(C) to guarantee the personal safety and security of all relief workers, including Sudanese employees of relief agencies working in Sudan;

(D) to provide a full accounting of the recent deaths of employees of the United States Agency for International Development in Juba;

(E) to cease its violent campaign of forced displacement of the Nuba people of Kordofan Province and the displaced people from Khartoum, to permit a greater number of international relief organizations to attend to their needs, and to initiate a process for just settlement of claims of those who have been relocated and whose homes and belongings have been destroyed;

(F) to permit international human rights groups to visit all areas of Sudan, including places of detention and displaced persons camps; and

(G) to lift the ban on the institutions of independent civil society such as the press and labor unions, and to restore freedom of speech and expression;

(2) calls upon the Sudan Peoples' Liberation Army to end its human rights abuses and interference with relief efforts; and

(3) calls upon the President to work with United Nations Secretary General Boutros Boutros-Ghali to convene a Security Council meeting to discuss the human rights situation in Sudan and to consider further international means, including within the United Nations system, to ameliorate the humanitarian situation in Sudan.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

CONCERNING U.S. PARTICIPATION IN THE CASCADIA CORRIDOR COMMISSION

Mr. GEJDENSON. Mr. Speaker, I ask unanimous consent that the Committee on Foreign Affairs be discharged from further consideration of the concurrent resolution (H. Con. Res. 383) concerning the United States participation in the Cascadia Corridor Commission, and ask for its immediate consideration.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 383

Resolved by the House of Representatives (the Senate concurring),

SECTION 1. It is the sense of Congress that:

(a) CASCADIA CORRIDOR COMMISSION.—The United States should continue negotiations with the Government of Canada and State, provincial, and local governments in the urbanized Cascadia corridor along Interstate 5/Highway 99 from Vancouver, British Columbia (including Vancouver Island), to Eugene, Oregon, in order to establish a commission to—

(1) act as a forum to coordinate consideration of regional issues in the Cascadia area by representatives from the private sector, nonprofit organizations, and local, State, provincial, regional, and national governments;

(2) develop a strategy for environmentally sound economic development in the Cascadia region which includes consideration of environmental issues, urban development, transportation, communications, and education; and

(3) submit a plan, developed by the commission and incorporating such strategy, to the Congress, the Canadian Parliament, the legislature of British Columbia, and the State legislatures of Oregon and Washington.

(b) ADVISORY COMMISSION.—The commission should be authorized to function only in an advisory capacity and should have no authority concerning any local, State, or Federal agency or government.

(c) COMPOSITION OF UNITED STATES DELEGATION.—If the United States and Canada conclude an agreement to establish such a commission concerning the Cascadia region, the United States delegation to the commission should include—

(1) 1 member appointed by the President, who should be a nonvoting member;

(2) a Washington State delegation; and

(3) an Oregon delegation.

(d) COST-SHARING AMONG U.S. DELEGATION.—Upon appointment of the United States delegation to such a commission, the United States delegation should decide the cost-sharing arrangements among the Federal, State, and local participants of the delegation. Federal Government contributions of the United States may not exceed one-fourth of the total budget of the commission for any fiscal year.

If a Cascadia commission is established, it is the sense of the Congress that of funds appropriated for "International Commissions" for the Department of State $200,000 for fiscal year 1993 and $200,000 for fiscal year 1994 should be available for the commission.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

PEACE CORPS AUTHORIZATIONS, FISCAL YEAR 1993

Mr. GEJDENSON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 3309) to amend the Peace Corps Act to authorize appropriations for the Peace Corps for fiscal year 1993 and to establish a Peace Corps foreign exchange fluctuations account, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 3309

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORIZATIONS OF APPROPRIATIONS.

Section 3(b) of the Peace Corps Act (22 U.S.C. 2502(b)) is amended to read as follows:

"(b) AUTHORIZATIONS OF APPROPRIATIONS.—There are authorized to be appropriated to carry out the purposes of this Act $218,146,000 for fiscal year 1993, which are authorized to remain available until September 30, 1994.".

SEC. 2. PEACE CORPS FOREIGN CURRENCY FLUCTUATIONS.

(a) ESTABLISHMENT OF FOREIGN CURRENCY FLUCTUATIONS ACCOUNT.—The Peace Corps Act (22 U.S.C. 2501 et seq.) is amended by inserting after section 15 the following new section:

"SEC. 16. FOREIGN CURRENCY FLUCTUATIONS ACCOUNT.

"(a) ESTABLISHMENT.—(1) There is established in the Treasury of the United States an account to be known as the 'Foreign Currency Fluctuations, Peace Corps, Account'. The account shall be used for the purpose of providing funds to pay expenses for operations of the Peace Corps outside the United States which, as a result of fluctuations in currency exchange rates, exceed the amount appropriated for such expenses.

"(2) Funds in the account may be transferred, upon the certification of the Director of the Peace Corps (or the Director's designee) that the transfer is necessary for the purpose specified in paragraph (1), to the account containing funds appropriated for the expenses of the Peace Corps.

"(b) USE OF FUNDS IN THE ACCOUNT.—Funds transferred under subsection (a) shall be merged with, and be available for the same time period, as the appropriation to which they are applied. Notwithstanding any provision of law limiting the amount of funds the Peace Corps may obligate in any fiscal year, such amount shall be increased to the extent necessary to reflect fluctuations in exchange rates from those used in preparing the budget submission.

"(c) EXCHANGE RATES APPLICABLE TO OBLIGATIONS.—An obligation of the Peace Corps payable in the currency of a foreign country may be recorded as an obligation based upon exchange rates used in preparing a budget submission. A change reflecting fluctuations in exchange rates may be recorded as a disbursement is made.

"(d) TRANSFERS BACK TO ACCOUNT.—Funds transferred from the Foreign Currency Fluctuations, Peace Corps, Account may be transferred back to that account—

"(1) if the funds are not needed to pay obligations incurred because of fluctuations in currency exchange rates of foreign countries in the appropriation to which the funds were originally transferred; or

"(2) because of subsequent favorable fluctuations in the rates or because other funds are, or become, available to pay such obligations.

"(e) LIMITATION ON TRANSFERS BACK.—A transfer of funds back to the account under subsection (d) may not be made after the end of the fiscal year or other period for which the appropriation, to which the funds were originally transferred, is available for obligation.

"(f) TRANSFERS TO THE ACCOUNT FROM REGULAR APPROPRIATIONS.—(1) At the end of the fiscal year or other period for which appropriations for the expenses of the Peace Corps are made available, unobligated balances of such appropriation may be transferred into the Foreign Currency Fluctuations, Peace Corps, Account, to be merged with, and to be available for the same period and purposes as, that account.

"(2) The authority of this subsection shall be exercised only to the extent that specific amounts are provided in advance of an appropriation Act.

"(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Foreign Currency Fluctuations, Peace Corps, Account for each fiscal year such sums as may be necessary to maintain a balance of $5,000,000 in such account at the beginning of such fiscal year.

"(h) REPORTS.—Each year the Director of the Peace Corps shall submit to the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives, and to the Committee on Foreign Relations and the Committee on Appropriations of the Senate, a report on funds transferred under this section.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to each fiscal year after fiscal year 1992.

SEC. 3. EVALUATION OF HEALTH-CARE SERVICES PROVIDED TO PEACE CORPS VOLUNTEERS.

(A) IN GENERAL.—The Director of the Peace Corps shall contract with an eligible organization or organizations to conduct before January 1, 1997, a total of three evaluations of the health-care needs of the Peace Corps volunteers and the adequacy of the system through which the Peace Corps provides health-care services in meeting those needs.

(b) REQUIREMENTS OF THE EVALUATIONS.—Each evaluation shall include an assessment of the adequacy of the Peace Corps health-care system—

(1) to provide diagnostic, treatment, and referral services to meet the health-care needs of Peace Corps volunteers, and

(2) to conduct health examinations of applicants for enrollment as Peace Corps volunteers and to provide immunization and dental care preparatory to service of applicants for enrollment who have accepted an invitation to begin a period of training for service as a Peace Corps volunteer.

"(c) Reports to the Peace Corps.—An organization making an evaluation under this section shall submit to the Director of the Peace Corps a report containing its findings and recommendations not later than May 31, 1993, December 31, 1994, and December 31, 1996, as the case may be. Each report shall include recommendations regarding appropriate standards and procedures for ensuring the furnishings of quality medical care and for measuring the quality of care provided to Peace Corps volunteers.

(d) REPORT TO CONGRESS.—Not later than 90 days after receipt of a report required by subsection (c), the Director of the Peace Corps shall transmit the report, together with the Director's comments, to the appropriate congressional committees.

(e) DEFINITIONS.—For purposes of this section—

(1) the term "appropriate congressional committees" means the Committee on Foreign Relations and the Committee on Appropriations of the Senate and the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives; and

(2) the term "eligible organization" means an independent health-care accreditation organization or other independent organization with expertise in evaluating health-care systems similar to that of the Peace Corps.

SEC. 4. REPORTING REQUIREMENT ON EMPLOYMENT-RELATED MATTERS.

(a) IN GENERAL.—Not later than May 31, 1992, the Director of the Peace Corps and the Secretary of Labor shall jointly submit to the appropriate congressional committees a report which describes—

(1) the information provided by the Peace Corps to its volunteers and to applicants for volunteer service in the Peace Corps regarding the benefits and services to which Peace Corps volunteers or trainees may be entitled or for which they may be eligible in the event that they sustain injuries or become disabled during their service, or their training for service, with the Peace Corps;

(2) the efforts by the Peace Corps and the Department of Labor to coordinate the provision of such information to Peace Corps volunteer-applicants and volunteers and the processing of claims by Peace Corps volunteers under the Federal Employees Compensation Act (FECA);

(3) the number of Peace Corps volunteers and volunteer-applicants who have filed claims under the Federal Employees Compensation Act (FECA) and the percentage of the claims that have been approved; and

(4) the timeliness of approvals or denials of claims of Peace Corps volunteers and volunteer-applicants under the Federal Employees Compensation Act (FECA).

(b) RECOMMENDATIONS.—The report required by subsection (a) shall also include such recommendations as the Director of the Peace Corps and the Secretary of Labor may determine necessary to facilitate the filing and processing of claims by Peace Corps volunteers regarding the benefits described in that subsection.

(c) DEFINITIONS.—For purposes of this section—

(1) the term "appropriate congressional committees" means the Committee on Foreign Relations and the Committee on Appropriations of the Senate and the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives; and

(2) the term "Federal Employees Compensation Act (FECA)" means chapter 81 of title 5, United States Code.

SEC. 5. PEACE CORPS PROGRAMS IN THE FORMER SOVIET UNION.

(a) AVAILABILITY OF FUNDS.—Up to $6,000,000 of the funds made available to carry out the Peace Corps Act for fiscal year 1993 shall be made available for establishing Small Business Development Programs in the independent states of the former Soviet Union. The programs shall include the promotion of local economic development by providing technical assistance and training in municipal restructuring and financing, privatization, valuation of state-owned enterprises, the development and promotion of business associations, and the identification of investment opportunities and requirements.

(b) DEFINITION.—For purposes of this section, the term "independent states of the former Soviet Union" means the following (which formerly were part of the Soviet Union): Armenia, Azerbaijan, Byelarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, and Uzbekistan.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ENABLING UNITED STATES TO MAINTAIN LEADERSHIP IN LAND REMOTE SENSING

Mr. BROWN of California. Mr. Speaker, I ask unanimous consent that the Committee on Science, Space, and Technology, be discharged from further consideration of the bill (H.R. 6133) to enable the United States to maintain its leadership in land remote sensing by providing data continuity in the Landsat Program to establish a new national land remote sensing policy and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. BARTON of Texas. Reserving the right to object, Mr. Speaker, I yield to the gentleman to explain the bill.

Mr. BROWN of California. Mr. Speaker, enactment of this legislation is necessary to create a new policy framework for the Landsat Program. The language of this bill has been developed in close cooperation between the House and the other body, and between Congress and the administration. This is a good bill, an important bill, and a necessary bill that will help preserve and enhance one of the Nation's most successful space programs.

On June 9, 1992, the House adopted H.R. 3614, the National Landsat Policy Act of 1992. On August 11, 1992, the Committee on Commerce, Science, and Transportation of the U.S. Senate ordered reported similar legislation, S. 2297, which was filed on September 30, 1992. H.R. 6133 is a compromise bill that has been negotiated and agreed to between the House Committee on Science, Space, and Technology and the Senate Committee on Commerce, Science, and Transportation, and between these two committees and the administration.

The language of H.R. 6133 is identical to the language of a bill currently pending floor consideration in the Senate. We have introduced this bill, and are asking unanimous consent for its adoption, due to a concern about achieving final enactment of this legislation before adjournment.

The floor debate on H.R. 3614, and the legislative reports on that bill and on S. 2297, provide explanation for most of the provisions of the bill currently before us. Those materials should be referenced for an understanding of congressional intent, except in regards to provisions that have been changed in the development of the compromise bill. To assist the executive branch in understanding congressional intent in relation to these new provisions, I would like to provide the following explanatory remarks.

Section 3, paragraph (2), defines the term "cost of fulfilling user requests" as "the incremental costs associated with providing product generation, reproduction, and distribution of unenhanced data in response to user requests and shall not include any acquisition, amortization, or depreciation of capital assets originally paid for by the U.S. Government or other costs not specifically attributable to fulfilling user requests." This is a very important definition. It is a restrictive definition. It is not intended to permit the inclusion of any costs other than the incremental costs specifically attributable to fulfilling user requests. This definition shall not be exploited to permit the inclusion costs—such as marketing or extraneous administrative costs—that are not directly attributable to fulfilling user requests.

Section 103(a) directs the Landsat Program management to enter into negotiations with the Landsat 6 contractor to formalize an arrangement with respect to pricing, distribution, acquisition, archiving, and availability of unenhanced data for which the Landsat 6 contractor has responsibility under its contract. This section further provides that the outcome of the negotiations shall be a phased transition to a data policy consistent with the Landsat 7 data policy, developed pursuant to section 105, and that the conditions of the phased arrangement should require the Landsat 6 contractor to adopt, by the final phase of the transition, certain provisions specified in section 103(a) (1) through (8).

Section 103(a) does not mandate an outcome for these negotiations. However, this section provides a clear statement of congressional preference. We believe that each of the provisions of section 103(a) (1) through (8) are important and that progress on every one of these items should be evident within each of the phases of the transition that will be negotiated pursuant to this section.

Of particular importance is progress on the first provision of section 103(a). The intent of this provision is to achieve reduced data prices for "the United States Government and its affiliated users," which is a defined term in the bill. The objective is to bring the price of data for these users down to the cost of fulfilling user requests as quickly as possible.

Although the legislation specifies that the data policy on Landsat 4 through 6 should be modified through a negotiated, phased transition, we expect that: First, the first of these phases should begin promptly after agreement is reached between the Landsat program management and the Landsat 6 contractor; second, the final phase should begin well before the launch of Landsat 7; and third, the number of distinct phases should be small, so that the data policies and prices of Landsat 4 through 6 data are not constantly changing. Ideally, implementation of the final phase should begin at least by the end of 1995, which would be 2 years before the launch of Landsat 7.

Section 105 directs the Landsat Program management, in consultation with other appropriate U.S. Government agencies, to develop a data policy for Landsat 7. This section specifies that the Landsat 7 data policy should, among other things, ensure that unenhanced data are available to all users at the cost of fulfilling user requests.

It is our belief that the best data policy for Landsat 7 would be one that ensured that unenhanced data are available to all users at the cost of fulfilling user requests. Such a policy would be a boost to the commercial market for remote sensing, since the number of data users will expand greatly as the price of the data is reduced from its current levels. Such a policy particularly would be a boost for environmental research and public interest activities, since nonprofit entities have been the ones that have found current commercial prices so difficult to afford. Finally, such a policy would strongly support U.S. foreign policy objectives. By making the data available to all users at the cost of fulfilling user requests, the United States would be helping developing countries help themselves through increased use of the valuable information contained in Landsat imagery.

Section 105(c) directs the Landsat Program management to develop and submit to Congress by July 15, 1994, a report that contains a Landsat 7 data policy plan. We believe that such a report will be important as a way of informing users and private sector entities of the specific policies planned for Landsat 7. We anticipate that Landsat 7 data may be processed and distributed by multiple data distributors and value-added companies. If so, the Landsat 7 data policy plan will enable private sector entities who may be interested in becoming data distributors to see how they might play a role within the Landsat 7 data distribution system.

Section 105(d) requires that within 12 months after submission of the Landsat 7 data policy plan, and annually thereafter until the launch of Landsat 7, the Landsat Program management shall prepare and submit a report to Congress which: First, provides justification for the Landsat 7 data policy in terms of the civilian, national security, commercial, and foreign policy needs of the United States; and second, provides justification for any elements of the Landsat 7 data policy which are not consistent with the provisions of section 105(a).

As I already have mentioned, we believe that the provisions of section 105(a) are the right ones. As such, we believe that any justifications provided pursuant to 105(d)(2) will have to be compelling ones. In the absence of such compelling justifications, the Landsat Program management should develop and implement a policy that is fully consistent with the provisions of section 105(a).

Mr. Speaker, this legislation provides the United States with an opportunity to restore its lost leadership in land remote sensing. This is a comprehensive bill, which balances and reflects the Nation's civilian, national security, commercial, and foreign policy needs. The bill represents a major change—an important, constructive, and necessary change—in United States land remote sensing policies. I urge my colleagues to support this legislation.

Mr. BARTON of Texas. Further reserving the right to object, Mr. Speaker, has the minority membership on the committee approved this?

Mr. BROWN. Mr. Speaker, if the gentleman will yield, yes.

Mr. BARTON of Texas. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. SCHEUER. Mr. Speaker, for the last 12 years, I have been intimately involved with the efforts to commercialize the Landsat Program. I have learned a number of things from this experience, the most significant of which is the fact that the Reagan-Bush administrations have utterly failed to support the privatization of this program. Despite much self-promotion about their support for the private sector, the current administration and its predecessor has turned its back on the promises made to the private sector and done its best to squander years of hard-won achievement in the Landsat Program.

The bill before us represents an effort to place this valuable program on a secure footing and provide authorization for the next generation satellite—Landsat 7. However, I must note in all candor that this is a bill that is far from what many of us would have preferred. Specifically, the compromise with our colleagues in the other body, altered the House position of Landsat 7 data policy and, in my view, prematurely attempts to legislate a policy that will not come into effect more than 5 years from now. Fortunately, we were able to insert language that provides a large degree of flexibility in setting the data policy. Buy inclusion of the word "should", we intend that the Landsat Program management have sufficient flexibility to retain the commercial aspects of this program. The private sector does and should have a continuing role in this program.

Through the years, a strong bipartisan consensus has formed on the Science Committee to support the multifaceted objectives of the Landsat Program. The distinguished chairman of the full committee, Mr. BROWN, and the ranking Republican member, Mr. WALKER have been steadfast in their support. I would also like to commend the gentleman from Maryland [Mr. MCMILLEN] for his insight and knowledge of this vital program.

This may well be the last time I address this body—a priviledge I have had for almost 28 years. Throughout these years, I have attempted to do the people's business in as forthright and honest fashion as possible. As we move to the final minutes of my last Congress, let me tell you it has been a real honor to have served with you ladies and gentlemen and I will miss you.

The Clerk read the bill, as follows:

H.R. 6133

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be as the "Land Remote Sensing Policy Act of 1992".

SEC. 2. FINDINGS.

The Congress finds and declares the following:

(1) The continuous collection and utilization of land remote sensing data from space are of major benefit in studying and understanding human impacts on the global environment, in managing the Earth's natural resources, in carrying out national security functions, and in planning and conducting many other activities of scientific, economic, and social importance.

(2) The Federal Government's Landsat system established the United States as the world leader in land remote sensing technology.

(3) The national interest of the United States lies in maintaining international leadership in satellite land remote sensing and in broadly promoting the beneficial use of remote sensing data.

(4) The cost of Landsat data has impeded the use of such data for scientific purposes, such as for global environmental change research, as well as for other public sector applications.

(5) Given the importance of the Landsat program to the United States, urgent actions, including expedited procurement procedures, are required to ensure data continuity.

(6) Full commercialization of the Landsat program cannot be achieved within the foreseeable future, and thus should not serve as the near-term goal of national policy on land remote sensing; however, commercialization of land remote sensing should remain a long-term goal of United States policy.

(7) Despite the success and importance of the Landsat system, funding and organizational uncertainties over the past several years have placed its future in doubt and have jeopardized United States leadership in land remote sensing.

(8) Recognizing the importance of the Landsat program in helping to meet national and commercial objectives, the President approved, on February 11, 1992, a National Space Policy Directive which was developed by the National Space Council and commits the United States to ensuring the continuity of Landsat coverage into the 21st century.

(9) Because Landsat data are particularly important for national security purposes and global environmental change research, management responsibilities for the program should be transferred from the Department of Commerce to an integrated program management involving the Department of Defense and the National Aeronautics and Space Administration.

(10) Regardless of management responsibilities for the Landsat program, the Nation's broad civilian, national security, commercial, and foreign policy interests in remote sensing will best be served by ensuring that Landsat remains an unclassified program that operates according to the principles of open skies and nondiscriminatory access.

(11) Technological advances aimed at reducing the size and weight of satellite systems hold the potential for dramatic reductions in the cost, and substantial improvements in the capabilities, of future land remote sensing systems, but such technological advances have not been demonstrated for land remote sensing and therefore cannot be relied upon as the sole means of achieving data continuity for the Landsat program.

(12) A technology demonstration program involving advanced remote sensing technologies could serve a vital role in determining the design of a follow-on spacecraft to Landsat 7, while also helping to determine whether such a spacecraft should be funded by the United States Government, by the private sector, or by an international consortium.

(13) To maximize the value of the Landsat program to the American public, unenhanced Landsat 4 through 6 data should be made available, at a minimum, to United States Government agencies, to global environmental change researchers, and to other researchers who are financially supported by the United States Government, at the cost of fulfilling user requests, and unenhanced Landsat 7 data should be make available to all users at the cost of fulfilling user requests.

(14) To stimulate development of the commercial market for unenhanced data value-added services, the United States Government should adopt a data policy for Landsat 7 which allows competition within the private sector for distribution of unenhanced data and value-added services.

(15) Development of the remote sensing market and the provision of commercial value-added services based on remote sensing data should remain exclusively the function of the private sector.

(16) It is in the best interest of the United States to maintain a permanent, comprehensive Government archive of global Landsat and other land remote sensing data for long-term monitoring and study of the changing global environment.

SEC. 3. DEFINITIONS.

In this Act, the following definitions apply:

(1) The term "Administrator" means the Administrator of the National Aeronautics and Space Administration.

(2) The term "cost of fulfilling user requests" means the incremental costs associated with providing product generation, reproduction, and distribution of unenhanced data in response to user requests and shall not include any acquisition, amortization, or depreciation of capital assets originally paid for by the United States Government or other costs not specifically attributable to fulfilling user requests.

(3) The term "data continuity" means the continued acquisition and availability of unenhanced data which are, from the point of view of the user—

(A) sufficiently consistent (in terms of acquisition geometry, coverage characteristics, and spectral characteristics) with previous Landsat data to allow comparisons for global and regional change detection and characterization; and

(B) compatible with such data and with methods used to receive and process such data.

(4) The term "data preprocessing" may include—

(A) rectification of system and sensor distortions in land remote sensing data as it is received directly from the satellite in preparation for delivery to a user;

(B) registration of such data with respect to features of the Earth; and

(C) calibration of spectral response with respect to such data, but does not include conclusions, manipulations, or calculations derived from such data, or a combination of such data with other data.

(5) The term "land remote sensing" means the collection data which can be processed into imagery of surface features of the Earth from an unclassified satellite or satellites, other than an operational United States Government weather satellite.

(6) The term "Landsat Program Management" means the integrated program management structure—

(A) established by, and responsible to, the Administrator and the Secretary of Defense pursuant to section 101(a); and

(B) consisting of appropriate officers and employees of the National Aeronautics and Space Administration, the Department of Defense, and any other United States Government agencies the President designates as responsible for the Landsat program.

(7) The term "Landsat system" means Landsats 1, 2, 3, 4, 5, and 6, and any follow-on land remote sensing system operated and owned by the United States Government, along with any related ground equipment, systems, and facilities owned by the United States Government.

(8) The term "Landsat 6 contractor" means the private sector entity which was awarded the contract for spacecraft construction, operations, and data marketing rights for the Landsat 6 spacecraft.

(9) The term "Landsat 7" means the follow-on satellite to Landsat 6.

(10) The term "national Satellite Land Remove Sensing Data Archive" means the archive established by the Secretary of the Interior pursuant to the archival responsibilities defined in section 502.

(11) The term "noncommercial purposes" refers to those activities undertaken by individuals or entities on the condition, upon receipt of unenhanced data, that—

(A) such data shall not be used in connection with any bid for a commercial contract, development of a commercial product, or any other non-United States Government activity that is expected, or has the potential, to be profitmaking;

(B) the results of such activities are disclosed in a timely and complete fashion in the open technical literature or other method of public release, except when such disclosure by the United States Government or its contractors would adversely affect the national security or foreign policy of the United States or violate a provision of law or regulation; and

(C) such data shall not be distributed in competition with unenhanced data provided by the Landsat 6 contractor.

(12) The term "Secretary" means the Secretary of Commerce.

(13) The term "unenhanced data" means land remote-sensing signals or imagery products that are unprocessed or subject only to data preprocessing.

(14) The term "United States Government and its affiliated users" means—

(A) United States Government agencies;

(B) researchers involved with the United States Global Change Research Program and its international counterpart programs; and

(C) other researchers and international entities that have signed with the United States Government a cooperative agreement involving the use of Landsat data for noncommercial purposes.

SEC. 4. REPEAL OF LAND REMOTE-SENSING COMMERCIALIZATION ACT OF 1984.

The Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4201 et seq.) is repealed.

TITLE I—LANDSAT

SEC. 101. LANDSAT PROGRAM MANAGEMENT.

(a) ESTABLISHMENT.—The Administrator and the Secretary of Defense shall be responsible for management of the Landsat Program. Such responsibility shall be carried out by establishing an integrated program management structure for the Landsat system.

(b) MANAGEMENT PLAN.—The Administrator, the Secretary of Defense, and any other United States Government official the President designates as responsible for part of the Landsat Program, shall establish, through a management plan, the roles, responsibilities, and funding expectations for the Landsat Program of the appropriate United States Government agencies. The management plan shall—

(1) specify that the fundamental goal of the Landsat Program Management is the continuity of unenhanced Landsat data through the acquisition and operation of a Landsat 7 satellite as quickly as practicable which is, at a minimum, functionally equivalent to the Landsat 6 satellite, with the addition of a tracking and data relay satellite communications capability;

(2) include a baseline funding profile that—

(A) is mutually acceptable to the National Aeronautics and Space Administration and the Department of Defense for the period covering the development and operation of Landsat 7; and

(B) provides for total funding responsibility of the National Aeronautics and Space Administration and the Department of Defense, respectively, to be approximately equal to the funding responsibility of the other as spread across the development and operational life of Landsat 7;

(3) specify that any improvements over the Landsat 6 functional equivalent capability for Landsat 7 will be funded by a specific sponsoring agency or agencies, in a manner agreed to by the Landsat Program Management, if the required funding exceeds the baseline funding profile required by paragraph (2), and that additional improvements will be sought only if the improvements will not jeopardize data continuity; and

(4) provide for a technology demonstration program whose objective shall be the demonstration of advanced land remote-sensing technologies that may potentially yield a system which is less expensive to build and operate, and more responsive to data users, than is the current Landsat system.

(c) RESPONSIBILITIES.—The Landsat Program Management shall be responsible for—

(1) Landsat 7 procurement, launch, and operations;

(2) ensuring that the operation of the Landsat system is responsive to the broad interests of the civilian, national security, commercial, and foreign users of the Landsat system;

(3) ensuring that all unenhanced Landsat data remain unclassified and that, except as provided in section 506 (a) and (b), no restrictions are placed on the availability of unenhanced data;

(4) ensuring that land remote sensing data of high priority locations will be acquired by the Landsat 7 system as required to meet the needs of the United States Global Change Research Program, as established in the Global Change Research Act of 1990, and to meet the needs of national security users;

(5) Landsat data responsibilities pursuant to this Act;

(6) oversight of Landsat contracts entered into under section 102 and 103;

(7) coordination of a technology demonstration program, pursuant to section 303; and

(8) ensuring that copies of data acquired by the Landsat system are provided to the National Satellite Land Remote Sensing Data Archive.

(d) AUTHORITY TO CONTRACT.—The Landsat Program management may, subject to appropriations and only under the existing contract authority of the United States Government agencies that compose the Landsat Program Management, enter into contracts with the private sector for services such as, but not limited to, satellite operations and data preprocessing.

(e) LANDSAT ADVISORY PROCESS.—

(1) ESTABLISHMENT.—The Landsat Program Management shall seek impartial advice and comments regarding the status, effectiveness, and operation of the Landsat system, using existing advisory committees and other appropriate mechanisms. Such advice shall be sought from individuals who represent—

(A) a broad range of perspectives on basic and applied science and operational needs with respect to land remote sensing data;

(B) the full spectrum of users of Landsat data, including representatives from United States Government agencies, State and local government agencies, academic institutions, nonprofit organizations, value-added companies, the agricultural, mineral extraction, and other user industries, and the public; and

(C) a broad diversity of age groups, sexes, and races.

(2) REPORTS.—Within 1 year after the date of the enactment of this Act and biennially thereafter, the Landsat Program Management shall prepare and submit a report to the Congress which—

(A) reports the public comments received pursuant to paragraph (1); and

(B) includes—

(i) a response to the public comments received pursuant to paragraph (1);

(ii) information on the volume of use, by category, of data from the Landsat system; and

(iii) any recommendations for policy or programmatic changes to improve the utility and operation of the Landsat system.

SEC. 102. PROCUREMENT OF LANDSAT 7.

(a) CONTRACT NEGOTIATIONS.—The Landsat Program Management shall, subject to appropriations and only under the existing contract authority of the United States Government agencies that compose the Landsat Program Management, expeditiously contract with a United States private sector entity for the development and delivery of Landsat 7.

(b) DEVELOPMENT AND DELIVERY CONSIDERATIONS.—In negotiating a contract under this section for the development and delivery of Landsat 7, the Landsat Program Management shall—

(1) seek, as a fundamental objective, to have Landsat 7 operational by the expected end of the design life of Landsat 6;

(2) seek to ensure data continuity by the development and delivery of a satellite which is, at a minimum, functionally equivalent to the Landsat 6 satellite; and

(3) seek to incorporate in Landsat 7 any performance improvements required to meet United States Government needs that would not jeopardize data continuity.

(c) NOTIFICATION OF COST AND SCHEDULE CHANGES.—The Landsat Program Management shall promptly notify the Congress of any significant deviations from the expected cost, delivery date, and launch date of Landsat 7, that are specified by the Landsat Program Management upon award of the contract under this section.

(d) UNITED STATES PRIVATE SECTOR ENTITIES.—The Landsat Program Management shall, for purposes of this Act, define the term "United States private sector entities", taking into account the location of operations, assets, personnel, and other such factors.

SEC. 103. DATA POLICY FOR LANDSAT 4 THROUGH 6.

(a) CONTRACT NEGOTIATIONS.—Within 30 days after the date of enactment of this Act, the Landsat Program Management shall enter into negotiations with the Landsat 6 contractor to formalize an arrangement with respect to pricing, distribution, acquisition, archiving, and availability of unenhanced data for which the Landsat 6 contractor has responsibility under its contract. Such arrangement shall provide for a phased transition to a data policy consistent with the Landsat 7 data policy (developed pursuant to section 105) by the date of initial operation of Landsat 7. Conditions of the phased arrangement should require that the Landsat 6 contractor adopt provisions so that by the final phase of the transition period—

(1) such unenhanced data shall be provided, at a minimum, to the United State Government and its affiliated users at the cost of fulfilling user requests, on the condition that such unenhanced data are used solely for noncommercial purposes;

(2) instructional data sets, selected from the Landsat data archives, will be made available to educational institutions exclusively for noncommercial, educational purposes at the cost of fulfilling user requests;

(3) Landsat data users are able to acquire unenhanced data contained in the collective archives of foreign ground stations as easily and affordably as practicable;

(4) adequate data necessary to meet the needs of global environmental change researchers and national security users are acquired;

(5) the United States Government and its affiliated users shall not be prohibited from reproduction or dissemination of unenhanced data to other agencies of the United States Government and other affiliated users, on the condition that such unenhanced data are used solely for noncommercial purposes;

(6) non-profit, public interest entities receive vouchers, data grants, or other such means of providing them with unenhanced data at the cost of fulfilling user requests, on the condition that such unenhanced data are used solely for noncommercial purposes.

(7) a viable role for the private sector in the promotion and development of the commercial market for value added and other services using unenhanced data from the Landsat system is preserved; and

(8) unenhanced data from the Landsat system are provided to the national Satellite Land Remote Sensing Data Archive at no more than the cost of fulfilling user requests.

(b) FAILURE TO REACH AGREEMENT.—If negotiations under subsection (a) have not, by September 30, 1993, resulted in an agreement that the Landsat Program management determines generally achieves the goals stated in subsection (b)(1) through (8), the Administrator and the Secretary of Defense shall, within 30 days after the date of such determination, jointly certify and report such determination to the Congress. The report shall include a review of options and projected costs for achieving such goals, and shall include recommendations for achieving such goals. The options reviewed shall include—

(1) retaining the existing or modified contract with the Landsat 6 contractor;

(2) the termination of existing contracts for the exclusive right to market unenhanced Landsat data; and

(3) the establishment of an alternative private sector mechanism for the marketing and commercial distribution of such data.

SEC. 104. TRANSFER OF LANDSAT 6 PROGRAM RESPONSIBILITIES.

The responsibilities of the Secretary with respect to Landsat 6 shall be transferred to the Landsat Program Management, as agreed to between the Secretary and the Landsat Program Management, pursuant to section 101.

SEC. 105. DATA POLICY FOR LANDSAT 7.

(a) LANDSAT 7 DATA POLICY.—The Landsat Program Management, in consultation with other appropriate United States Government agencies, shall develop a data policy for Landsat 7 which should—

(1) ensure that the unenhanced data are available to all users at the cost of fulfilling user requests;

(2) ensure timely and dependable delivery of unenhanced data to the full spectrum of civilian, national security, commercial, and foreign users and the National Satellite Land Remote Sensing Data Archive;

(3) ensure that the United States retains ownership of all unenhanced data generated by Landsat 7;

(4) support the development of the commercial market for remote sensing data;

(5) ensure that the provision of commercial value-added services based on remote sensing data remains exclusively the function of the private sector; and

(6) to the extent possible, ensure that the data distribution system for Landsat 7 is compatible with the Earth Observing System Data and Information System.

(b) In addition, the data policy for Landsat 7 may provide for—

(1) United States private sector entities to operate ground receiving stations in the United States for Landsat 7 data;

(2) other means for direct access by private sector entities to unenhanced data from Landsat 7; and

(3) the United States Government to charge a per image fee, license fee, or other such fee to entities operating ground receiving stations or distributing Landsat 7 data.

(c) LANDSAT 7 DATA POLICY PLAN.—Not later than July 15, 1994, the Landsat Program Management shall develop and submit to Congress a report that contains a Landsat 7 Data Policy Plan. This plan shall define the role and responsibilities of the various public and private sector entities that would be involved in the acquisition, processing, distribution, and archiving of Landsat 7 data and in operations of the Landsat 7 spacecraft.

(d) REPORTS.—Not later than 12 months after submission of the Landsat 7 Data Policy Plan, required by subsection (c), and annually thereafter until the launch of Landsat 7, the Landsat Program Management, in consultation with representatives of appropriate United States Government agencies, shall prepare and submit a report to the Congress which—

(1) provides justification for the Landsat 7 data policy in terms of the civilian, national security, commercial, and foreign policy needs of the United States; and

(2) provides justification for any elements of the Landsat 7 data policy which are not consistent with the provisions of subsection (a).

TITLE II—LICENSING OF PRIVATE REMOTE SENSING SPACE SYSTEMS

SEC. 201. GENERAL LICENSING AUTHORITY.

(a) LICENSING AUTHORITY OF SECRETARY.—(1) In consultation with other appropriate United States Government agencies, the Secretary is authorized to license private sector parties to operate private remote sensing space systems for such period as the Secretary may specify and in accordance with the provisions of this title.

(2) In the case of a private space system that is used for remote sensing and other purposes, the authority of the Secretary under this title shall be limited only to the remote sensing operations of such space system.

(b) COMPLIANCE WITH THE LAW, REGULATIONS, INTERNATIONAL OBLIGATIONS, AND NATIONAL SECURITY.—No license shall be granted by the Secretary unless the Secretary determines in writing that the applicant will comply with the requirements of this Act, any regulations issued pursuant to this Act, and any applicable international obligations and national security concerns of the United States.

(c) DEADLINE FOR ACTION ON APPLICATION.—The Secretary shall review any application and make a determination thereon within 120 days of the receipt of such application. If final action has not occurred within such time, the Secretary shall inform the applicant of any pending issues and of actions required to resolve them.

(d) IMPROPER BASIS FOR DENIAL.—The Secretary shall not deny such license in order to protect any existing licensee from competition.

(e) REQUIREMENT TO PROVIDE UNENHANCED DATA.—(1) The Secretary, in consultation with other appropriate United States Government agencies and pursuant to paragraph (2), shall designate in a license issued pursuant to this title any unenhanced data required to be provided by the licensee under section 202(b)(3).

(2) The Secretary shall make a designation under paragraph (1) after determining that—

(A) such data are generated by a system for which all or a substantial part of the development, fabrication, launch, or operations costs have been or will be directly funded by the United States Government; or

(B) it is in the interest of the United States to require such data to be provided by the licensee consistent with section 202(b)(3), after considering the impact on the licensee and the importance of promoting widespread access to remote sensing data from United States and foreign systems.

(3) A designation made by the Secretary under paragraph (1) shall not be inconsistent with any contract or other arrangement entered into between a United States Government agency and the licensee.

SEC. 202. CONDITIONS FOR OPERATION.

(a) LICENSE REQUIRED FOR OPERATION.—No person who is subject to the jurisdiction or control of the United States may, directly or through any subsidiary or affiliate, operate any private remote sensing space system without a license pursuant to section 201.

(b) LICENSING REQUIREMENTS.—Any license issued pursuant to this title shall specify that the licensee shall comply with all of the requirements of this Act and shall—

(1) operate the system in such manner as to preserve the national security of the United States and to observe the international obligations of the United States in accordance with section 506;

(2) make available to the government of any country (including the United States) unenhanced data collected by the system concerning the territory under the jurisdiction of such government as soon as such data are available and on reasonable terms and conditions;

(3) make unenhanced data designated by the Secretary in the license pursuant to section 201(e) available in accordance with section 501;

(4) upon termination of operations under the license, make disposition of any satellites in space in a manner satisfactory to the President;

(5) furnish the Secretary with complete orbit and data collection characteristics of the system, and inform the Secretary immediately of any deviation; and

(6) notify the Secretary of any agreement the licensee intends to enter with a foreign nation, entity, or consortium involving foreign nations or entities.

(c) ADDITIONAL LICENSING REQUIREMENTS FOR LANDSAT 6 CONTRACTOR.—In addition to the requirements of paragraph (b), any license issued pursuant to this title to the Landsat 6 contractor shall specify that the Landsat 6 contractor shall—

(1) notify the Secretary of any value added activities (as defined by the Secretary by regulation) that will be conducted by the Landsat 6 contractor or by a subsidiary or affiliate; and

(2) if such activities are to be conducted, provide the Secretary with a plan for compliance with section 501 of this Act.

SEC. 203. ADMINISTRATIVE AUTHORITY OF THE SECRETARY.

(a) FINDINGS.—In order to carry out the responsibilities specified in this title, the Secretary may—

(1) grant, condition, or transfer licenses under this Act;

(2) seek an order of injunction or similar judicial determination from a United States District Court with personal jurisdiction over the licensee to terminate, modify, or suspend licenses under this title and to terminate licensed operations on an immediate basis, if the Secretary determines that the licensee has substantially failed to comply with any provisions of this Act, with any terms, conditions, or restrictions of such licensee, or with any international obligations or national security concerns of the United States.

(3) provide penalties for noncompliance with the requirements of licenses or regulations issued under this title, including civil penalties not to exceed $10,000 (each day of operation in violation of such licenses or regulations constituting a separate violation);

(4) compromise, modify, or remit any such civil penalty;

(5) issue subpoenas for any materials, documents, or records, or for the attendance and testimony of witnesses for the purpose of conducting a hearing under this section;

(6) seize any object, record, or report pursuant to a warrant from a magistrate based on a showing of probable cause to believe that such object, record, or report was used, is being used, or is likely to be used in violation of this Act or the requirements of a license or regulation issued thereunder; and

(7) make investigations and inquiries and administer to or take from any person an oath, affirmation, or affidavit concerning any matter relating to the enforcement of this Act.

(b) REVIEW OF AGENCY ACTION.—Any applicant or licensee who makes a timely request for review of an adverse action pursuant to subsection (a)(1), (a)(3), (a)(5), or (a)(6) shall be entitled to adjudication by the Secretary on the record after an opportunity for an agency hearing with respect to such adverse action. Any final action by the Secretary under this subsection shall be subject to judicial review under chapter 7 of title 5, United States Code.

SEC. 204. REGULATORY AUTHORITY OF THE SECRETARY.

The Secretary may issue regulations to carry out this title. Such regulations shall be promulgated only after public notice and comment in accordance with the provisions of section 553 of title 5, United States Code.

SEC. 205. AGENCY ACTIVITIES.

(a) LICENSE APPLICATION AND ISSUANCE.—A private sector party may apply for a license to operate a private remote sensing space system which utilizes, on a space-available basis, a civilian United States Government satellite or vehicle as a platform for such system. The Secretary, pursuant to this title, may license such system if it meets all conditions of this title and—

(1) the system operator agrees to reimburse the Government in a timely manner for all related costs incurred with respect to such utilization, including a reasonable and proportionate share of fixed, platform, data transmission, and launch costs; and

(2) such utilization would not interfere with or otherwise compromise intended civilian Government missions, as determined by the agency responsible for such civilian platform.

(b) ASSISTANCE.—The Secretary may offer assistance to private sector parties in finding appropriate opportunities for such utilization.

(c) AGREEMENTS.—To the extent provided in advance by appropriation Acts, any United States Government agency may enter into agreements for such utilization if such agreements are consistent with such agency's mission and statutory authority, and if such remote sensing space system is licensed by the Secretary before commencing operation.

(d) APPLICABILITY.—This section does not apply to activities carried out under title III.

(e) EFFECT ON FCC AUTHORITY.—Nothing in this title shall affect the authority of the Federal Communications Commission pursuant to the Communications Act of 1934 (47 U.S.C. 151 et seq.).

TITLE III—RESEARCH, DEVELOPMENT, AND DEMONSTRATION

SEC. 301. CONTINUED FEDERAL RESEARCH AND DEVELOPMENT.

(a) ROLES OF NASA AND DEPARTMENT OF DEFENSE.—(1) The Administrator and the Secretary of Defense are directed to continue and to enhance programs of remote sensing research and development.

(2) The Administrator is authorized and encouraged to—

(A) conduct experimental space remote sensing programs (including applications demonstration programs and basic research at universities);

(B) develop remote sensing technologies and techniques, including those needed for monitoring the Earth and its environment; and

(C) conduct such research and development in cooperation with other United States Government agencies and with public and private research entities (including private industry, universities, non-profit organizations, State and local governments, foreign governments, and international organizations) and to enter into arrangements (including joint ventures) which will foster such cooperation.

(b) ROLES OF DEPARTMENT OF AGRICULTURE AND DEPARTMENT OF INTERIOR—

(1) In order to enhance the ability of the United States to manage and utilize its renewable and nonrenewable resources, the Secretary of Agriculture and the Secretary of the Interior are authorized and encouraged to conduct programs of research and development in the applications of remote sensing using funds appropriated for such purposes.

(2) Such programs may include basic research at universities, demonstrations of applications, and cooperative activities involving other Government agencies, private sector parties, and foreign and international organizations.

(c) ROLE OF OTHER FEDERAL AGENCIES.—Other United States Government agencies are authorized and encouraged to conduct research and development on the use of remote sensing in their fulfillment of their authorized missions, using funds appropriated for such purposes.

SEC. 302. AVAILABILITY OF FEDERALLY GATHERED UNENHANCED DATA.

(a) GENERAL RULE.—All unenhanced land remote sensing data gathered and owned by the United States Government, including unenhanced data gathered under the technology demonstration program carried out pursuant to section 303, shall be made available to users in a timely fashion.

(b) Protection for Commercial Data Distributor.—The President shall seek to ensure that unenhanced data gathered under the technology demonstration program carried out pursuant to section 303 shall, to the extent practicable, be made available on terms that would not adversely affect the commercial market for unenhanced data gathered by the Landsat 6 spacecraft.

SEC. 303. TECHNOLOGY DEMONSTRATION PROGRAM.

(a) Establishment.—As a fundamental component of a national land remote sensing strategy, the President shall establish, through appropriate United States Government agencies, a technology demonstration program. The goals of such program shall be to—

(1) seek to launch advanced land remote sensing system components within 5 years after the date of the enactment of this Act.

(2) demonstrate within such 5-year period advanced sensor capabilities suitable for use in the anticipated land remote sensing program; and

(3) demonstrate within such 5-year period an advanced land remote sensing system design that could be less expensive to procure and operate than the Landsat system projected to be in operation through the year 2000, and that therefore holds greater potential for private sector investment and control.

(b) Execution of Program.—In executing the technology demonstration program, the President shall seek to apply technologies associated with United States National Technical Means of intelligence gathering, to the extent that such technologies are appropriate for the technology demonstration and can be declassified for such purposes without causing adverse harm to United States national security interests.

(c) Broad Application.—To the greatest extent practicable, the technology demonstration program established under subsection (a) shall be designed to be responsive to the broad civilian, national security, commercial, and foreign policy needs of the United States.

(d) Private Sector Funding.—The technology demonstration program under this section may be carried out in part with private sector funding.

(e) Landsat Program Management Coordination.—The Landsat Program Management shall have a coordinating role in the technology demonstration program carried out under this section.

(f) Report to Congress.—The President shall assess the progress of the technology demonstration program under this section and, within 2 years after the date of enactment of this Act, submit a report to the Congress on such progress.

TITLE IV—ASSESSING OPTIONS FOR SUCCESSOR LAND REMOTE SENSING SYSTEM

SEC. 401. ASSESSING OPTIONS FOR SUCCESSOR LAND REMOTE SENSING SYSTEM.

(a) Assessment.—Within 5 years after the date of the enactment of this Act, the Landsat Program Management, in consultation with representatives of appropriate United States Government agencies, shall assess and report to the Congress on the options for a successor land remote sensing system to Landsat 7. The report shall include a full assessment of the advantages and disadvantages of—

(1) private sector funding and management of a successor land remote sensing system;

(2) establishing an international consortium for the funding and management of a successor land remote seeing system;

(3) funding and management of a successor land remote sensing system by the United States Government; and

(4) a cooperative effort between the United States Government and the private sector for the funding and management of a successor land remote sensing system.

(b) Goals.—In carrying out subsection (a), the Landsat Program Management shall consider the ability of each of the options to—

(1) encourage the development, launch, and operation of a land remote sensing system that adequately serves the civilian, national security, commercial, and foreign policy interests of the United States;

(2) encourage the development, launch, and operation of a land remote sensing system that maintains data continuity with the Landsat system; and

(3) incorporate system enhancements, including any such enhancements developed under the technology demonstration program under section 303, which may potentially yield a system that is less expensive to build and operate and more responsive to data users, than is the Landsat system projected to be in operation through the year 2000.

(c) Preference for Private Sector System.—If a successor land remote sensing system to Landsat 7 can be funded and managed by the private sector while still achieving the goals stated in subsection (b) without jeopardizing the domestic, national security, and foreign policy interests of the United States, preference should be given to the development of such a system by the private sector without competition from the United States Government.

TITLE V—GENERAL PROVISIONS

SEC. 501. NONDISCRIMINATORY DATA AVAILABILITY.

(a) General Rule.—Except as provided in subsection (b) of this section, any unenhanced data generated by the Landsat system or any other land remote sensing system funded and owned by the United States Government shall be made available to all users without preference, bias, or any other special arrangement (except on the basis of national security concerns pursuant to section 506) regarding delivery, format, pricing, or technical considerations which would favor one customer or class of customers over another.

(b) Exceptions.—Unenhanced data generated by the Landsat system or any other land remote sensing system funded and owned by the United States Government may be made available to the United States Government and its affiliated users at reduced prices, in accordance with this Act, on the condition that such unenhanced data are used solely for noncommercial purposes.

SEC. 502. ARCHIVING OF DATA.

(a) Public Interest.—It is in the public interest for the United States Government to—

(1) maintain an archive of land remote sensing data for historical, scientific, and technical purposes, including long-term global environmental monitoring;

(2) control the content and scope of the archive; and

(3) assure the quality, integrity, and continuity of the archive.

(b) Archiving Practices.—The Secretary of Interior, in consultation with the Landsat Program Management, shall provide for long-term storage, maintenance, and upgrading of a basic, global, land remote sensing data set (hereinafter referred to as the "basic data set") and shall follow reasonable archival practices to assure proper storage and preservation of the basic data set and timely access for parties requesting data.

(c) Determination of Content of Basic Data Set.—In determining the initial content of, or in upgrading, the basic data set, the Secretary of Interior shall—

(1) use as a baseline the data archived on the date of enactment of this Act;

(2) take into account future technical and scientific developments and needs, paying particular attention to the anticipated data requirements of global environmental change research;

(3) consult with and seek the advice of users and producers of remote sensing data and data products;

(4) consider the need for data which may be duplicative in terms of geographical coverage but which differ in terms of seasons, spectral bands, resolution, or other relevant factors;

(5) include, as the Secretary of Interior considers appropriate, unenhanced data generated either by the Landsat system, pursuant to title I, or by licensees under title II;

(6) include, as the Secretary of Interior considers appropriate, data collected by foreign ground stations or by foreign sensing space; and

(7) ensure that the content of the archive is developed in accordance with section 506.

(d) Public Domain.—After the expiration of any exclusive right to sell, or after relinquishment of such right, the data provided to the National Satellite Land Remote Sensing Data Archive shall be in the public domain and shall be made available to requesting parties by the Secretary of the Interior at the cost of fulfilling user requests.

SEC. 502. NONREPRODUCTION.

Unenhanced data distributed by any licensee under Title II of this Act may be sold on the condition that such data will not be reproduced or disseminated by the purchaser for commercial purposes.

SEC. 503. REIMBURSEMENT FOR ASSISTANCE.

The Administrator, the Secretary of Defense, and the heads of other United States Government agencies may provide assistance to land remote sensing system operators under the provisions of this Act. Substantial assistance shall be reimbursed by the operator, except as otherwise provided by law.

SEC. 504. ACQUISITION OF EQUIPMENT.

The Landsat Program Management may, by means of a competitive process, allow a licensee under title II or any other private party to buy, lease, or otherwise acquire the use of equipment from the Landsat system, when such equipment is no longer needed for the operation of such system or for the sale of data from such system. Officials of other United States Government civilian agencies are authorized and encouraged to cooperate with the Secretary in carrying out this section.

SEC. 505. RADIO FREQUENCY ALLOCATION.

(a) Application to Federal Communications Commission.—To the extent required by the Communications Act of 1934 (47 U.S.C. 151 et seq.), an application shall be filed with the Federal Communications Commission for any radio facilities involved with commercial remote sensing space systems licensed under title II.

(b) Deadline for FCC Action.—It is the intent of Congress that the Federal Communications Commission complete the radio licensing process under the Communications Act of 1934 (47 U.S.C. 151 et seq.), upon the application of any private sector party or consortium operator of any commercial land remote sensing space system subject to this Act, within 120 days of the receipt of an application for such licensing. If final action has not occurred within 120 days of the receipt of such an application, the Federal Communications Commission shall inform the applicant of any pending issues and of actions required to resolve them.

(c) DEVELOPMENT AND CONSTRUCTION OF UNITED STATES SYSTEMS.—Authority shall not be required from the Federal Communications Commission for the development and construction of any United States land remote sensing space system (or component thereof), other than radio transmitting facilities or components, while any licensing determination is being made.

(d) CONSISTENCY WITH INTERNATIONAL OBLIGATIONS AND PUBLIC INTEREST.—Frequency allocations made pursuant to this section by the Federal Communications Commission shall be consistent with international obligations and with the public interest.

SEC. 506. CONSULTATION.

(a) CONSULTATION WITH SECRETARY OF DEFENSE.—The Secretary and the Landsat Program Management shall consult with the Secretary of Defense on all matters under this Act affecting national security. The Secretary of Defense shall be responsible for determining those conditions, consistent with this Act, necessary to meet national security concerns of the United States and for notifying the Secretary and the Landsat Program Management promptly of such conditions.

(b) CONSULTATION WITH SECRETARY OF STATE.—(1) The Secretary and the Landsat Program Management shall consult with the Secretary of State on all matters under this Act affecting international obligations. The Secretary of State shall be responsible for determining those conditions, consistent with this Act, necessary to meet international obligations and policies of the United States and for notifying promptly the Secretary and the Landsat Program Management of such conditions.

(2) Appropriate United States Government agencies are authorized and encouraged to provide remote sensing data, technology, and training to developing nations as a component of programs of international aid.

(3) The Secretary of State shall promptly report to the Secretary and Landsat Program Management any instances outside the United States of discriminatory distribution of Landsat data.

(c) STATUS REPORT.—The Landsat Program Management shall, as often as necessary, provide to the Congress complete and updated information about the status of ongoing operations of the Landsat system, including timely notification of decisions made with respect to the Landsat system in order to meet national security concerns and international obligations and policies of the United States Government.

(d) REIMBURSEMENTS.—If, as a result of technical modifications imposed on a licensee under title II on the basis of national security concerns, the Secretary, in consultation with the Secretary of Defense or with other Federal agencies, determines that additional costs will be incurred by the licensee, or that past development costs (including the cost of capital) will not be recovered by the licensee, the Secretary may require the agency or agencies requesting such technical modifications to reimburse the licensee for such additional or development costs, but not for anticipated profits. Reimbursements may cover costs associated with required changes in system performance, but not costs ordinarily associated with doing business abroad.

SEC. 507. ENFORCEMENT.

(a) IN GENERAL.—In order to ensure that unenhanced data from the Landsat system received solely for noncommercial purposes are not used for any commercial purpose, the Secretary (in collaboration with private sector entities responsible for the marketing and distribution of unenhanced data generated by the Landsat system) shall develop and implement a system for enforcing this prohibition, in the event that unenhanced data from the Landsat system are made available for noncommercial purposes at a different price than such data are made available for other purposes.

(b) AUTHORITY OF SECRETARY.—Subject to subsection (d), the Secretary may impose any of the enforcement mechanisms described in subsection (c) against a person who—

(1) receives unenhanced data from the Landsat system under this Act solely for noncommercial purposes (and at a different price than the price at which such data are made available for other purposes); and

(2) uses such data for other than noncommercial purposes.

(c) ENFORCEMENT MECHANISMS.—Enforcement mechanisms referred to in subsection (b) may include civil penalties of not more than $10,000 (per day per violation), denial of further unenhanced data purchasing privileges, and any other penalties or restrictions the Secretary considers necessary to ensure, to the greatest extent practicable, that unenhanced data provided for noncommercial purposes are not used to unfairly compete in the commercial market against private sector entities not eligible for data at the cost of fulfilling user requests.

(d) PROCEDURES AND REGULATIONS.—The Secretary shall issue any regulations necessary to carry out this section and shall establish standards and procedures governing the imposition of enforcement mechanisms under subsection (b). The standards and procedures shall include a procedure for potentially aggrieved parties to file formal protests with the Secretary alleging instances where such unenhanced data has been, or is being, used for commercial purposes in violation of the terms of receipt of such data. The Secretary shall promptly act to investigate any such protest, and shall report annually to the Congress on instances of such violations.

TITLE VI—PROHIBITION OF COMMERCIALIZATION OF WEATHER SATELLITES

SEC. 601. PROHIBITION.

Neither the President nor any official of the Government shall make any effort to lease, sell, or transfer to the private sector, or commercialize, any portion of the weather satellite systems operated by the Department of Commerce or any successor agency.

SEC. 602. FUTURE CONSIDERATIONS.

Regardless of any change in circumstances subsequent to the enactment of this Act, even if such change makes it appear to be in the national interest to commercialize weather satellites, neither the President nor any official shall take any action prohibited by section 601 unless this title has first been repealed.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. BROWN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on H.R. 6133; the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION AUTHORIZATION ACT, FISCAL YEAR 1993

Mr. BROWN. Mr. Speaker, I ask unanimous consent that the Committee on Science, Space, and Technology, be discharged from further consideration of the bill (H.R. 6135) to authorize appropriations for the National Aeronautics and Space Administration for research and development, space flight control and data communications, construction of facilities, research and program management and inspector-general, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. BARTON of Texas. Reserving the right to object, Mr. Speaker, I yield to the gentleman to explain the purpose of the legislation.

Mr. BROWN. Mr. Speaker, this bill constitutes a compromise which we have worked out with the Senate on the NASA authorization bill. Although we passed the NASA bill, H.R. 4364, in the House 6 months ago, it has not yet come to the Senate floor.

This bill containing agreed upon funding and policy provisions, will provide another option for Senate action in the closing hours of this Congress.

MAJOR DIFFERENCES BETWEEN H.R. 6135 AND H.R. 4364

OVERALL

The bill authorizes a total of $14.892 billion for FY 1993. This represents a reduction of $347.4 million from the House passed bill and $100.9 million from the President's request.

The bill provides an authorization for all NASA programs under a single title in contrast to the two-tiered approach in the House passed bill.

The bill restricts authorization of appropriations to FY 1993 in contrast to the multi-year authorization approach in the House passed bill.

TITLE I: FUNDING INITIATIVES

Space Station: The bill provides $2.1 billion, a reduction of $150 million from the House passed bill and President's request.

Space Transportation Capability Development: The bill provides $733.7 million of which $30 million is authorized for development of the Space Transportation Main Engine. Overall, this represents a reduction of $16 million from the House passed bill and $130 million from the President's request.

Physics and Astronomy: The bill provides $1,096 billion of which $22 million is authorized for the Shuttle Test of Relativity Experiment. Overall, this represents a $12.5 million reduction from the House passed bill and $17.5 million from the President's request.

Life Sciences: The bill provides $153.7 million of which $2 million is authorized for cooperative life science activities on the Space Station Mir. Overall, this represents a $10 million reduction from the House passed bill and $23.5 million from the President's request.

Planetary Exploration: The bill provides $472.2 million of which $10 million is authorized for Magellan mission operations. Overall, this represents a $5 million increase over the House passed bill and a $15 million reduction from the President's request.

Earth Science and Applications: The bill provides $838.5 million, a general reduction of $10 million from the House passed bill and $30 million from the President's request. Landsat remains fully funded.

Materials Processing in Space: The bill provides $155.3 million, a reduction of $30 million from the House passed bill and $40 million from the President's request.

Information Systems: The bill provides $40.7 million of which $8.5 million is authorized for the enhancement of existing visualization and mass storage capacity in support of earth and space science flight projects. The authorization is the same as the House passed bill and the President's request.

Space Science Research Operations Support: The bill provides $91 million, a reduction of $3 million from the House passed bill and $7 million from the President's request.

Commercial Programs: The bill provides $156.6, a general reduction of $4 million from the House passed bill and $15 million from the President's request.

Aeronautical Research and Technology: The bill provides $885.2 million of which $89.9 million is authorized for High-Speed Research. Overall, this represents a reduction of $5 million from both the House passed bill and the President's request.

Transatmospheric Research and Technology: The bill provides $45 million, a $35 million reduction from both the House passed bill and President's request.

Space Research and Technology: The bill provides $308.5, a $3.5 million reduction in the House passed bill and $23.5 million from the President's request.

Space Exploration: The bill provides $15.9 million, a $15.9 million reduction from both the House passed bill and the President's request.

Space Shuttle Production and Operational Capability: The bill provides $1,315.8 million of which $315 million is authorized for the Advanced Solid Rocket Motor Program. Overall, this represents a $118 million reduction from the House passed bill and an increase of $303 million over the President's request. The increase over the President's request was primarily due to the addition of funding for the Advanced Solid Rocket Motor in FY 1993.

This bill also deletes the condition that the Advanced Solid Rocket Motor be available for the sixth Space Station assembly flight in the House passed bill. However, the main justification for the Advanced Solid Rocket Motor remains its use in supporting Space Station assembly.

Space Transportation Enhancement: The bill provides $7 million to study possible future enhancements to the Space Shuttle. This new line item reflects a provision that had been contained in Title II of the House passed bill.

Space Shuttle Operations: The bill provides $3,085.2 million, a reduction of $20 million from the House passed bill and $30 million from the President's request.

Space and Ground Network, Communications, and Data Systems: The bill provides $903.5 million, a general reduction of $7.5 million from the House passed bill and $17.5 from the President's request.

Construction of Facilities: The bill provides $479.2 million including $165 million for the Advanced Solid Rocket Motor Facility, an overall increase of $90 million above the House passed bill and $160 million over the President's request.

TITLE II. GENERAL PROVISIONS

Reprogramming authority for transamospheric research and technology has been provided within the Research and Development account to provide NASA with the flexibility to commit additional funds for the continuation of the National Aerospace Plane program.

The bill authorizes the National Science Foundation to foster and support access by the research and education communities to computer networks.

A section on space cooperation has been incorporated that is similar to H.R. 4447 and Title VI of the Freedom Support Act. The bill requires notice if approval is denied and a report on space cooperation and trade activities. The section authorizes the Office of Space Commerce to conduct trade missions and advise NASA on potential adverse impacts to U.S. industry.

The bill directs NOAA to establish an Institute for Aviation Weather Prediction, expanding upon the activities of the aviation unit at the National Severe Storms Forecast Center in Kansas City, Missouri.

The section on limiting appropriations statutorily in the House passed bill has been deleted. The section requiring the Administrator to report unauthorized appropriations to Congress remains.

TITLE III: EXPERIMENTAL PROGRAM TO STIMULATE COMPETITIVE RESEARCH IN SPACE AND AERONAUTICS

Title III of the bill establishes the Experimental Program to Stimulate Competitive Research on Space and Aeronautics, providing up to $10 million from the appropriations authorized for Research and Development in FY 1993. This program is modelled after the National Science Foundation's EPSCOR.

TITLE IV: HIGH RISK R&D CONTRACT ADMINISTRATION

Title IV of the bill provides for the High Risk Research and Development Contract Administration. Within this title, the section promulgating regulations was modified from the House passed bill to reflect the results of the required assessment.

TITLE V: COMMERCIAL SPACE COMPETITIVENESS

Title V of the bill incorporates several provisions contained in H.R. 3848, The Commercial Space Competitiveness Act. The bill establishes programs to encourage the growth and development of commercial space activities.

The Launch Voucher Demonstration Program has been identified to apply solely to payloads funded by NASA's Office of Commercial Programs in contrast to the House passed bill which was applied NASA-wide. This demonstration program is modified to sunset after two years.

The Space Transportation Infrastructure Matching Grants program is modified from the House passed bill to authorize $10 million to provide grants only to state agencies and require specific environmental certifications.

TITLE VI: BIOMEDICAL RESEARCH IN SPACE

Title VI of the bill incorporates several provisions contained in H.R. 3922, Biomedical Research in Space. The bill establishes a joint biomedical research in space program between NASA and National Institutes of Health, providing up to $3.75 million from the appropriations authorized for Research and Development in FY 1993.

I would like to include for the RECORD a full explanation of the differences between this compromise bill and the original House-passed version. In addition, I would like to include a spread sheet detailing programmatic budgetary actions.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION BUDGET SUMMARY

[In millions of dollars]

	Fiscal year—			
	1992 appropriation	1993 President's request	1993 authorization compromise	
			Amount	Change
Research and development	6,850.8	7,731.4	7,224.0	
Space station	2,028.9	2,250.0	2,100.0	−150
Space transportation capability development	719.5	863.7	733.7	
Upper Stages	61.7			
Spacelab	99.2	122.6	122.6	
Engineering & Technical Base	215.8	224.2	221.7	−2.5
Payload Operations & Supp. Equip.	119.1	153.6	143.6	−10

Space & ground networks, com.	918.3	921.0	903.5	
General Reduction			(17.5)	−17.5
Space Network	353.9	298.2	298.2	
Ground Network	283.0	314.6	314.6	
Communications & Data Systems	281.4	308.2	308.2	
Construction of facilities	525.0	319.2	479.2	
Construction Projects			484.2	+165
General Reduction			(5.0)	−5
Research and program management	1,577.6	1,660.0	1,654.0	−6
Inspector General	14.6	15.9	15.9	
Total	14,352.8	14,993.0	14,892.1	−100.9

I would like to highlight some specific provisions which deserve special attention.

The bill provides a total of $14.892 billion for fiscal year 1993 representing a reduction of $101 million from the President's request.

The bill provides $2.1 billion for the space station *Freedom*, a program that was debated at length this year. While it has proved impossible to provide full funding for fiscal year 1993, the intent of this legislation is to honor the commitments made to our international partners in the Space Station Program directed at ultimately providing a capability of 75 kilowatts of power and a crew of eight.

Funding is provided to continue the highly productive Magellan mission, as well as the shuttle test of relativity. This action, together with that of the appropriations bill, is intended to direct the administration to identify funds for these projects in future budget requests.

The bill provides funds for cooperative life science research with the Russians on the Mir space station. We are cognizant that this amount provides only a part of what will be required to carry out the cooperative program now envisioned. The committee intends to review a more comprehensive reprogramming request when the full budgetary impact becomes known.

Full funding is provided for the Landsat Program, a critical element of the U.S. Global Change Research Program.

Funding has been provided to initiate a program of robotic precursor spacecraft to survey the Moon. This program, while more modest in scope than that envisioned in the House-passed bill, will provide the managerial and operational innovations needed to make eventual human exploration of the Moon and Mars cost effective.

The bill provides funding for the advanced solid rocket motor. While the bill contains no explicit linkage of ASRM to a particular space station assembly flight, the committee reiterates its belief that the main justification for the ASRM is the Space Station Program and that its development should be timed to support the station's assembly.

The bill contains a title to improve high risk research and development contract administration. This title is intended to encourage NASA to consider a wide range of options in its assessment, including performance-based contracting, negative award fees, and, where cost effective, limits on the use of waivers of liability. The committee wishes to emphasize its intent that subsequent rulemaking on the subject of high risk research and development contracts be based on the results of the assessment. Although this title is limited in scope to NASA, the committee intends that NASA's procurement policies be generally consistent with those of other Federal agencies conducting high risk research and development. The committee anticipates that other agencies such as the Department of Defense will also comply with the guidance of the Office of Federal Procurement Policy in implementing these reforms.

The bill contains a title to enhance the Nation's commercial space competitiveness. This title includes most of the provisions contained in H.R. 3848. Not included in this title are sections 202 and 203 of H.R. 3848, which extend current policy for the procurement of commercial expendable launch vehicles to the Department of Defense and to NASA's Suborbital Program. Although this extension is not a part of this bill, the committee nevertheless strongly encourages NASA to transition toward a fully commercial acquisition policy for all expendable launch vehicles, including sounding rockets. Finally, the committee is cognizant that DOD largely complies with the policies contained in H.R. 3848 and does not envision that these would have any major impact other than establishing governmentwide policy consistency.

The bill also contains a title which establishes a cooperative biomedical research program between the National Institutes of Health and the National Aeronautics and Space Administration. With this statement, I would like to include an exchange of letters recognizing the jurisdiction of the Committee on Energy and Commerce in this matter.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ENERGY AND COMMERCE,
Washington, DC, September 25, 1992.
Hon. GEORGE E. BROWN, Jr.,
Chairman, Committee on Science, Space, and Technology, House of Representatives, Rayburn House Office Building, Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter of September 23, 1992 concerning H.R. 3922, the "Biomedical Research in Space Act of 1992."

I appreciate your consideration and acknowledgement of the Committee's jurisdiction over this issue. Our Committee has no objection to your plan to accept the agreed language as a Senate amendment to the NASA Authorization Act of 1992. Your sensitivity to and cooperation in addressing our jurisdictional and substantive concerns is greatly appreciated.

Sincerely,
JOHN D. DINGELL,
Chairman.

HOUSE OF REPRESENTATIVES, COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY,
Washington, DC, September 23, 1992.
Hon. JOHN D. DINGELL,
Chairman, Committee on Energy and Commerce, Rayburn House Office Building, Washington, DC.

DEAR MR. CHAIRMAN: As Space Subcommittee Chairman Hall has mentioned to you, he has become extremely interested in developing a closer working relationship between the National Aeronautics and Space Administration (NASA) and the National Institutes of Health (NIH) in carrying out biomedical research in space. Mr. Hall introduced the "Biomedical Research in Space Act of 1992" (H.R. 3922), which I believe accomplishes this purpose. As you know, this bill was jointly referred to the Energy and Commerce Committee.

The House Committee on Science, Space and Technology reported H.R. 3922 in June, and provisions have been incorporated into the NASA Authorization Act of 1992 which we anticipate receiving from the Senate shortly. It would be our desire to accept the Senate version under Unanimous Consent.

I am seeking your agreement on the biomedical title, and enclose the suggested language. Your staff, and that of Subcommittee Chairman Waxman have worked with our staff, and I believe they find the wording acceptable. In view of the limited time remaining for House consideration of legislation, we have worked to see that the Senate version is acceptable and protective of the Energy and Commerce Committee's jurisdiction.

I believe that the provisions relating to NIH in H.R. 3922 are straightforward and will greatly enhance the chances of success in carrying out such space-related research. Thus, I hope that you will have no objection to our moving this bill as soon as possible after Senate passage. Your continued cooperation on matters of mutual concern is appreciated, and I want to thank you for your consideration in this matter.

Sincerely,
GEORGE E. BROWN, Jr.,
Chairman.

Mr. Speaker, this is a visionary piece of legislation that establishes congressional priorities and funding requirements in a time of tightly constrained budgets and provides important policy guidelines for the Nation's Civil Space and Aeronautics Program.

There is no question that we are living in challenging times for the Nation's Space and Aeronautics Program. Yet it is also a time of rare opportunity. The end of the cold war has led us to revisit many of the assumptions that have guided the program for the last 35 years. This has opened up possibilities for cooperation with our former adversaries as well as new avenues for applying technologies originally developed for the Nation's defense to the civil space sector. H.R. 6135 takes account of these opportunities while maintaining a healthy and productive Space and Aeronautics Program in the midst of our constrained fiscal environment.

Mr. Speaker, this concludes my statement. I urge my colleagues to support H.R. 4364 and give it speedy passage.

Mr. HALL of Texas. Mr. Speaker, I rise in support of H.R. 6135, the National Aeronautics and Space Administration Authorization Act, fiscal year 1993. The bill includes many of the provisions in the House bill and, overall, I think it represents valuable guidance for NASA.

I would like to commend Mr. BROWN, chairman of the Committee on Science, Space, and Technology, for his leadership on this legislation. I would also like to recognize the contributions of Mr. WALKER as well as Mr. BACCHUS and Mr. PACKARD to title V of the bill, which represents most of the provisions that were originally passed by the House on August 6, 1992, in H.R. 3848, the Commercial Space Competitiveness Act of 1992. Finally, I would like to thank Mr. SENSENBRENNER, the ranking Republican on the Subcommittee on Space, for his close cooperation on this bill.

I am particularly pleased that the bill authorizes $2.1 billion for space station *Freedom*, a project that the Committee on Science, Space, and Technology has worked very hard to preserve. Space station *Freedom* is a cornerstone of a balanced space program. As we complete space station *Freedom*, we should also work with the Russians on their Mir space station. By using Mir, we could learn valuable lessons about how to build and operate space station *Freedom* and prepare for the life sciences research that will be conducted on space station *Freedom*.

I am also pleased that the Senate has agreed to include the language that was in the House bill which calls for NASA to carry out the Earth Observing System [EOS] as a policy-driven program that addresses the highest priority international climate change research goals. The language requires NASA to develop a resiliency plan for the EOS Program which ensures that the highest priority measurements are obtained on schedule to the greatest extent possible while deleting or deferring lower priority measurements. This plan should set forth technical and programmatic changes that NASA would make in the event of funding shortfalls in order to ensure that such a prioritized program is maintained.

The committee believes that this plan is necessary because NASA is planning for substantial funding increases for EOS over the next few years at a time when the Federal budget, and NASA's budget in particular, are likely to be very constrained. I support the EOS Program and hope that it can be adequately funded. However, it is very possible that the desired budget profile for EOS will not be fully attainable, so NASA should specifically design the EOS Program to be capable of adapting as easily as possible to funding shortfalls. Finally, this language recognizes the great importance of the EOS Data and Information System [EOSDIS], including the critical need to minimize risks and obtain the full input of the EOS data user community through prototyping.

I would like to note that the bill authorizes the full request for the Landsat Program. The committee believes that this is a critical program for global change research and that full funding is essential to minimize the possibility of a gap in data continuity between Landsat 6, which is scheduled for launch in a few months and is expected to last for 5 years, and Landsat 7. Landsat is even more important given the changes to the EOS Program recently announced in general terms by the NASA Administrator. In this restructuring, the HIRIS instrument would be deleted, eliminating the only U.S.-built Landsat-type instrument in the EOS Program. The committee believes that these reasons alone justify full funding for Landsat.

The fact that Landsat is now a joint program between NASA and the Department of defense makes it even more important that NASA's share of the program be fully funded, since the management plan agreed to by the two agencies, as well as the Land Remote Sensing Act of 1992 (H.R. 3614), call for roughly equal funding from each agency over the life of the Landsat 7 Program.

The Committee expects that NASA's operating plan for fiscal year 1993 will provide the full $25 million for Landsat as agreed to in the management plan. I note that H.R. 6135 authorizes $371 million for the EOS Program, which is $20 million less than the request and is the same level that was authorized in both the House and Senate versions of the authorization bill. The committee believes that this level is adequate to keep the EOS Program on track, especially given the cost-saving measures recently announced by the NASA Administrator. Therefore, the committee believes that NASA will have sufficient room to provide the Landsat Program with full funding in the operating plan.

I would also like to note the inclusion of most of H.R. 3848, the Commercial Space Competitiveness Act of 1992, as title V of the bill. This part of the bill is significant because it attempts to make the Federal Government a better customer for commercial space goods and services, thereby reducing the cost of Federal space programs and encouraging commercial space activities.

Mr. Speaker, I would like to summarize the main differences between title V of this compromise bill and H.R. 3848 as it was passed by the House of Representatives.

Sections 202 and 203 of H.R. 3848 were dropped. These sections would have extended the requirement to purchase commercial launch services to suborbital payloads and to agencies beyond just NASA. The committee still believes strongly that NASA should and can purchase commercial launch services for suborbital payloads. NASA should not be in the business of building and launching rockets when the private sector can do the job, and can do it more efficiently.

Current law already required NASA to purchase commercial launch services for its large payloads delivered to orbit or beyond, unless certain exceptions apply. The committee continues to see no reason why this cannot be done for sounding rockets—which carry suborbital payloads—as well, without doing any harm to the space science program. The committee believes that NASA should make maximum use of commercial launch services for suborbital payloads, a policy that is fully consistent with the Commercial Space Policy Guidelines the agency agreed to implement in 1991. The committee plan to review this issue with NASA in the coming year.

The launch voucher demonstration program (section 204 of H.R. 3848) is included in the bill, as section 504, with some modifications to make it acceptable to the Senate. First, the demonstration program is limited initially to NASA's Office of Commercial Programs, which gives grants to centers for the Commercial Development of Space for the construction of experimental payloads and the purchase of sounding rockets. Second, the voucher demonstration is made effective for 2 years beginning October 1, 1993, which gives NASA a year to plan for the implementation of the demonstration program. If vouchers prove to be feasible and advantageous, then NASA should consider their use in other programs in which NASA buys sounding rockets for recipients of NASA grants.

The space transportation infrastructure matching grant program (section 205 of H.R. 3848) is included in revised form as section 505 of the bill. The major changes requested by the Senate include the addition of environmental review requirements, language specifying that grants would be awarded to State or local agencies, authorization of $10 million for the program, and elimination of the selection committee composed of representatives from three agencies.

Section 206 of H.R. 3848, which would have required that revenues from user fees collected by the Department of Transportation for launch licensing be deposited in a trust fund and used only for purposes approved by the companies that pay the fees, was not included in H.R. 6135. The committee nevertheless believes that such user fees should be eliminated. However, if such user fees are collected, they should be directed toward purposes that benefit the fee payers rather than for the administrative expenses of the Department of Transportation. Section 211 of the bill contains language prohibiting the collection of user fees.

Finally, section 507 of the bill—anchor tenancy and termination liability—is identical to section 301 of H.R. 3848 except that the preference for no payments prior to delivery of a good or service under this section was deleted at the request of the Senate. The committee nevertheless believes that such up-front payments should be minimized.

The last title of the bill incorporates H.R. 3922, the Biomedical Research in Space Act of 1992. The only major change from H.R. 3922 is that funds are authorized only for NASA in this title. I am hopeful that NASA and the National Institutes of Health [NIH] will use the authority of this title to apply the unique strengths and capabilities of each agency to a vigorous program of joint space-based biomedical research. I am confident that the results of that research ultimately will deliver many benefits to our citizens here on Earth.

Mr. Speaker, tightly constrained budgets and an evolving consensus on why our Nation should be in space will continue to place great stresses on NASA. H.R. 6135 gives important policy guidance and funding authority for our space and aeronautics program at this critical moment in its history. Mr. Speaker, this compromise bill is a valuable piece of legislation that will go far in setting policy and budgetary guidelines for our Nation's space program. I urge my colleagues to support and pass H.R. 6135.

Mr. BARTON of Texas. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the bill, as follows:

H.R. 6135

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Aeronautics and Space Administration Authorization Act, Fiscal Year 1993".

TITLE I—AUTHORIZATION OF APPROPRIATIONS

SEC. 101. FINDINGS.

Congress finds that—

(1) investments in research and development are directly linked to long-term productivity and economic growth;

(2) as a major driver of advanced technology, the space program can play a major role in the Nation's reinvestment in civilian research and development;

(3) in addition to carrying out the Nation's goals in science and exploration, the space program makes a significant and direct contribution to the national employment base and, through the development of advanced technologies, will contribute to sustaining a healthy employment base and economy in the future;

(4) the long-term health of the United States space program is critically dependent on maintaining a stable and continuously evolving core program of science, space transportation, space exploration, space technology, and space applications;

(5) such a core program must be based on a realistic projection of resources that will be available and, in the near term, should not exceed inflationary growth;

(6) in addition to carrying out a core space program, international leadership, technological advancement, and expanded scientific knowledge will be enhanced by an expanded space program based on special initiatives in science, exploration, space transportation, space technology, and space applications;

(7) the Nation's space program can provide a productive environment for utilizing the skills of scientists and engineers formerly involved in the Nation's defense sector;

(8) civil space activities of the United States, whether made possible by, or in response to, Cold War strategic competition with the Soviet Union, must, in an era of declining political conflict, mature as instruments of United States foreign policy, and grow to support the national interest during the post-Cold War era;

(9) the national interest is furthered by trade and cooperation among friendly nations, and to the extent the former Soviet republics have shown themselves willing and capable of fostering a friendship with the United States, the national interest is furthered through trade and cooperation of mutual advantage between the United States and the former Soviet republics in civil aerospace, space science, and space exploration;

(10) a vigorous and coordinated effort by the United States and other spacefaring nations is needed to minimize the growth of orbital debris, and space activities should be conducted in a manner that minimizes the likelihood of additional orbital debris creation;

(11) the aerospace industry, rooted in aeronautics, is a major positive contributor to United States international influence and competitiveness;

(12) aeronautical research and development sustains our leadership in air transport and military aviation worldwide; and

(13) the National Aero-Space Plane is a core technology for any national aerospace policy and will permit the United States to maintain a worldwide competitive posture into the future.

SEC. 102. FISCAL YEAR 1993 AUTHORIZATION OF APPROPRIATIONS.

(a) RESEARCH AND DEVELOPMENT.—There are authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1992, for "Research and Development" for the following programs:

(1) Space Station Freedom, $2,100,000,000.

(2) Space Transportation Capability Development, $733,700,000, of which $30,000,000 is authorized for the development of the Space Transportation Main Engine.

(3) Physics and Astronomy, $1,096,000,000, of which $22,000,000 is authorized for the Shuttle Test of Relativity Experiment.

(4) Life Sciences, $153,700,000, of which $2,000,000 is authorized for cooperative life science activities on the Space Station Mir. None of the funds appropriated pursuant to this Act shall be used for the Search for Extraterrestrial Intelligence (SETI).

(5) Planetary Exploration, $472,200,000, of which $10,000,000 is authorized for Magellan mission operations.

(6) Earth Science and Applications, $838,500,000.

(7) Materials Processing in Space, $155,300,000.

(8) Communications $4,600,000.

(9) Information Systems, $40,700,000, of which $8,500,000 is authorized for the enhancement of existing visualization and mass storage capacity in support of earth and space science flight projects.

(10) Space Science Research Operations Support, $91,000,000.

(11) Commercial Programs, $156,600,000.

(12) Aeronautical Research and Technology, $885,200,000, of which $89,900,000 is authorized for High-Speed Research.

(13) Transatmospheric Research and Technology, $45,000,000.

(14) Space Research and Technology, $308,500,000, of which $5,000,000 is authorized for carrying out a program of component technology development, validation, and demonstration directed at reducing the cost and improving the capabilities and reliability of commercial launch vehicles.

(15) Space Exploration, $15,900,000.

(16) Safety, Reliability, and Quality Assurance, $32,500,000

(17) Academic Programs, $71,400,000.

(18) Tracking and Data Advanced Systems, $23,200,000.

(b) SPACE FLIGHT, CONTROL, AND DATA COMMUNICATIONS.—There are authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1992, for "Space Flight, Control, and Data Communications" for the following programs:

(1) Space Shuttle Production and Operational Capability, $1,315,800,000, of which $315,000,000 is authorized for the Advanced Solid Rocket Motor Program.

(2) Space Transportation Enhancement, $7,000,000, for assessment of the mission need and cost justification of providing for the incremental improvement in the Space Shuttle fleet, including—

(A) the extension of on-orbit duration;

(B) the development of unmanned Shuttle capabilities;

(C) the increase in lift performance; and

(D) the enhancement of existent Shuttle flight reliability.

(3) Space Shuttle Operations, $3,085,200,000.

(4) Launch Services, $207,500,000.

(5) Space and Ground Network, Communications, and Data System, $903,500,000.

(c) CONSTRUCTION OF FACILITIES.—There are authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1992, for "Construction of Facilities", including land acquisition, as follows:

(1) Construction of Space Station Processing Facility, Kennedy Space Center, $24,000,000.

(2) Modifications for Payload Operations Integration Center, Marshall Space Flight Center, $1,800,000.

(3) Replacement of Aircraft Operations Support Facilities, Johnson Space Center, $1,600,000.

(4) Modification of Electrical and Mechanical System, Utility Annex, Kennedy Space Center, $4,400,000.

(5) Rehabilitation of Explosive Safe Area-60 High Bays Support System, Kennedy Space Center, $2,000,000.

(6) Rehabilitation of LC-39 Area Fire Alarm Reporting System, Kennedy Space Center, $4,300,000.

(7) Replacement of Boiler House Components, Michoud Assembly Facility, $2,300,00

(8) Restoration of High Pressure Gas Facility, Stennis Space Center, $6,800,000.

(9) Rehabilitation of Crawlerway, Kennedy Space Center, $2,000,000.

(10) Rehabilitation of Information and Electronic Systems Laboratory, Marshall Space Flight Center, $5,000,000.

(11) Rehabilitation and Expansion of Communications Duct Banks, Kennedy Space Center. $1,500,000.

(12) Replacement of Central Plant Chilled Water Equipment, Johnson Space Center, $4,000,000.

(13) Restoration of Underground Communications Distribution System, Stennis Space Center. $2,200,000.

(14) Restoration/Modernization of Electrical, Distribution System, Goddard Space Flight Center, $4,500,000.

(15) Modernization of Unitary Plan Wind Tunnel Complex, Ames Research Center, $8,000,000.

(16) Modifications to 14- by 22-foot Subsonic Wind Tunnel, Langley Research Center, $2,200,000.

(17) Repair and Modernization of the 12-foot Pressure Wind Tunnel, Ames Research Center, $21,400,000.

(18) Rehabilitation of Icing Research Tunnel, Lewis Research Center, $2,700,000.

(19) Modernization of 16-foot Transonic Tunnel, Langley Research Center, $3,600,000.

(20) Rehabilitation of Central Air System, Lewis Research Center, $12,200,000.

(21) Construction of 34-meter Multifrequency Antenna, Canberra, Australia, Jet Propulsion Laboratory, $15,600,000.

(22) Construction of 34-meter Multifrequency Antenna, Madrid, Spain, Jet Propulsion Laboratory $16,200,000.

(23) Restoration and Modernization of Infrared Telescope Facility, Mauna Kea, Hawaii, $2,000,000.

(24) Construction of Earth Observing System Data Information System Facility, Goddard Space Flight Center, $22,300,000.

(25) Construction of Advance Solid Rocket Motor, Facilities (various locations), $165,000,000.

(26) Repair of facilities at various locations, not in excess of $1,000,000 per project, $31,900,000.

(27) Rehabilitation and modification of facilities at various locations, not in excess of $1,000,000 per project, $34,000,000.

(28) Minor construction of new facilities and additions to existing facilities at various locations, not in excess of $750,000 per project, $14,000,000.

(29) Environmental Compliance and Restoration Program, $40,000,000.

(30) Facility Planning and Design, $26,700,000.

Notwithstanding paragraphs (1) through (30), the total amount authorized to be appropriated under this subsection shall not exceed $479,200,000.

(d) RESEARCH AND PROGRAM MANAGEMENT.—There are authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1992, for "Research and Program Management" $1,654,000,000.

(e) INSPECTOR GENERAL.—There are authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1992, for "Inspector General" $15,900,000.

(f) REPORTS ON NEW LAUNCH SYSTEM AND EXPENDABLE LAUNCH VEHICLES.—(1) Within 180 days after the date of enactment of this Act, the Administrator of the National Aeronautics and Space Administration (hereinafter referred to as the "Administrator") shall submit to Congress a report setting forth requirements for a New Launch System, including

(A) a comparison of the New Launch System to existing launch systems in terms of cost, operability, safety, resilience and robustness, and ability to compete in the world launch market;

(B) a cost/benefits analysis and 10-year life cycle cost estimate of the New Launch System, including development costs to be borne by each participating agency, and expected operating costs;

(C) a payload traffic model, including commercial and both civil government and military payloads in production as of the date of enactment of this Act, those approved by Congress as of the date of enactment of this Act, and those expected to be requested of Congress;

(D) a technology development plan, including—

(i) a summary of high-risk technologies that will lower life-cycle costs;

(ii) specific benchmarks which can validate the achievement of such technological goals at discrete programmatic milestones during the development phase of the program; and

(iii) an indication of how the accomplishment of technological milestones will relate to the achievement of overall system performance during the operational phase;

(E) an implementation plan describing how the New Launch system will be phased into operational usage at the National Launch ranges and the overlap with existing systems at those Ranges; and

(F) a detailed comparison, including specific cost, payload, and risk assessments, of the New Launch System to other potential launch technologies, whose services could be procured in a commercial manner by the National Aeronautics and Space Administration.

(2) Within 180 days after the date of enactment of this Act, the Administrator shall submit to Congress a report on possible steps to improve the efficiency and availability of United States expendable launch vehicles, including Scout, Delta, Atlas, and Titan, through modernization of facilities, infrastructure improvements, improved management, new or modified procedures, and otherwise.

(g) EARTH OBSERVING SYSTEM.—(1) The Administrator shall carry out an Earth Observing System program that addresses the highest priority international climate change research goals as defined by the Committee on Earth and Environmental Sciences and the Intergovernmental Panel on Climate Change.

(2)(A) Within 180 days after the date of enactment of this Act, the Administrator shall submit to Congress a plan which will ensure that the highest priority measurements are maintained on schedule to the greatest extent practicable while lower priority measurements are deferred, deleted, or obtained through other means.

(B) Within 90 days after the date of enactment of this Act, the Core System of the Earth Observing System Data and Information System, the Administrator shall submit to Congress a Development Plan which—

(i) identifies the highest risk elements of the development effort and the key advanced technologies required to significantly increase scientific productivity;

(ii) provides a plan for the development of one or more prototype systems for use in reducing the development risk of critical system elements and obtaining feedback for scientific users;

(iii) provides a plan for research into key advanced technologies;

(iv) identifies sufficient resources for carrying out the Development Plan; and

(v) identifies how the Earth Observing System Data Information System will connect to and utilize other federally-supported research networks, including the National Research and Education Network.

(h) REPORT ON SPACE TRANSPORTATION ENHANCEMENT.—By September 30, 1993, the Administrator shall submit to Congress a full report outlining the specific actions recommended under subsection (b)(2).

TITLE II—GENERAL PROVISIONS

SEC. 201. USE OF FUNDS FOR CERTAIN ITEMS AND GRANTS.

(a) AUTHORIZED USES.—Appropriations authorized under this Act for "Research and Development" and "Space Flight, Control, and Data Communications" may be used for—

(1) any items of a capital nature (other than acquisition of land) which may be required at locations other than installations of the National Aeronautics and Space Administrations of the National Aeronautics and space Administration for the performance of research and development contracts; and

(2) grants to nonprofit institutions of higher education, or to nonprofit organizations whose primary purpose is the conduct of scientific research, for purchase or construction of additional research facilities.

(b) VESTING OF TITLE; GRANT CONDITIONS.—Title to facilities described in subsection (a)(2) shall be vested in the United States unless the Administrator determines that the national program of aeronautical and space activities will best be served by vesting title in the grantee institution or organization. Each grant under subsection (a)(2) shall be made under such conditions as the Administrator shall determine to be required to ensure that the United States will receive therefrom benefits adequate to justify the making of that grant.

(c) LIMITATION.—None of the funds appropriated for "Research and Development" and "Space Flight, Control, and Data Communications" pursuant to this Act may be used in accordance with this section for the construction of any facility, the estimated cost of which, including collateral equipment, exceeds $750,000, unless the Administrator has notified the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives of the nature, location, and estimated cost of such facility.

SEC. 202. AVAILABILITY OF APPROPRIATED AMOUNTS.

Appropriations authorized under this Act for "Research and Development", for "Space Flight, Control, and Data Communications", or for "Construction of Facilities" may remain available until expended. Contracts may be entered into under "Inspector General" and "Research and Program Management" for training, investigations, and costs associated with personnel relocation and for other services provided during the fiscal year following the fiscal year in which funds are appropriated.

SEC. 203. LIMITED USE OF FUNDS.

(a) USE FOR SCIENTIFIC CONSULTATIONS OR EXTRAORDINARY EXPENSES.—Appropriations authorized under this Act for "Research and Development" may be used, but not to exceed $35,000, for scientific consultations or extraordinary expenses upon the approval or authority of the Administrator, and the Administrator's determination shall be final and conclusive upon the accounting officers of the Government.

(b) USE FOR FACILITIES.—(1) Appropriations authorized under this Act for "Research and Development" and "Space Flight, Control, and Data Communications" may be used for the construction of new facilities and additions to, repair of, rehabilitation of, or modification of existing facilities, except that the cost of each such project, including collateral equipment, shall not exceed $200,000.

(2) Appropriations authorized under this Act for "Research and Development" and "Space Flight, Control, and Data Communications" may be used for unforeseen programmatic facility project needs, except that the cost of each such project, including collateral equipment, shall not exceed $750,000.

(3) Appropriations authorized under this Act for "Research and Development" may be used for repair, rehabilitation, or modification of facilities controlled by the General Services Administration, except that the cost of each project, including collateral equipment, shall not exceed $500,000.

SEC. 204. REPROGRAMMING FOR TRANSATMOSPHERIC RESEARCH AND TECHNOLOGY.

The Administrator may reprogram up to $45,000,000 of the amount authorized for "Research and Development" for fiscal year 1993 to use for the purposes described in section 102(a)(13). No such funds may be obligated until a period of 30 days has passed after the Administrator has notified the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space and Technology of the House of Representatives of such reprogramming.

SEC. 205. REPROGRAMMING FOR CONSTRUCTION OF FACILITIES.

Appropriations authorized under this Act for "Construction of Facilities"—

(1) in the discretion of the Administrator or the Administrator's designee, may be varied upward by 10 percent; or

(2) following a report by the Administrator or the Administrator's designee to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives on the circumstances of such action, may be varied upward by 25 percent, to meet unusual cost variations.

The total amount authorized to be appropriated for "Construction of Facilities" shall not be increased as a result of actions authorized under paragraphs (1) and (2).

SEC. 206. SPECIAL REPROGRAMMING AUTHORITY FOR CONSTRUCTION OF FACILITIES.

Where the Administrator determines that new developments or scientific or engineering changes in the national program of aeronautical and space activities have occurred; and that such changes require the use of additional funds for the purposes of construction, expansion, or modification of facilities at any location; and that deferral of such action until the enactment of the next authorization Act would be inconsistent with the interest of the Nation in aeronautical and space activities; the Administrator may transfer not to exceed one-half of 1 percent of the funds appropriated pursuant to section 102(a) and (b) to the "Construction of Facilities" appropriation for such purposes. The Administrator may also use up to $10,000,000 of the amounts authorized under section 102(c) for such purposes. The funds so made available pursuant to this section may be expended to acquire, construct, convert, rehabilitate, or install permanent or temporary public works, including land acquisition, site preparation, appurtenances, utilities, and equipment. No such funds may be obligated until a period of 30 days has passed after the Administrator or the Administrator's designee has transmitted to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a written report describing the nature of the construction, its cost, and the reasons therefor.

SEC. 207. CONSIDERATION BY COMMITTEES.

Notwithstanding any other provision of this Act—

(1) no amount appropriated pursuant to this Act may be used for any program deleted by the Congress from requests as originally made to either the Committee on Commerce, Science, and Transportation of the Senate or the Committee on Science, Space, and Technology of the House of Representatives;

(2) no amount appropriated pursuant to this Act may be used for any program in excess of the amount actually authorized for that particular program by section 102(a), (b), and (d); and

(3) no amount appropriated pursuant to this Act may be used for any program which has not been presented to either such committee, unless a period of 30 days has passed after the receipt, by each such committee, of notice given by the Administrator or the Administrator's designee containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action. The National Aeronautics and Space Administration shall keep the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives fully and currently informed with respect to all activities and responsibil-

ities within the jurisdiction of those committees. Any Federal department, agency, or independent establishment shall furnish any information requested by either committee relating to any such activity or responsibility.

SEC. 208. LIMITATION ON OBLIGATION OF UNAUTHORIZED APPROPRIATIONS.

Not later than 30 days after the later of the date of enactment of an Act making appropriations to the National Aeronautics and Space Administration for fiscal year 1993 or the date of enactment of this Act, the Administrator shall submit a report to Congress and to the Comptroller General which specifies—

(1) the portion of such appropriations which are for programs, projects, or activities not specifically authorized under this Act, or which are in excess of amounts authorized for the relevant program, project, or activity under this Act; and

(2) the portion of such appropriations which are specifically authorized under this Act.

SEC. 209. GEOGRAPHICAL DISTRIBUTION.

It is the sense of the Congress that it is in the national interest that consideration be given to geographical distribution of Federal research funds whenever feasible, and that the National Aeronautics and Space Administration should explore ways and means of distributing its research and development funds whenever feasible.

SEC. 210. TRANSMISSION OF BUDGET ESTIMATES.

The Administrator shall, at the time of submission of the President's annual budget, transmit to the Congress—

(1) a 5-year budget detailing the estimated development costs for each individual program under the jurisdiction of the National Aeronautics and Space Administration for which development costs are expected to exceed $200,000,000; and

(2) an estimate of the life-cycle costs associated with each such program.

SEC. 211. COMMERCIAL SPACE LAUNCH ACT AUTHORIZATION.

Section 24 of the Commercial Space Launch Act (49 App. U.S.C. 2623) is amended—

(1) by striking "1992" and all that follows through "(2)" and inserting in lieu thereof "1993."; and

(2) by adding at the end the following: "There are authorized to be appropriated to the Secretary for fiscal year 1993 $4,900,000 to carry out this Act. The Secretary may not collect any user fees for any regulatory or other services conducted pursuant to this Act, unless specifically authorized by this Act.".

SEC. 212. NATIONAL SPACE COUNCIL AUTHORIZATION.

There are authorized to be appropriated to carry out the activities of the National Space Council established by section 501 of the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1989 (42 U.S.C. 2471), $1,598,000 for fiscal year 1993, of which not more than $1,000 shall be available for official reception and representation expenses. The National Space Council shall reimburse other agencies for not less than one-half of the personnel compensation costs of individuals detailed to it.

SEC. 213. OFFICE OF SPACE COMMERCE AUTHORIZATION.

There are authorized to be appropriated to the Secretary of Commerce for the Office of Space Commerce $515,000 for fiscal year 1993.

SEC. 214. LAUNCH TECHNOLOGY STUDIES.

(a) REPORT ON SINGLE STAGE ROCKET TECHNOLOGY FLIGHT TEST PROGRAM.—Not later than 45 days following completion of the Strategic Defense Initiative Organization's Single Stage Rocket Technology flight test program, the Administrator shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives providing an independent analysis of the program and the potential application of this launch technology to the civil space program.

(b) NATIONAL AEROSPACE TRANSPORTATION TECHNOLOGY PLAN.—Not later than 180 days after the date of enactment of this Act, the National Space Council, in consultation with the Administrator, shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a national aerospace transportation, technology plan. The plan shall consider—

(1) the needs of the National Aeronautics and Space Administration and other agencies for a hypersonic research flight vehicle, including the National Aerospace Plane; and

(2) the relationship between the National Aerospace Plane and the supersonic High Speed Civil Transport, the Single Stage Rocket Technology Program, nuclear propulsion concepts, and other proposed aeronautical and space transportation technology concepts.

SEC. 215. SPACE AGENCY FORUM ON INTERNATIONAL SPACE YEAR.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) it is in the national interest that the Space Agency Forum on International Space Year (in this section referred to as "SAFISY") maintain its facilitating role in the coordination of current and planned complementary Earth and space science research findings so as to maximize scientific return;

(2) the initiative for multilateral scientific cooperation among space agencies and international scientific organizations undertaken by SAFISY should continue beyond 1992, the International Space Year; and

(3) the National Aeronautics and Space Administration and the National Oceanic and Atmospheric Administration should pursue implementation of proposals for long-term multilateral scientific cooperation developed during the International Space Year, notably those contained in the report of the second Pacific ISY Conference.

(b) REPORT TO CONGRESS.—At the earliest practicable date, but not later than September 1, 1993, the National Aeronautics and Space Administration shall submit to Congress its plan for continuing SAFISY activities, with particular reference to planned coordination of current and future complementary Earth and space science research finding, and other acts of multilateral scientific cooperation.

SEC. 216. CRAF/CASSINI MISSION.

Section 103(a)(1)(S) of the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1991 (Public Law 101-611; 104 Stat. 3192), is repealed.

SEC. 217. COMPUTER NETWORKS.

Section 3 of the National Science Foundation Act of 1950 (42 U.S.C. 1862) is amended by adding at the end the following new subsection:

"(g) In carrying out subsection (a)(4), the Foundation is authorized to foster and support access by the research and education communities to computer networks which may be used substantially for purposes in addition to research and education in the sciences and engineering, if the additional uses will tend to increase the overall capabilities of the networks to support such research and education activities.".

SEC. 218. SPACE COOPERATION WITH THE FORMER SOVIET REPUBLICS.

(a) REPORT TO CONGRESS.—Within one year after the date of enactment of this Act, the President shall submit to Congress a report describing—

(1) the opportunities for increased space related trade with the independent states of the former Soviet Union;

(2) a technology procurement plan for identifying and evaluating all unique space hardware, space technology, and space services available to the United States from the independent states of the former Soviet Union, specifically including those technologies the National Aeronautics and Space Administration has identified as high priority in its Space Research and Technology Integrated Technology Plan.

(3) the trade missions carried out pursuant to subsection (c), including the private participation and the results of such missions;

(4) the offices and accounts of the National Aeronautics and Space Administration to which expenses for either cooperative activities or procurement actions, involving the independent states of the former Soviet Union, are charged;

(5) any barriers, regulatory or practical, that, inhibit space-related trade between the United States and the independent states of the former Soviet Union, including such barriers in either the United States or the independent states; and

(6) any anticompetitive issues raised by a potential acquisition.

(b) NOTIFICATION TO CONGRESS.—If any United States Government agency denies a request for a license or other approval that may be necessary to conduct discussions on space-related matters with the independent states of the former Soviet Union, that agency shall immediately notify the Speaker of the House of Representatives and President of the Senate. Each such notification shall include a statement of the reasons for the denial.

(c) ROLE OF THE OFFICE OF SPACE COMMERCE.—The Office of Space Commerce of the Department of Commerce is authorized and encouraged to conduct trade missions to appropriate independent states of the former Soviet Union for the purpose of familiarizing United States aerospace industry representatives with space hardware, space technologies, and space services that may be available from the independent states, and with the business practices and overall business climate in the independent states. The Office of Space Commerce shall also advise the Administrator as to the impact on United States industry of each potential acquisition of space hardware, space technology, or space services from the independent states of the former Soviet Union, specifically including any anticompetitive issues the Office may observe.

SEC. 219. USE OF DOMESTIC PRODUCTS.

(a) COMPLIANCE WITH BUY AMERICAN ACT.—(1) Except as provided in paragraph (2), the head of each agency which conducts procurements shall ensure that such procurements are conducted in compliance with sections 2 through 4 of the Act of March 3, 1933 (41 U.S.C. 10a through 10c, popularly known as the "Buy American Act").

(2) This subsection shall apply only to procurements made for which—

(A) amounts are authorized by this Act to be made available; and

(B) solicitations for bids are issued after the date of enactment of this Act.

(3) The Administrator, before January 1, 1994, shall report to Congress of procurements covered by this subsection of products that are not domestic products.

(b) INAPPLICABILITY IN CASE OF VIOLATION OF INTERNATIONAL AGREEMENT.—This section shall not apply to the extent that the United States Trade Representative determines that an award under this section would be in violation of the General Agreement on Tariffs and Trade or an international agreement to which the United States is a party.

(c) DEFINITIONS.—For the purposes of this section, the term "domestic product" means a product—

(1) that is manufactured or produced in the United States; and

(2) at least 50 percent of the cost of the articles, materials, or supplies of which are mined, produced, or manufactured in the United States.

SEC. 220 USE OF ABANDONED AND UNDERUTILIZED BUILDINGS, GROUNDS, AND FACILITIES.

(a) GENERAL RULE.—In meeting the needs of the National Aeronautics and Space Administration for additional facilities, the Administrator shall investigate the use of abandoned and underutilized buildings, grounds, and facilities in depressed communities that can be converted to National Aeronautics and Space Administration facilities and shall prioritize such uses where cost effective, as determined by the Administrator.

(b) DEFINITION.—For purposes of this section, the term "depressed communities" means rural and urban communities that are relatively depressed, in terms of age of housing, extent of poverty, growth of per capita income, extent of unemployment, job lag, or surplus labor.

SEC. 221. STUDY OF USES OF TECHNICAL INFORMATION.

The Administrator shall undertake a study of the extent to which technical information developed by the National Aeronautics and Space Administration, by itself or in cooperation with industry, academic, or other government partners or contractors, is brought to market by foreign aerospace firms or their subcontractors more quickly than by United States companies. The Administrator shall report the results of such study to Congress no later than October 1, 1993.

SEC. 222. INSTITUTE FOR AVIATION WEATHER PREDICTION.

The Administrator of the National Oceanic and Atmospheric Administration shall establish an Institute for Aviation Weather Prediction. The Institute shall provide forecasts, weather warnings, and other weather services to the United States aviation community. The Institute shall expand upon the activities of the aviation unit currently at the National Severe Storms Forecast Center in Kansas City, Missouri, and shall be established in the Kansas City Missouri area. The Administrator of the National Oceanic and Atmospheric Administration shall provide a full and fair opportunity for employees at the National Severe Storms Center to assume comparable duties and responsibilities within the Institute.

TITLE III—EXPERIMENTAL PROGRAM TO STIMULATE COMPETITIVE RESEARCH ON SPACE AND AERONAUTICS

SEC. 301. SHORT TITLE.

This title may be cited as the "Experimental Program to Stimulate Competitive Research on Space and Aeronautics Act".

SEC. 302. FINDINGS.

Congress finds that—

(1) the report of the Advisory Committee on the Future of the United States Space Program has provided a framework within which a consensus on the goals of the space program can be developed;

(2) the National Aeronautics and Space Administration's space science and applications, aeronautical research and technology, and space research and technology programs will serve as the fulcrum for future initiatives by the United States in civil space and aviation;

(3) colleges and universities in many States are currently not able to compete successfully for research grants awarded by the National Aeronautics and Space Administration through its space science and applications, aeronautical research and technology, and space research and technology programs;

(4) balanced programs of space science and applications, aeronautical research and technology, and space research and technology should include initiatives designed to foster competitive research capacity in all geographic areas of the Nation; and

(5) by strengthening the competitive research capacity in those geographic areas of the Nation which are not currently fully competitive, the education and training of scientists and engineers important to the future of the United States civil space and aviation programs will be fostered.

SEC. 303. POLICY.

It is the policy of the United States that—

(1) the Administrator, in planning for national programs in space science and applications, aeronautical research, space flight, and exploration, should ensure the resilience of the space and aeronautics research infrastructure;

(2) a stable and balanced program of space science and applications, aeronautical research and technology, and space research and technology should include programs to assure that geographic areas of the United States that currently do not successfully participate in competitive space and aeronautical research activities are enabled to become more competitive; and

(3) programs to improve competitive capabilities should be a part of the research and the educational activities of the National Aeronautics and Space Administration.

SEC. 304. REQUIREMENTS.

(a) COMPETITION.—Making use of the existing infrastructure established in eligible States by the National Science Foundation, the Administrator shall conduit a merit grant competition among the eligible States in areas of research important to the mission of the National Aeronautics and Space Administration. With respect to a grant application by an eligible State, the Administrator shall consider—

(1) the application's merit and relevance to mission of the National Aeronautics and Space Administration;

(2) the potential for the grant to serve as a catalyst to enhance the ability of researchers in the State to become more competitive for regular National Aeronautics and Space Administration funding;

(3) the potential for the grant to improve the environment for science, mathematics, and engineering education in the State; and

(4) the need to assure the maximum distribution of grants among eligible States, consistent with merit.

(b) SUPPLEMENTAL GRANTS.—Administrator shall endeavor, where appropriate, to supplement grants made under subsection (a) with such grants for fellowships, traineeships, equipment, or instrumentation as are available.

(c) ELIGIBLE STATES DEFINED.—In this section, the term "eligible State" means a State designated by the Administrator as eligible to compete in the Foundation's Experimental Program to Stimulate Competitive Research.

SEC. 305. AUTHORIZATION OF APPROPRIATIONS.

In carrying out the programs listed in section 102(a), the Administrator should ensure that up to $10,000,000 from the appropriations authorized for "Research and Development", for fiscal year 1993 are also used for purposes of establishing and developing an Experimental Program to Stimulate Competitive Research on Space and Aeronautics.

TITLE IV—HIGH RISK RESEARCH AND DEVELOPMENT CONTRACT ADMINISTRATION

SEC. 401. ACQUISITION POLICY ASSESSMENT.

(a) ASSESSMENT.—Within 180 days after the date of enactment of this Act, the Administrator, in coordination as necessary with the Office of Federal Procurement Policy and the Federal Acquisition Regulation Council, shall carry out an assessment of the allocation of risk between the National Aeronautics and Space Administration and its contractors for future research and development contracts in order to identify options for allocating risk for correction of defects in materials and workmanship or other failures to conform to contract requirements.

(b) CONTENTS.—In carrying out the assessment required by subsection (a), the Administrator shall consider—

(1) technical uncertainty, market dynamics, and equity to both the National Aeronautics and Space Administration and the contractor community.

(2) the use of positive fee incentives reflecting the level of cost, schedule, and performance risk accepted by the contractor;

(3) the use of negative fee incentives, including provisions providing for less than full cost recovery for work determined to be defective in materials or workmanship or which otherwise fail to conform to contract requirements;

(4) the appropriate use of rollovers;

(5) the appropriate use of retroactive award fee adjustments;

(6) the appropriate use of value engineering;

(7) the use of warranties to ensure that the end product or a specified subproduct of a contract meets the performance requirements of a contract;

(8) the recovery of costs for the replacement or correction of articles which are defective in materials or workmanship, or which otherwise fail to conform to contract requirements; and

(9) the appropriate use of performance-based contracting.

SEC. 402. PROMULGATION OF REGULATIONS.

Within 180 days after the completion of the acquisition policy assessment required by section 401, the Administrator, in coordination as necessary with the Office of Federal Procurement Policy, consistent with section 15 of the Office of Federal Procurement Policy Act (41 U.S.C. 413), and the Federal Acquisition Regulation Council, shall initiate a rulemaking proceeding under section 22 of such Act (41 U.S.C. 418b), on the administration of research and development contracts which propose specific changes to National Aeronautics and Space Administration Procurement Regulations and, as necessary, Federal Acquisition Regulations to consider implementing the recommendations of the assessment required by section 401, as well as—

(1) the establishment of policies and procedures for the use of performance-based contracts, incorporating positive and/or negative fee incentives to the maximum extent practicable; and

(2) the establishment of policies and procedures—

(A) for limiting the use of clauses of the Federal Acquisition Regulations which otherwise obligate the Government to pay the cost of correction of defects in materials and workmanship and work which otherwise fails to conform to contract requirements, and eliminating the use of such clauses where the defect or failure is within the control of the contractor; and

(B) to provide for less than full cost recovery for work determined to be defective in materials and workmanship or which otherwise fails to conform to contract requirements.

SEC. 402. DEFINITIONS.

For the purposes of this title—

(1) the term "performance-based contracting" means structuring all aspects of an acquisition around the purpose of the work to be performed as opposed to either the manner by which the work is to be performed or broad statements of work;

(2) the term "positive fee incentive" means that element of the potential total remuneration that a contractor may receive for contract performance over and above the allowable costs;

(3) the term "negative fee incentive" means a rebate payable to the National Aeronautics and Space Administration by a contracting party whose deliverable item or service is not in conformance with contract requirements or is otherwise deemed to be defective work; and

(4) the term "rollover" means the act of reallocating any positive fee incentives not earned by a contractor due to less than excellent performance to subsequent opportunities for award available in the contract.

TITLE V—COMMERCIAL SPACE COMPETITIVENESS

SEC. 501. FINDINGS.

The Congress finds that—

(1) commercial activities of the private sector have substantially contributed to the strength of both the United States space program and the national economy;

(2) a robust United States space transportation capability remains a vital cornerstone of the United States space program;

(3) the availability of commercial launch services is essential for the continued growth of the United States commercial space sector.

(4) a timely extension of the excess third party claims payment provisions of the Commercial Space Launch Act is appropriate and necessary to enable the private sector to continue covering maximum probable liability risks while protecting the private sector from uninsurable levels of liability which could hinder international competitiveness;

(5) a program to demonstrate how recipients of Federal grants can purchase launch services directly from the private sector has the potential to improve the capabilities of the United States commercial launch industry;

(6) improvements and additions to the Nation's space transportation infrastructure contribute to a robust and cost-effective space transportation capability for both public sector and private sector users;

(7) private sector use of available Government facilities on a reimbursable basis contributes to a stronger commercial space sector;

(8) the Federal Government should purchase space goods and services which are commercially available, or could be made available commercially in response to a Government procurement request, whenever such goods or services meet Government mission requirements in a cost effective manner;

(9) it is appropriate for the Government to act as an anchor tenant for commercial space development projects which have a reasonable potential to develop non-Federal markets and which meet Federal needs in a cost effective manner; and

(10) the provision of compensation to commercial providers of space goods and services for termination of contracts at the convenience of the Government assists in enabling the private sector to invest in space activities which are initially dependent on Government purchases.

SEC. 502. DEFINITIONS.

For the purposes of this title—

(1) the term "agency" means an executive agency as defined by section 105 of title 5, United States Code;

(2) the term "anchor tenancy" means an arrangement in which the United States Government agrees to procure sufficient quantities of a commercial space product or service needed to meet Government mission requirements so that a commercial venture is made viable;

(3) the term "commercial" means having—

(A) private capital at risk; and

(B) primary financial and management responsibility for the activity reside with the private sector;

(4) the term "cost effective" means costing no more than the available alternatives, determined by a comparison of all related direct and indirect costs including, in the case of Government costs, applicable Government labor and overhead costs as well as contractor charges, and taking into account the ability of each alternative to accommodate mission requirements as well as the related factors of risk, reliability, schedule, and technical performance;

(5) the term "launch" means to place, or attempt to place, a launch vehicle and its payload, if any, in a suborbital trajectory, in Earth orbit in outer space, or otherwise in outer space;

(6) the term "launch services" means activities involved in the preparation of a launch vehicle and its payload for launch and the conduct of a launch;

(7) the term "launch support facilities" means facilities located at launch sites or launch ranges that are required to support launch activities, including launch vehicle assembly, launch vehicle operations and control, communications, flight safety functions, and payload operations, control, and processing.

(8) the term "launch vehicle" means any vehicle constructed for the purpose of operating in, or placing a payload in, outer space or in suborbital trajectories, and includes components of that vehicle;

(9) the term "payload" means an object which a person undertakes to launch, and includes subcomponents of the launch vehicle specifically designed or adapted for that object;

(10) the term "payload integration services" means activities involved in integrating multiple payloads into a single payload for launch or integrating a pay load with a launch vehicle;

(11) the term "space recovery support facilities" means facilities required to support activities related to the recovery of payloads returned from space to a space recovery site, including operations and control, communications, flight safety functions, and payload processing;

(12) the term "space transportation infrastructure" means facilities, associated equipment, and real property, including launch sites, launch support facilities, space recovery sites, and space recovery support facilities, required to perform launch or space recovery activities;

(13) the term "State" means the several States, the District of Columbia, Puerto Rico, American Samoa, the United States Virgin Islands, Guam, the Northern Mariana Islands, and any other commonwealth, territory, or possession of the United States; and

(14) the term "United States" means the States, collectively.

SEC. 503. EXTENSION OF GOVERNMENT PAYMENT OF EXCESS THIRD PARTY CLAIMS.

Section 16(b)(5) of the Commercial Space Launch Act (49 App. U.S.C. 2615(b)(5)) is amended by striking "the date that is 5 years following the date of enactment of the Commercial Space Launch Act Amendments of 1988" and inserting in lieu thereof "January 1, 2000".

SEC. 504. LAUNCH VOUCHER DEMONSTRATION PROGRAM.

(a) COMMERCIAL SPACE VOUCHER DEMONSTRATION PROGRAM; EFFECTIVE PERIOD.—The Administrator shall establish a demonstration program to award vouchers for the payment of commercial launch services and payload integration services for the purpose of launching payloads funded by the Office of Commercial Programs within the National Aeronautics and Space Administration to become effective October 1, 1993. Such program shall not be effective after September 30, 1995.

(b) AWARD OF VOUCHERS.—The Administrator shall award vouchers under subsection (a) to appropriate individuals as a part of grants administered by the National Aeronautics and Space Administration for the launch of—

(1) payloads to be placed in suborbital trajectories; and

(2) small payloads to be placed in orbit.

(c) ASSUMPTION OF CERTAIN RESPONSIBILITIES.—In carrying out the demonstration program established under subsection (a), the Administrator, in awarding vouchers, is limited to the launch of payloads funded by the Office of Commercial Programs within the National Aeronautics and Space Administration.

(d) ASSISTANCE.—The Administrator may provide voucher award recipients with such assistance, including contract formulation and technical support during the proposal evaluation, as may be necessary, to ensure the purchase of cost effective and reasonably reliable commercial launch services and payload integration services.

(e) REPORT.—The Administrator shall conduct an ongoing review of the program established under this section, and shall, not later than January 31, 1995, report to Congress the results of such a review, together with recommendations for further action relating to the program.

SEC, 505. SPACE TRANSPORTATION INFRASTRUCTURE MATCHING GRANTS.

(a) DEFINITIONS.—For the purposes of this section—

(1) the term "commercial space transportation infrastructure development" may include—

(A) the construction or improvement of space transportation infrastructure within the United States;

(B) the engineering and designing of such space transportation infrastructure; and

(C) technical studies to define how new or enhanced space transportation infrastructure can best meet the needs of the United States commercial space transportation industry;

(2) the term "project" means a project (or separate projects submitted together) for the accomplishment of commercial space transportation infrastructure development, including the combined submission of all projects to be undertaken at a particular site in a fiscal year;

(3) the term "project grant" means a grant of funds by the Secretary to a sponsor for the accomplishment of one or more projects;

(4) the term "public agency" means a State or any agency of a State, a municipality or other political subdivision of a State, or a tax-supported organization;

(5) the term "Secretary" means the Secretary of Transportation; and

(6) the term "sponsor" means any public agency which, either individually or jointly with one or more other such entities, submits to the Secretary, in accordance with this section, an application for financial assistance for commercial space transportation infrastructure development.

(b) ESTABLISHMENT OF GRANT PROGRAM.—In order to ensure the resiliency of the Nation's space transportation infrastructure, the Secretary is authorized to make project grants to sponsors in accordance with this section. There is authorized to be appropriated $10,000,000 for such grants beginning after September 30, 1992. Such funds shall remain available until expended.

(c) SELECTION OF PROJECTS.—(1) In selecting projects for grants under subsection (b), the Secretary shall consider—

(A) the contribution of the proposed project to industry capabilities which serve Federal space transportation needs;

(B) the extent of industry's financial contribution to the proposed project;

(C) the extent of industry participation in the proposed project;

(D) the positive impact of the proposed project on the international competitiveness of the United States space transportation industry;

(E) the extent of the state contributions to the proposed project; and

(F) the impact of the proposed project on launch operations and other activities at Federal launch ranges.

(2) The Secretary shall consult with the Department of Defense, the National Aeronautics and Space Administration, and other appropriate Federal agencies concerning paragraphs (1)(A) and (1)(F).

(3) The Secretary shall give preference to those applications with grater levels of industry financial contributions, all other factors being equal.

(d) SUBMISSION AND APPROVAL OF PROJECT GRANT APPLICATIONS.—(1) Any sponsor of a project may submit to the Secretary a project grant application for one or more projects, in a form containing such information as the Secretary may prescribe, setting forth the project proposed to be undertaken.

(2) No project grant application shall be approved by the Secretary unless the Secretary is satisfied that—

(A) the project will contribute to the purposes of this section;

(B) the project is reasonably consistent with plans (existing at the time of approval of the project) of public agencies which are authorized by the State in which such project is located and which are responsible for the development of the area surrounding the project site;

(C) if the application proposes to use Federal Government property, the specific consent of the appropriate Federal agency head has been obtained;

(D) the project will be completed without undue delay;

(E) the sponsor which submitted the project grant application has the legal authority to engage in the project as proposed; and

(F) all additional requirements prescribed by the Secretary have been met.

(e) ENVIRONMENTAL REQUIREMENTS.—(1) It is declared to be national policy that projects authorized pursuant to this section shall provide for the protection and enhancement of the natural resources and the quality of the environment of the Nation. In implementing this policy, the Secretary shall consult with the Secretary of the Interior and the Administrator of the Environmental Protection Agency with regard to any project included in a project grant application which may have a significant impact on natural resources including, but not limited to, fish and wildlife, natural, scenic, and recreational assets, water and air quality, and other factors affecting the environment, and shall authorize no such project found to have a significant adverse effect unless the Secretary shall render a finding, in writing, following a full and complete review, which shall be a matter of public record, that no feasible and prudent alternative exists and that all reasonable steps have been taken to minimize such adverse effect.

(2)(A) No project grant application may be approved by the Secretary unless the sponsor of the project certifies to the Secretary that there has been afforded the opportunity for public hearing for the purpose of considering the economic, social, and environmental effects of the project and its consistency with the goals of objectives of such planning as had been carried out by the community.

(B) When hearings are held under paragraph (2)(A), the project sponsor shall submit a copy of the transcript to the Secretary.

(3) No project grant application may be approved unless the Governor of the State in which such project is to be located certifies in writing to the Secretary that there is reasonable assurance that the project will be located, designed, constructed, and operated so as to comply with applicable air and water quality standards. In any case where such standards have not been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within 60 days after the project application has been received by the Secretary.

(4) The Secretary shall condition approval of any such project grant application on compliance during construction and operation with applicable air and water quality standards.

(5) The Secretary is authorized in connection with any project to require a certification from a sponsor that such sponsor will comply with all of the statutory and administrative requirements imposed on such sponsor under this section in connection with such project. Acceptance by the Secretary of a certification from a sponsor may be rescinded by the Secretary at any time. Nothing in this paragraph shall affect or discharge any responsibility or obligation of the Secretary under any other Federal law, including, but not limited to, the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), section 4(f) of the Department of Transportation Act (49 App. U.S.C. 1652), title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), title VIII of the Act of April 11, 1968 (42 U.S.C. 3601 et seq.), and the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.).

(f) ALLOCATION OF PROJECT COSTS.—(1) The project grant for any project under this section shall not exceed 50 percent of the total cost of such project.

(2) No project grant shall be awarded under this section for any project for which less than 10 percent of the total cost of such project will be borne by the private sector.

SEC. 506. IDENTIFICATION OF LAUNCH SUPPORT FACILITIES.

(a) IDENTIFICATION.—The Administrator and the Secretary of Defense, as appropriate, in coordination with the Secretary of Transportation, shall conduct an inventory and identify all launch support facilities owned by the United States Government. To the extent practicable, the Administrator and the Secretary of Defense shall also identify any launch support facilities which could be made available for use by non-Federal entities on a reimbursable basis without interfering with Federal activities.

(b) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Administrator and the Secretary of Defense each shall submit to Congress a report containing the results of the identification required under subsection (a). Portions of such report may be classified and protected from public disclosure if such classification is necessary to protect national security.

SEC. 507. ANCHOR TENANCY AND TERMINATION LIABILITY.

(a) ANCHOR TENANCY CONTRACTS.—Subject to appropriations, the Administrator or the Administrator of the National Oceanic and Atmospheric Administration may enter into multiyear anchor tenancy contracts for the purchase of a good or service in the appropriate Administrator determines that—

(1) the good or service meets the mission requirements of the National Aeronautics and Space Administration or the National Oceanic and Atmospheric Administration, as appropriate;

(2) the commercially procured good or service is cost effective;

(3) the good or service is procured through a competitive process;

(4) existing or potential customers for the good or service other than the United States Government have been specifically identified;

(5) the long-term viability of the venture is not dependent upon a continued Government market or other nonreimbursable Government supporter; and

(6) private capital is at risk in the venture.

(b) TERMINATION LIABILITY.—(1) Contracts entered into under subsection (a) may provide for the payment of termination liability in the event that the Government terminates such contracts for its convenience.

(2) Contracts that provide for the payment of termination liability, as described in paragraph (1), shall include a fixed schedule of such termination liability payments. Liability under such contracts shall not exceed the total payments which the Government would have made after the date of termination to purchase the good or service if the contract were not terminated.

(3) Subject to appropriations, funds available for such termination liability payments may be used for purchase of the good or service upon successful delivery of the good or

service pursuant to the contract. In such case, sufficient funds shall remain available to cover any remaining termination liability.

(c) LIMITATIONS.—(1) Contracts entered into under this section shall not exceed 10 years in duration.

(2) Such contracts shall provide for delivery of the good or service on a firm, fixed price basis.

(3) To the extent practicable, reasonable performance specifications shall be used to define technical requirements in such contracts.

(4) In any such contract, the appropriate Administrator shall reserve the right to completely or partially terminate the contract without payment of such termination liability because of the contract's actual or anticipated failure to perform its contractual obligations.

SEC. 508. USE OF GOVERNMENT FACILITIES.

(a) AUTHORITY.—Federal Agencies, including the National Aeronautics and Space Administration and the Department of Defense, may allow non-Federal entities to use their space-related facilities on a reimbursable basis if the Administrator, the Secretary of Defense, or the appropriate agency head determines that—

(1) the facilities will be used to support commercial space activities;

(2) such use can be supported by existing or planned Federal resources;

(3) such use is compatible with Federal activities;

(4) equivalent commercial services are not available on reasonable terms; and

(5) such use is consistent with public safety, national security, and international treaty obligations.

In carrying our paragraph (5), each agency head shall consult with appropriate Federal officials.

(b) REIMBURSEMENT PAYMENT.—(1) The reimbursement referred to in subsection (a) may be an amount equal to the direct costs (including salaries of United States civilian and contractor personnel) incurred by the United States as a result of the use of such facilities by the private sector. For the purposes of this paragraph, the term "direct costs" means the actual costs that can be unambiguously associated with such use, and would not be borne by the United States Government in the absence of such use.

(2) The amount of any payment received by the United States for use of facilities under this subsection shall be credited to the appropriation from which the cost of providing such facilities was paid.

SEC. 509. PROTECTION OF INFORMATION DEVELOPED UNDER SPACE ACT AGREEMENTS.

Section 303 of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2454) is amended—

(1) by inserting "(a)" after "SEC. 303";

(2) by striking "and (B)" and inserting in lieu thereof "(B)";

(3) by inserting ", and (C) information described in subsection (b)" after "national security"; and

(4) by adding at the end the following new subsection:

"(b) The Administrator, for a period of up to 5 years after the development of information that results from activities conducted under an agreement entered into under section 203(c)(5) and (6) of this Act, and that would be a trade secret or commercial or financial information that is privileged or confidential under the meaning of section 552(b)(4) of title 5, United States Code, if the information had been obtained from a non-Federal party participating in such an agreement, may provide appropriate protections against the dissemination of such information, including exemption from subchapter II of chapter 5 of title 5, United States Code.".

SEC. 510. COMMERCIAL SPACE ACHIEVEMENT AWARD.

(a) ESTABLISHMENT.—There is established a Commercial Space Achievement Award. The award shall consist of a medal, which shall be of such design and materials and bear such inscriptions as determined by the Secretary of Commerce. A cash prize may also be awarded if funding for the prize is available under subsection (d).

(b) CRITERIA FOR AWARD.—The Secretary of Commerce shall periodically make, and the Chairman of the National Space Council shall present, awards under this section to individuals, corporations, corporate divisions, or corporate subsidiaries substantially engaged in commercial space activities who in the opinion of the Secretary of Commerce best meet the following criteria:

(1) For corporate entities, at least one-half of the revenues from the space-related activities of the corporation, division, or subsidiary is derived from sources other than the United States Government.

(2) The activities and achievements of the individual, corporation, division, or subsidiary have substantially contributed to the United States gross national product and the stature of United States industry in international markets, with due consideration for both the economic magnitude and the technical quality of the activities and achievements.

(3) The individual, corporation, division, or subsidiary has substantially advanced space technology and space applications directly related to commercial space activities.

(c) LIMITATIONS.—No individual or corporate entity may receive an award under this section more than once every 5 years.

(d) FUNDING FOR AWARD.—The Secretary of Commerce may seek and accept gifts of money from public and private sources for the purpose of making cash prize awards under this section. Such money may be used only for that purpose, only such money may be used for that purpose, and the Secretary of Commerce shall make publicly available an itemized list of the sources of such funding.

TITLE VI—BIOMEDICAL RESEARCH IN SPACE

SEC. 601. FINDINGS.

The Congress finds that—

(1) the space program can make significant contributions to selected areas of health-related research and should be an integral part of the Nation's health research and development program;

(2) the continuing development of trained scientists and engineers is essential to carrying out an effective and sustained program of biomedical research in space and on the ground;

(3) the establishment and maintenance of an electronically accessible archive of data on space-related biomedical research is essential to advancement of the field;

(4) cooperation with the republics of the former Soviet Union, including use of former Soviet orbital facilities, offers the potential for greatly enhanced biomedical research activities and progress; and

(5) the establishment and maintenance of an international telemedicine consultation satellite capability to support emergency medical service provision can provide an important aid to disaster relief efforts.

SEC. 602. BIOMEDICAL RESEARCH JOINT WORKING GROUP.

(a) ESTABLISHMENT.—The Administrator and the Director of the National Institutes of Health shall jointly establish a working group to coordinate biomedical research activities in areas where a microgravity environment may contribute to significant progress in the understanding and treatment of diseases and other medical conditions. The joint working group shall formulate joint and complementary programs in such areas of research.

(b) MEMBERSHIP.—The joint working group shall include equal representation from the National Aeronautics and Space Administration and the National Institutes of Health, and shall include representation from National Institutes of Health councils, as selected by the Director of the National Institutes of Health, and from the National Aeronautics and Space Administration Advisory Council.

(c) ANNUAL REPORTING REQUIREMENT.—The joint working group shall report annually to Congress on its progress in carrying out this section.

(d) ANNUAL BIOMEDICAL RESEARCH SYMPOSIA.—The working group shall organize annual symposia on biomedical research described in subsection (a) under the joint sponsorship of the National Aeronautics and Space Administration and the National Institutes of Health.

SEC. 603. BIOMEDICAL RESEARCH GRANTS.

(a) ESTABLISHMENT OF PROGRAM.—The Administrator and the Director of the National Institutes of Health shall establish a joint program of biomedical research grants in areas described in section 602(a), where such research requires access to a microgravity environment. Such program shall be consistent with actions taken by the joint working group under section 602.

(b) RESEARCH OPPORTUNITY ANNOUNCEMENTS.—The grants program established under subsection (a) shall annually issue joint research opportunity announcements under the sponsorship of the National Institutes of Health and the National Aeronautics and Space Administration. Responses to the announcements shall be evaluated by a peer review committee whose members shall be selected by the Director of the National Institutes of Health and the Administrator, and shall include individuals not employed by the National Aeronautics and Space Administration or the National Institutes of Health.

SEC. 604. BIOMEDICAL RESEARCH FELLOWSHIPS.

The Administrator and the Director of the National Institutes of Health shall create a joint program of graduate research fellowships in biomedical research described in section 602(a). Fellowships under such program may provide for participation in approved research conferences and symposia.

SEC. 605. JOINT FORMER SOVIET UNION STUDIES IN BIOMEDICAL RESEARCH.

The Administrator, in consultation with the Director of the National Institutes of Health, shall, as soon as practicable, establish and submit to Congress a plan for the conduct of joint biomedical research activities by the republics of the former Soviet Union and the United States, including the use of the United States Space Shuttle and former Soviet orbital facilities such as the Mir space station.

SEC. 606. ESTABLISHMENT OF AN ELECTRONIC DATA ARCHIVE.

The Administrator shall create and maintain a national electronic data archive for biomedical research data obtained from space-based experiments.

SEC. 607. ESTABLISHMENT OF EMERGENCY MEDICAL SERVICE TELEMEDICINE CAPABILITY.

The Administrator shall with the Director of the Federal Emergency Management Agency, the Director of the Office of Foreign Disaster, and the Surgeon General of the United States jointly create and maintain an international telemedicine satellite consultation capability to support emergency medical services in disaster-stricken areas.

SEC. 608. AUTHORIZATION OF APPROPRIATIONS.

The Administrator should ensure that up to $3,750,000 from the appropriations authorized for "Research and Development" for fiscal year 1993 are also used to carry out this title.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CONSOLIDATED FARM AND RURAL DEVELOPMENT ACT AMENDMENTS

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that the Committee on Agriculture be discharged from further consideration of the bill (H.R. 6138) to amend the Consolidated Farm and Rural Development Act.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Clerk read the bill, as follows:

H.R. 6138

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Section 306C(a) (2) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926c) is amended to read a follows:

"(2) CERTAIN AREAS TARGETED.—

"(A) IN GENERAL.—Loans and grants under paragraph (1) shall be made only if the loan or grant funds will be used primarily to provide water or waste services, or both, to residents of a county—

"(i) the per capita income of the residents of which is not more than 70 percent of the national average per capita income, as determined by the Department of Commerce; and

"(ii) the unemployment rate of the residents of which is not less than 125 percent of the national average unemployment rate, as determined by the Bureau of Labor Statistics.

"(B) EXCEPTION.—Notwithstanding subparagraph (A), loans and grants under paragraph (1) may also be made if the loan or grant funds will be used primarily to provide water or waste services, or both, to residents of a rural area that was recognized as a colonia as of October 1, 1989.".

Mr. de la GARZA. Mr. Speaker, H.R. 6138 clarifies eligibility for the loan and grant programs authorized under section 306C of the Consolidated Farm and Rural Development Act.

Section 306C authorizes the loan and grant program for providing water and wastewater services to communities facing water-related health risks. Under the 1990 Farm Act, those impoverished communities along the United States-Mexico border known as colonias are given a preference in the awarding of grants and loans.

This technical amendment simply clarifies that any area recognized as a colonia as of October 1, 1989, should be eligible for the preference. Mr. Speaker, I urge passage of H.R. 6138.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

□ 0510

PRESCRIPTION DRUG USER FEE ACT OF 1992

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H.R. 6181) to impose fees on prescription drug manufacturers in order to increase the resources at FDA for the review of drug applications.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. MCDERMOTT). Is there objection to the request of the gentleman from California?

Mr. LENT. Reserving the right to object, Mr. Speaker, while I will not object, I take this reservation for the purpose of asking the gentleman from California [Mr. WAXMAN] to explain what changes have been made by the Senate to this legislation.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield?

Mr. LENT. I yield to the gentleman from California.

Mr. WAXMAN. Mr. Speaker, I thank the gentleman from New York [Mr. LENT] for yielding to me.

Mr. Speaker. The House passed H.R. 5952 on September 22, 1992. Mr. DINGELL, Mr. LENT and I have been involved in negotiating certain changes in H.R. 5952 with the Senate. The changes have been agreed to and we had expected the Senate to pass H.R. 5952 with the Senate amendments today so that we could pass the bill, as amended, tonight.

Unfortunately, Mr. Speaker, there is a filibuster in the Senate tonight, and as a result the Senate may not be able to enact H.R. 5952 before the House recesses. Therefore, Mr. DINGELL and I have introduced a new bill, H.R. 6181, which is identical to H.R. 5952, with the amendments worked out in the Senate. As a result, the Committee Report to H.R. 5952 and the other legislative history will apply with equal force to H.R. 6181, as if the House had passed H.R. 5952 with the Senate amendments.

Title I of the bill is the Prescription Drug User Fee Act of 1992. Title I is essentially identical to H.R. 5952, which the House passed on September 22, 1992. The agreement worked out with the Senate makes only a few technical and clarifying amendments to the bill. They are self-evident from the Senate amendment and are explained in the joint statement of Senators KENNEDY and HATCH which appears in the CONGRESSIONAL RECORD.

Title II is the Dietary Supplement Act of 1992. This Act will extend until December 31, 1993, the deadlines for issuing certain final regulations pertaining to dietary supplements. During this period of a little more than 1 year, Congress, the Food and Drug Administration and other interested parties will have the opportunity to study the issue of how dietary supplements should be regulated. I have also prepared a statement to explain the intent of title II which I ask be printed after my statement.

This issue has been extremely controversial during the past year. Consumers and manufacturers of supplements are plainly very unhappy with the FDA and with Congress. I do not know what is the right answer to the vexing questions that have been raised pertaining to these products. But I do believe that the 1-year moratorium provided by this bill, which pertains only to dietary supplements and not to conventional foods, is beneficial and I fully support it.

Mr. Speaker. This bill is the product of an extraordinary bipartisan, cooperative effort between the House and the Senate, as well as cooperation from the drug industry. I would like to acknowledge the work of staff, including Howard Cohen, counsel for the Minority on the Energy and Commerce Committee, Dave Keaney, counsel for the Majority on the Committee, and Bill Schultz, counsel to our Subcommittee on Health and Environment.

STATEMENT OF INTENT H.R. 6181, TITLE II

The purpose of the Dietary Supplement Act of 1992" is to institute a moratorium, through December 31, 1993, on the implementation of the provisions of the Nutrition Labeling and Education Act of 1990, Public Law 101–535; 104 Stat. 2353 [NLEA] with respect to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances.

Dietary supplements can play a beneficial role in nutrition. We encourage efforts to continue rigorous scientific research, conducted by qualified experts, into the function of dietary supplements.

The Dietary Supplement Act of 1992 will permit the Congress and the Food and Drug Administration [FDA] of the United States Department of Health and Human Services [HHS] to examine issues related to the regulation of dietary supplements and specifically the provisions of the NLEA as they relate to these products.

As both the statutory text and legislative record reveal, the NLEA primarily addresses food products. Because of the differences in the history of use and function of dietary supplements and conventional foods, it is appropriate for Congress to enact this moratorium so that the issue of how best to regulate dietary supplements may be carefully considered.

Specifically, this legislation creates a moratorium in the implementation of the NLEA with respect to dietary supplements. This legislation also requires the Secretary to repropose NLEA regulations applicable to dietary supplements no later than June 15, 1993. Final regulations will be issued by December 31, 1993.

The moratorium will provide time for the Congress, HHS, consumer groups, industry, and other affected parties to identify more fully and to consider the public health issues associated with use of dietary supplements, and to develop a comprehensive approach for reforming the regulation of dietary supplements.

The general policy goal is clear: The American public must be assured that the dietary supplements they choose to consume are safe, made to quality standards, bear informative labeling, and that health- or disease-related claims are properly supported. Both the regulator—the FDA—and the regulated—including manufacturers, distributors, and suppliers of dietary supplements—have important responsibilities in meeting this goal. In attempting to improve the regulatory framework for these products, the moratorium will advance this goal.

The FDA has proposed that the existing U.S. recommended daily allowances [U.S. RDA's] be replaced as the food label standard for vitamins and minerals by a new concept, the reference daily intakes [RDI's]. The NLEA does not mandate changing the U.S. RDA and does not contain the RDI concept. This legislation enacts a moratorium delaying the implementation of the RDI proposal in order to allow additional time for obtaining a thorough assessment of the scientific rationale for any proposed changes from the existing U.S. RDA's.

While this moratorium is in effect, dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances not in the form of conventional food shall be subject to the provisions of the Federal Food, Drug, and Cosmetic Act [FFDC Act], as in effect on November 7, 1990. Under the terms of the moratorium, the labeling of dietary supplements may contain claims identified under clauses vi and x of section 3(b)(1)(A) of the NLEA for which the Secretary determines that a significant scientific agreement exists.

Two studies are called for by this act. The first will be conducted by the Comptroller General to determine how FDA utilizes resources to regulate potential health risk and risk from deception with respect to using dietary supplements. The second study requests the Office of Technology Assessment to examine how other industrialized countries regulate dietary supplements and the health effects of these regulatory schemes.

During the moratorium, it is expected that attention will be focused on the issue of what standards and procedures should be applied to dietary supplements, including standards for claims under section 403(r)(5)(D) of the FFDC Act. In order to take advantage of the new information and developments that may occur under the moratorium, it is possible that FDA may wish to propose new regulations, guidelines, and enforcement criteria affecting dietary supplements, or to repropose rules under section (r)(5)(D) of the NLEA.

In the course of the moratorium, FDA's enforcement policies and practices with respect to dietary supplements will be examined. While it is clear that the existing legal mechanisms will continue to be in effect during the moratorium, one of the key questions to be considered next year is the proper role of the food additive provisions contained in section 409 of the FFDC Act in the regulation of dietary supplements and whether section 409 should be replaced by a new statutory standard for dietary supplements.

Mr. LENT. Mr. Speaker, I have no objection to the enactment of this legislation.

Mr. RICHARDSON. Mr. Speaker, I rise in strong support of H.R. 5952, the Prescription Drug User Fee Act as amended to include the Dietary Supplement Act of 1992. The Prescription Drug User Fee Act will begin to address the backlog of new drug approvals at the Food and Drug Administration by providing them with additional resources generated by dedicated user fees paid by pharmaceutical companies.

I also want to thank and commend Chairman DINGELL and Chairman WAXMAN for their assistance and support of the Dietary Supplement Act which was added during Senate consideration of H.R. 5952 by our Senate colleague, Senator ORRIN HATCH. I want to commend Senator HATCH for his outstanding and tireless efforts in this area.

As the House sponsor of H.R. 5746, the Health Choices Freedom Act protecting consumers' rights to obtain nutritional supplements, and ensuring that such products are safe, of the highest quality, and that their labels bear accurate information, I strongly support the Dietary Supplement Act which will institute a moratorium through December 31, 1993, on the implementation of the Nutrition Labeling and Education Act of 1990 with respect to vitamins, minerals, herbs, or other similar nutritional substances.

Over 120 million Americans use dietary supplements on a regular basis and yet neither the FDA nor the Congress has reviewed the regulation of these products in over a decade. FDA's regulatory oversight of dietary supplements was last reviewed by Congress in 1976 during passage and consideration of the Proxmire amendment which precluded FDA from establishing maximum limits on the potency of vitamins and minerals.

In the intervening years, much research has been done establishing the health benefits of dietary supplements. Earlier this year, the New York Academy of Sciences held a conference entitled the "New Views on the Function and Health Effects of Vitamins," which detailed the links between vitamin consumption and disease prevention. Time magazine has reported that scientists now believe supplements "play a much more complex role in ensuring vitality and optimal health than was previously thought * * * often in doses much higher than those usually recommended." Articles in U.S. News and World Report and the New York Times have reported similar findings.

Additionally, in July of this year, the Centers for Disease Control formally recommended that women of child-bearing age consume an adequate amount of folic acid in order to reduce the risk of neural tube birth defects. Unfortunately, despite the CDC recommendation, the antiquated labeling requirements governing dietary supplements, such as folic acid, prevent all consumers, including women, from learning the potential benefits of this and other supplements. The fact is, dietary supplements are neither foods nor drugs and regrettably Congress and the FDA have failed to provide the proper statutory and regulatory framework for these products.

As a strong supporter of the Nutrition Labeling and Education Act of 1990 which was designed to revise food labels to provide accurate and nonmisleading health information to consumers, I believe the moratorium established by the Dietary Supplement Act is narrowly tailored and drafted to exempt only dietary supplements. More importantly, the Dietary Supplement Act will enable Congress, consumers, and the dietary supplement industry to develop the appropriate statutory and regulatory framework, one which protects consumer choice, protects consumer health, and encourages continued scientific research into the function of dietary supplements.

I urge my colleagues' support of this important legislation.

Mr. LENT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the bill, as follows:

H.R. 6181

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—USER FEES

SEC. 101. SHORT TITLE AND REFERENCE.

(a) SHORT TITLE.—This title may be cited as the "Prescription Drug User Fee Act of 1992".

(b) REFERENCE.—Whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Federal Food, Drug, and Cosmetic Act.

SEC. 102. FINDINGS.

The Congress finds that—

(1) prompt approval of safe and effective new drugs is critical to the improvement of the public health so that patients may enjoy the benefits provided by these therapies to treat and prevent illness and disease;

(2) the public health will be served by making additional funds available for the purpose of augmenting the resources of the Food and Drug Administration that are devoted to the process for review of human drug applications; and

(3) the fees authorized by this title will be dedicated toward expediting the review of human drug applications as set forth in the goals identified in the letters of September 14, 1992, and September 21, 1992, from the Commissioner of Food and Drugs to the Chairman of the Energy and Commerce Com-

mittee of the House of Representatives and the Chairman of the Labor and Human Resources Committee of the Senate, as set forth at 138 Cong. Rec. H9099-H9100 (daily ed. September 22, 1992).

SEC. 103. FEES RELATING TO DRUGS.

Chapter VII, as amended by section 106, is amended by adding at the end of subchapter C the following:

"PART 2—FEES RELATING TO DRUGS

"SEC. 735. DEFINITIONS.

"For purposes of this subchapter:

"(1) The term 'human drug application' means an application for—

"(A) approval of a new drug submitted under section 505(b)(1),

"(B) approval of a new drug submitted under section 505(b)(2) after September 30, 1992, which requests approval of—

"(i) a molecular entity which is an active ingredient (including any salt or ester of an active ingredient), or

"(ii) an indication for a use,

that had not been approved under an application submitted under section 505(b),

"(C) initial certification or initial approval of an antibiotic drug under section 507, or

"(D) licensure of a biological product under section 351 of the Public Health Service Act.

Such term does not include a supplement to such an application, does not include an application with respect to whole blood or a blood component for transfusion, does not include an application with respect to a bovine blood product for topical application licensed before September 1, 1992, an allergenic extract product, or an in vitro diagnostic biologic product licensed under section 351 of the Public Health Service Act, and does not include an application with respect to a large volume parenteral drug product approved before September 1, 1992.

"(2) The term 'supplement' means a request to the Secretary to approve a change in a human drug application which has been approved.

"(3) The term 'prescription drug product' means a specific strength or potency of a drug in final dosage form—

"(A) for which a human drug application has been approved, and

"(B) which may be dispensed only under prescription pursuant to section 503(b).

Such term does not include whole blood or a blood component for transfusion, does not include a bovine blood product for topical application licensed before September 1, 1992, an allergenic extract product, or an in vitro diagnostic biologic product licensed under section 351 of the Public Health Service Act, and does not include a large volume parenteral drug product approved before September 1, 1992.

"(4) The term 'final dosage form' means, with respect to a prescription drug product, a finished dosage form which is approved for administration to a patient without further manufacturing.

"(5) The term 'prescription drug establishment' means a foreign or domestic place of business which is—

"(A) at one general physical location consisting of one or more buildings all of which are within 5 miles of each other, at which one or more prescription drug products are manufactured in final dosage form, and

"(B) under the management of a person that is listed as the applicant in a human drug application for a prescription drug product with respect to at least one such product.

For purposes of this paragraph, the term 'manufactured' does not include packaging.

"(6) The term 'process for the review of human drug applications' means the following activities of the Secretary with respect to the review of human drug applications and supplements:

"(A) The activities necessary for the review of human drug applications and supplements.

"(B) The issuance of action letters which approve human drug applications or which set forth in detail the specific deficiencies in such applications and, where appropriate, the actions necessary to place such applications in condition for approval.

"(C) The inspection of prescription drug establishments and other facilities undertaken as part of the Secretary's review of pending human drug applications and supplements.

"(D) Activities necessary for the review of applications for licensure of establishments subject to section 351 of the Public Health Service Act and for the release of lots of biologics under such section.

"(E) Monitoring of research conducted in connection with the review of human drug applications.

"(7) The term 'costs of resources allocated for the process for the review of human drug applications' means the expenses incurred in connection with the process for the review of human drug applications for—

"(A) officers and employees of the Food and Drug Administration, employees under contract with the Food and Drug Administration who work in facilities owned or leased for the Food and Drug Administration, advisory committees, and costs related to such officers, employees, and committees,

"(B) management of information, and the acquisition, maintenance, and repair of computer resources,

"(C) leasing, maintenance, renovation, and repair of facilities and acquisition, maintenance, and repair of fixtures, furniture, scientific equipment, and other necessary materials and supplies, and

"(D) collecting fees under section 736 and accounting for resources allocated for the review of human drug applications and supplements.

"(8) The term 'adjustment factor' applicable to a fiscal year is the lower of—

"(A) the Consumer Price Index for all urban consumers (all items; U.S. city average) for August of the preceding fiscal year divided by such Index for August 1992, or

"(B) the total of discretionary budget authority provided for programs in the domestic category for the immediately preceding fiscal year (as reported in the Office of Management and Budget sequestration preview report, if available, required under section 254(d) of the Balanced Budget and Emergency Deficit Control Act of 1985) divided by such budget authority for fiscal year 1992 (as reported in the Office of Management and Budget final sequestration report submitted after the end of the 102d Congress, 2d Session).

The terms 'budget authority' and 'category' in subparagraph (B) are as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as in effect as of September 1, 1992.

"SEC. 736. AUTHORITY TO ASSESS AND USE DRUG FEES.

"(a) TYPES OF FEES.—Beginning in fiscal year 1993, the Secretary shall assess and collect fees in accordance with this section as follows:

"(1) HUMAN DRUG APPLICATION AND SUPPLEMENT FEE.—

"(A) IN GENERAL.—Each person that submits, on or after September 1, 1992, a human drug application or a supplement shall be subject to a fee as follows:

"(i) A fee established in subsection (b) for a human drug application for which clinical data (other than bioavailability or bioequivalence studies) with respect to safety or effectiveness are required for approval.

"(ii) A fee established in subsection (b) for a human drug application for which clinical data with respect to safety or effectiveness are not required or a supplement for which clinical data (other than bioavailability or bioequivalence studies) with respect to safety or effectiveness are required.

"(B) PAYMENT SCHEDULE.—

"(i) FIRST PAYMENT.—50 percent of the fee required by subparagraph (A) shall be due upon submission of the application or supplement.

"(ii) FINAL PAYMENT.—The remaining 50 percent of the fee required by subparagraph (A) shall be due upon—

"(I) the expiration of 30 days from the date the Secretary sends to the applicant a letter designated by the Secretary as an action letter described in section 735(6)(B), or

"(II) the withdrawal of the application or supplement after it is filed unless the Secretary waives the fee or a portion of the fee because no substantial work was performed on such application or supplement after it was filed.

The designation under subclause (I) or the waiver under subclause (II) shall be solely in the discretion of the Secretary and shall not be reviewable.

"(C) EXCEPTION FOR PREVIOUSLY FILED APPLICATION OR SUPPLEMENT.—If a human drug application or supplement was submitted by a person that paid the fee for such application or supplement, was accepted for filing, and was not approved or was withdrawn (without a waiver), the submission of a human drug application or a supplement for the same product by the same person (or the person's licensee, assignee, or successor) shall not be subject to a fee under subparagraph (A).

"(D) REFUND OF FEE IF APPLICATION NOT ACCEPTED FOR FILING.—The Secretary shall refund 50 percent of the fee paid under subparagraph (B)(i) for any application or supplement which is not accepted for filing.

"(2) PRESCRIPTION DRUG ESTABLISHMENT FEE.—Each person that—

"(A) owns a prescription drug establishment, at which is manufactured at least 1 prescription drug product which is not the, or not the same as a, product approved under an application filed under section 505(b)(2) or 505(j), and

"(B) after September 1, 1992, had pending before the Secretary a human drug application or supplement,

shall be subject to the annual fee established in subsection (b) for each such establishment, payable on or before January 31 of each year.

"(3) PRESCRIPTION DRUG PRODUCT FEE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), each person—

"(i) who is named as the applicant in a human drug application for a prescription drug product which is listed under section 510, and

"(ii) who, after September 1, 1992, had pending before the Secretary a human drug application or supplement,

shall pay for each such prescription drug product the annual fee established in subsection (b). Such fee shall be payable at the time of the first such listing of such product in each calendar year. Such fee shall be paid only once each year for each listed prescription drug product irrespective of the number of times such product is listed under section 510.

"(B) EXCEPTION.—The listing of a prescription drug product under section 510 shall not require the person who listed such product to pay the fee prescribed by subparagraph (A) if such product is the same product as a product approved under an application filed under section 505(b)(2) or 505(j).

"(b) FEE AMOUNTS.—

"(1) SCHEDULE.—Except as provided in paragraph (2) and subsections (c), (d), (f), and (g), the fees required under subsection (a) shall be paid in accordance with the following schedule:

	Fiscal year—				
	1993	1994	1995	1996	1997
Drug application fee:					
Subsection (a)(1)(A)(i) fee	*$100,000*	*$150,000*	*$208,000*	*$217,000*	*$233,000*
Subsection (a)(I)(A)(ii) fee	*50,000*	*75,000*	*104,000*	*108,000*	*116,000*
Fee revenue	*12,000,000*	*18,000,000*	*25,000,000*	*26,000,000*	*28,000,000*
Annual establishment fee:					
Fee per establishment	*60,000*	*88,000*	*126,000*	*131,000*	*138,000*
Fee revenue	*12,000,000*	*18,000,000*	*25,000,000*	*26,000,000*	*28,000,000*
Annual product fee:					
Fee per product	*6,000*	*9,000*	*12,500*	*13,000*	*14,000*
Fee revenue	*12,000,000*	*18,000,000*	*25,000,000*	*26,000,000*	*28,000,000*
Total fee revenues	*36,000,000*	*54,000,000*	*75,000,000*	*78,000,000*	*84,000,000*

"(2) SMALL BUSINESS EXCEPTION.—Any business which has fewer than 500 employees, including employees of affiliates, and which does not have a prescription drug product introduced or delivered for introduction into interstate commerce shall pay one-half the amount of the fee for human drug applications it submits and shall pay the entire amount of the fee for supplements it submits. Such a business shall not be required to pay any portion of any fee required under subsection (a)(1)(A) until 1 year after the date of the submission of the application involved. For purposes of this paragraph, one business is an affiliate of another business when, directly or indirectly, one business controls, or has the power to control, the other business or a third party controls, or has the power to control, both businesses.

"(c) INCREASES AND ADJUSTMENTS.—

"(1) REVENUE INCREASE.—The total fee revenues established by the schedule in subsection (b)(1) shall be increased by the Secretary by notice, published in the Federal Register, for a fiscal year to reflect the greater of—

"(A) the total percentage increase that occurred during the preceding fiscal year in the Consumer Price Index for all urban consumers (all items; U.S. city average), or

"(B) the total percentage increase for such fiscal year in basic pay under the General Schedule in accordance with section 5332 of title 5, United States Code, as adjusted by any locality-based comparability payment pursuant to section 5304 of such title for Federal employees stationed in the District of Columbia.

"(2) ANNUAL FEE ADJUSTMENT.—Subject to the amount appropriated for a fiscal year under subsection (g), the Secretary shall, within 60 days after the end of each fiscal year beginning after October 1, 1992, adjust the fees established by the schedule in subsection (b)(1) for the following fiscal year to achieve the total fee revenues, as may be increased under paragraph (1). Such fees shall be adjusted under this paragraph to maintain the proportions established in such schedule.

"(3) LIMIT.—The total amount of fees charged, as adjusted under paragraph (2), for a fiscal year may not exceed the total costs for such fiscal year for the resources allocated for the process for the review of human drug applications.

"(d) FEE WAIVER OR REDUCTION.—The Secretary shall grant a waiver from or a reduction of 1 or more fees under subsection (a) where the Secretary finds that—

"(1) such waiver or reduction is necessary to protect the public health,

"(2) the assessment of the fee would present a significant barrier to innovation because of limited resources available to such person or other circumstances,

"(3) the fees to be paid by such person will exceed the anticipated present and future costs incurred by the Secretary in conducting the process for the review of human drug applications for such person, or

"(4) assessment of the fee for an application or a supplement filed under section 505(b(1) pertaining to a drug containing an active ingredient would be inequitable because an application for a product containing the same active ingredient filed by another person under section 505(b)(2) could not be assessed fees under subsection (a)(1).

In making the finding in paragraph (3), the Secretary may use standard costs.

"(e) EFFECT OF FAILURE TO PAY FEES.—A human drug application or supplement submitted by a person subject to fees under subsection (a) shall be considered incomplete and shall not be accepted for filing by the Secretary until all fees owed by such person have been paid.

"(f) ASSESSMENT OF FEES.—

"(1) LIMITATION.—Fees may not be assessed under subsection (a) for a fiscal year beginning after fiscal year 1993 unless appropriations for salaries and expenses of the Food and Drug Administration for such fiscal year (excluding the amount of fees appropriated for such fiscal year) are equal to or greater than the amount of appropriations for the salaries and expenses of the Food and Drug Administration for the fiscal year 1992 multiplied by the adjustment factor applicable to the fiscal year involved.

"(2) AUTHORITY.—If the Secretary does not assess fees under subsection (a) during any portion of a fiscal year because of paragraph (1) and if at a later date in such fiscal year the Secretary may assess such fees, the Secretary may assess and collect such fees, without any modification in the rate, for human drug applications and supplements, prescription drug establishments, and prescription drug products at any time in such fiscal year notwithstanding the provisions of subsection (a) relating to the date fees are to be paid.

"(g) CREDITING AND AVAILABILITY OF FEES.—

"(1) IN GENERAL.—Fees collected for a fiscal year pursuant to subsection (a) shall be credited to the appropriation account for salaries and expenses of the Food and Drug Administration and shall be available in accordance with appropriation Acts until expended without fiscal year limitation.

"(2) COLLECTIONS AND APPROPRIATION ACTS.—The fees authorized by this section—

"(A) shall be collected in each fiscal year in an amount equal to the amount specified in appropriation Acts for such fiscal year, and

"(B) shall only be collected and available to defray increases in the costs of the resources allocated for the process for the review of human drug applications (including increases in such costs for an additional number of full-time equivalent positions in the Department of Health and Human Services to be engaged in such process) over such costs for fiscal year 1992 multiplied by the adjustment factor.

"(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for fees under this section—

"(A) $36,000,000 for fiscal year 1993,

"(B) $54,000,000 for fiscal year 1994,

"(C) $75,000,000 for fiscal year 1995,

"(D) $78,000,000 for fiscal year 1996, and

"(E) $84,000,000 for fiscal year 1997,

as adjusted to reflect increases in the total fee revenues made under subsection (c)(1).

"(h) COLLECTION OF UNPAID FEES.—In any case where the Secretary does not receive payment of a fee assessed under subsection (a) within 30 days after it is due, such fee shall be treated as a claim of the United States Government subject to subchapter II of chapter 37 of title 31, United States Code.

"(i) CONSTRUCTION.—This section may not be construed to require that the number of full-time equivalent positions in the Department of Health and Human Services, for officers, employers, and advisory committees not engaged in the process of the review of human drug applications, be reduced to offset the number of officers, employees, and advisory committees so engaged.".

SEC. 104. ANNUAL REPORTS.

(a) FIRST REPORT.—Within 60 days after the end of each fiscal year during which fees are collected under part 2 of subchapter C of chapter VII of the Federal Food, Drug, and Cosmetic Act, the Secretary of Health and Human Services shall submit a report stating the Food and Drug Administration's progress in achieving the goals identified in section 102(3) of this Act during such fiscal year and that agency's future plans for meeting such goals.

(b) SECOND REPORT.—Within 120 days after the end of each fiscal year during which such fees are collected, the Secretary of Health and Human Services shall submit a report on the implementation of the authority for such fees during such fiscal year and on the use the Food and Drug Administration made of the fees collected during such fiscal year for which the report is made.

(c) COMMITTEES.—The reports described in subsections (a) and (b) shall be submitted to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate.

SEC. 105. SUNSET.

The amendments made by section 103 shall not be in effect after October 1, 1997 and section 104 shall not be in effect after 120 days after such date.

SEC. 106. CONFORMING AMENDMENTS TO CHAPTER VII.

Chapter VII is amended—

(1) by striking out in the chapter heading "ADMINISTRATIVE PROVISIONS" and inserting in lieu thereof "AUTHORITY",

(2) by inserting before the section heading for section 701 the following:

"SUBCHAPTER A—GENERAL ADMINISTRATIVE PROVISIONS",

(3) by redesignating section 702A (21 U.S.C. 372a) as section 706 and by inserting it after section 705 (21 U.S.C. 375) and by redesignating section 712 (21 U.S.C. 379d) as section 711,

(4) by moving section 706 (21 U.S.C 376), as in effect on the date of the enactment of this Act, to the end of chapter VII, by redesignating the section as section 721, and by inserting before the section heading for the section the following:

"SUBCHAPTER B—COLORS",

(5) by inserting after section 721 (as so redesignated) the following:

"SUBCHAPTER C—FEES

"PART 1—FREEDOM OF INFORMATION FEES", and

(6) by inserting section 711 (21 U.S.C. 379c), as in effect on the date of the enactment of this Act, after the heading for part 1 of subchapter C and redesignating it as section 731.

SEC. 107. GENERAL CONFORMING AMENDMENTS.

To conform the Federal Food, Drug, and Cosmetic Act, to the amendments made to that Act by section 106(4), the following conforming amendments are made:

(1) Section 201(u) (21 U.S.C. 321(u)) is amended by striking out "706" and inserting in lieu thereof "721".

(2) Section 301(i)(1) (21 U.S.C. 331(i)(1)) is amended by striking out "706" and inserting in lieu thereof "721".

(3) Section 301(j) (21 U.S.C. 331(j)) is amended by striking out "706" and inserting in lieu thereof "721".

(4) Section 402(c) (21 U.S.C. 342(c)) is amended by striking out "706" and inserting in lieu thereof "721".

(5) Section 403(i) (21 U.S.C. 343(i)) is amended by striking out "706" and inserting in lieu thereof "721".

(6) Section 403(m) (21 U.S.C. 343(m)) is amended by striking out "706" and inserting in lieu thereof "721".

(7) Section 408(g) (21 U.S.C. 346a(g)) is amended by striking out "706" and inserting in lieu thereof "721".

(8) Section 501(a)(4) (21 U.S.C 351(a)(4)) is amended by striking out "706" each place it occurs and inserting in lieu thereof "721".

(9) Section 502(m) (21 U.S.C. 352(m)) is amended by striking out "706" and inserting in lieu thereof "721".

(10) Section 520(g)(2)(A) (21 U.S.C. 360j(g)(2)(A)) is amended by striking out "706" and by inserting in lieu thereof "721".

(11) Section 601(e) (21 U.S.C. 361(e)) is amended by striking out "706" and inserting in lieu thereof "721".

(12) Section 602(e) (21 U.S.C. 362(e)) is amended by striking out "706" and inserting in lieu thereof "721".

(13) Section 4(g)(2)(D) of the Poultry Products Inspection Act (21 U.S.C. 453(g)(2)(D)) is amended by striking out "706" and inserting in lieu thereof "721".

(14) Section 1(m)(2)(D) of the Federal Meat Inspection Act (21 U.S.C. 601(m)(2)(D)) is amended by striking out "706" and inserting in lieu thereof "721".

(15) Section 4(a)(2)(D) of the Egg Products Inspection Act (21 U.S.C. 1033(a)(2)(D)) is amended by striking out "706" and inserting in lieu thereof "721".

(16) Section 10(b) of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note) is amended—

(A) in paragraph (2)—

(i) by striking "(1) 24" and inserting "(A) 24"; and

(ii) by striking "(2) action" and inserting "(B) action";

(B) by indenting, and aligning the margins of, paragraph (2) so as to align with paragraph (1); and

(C) by indenting, and aligning the margins of, subparagraphs (A) and (B) of paragraph (2) (as so designated by subparagraph (A)) so as to align with the subpargraphs of paragraph (1).

(17) Section 10(c)(2)(A) of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note) (as amended by section 1 of the Act entitled "An Act to make Technical Amendments to the Nutrition Information and Labeling Act, and for other purposes", approved August 17, 1991 (Public Law 102–108; 105 Stat. 549) is amended by striking "706" and inserting "721".

SEC. 108. ANIMAL DRUG USER FEE STUDY.

(a) STUDY.—The Secretary, in consultation with manufacturers of animal drug products and other interested persons, shall undertake a study to evaluate whether, and under what conditions, to impose user fees to supplement appropriated funds in order to improve the process of reviewing applications (including abbreviated and supplemental applications) for new animal drugs under section 512 of the Federal Food, Drug, and Cosmetic Act. The study shall include—

(1) an assessment of the overall review process for animal drugs at the Center for Veterinary Medicine, including the number of applications received, and the average times for interim and final decisions on each type of application,

(2) the current allocation of funds to the animal drug review process,

(3) recommendations for goals for decision making times on applications submitted to the Center for Veterinary Medicine and for additional resources required to meet the goals, and

(4) recommendations for supplementing the resources for the animal drug review process through user fees.

(b) COMPLETION.—The results of the study required by subsection (a) shall be presented no later than January 4, 1994, to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate.

TITLE II—DIETARY SUPPLEMENTS

SEC. 201. SHORT TITLE.

This title may be cited as the "Dietary Supplement Act of 1992".

SEC. 202. PROHIBITION.

(a) IN GENERAL.—

(1) PROHIBITION ON IMPLEMENTATION.—Notwithstanding any other provision of law and except as provided in subsection (b) and in the amendment made by paragraph (2)(A), the Secretary of Health and Human Services may not implement the Nutrition Labeling and Education Act of 1990 (Public Law 101–535; 104 Stat. 2353), or any amendment made by such Act, earlier than December 15, 1993, with respect to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances.

(2) FEDERAL REGULATORY ACTION.—

(A) PROPOSED REGULATIONS.—The first sentence of section 2(b)(1), and the first sentence of section 3(b)(1)(A), of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note) are each amended by inserting before the period the following: ", except that the Secretary shall issue, not later than June 15, 1993, proposed regulations that are applicable to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances to implement such section".

(B) FINAL REGULATIONS.—

(i) ISSUANCE OF FINAL REGULATIONS.—The second sentence of section 2(b)(1), and section 3(b)(1)(B), of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note) are each amended by inserting before the period the following: ", except that the Secretary shall issue, not later than December 31, 1993, such a final regulation applicable to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances.".

(ii) REGULATIONS CONSIDERED TO BE FINAL.—The first sentence of section 2(b)(2), and the first sentence of section 3(b)(2), of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note) are each amended by inserting before the period the following: ", except that the proposed regulations applicable to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances shall not be considered to be final regulations until December 31, 1993".

(C) CONSTRUCTION.—The amendments made by subparagraph (B) shall not be construed to modify the effective date of final regulations under sections 2(b) and 3(b) of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note) with respect to foods that are not such dietary supplements.

(3) STATE ACTION.—Section 10(a)(1)(C) of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note) is amended by inserting before the comma the following: ", except that such amendments shall take effect with respect to such dietary supplements on December 31, 1993".

(4) PREEMPTION.—Section 10(b) of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note) is amended by adding at the end the following:

"(3) REQUIREMENTS PERTAINING TO CERTAIN CLAIMS.—Notwithstanding subparagraphs (D) and (E) of paragraph (1) and except with respect to claims approved in accordance with section 202(b) of the Dietary Supplement Act of 1992, the requirements described in paragraphs (4) and (5) of section 403A(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343–1(a) (4) and (5)) that pertain to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances shall not take effect until the date final regulations take effect to implement subsection (q) or (r), as appropriate, of section 403 of such Act with respect to such dietary supplements.".

(b) HEALTH CLAIMS.—Notwithstanding section 403(r)(5)(D) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343(r)(5)(D)) and subsection (a), the Secretary of Health and Human Services may, earlier than December 15, 1993, approve claims made with respect to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances that are claims described in clauses (vi) and (x) of section 3(b)(1)(A) of the Nutrition Labeling and Education Act of 1990 (21 U.S.C. 343 note).

SEC. 203. UNITED STATES RECOMMENDED DAILY ALLOWANCES.

Notwithstanding any other provision of Federal law, no regulations that require the use of, or are based upon, recommended daily allowances of vitamins or minerals may be promulgated before November 8, 1993 (other than regulations establishing the United States recommended daily allowances specified at section 101.9(c)(7)(iv) of title 21, Code of Federal Regulations, as in effect on October 6, 1992, or regulations under section 403(r)(1)(A) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343(r)(1)(A)) that are based on such recommended daily allowances).

SEC. 204. ENFORCEMENT REPORT.

(a) CONTENTS.—The Secretary of Health and Human Services shall prepare a report containing a statement of the enforcement priorities and practices of the Food and Drug Administration under section 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348) with respect to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances.

(b) REPORT.—Not later than 30 days after the date of enactment of this Act, the Secretary of Health and Human Services shall submit the report described in subsection (a) to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate.

SEC. 205. MANAGEMENT ACTIVITIES STUDY.

(a) STUDY.—The Comptroller General shall conduct a study of the management of activities of the Food and Drug Administration that are related to dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances.

(b) CONTENTS.—In conducting the study, the Comptroller General shall examine, with respect to such activities—

(1) the means by which the Food and Drug Administration makes a determination that a substance poses a risk to public health and safety that justifies the expenditure of resources by the agency;

(2) the means by which the Food and Drug Administration makes a determination that a substance is adulterated, misbranded, or improperly manufactured;

(3) the means by which the Food and Drug Administration makes a determination relating to the quantitative management of the agency response to specific issues, in order to adjust the efforts of the agency to be commensurate with the severity of the problem addressed by the agency;

(4) the approach by which the Food and Drug Administration determines the adequacy of proof related to the risk posed by, or the safety of, a substance, and the adequacy of such approach; and

(5) the relationship between—

(A)(i) the number of hours devoted by Food and Drug Administration personnel, and the expertise of such personnel, in conducting such activities;

(ii) the cost of conducting such activities; and

(iii) the cost to manufacturers of such supplements to achieve compliance with such activities; and

(B)(i) the level of risk suspected to be posed by such supplements; and

(ii) the level of risk determined to be posed by such supplements.

(c) APPROACH.—In conducting the study, the Comptroller General shall analyze the current practices of the Food and Drug Administration and the practices of the agency within the 5 years prior to the date of enactment of this Act.

(d) ANALYSIS.—In conducting the study, the Comptroller General shall—

(1) determine the relative proportion of resources devoted to Food and Drug Administration regulatory and enforcement activities that are related to—

(A) dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances;

(B) food additives that are not such dietary supplements;

(C) foods that are not such dietary supplements;

(D) drugs that are not such dietary supplements, and devices; or

(E) cosmetics; and

(2) determine, with respect to such supplements, with respect to food additives, and with respect to foods, the proportion of the resources devoted to such regulatory and enforcement activities that are used to—

(A) determine whether a substance is misbranded;

(B) determine whether an improper manufacturing practice occurred during the manufacturing of a substance;

(C) determine whether a substance is unsafe; and

(D) determine whether a substance is adulterated or otherwise in violation of the Federal Food, Drug, and Cosmetic Act (other than by making a determination described in subparagraph (A), (B), or (C)).

(e) REPORTS.—

(1) INTERIM REPORT.—

(A) IN GENERAL.—Not later than 6 months after the date of enactment of this Act, the Comptroller General shall prepare and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate an interim report containing the findings resulting from the study and the recommendations described in subparagraph (B).

(B) RECOMMENDATIONS.—Such report shall include the recommendations of the Comptroller General for administrative reform, including recommendations regarding opportunities for encouraging economy and efficiency through the appropriate targeting of problems, managing resources appropriately, and making adequate determinations of risk or safety, in carrying out activities related to such supplements.

(2) FINAL REPORT.—

(A) IN GENERAL.—Not later than 12 months after the date of enactment of this Act, the Comptroller General shall prepare and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate a final report containing the findings resulting from the study and the recommendations described in subparagraph (B).

(B) RECOMMENDATIONS.—Such report shall contain the recommendations described in paragraph (1)(B).

SEC. 206. SAFETY AND REGULATORY OUTCOMES STUDY.

(a) SAFETY STUDY.—The Director of the Office of Technology Assessment, in cooperation with the Congressional Research Service and subject to the approval of the Technology Assessment Board, shall conduct a study of the relationship between—

(1) regulatory systems affecting the development and sale of dietary supplements of vitamins, minerals, herbs, or other similar nutritional substances; and

(2) health outcomes.

(b) CONTENTS.—

(1) IN GENERAL.—In carrying out the study, the Director of the Office of Technology Assessment shall examine the efforts of industrialized nations (including the United States) to regulate the manufacture and sale of such dietary supplements and the effect of the regulatory efforts on human health.

(2) INFORMATION.—The study shall include information regarding—

(A) whether and how other countries regulate products that are regulated as such dietary supplements in the United States;

(B) the classification systems used in regulating such products, such as systems that classify such supplements by safety, function, source, usage, dose, or other characteristics;

(C) the effect of the classification on the regulation of the supplements;

(D) how safety concerns, including safety concerns at the time of manufacture and sale of the product are addressed by the regulatory process;

(E) how deception concerns (including misbranding) are addressed by the regulatory process; and

(F) the labeling requirements, if any, for the sale of the products.

(3) ANALYSIS.—The study shall also examine—

(A) whether there are disparate rates of morbidity and mortality associated with the consumption of such dietary supplements among nations;

(B) whether particular regulatory systems may be associated with lower morbidity and mortality rates; and

(C) whether a causal relationship may be demonstrated between the regulatory system used and the health outcomes of the populations affected.

(c) REPORT.—The Director of the Office of Technology Assessment shall, not later than 6 months after the date on which the study is approved by the Technology Assessment Board, submit a report containing the findings of the study to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

TELECOMMUNICATIONS AUTHORIZATION ACT OF 1992

Mr. MARKEY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 6180) to authorize appropriations for the National Telecommunications and Information Administration, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

Mr. RINALDO. Mr. Speaker, reserving the right to object, while I will not object, I take this reservation for the purpose of asking the gentleman from Massachusetts [Mr. MARKEY] to explain this piece of legislation.

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. RINALDO. I yield to the gentleman from Massachusetts.

Mr. MARKEY. Mr. Speaker, this bill, H.R. 6180, is a bill to authorize the National Telecommunications and Information Administration. This bill closely tracks legislation that passed the House unanimously last year affecting the NTIA and the FCC. The amendment to those bills makes a number of changes that I support, and that deserve the support of the House. It is my understanding that this has been approved by the minority.

This legislation would authorize $17.6 million for fiscal year 1992 and $17.9 million for fiscal year 1993 for the administration of the National Telecommunications and Information Administration. The bill also would codify the existence of the NTIA, and makes miscellaneous changes to the FCC.

Perhaps the most vital role of the NTIA for the national economy is its role as keeper of the Federal spectrum. This role is important because the better and more efficient the Government manages its spectrum, the more is available for private industry to use in exciting new ways. This bill recognizes that important job by setting down fundamental spectrum management principles, and also making clear that NTIA has the authority to properly manage the Government's use of the spectrum.

This legislation would also prohibit any officer or employee of the NTIA to solicit any gift from any entity for the purpose of furthering any authorized function if this solicitation were to create or appear to create a conflict of interest. These gifts may take the form of real or personal property, including money, that has been given to supplement the resources allotted to particular projects of the NTIA. I believe that solicitations such as these undermine the appropriations power of Congress, thus undermining the constitutional power of Congress to determine the activities of the Government. In addition, they have the effect of creating the appearance of a conflict of interest which detracts from the ability of NTIA to do its job effectively. For this reason, these kinds of solicitations should be clearly prohibited.

Finally, the bill includes an important provision that has the NTIA, in consultation with other Federal agencies, conduct a study of the use of modern telecommunications to spread messages of hate and bigotry. In light of the disturbing increase in our society of hate crimes, and of the use of electronic media to advocate violence against ethnic, religious, and racial minorities, the study will give us the information we need to intelligently review this situation. I expect the NTIA to reach out to other Government agencies and to media organizations, civil rights groups, and individuals outside of the Government to best accomplish the goal of comprehensively studying these insidious events. Meanwhile, I also expect NTIA to be sensitive to privacy concerns. This study would not give the Government license to engage in the surveillance of the public's actions, but it would give the Government a means of engaging in thorough research from all available sources that must be pursued on this important subject.

This legislation also includes a number of provisions affecting the Federal Communications Commission.

I commend my colleagues Mr. DINGELL and Mr. RINALDO for their work in putting together this legislation. I urge the House to approve this bill.

Mr. RINALDO. Mr. Speaker, I urge my colleagues to join me in supporting H.R. 6180, the National Telecommunications and Information Administration [NTIA] authorization bill. This bill is similar to the NTIA bill the House approved last October. Specifically, the bill provides authorizations of $17.6 and $17.9 million for fiscal years 1992 and 1993, respectively.

The NTIA plays a crucial role in setting domestic telecommunications policy. The agency coordinates telecommunications policymaking within the executive branch. Consequently, NTIA has become an important roleplayer in America's quest to be the world leader in the global telecommunications marketplace. Along with the Federal Communications Commission and the State Department, the NTIA is a member of a tripartite delegation that represents U.S. interests in international telecommunications negotiations.

Importantly, the bill also would provide the NTIA with statutory authority. Since 1978, NTIA has operated under the authority of an executive order issued during the Carter administration. Recently, the NTIA has been subject to an internal attempt to reorganize it. Had that attempt succeeded, the importance of the NTIA might have ultimately been downgraded within the Commerce Department. Codifying the authority of NTIA will guarantee that it will remain an effective voice within the executive branch for formulating and advancing U.S. telecommunications policy.

In addition to authorizing NTIA, this bill addresses several important matters that concern the FCC, such as extending the authorization for the FCC's Older American Program under which the Commission provides grants or enters into agreements with nonprofit groups to utilize the talents of older Americans.

The bill also clarifies the Commission's refund authority. It makes clear that the Commission has the authority to order refunds when a successful challenge is made to a tariffed rate change. It is intended that the modification authority be applied prospectively only, and should not influence pending cases.

The bill sets out the FCC's application fees for low-Earth orbit satellite systems. To assist the Commission to meet its increasing regulatory responsibilities given current budget constraints, the bill authorizes the Commission to accept gifts and requests of property.

Finally, in response to concerns raised during the Persian Gulf crisis, the bill directs the Commission to consider how to lower international telephone rates and procedures for U.S. Armed Forces serving abroad.

Mr. Speaker, I would like to commend my good friends, Messrs. DINGELL, LENT, and MARKEY, for their leadership on this issue. I, again, urge my colleagues to support the legislation.

Mr. LENT. Mr. Speaker, I rise in strong support of H.R. 6180, the NTIA organization and authorization bill, and urge the passage of this important measure. The bill provides for the authorization of $17.6 and $17.9 million in fiscal years 1992 and 1993, respectively.

I also strongly support the language which codifies the 1978 Executive order which created the NTIA. The NTIA has existed since its creation without statutory authority. In fact, there have been efforts in the past to reorganize the agency in a manner that would have seriously downgraded it.

For example, under one reorganization plan, the NTIA would have lost its direct access to the Secretary and instead would have reported through the undersecretary for technology. This legislation will give the NTIA the statutory authority it needs and deserves.

In addition to authorizing NTIA, this bill addresses several administrative matters within the FCC, such as extending the authorization for the FCC's Older Americans Program.

The bill also sets out the FCC's application fees for low-Earth orbit satellite systems and authorizes the Commission to accept gifts and bequests of property. Finally, the bill directs the Commission to conduct a study of telephone rates and procedures for U.S. Armed forces serving abroad. This is intended to correct problems that the men and women of our Armed forces faced during the Persian Gulf crisis.

Once again, I urge my colleagues to join me in supporting H.R. 6180.

Mr. RINALDO. Mr. Speaker, I have no objection to this request, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The Clerk read the bill, as follows:

H.R. 6180

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Telecommunications Authorization Act of 1992".

TITLE I—NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

Part A—Organization and Functions

SEC. 101. SHORT TITLE.

This title may be cited as the "National Telecommunications and Information Administration Organization Act".

SEC. 102. DEFINITIONS; FINDINGS; POLICY.

(a) DEFINITIONS.—In this title, the following definitions apply:

(1) The term "NTIA" means the National Telecommunications and Information Administration.

(2) The term "Assistant Secretary" means the Assistant Secretary for Communications and Information.

(3) The term "Secretary" means the Secretary of Commerce.

(4) The term "Commission" means the Federal Communications Commission.

(5) The term "Corporation" means the Communications Satellite Corporation authorized in title III of the Communications Satellite Act of 1962 (47 U.S.C. 731 et seq.).

(b) FINDINGS.—The Congress finds the following:

(1) Telecommunications and information are vital to the public welfare, national security, and competitiveness of the United States.

(2) Rapid technological advances being made in the telecommunications and information fields make it imperative that the United States maintain effective national and international policies and programs capable of taking advantage of continued advancements.

(3) Telecommunications and information policies and recommendations advancing the strategic interests and the international competitiveness of the United States are essential aspects of the Nation's involvement in international commerce.

(4) There is a critical need for competent and effective telecommunications and information research and analysis and national and international policy development, advice, and advocacy by the executive branch of the Federal Government.

(5) As one of the largest users of the Nation's telecommunications facilities and resources, the Federal Government must manage its radio spectrum use and other internal communications operations in the most efficient and effective manner possible.

(6) It is in the national interest to codify the authority of the National Telecommunications and Information Administration, an agency in the Department of Commerce, as the executive branch agency principally responsible for advising the President on telecommunications and information policies, and for carrying out the related functions it currently performs, as reflected in Executive Order 12046.

(c) POLICY.—The NTIA shall seek to advance the following policies:

(1) Promoting the benefits of technological development in the United States for all users of telecommunications and information facilities.

(2) Fostering national safety and security, economic prosperity, and the delivery of critical social services through telecommunications.

(3) Facilitating and contributing to the full development of competition, efficiency, and the free flow of commerce in domestic and international telecommunications markets.

(4) Fostering full and efficient use of telecommunications resources, including effective use of the radio spectrum by the Federal Government, in a manner which encourages the most beneficial uses thereof in the public interest.

(5) Furthering scientific knowledge about telecommunications and information.

SEC. 103. ESTABLISHMENT; ASSIGNED FUNCTIONS.

(a) ESTABLISHMENT.—

(1) ADMINISTRATION.—There shall be within the Department of Commerce an administration to be known as the National Telecommunications and Information Administration.

(2) HEAD OF ADMINISTRATION.—The head of the NTIA shall be an Assistant Secretary of Commerce for Communications and Information, who shall be appointed by the President, by and with the advice and consent of the Senate.

(b) ASSIGNED FUNCTIONS.—

(1) IN GENERAL.—Subject to section 105(d), the Secretary shall assign to the Assistant Secretary and the NTIA responsibility for the performance of the Secretary's communications and information functions.

(2) COMMUNICATIONS AND INFORMATION FUNCTIONS.—Subject to section 105(d), the functions to be assigned by the Secretary under paragraph (1) include (but are not limited to) the following functions transferred to the Secretary by Reorganization Plan Number 1 of 1977 and Executive Order 12046:

(A) The authority delegated by the President to the Secretary to assign frequencies to radio stations or classes of radio stations belonging to and operated by the United States, including the authority to amend, modify, or revoke such assignments, but not including the authority to make final disposition of appeals from frequency assignments.

(B) The authority to authorize a foreign government to construct and operate a radio station at the seat of Government of the United States, but only upon recommendation of the Secretary of State and after consultation with the Attorney General and the Chairman of the Commission.

(C) Functions relating to the communications satellite system, including authority vested in the President by section 201(a) of the Communications Satellite Act of 1962 (47 U.S.C. 721(a)) and delegated to the Secretary under Executive Order 12046, to—

(i) aid in the planning and development of the commercial communications satellite system and the execution of a national program for the operation of such a system;

(ii) conduct a continuous review of all phases of the development and operation of such system, including the activities of the Corporation;

(iii) coordinate, in consultation with the Secretary of State, the activities of governmental agencies with responsibilities in the field of telecommunications, so as to ensure that there is full and effective compliance at all times with the policies set forth in the Communications Satellite Act of 1962;

(iv) make recommendations to the President and others as appropriate, with respect to steps necessary to ensure the availability and appropriate utilization of the communications satellite system for general governmental purposes in consonance with section 201(a)(6) of the Communications Satellite Act of 1962 (47 U.S.C. 721(a)(6));

(v) help attain coordinated and efficient use of the electromagnetic spectrum and the technical compatibility of the communications satellite system with existing communications facilities both in the United States and abroad;

(vi) assist in the preparation of Presidential action documents for consideration by the President as may be appropriate under section 201(a) of the Communications Satellite Act of 1962 (47 U.S.C. 721(a)), make necessary recommendations to the President in connection therewith, and keep the President informed with respect to the carrying out of the Communications Satellite Act of 1962; and

(vii) serve as the chief point of liaison between the President and the Corporation.

(D) The authority to serve as the President's principal adviser on telecommunications policies pertaining to the Nation's economic and technological advancement and to the regulation of the telecommunications industry.

(E) The authority to advise the Director of the Office of Management and Budget on the development of policies relating to the procurement and management of Federal telecommunications systems.

(F) The authority to conduct studies and evaluations concerning telecommunications research and development and concerning the initiation, improvement, expansion, testing, operation, and use of Federal telecommunications systems and advising agencies of the results of such studies and evaluations.

(G) Functions which involve—

(i) developing and setting forth, in coordination with the Secretary of State and other interested agencies, plans, policies, and programs which relate to international telecommunications issues, conferences, and negotiations;

(ii) coordinating economic, technical, operational, and related preparations for United States participation in international telecommunications conferences and negotiations; and

(iii) providing advice and assistance to the Secretary of State on international telecommunications policies to strengthen the position and serve the best interests of the United States in support of the Secretary of State's responsibility for the conduct of foreign affairs.

(H) The authority to provide for the coordination of the telecommunications activities of the executive branch and assist in the formulation of policies and standards for those activities, including (but not limited to) considerations of interoperability, privacy, security, spectrum use, and emergency readiness.

(I) The authority to develop and set forth telecommunications policies pertaining to the Nation's economic and technological advancement and to the regulation of the telecommunications industry.

(J) The responsibility to ensure that the views of the executive branch on telecommunications matters are effectively presented to the Commission and, in coordination with the Director of the Office of Management and Budget, to the Congress.

(K) The authority to establish policies concerning spectrum assignments and use by radio stations belonging to and operated by the United States.

(L) Functions which involve—

(i) developing, in cooperation with the Commission, a comprehensive long-range plan for improved management of all electromagnetic spectrum resources;

(ii) performing analysis, engineering, and administrative functions, including the maintenance of necessary files and data bases, as necessary for the performance of assigned functions for the management of electromagnetic spectrum resources;

(iii) conducting research and analysis of electromagnetic propagation, radio systems characteristics, and operating techniques affecting the utilization of the electromagnetic spectrum in coordination with specialized, related research and analysis performed by other Federal agencies in their areas of responsibility; and

(iv) conducting research and analysis in the general field of telecommunications sciences in support of assigned functions and in support of other Government agencies.

(M) The authority to conduct studies and make recommendations concerning the impact of the convergence of computer and communications technology.

(N) The authority to coordinate Federal telecommunications assistance to State and local governments.

(O) The authority to conduct and coordinate economic and technical analyses of telecommunications policies, activities, and opportunities in support of assigned functions.

(P) The authority to contract for studies and reports relating to any aspect of assigned functions.

(Q) The authority to participate, as appropriate, in evaluating the capability of telecommunications resources, in recommending remedial actions, and in developing policy options.

(R) The authority to participate with the National Security Council and the Director of the Office of Science and Technology Policy as they carry out their responsibilities under sections 4-1, 4-2, and 4-3 of Executive Order 12046, with respect to emergency functions, the national communication system, and telecommunications planning functions.

(S) The authority to establish coordinating committees pursuant to section 10 of Executive Order 11556.

(T) The authority to establish, as permitted by law, such interagency committees and working groups composed of representatives of interested agencies and consulting with such departments and agencies as may be necessary for the effective performance of assigned functions.

(3) Additional communications and information functions.—In addition to the functions described in paragraph (2), the Secretary under paragraph (1)—

(A) may assign to the NTIA the performance of functions under section 504(a) of the Communications Satellite Act of 1962 (47 U.S.C. 753(a)); and

(B) shall assign to the NTIA the administration of the Public Telecommunications Facilities Program under sections 390 through 393 of the Communications Act of 1934 (47 U.S.C. 390-393), and the National Endowment for Children's Educational Television under section 394 of the Communications Act of 1934 (47 U.S.C. 394).

SEC. 104. SPECTRUM MANAGEMENT ACTIVITIES.

(a) Revision of Regulations.—Within 180 days after the date of the enactment of this Act, the Secretary of Commerce and the NTIA shall amend the Department of Commerce spectrum management document entitled "Manual of Regulations and Procedures for Federal Radio Frequency Management" to improve Federal spectrum management activities and shall publish in the Federal Register any changes in the regulations in such document.

(b) Requirements for Revisions.—The amendments required by subsection (a) shall—

(1) provide for a period at the beginning of each meeting of the Interdepartmental Radio Advisory Committee to be open to the public to make presentations and receive advice, and provide the public with other meaningful opportunities to make presentations and receive advice;

(2) include provisions that will require (A) publication in the Federal Register of major policy proposals that are not classified and that involve spectrum management, and (B) adequate opportunity for public review and comment on those proposals;

(3) include provisions that will require publication in the Federal Register of major policy decisions that are not classified and that involve spectrum management;

(4) include provisions that will require that nonclassified spectrum management information be made available to the public, including access to electronic databases; and

(5) establish procedures that provide for the prompt and impartial consideration of requests for access to Government spectrum by the public, which procedures shall include provisions that will require the disclosure of the status and ultimate disposition of any such request.

(c) Certification to Congress.—Not later than 180 days after the date of enactment of this Act, the Secretary of Commerce shall certify to Congress that the Secretary has complied with this section.

(d) Radio Services.—

(1) Assignments for radio services.—In assigning frequencies for mobile radio services and other radio services, the Secretary of Commerce shall promote efficient and cost-effective use of the spectrum to the maximum extent feasible.

(2) Authority to withhold assignments.—The Secretary of Commerce shall have the authority to withhold or refuse to assign frequencies for mobile radio service or other radio service in order to further the goal of making efficient and cost-effective use of the spectrum.

(3) Spectrum plan.—By October 1, 1993, the Secretary of Commerce shall adopt and commence implementation of a plan for Federal agencies with existing mobile radio systems to use more spectrum-efficient technologies that are at least as spectrum-efficient and cost-effective as readily available commercial mobile radio systems. The plan shall include a time schedule for implementation.

(4) Report to congress.—By October 1, 1993, the Secretary of Commerce shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report summarizing the plan adopted under paragraph (3), including the implementation schedule for the plan.

SEC. 105. GENERAL ADMINISTRATIVE PROVISIONS.

(a) Interagency Functions.—

(1) Agency consultation.—Federal agencies shall consult with the Assistant Secretary and the NTIA to ensure that the conduct of telecommunications activities by such agencies is consistent with the policies developed under section 103(b)(2)(K).

(2) Report to president.—The Secretary shall timely submit to the President each year the report (including evaluations and recommendations) provided for in section 404(a) of the Communications Satellite Act of 1962 (47 U.S.C. 744(a)).

(3) Coordination with secretary of state.—The Secretary shall coordinate with the Secretary of State the performance of the functions described in section 103(b)(2)(C). The Corporation and concerned executive agencies shall provide the Secretary with such assistance, documents, and other cooperation as will enable the Secretary to carry out those functions.

(b) Advisory Committees and Informal Consultations With Industry.—To the extent the Assistant Secretary deems it necessary to continue the Interdepartmental Radio Advisory Committee, such Committee shall serve as an advisory committee to the Assistant Secretary and the NTIA. As permitted by law, the Assistant Secretary may establish one or more telecommunications or information advisory committees (or both) composed of experts in the telecommunications and/or information areas outside the Government. The NTIA may also informally consult with industry as appropriate to carry out the most effective performance of its functions.

(c) General Provisions.—

(1) Regulations.—The Secretary and NTIA shall issue such regulations as may be necessary to carry out the functions assigned under this title.

(2) Support and assistance from other agencies.—All executive agencies are authorized and directed to cooperate with the NTIA and to furnish it with such information, support, and assistance, not inconsistent with law, as it may require in the performance of its functions.

(3) Effect on vested functions.—Nothing in this title reassigns any function that is, on the date of enactment of this Act, vested by law or executive order in the Commission, or the Department of State, or any officer thereof.

(d) Reorganization.—

(1) Authority to reorganize.—Subject to paragraph (2), the Secretary may reassign to another unit of the Department of Commerce a function (or portion thereof) required to be assigned to the NTIA by section 103(b).

(2) Limitation on authority.—The Secretary may not make any reassignment of a function (or portion thereof) required to be assigned to the NTIA by section 103(b) unless the Secretary submits to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a statement describing the proposed reassignment and containing an explanation of the reasons for the reassignment. No reassignment of any such function (or portion thereof) shall be effective until 90 legislative days after the Secretary submits that statement to such Committees. For purposes of this paragraph, the term "legislative days" includes only days on which both Houses of Congress are in session.

(e) Limitation on Solicitations.—Notwithstanding section 1 of the Act of October 2, 1964 (15 U.S.C. 1522), neither the Secretary, the Assistant Secretary, nor any officer or employee of the NTIA shall solicit any gift or bequest of property, both real and personal, from any entity for the purpose of furthering the authorized functions of the NTIA if such solicitation would create a conflict of interest or an appearance of a conflict of interest.

Part B—Special and Temporary Provisions

SEC. 131. AUTHORIZATION OF APPROPRIATIONS FOR ADMINISTRATION.

There are authorized to be appropriated for the administration of the NTIA $17,600,000 for fiscal year 1992 and $17,900,000 for fiscal year 1993, and such sums as may be necessary for increases resulting from adjustments in salary, pay, retirement, other employee benefits required by law, and other nondiscretionary costs.

SEC. 132. NATIONAL ENDOWMENT FOR CHILDREN'S EDUCATIONAL TELEVISION.

Section 394(h) of the Communications Act of 1934 (47 U.S.C. 394(h)) is amended—

(1) by striking "1991 and" and inserting in lieu thereof "1991,"; and

(2) by inserting ", $5,000,000 for fiscal year 1993, and $6,000,000 for fiscal year 1994" immediately after "1992".

SEC. 133. PEACESAT PROGRAM.

(a) FINDINGS.—Section 2(a) of the Act entitled "An Act to authorize appropriations for activities of the National Telecommunications and Information Administration for Fiscal Years 1990 and 1991", approved November 15, 1990 (Public Law 101-555; 104 Stat. 2758), is amended—

(1) in paragraph (2) by striking "the Soviet Union and";

(2) in paragraph (8)—

(A) by striking "since 1988, significant progress has been" and inserting in lieu thereof "in fiscal years 1988 and 1989, significant progress was"; and

(B) by striking "negotiating to acquire" and inserting in lieu thereof "acquiring"; and

(3) by striking all after paragraph (8) and inserting in lieu thereof the following new paragraphs:

"(9) because these activities exhausted the funds previously appropriated for the PEACESAT program, Congress authorized to be appropriated $1,000,000 for fiscal year 1990 and such sums as necessary for fiscal year 1991 for use by the Secretary of Commerce in the negotiation for and acquisition of satellite capacity and equipment under subsection (c)(1) of this section and the management and operation of satellite communications services under subsection (c)(2) of this section;

"(10) while no funds were appropriated for fiscal year 1990 because of the availability of carry-over funds, Congress appropriated $1,000,000 for fiscal year 1991 for the ongoing maintenance and operation of the GOES-3 satellite, for the administration of the PEACESAT program, for the acquisition and installation of earth stations and the training of engineers to operate the Earth stations, and for the study of a long-term solution to the satellite needs of the PEACESAT program;

"(11) with these funds, the PEACESAT program has been reestablished, over 20 new Earth terminals have been installed (some at the expense of the individual user groups), and the use of the PEACESAT network is expanding;

"(12) while the PEACESAT program has now been reestablished, additional funding continues to be necessary for the ongoing administrative and operational expenses of the PEACESAT program and especially for the acquisition of satellite capacity after 1994;

"(13) the importance of the PEACESAT program to the educational and cultural communications in the Pacific Ocean region makes it imperative that the Secretary of Commerce and the PEACESAT users explore every available option for long-term satellite capacity, including the possibility of using foreign-owned satellites or engaging in joint ventures with foreign entities to satisfy these long-term needs for transmission capacity; and

"(14) whether or not a domestic or foreign-owned satellite is used for transmission, it is essential to the achievement of United States policy goals that the headquarters, management, and operation of the PEACESAT program be located and conducted in the United States.".

(b) AUTHORIZATION.—The first sentence of section 2(d) of such Act of November 15, 1990 (104 Stat. 2758), is amended by striking all through "fiscal year 1991" and inserting in lieu thereof "There are authorized to be appropriated $400,000 for fiscal year 1992 and $1,500,000 for fiscal year 1993".

SEC. 134. COMMUNICATIONS FOR RURAL HEALTH PROVIDERS.

(a) PURPOSE.—It is the purpose of this section to improve the ability of rural health providers to use communications to obtain health information and to consult with others concerning the delivery of patient care. Such enhanced communications ability may assist in—

(1) improving and extending the training of rural health professionals; and

(2) improving the continuity of patient care in rural areas.

(b) ADVISORY PANEL.—The Secretary of Commerce, in conjunction with the Secretary of Health and Human Services, shall establish an advisory panel (hereafter in this section referred to as the "Panel") to develop recommendations for the improvement of rural health care through the collection of information needed by providers and the improvement in the use of communications to disseminate such information.

(c) COMPOSITION OF PANEL.—The Panel shall be composed of individuals from organizations with rural constituencies and practitioners from health care disciplines, representatives of the National Library of Medicine, and representatives of different health professions schools, including nurse practitioners.

(d) SELECTION OF CONSULTANTS.—The Panel may select consultants to provide advice to the Panel regarding the types of information that rural health care practitioners need, the procedures to gather and disseminate such information, and the types of communications equipment and training needed by rural health care practitioners to obtain access to such information.

(e) REPORT TO CONGRESS.—Not later than 1 year after the Panel is established under subsection (b), the Secretary of Commerce shall prepare and submit, to the Committee on Commerce, Science, and Transportation and the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, a report summarizing the recommendations made by the Panel under subsection (b).

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary of Commerce to carry out this section $1,000,000 to remain available until expended.

SEC. 135. REPORT ON THE ROLE OF TELECOMMUNICATIONS IN HATE CRIMES.

(a) REQUIREMENT OF REPORT.—Within 240 days after the date of enactment of this Act, the NTIA, with the assistance of the Commission, the Department of Justice, and the United States Commission on Civil Rights, shall prepare a report on the role of telecommunications in crimes of hate and violent acts against ethnic, religious, and racial minorities and shall submit such report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

(b) SCOPE OF REPORT.—The report required by subsection (a) shall—

(1) analyze information on the use of telecommunications, including broadcast television and radio, cable television, public access television, computer bulletin boards, and other electronic media, to advocate and encourage violent acts and the commission of crimes of hate, as described in the Hate Crimes Statistics Act (28 U.S.C. 534), against ethnic, religious, and racial minorities.

(2) include any recommendations deemed appropriate and necessary by the NTIA.

TITLE II—FEDERAL COMMUNICATIONS COMMISSION

SEC. 201. TRAVEL REIMBURSEMENT PROGRAM.

Section 4(g)(2)(D) of the Communications Act of 1934 (47 U.S.C. 154(g)(2)(D)) is amended by striking "1992" and inserting in lieu thereof "1994".

SEC. 202. HAWAII MONITORING STATION.

Section 9(a) of the Federal Communications Commission Authorization Act of 1988 (Public Law 100-594; 102 Stat. 3024) is amended by striking "1989, 1990, 1991, and 1992" and inserting in lieu thereof "1991, 1992, 1993, and 1994".

SEC. 203. CLARIFICATION OF COMMISSION REFUND AUTHORITY.

Section 204(a)(1) of the Communications Act of 1934 (47 U.S.C. 204(a)(1)) is amended—

(1) by striking "an increased charge" and inserting in lieu thereof "a revised charge";

(2) by striking "or increased" and inserting in lieu thereof "or revised";

(3) by striking "increased charges" and inserting in lieu thereof "revised charges";

(4) by striking "charge increased, or sought to be increased" and inserting in lieu thereof "new or revised charge, or a proposed new or revised charge"; and

(5) by striking "increased charge" and inserting in lieu thereof "new or revised charge".

SEC. 204. ELECTRONIC FILING OF APPLICATIONS.

(a) WAIVER OF FREQUENCY OR SPECTRUM CLAIM.—Section 304 of the Communications Act of 1934 (47 U.S.C. 304) is amended by striking "signed a waiver of" and inserting in lieu thereof "waived".

(b) SIGNING OF LICENSE APPLICATIONS.—Section 308(b) of the Communications Act of 1934 (47 U.S.C. 308(b)) is amended by inserting "in any manner or form, including by electronic means, as the Commission may prescribe by regulation" immediately before the period at the end.

(c) SIGNING OF CONSTRUCTION PERMIT APPLICATIONS.—Section 319(a) of the Communications Act of 1934 (47 U.S.C. 319(a)) is amended by inserting "in any manner or form, including by electronic means, as the Commission may prescribe by regulation" immediately before the period at the end.

SEC. 205. LICENSED OPERATORS.

Section 318 of the Communications Act of 1934 (47 U.S.C. 318) is amended—

(1) by striking "(3) stations engaged in broadcasting other than those engaged primarily in the function of rebroadcasting the signals of broadcast stations)"; and

(2) by striking "(4)" and inserting in lieu thereof "(3)".

SEC. 206. STATUTE OF LIMITATIONS FOR FORFEITURE PROCEEDINGS.

Section 503(b)(6) of the Communications Act of 1934 (47 U.S.C. 503(b)(6)) is amended—

(1) by striking "so long as such violation occurred within 3 years prior to the date of issuance of such required notice"; and

(2) by adding at the end the following: "For purposes of this paragraph, 'date of commencement of the current term of such license' means the date of commencement of the last term of license for which the licensee has been granted a license by the Commission. A separate license term shall not be deemed to have commenced as a result of continuing a license in effect under section 307(c) pending decision on an application for renewal of the license.".

SEC. 207. TELEPHONE OPERATOR SERVICES.

Section 226(d)(4)(A) of the Communications Act of 1934 (47 U.S.C. 226(d)(4)(A)) is amended by inserting "and aggregators" immediately after "operator services".

SEC. 208. GIFT AND BEQUEST AUTHORITY.

Section 4(g) of the Communications Act of 1934 (47 U.S.C. 154(g)) is amended by adding at the end the following new paragraph:

"(3)(A) Notwithstanding any other provision of law, in furtherance of its functions the Commission is authorized to accept, hold, administer, and use unconditional gifts, donations, and bequests of real, personal, and other property (including voluntary and uncompensated services, as authorized by section 3109 of title 5, United States Code).

"(B) The Commission, for purposes of providing radio club and military-recreational call signs, may utilize the voluntary, uncompensated, and unreimbursed services of amateur radio organizations authorized by the Commission that have tax-exempt status under section 501(c)(3) of the Internal Revenue Code of 1986.

"(C) For the purpose of Federal law on income taxes, estate taxes, and gift taxes, property or services accepted under the authority of subparagraph (A) shall be deemed to be a gift, bequest, or devise to the United States.

"(D) The Commission shall promulgate regulations to carry out the provisions of this paragraph. Such regulations shall include provisions to preclude the acceptance of any gift, bequest, or donation that would create a conflict of interest or the appearance of a conflict of interest.".

SEC. 209. CHANGES TO SCHEDULE OF CHARGES.

(a) Fees for Low-Earth Orbit Satellite Systems.—The Schedule of Charges under section 8(g) of the Communications Act of 1934 (47 U.S.C. 158(g)) is amended by adding at the end of the matter under the heading "Common Carrier Services" the following:

"22. Low-Earth Orbit Satellite Systems	
a. Application for Authority to Construct (per system of technology identical satellites)	6,000.00
b. Application for Authority to Launch and Operate (per system of technologically identical satellites)	210,000.00
c. Assignment or Transfer (per request)	6,000.00
d. Modification (per request)	15,000.00
e. Special Temporary Authority or Waiver of Prior Construction Authorization (per request)	1,500.00
f. Amendment of Application (per request)	3,000.00
g. Extension of Construction Permit/Launch Authorization (per request)	1,500.00".

(b) Fee for Inspection of Great Lakes Vessels.—The matter under the heading "Miscellaneous Charges" in the Schedule of Charges for section 8(g) of the Communications Act of 1934 (47 U.S.C. 158(g)) is amended by striking "360.00" in item 3.c. (relating to the inspection of vessels under the Great Lakes Agreement) and inserting in lieu thereof "75.00".

SEC. 210. TOWER SAFETY ACCOUNTABILITY.

(a) Liability Extended to Tower Owners.—Section 303(q) of the Communications Act of 1934 (47 U.S.C. 303(q)) is amended by inserting ", and the tower owner in any case in which the owner is not the permittee or licensee," immediately after "permittee or licensee".

(b) Liability for Forfeiture.—Section 503(b)(5) of the Communications Act of 1934 (47 U.S.C. 503(b)(5)) is amended—

(1) by striking "system operator or" and inserting in lieu thereof "system operator,"; and

(2) by inserting ", or in the case of violations of section 303(q), if the person involved is a nonlicensee tower owner who has previously received notice of the obligations imposed by section 303(q) from the Commission or the permittee or licensee who uses that tower" immediately after "section 307(e)".

(c) Effective Date.—The amendments made by subsection (a) shall take effect 30 days after the date of enactment of this Act.

SEC. 211. REVIEW OF LICENSE TRANSFER.

(a) Requirement for Hearing.—The Federal Communications Commission shall not approve any assignment or transfer of control of a license held by any corporation identified in subsection (b) without first holding a full hearing on the record, with notice and opportunity for comment.

(b) Applicability.—Subsection (a) applies to any corporation holding a television broadcast license, the transfer of which was approved by the Federal Communications Commission on November 14, 1985, and which is a corporation owned or controlled directly or indirectly by a corporation organized pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).

(c) Report to Congress.—The Federal Communications Commission shall submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate concerning the proposed transfer 30 days prior to authorizing any such transfer. The report required by this subsection shall include a review of the consistency of such transfer with the Commission's minority ownership policies.

(d) Waiver.—The requirements of subsections (a) and (c) shall not apply in any case in which the Native Regional corporation identified in subsection (b) requests in writing that this section be waived by the Federal Communications Commission.

SEC. 212. COMMUNICATIONS SUPPORT FROM OLDER AMERICANS.

(a) Authority for Grants and Cooperative Agreements.—Section 6(a) of the Federal Communications Commission Authorization Act of 1988 (47 U.S.C. 154 note) is amended—

(1) by striking "1988, 1989, 1990, and 1991" and inserting in lieu thereof "1992 and 1993"; and

(2) by inserting "designated by the Secretary of Labor under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 et seq.)" immediately after "private nonprofit organizations".

(b) Certification.—Section 6(b) of the Federal Communications Commission Authorization Act of 1988 (47 U.S.C. 154 note) is amended—

(1) by adding "or" at the end of paragraph (2);

(2) by striking paragraph (3); and

(3) by redesignating paragraph (4) as paragraph (3).

SEC. 213. TELEPHONE RATES FOR MEMBERS OF ARMED FORCES DEPLOYED ABROAD.

(a) In General.—The Federal Communications Commission shall make efforts to reduce telephone rates for Armed Forces personnel in the following countries: Germany, Japan, Korea, Saudi Arabia, Great Britain, Italy, Philippines, Panama, Spain, Turkey, Iceland, the Netherlands, Greece, Cuba, Belgium, Portugal, Bermuda, Diego Garcia, Egypt, and Honduras.

(b) Factors to Consider.—In making the efforts described in subsection (a), the Federal Communications Commission, in coordination with the Department of Defense, Department of State, and the National Telecommunications and Information Administration shall consider the cost to military personnel and their families of placing telephone calls by—

(1) evaluating and analyzing the costs to Armed Forces personnel of such telephone calls to and from American military bases abroad;

(2) evaluate methods of reducing the rates imposed on such calls;

(3) determine the extent to which it is feasible for the Federal Communications Commission to encourage the carriers to adopt flexible billing procedures and policies for members of the Armed Forces and their families for telephone calls to and from the countries listed in subsection (a); and

(4) advise executive branch agencies of methods for the United States to persuade foreign governments to reduce the surcharges that are often placed on such telephone calls.

SEC. 214. AM RADIO IMPROVEMENT STANDARD.

The Federal Communications Commission shall—

(1) within 60 days after the date of enactment of this Act, initiate a rulemaking to adopt a single AM radio stereophonic transmitting equipment standard that specifies the composition of the transmitted stereophonic signal; and

(2) within one year after such date of enactment, adopt such standard.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

REQUEST FOR CONSIDERATION OF H.R. 3047, SECURITIES EXCHANGE ACT OF 1934 AMENDMENTS

Mr. MARKEY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3047) to amend the Securities Exchange Act of 1934 to permit members of the national securities exchanges to effect certain transactions with respect to accounts for which such members exercise investment discretion, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

Mr. RINALDO, Mr. Speaker, reserving the right to object, and while I will not object, I want to take this opportunity to ask the chairman of the subcommittee two things; first of all, to explain what is in this particular piece of legislation; and, second, to explain for the benefit of the leadership on this side of the aisle whether or not this bill has currently been cleared with the Senate because I understand that earlier it was removed from the list of acceptable bills because it was being held up by the Senate.

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. RINALDO. I yield to the gentleman from Massachusetts.

Mr. MARKEY. Mr. Speaker, the bill has been cleared by the Senate majority leader for action.

PARLIAMENTARY INQUIRY

Mr. MARKEY. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his inquiry.

Mr. MARKEY. When would it be appropriate for me to offer an amendment?

Mr. RINALDO. Further reserving the right to object, has the bill been cleared by the minority in the Senate?

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. RINALDO. I yield to the gentleman from Massachusetts.

Mr. MARKEY. Mr. Speaker, we have no information on that subject.

Mr. WALKER. Mr. Speaker, I object.

The SPEAKER pro tempore. Objection is heard.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken later today.

CONFERENCE REPORT ON H.R. 3635, PREVENTIVE HEALTH AMENDMENTS OF 1991

Mr. WAXMAN. Mr. Speaker, I move to suspend the rules and agree to the conference report on the bill (H.R. 3635) to amend the Public Health Service Act to revise and extend the program of block grants for preventive health and health services, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California [Mr. WAXMAN] will be recognized for 20 minutes, and the gentleman from New York [Mr. LENT] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. WAXMAN].

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this conference report is to revise and extend a number of authorities regarding preventive health services. These include: The preventive health block grant, screening of children for lead poisoning, injury control, adolescent health, prevention of infertility, immunizations, screening for prostate cancer, prevention of infant mortality, and the study of birth defects.

In addition, this bill authorizes the creation of a nonprofit foundation for public health services.

I know of no opposition to this important legislation. I urge its adoption.

GENERAL LEAVE

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 3635.

The SPEAKER pro tempore. If there is objection to the request of the gentleman from California?

There was no objection.

□ 0520

Mr. LENT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the conference report, and I thank the chairman and the chairman of the Subcommittee on Health and the Environment for their cooperative efforts in the development of a truly bipartisan bill.

This bill reauthorizes some of those small but powerful Federal programs for which we are always on the lookout. It does not cost tens of billions of dollars. It does not set in place hundreds of bureaucratic fiefdoms. And yet, it can accomplish an enormous amount of good.

These preventive health and health promotion programs are structured and funded cooperatively by the Federal Government and the States. In particular, the block grant program leverages State, local and private funding with Federal dollars to ensure that some of the States' highest priority health promotion objectives are met. In many States, it is only because of the availability of these funds that States can conduct major disease prevention initiatives, and can educate their citizens about how to prevent injury, about the importance of childhood immunization, and about avoiding or controlling risk factors for diseases such as cancer and heart disease.

I am especially pleased that this bill requires that priority setting with respect to the block grant be tied to the national health objectives defined in the report "Healthy People 2000." The reporting of baseline data, and progress toward these objectives will be an essential part of the information base we need nationally to make greater progress in the promotion of health.

Positive action on this conference report is one important step in the enormous task of controlling health care costs. Disease prevention and health promotion are relatively inexpensive, as compared with the cost of treating both acute and chronic illnesses. While estimates vary greatly, it is certain that for every dollar spent on prevention hundreds or thousands are saved in health care costs. This is a bill where to say "An ounce of prevention is worth a pound of cure" is not a cliche.

Finally, Mr. Speaker, I want to express my gratitude to our health staff on the Energy and Commerce Committee for their work on this bill and on many other public health bills we have dealt with in these last few weeks. I am especially grateful for the continuing support and dedication of Howard Cohen and Melody Hughson. On this bill particularly Howard and Melody have worked cooperatively and successfully with David Keaney of the majority staff, and Tim Westmoreland and Ruth Katz of the subcommittee staff. I thank them for their help.

Mr. Speaker, I support this legislation, and I urge my colleagues to support it.

Mr. Speaker, I have no further requests, and I yield back the balance of my time.

Mr. WAXMAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from California [Mr. WAXMAN] that the House suspend the rules and agree to the conference report on the bill, H.R. 3635.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the conference report was agreed to.

A motion to reconsider was laid on the table.

DNA IDENTIFICATION ACT OF 1992

Mr. EDWARDS of California. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3088) to amend title I of the Omnibus Crime Control and Safe Streets Act of 1968 to authorize funds received by States and units of local government to be expended to improve the quality and availability of DNA records; to authorize the establishment of a DNA identification index; and for other purposes; as amended.

The Clerk read as follows:

H.R. 3088

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "DNA Identification Act of 1992".

SEC. 2. FUNDING TO IMPROVE THE QUALITY AND AVAILABILITY OF DNA ANALYSES FOR LAW ENFORCEMENT IDENTIFICATION PURPOSES.

(a) DRUG CONTROL AND SYSTEM IMPROVEMENT GRANT PROGRAM.—Section 501(b) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3751(b)) is amended—

(1) in paragraph (20) by striking "and" at the end,

(2) in paragraph (21) by striking the period at the end and inserting "; and", and

(3) by adding at the end the following:

"(22) developing or improving in a forensic laboratory a capability to analyze deoxyribonucleic acid (hereinafter in this title referred to as 'DNA') for identification purposes.".

(b) STATE APPLICATIONS.—Section 503(a) of title I of the Omnibus Crime Control and Safe Streets Act of 1986 (42 U.S.C. 3753(a)) is amended by adding at the end thereof the following new paragraph:

"(12) If any part of a grant made under this part is to be used to develop or improve a

DNA analysis capability in a forensic laboratory, a certification that—

"(A) DNA analyses performed at such laboratory will satisfy or exceed then current standards of a quality assurance program for DNA analysis, issued by the Director of the Federal Bureau of Investigation under section 3 of the DNA Identification Act of 1992;

"(B) DNA samples obtained by, and DNA analyses performed at, such laboratory will be accessible only—

"(i) to criminal justice agencies for law enforcement identification purposes;

"(ii) for criminal defense purposes, to a defendant, who shall have access to samples and analyses performed in connection with the case in which such defendant is charged; or

"(iii) if personally identifiable information is removed, for a population statistics database, for identification research and protocol development purposes, or for quality control purposes; and

"(C) such laboratory, and each analyst performing DNA analyses at such laboratory, will undergo, at regular intervals of not to exceed 180 days, external proficiency testing by a DNA proficiency testing program meeting the standards issued under section 3 of the DNA Identification Act of 1992.".

(c) Authorization of Appropriations.—Section 1001(a) of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 379(a)) is amended—

(1) by redesignating the last 3 paragraphs sequentially as paragraphs (7), (8), and (9); and

(2) by adding at the end the following:

(10) There are authorized to be appropriated for each of the fiscal years 1993 through 1997 $10,000,000 for grants to the States for DNA analysis.".

SEC. 3. QUALITY ASSURANCE AND PROFICIENCY TESTING STANDARDS.

(a) Publication of Quality Assurance and Proficiency Testing Standards.—(1) Not later than 180 days after the date of the enactment of this Act, the Director of the Federal Bureau of Investigation shall appoint an advisory board on DNA quality assurance methods. The Director shall appoint members of the board from among nominations proposed by the head of the National Academy of Sciences and professional societies of crime laboratory officials. The advisory board shall include as members scientists from state and local forensic laboratories, molecular geneticists and population geneticists not affiliated with a forensic laboratory, and a representative from the National Institute of Standards and Technology. The advisory board shall develop, and if appropriate, periodically revise, recommended standards for quality assurance, including standards for testing the proficiency of forensic laboratories, and forensic analysts, in conducting analyses of DNA.

(2) The Director of the Federal Bureau of Investigation, after taking into consideration such recommended standards, shall issue (and revise from time to time) standards for quality assurance, including standards for testing the proficiency of forensic laboratories, and forensic analysts, in conducting analyses of DNA.

(3) The standards described in paragraphs (1) and (2) shall specify criteria for quality assurance and proficiency tests to be applied to the various types of DNA analyses used by forensic laboratories. The standards shall also include a system for grading proficiency testing performance to determine whether a laboratory is performing acceptably.

(4) Until such time as the advisory board has made recommendations to the Director of the Federal Bureau of Investigation and the Director has acted upon those recommendations, the quality assurance guidelines adopted by the technical working group on DNA analysis methods shall be deemed the Director's standards for purposes of this section.

(b) Administration of the Advisory Board.—For administrative purposes, the advisory board appointed under subsection (a) shall be considered an advisory board to the Director of the Federal Bureau of Investigation. Section 14 of the Federal Advisory Committee Act (5. U.S.C. App.) shall not apply with respect to the advisory board appointed under subsection (a). The board shall cease to exist on the date 5 years after the initial appointments are made to the board, unless the existence of the board is extended by the Director of the Federal Bureau of Investigation.

SEC. 4. INDEX TO FACILITATE LAW ENFORCEMENT EXCHANGE OF DNA IDENTIFICATION INFORMATION.

(a) In General.—The Director of the Federal Bureau of Investigation may establish an index of—

(1) DNA identification records of persons convicted of crimes;

(2) analyses of DNA samples recovered from crime scenes; and

(3) analyses of DNA samples recovered from unidentified human remains.

(b) Content of Index.—Such index may include only information on DNA identification records and DNA analyses that are—

(1) based on analyses performed in accordance with publicly available standards that satisfy or exceed the guidelines for a quality assurance program for DNA analysis, issued by the Director of the Federal Bureau of Investigation under section 3 of the DNA Identification Act of 1992;

(2) prepared by laboratories, and DNA analysts, that undergo, at regular intervals of not to exceed 180 days, external proficiency testing by a DNA proficiency testing program meeting the standards issued under section 3 of the DNA Identification Act of 1992; and

(3) maintained by Federal, State, and local criminal justice agencies pursuant to rules that allow disclosure of stored DNA samples and DNA analyses only—

(A) to criminal justice agencies for law enforcement identification purposes;

(B) for criminal defense programs, to a defendant, who shall have access to samples and analyses performed in connection with the case in which such defendant is charged; or

(C) if personally identifiable information is removed, for a population statistics database, for identification research and protocol development purposes, or for quality control purposes.

(c) The exchange of records authorized by this section is subject to cancellation if the quality control and privacy requirements described in subsection (b) of this section are not met.

SEC. 5. FEDERAL BUREAU OF INVESTIGATION

(a) Proficiency Testing Requirements.—

(1) Generally.—Personnel at the Federal Bureau of Investigation who perform DNA analyses shall undergo, at regular intervals of not to exceed 180 days, external proficiency testing by a DNA proficiency testing program meeting the standards issued under section 3(b). Within one year of the date of enactment of this Act, the Director of the Federal Bureau of Investigation shall arrange for periodic blind external tests to determine the proficiency of DNA analysis performed at the Federal Bureau of Investigation laboratory. As used in this paragraph, the term "blind external test" means a test that is presented to the laboratory through a second agency and appears to the analysts to involve routine evidence.

(2) Report.—For five years after the date of enactment of this Act, the Director of the Federal Bureau of Investigation shall submit to the Committees on the Judiciary of the House and Senate an annual report on the results of each of the tests referred to in paragraph (1).

(b) Privacy Protection Standards.—

(1) Generally.—Except as provided in paragraph (2), the results of DNA tests performed for a Federal law enforcement agency for law enforcement purposes may be disclosed only—

(A) to criminal justice agencies for law enforcement identification purposes; or

(B) for criminal defense purposes, to a defendant, who shall have access to samples and analyses performed in connection with the case in which such defendant is charged.

(2) Exception.—If personally identifiable information is removed, test results may be disclosed for a population statistics database, for identification research and protocol development purposes, or for quality control purposes.

(c) Criminal Penalty.—(1) Whoever—

(A) by virtue of employment or official position, has possession of, or access to, individually identifiable DNA information indexed in a database created or maintained by any Federal law enforcement agency; and

(B) willfully discloses such information in any manner to any person or agency not entitled to receive it; shall be fined not more than $100,000.

(2) Whoever, without authorization, willfully obtains DNA samples or individually identifiable DNA information indexed in a database created or maintained by any Federal law enforcement agency shall be fined not more than $100,000.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Federal Bureau of Investigation $2,000,000 for each of fiscal years 1993 through 1997 to carry out sections 3, 4, and 5 of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California [Mr. Edwards] will be recognized for 20 minutes, and the gentleman from California [Mr. Moorhead] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. Edwards].

Mr. EDWARDS of California. Mr. Speaker, I yield myself such time as I may consume.

The purpose of this bill is to promote the use of DNA technology for law enforcement purposes, and to establish minimum quality control and privacy standards for DNA tests.

The bill: Authorizes Federal funding for State and local governments to establish DNA crime labs. Establishes minimum quality control and privacy standards. Requires the FBI to issue standards for quality control. Requires the FBI to establish an advisory board of outside experts on DNA standards, and authorizes the FBI to establish a national index of DNA profiles of convicted offenders.

This legislation is an expansion of a bill first introduced by the gentleman

from New York [Mr. HORTON], who deserves much of the credit for this bill. The bill enjoys widespread support from law enforcement, including the FBI and the American Society of Crime Lab Directors.

DNA IDENTIFICATION ACT OF 1992

PURPOSE

The purpose of the DNA Identification Act of 1992 is to promote the use of DNA identification technology for law enforcement purposes, in accordance with appropriate quality control and privacy standards. The Act authorizes federal funding for state and local governments to establish or improve DNA forensic capabilities; requires grant recipients and the FBI laboratory to adhere to minimum quality control, proficiency testing and privacy standards; requires the FBI to establish a forensic DNA advisory policy board to provide the FBI with advice from a range of DNA experts, including scientists from outside the forensic field; and authorizes the FBI to establish a national index of DNA profiles of convicted offenders, pursuant to minimum quality control, proficiency testing and privacy standards.

BACKGROUND

Deoxyribonucleic acid (DNA) carries the genetic code of each human being. Since each person's DNA is unique, the DNA found in blood, skin tissue and semen offers law enforcement a means of identifying murderers, rapists, and other violent criminals. The recognition of DNA's value to law enforcement is quite recent, however. The first law enforcement use of DNA was in England in 1986. The first use in the United States was in Florida in 1987.

Forensic DNA technology has evolved rapidly and continues to evolve. Law enforcement agencies are now developing second and third generation techniques.

To be reliable, DNA tests must be properly performed and interpreted. Several courts have rejected DNA evidence because of reliability concerns and other have criticized laboratory procedures in cases before them. In 1990, the congressional Office of Technology Assessment issued a report concluding: "Standards are necessary if high-quality DNA forensic analysis is to be ensured, and the situation demands immediate attention." In 1992, the National Research Council issued a long-awaited report strongly emphasizing the need for comprehensive quality control programs at forensic DNA laboratories.

The forensic community has developed a consensus that DNA laboratories should adhere to a comprehensive quality control program including proficiency testing. The Federal Bureau of Investigation (FBI) has convened a technical working group on DNA analysis methods (TWGDAM), which has developed a set of quality control guidelines. The American Society of Crime Laboratory Directors (ASCLD) has also taken a strong position in support of quality assurance, proficiency testing and accreditation of DNA laboratories. However, compliance with the FBI protocols and the ASCLD program is strictly voluntary.

State ad local law enforcement agencies are rapidly developing their own DNA testing laboratories and looking to the federal government for potential financial support.

The FBI is designing a nationwide databank that would index DNA "profiles" of convicted offenders, based on DNA samples taken by state law enforcement and correctional authorities. If DNA in blood or semen recovered from a crime scene could be matched against the databanked DNA of prior offenders, a suspect could be identified where traditional methods had failed. However, as the OTA report noted, given the very nature of DNA, "proposals to store a person's genetic information in a national network evoke several concerns about privacy."

The purpose of the DNA Identification Act is to address these various issues of funding, standards, quality control and privacy. It is based on hearings held by the Subcommittee on Civil and Constitutional Rights on the forensic application of DNA on March 22, 1989 and June 13, 1991.

Quality control and reliability concerns

As with any technology, a laboratory's failure to work carefully when analyzing DNA can produce errors or questionable results. While DNA evidence has been accepted in numerous cases, it has often been accepted without a concerted challenge by defense exports and consequently without careful judicial scrutiny. Where there has been a careful scrutiny, the results have been mixed. DNA evidence has been rejected by several courts, and even courts accepting the evidence have raised questions about data quality or about the reliability of the probabilities associated with matches.

In *State* v. *Schwartz*, the Minnesota Supreme Court, while finding that the science underlying DNA testing had gained wide acceptance, concluded that the particular test results at issue were inadmissible because the laboratory did not follow appropriate quality control procedures and did not make its experimental studies available.

In the New York State murder trial of *People v. Castro*, a 12-week pretrial hearing was held, with extensive testimony from molecular biologists and genetic experts. The court concluded that the theories underlying DNA testing were valid, but the performance of the particular tests in the case was so flawed that the evidence could not be admitted.

In *United States v. Yee*, while admitting the DNA evidence after six weeks of pretrial hearings, the federal magistrate criticized what he called "the remarkably poor quality of the FBI's work and infidelity to important scientific principles." Among other problems, the court noted that the Bureau's "continued use of ethidium bromide invites sound scientific criticism," "the FBI program of proficiency testing has serious deficiencies," "the problems manifest" in one of the Bureau's population databases were "not satisfactorily explained by the government witnesses," and an examination of the FBI's validation study "raises troublesome questions about the quality of the Bureau's work." These deficiencies, the magistrate found, went to the weight of the evidence and not its admissibility.

In *Commonwealth v. Curnin*, the Massachusetts Supreme Court reversed a conviction based on DNA evidence, holding that there was no demonstrated general acceptance or inherent rationality in the process by which the laboratory calculated the accuracy of the test results. The court stated that future cases should focus not only on the soundness and general acceptance of the particular testing process for forensic use of DNA, but also on the proper implementation of the process in the specific case.

In *United States v. Porter*, after an extensive hearing, a superior court judge held that DNA tests were inadmissible in the District of Columbia because the government had failed to demonstrate general acceptance of its methodology for calculating the probability of a DNA match.

An expert panel on forensic DNA appointed by the New York state director of criminal justice concluded, "Questions about the quality of the work being done by the private laboratories have not been satisfactorily answered, and the laboratories' adherence to accepted scientific procedures has not been demonstrated."

DNA quality control/quality assurance standards

Forensic laboratories operate under a system of self-regulation that has long been the subject of data quality concerns. While those concerns are important background when evaluating forensic application of DNA, certain factors make legislated standards all the more important for DNA:

(1) DNA offers the promise of unique identification, something previously available only with fingerprints.

(2) DNA has gained general acceptance as a forensic identifier in far less time than any other technology.

(3) The technology has evolved rapidly and continues to evolve, putting even more pressure on scientists and the criminal justice system to evaluate its reliability.

(4) The federal government, through the FBI, is promoting the rapid adoption of DNA identification.

(5) Nationwide databanking requires consistent application of a single protocol and raises serious privacy concerns.

The OTA study on DNA concluded, "Instituting quality assurance mechanisms should proceed without delay."

The New York DNA panel endorsed the creation of national standards: "The creation of national standards would enable one state to search the databases of every other jurisdiction. Further, by establishing national standards against which to measure laboratories' performances, the important goal of ensuring that appropriate quality controls are observed by laboratories would be furthered."

Noted privacy expert Alan Westin has concluded, "Both government and private laboratories doing DNA analysis for forensic use should meet designated quality standards and be subject to periodic inspections."

Proficiency testing

There is widespread agreement that an external proficiency testing program for labs performing DNA analysis for criminal cases would give greater assurance of reliability.

The FBI's TWGDAM guidelines are clear on the desirability of proficiency testing: "Participation in a proficiency testing program is a critical element of a successful QA [quality assurance] program and is an essential requirement for any laboratory performing forensic DNA analysis."

The TWGDAM guidelines specifically endorse blind testing: "Ideally, blind proficiency test specimens should be presented to the testing laboratory through a second agency. . . . The blind proficiency test serves to evaluate all aspects of the laboratory examination procedure, including evidence handling, examination/testing and reporting. It is highly desirable that the DNA laboratory participate in a blind proficiency test program. . . ."

The New York panel also recommended blind proficiency testing: "Another way, used by the forensic as well as the clinical and medical communities, to ensure quality control is to insist that each laboratory performing such tests be evaluated periodically by proficiency testing techniques—preferably blind proficiency testing techniques. . . . These tests should be blind, that is, the laboratory should not know whether the samples were test samples or actual forensic case samples."

The American Society of Crime Laboratory Directors/Laboratory Accreditation Board has developed a DNA Accreditation Program that includes, for those submitting to the voluntary accreditation process, mandatory participation in a semi-annual proficiency testing program administered by a contractor meeting rigid specifications.

Lifecodes, one of the pioneers in forensic application of DNA, strongly endorsed proficiency testing in testimony submitted for the June 13, 1991 hearing of the Subcommittee on Civil and Constitutional Rights: "[W]e at Lifecodes believe that proficiency testing is key. . . . Labs should be subject to continual proficiency tests, both blind and open. Individuals should be tested quarterly."

Databanking and privacy

The advent of DNA typing in the courtroom has been followed by proposals to establish a national databank of previously analyzed samples which could be searched for a match in somewhat the same way that latent fingerprints are searched against a computer database. At least 11 states have enacted laws requiring blood samples from convicted criminals for this purpose. For example, California requires two blood and two saliva samples from each convicted sex offender.

These states plan to establish in-state databanks of DNA profiles and also to submit copies of their test results to the FBI to establish a national databank. However, the state laws requiring that DNA samples be taken from convicted offenders vary widely in the attention they give to privacy.

Under the national database concept now being developed by the FBI, the FBI would set up a computer file to store and match DNA profiles submitted by the states. The FBI is also developing designs for databases on unknown subjects (DNA drawn from blood or semen in cases where there are no active suspects, to be used in an effort to link serial crimes by the same perpetrator) and missing persons and unidentified dead persons to assist in identification.

Proposals to establish DNA databases raise several privacy concerns. For example, can the test results be used for purposes other than identification? Will the tests be accessible to non-law enforcement agencies or private parties?

The New York DNA panel concluded, "Substantial privacy concerns must be overcome before a DNA databank should be established." The panel recommended, "Use of a databank for other than law enforcement suspect identification purposes should be expressly prohibited and subject the abuser to criminal penalties."

SECTION-BY-SECTION ANALYSIS

Section 1 is the short title, the "DNA Identification Act of 1992."

Section 2

Subsection 2(a) amends the Omnibus Crime Control and Safe Streets Act to authorize grants to state and local agencies to develop or improve DNA testing capabilities in their forensic laboratories.

Subsection 2(b) requires that any state receiving federal funding for a DNA laboratory must certify that the laboratory is complying with the DNA quality assurance guidelines issued pursuant to the Act, that DNA samples obtained by the DNA analyses performed at such laboratory will be maintained in accordance with specified privacy standards, and that the laboratory and each analyst performing DNA analyses will undergo external proficiency testing at intervals not to exceed 180 days.

Section 3 requires the FBI Director to appoint an advisory board on DNA quality assurance methods. The board shall develop and recommend to the Director standards for quality assurance, including standards for proficiency testing. (Recognizing that proficiency testing is one component of a quality assurance program, the Act nonetheless addresses it as a separate item in light of its importance.) The board is expected to keep itself familiar with the implementation of the standards adopted by the FBI Director and shall recommend changes in those standards whenever appropriate. As new forms of DNA forensic analysis emerge, the board shall develop recommended quality assurance standards.

While the board is designated a board on DNA quality assurance methods, the board may also advise the Director on other scientific and policy questions relating to forensic applications of DNA. In particular, it would be appropriate for the board to address the population genetics issues that have been raised and recommend research programs to resolve those issues.

The board established pursuant to Section 2 may subsume the existing TWGDAM, which may become a subcommittee of the board focusing on technical issues. However, the Act also allows the FBI to continue the TWGDAM as a separate, informal body.

Based on the recommendations of the Board, the FBI Director shall issue, and revise from time to time as appropriate, standards for quality assurance and proficiency testing. Until the board is functional and has made its recommendations and the Director has acted upon them, the TWGDAM guidelines for a quality assurance program for DNA analysis published in April 1991 and any amendments thereto shall be considered the Director's standards for purposes of this Act.

Under the Act, the FBI is not responsible for administering a proficiency testing program for other laboratories. Laboratories required to undergo external proficiency testing under the Act—as a condition of receipt of federal funds or of submitting their data to the federal index—will be able to contract for proficiency testing with entities that offer DNA proficiency testing products meeting the standards issued under this Act. At least one DNA proficiency testing package is currently available at a modest cost.

Section 4 authorizes the FBI to establish an index of DNA profiles of convicted offenders, subject to quality assurance, proficiency testing and privacy requirements.

Section 4 allows the indexing of analyses prepared by public or private laboratories. At least one state intends to contract out its DNA profiling requirements to a private laboratory. Results of tests performed by a private laboratory under contract with a state or local law enforcement agency may be indexed in the national database if that laboratory, in its work for the law enforcement agency, complies with the minimum data quality standards established under this Act.

The FBI will have to assure itself that laboratories submitting data to the federal index are complying with the quality assurance, proficiency testing and privacy standards established under the Act. However, it is not intended and not expected that the FBI would use its management of the national DNA index to impose on laboratories submitting data for the index standards that are arbitrary or inconsistent with the guidelines established pursuant to this Act.

Section 5 requires the FBI to adhere in its DNA forensic work to minimum quality assurance, proficiency testing and privacy standards. In one respect, the proficiency testing requirements for the FBI go beyond those required of other laboratories: the FBI must undergo periodic *blind* external proficiency tests. The definition of "blind" is drawn from the TWGDAM guidelines.

Section 5 states that DNA analyses performed by a federal law enforcement agency may be used only for law enforcement purposes. It does not preclude an agency such as the FBI from performing DNA analyses for humanitarian purposes. Analyses performed for humanitarian purposes would not be subject to the privacy restrictions of this Act, although they should still be handled with sensitivity to privacy interests.

Section 5 also establishes criminal penalties, based on the Privacy Act, for misuse of DNA information indexed in a federal database.

Mr. Speaker, I reserve the balance of my time.

Mr. MOORHEAD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, DNA is the basic genetic material within each living cell that contains the complete genetic blueprint for any individual. DNA testing is typically used to identify individuals using small samples of body fluids or tissue, such as blood, semen or hair, left at a crime scene.

DNA analysis has proven an extremely effective investigative tool in the criminal justice process. When properly performed, DNA testing can, with a great deal of certainty, verify or reject an association between a suspect and a victim or crime scene. As DNA technology is increasingly employed in the courtroom, however, there has been growing concern over issues of quality assurance and standards for conducting DNA testing.

There is general agreement among those involved in DNA testing, including the FBI, State and local law enforcement and crime laboratories, and forensic scientists, that there is a need for standards to ensure quality services. This bill will guarantee that needed quality assurance standards are developed and implemented.

The legislation directs the FBI to appoint an advisory board to develop and recommend standards for quality assurance and develop standards for testing the proficiency of forensic laboratories. It authorizes funds under title I of the Omnibus Crime Control and Safe Streets Act of 1968 for States and local governments to develop and improve their ability to perform DNA analysis for forensic purposes.

Laboratories receiving such funds will be required to undergo external proficiency testing twice a year and comply with the standards to be issued by the FBI's advisory board.

The legislation also authorizes the FBI to establish an index of DNA identification records of persons convicted of crimes and of DNA samples recovered from crime scenes and unidentified human remains. This index, containing previously analyzed samples, will allow DNA recovered from the scene of a crime to be searched against stored DNA profiles of known offenders. The legislation specifies that DNA profiles in the index must meet quality control and privacy requirements.

In conclusion, this legislation will help to ensure reliable and accurate results for DNA analysis, and I urge its adoption.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. EDWARDS of California. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California [Mr. EDWARDS] that the House suspend the rules and pass the bill, H.R. 3088, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

RURAL ELECTRIFICATION ADMINISTRATION IMPROVEMENT ACT OF 1992

Mr. DE LA GARZA. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 5237) to amend the Rural Electrification Act of 1936 to improve the provision of electric and telephone service in rural areas, to establish a grant program to improve the provision of health care services and educational services in rural areas by enabling providers of such services to obtain access to modern interactive telecommunications systems, and for other purposes.

The Clerk read as follows:

Amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Rural Electrification Administration Improvement Act of 1992"

SEC. 2. DISCOUNTED LOAN PREPAYMENT.

(a) IN GENERAL.—Subsection (a) of section 306B of the Rural Electrification Act of 1936 (7 U.S.C. 936b(a)) is amended to read as follows:

"(a) DISCOUNTED PREPAYMENT BY BORROWERS OF ELECTRIC LOANS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), a direct or insured loan made under this Act shall not be sold or prepaid at a value that is less than the outstanding principal balance on the loan.

"(2) EXCEPTION.—On request of the borrower, an electric loan made under this Act, or a portion of such a loan, that was advanced before May 1, 1992, or has been advanced for not less than 2 years, shall be sold to or prepaid by the borrower at the lesser of—

"(A) the outstanding principal balance on the loan; or

"(B) the present value of the loan discounted from the face value at maturity at the rate established by the Administrator.

"(3) DISCOUNT RATE.—The discount rate applicable to the prepayment under this subsection of a loan or loan advance shall be the then current cost of funds to the Department of the Treasury for obligations of comparable maturity to the remaining term of the loan.

"(4) TAX EXEMPT FINANCING.—If a borrower prepays a loan under this subsection using tax exempt financing, the discount shall be adjusted to ensure that the borrower receives a benefit that is equal to the benefit the borrower would receive if the borrower used fully taxable financing. The borrower shall certify in writing whether the financing will be tax exempt and shall comply with such other terms and conditions as the Administrator may establish that are reasonable and necessary to carry out this subsection.

"(5) ELIGIBILITY.—

"(A) IN GENERAL.—A borrower that has prepaid an insured or direct loan shall remain eligible for assistance under this Act in the same manner as other borrowers, except that—

(i) a borrower that has prepaid a loan, either before or after the date of enactment of this subsection, at a discount rate as provided by paragraph (3), shall not be eligible, except at the discretion of the Administrator, to apply for or receive direct or insured loans under this Act during the 120-month period beginning on the date of the prepayment; and

"(ii) a borrower that prepaid a loan before the date of enactment of this subsection at a discount rate greater than that provided by paragraph (3), shall not be eligible—

"(I) except at the discretion of the Administrator, to apply for or receive direct or insured loans described in clause (i) during the 180-month period beginning on the date of the prepayment; or

"(II) to apply for or receive direct or insured loans described in clause (i) until the borrower has repaid to the Federal Government the sum of—

"(aa) the amount (if any) by which the discount the borrower received by reason of the prepayment exceeds the discount the borrower would have received had the discount been based on the cost of funds to the Department of the Treasury at the time of the prepayment; and

"(bb) interest on the amount described in item (aa), for the period beginning on the date of the prepayment and ending on the date of the repayment, at a rate equal to the average annual cost of borrowing by the Department of the Treasury.

"(B) EFFECT ON EXISTING AGREEMENTS.— If a borrower and the Administrator have entered into an agreement with respect to a prepayment occurring before the date of enactment of this subsection, this paragraph shall supersede any provision in the agreement relating to the restoration of eligibility for loans under this Act.

"(C) DISTRIBUTION BORROWERS.—A distribution borrower not in default on the repayment of loans made or insured under this Act shall be eligible for discounted prepayment as provided in this subsection. For the purpose of determining eligibility for discounted prepayment under this subsection or eligibility for assistance under this Act, a default by a borrower from which a distribution borrower purchases wholesale power shall not be considered a default by the distribution borrower.

"(6) DEFINITIONS.—As used in this subsection:

"(A) DIRECT LOAN.—The term 'direct loan' means a loan made under section 4.

"(B) INSURED LOAN.—The term 'insured loan' means a loan made under section 305.".

(b) CONFORMING AMENDMENT.—Section 306B(b) of such Act (7 U.S.C. 936b(b)) is amended by striking "(b) Notwithstanding" and inserting the following:

"(b) MERGERS OF ELECTRIC BORROWERS.—Notwithstanding".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas [Mr. DE LA GARZA] will be recognized for 20 minutes, and the gentleman from Missouri [Mr. COLEMAN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5237 simply allows the prepayment of loans by Rural Electrification Administration borrowers. Nearly identical legislation under the same bill number has passed the House of Representatives twice—on August 5, 1992, and on September 23, 1992.

Over the past 2 weeks the Committee on Agriculture has worked with the Senate Committee on Agriculture, Nutrition, and Forestry to reach a fair and reasonable compromise on this legislation. H.R. 5237, as approved by the Senate earlier today, reflects that compromise and is acceptable to the Committee on Agriculture.

H.R. 5237 will allow the local rural electric cooperatives the option of prepaying their REA loans, thus reducing the Federal Government's exposure to future repayment risk and freeing the cooperative from the rules and regulations of the REA.

H.R. 5237, like the version that previously passed the House, authorizes prepayments based on the present value of the debt owed to the Government, discounted from the face value of the debt at a discount rate equal to the cost of funds to the Treasury.

This version of H.R. 5237 contains two changes from the previously passed bill. Those two changes pertain to the length of time an electric cooperative is ineligible to receive further REA loans if that cooperative chooses to prepay its outstanding debt obligation to REA.

Under the previous bill, a borrower prepaying a loan either before or after the date of enactment would have to sit out for 5 years; now that borrower has to sit out for 10 years.

A borrower that prepaid a loan before the date of enactment would have to sit out for 10 years under the earlier version. Under H.R. 5237 as passed by the Senate today, that borrower must sit out for 15 years.

These two changes ensure that the bill carries no cost in the OMB budget estimates.

Mr. Speaker, this legislation allows the REA program to better meet the needs of our Nation's rural electric cooperatives. Currently, there is a 2-year waiting list of requests for REA loans. H.R. 5237 allows financially healthy REA borrowers to prepay their loans and allows other cooperatives greater access to the REA Program.

Congress has authorized similar REA prepayment programs in the past, primarily through reconciliation legislation.

Mr. Speaker, again, I would like to commend Congressman ENGLISH, the chairman of our Subcommittee on Conservation, Credit, and Rural Development, for proposing this legislation and guiding it through the approval process. Mr. Speaker, I urge passage of H.R. 5237.

Mr. Speaker, I reserve the balance of my time.

Mr. COLEMAN of Missouri. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 5237. This bill needs to be adopted prior to adjournment and signed by the President.

This legislation, which has been amended by the other body and returned to the House, is a scaled down version of the same House numbered bill that passed the House, 359–60, on August 5, 1992.

It contains none of the rural telephone provisions or medical and educational telecommunications language that some Members opposed in the original bill.

This bill authorizes REA borrowers to prepay outstanding loans on the condition that they may not return to the REA for any further financing for a period of 10 years beginning on the date a borrower prepays the loan.

The legislation also allows distribution cooperatives that purchase power from a generation and transmission cooperative that is in default on its REA loans to prepay their REA loans so that the distribution cooperatives may seek non-REA lending sources.

This bill should ease the currently overburdened REA administrative operations, making it easier for cooperatives that need to borrow from REA to do so. I urge its passage.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA] that the House suspend the rules and concur in the Senate amendment to H.R. 5237.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

EDUCATION OF THE DEAF ACT AMENDMENTS OF 1992

Mr. OWENS of New York. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 5483) to modify the provisions of the Education of the Deaf Act of 1986, and for other purposes.

The Clerk read as follows:

Amendments:

(1)On page 3, line 25, strike out [and]

(2)On page 3, after line 25, add the following:

(B) in paragraph (4) by amending the paragraph to read as follows:

" (4) appoint a president and establish policies, guidelines, and procedures related to the appointments, the salaries, and the dismissals of professors, instructors, and other employees of Gallaudet University, including the adoption of a policy of outreach and recruitment to employ and advance in employment qualified individuals with disabilities, particularly individuals who are deaf or individuals who are hard of hearing."; and

(3)On page 4, line 1, strike [(B)] and insert *(C)*

(4)Beginning on page 4, strike out line 12 and all that follows through line 17 on page 5, and insert the following new section:

"SEC. 104. ELEMENTARY AND SECONDARY EDUCATIONAL PROGRAMS.

"(a) GENERAL AUTHORITY.—(1)(A) The Board of Trustees of Gallaudet University is authorized, in accordance with the agreement under section 105, to maintain and operate exemplary elementary and secondary education programs, projects, and activities for the primary purpose of developing, evaluating, and disseminating innovative curricula, instructional techniques and strategies, and materials that can be used in various educational environments serving individuals who are deaf and individuals who are hard of hearing throughout the Nation.

"(B) The elementary and secondary programs described in subparagraph (A) shall serve students with a broad spectrum of needs, including students who are lower achieving academically, who come from non-English speaking homes, who have secondary disabilities, who are members of minority groups, or who are from rural areas.

"(C) The elementary and secondary programs described in subparagraph (A) shall include—

"(i) the Kendall Demonstration Elementary School, to provide day facilities for elementary education for individuals who are deaf, to provide such individuals with the vocational, transitional, independent living, and related services they need to function independently, and to prepare such individuals for high school and other secondary study; and

"(ii) the Model Secondary School for the Deaf, to provide day and residential facilities for secondary education for individuals who are deaf, to provide such individuals with the vocational, transitional, independent living, and related services they need to function independently, and to prepare such individuals for college, other postsecondary opportunities, or the workplace."

(5)On page 6, line 8, before the semicolon insert: *or hard of hearing*

(6)On page 6, line 11, after "deaf" insert: *or hard of hearing*

(7)On page 6, line 12, after "deaf" insert: *or hard of hearing*

(8)On page 6, line 20, after "deaf" insert: *or hard of hearing*

(9)On page 11, line 25, strike [and] after the semicolon

(10)On page 12, line 10, strike the period and insert: *; and*

(11)On page 12, between lines 10 and 11, insert the following:

(3) in subsection (b) by adding, at the end the following new paragraph:

"(6) establish a policy of outreach and recruitment to employ and advance in employment qualified individuals with disabilities, particularly individuals who are deaf or individuals who are hard of hearing.".

(12)On page 15, line 5, insert before the period *, except that nothing in this subparagraph shall be construed to prohibit the University and NTID from educating the Congress, the Secretary, and others regarding programs, projects, and activities conducted at those institutions*

(13)On page 16, line 15, strike the end quotation marks and the second period.

(14)On page 16, between lines 15 and 16, insert the following new subparagraph:

"(C) The Secretary is not authorized to add items to those specified in subparagraph (B).".

(15)On page 19, line 14, strike [Section] and insert *(a)* **Education of the Deaf Act.**—*Section*

(16)On page 19, line 17, strike **[and evaluation]** and insert: **, evaluation, and reporting**

(17)On page 20, between lines 17 and 18, insert the following new subsection:

(b) REPORT.—Not later than 180 days after the date of enactment of the Education of the Deaf Act Amendments of 1992, the Secretary of Education shall submit a report to Congress regarding progress made by the Department of Education in implementing the recommendations of the Commission on Education of the Deaf pertaining to the provision of a free and appropriate public education to children who are deaf, and children who are hard of hearing, and with respect to the establishment of standards for programs and personnel to meet the educational, communicative, and psychological needs of children who are deaf, and children who are hard of hearing. In preparing this report, the Secretary of Education shall solicit input from the community of individuals who are deaf, and individuals who are hard of hearing.

(18)On page 21, line 2, before the period insert: *or hard of hearing*

(19)On page 21, line 14, after "deaf" insert: *or hard of hearing*

(20)Beginning on page 22, strike line 4, and all that follows through line 23 on page 27, and insert the following new subsections:

"(a) ESTABLISHMENT OF PROGRAMS.—

"(1) The Secretary and the Board of Trustees of Gallaudet University are authorized to establish the Gallaudet University Federal Endowment Fund as a permanent endowment fund, in accordance with this section, for the purpose of promoting the financial independence of the University. The Secretary and the Board of Trustees may enter into such agreements as may be necessary to carry out the purposes of this section with respect to the University.

"(2) The Secretary and the Board of Trustees or other governing body of the institution of higher education with which the Secretary has an agreement under section 112 are authorized to establish the National Technical Institute for the Deaf Federal Endowment Fund as a permanent endowment fund, in accordance with this section, for the purpose of promoting the financial independence of NTID. The Secretary and the Board or other governing body may enter into such agreements as may be necessary to carry out the purposes of this section with respect to NTID.

"(b) FEDERAL PAYMENTS.—

"(1) The Secretary shall, consistent with this section, make payments to the Federal endow-

ment funds established under subsection (a) from amounts appropriated under subsection (h) for the fund involved.

"(2) Subject to the availability of appropriations and the non-Federal matching requirements of paragraph (3), the Secretary shall make payments to each Federal endowment fund in amounts equal to sums contributed to the fund from non-Federal sources (excluding transfers from other endowment funds of the institution involved).

"(3) Effective for fiscal year 1993 and each succeeding fiscal year, for any fiscal year in which the sums contributed to the Federal endowment fund of the institution involved from non-Federal sources exceed $1,000,000, the non-Federal contribution to the Federal endowment fund shall be $2 for each Federal dollar provided in excess of $1,000,000 (excluding transfers from other endowment funds of the institution involved).

"(c) INVESTMENTS.—

"(1) Except as provided in subsection (e), the University and NTID, respectively, shall invest its Federal endowment fund corpus and income in instruments and securities offered through one or more cooperative service organizations of operating educational organizations under section 501(f) of the Internal Revenue Code of 1986, or in low-risk instruments and securities in which a regulated insurance company may invest under the laws of the State in which the institution involved is located.

"(2) In managing the investment of its Federal endowment fund, the University or NTID shall exercise the judgment and care, under the prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of that person's own business affairs.

"(3) Neither the University nor NTID may invest its Federal endowment fund corpus or income in real estate, or in instruments or securities issued by an organization in which an executive officer, a member of the Board of Trustees of the University or of the host institution, or a member of the Advisory Board of NTID is a controlling shareholder, director, or owner within the meaning of Federal securities laws and other applicable laws. Neither the University nor NTID may assign, hypothocate, encumber, or create a lien on the Federal endowment fund corpus without specific written authorization of the Secretary.

"(d) WITHDRAWALS AND EXPENDITURES.—

"(1) Except as provided in paragraph (3)(B), neither the University nor NTID may withdraw or expend any of the corpus of its Federal endowment fund.

"(2)(A) The University and NTID, respectively, may withdraw or expend the income of its Federal endowment fund only for expenses necessary to the operation of that institution, including expenses of operations and maintenance, administration, academic and support personnel, construction and renovation, community and student services programs, technical assistance, and research.

"(B) Neither the University nor NTID may withdraw or expend the income of its Federal endowment fund for any commercial purpose.

"(C) Beginning on October 1, 1992, the University and NTID shall maintain records of the income generated from its respective Federal endowment fund for the prior fiscal year.

"(3)(A) Except as provided in subparagraph (B), the University and NTID, respectively, may, on an annual basis, withdraw or expend not more than 50 percent of the income generated from its Federal endowment fund from the prior fiscal year.

"(B) The Secretary may permit the University or NTID to withdraw or expend a portion of its Federal endowment fund corpus or more than 50 percent of the income generated from its Federal endowment fund from the prior fiscal year if the institution involved demonstrates, to the Secretary's satisfaction, that such withdrawal or expenditure is necessary because of—

"(i) a financial emergency, such as a pending insolvency or temporary liquidity problem;

"(ii) a life-threatening situation occasioned by natural disaster or arson; or

"(iii) another unusual occurrence or exigent circumstance.

"(e) INVESTMENT AND EXPENDITURE FLEXIBILITY.—The corpus associated with a Federal payment (and its non-Federal match) made to the Federal endowment fund of the University or NTID shall not be subject to the investment limitations of subsection (c)(1) after 10 fiscal years following the fiscal year in which the funds are matched, and the income generated from such corpus after the tenth fiscal year described in this subsection shall not be subject to such investment limitations and to the withdrawal and expenditure limitations of subsection (d)(3).

"(f) RECOVERY OF PAYMENTS.—After notice and an opportunity for a hearing, the Secretary is authorized to recover any Federal payments under this section if the University or NTID—

"(1) makes a withdrawal or expenditure of the corpus or income of its Federal endowment fund that is not consistent with this section;

"(2) fails to comply with the investment standards and limitations under this section; or

"(3) fails to account properly to the Secretary concerning the investment of or expenditures from the Federal endowment fund corpus or income.

"(g) DEFINITIONS.—As used in this section:

"(1) The term 'corpus', with respect to a Federal endowment fund under this section, means an amount equal to the Federal payments to such fund, amounts contributed to the fund from non-Federal sources, and appreciation from capital gains and reinvestment of income.

"(2) The term 'Federal endowment fund' means a fund, or a tax-exempt foundation, established and maintained pursuant to this section by the University or NTID, as the case may be, for the purpose of generating income for the support of the institution involved.

"(3) The term 'income', with respect to a Federal endowment fund under this section, means an amount equal to the dividends and interest accruing from investments of the corpus of such fund.

"(4) The term 'institution involved' means the University or NTID, as the case may be.

"(h) AUTHORIZATION OF APPROPRIATIONS.—

"(1) In the case of the University, there are authorized to be appropriated for the purposes of this section such sums as may be necessary for each of the fiscal years 1993 through 1997.

"(2) In the case of NTID, there are authorized to be appropriated for the purposes of this section such sums as may be necessary for each of the fiscal years 1993 through 1997.

"(3) Amounts appropriated under paragraph (1) or (2) shall remain available until expended.

"(i) EFFECTIVE DATE.—The provisions of this section shall take effect as if included in the provisions of the Education of the Deaf Act of 1986.".

(21)On page 29, line 17, strike "71" and all that follows through "1997."." on line 20, and insert: *75 percent beginning the academic year 1993–1994, and 90 percent beginning the academic year 1994–1995.*

(22)On page 29, between lines 20 and 21, add the following new subsections:

"(c) REDUCTION OF SURCHARGE.—Beginning the academic year 1993–1994 and thereafter, the University or NTID may reduce the surcharge under subsection (b) to 50 percent if—

"(A) a student described under subsection (b) is from a developing country;

"(B) such student is unable to pay the tuition surcharge under subsection (b); and

"(C) such student has made a good faith effort to secure aid through such student's government or other sources.

"(d) DEFINITION.—For purposes of subsection (c), the term 'developing country' means a country that has a 1990 per capita income not in excess of $4000 in 1990 United States dollars.".

(23)Beginning on page 32, strike out line 9 and all that follows through line 12 on page 36 and insert the following:

SEC. 201. POSTSECONDARY EDUCATION.

(a) REGIONAL CENTERS.—Section 625(a) of the Individuals with Disabilities Education Act (20 U.S.C. 1424a(a)) is amended by inserting after the first sentence in paragraph (6) the following new sentences: "The Secretary shall continue to provide assistance through September 30, 1994, to the current grantees operating the four regional centers for the deaf under subsection (a) of this section. The Secretary shall continue to provide such assistance through September 30, 1995, unless the authorization of appropriations for parts C–G of the Act is extended by September 30, 1994."

(b) STUDY.—There shall be conducted a General Accounting Office study of the four regional centers for the deaf under section 625(a)(2) of the Individuals with Disabilities Education Act (20 U.S.C. 1424(a)(2)). The scope of such study shall be determined by the Chairpersons and Ranking Minority members of the Subcommittee on Disability Policy of the Committee on Labor and Human Resources in the Senate, and of the Subcommittee on Select Education of the Committee on Education and Labor in the House of Representatives.

(24)Beginning on page 39, strike out line 8 and all that follows through line 10 on page 40.

(25)On page 40, line 11, strike **[Subtitle C]** and insert: **Subtitle B**

(26)On page 40, strike lines 13 through 16 and insert the following:

The amendments described in this title shall take effect on October 1, 1992.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York [Mr. OWENS] will be recognized for 20 minutes, and the gentleman from Pennsylvania [Mr. GOODLING] will be recognized for 20 minutes.

The Chair recognizes the gentleman from New York [Mr. OWENS].

Mr. OWENS of New York. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today to urge approval of H.R. 5483 as amended by the Senate. This bill reauthorizes the Education of the Deaf Act of 1986.

The amended bill before the House represents a bipartisan compromise that maintains the integrity of the original House bill which reflects many of the issues identified in the 1986 report, "Towards Equality: The Education of the Deaf," including:

First, accountability for the expenditure of Federal appropriations by Gallaudet University and the National Technical Institute for the Deaf [NTID].

Second, educational programs for students who are deaf and from minority backgrounds, and for students who are deaf and have secondary disabilities.

Third, personnel training.

Fourth, increased tuition surcharge for international students.

Fifth, GAO study to review the four regional demonstration programs.

The provisions of the bill related to these and other issues will move us closer to providing an appropriate quality education for all students who are deaf or hard of hearing. I hope my colleagues will agree by voting in favor of H.R. 5483 as amended.

I wish to thank Mr. BALLENGER and his staff for their efforts in developing this bipartisan legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. GOODLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to rise in support of this bill, H.R. 5483, to reauthorize the Education of the Deaf Act of 1986. This act provides for the education of individuals who are deaf through Gallaudet University and the National Technical Institute for the Deaf. In addition, Gallaudet University operates the Kendall Demonstration Elementary School and the Model Secondary School for the Deaf.

For fiscal year 1992, the Federal appropriation provided a significant portion of the funding for Gallaudet University and the National Technical Institute for the Deaf. Both the elementary and secondary demonstration schools receive 100 percent of their funding from the Federal Government. The Committee on Education and Labor has worked closely with the Department of Education, Gallaudet University and the National Technical Institute for the Deaf in developing this bill to provide for increased accountability from the schools, while allowing them to continue to function independently.

This bill extends the specific due process provisions under part B of the Individuals With Disabilities Education Act to children placed by their parents in the elementary and secondary programs. These protections, which are currently afforded to children placed by local educational agencies, will now apply to all children at the elementary and secondary education programs. The Education and Labor Committee considered these provisions to be among the most critical of the bill.

During the reauthorization hearings, testimony was heard from several witnesses about the need for minority deaf teachers and role models for minority children who are deaf. Likewise, the Commission on the Education of the Deaf recommended in their February 1988 report to the Congress that there was a need to reestablish Federal support for teacher preparation, particularly for the recruitment of highly qualified applicants in the field of education of the deaf.

I am pleased that my proposal for a scholarship program for individuals who are deaf and pursuing careers in deaf education or special education has been included in this bill. The Secretary of Education can provide grants to institutions of higher education which have teacher training programs in deaf education or special education. Priority consideration for these scholarships will be given to individuals who are deaf and from underrepresented backgrounds.

I hope that my colleagues will support this legislation.

Mr. BALLENGER. Mr. Speaker, I am very pleased to rise in support of this bill extending and amending the authorizations for Gallaudet University and the National Technical Institute for the Deaf. The Federal appropriation for fiscal year 1992 was $76.5 million for Gallaudet University, representing approximately 73 percent of their total income. The Federal appropriation for NTID was $39.4 million, approximately 83 percent of their income.

Clearly, the Federal Government has an interest in the efficiency and effectiveness of these educational programs for individuals who are deaf. In addition, the Federal Government should have access to whatever information is needed to ensure that funds are used appropriately.

Overall, the bill increases accountability for funds provided to both Gallaudet University and NTID. The bill prohibits the use of Federal funds for certain expenditures, such as: alcoholic beverages, goods or services for personal use, housing and personal living expenses, and lobbying.

The two schools will also be required to develop internal policies regarding the allowablity and reasonableness of all expenditures. This will increase the accountability for both schools and provide the Congress with more information about how the funds are being used.

This bill limits the enrollment of international students at Gallaudet University and NTID to approximately 10 percent of the total enrollment at each school. There is presently no limit on the number of international students allowed to enroll at the schools.

International students are currently charged 50 percent more for tuition than U.S. students. This bill requires international students to pay a tuition surcharge of 90 percent. It would also provide for a lower surcharge rate of 50 percent for students from developing countries.

While I recognize that the presence of international students at the schools is beneficial in many ways, I do not think that the taxpayers should be subsidizing the cost of educating international students. Currently, the tuition charged to international students only represents a small to moderate proportion of the estimated cost for their education. I very much support a higher tuition surcharge, however, the 90-percent surcharge provided for in this bill is a step in the right direction.

At a subcommittee hearing this past March in my district, we heard testimony from professionals and students at Lenoir Rhyne College in Hickory, NC, about the need for teacher training programs and educational interpreters. Many interpreters do not have the necessary training to appropriately work with students in elementary and secondary educational programs. This bill permits the Secretary of Education to make grants under the Individuals with Disabilities Education Act to institutions of higher education to establish or continue educational interpreter training programs.

In closing, I would like to commend Mr. OWENS and the staff on both sides of the aisle for the hard work in developing this bipartisan bill.

I urge my colleagues to support this bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. OWENS of New York. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York [Mr. OWENS] that the House suspend the rules and concur in the Senate amendment to H.R. 5483.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

READY TO LEARN ACT

Mr. KILDEE. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 3134) to expand the production and distribution of educational and instructional video programming and supporting educational materials for preschool and elementary school children as a tool to improve school readiness, to develop and distribute educational and instructional video programming and support materials for parents, child care providers, and educators of young children, to expand services provided by Head Start programs, and for other purposes; as amended.

The Clerk read as follows:

S. 3134

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Ready to Learn Act".

SEC. 2. PURPOSE.

It is the purpose of this Act to—

(1) expand the availability of educational and instructional video programming and supporting educational resources for preschool and elementary school children and their parents as a tool to improve school readiness and literacy; and

(2) to develop and distribute educational and instructional video programming and support materials for parents, child care providers, and educators of young children.

SEC. 3. READY TO LEARN PROGRAMS.

The Elementary and Secondary Education Act of 1965 is amended by adding after part F of title IV the following:

"PART G—READY TO LEARN TELEVISION

"SEC. 4701. READY TO LEARN.

"(a) IN GENERAL.—The Secretary is authorized to enter into contracts, cooperative agreements, or grants with entities described in section 4702(b) to develop, produce, and distribute educational and instructional video programming for preschool and elementary school children and their parents in order to facilitate the achievement of the national education goals.

"(b) AVAILABILITY.—In making such contracts, cooperative agreements, or grants, the Secretary shall ensure that recipients make programming widely available with support materials as appropriate to young children, their parents, child care workers, and Head Start providers to increase the effective use of such programming.

"SEC. 4702. EDUCATIONAL PROGRAMMING.

"(a) AWARDS.—The Secretary shall award contracts, cooperative agreements, or grants to eligible entities to—

"(1) facilitate the development directly or through contracts with producers of children and family educational television programming, educational programming for preschool and elementary school children, and accompanying support materials and services that promote the effective use of such programming; and

"(2) contract with entities (such as public broadcasting entities and those funded under the Star Schools Assistance Act) in order that programs developed under this section are disseminated and distributed to the widest possible audience appropriate to be served by the programming by the most appropriate distribution technologies.

"(b) ELIGIBLE ENTITIES.—To be eligible to receive a contract, cooperative agreement, or grant under subsection (a), an entity shall be—

"(1) a nonprofit, nongovernmental entity able to demonstrate a capacity for the development and distribution of educational and instructional television programming of high quality for preschool and elementary school children; and

"(2) able to demonstrate a capacity to contract with the producers of children's television programming for the purpose of developing educational television programming of high quality for preschool and elementary school children.

"(c) CULTURAL EXPERIENCES.—Programming developed under this section shall reflect the recognition of diverse cultural experiences and the needs and experiences of both boys and girls in engaging and preparing young children for schooling.

"SEC. 4703. DUTIES OF SECRETARY.

"The Secretary is authorized—

"(1) to establish and administer a Special Projects of National Significance program to award contracts, cooperative agreements, or grants to public and nonprofit private entities, or local public television stations or such public television stations that are part of a consortium with one or more State educational agencies, local educational agencies, local schools, institutions of higher education, or community-based organizations of demonstrated effectiveness, for the purpose of—

"(A) addressing the learning needs of young children in limited English proficient households, and developing appropriate educational and instructional television programming to foster the school readiness of such children;

"(B) developing programming and support materials to increase family literacy skills among parents to assist parents in teaching their children and utilizing educational television programming to promote school readiness; and

"(C) identifying, supporting, and enhancing the effective use and outreach of innovative programs that promote school readiness;

"(2) to establish within the Department a clearinghouse to compile and provide information, referrals and model program materials and programming obtained or developed under this part to parents, child care providers, and other appropriate individuals or entities to assist such individuals and entities in accessing programs and projects under this part; and

"(3) to develop and disseminate training materials, including—

"(A) interactive programs and programs adaptable to distance learning technologies that are designed to enhance knowledge of children's social and cognitive skill development and positive adult-child interactions; and

"(B) support materials to promote the effective use of materials developed under paragraph (2);

among parents, Head Start providers, in-home and center based day care providers, early childhood development personnel, and elementary school teachers, public libraries, and after school program personnel caring for preschool and elementary school children;

"(4) coordinate activities with the Secretary of Health and Human Services in order to—

"(A) maximize the utilization of quality educational programming by preschool and elementary school children, and make such programming widely available to federally funded programs serving such populations; and

"(B) provide information to grantees of Federal programs that have major training components for early childhood development, including Head Start, Even Start, and State training activities funded under the Child Care Development Block Grant Act of 1990 regarding the availability and utilization of materials developed under paragraph (3) to enhance parent and child care provider skills in early childhood development and education.

"SEC. 4704. APPLICATIONS.

"Each eligible entity desiring a contract, cooperative agreement, or grant under section 4701 or 4703 shall submit an application to the Secretary at such time, in such manner, and accompanied by such information as the Secretary may reasonably require.

"SEC. 4705. REPORTS AND EVALUATION.

"(a) ANNUAL REPORT TO SECRETARY.—An entity receiving funds under section 4701 shall prepare and submit to the Secretary an annual report which contains such information as the Secretary may require. At a minimum, the report shall describe the program activities undertaken with funds received under this section, including—

"(1) the programming that has been developed directly or indirectly by the entity, and the target population of the programs developed;

"(2) the support materials that have been developed to accompany the programming, and the method by which such materials are distributed to consumers and users of the programming;

"(3) the means by which programming developed under this section has been distributed, including the distance learning technologies that have been utilized to make programming available and the geographic distribution achieved through such technologies; and

"(4) the initiatives undertaken by the entity to develop public-private partnerships to secure non-Federal support for the development and distribution and broadcast of educational and instructional programming.

"(b) REPORT TO CONGRESS.—The Secretary shall prepare and submit to the relevant committees of Congress a biannual report which includes—

"(1) a summary of the information made available under section 4702(a);

"(2) a description of the training materials made available under section 4703(3), the manner in which outreach has been conducted to inform parents and child care providers of the availability of such materials, and the manner in which such materials have been distributed in accordance with such section.

"SEC. 4706. AUTHORIZATION OF APPROPRIATIONS.

"(a) IN GENERAL.—There are authorized to be appropriated to carry out this part, $25,000,000 for fiscal year 1993, and such sums as may be necessary for fiscal year 1994. Not less than 60 percent of the amounts appropriated under this subsection for each fiscal year shall be used to carry out section 4702.

"(b) SPECIAL PROJECTS.—Of the amount appropriated under subsection (1) for each fiscal year, at least 10 percent of such amount shall be utilized in each such fiscal year for activities under section 4703(1)(C).

"SEC. 4707. ADMINISTRATIVE COSTS.

"With respect to the implementation of section 4702, entities receiving a contract, cooperative agreement, or grant from the Secretary may use up to 5 percent of the amounts received under such section for the normal and customary expenses of administering the contract, cooperative agreement, or grant.

"SEC. 4708. DEFINITION.

"For the purposes of this part, the term 'distance learning' means the transmission of educational or instructional programming to geographically dispersed individuals and groups via telecommunications.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Michigan [Mr. KILDEE] will be recognized for 20 minutes, and the gentleman from Pennsylvania [Mr. GOODLING] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Michigan [Mr. KILDEE].

Mr. KILDEE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of the ready to learn Television Act of 1992.

This act will expand the availability of educational video programming and materials to preschool and elementary school children, their parents, and the other early childhood caregivers. Over the past several years this body has voted several times in support of legislation promoting the national education goals.

One of the goals is that all children will enter school ready to learn. In a world of increasing economic competition it is essential that we use all possible resources to ensure that our children reach their full potential. One of the keys to this is providing stimulating learning experiences at early ages.

Modern communications technology is an obvious resource for that purpose.

This bill requires the secretary of education to:

Award grants for the production and distribution of educational videos designed to improve children's school readiness; and

Award grants for the production and distribution of videos and other instructional material designed to enhance the knowledge of child development among parents, teachers and Head Start, and child care providers.

The amendments to the bill strengthen provisions promoting family literacy.

This program is attractive because it uses existing technology that will reach a large number of children and the people who care for them.

It will mean that our children are better prepared to learn, and that our country will be better prepared to enter the 21st century.

I urge my colleagues to support the bill.

Mr. Speaker, I yield such time as he may consume to the gentleman from Oregon [Mr. WYDEN].

Mr. WYDEN. Mr. Speaker, I rise in support of the legislation. Senator KENNEDY and I joined in introducing ready to learn legislation this year because we believe that dollar for dollar these programs will pay big dividends. Young people across the country are often unequipped to learn and this legislation is one practical way to address this crisis. In addition this legislation moves America closer to reaching the goals of the Presidents education summit. Senator KENNEDY has provided outstanding leadership on this legislation and I urge my colleagues to support the legislation.

Mr. GOODLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as we all know, too many of our young children arrive at school with a learning deficit. They are not prepared to take advantage of the education presented to them and, as a result fall further and further behind their peers.

Programs such as Even Start and Head Start are designed to help young children and their families get the assistance they need to arrive at school ready to learn. However, these programs, on their own, are often not enough to overcome the multiple problems that face these children and families.

We also know that young children spend a tremendous amount of time, often more than 5 hours a day, watching television. It seems like common sense that if we could make even a portion of that time educational, then children might be more likely to arrive at school prepared to learn and keep up with their peers.

The bill before us would stimulate the development of more and better educational video programming for children and their families. I am especially supportive of the provisions that would authorize the creation of programming to support family literacy. These would focus on both the children and parents and, if done creatively, lead to increased literacy for the whole family.

We have reduced the authorization level of the original bill and made it an amendment to the Elementary and Secondary Education Act [ESEA]. This means we will reconsider this program as part of the reauthorization of ESEA in the next Congress. At that time, I hope that our committee will take a comprehensive look at how the broad array of modern technologies can be applied to improving the Nation's education system.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. KILDEE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan [Mr. KILDEE] that the House suspend the rules and pass the Senate bill, S. 3134, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill, as amended, was passed.

A motion to reconsider was laid on the table.

SMALL BUSINESS RESEARCH AND DEVELOPMENT ENHANCEMENT ACT OF 1992

Mr. SKELTON. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2941) to provide the Administrator of the Small Business Administration continued authority to administer the Small Business Innovation Research Program, and for other purposes.

The Clerk read as follows:

S. 2941

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Small Business Research and Development Enhancement Act of 1992".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
TITLE I—SMALL BUSINESS INNOVATION RESEARCH PROGRAM
Sec. 101. Short title.
Sec. 102. Findings and purposes.
Sec. 103. Amendments to small business innovation research program.
Sec. 104. Extension of SBIR program.
Sec. 105. Reports of the Comptroller General.
Sec. 106. Recommendations of the Secretary of Defense.
TITLE II—SMALL BUSINESS TECHNOLOGY TRANSFER PILOT PROGRAM
Sec. 201. Short title.
Sec. 202. Establishment of small business technology transfer pilot program.
TITLE III—MISCELLANEOUS PROVISIONS
Sec. 301. Discretionary technical assistance to SBIR awardees.
Sec. 302. Extension of the technology transfer demonstration program.
Sec. 303. Reporting requirements.
Sec. 304. Small Business Institutes.
Sec. 305. Additional SBIR and STTR provisions.
Sec. 306. Sense of the Congress concerning American-made equipment and products.
Sec. 307. Technical corrections.

TITLE I—SMALL BUSINESS INNOVATION RESEARCH PROGRAM

SEC. 101. SHORT TITLE.

This title may be cited as the "Small Business Innovation Research Program Reauthorization Act of 1992".

SEC. 102. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) the small business innovation research program established under the Small Business Innovation Development Act of 1982, (hereafter in this Act referred to as the "SBIR" program) has been a successful method of involving small business concerns in Federal research and development;

(2) the small business innovation research program has been an effective catalyst for the development of technological innovations by small business concerns;

(3) small business innovation research program participants have provided high quality research and development in a cost-effective manner;

(4) the innovative products and services developed by small business concerns participating in the small business innovation research program have been important to the national defense, as well as to the missions of the other participating Federal agencies;

(5) the small business innovation research program has effectively stimulated the commercialization of technology developed through Federal research and development, benefiting both the public and private sectors of the Nation;

(6) by encouraging the development and commercialization of technological innovations, the small business innovation research program has created jobs, expanded business opportunities for small firms, stimulated the development of new products and services, and improved the competitiveness of the Nation's high technology industries;

(7) the small business innovation research program has also helped to increase exports from small business concerns;

(8) despite the general success of the small business innovation research program, the proportion of Federal research and development funds received by small business concerns has not increased over the life of the program, but has remained at 3 percent; and

(9) although the participating Federal agencies have successfully implemented most aspects of the small business innovation research program, additional outreach efforts are necessary to stimulate increased participation of socially and economically disadvantaged small business concerns.

(b) PURPOSES.—The purposes of this title are—

(1) to expand and improve the small business innovation research program;

(2) to emphasize the program's goal of increasing private sector commercialization of technology developed through Federal research and development;

(3) to increase small business participation in Federal research and development; and

(4) to improve the Federal Government's dissemination of information concerning the

small business innovation research program, particularly with regard to program participation by women-owned small business concerns and by socially and economically disadvantaged small business concerns.

SEC. 103. AMENDMENTS TO SMALL BUSINESS INNOVATION RESEARCH PROGRAM.

(a) DEFINITION OF THE SMALL BUSINESS INNOVATION RESEARCH PROGRAM.—Section 9(e)(4) of the Small Business Act (15 U.S.C. 638(e)(4)) is amended—

(1) in subparagraph (A), by inserting "that appear to have commercial potential, as described in subparagraph (B)(ii)," after "ideas"; and

(2) by striking subparagraphs (B) and (C) and inserting the following:

"(B) a second phase, to further develop proposals which meet particular program needs, in which awards shall be made based on the scientific and technical merit and feasibility of the proposals, as evidenced by the first phase, considering, among other things, the proposal's commercial potential, as evidenced by—

"(i) the small business concern's record of successfully commercializing SBIR or other research;

"(ii) the existence of second phase funding commitments from private sector or non-SBIR funding sources;

"(iii) the existence of third phase, follow-on commitments for the subject of the research; and

"(iv) the presence of other indicators of the commercial potential of the idea; and

"(C) where appropriate, a third phase—

"(i) in which commercial applications of SBIR-funded research or research and development are funded by non-Federal sources of capital or, for products or services intended for use by the Federal Government, by follow-on non-SBIR Federal funding awards; and

"(ii) for which awards from non-SBIR Federal funding sources are used for the continuation of research or research and development that has been competitively selected using peer review or scientific review criteria; and".

(b) REQUIRED EXPENDITURES FOR SBIR BY FEDERAL AGENCIES.—Section 9(f) of the Small Business Act (15 U.S.C. 638(f)) is amended to read as follows:

"(f) FEDERAL AGENCY EXPENDITURES FOR THE SBIR PROGRAM.—

"(1) REQUIRED EXPENDITURE AMOUNTS.—Each Federal agency which has an extramural budget for research or research and development in excess of $100,000,000 for fiscal year 1992, or any fiscal year thereafter, shall expend with small business concerns—

"(A) not less than 1.5 percent of such budget in each of fiscal years 1993 and 1994;

"(B) not less than 2.0 percent of such budget in each of fiscal years 1995 and 1996; and

"(C) not less than 2.5 percent of such budget in each fiscal year thereafter,

specifically in connection with SBIR programs which meet the requirements of this section, policy directives, and regulations issued under this section.

"(2) LIMITATIONS.—A Federal agency shall not—

"(A) use any of its SBIR budget established pursuant to paragraph (1) for the purpose of funding administrative costs of the program, including costs associated with salaries and expenses; or

"(B) make available for the purpose of meeting the requirements of paragraph (1) an amount of its extramural budget for basic research which exceeds the percentages specified in paragraph (1).

"(3) EXCLUSION OF CERTAIN FUNDING AGREEMENTS.—Funding agreements with small business concerns for research or research and development which result from competitive or single source selections other than an SBIR program shall not be considered to meet any portion of the percentage requirements of paragraph (1).".

(c) INCLUSION OF CERTAIN DEPARTMENT OF DEFENSE RESEARCH AND DEVELOPMENT ACTIVITIES.—Section 9(e) of the Small Business Act (15 U.S.C. 638(e)) is amended in paragraph (1), by striking "for the Department of Defense" and all that follows through "development" and inserting "for the Department of Energy it shall not include amounts obligated for atomic energy defense programs solely for weapons activities or for naval reactor programs".

(d) SBIR SOLICITATIONS.—Section 9(g) of the Small Business Act (15 U.S.C. 638(g)) is amended—

(1) by redesignating paragraphs (3) through (7) as paragraphs (4) through (8), respectively; and

(2) by inserting after paragraph (2) the following new paragraph:

"(3) unilaterally determine research topics within the agency's SBIR solicitations, giving special consideration to broad research topics and to topics that further 1 or more critical technologies, as identified by—

"(A) the National Critical Technologies Panel (or its successor) in the 1991 report required under section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976, and in subsequent reports issued under that authority; or

"(B) the Secretary of Defense, in the 1992 report issued in accordance with section 2522 of title 10, United States Code, and in subsequent reports issued under that authority;".

(e) DEADLINE FOR FINAL PAYMENT UNDER SBIR FUNDING AGREEMENTS.—Section 9(g)(7) of the Small Business Act (15 U.S.C. 638(g)(7)) (as redesignated by subsection (d)(1)) is amended by inserting before the semicolon the following: "and, in all cases, make payment to recipients under such agreements in full, subject to audit, on or before the last day of the 12-month period beginning on the date of completion of such requirements".

(f) MODIFICATIONS TO SBIR POLICY DIRECTIVES.—Section 9(j) of the Small Business Act (15 U.S.C. 638(j)) is amended—

(1) in paragraph (2), by redesignating subparagraphs (A) through (H) as clauses (i) through (viii), respectively;

(2) by redesignating paragraphs (1) through (7) as subparagraphs (A) through (G), respectively;

(3) by inserting before "The Small Business Administration" the following:

"(1) POLICY DIRECTIVES.—"; and

(4) by adding at the end the following new paragraph:

"(2) MODIFICATIONS.—Not later than 90 days after the date of enactment of the Small Business Research and Development Enhancement Act of 1992, the Administrator shall modify the policy directives issued pursuant to this subsection to provide for—

"(A) retention by a small business concern of the rights to data generated by the concern in the performance of an SBIR award for a period of not less than 4 years;

"(B) continued use by a small business concern participating in the third phase of the SBIR program, as a directed bailment, of any property transferred by a Federal agency to the small business concern in the second phase of an SBIR program for a period of not less than 2 years, beginning on the initial date of the concern's participation in the third phase of such program;

"(C) procedures to ensure, to the extent practicable, that an agency which intends to pursue research, development, or production of a technology developed by a small business concern under an SBIR program enters into follow-on, non-SBIR funding agreements with the small business concern for such research, development, or production;

"(D) an increase to $100,000 in the amount of funds which an agency may award in the first phase of an SBIR program, and to $750,000 in the second phase of an SBIR program, and an adjustment of such amounts once every 5 years to reflect economic adjustments and programmatic considerations;

"(E) a process for notifying the participating SBIR agencies and potential SBIR participants of the 1991, 1992, and the current critical technologies, as identified—

"(i) by the National Critical Technologies Panel (or its successor), in accordance with section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976; or

"(ii) by the Secretary of Defense, in accordance with section 2522 of title 10, United States Code;

"(F) enhanced outreach efforts to increase the participation of socially and economically disadvantaged small business concerns, as defined in section 8(a)(4), and the participation of small businesses that are 51 percent owned and controlled by women in technological innovation and in SBIR programs, including the third phase of such programs, and the collection of data to document such participation;

"(G) technical and programmatic guidance to encourage agencies to develop gap-funding programs to address the delay between an award for the first phase of an SBIR program and the application for and extension of an award for the second phase of such program;

"(H) procedures to ensure that a small business concern that submits a proposal for a funding agreement for the first phase of an SBIR program and that has received more than 15 second phase SBIR awards during the preceding 5 fiscal years is able to demonstrate the extent to which it was able to secure third phase funding to develop concepts resulting from previous second phase SBIR awards; and

"(I) procedures to ensure that agencies participating in the SBIR program retain the information submitted under subparagraph (H) at least until the General Accounting Office submits the report required under section 105 of the Small Business Research and Development Enhancement Act of 1992.".

(g) ELIMINATION OF SURVEYING AND REPORTING REQUIREMENT.—Section 9(k) of the Small Business Act (15 U.S.C. 638(k)) is amended to read as follows:

"(k) [Reserved].".

(h) REPORTING OF AWARDS MADE FROM SINGLE PROPOSAL, TO MULTIPLE AWARD WINNERS, OR TO CRITICAL TECHNOLOGY TOPICS.—

(1) IN GENERAL.—Section 9 of the Small Business Act (15 U.S.C. 638) is amended by adding at the end the following new subsection:

"(l) REPORTING OF AWARDS MADE FROM SINGLE PROPOSAL, TO MULTIPLE AWARD WINNERS, OR TO CRITICAL TECHNOLOGY TOPICS.—

"(1) SINGLE PROPOSAL.—If a Federal agency required to establish an SBIR program under subsection (f) makes an award with respect to an SBIR solicitation topic or subtopic for which the agency received only 1 proposal, the agency shall provide written justification for making the award in its next quarterly report to the Administration and in the agency's next annual report required under subsection (g)(8).

"(2) MULTIPLE AWARDS.—An agency referred to in paragraph (1) shall include in its next annual report required under subsection (g)(8) an accounting of the awards the agency has made for the first phase of an SBIR program during the reporting period to entities that have received more than 15 awards for the second phase of an SBIR program during the preceding 5 fiscal years.

"(3) CRITICAL TECHNOLOGY AWARDS.—An agency referred to in paragraph (1) shall include in its next annual report required under subsection (g)(8), an accounting of the number of awards it has made to critical technology topics, as defined in subsection (g)(3), including an identification of the specific critical technologies topics, and the percentage by number and dollar amount of the agency's total SBIR awards to such critical technology topics.".

(2) CONFORMING AMENDMENT.—Section 9(g)(5) of the Small Business Act (15 U.S.C. 638(g)(5)) (as redesignated by subsection (d)) is amended by inserting "subject to subsection (*l*)," before "unilaterally".

(i) INFORMATION ON ALLOWABLE EXPENSES.—Section 9(g)(5) of the Small Business Act (as redesignated by subsection (d)) is amended by inserting before the semicolon the following: "and inform each awardee under such an agreement, to the extent possible, of the expenses of the awardee that will be allowable under the funding agreement".

SEC. 104. EXTENSION OF SBIR PROGRAM.

(a) REPEAL PROVISION.—Section 5 of the Small Business Innovation Development Act of 1982 is hereby repealed.

(b) TERMINATION DATE.—Section 9 of the Small Business Act (15 U.S.C. 638) is amended by adding at the end the following:

"(m) TERMINATION.—The authorization to carry out the Small Business Innovation Research Program under this section shall terminate on October 1, 2000.".

SEC. 105. REPORTS OF THE COMPTROLLER GENERAL.

(a) INTERIM REPORT.—

(1) IN GENERAL.—The Comptroller General of the United States shall submit to the Congress an interim report concerning the quality of research performed under SBIR program funding agreements entered into during fiscal year 1993 and thereafter. Copies of the interim report shall be furnished to each agency that has participated in the SBIR program in fiscal year 1993 or thereafter.

(2) CONTENTS OF REPORT.—The Comptroller General shall include in the interim report required under paragraph (1)—

(A) an assessment of the quality of the research performed under the SBIR program funding agreements entered into by each agency that has participated in the SBIR program beginning in fiscal year 1993 or thereafter, specifically addressing—

(i) with respect to each such agency, whether or not there has been a demonstrable reduction in research quality; and

(ii) in the case of such reduction, whether an increase in each such agency's required SBIR participation in accordance with section 9(f)(1) of the Small Business Act (as amended by subsection (b) of this section) would adversely affect the performance of the agency's research programs;

(B) an analysis of the program authorized by section 301 of the Small Business Research and Development Enhancement Act of 1992, considering, among other things—

(i) the extent to which each SBIR agency has implemented the program and the extent to which the program has improved the quality of agency-sponsored research and development;

(ii) the effect of the program on recipient companies' ability to develop and commercialize technology;

(iii) the cost of the program and the average cost per recipient company; and

(iv) the extent to which SBIR companies continue to use the service after completion of the program; and

(C) such other factors as the Comptroller General may deem appropriate.

(b) FINAL REPORT.—The Comptroller General of the United States shall transmit to the Congress a final report containing—

(1) a review of the progress made by Federal agencies in meeting the requirements of section 9(f) of the Small Business Act (as amended by this Act), including increases in expenditures required by that subsection;

(2) an analysis of participation by small business concerns in the third phase of SBIR programs, including a systematic evaluation of the techniques adopted by Federal agencies to foster commercialization;

(3) an analysis of the extent to which awards under SBIR programs are made pursuant to section 9(*l*) of the Small Business Act (as added by section 103(h)) in cases in which a program solicitation receives only 1 proposal;

(4) an analysis of the extent to which awards in the first phase of the SBIR program are made to small business concerns that have received more than 15 second phase awards under the SBIR program in the preceding 5 fiscal years, considering—

(A) the extent to which such concerns were able to secure Federal or private sector follow-on funding;

(B) the extent to which the research developed under such awards was commercialized; and

(C) the amount of commercialization of research developed under such awards, as compared to the amount of commercialization of SBIR research for the entire SBIR program;

(5) the results of periodic random audits of the extramural budget of each such Federal agency;

(6) a review of the extent to which the purposes of this title and the Small Business Innovation Development Act of 1982 have been met with regard to fostering and encouraging the participation of women-owned small business concerns and socially and economically disadvantaged small business concerns (as defined in the Small Business Act) in technological innovation, in general, and the SBIR program, in particular;

(7) an analysis of the effectiveness of the SBIR program in promoting the development of the critical technologies identified by the Secretary of Defense and the National Critical Technologies Panel (or its successor), as described in subparagraph 9(j)(2)(E) of the Small Business Act;

(8) an analysis of the impact of agency application review periods and funding cycles on SBIR program awardees' financial status and ability to commercialize; and

(9) recommendations to the Congress for tracking the extent to which foreign firms, or United States firms with substantial foreign ownership interests, benefit from technology or products developed as a direct result of SBIR research research or research and development.

(c) DATES OF SUBMISSION.—The report required—

(1) under subsection (a), shall be submitted to the Congress not later than March 31, 1995; and

(2) under subsection (b), shall be submitted to the Congress not later than 5 years after the date of enactment of this title.

SEC. 106. RECOMMENDATIONS OF THE SECRETARY OF DEFENSE.

Not later than March 31, 1996, the Secretary of Defense shall submit a recommendation to the Congress addressing whether there has been a demonstrable reduction in the quality of research performed under the SBIR program since the beginning of fiscal year 1993, such that increasing the percentage under section 9(f)(1)(C) of the Small Business Act (as amended by section 103 of this Act) would adversely affect the performance of the research programs of the Department of Defense.

TITLE II—SMALL BUSINESS TECHNOLOGY TRANSFER PILOT PROGRAM

SEC. 201. SHORT TITLE.

This title may be cited as the "Small Business Technology Transfer Act of 1992".

SEC. 202. ESTABLISHMENT OF SMALL BUSINESS TECHNOLOGY TRANSFER PILOT PROGRAM.

(a) ADDITIONAL SBA DUTIES.—Section 9(b) of the Small Business Act (15 U.S.C. 638(b)) is amended—

(1) in paragraph (4), by inserting "and small business technology transfer pilot programs" after "small business innovation research programs"; and

(2) in paragraphs (5), (6), and (7), by inserting "and STTR" after "SBIR" each place such term appears.

(b) SMALL BUSINESS TECHNOLOGY TRANSFER PILOT PROGRAM DEFINED.—Section 9(e) of the Small Business Act (15 U.S.C. 638(e)) is amended—

(1) in paragraph (4), by striking "and" at the end;

(2) in paragraph (5), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following new paragraphs:

"(6) the term 'Small Business Technology Transfer Program' or 'STTR' means a pilot program under which a portion of a Federal agency's extramural research or research and development effort is reserved for award to small business concerns for cooperative research and development through a uniform process having—

"(A) a first phase, to determine, to the extent possible, the scientific, technical, and commercial merit and feasibility of ideas submitted pursuant to STTR program solicitations;

"(B) a second phase, to further develop proposed ideas to meet particular program needs, in which awards shall be made based on the scientific, technical, and commercial merit and feasibility of the idea, as evidenced by the first phase and by other relevant information; and

"(C) where appropriate, a third phase—

"(i) in which commercial applications of STTR-funded research or research and development are funded by non-Federal sources of capital or, for products or services intended for use by the Federal Government, by follow-on non-STTR Federal funding awards; and

"(ii) for which awards from non-STTR Federal funding sources are used for the continuation of research or research and development that has been competitively selected using peer review or scientific review criteria;

"(7) the term 'cooperative research and development' means research or research and development conducted jointly by a small business concern and a research institution in which not less than 40 percent of the work is performed by the small business concern, and not less than 30 percent of the work is performed by the research institution; and

"(8) the term 'research institution' means a nonprofit institution, as defined in section 4(5) of the Stevenson-Wydler Technology Innovation Act of 1980, and includes federally funded research and development centers, as identified by the National Scientific Foundation in accordance with the governmentwide Federal Acquisition Regulation issued in accordance with section 35(c)(1) of the Office of Federal Procurement Policy Act (or any successor regulation thereto).".

(c) ESTABLISHMENT OF SMALL BUSINESS TECHNOLOGY TRANSFER PROGRAMS BY CERTAIN FEDERAL AGENCIES.—Section 9 of the Small Business Act (15 U.S.C. 638) is amended by adding at the end the following new subsections:

"(n) REQUIRED EXPENDITURES FOR STTR BY FEDERAL AGENCIES.—

"(1) REQUIRED EXPENDITURE AMOUNTS.—Each Federal agency which has an extramural budget for research or research and development in excess of $1,000,000,000 in fiscal year 1994, 1995, or 1996, is authorized to expend with small business concerns—

"(A) not less than 0.05 percent of such budget in fiscal year 1994;

"(B) not less than 0.1 percent of such budget in fiscal year 1995; and

"(C) not less than 0.15 percent of such budget in fiscal year 1996,

specifically in connection with STTR programs which meet the requirements of this section, policy directives, and regulations issued under this section.

"(2) LIMITATIONS.—A Federal agency shall not—

"(A) use any of its STTR budget established pursuant to paragraph (1) for the purpose of funding administrative costs of the program, including costs associated with salaries and expenses, or, in the case of a small business concern or a research institution, costs associated with salaries, expenses, and administrative overhead (other than those direct or indirect costs allowable under guidelines of the Office of Management and Budget and the governmentwide Federal Acquisition Regulation issued in accordance with section 25(c)(1) of the Office of Federal Procurement Policy Act); or

"(B) make available for the purpose of meeting the requirements of paragraph (1) an amount of its extramural budget for basic research which exceeds the percentage specified in paragraph (1).

"(3) EXCLUSION OF CERTAIN FUNDING AGREEMENTS.—Funding agreements with small business concerns for research or research and development which result from competitive or single source selections other than an STTR program shall not be considered to meet any portion of the percentage requirements of paragraph (1).

"(o) FEDERAL AGENCY STTR AUTHORITY.—Each Federal agency required to establish an STTR program in accordance with subsection (n) and regulations issued under this Act, shall—

"(1) unilaterally determine categories of projects to be included in its STTR program;

"(2) issue STTR solicitations in accordance with a schedule determined cooperatively with the Administration;

"(3) unilaterally determine research topics within the agency's STTR solicitations, giving special consideration to broad research topics and to topics that further 1 or more critical technologies, as identified—

"(A) by the National Critical Technologies Panel (or its successor) in reports required under section 603 of the National Science and Technology Policy, Organization, and Priorities Act of 1976; or

"(B) by the Secretary of Defense, in accordance with section 2522 of title 10, United States Code;

"(4) unilaterally receive and evaluate proposals resulting from STTR solicitations;

"(5) unilaterally select awardees for its STTR funding agreements and inform each awardee under such an agreement, to the extent possible, of the expenses of the awardee that will be allowable under the funding agreement;

"(6) administer its own STTR funding agreements (or delegate such administration to another agency);

"(7) make payments to recipients of STTR funding agreements on the basis of progress toward or completion of the funding agreement requirements and, in all cases, make payment to recipients under such agreements in full, subject to audit, on or before the last day of the 12-month period beginning on the date of the completion of such requirements;

"(8) submit an annual report on the STTR program to the Administration and the Office of Science and Technology Policy;

"(9) develop a model agreement not later than July 31, 1993, to be approved by the Administration, for allocating between small business concerns and research institutions intellectual property rights and rights, if any, to carry out follow-on research, development, or commercialization;

"(10) develop, in consultation with the Office of Federal Procurement Policy and the Office of Government Ethics, procedures to ensure that federally funded research and development centers (as defined in subsection (e)(8)) that participate in STTR agreements—

"(A) are free from organizational conflicts of interests relative to the STTR program;

"(B) do not use privileged information gained through work performed for an STTR agency or private access to STTR agency personnel in the development of an STTR proposal; and

"(C) use outside peer review, as appropriate; and

"(11) not later than July 31, 1993, develop procedures for assessing the commercial merit and feasibility of STTR proposals, as evidenced by—

"(A) the small business concern's record of successfully commercializing STTR or other research;

"(B) the existence of second phase funding commitments from private sector or non-STTR funding sources;

"(C) the existence of third phase follow-on commitments for the subject of the research; and

"(D) the presence of other indicators of the commercial potential of the idea.

"(p) STTR POLICY DIRECTIVE.—

"(1) ISSUANCE.—The Administrator shall issue a policy directive for the general conduct of the STTR programs within the Federal Government. Such policy directive shall be issued after consultation with—

"(A) the heads of each of the Federal agencies required by subsection (n) to establish an STTR program;

"(B) the Commissioner of Patents and Trademarks; and

"(C) the Director of the Office of Federal Procurement Policy.

"(2) CONTENTS.—The policy directive required by paragraph (1) shall provide for—

"(A) simplified, standardized, and timely STTR solicitations;

"(B) a simplified, standardized funding process that provides for—

"(i) the timely receipt and review of proposals;

"(ii) outside peer review, if appropriate;

"(iii) protection of proprietary information provided in proposals;

"(iv) selection of awardees;

"(v) retention by a small business concern of the rights to data generated by the concern in the performance of an STTR award for a period of not less than 4 years;

"(vi) continued use by a small business concern, as a directed bailment, of any property transferred by a Federal agency to the small business concern in the second phase of the STTR program for a period of not less than 2 years, beginning on the initial date of the concern's participation in the third phase of such program;

"(vii) cost sharing;

"(viii) cost principles and payment schedules; and

"(ix) 1-year awards for the first phase of an STTR program, generally not to exceed $100,000, and 2-year awards for the second phase of an STTR program, generally not to exceed $500,000, greater or lesser amounts to be awarded at the discretion of the awarding agency;

"(C) minimizing regulatory burdens associated with participation in STTR programs;

"(D) guidelines for a model agreement, to be used by all agencies, for allocating between small business concerns and research institutions intellectual property rights and rights, if any, to carry out follow-on research, development, or commercialization;

"(E) procedures to ensure that—

"(i) a recipient of an STTR award is a small business concern, as defined in section 3 and the regulations promulgated thereunder; and

"(ii) such small business concern exercises management and control of the performance of the STTR funding agreement pursuant to a business plan providing for the commercialization of the technology that is the subject matter of the award; and

"(F) procedures to ensure, to the extent practicable, that an agency which intends to pursue research, development, or production of a technology developed by a small business concern under an STTR program enters into follow-on, non-STTR funding agreements with the small business concern for such research, development, or production.".

(d) TIMING OF ISSUANCE OF POLICY DIRECTIVE.—The policy directive required by section 9(p) of the Small Business Act (as added by subsection (c) of this section) shall be published—

(1) in proposed form (with an opportunity for public comment of not less than 30 days), not later than April 30, 1993; and

(2) in final form, not later than July 31, 1993.

(e) REPORT OF THE COMPTROLLER GENERAL.—Not later than March 31, 1996, the Comptroller General of the United States shall submit a report to the Congress and the head of each agency that is required to make expenditures under the STTR program that—

(1) sets forth the Comptroller General's assessment, with respect to each such agency, of—

(A) the quality of research performed under funding agreements awarded by that agency under the STTR program since the beginning of the program;

(B) whether or not the STTR program has affected the performance of that agency's research programs; and

(C) the commercial potential of research conducted under the STTR program, if sufficient data is available;

(2) contains the Comptroller General's assessment as to the effects of the STTR pro-

gram, if any, on the research quality and goals of the SBIR program; and

(3) determines the agencies and the federally-funded research and development centers' compliance with the procedures developed under section 9(g)(10) of the Small Business Act, as amended by this section.

TITLE III—MISCELLANEOUS PROVISIONS

SEC. 301. DISCRETIONARY TECHNICAL ASSISTANCE TO SBIR AWARDEES.

(a) In General.—Section 9 of the Small Business Act (15 U.S.C. 638) is amended by adding at the end the following new subsection:

"(q) Discretionary Technical Assistance.—

"(1) In general.—Each Federal agency required by this section to conduct an SBIR program may enter into an agreement with a vendor selected under paragraph (2) to provide small business concerns engaged in SBIR projects with technical assistance services, such as access to a network of scientists and engineers engaged in a wide range of technologies, or access to technical and business literature available through on-line data bases, for the purpose of assisting such concerns in—

"(A) making better technical decisions concerning such projects;

"(B) solving technical problems which arise during the conduct of such projects;

"(C) minimizing technical risks associated with such projects; and

"(D) developing and commercializing new commercial products and processes resulting from such projects.

"(2) Vendor selection.—Annually, each agency may select a vendor for purposes of this subsection using competitive, merit-based criteria, to assist small business concerns to meet the goals listed in paragraph (1).

"(3) Additional technical assistance.—

"(A) First phase.—Each agency referred to in paragraph (1) may provide services described in paragraph (1) to first phase SBIR award recipients in an amount equal to not more than $4,000, which shall be in addition to the amount of the recipient's award.

"(B) Second phase.—Each agency referred to in paragraph (1) may authorize any second phase SBIR award recipient to purchase, with funds available from their SBIR awards, services described in paragraph (1), in an amount equal to not more than $4,000 per year.

SEC. 302. EXTENSION OF THE TECHNOLOGY TRANSFER DEMONSTRATION PROGRAM.

Section 231 of the Small Business Administration Reauthorization and Amendments Act of 1990 (15 U.S.C. 648 note) is amended—

(1) in subsection (g), by striking "1993" and inserting "1995"; and

(2) in subsection (i), by striking "1991, 1992, and" and inserting "1994 and 1995".

SEC. 303. REPORTING REQUIREMENTS.

(a) Report on Deficient Subcontracting Plans.—Section 8(d) of the Small Business Act (15 U.S.C. 637(d)) is amended—

(1) by striking paragraph (11); and

(2) by redesignating paragraph (12) as paragraph (11).

(b) Small Purchases From Federal Prison Industries.—Section 4124(c) of title 18, United States Code, is amended in the first sentence by striking "to the General Services Administration" and all that follows through "Procurement Policy Act" and inserting "acquisitions of products and services from Federal Prison Industries to the Federal Procurement Data System (as referred to in section 6(d)(4) of the Office of Federal Procurement Policy Act) in the same manner as it reports other acquisitions".

SEC. 304. SMALL BUSINESS INSTITUTES.

Section 8(b)(1) of the Small Business Act (15 U.S.C. 637(b)(1)) is amended—

(1) by redesignation subparagraphs (E) and (F) as subparagraphs (F) and (G), respectively; and

(2) by inserting after subparagraph (D) the following:

"(E) In carrying out its functions under subparagraph (A), to make grants (including contracts and cooperative agreements) to any public or private institution of higher education for the establishment and operation of a small business institute, which shall be used to provide business counseling and assistance to small business concerns through the activities of students enrolled at the institution, which students shall be entitled to receive educational credits for their activities.".

SEC. 305. ADDITIONAL SBIR AND STTR PROVISIONS.

Section 9 of the Small Business Act (15 U.S.C. 638), is amended by adding at the end the following new subsection:

"(r) Third Phase Agreements.—

"(1) In general.—In the case of a small business concern that is awarded a funding agreement for the second phase of an SBIR or STTR program, a Federal agency may enter into a third phase agreement with that business concern for additional work to be performed during or after the second phase period. The second phase funding agreement with the small business concern may, at the discretion of the agency awarding the agreement, set out the procedures applicable to third phase agreements with that agency or any other agency.

"(2) Definition.—In this subsection, the term 'third phase agreement' means a follow-on, non-SBIR or non-STTR funded contract as described in paragraph (4)(C) or paragraph (6)(C) of subsection (e).

"(3) Intellectual property rights.—Each funding agreement under an SBIR or STTR program shall include provisions setting forth the respective rights of the United States and the small business concern with respect to intellectual property rights and with respect to any right to carry out follow-on research.".

SEC. 306. SENSE OF THE CONGRESS CONCERNING AMERICAN-MADE EQUIPMENT AND PRODUCTS.

(a) Purchase of American-Made Equipment and Products.—It is the sense of the Congress that an entity that is awarded a funding agreement under the SBIR program of a Federal agency under section 9 of the Small Business Act should, when purchasing any equipment or a product with funds provided through the funding agreement, purchase only American-made equipment and products, to the extent possible in keeping with the overall purposes of that program.

(b) Notice to SBIR Awardees.—Each Federal agency that awards funding agreements under the SBIR program shall provide to each recipient of such an award a notice describing the sense of the Congress, as set forth in subsection (a).

SEC. 307. TECHNICAL CORRECTIONS.

(a) Small Business Participation Rates.—Section 714(b)(4) of the Small Business Competitiveness Demonstration Program Act of 1988 (15 U.S.C. 644 note, 102 Stat. 3892) is amended by inserting "or other services in support of such contracts" after "(including surveying and mapping)".

(b) Microloan Program Funding.—Section 7(m)(7) of the Small Business Act (15 U.S.C. 636(m)(7)) is amended—

(1) in subparagraph (A), by adding at the end the following: "If, at the end of fiscal year 1992, the Administration has funded less than 50 microloan programs under this subparagraph, the Administration may, in fiscal year 1993, fund a number of additional microloan programs equal to the difference between 50 and the number of microloan programs actually funded in fiscal year 1992."; and

(2) in subparagraph (B), by striking "In the second" and inserting "In addition to any microloan programs authorized to be funded in fiscal year 1993 in accordance with subparagraph (A), in the second".

(c) Definition of Intermediary.—Section 7(m)(11)(A)(ii) of the Small Business Act (15 U.S.C. 636(m)(11)(A)(ii)) is amended by inserting "private," before "nonprofit".

(d) Secondary Loan Markets.—Section 5(f)(4) of the Small Business Act (15 U.S.C. 634(f)(4)) is amended by striking "5(e), 7(a)(6), or 7(a)(8)" and inserting "7(a)(6)(C) or subsection (e) of this section".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Missouri [Mr. Skelton] will be recognized for 20 minutes, and the gentleman from Florida [Mr. Ireland] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Missouri [Mr. Skelton].

Mr. SKELTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentleman from Kentucky [Mr. Hopkins] and I were to have a colloquy on this issue. However, we have worked it out.

Mr. Speaker, I would like to state that the gentleman from Florida [Mr. Ireland], the ranking member of the Committee on Small Business and also a very active member of the Committee on Armed Services, is making his last appearance on this floor. The gentleman has been a good friend, truly an outstanding Member of Congress, and I wish him well.

Mr. Speaker, the bill before us today is really a refinement of a measure that already passed the House by an overwhelming margin in August. S. 2941, the Small Business Research and Development Enhancement Act of 1992 is taken almost entirely from H.R. 4400, the Small Business Innovation Development Act Amendments of 1992 which many of my colleagues cosponsored and which reauthorizes and expands the Small Business Innovation Research Program [SBIR]. The SBIR Program has been remarkably successful in its 10-year history and its reauthorization and expansion has received overwhelming support here and from the administration.

The changes made to our original text by the other body are not extensive and do not alter the character of the program we have already approved. Indeed, I believe most of their additions improve the program.

The key changes that S. 2941 makes in the language we have already passed in H.R. 4400 are as follows:

S. 2941 slightly alters the timetable for the periodic increases in the SBIR program, starting immediately at 1.5 percent of extramural R&D allocated for small businesses in 1993 and 1994, then rising to 2 percent in 1995 and 1996. Finally, the full level of 2.5 percent would be reached in 1997 and thereafter; while this changes our steady yearly implementation schedule of .25 percent per year from 1994 through 1998, we believe the result will be the same.

Agency heads would no longer make a determination whether or not the program will continue to grow past the 2 percent level nor review program quality. The General Accounting Office will still issue their report of the progress of the growth, but only DOD, which has the largest program, will make recommendations with regard to the increases in SBIR. Congress is free to terminate the proposed increases if there is a problem.

Requires the agencies in formulating their solicitations to consider topics which address the needs expressed in the national critical technologies lists that are compiled by the Department of Defense and the Department of Commerce; to assist small businesses, the SBA is directed to help agencies notify potential participants of critical technologies; also, agencies are directed to keep track of how many projects relate to critical technologies and GAO will report on it.

Instructs the SBA to do more to reach out to socially and economically disadvantaged firms and women-owned businesses.

Provides a specific prohibition against any agency using part of their SBIR allocation for administrative costs.

Increases the amount of money that may be awarded in phase I of the SBIR Program to $100,000; our bill raised the amount from $50,000 to $75,000 but agencies are free to award less if they choose or more if they request a liberally granted waiver.

Increases the amount of money that may be awarded in phase II of the SBIR Program to $750,000 from $500,000.

Instructs SBA to provide guidance to encourage agencies to adopt gap-funding programs that help small businesses bridge the gap between a phase I award and a phase II award.

Requires a phase I applicant that has won 15 phase II awards within the last 5 years to demonstrate the extent to which it was able to receive Phase III funding for those projects. Requires the agency to keep track of that information and GAO to report the information in 4 years; this will safeguard against proposal mills, those companies which win awards but do not work very hard to commercialize them. If there is a real problem, this information will allow us to pinpoint it and take the necessary action.

Directs GAO to keep track of the extent to which foreign firms or U.S. firms with substantial foreign ownership benefit from technology and products form SBIR.

A new section, section 301 of the bill, provides that an agency may allow an SBIR winner an additional amount up to $4,000 above their given award to be used for technical assistance services such as scientific information networks. The Agencies will keep track of their use of this program and GAO will report on it; this amendment stems from a study done by the House Small Business Committee showing that such methods of technology transfer leverages the benefits produced by small businesses.

One part I would particularly like to mention, the Small Business Technology Transfer Program [STTR] has been revised by the other body will be implemented on a 3-year pilot program basis at five agencies—DOD, HHS, NASA, DOE, and NSF. As modified in the Senate, it will be funded through a small allocation from the agencies' extramural R&D budgets, subject to limitations placed upon the program by the Appropriations Committees in future legislation.

I would also like to congratulate GLENN POSHARD and our Chairman JOHN LAFALCE for their hard work on this promising new program. It should bring a whole new dimension to high-tech business development.

Mr. Speaker, these 12 small changes do not change the basic character of the bill we have already passed and, in most cases, added improvements. I urge my colleagues to support this successful program.

□ 0530

Mr. Speaker, I reserve the balance of my time.

Mr. IRELAND. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to support S. 2941, the Small Business Research and Development Enhancement Act of 1992. The other body has made several positive changes to our original legislation and I compliment my friend IKE SKELTON for discussing them in such detail. I have spoken often on this subject. Let me begin today with a salute to several American heroes whose tireless effort and commitment have led to this reauthorization.

Our Small Business Committee chairman, JOHN LAFALCE, gave top priority to reauthorizing the SBIR Program. He pushed our final product, H.R. 4400, through our committees, several other committees, and the full House last summer.

IKE SKELTON, our Procurement Subcommittee chairman, did yeoman's work on his subcommittee as well as a brilliant negotiation job with other committees and was very ably assisted by his ranking member and fellow Missourian MEL HANCOCK. Small Business Committee staff both on the full committee and on the subcommittee performed in a very careful and professional manner.

Finally I would like to cite the efforts of a private citizen—Mr. Milton D. Stewart. Mr. Stewart was the first chief counsel of advocacy at the Small Business Administration. In the 12 years since he left that post he has spent almost the full time educating the small business community about the SBIR Program. During the summer he even went to extraordinary lengths. He put on a full day exhibition of SBIR success stories in both the House and Senate. I cannot tell you the value of that exercise to the Congress—it is incalculable. He is one example of what one citizen can do.

Mr. Speaker, this legislation contains one of the most important strides recently made in this Nation in the area of research and development. We will eventually move the allocation of Federal research dollars from 1¼ percent of qualified taxpayer money available to an allocation of 2½ percent of available funds. This is an admirable and long overdue reallocation.

By this time most citizens are as fed up as I am at the constant stories of fraud and abuse in great amounts that seem to beset the 98¾-percent set-aside that major universities, Federal labs, and large companies have been feasting and grazing upon for far too long. Why we need such a huge poorly policed set-aside in our budget is a mystery to me. Small business has earned and deserves a larger allocation. Today we correct the situation.

Mr. Speaker, in conclusion, the SBIR allocation of Federal research and development dollars over the years has been a good one for America. The program has been dissected and investigated by everyone it seems except the KGB. The program has been shown to be a positive one. It has proven itself. It deserves reauthorization and expansion. I urge support of S. 2941 and I reserve the balance of my time.

Mr. Speaker, I would like to say to my friends on the Armed Services Committee that I share their concerns over the quality of Federal Research. The meager allocation given to small business should be closely checked. However we should show similar concern for the huge 98-percent set-aside that goes to Federal labs and large universities and businesses.

I would remind everyone that Stanford University the last few years has done to the American taxpayer what they did to Notre Dame on Saturday. Their transgressions alone in recent years probably have squandered more Federal dollars than were spent on the entire SBIR Program.

Mr. VALENTINE. Mr. Speaker, I rise in support of the compromise version of H.R. 4400, the Small Business Research and Development Enhancement Act of 1992, a bill of great importance to innovative small businesses across the country.

I wish to compliment the gentleman from New York [Mr. LAFALCE], the gentleman from Missouri [Mr. SKELTON], and all the other Members who worked hard to bring this bill before us.

I am sure that the other members of the Committee on Science, Space, and Technology would agree with me when I say that the Committee on Small Business has been quite responsive to our concerns and recommendations and that their collegial attitude has led to a strong bill that all should support.

There were many concerns raised before my subcommittee when we held our legislative hearings. The General Accounting Office report indicated that certain companies were receiving a large share of the financial benefits of the program but were achieving a smaller share of the commercial successes. Certain agencies were concerned with the speed with which the program would grow.

Some small businesses had concerns about the timing of assistance under the SBIR Program. Positive changes have been made in each of these areas.

The version of H.R. 4400 before us now has a very positive emphasis on development and commercialization of advanced technology. It will aid those small businesses which are most likely to come up with the inventions and products America needs to be competitive in the future with grants that are now large enough to make a difference.

Mr. Speaker, I am fortunate to come from a district that has a wealth of innovative small businesses. I am familiar with the difference the current modest SBIR Program has made for these companies and I am convinced that there are more good ideas than funds in these companies.

Therefore, I urge my colleagues to enhance the SBIR Program by voting for H.R. 4400 and to allow America's small businesses to make an even stronger contribution to our economy of the future.

Mrs. LLOYD. Mr. Speaker, I rise today in the strongest possible support for S. 2941, the Small Business Research and Development Enhancement Act. This critical legislation reauthorizes the highly successful and job producing Small Business Innovative Research Program.

My colleagues, the American people have demanded job growth and industrial competitiveness. The Small Business Innovative Research Program is a job creating initiative that establishes Goverment small business partnerships in high-technology fields. The technologies are then commercialized for use in our Nation's industrial sector. The object is to modernize and increase the efficiency of our industrial base and to improve competitiveness and job growth.

SBIR has worked magnificently in Tennessee's Third District. Approximately 700 jobs have been created in my district through SBIR and many of those same businesses have other important work pending reauthorization of the program. In a time of increasing pressure on Congress to weed out wasteful programs and concentrate on the economy, S. 2941 comes at exactly the right time. Reauthorization of this job creating, investing in our future program is precisely the type of legislative medicine that our ailing economy needs.

Mr. Speaker, I want to draw the attention of the Members to a new program included within S. 2941, the Small Business Technology Transfer Program, or STTR. This new initiative carries SBIR one step further, by allowing members of our scientific community employed at government contractor operated national labs and prominent universities to engage in SBIR-like partnerships with business. The goal of STTR is the same as SBIR, to exploit and commercialize new technologies. Without STTR, a great resource goes untapped. Both the Science Committee and the Armed Services Committee support this program.

Specifically, this bill would direct five agencies to implement STTR programs—including DOE, NASA, and the National Science Foundation, which are under the purview of the Science Committee. STTR would be a 3-year pilot program and could be limited by the Appropriations Committee in future legislation. I am convinced that this pilot program will prove successful, and that when we revisit the issue in 1996, we will look back on what we started here today with a great sense of accomplishment.

I urge support for S. 2941.

Mr. HOPKINS. Mr. Speaker, when the predecessor to this bill, H.R. 4400, passed the House, we on the Armed Services Committee added a provision which allowed the head of each agency to review the SBIR Program and interrupt its growth at the 2-percent level if the proposals were failing to maintain the high standard of quality we expect of the program. The determination was to be made by the agency head after reviewing a GAO study of the program. The original bill also contained a slow but steady growth schedule to insure that the agency infrastructure could keep pace with the growing number of proposals. I understand that the other body objected to this agency determination and simply provided for a recommendation by the Secretary of Defense to Congress if the program deteriorates at the 2-percent level. In addition, I understand they have accelerated the scheduled increases.

The true danger to the SBIR Program is that the quality might deteriorate if its size outstrips its base of qualified small R&D business. This is a greater possibility in the DOD SBIR Program than any other agency because the bill also adds a substantial new pool of funds to the SBIR formula which will, in effect, triple the size of the DOD SBIR Program.

Reasonable latitude would mean a good faith effort by the DOD to increase the size of their program to meet the prescribed levels in 1993, 1995, and 1997.

And finally, it is the gentleman's intention that the Armed Services Committee and the Small Business Committee give serious and prompt consideration to the recommendation made by the Secretary. And further, that the DOD would be within their reasonable latitude if it waited for 1 year if the Secretary makes a negative recommendation before implementing further increases to see if Congress were going to act.

Mr. SKELTON. Mr. Speaker, I have examined the gentleman's statement and the gentleman raises an excellent point. Frankly, we felt, and I know the gentleman agrees, that new products, new jobs, and growing businesses are vitally important to our economy. We feel the evidence supports controlled growth in this highly successful program. But we recognize that the DOD will have the most difficult time, among the various agencies, absorbing the growth. DOD has the largest program to begin with and an additional budget segment—6.6 research—is being added by this bill. The implementation formula, adopted by the other body, reflects a desire to set out uniform participation levels but I believe all parties agree that the DOD should be allowed reasonable latitude to digest their disproportionately larger increase. It is the foremost intention of the authors that the program be flexible enough so that quality can be maintained.

Mr. HAYES. Mr. Speaker, I rise in strong support of S. 2941, the Small Business Research and Development Enhancement Act of 1992. I strongly supported this legislation when it was first passed by the House in August, and I am very pleased to move this bill to the President's Desk.

Whether you control a fortune 500 firm or a small business, it is clear that the current emphasis on competitiveness is critical in any decision you make. Our foreign competitors understand this. That is why in Germany and Japan, the Government and private industry cooperate in an effort to commercialize important technologies which will provide economic opportunity to their people.

S. 2941 and H.R. 4400, the House legislation sponsored by Congressman IKE SKELTON, seeks to do no more than is already being done in Germany and Japan. It will seek to increase American competitiveness by allocating funding to small businesses who work to commercialize Federal technology under the Small Business Innovation Research [SBIR] Program. It will increase the amount of money available to individual small businesses as well as to the program as a whole.

This bill also establishes some new provisions under the SBIR Program. One of the most important is the expansion of this program to the Department of Defense and the Department of Energy. Considering the vast amounts of money and research that have been poured into the Department of Defense in the last decade, it is important we begin to use this technology for our economic security as well as our military security.

S. 2941 will also establish the Technology Transfer Pilot Program [STTR]. This program will allow small businesses working nonprofit institutions to also commercialize important technology.

As our economy continues to struggle, I believe strongly that we must support legislation like this, which seeks to combine the best of our Government with the best and most vibrant companies in our economy. We have all been awed by American technology at work in the Desert Storm, now let us take our knowledge and apply it to job creation and economic growth in our country.

Mr. LAFALCE. Mr. Speaker, I am pleased to rise today in support of S. 2941, the Small Business Research and Development Enhancement Act of 1992. This legislation is the Senate counterpart to H.R. 4400, which passed the House by voice vote on August 11, and is similar to H.R. 4400 in most major respects. Like H.R. 4400, it would reauthorize and expand the successful Small Business Innovation Research Program [SBIR] and would establish a new Small Business Technology Transfer Program [STTR]. The expansion of SBIR will bring more than $1 billion annually in research grants and contracts to small businesses in this country, more than doubling the size of the existing program. And STTR will draw upon the talents of small businesses to tap into a vast new reservoir of commercially promising ideas that originate in the Nation's universities, Federal laboratories, and nonprofit research institutions.

Senator RUDMAN and I, and the many others who worked to establish the SBIR Program in 1982, look back at what we accomplished then with a great sense of pride. During its 10 years of existence, SBIR has established itself as perhaps the most effective technology program in the Federal Government. Study after study by the GAO and SBA show that this program generated a remarkable amount of innovation by small companies. The most recent GAO study documented that SBIR awards over 1984–87 generated more than $1 billion in commercial spinoff of innovative products and developmental funding, and are likely to generate $3 billion more by the end of 1993.

The significance of the program therefore transcends the small business community and the Federal R&D effort; it goes to the much larger issue of long-term economic growth in this country. In the effort to revive long-term growth, nothing is more important than new technology. Technological advance accounts for nearly 50 percent of growth in GNP per person employed during this century, according to growth-accounting studies. And so programs like SBIR and STTR, which can give a major impetus to technological innovation, may be the key to reversing the economic stagnation of the past 4 years and, indeed, of the past two decades.

The House version of this bill, H.R. 4400, was reported upon favorably by all three committees of the House that considered it—the Small Business Committee, the Armed Services Committee, and the Science, Space, and Technology Committee. In addition, we have worked in consultation with the Energy and Commerce Committee to make sure that its concerns were met.

I wish to recognize the important role of the chairman of our Procurement Subcommittee, IKE SKELTON, in developing the original SBIR reauthorization bill earlier this year and guiding it through our committee. Our ranking minority member, ANDY IRELAND, has played a critical part in this process with his forceful advocacy of a larger role for small business in the Federal R&D effort. And Congressman GLENN POSHARD deserves recognition for his role as the chief sponsor and advocate of the STTR Program.

The main differences between S. 2941 and H.R. 4400 are as follows. S. 2941 contains a slightly faster expansion of SBIR than H.R. 4400. Whereas H.R. 4400 would have increased the SBIR percentage to 2.5 percent by fiscal year 1998, S. 2941 increases it to 2.5 percent by fiscal year 1997. In addition, whereas H.R. 4400 would have given the agencies an opportunity to hold the program to 2.0 percent in fiscal year 1996, S. 2941 leaves the burden on Congress to slow the expansion if that is judged to be in the interest of the country. Both bills expand the base of extramural research from which the SBIR percentage is calculated.

The STTR Program has been scaled back somewhat compared to the House version. As included in S. 2941, STTR will be a 3-year pilot program, and will be funded through an allocation from the agencies' extramural R&D budgets, rather than from their total R&D budgets. Furthermore, Federal laboratory participation will be limited to the contractor-operated Federal laboratories. Finally, at the request of the Senate Appropriations Committee, the bill language was modified to make it clear that the Appropriations Committees have an ongoing role to play in this program. Specifically, in S. 2941, STTR is constituted not as an automatic allocation from extramural R&D budgets, but rather as an authorization which the Appropriations Committees can limit or otherwise circumscribe in the future, if they so choose. The authorizing committees, however, fully expect that the agencies will initiate and implement STTR programs, unless instructed otherwise in subsequent appropriations bills.

The Senate bill also contains an important provision offered by Senator WELLSTONE which could significantly improve the quality of research conducted under this program and rate of commercialization. This provision allows each agency to contract with one vendor, chosen through a competitive process, to provide technical assistance services to SBIR awardees. The agency can provide phase I awardees with access to such services in addition to the amount of the award, to be paid from agency SBIR budgets. The agency may also allow phase II awardees to purchase such services with their SBIR awards.

This provision was modeled on Minnesota Project Outreach, a State program which provides small companies with subsidized access to a national network of technical experts and to interactive literature searching. Direct, systematic evidence indicates that the Minnesota program has a strong and consistent effect on the productivity of small companies. In addition, a survey of all 17 SBIR companies in Minnesota that participate in the Minnesota program found an overwhelming consensus that the program has had a major effect on the quality of these companies' research and their ability to commercialize.

Mr. ASPIN. Mr. Speaker, I rise to urge my colleagues to support S. 2941, which reauthorizes and expands the Small Business Innovation Research [SBIR] Program.

Recognizing the untapped capabilities of our Nation's small high-technology firms, the Congress established the SBIR Program 10 years ago to strengthen the role of small innovative companies in Federal research and development. Since 1982, it has been one of the shining stars among small business programs.

For the Department of Defense alone, which provides the largest amount of SBIR funds of any of the 11 agencies participating in the program, the quality of SBIR research projects and the subsequent transferring of that research into useful commercial products has been outstanding.

We are taking steps today to extend the program into the year 2000 and expand it by increasing the percentage share of Federal R&D dollars going to small businesses, and broadening the pools of defense funds available for the program. While there is some concern that we may be doing too much, too fast, in expanding the program at the rate provided in S. 2941, I believe with proper congressional oversight and agency responsiveness, we will continue to have an excellent SBIR Program.

In addition, S. 2941 would establish a Small Business Technology Transfer [STTR] initiative. Within the Department of Defense, an STTR Program can play a key role in enabling researchers at our Nation's universities, and federally funded research and development centers to team up with small companies to bring new ideas from the research institution to the commercial marketplace. As provided in the legislation, the Defense Department would start a 3-year pilot STTR Program, funded through a small allocation from DOD's extramural R&D budget and subject to limitations that the Appropriations Committee may place on the program. This new initiative has a great deal of merit, and should be fully tested.

In conclusion, I again urge my colleagues to support S. 2941.

Mr. POSHARD. Mr. Speaker, I rise in support of S. 2941. Ten years ago, it was the vision of legislators like JOHN LAFALCE, IKE SKELTON, NEAL SMITH, ANDY IRELAND, WARREN RUDMAN, and others that resulted in the establishment of the SBIR Program. SBIR has turned out to be perhaps the most effective innovation program in the country. The legislation we consider today, S. 2941, is equally visionary. Not only does it significantly expand the SBIR Program, but it creates a new Small Business Technology Transfer Program—STTR—which I believe could be of historic importance. With the support and assistance of Chairman LAFALCE, I offered the amendment to create STTR in the Small Business Committee. I wish to express my gratitude to him, as well as to my colleagues IKE SKELTON, NICK MAVROULES, TIM VALENTINE, AND MARILYN LLOYD for their crucial support of this initiative as it worked its way through three committees.

The STTR Program provided for in S. 2941 is a somewhat smaller version of the program that was authorized in the original House bill, H.R. 4400. STTR, as provided for in S. 2941, will be a 3-year pilot program at five agencies. The program will be funded through an allocation from agency extramural R&D budgets, rather than from total R&D budgets, as in the original bill. Federal laboratory participation will be limited to those which are contractor-operated. And the legislation was modified in the

Senate to clarify that STTR is not an automatic allocation from agency R&D budgets, but rather is subject to limitations that the Appropriations Committees may place upon the program in subsequent legislation.

But, above all, I am pleased that the STTR concept will finally be implemented. I believe that, one day, we will regard this program as a landmark in the economic development of this Nation.

STTR will tap a technological resource of enormous proportions which, heretofore, we have not deployed effectively—our Nation's universities, Federal laboratories, and nonprofit research institutions. These institutions employ 1 in 4 scientists and engineers in the United States, and perform more than $40 billion in research and development each year. They have brought this Nation to undisputed world leadership in basic research and many areas of applied research. They have generated the research breakthroughs that made the United States a military superpower in the post-war era.

The quarter of a million scientists and engineers in these insitutions often recognize important commercial applications of their research. But the way that research funding works in this country, there is no efficient mechanism enabling these scientists and engineers to pursue these commerical applications. Regular research grants generally do not fund commercially oriented research, and these researchers cannot participate in the SBIR Program in a significant way as long as they remain primarily employed at the university.

And so, many potential commerical applications languish in the research laboratory and never see the light of day. That is true at research institutions in my State, Mr. Speaker, and across the United States, from the research triangle in North Carolina, to the national laboratories in Tennessee and New Mexico, to the great research universities of California. The result, as the MIT Commission on Industrial Productivity has noted, is the "the scale of the [U.S.] scientific enterprise is unequaled, and [the United States] is second to none in making new discoveries. Yet U.S. companies increasingly find themselves lagging behind their foreign rivals in the commerical exploitation of inventions and discoveries."

We cannot go on wasting the talent of one-quarter of our Nation's scientists and engineers and expect to compete in the world economy of the 21st century. We must learn to be first not only in the generation of new knowledge, but in the commerical exploitation of that knowledge.

STTR will be an important step in that direction. STTR will allocate a small percentage of the Federal R&D budget to fund cooperative R&D projects involving a small company and a researcher at a research institution. STTR will thus join together two powerful forces for technological progress—the entrepreneurial talent of small businesses and the innovative ideas of the thousands of scientists and engineers in the Nation's research institutions. John Preston, Director of Technology Licensing at M.I.T. and Lincoln Laboratories, has testified that:

> The STTR proposal would supply funding at the most critical point in technology commercialization—before investors are willing to make risk investments, and after Government research funding sources consider the project too commercial to fund. Much of our technology has languished in this gap only to be recognized by foreign competitors and developed abroad. There is no question in my mind that the STTR program would strengthen U.S. competitiveness.

Specifically, under STTR as enacted, each of the five Federal agencies whose extramural R&D budget exceeds $1 billion per year will allocate a small percentage of that budget to fund cooperative R&D projects involving a small company and a researcher at a university, contractor-operated Federal laboratory, or nonprofit research institution. Each STTR project will thus join the scientific and technical expertise of the researcher, and the entrepreneurial expertise of the small company. The STTR percentage will start at 0.05 percent in fiscal year 1994, which amounts to about $22 million, and will rise to 0.15 percent by fiscal year 1996. As under SBIR, the research project will have to support the mission of the sponsoring agency.

Whereas SBIR exploits commercially-promising ideas that originate in the small business community, STTR will exploit a vast new reservoir of commercially promising ideas that originate in universities, Federal laboratories, and nonprofit research institutions. Thus STTR, I believe, could create the kind of small business, high-technology economic development now seen along Route 128 in Massachusetts and in Silicon Valley in California, around research institutions across the United States.

The STTR proposal recognizes that small, high-technology companies are the best vehicle for innovation in the economy. Studies commissioned by the National Science Foundation and others indicate that, on average, small companies contribute 2½ times more innovations per employee than large firms. They also contribute a disproportionately large share of the most significant innovations, including such notable examples as the small computer, Apple; the supercomputer, Cray; the planar integrated circuit, Fairchild; the instant camera, Polaroid; and the Xerox copier, Haloid.

Moreover, studies show that university collaboration with small companies in R&D, such as that envisioned by STTR, has a potent effect on innovation—more potent than company R&D performed solely in a company laboratory. Route 128 in Massachusetts and Silicon Valley in California are centers of high-technology economic development precisely because of university interaction with small, innovative companies.

Mr. Speaker, at this point I would like to address a number of specific questions that have arisen regarding the proposed STTR program.

What is the purpose of the STTR program?

STTR would be a vehicle for converting the Nation's $40-billion-per-year investment in research at universities, Federal laboratories, and nonprofit research institutions into new commercial technologies, in order to advance U.S. economic competitiveness and high-technology economic development. To move ideas from the research institution to the market, STTR would draw upon the talents of small, innovative companies, and use an approach parallel to that of the successful SBIR Program.

How would STTR complement the existing SBIR program?

SBIR exploits commercially-promising ideas which originate in the small business community, and university involvement in SBIR projects, while common, tends to be in a minor consulting or subcontracting role. STTR would use small companies to exploit a vast new reservoir of commercially-promising ideas which originate in universities, Federal laboratories, and nonprofit research institutions.

While the two programs would be separate and distinct, they would both harness the ability of small businesses to innovate and commercialize research.

Why does STTR fund cooperative R&D between small companies and research institutions? Is that the best way to move ideas from the institution to the marketplace?

A large body of evidence indicates that university collaboration with small companies in R&D has a potent effect on innovation—more potent than company R&D performed solely in a company laboratory. That has been established in systematic studies of emerging industries like biotechnology as well as more established manufacturing industries, and is evident in the examples of Route 128 and Silicon Valley.

Since such collaboration is so important, it makes sense to create a separate pot of money [STTR] which can only be accessed through such collaborations. That creates a strong incentive for researchers and small companies to find each other and work together, because the only way they can access STTR funding is by working together. The program also gives the research institutions themselves a strong incentive to facilitate R&D collaborations between their researchers and small companies, because only through such collaborations can the institutions and their researchers access STTR funding and patent royalties.

Why does STTR target small companies as the vehicle for moving ideas from the research institution to the marketplace?

According to the evidence, small companies are best suited for the job. Recent studies show that, on average, small companies contribute 2.5 times as many innovations per employee as large companies, and also contribute a disproportionately large share of the most significant innovations. As discussed earlier, other studies show that university collaboration with industry—and particularly with small companies—has a potent effect on innovation.

Wouldn't STTR drain agency research budgets at a time when those budgets are declining?

No. STTR, like SBIR, does not take a dime out of agency research budgets. Rather, it directs each agency to spend a small percentage of its R&D budget with certain performers of R&D—namely, small companies working cooperatively with research institutions. If the record of SBIR is any indication, that small reallocation of R&D performers will not adversely affect the agencies' research programs. The record is very clear on this with respect to SBIR—all 11 agencies that participate in that program report that it has had a positive impact on their research programs, and GAO found that the quality of SBIR research compares favorably with that of other agency research. There is every reason to believe that STTR would, likewise, sponsor mission-oriented research of the highest quality.

What effect would STTR have on basic research?

I believe that basic research in this country would be an important beneficiary of the STTR Program, because public support for funding of basic research depends ultimately on whether the public can see tangible evidence of a payoff to the economy and to the quality of life.

The Federal Technology Transfer Act of 1986 established procedures for cooperative R&D involving Federal laboratories. How would STTR dovetail with the 1986 act?

STTR would build upon the framework established in the Federal Technology Transfer Act. That act set up the basic statutory and regulatory structure on which STTR is built. It set up the Cooperative Research and Development Agreement [CRDA] mechanism at the Federal laboratories. It enabled Federal laboratory researchers to benefit financially from their patented inventions. And it directed the agencies to develop the conflict of interest regulations that govern cooperative R&D. STTR would operate within this existing statutory and regulatory structure and would not change it.

By almost all accounts, we are only beginning to tap the vast potential or our Nation's Federal laboratories and universities, despite more than 10 years of technology transfer legislation. What STTR would do is to dramatically accelerate the process—dramatically increase collaborations between researchers and companies—because it would add to the existing statutory and regulatory structure a very powerful incentive: money. STTR would, for the first time, establish a pot of money which can only be accessed by research institutions working collaboratively with small companies. Research institutions which sit on their hands and don't get into the technology transfer business will not get any of the STTR money. But research institutions which are good at linking their researchers with small companies will get a share of the STTR money, and will also get a share of the resulting patent royalties. And so, STTR would create a healthy competition among research institutions for technology transfer funding, and that competition could do dramatic things for economic development in this country.

How important would the Federal laboratories be in this program?

The Federal laboratories perform over $20 billion in R&D each year, or 14 percent of all R&D done in this country in both the public and private sectors. They are, by most accounts, an enormous—and largely untapped—reservoir of commercially promising ideas. STTR would provide a systematic mechanism for moving such ideas to the market, without impairing the missions of the laboratories.

The STTR legislation, as it passed the House, included all Federal laboratories. But because of concerns in the Senate Small Business Committee about the participation of Federal employees in this program, the legislation as enacted restricts Federal laboratory participation to the contractor-operated Federal laboratories.

Is there precedent for university or Federal laboratory researchers benefiting financially from federally funded research?

The precedent is well-established in existing law. For example, the Federal technology Transfer Act of 1986 requires the agencies to give Federal laboratory investors 15 percent of the patent royalties from their inventions, and to develop a cash awards program for such inventors. Similarly, the Bayh-Dole Act of 1980 provides that Federal R&D contractors which are small businesses, universities, or nonprofits retain the patent rights to inventions resulting from their R&D contract. The purpose of both of these laws was to give performers of Federal R&D the financial incentive to commercialize their research, because of the tremendous benefit that innovation represents for the economy.

It is important to remember that, as under SBIR, all research funded under STTR must support the mission of the sponsoring agency—it must respond to an agency R&D need or interest as set forth in the agency's STTR solicitation. Thus, although a particular STTR research project may result in a financial benefit to the researcher, the project will also meet an R&D need or interest of the Federal Government.

Does the STTR legislation contain any safeguards to prevent conflict of interest problems that may arise when researchers collaborate with industry?

Yes, the legislation gives the agencies 1 year to develop procedures to address such issues of conflict of interest in accord with existing law. To a large extent, these conflict of interest issues have been addressed in previous legislation, such as the Federal Technology Transfer Act of 1986, and in existing agency rules. STTR does not conflict with any existing conflict of interest statutes.

In addition, the STTR legislation provides that, in STTR projects, the small business would contract with the research institution itself, rather than with the individual researcher who will be involved in the collaboration. This will give such institutions the ability to oversee the conduct of their researchers and to prevent systematic conflict of interest problems.

Mr. MAVROULES. Mr. Speaker, we are considering a bill to reauthorize a very important small business program through the year 2000. Begun 10 years ago, the Small Business Innovation Research Program is perhaps one of our most successful small business programs—giving small high-technology firms the opportunity to prove themselves in the Federal R&D arena, which traditionally involved only large businesses and universities.

Today, we are able to consider legislation to extend and expand this important program thanks to the tireless efforts of my good friend, Congressman IKE SKELTON. Because of his initiative, we are guaranteed of having an SBIR Program as we enter the 21st century.

In early August, we debated and approved Congressman SKELTON'S proposal, H.R. 4400, which would continue the program for another 7 years, increase the percentage set-aside for SBIR to 2.5 percent by 1998, and expand the pools of money available from the DOD pot.

Three committees—Small Business, Armed Services, and Science, Space, and Technology—had input in crafting H.R. 4400. And an identical proposal, applying only to the Defense Department's SBIR Program, was inserted in the DOD authorization bill.

The bill we consider today, S. 2941, is slightly different than Congressman SKELTON'S original proposal, especially in a couple of critical areas that impact upon the Department of Defense. The statements of Congressman HOPKINS and SKELTON, which I fully agree with, make note of this.

Both measure remove the current statutory exclusions on certain DOD and DOE research funds—the atomic energy research done by DOE, and the operational research, the so-called 6.6 funds of DOD. By doing so, we will be adding approximately $81 million to the SBIR Program each year. Coupled with the percentage increase to 2.5 percent, the size of the DOD program will almost triple.

Although I am certain that DOD will benefit if the SBIR Program could tap into those funds, we need to ensure the high quality that has been the trademark of the SBIR Program to date. That is why H.R. 4400 called for an assessment, to be done at the 2-percent level of the quality of the proposals being received. If the report was positive, then the program would automatically increase to 2.5 percent; if not, the program would remain at the 2-percent level. I think its important to maintain the integrity of the SBIR Program.

However, S. 2941 deletes this absolute determination instead asking that the Secretary of Defense make a recommendation to Congress. Under S. 2941, the 2.5-percent level would be achieved by 1997—unfortunately that's not a lot of time for Congress to consider any recommendations made by DOD. Since we are practically tripling the DOD program, the additional year allowed under H.R. 4400, would have given Congress time to thoroughly review the full impact of the changes on the DOD SBIR Program. Due to the late date at which we are considering this bill, we have not had an opportunity to have a conference on this bill and resolve the differences between S. 2941 and H.R. 4400. Instead, we are faced with accepting the Senate bill as is, or risking our chances at having a bill altogether. Given that choice, I believe it imperative that we proceed with adoption of the Senate bill, knowing that we may find ourselves having to revisit this issue in the future.

I think we owe it to DOD and our Nation's small high-technology firms that the changes we make today will ensure a topnotch, highly competitive SBIR Program for the 21st century.

Again, I commend Congressman IKE SKELTON for his foresight, and I urge my colleagues to support S. 2941.

Mr. BROWN. Mr. Speaker, I rise in support of the compromise version of H.R. 4400, the Small Business Research and Development Enhancement Act of 1992, and ask my colleagues to add their strong support to this measure. I wisk to thank Chairman LAFALCE and Subcommittee Chairman SKELTON for their cooperation with the Committee on Science, Space and Technology and their willingness to incorporate many of our views in the final product. I feel we have arrived at a version of H.R. 4400 which should be a source of pride for each of its many authors.

Expansion of the SBIR Program comes at a time of great challenge for America in high technology. We have just completed a decade when an abnormally high percentage of our Government's and country's research and development effort has been directed to national defense or at least supported by our defense infrastructure. The end of the cold war and the crumbling of our major military competition suddenly makes much of this research far less relevant and decreases our ability to depend on Department of Defense spinoffs for our commercial well-being. At the same time, we are facing a record level of sophistication from the overseas competitors of American civilian manufacturers. The need for a redirection of resources has never been greater.

H.R. 4400 will contribute to our defense conversion effort in a number of ways. In testimony before the Committee on Science, Space, and Technology we have heard repeatedly that small high-technology businesses are currently financially constrained. Venture capital is scarce; banks are reluctant to take chances. A doubling of the SBIR resources will fund a much higher percentage of the creative ideas these companies are anxious to develop and market. The increases in the sizes of the phase I and phase II grants are long overdue as well. Research and development costs for small business have increased rapidly since the levels were originally set, so it is time for more reasonable allotments. The act's increased emphasis on commercialization of technology should pay dividends as well.

The companies to be supported by these grants are a large part of our hope for a prosperous future and the programs contained in the legislation are well-designed and carefully thought out. Therefore, I urge our colleagues to give their overwhelming approval to this important legislation.

Mr. SKELTON. Mr. Speaker, I wish to present an analysis of the current SBIR Program.

HOW THE SBIR PROGRAM WORKS

Under the SBIR program, each of the 11 Federal agencies with extramural R&D budgets in excess of $100 million per year is required to earmark at least 1.25 percent of that budget to fund research projects at small businesses. The purpose is to use small, innovative businesses to meet the Federal agencies' R&D needs, and thereby stimulate the development of new commercial technologies and innovations to benefit the economy.

EFFECTIVENESS OF SBIR

During its 10 years of existence, the SBIR Program has established itself as one of the most effective technology programs in the Federal Government:

A 1992 report of the National Academy of Sciences recommended an increase in the size of the program, describing SBIR as "a important program that supports civilian technology development."

A 1989 GAO study found that the quality of SBIR research was at least comparable to the quality of other agency-funded research, and was in some cases better. The study also found that SBIR research was significantly more likely to lead to innovation than non-SBIR research.

All 11 agencies which participate in the SBIR Program report that it has had a favorable impact on their research programs.

A 1992 study by GAO found that the SBIR Program has been strikingly successful in stimulating the development of new commercial products. The study found that SBIR awards over 1984–1987 generated more then $1 billion in new commercial activity, and are expected to generate more than $2 billion in additional commercial activity by the end of 1993.

A House Armed Services Committee panel on the defense industrial base—the McCurdy panel—recently called for a doubling of the size of the Defense Department's SBIR Program, as did the Senate Republican Task Force on the Adjustment of the Defense Base.

Typical of the views of the Federal agencies is this comment from a report of the Secretary of Health and Human Services:

> * * * SBIR has succeeded in filling a variety of scientific gaps in the Public Health Service's research programs * * *. More than any other single feature, the SBIR program has clearly accelerated the translation of research findings into useful and marketable products. SBIR awardees have sought innovative means of exploiting fundamental knowledge and technology to develop products that are not only cleverly designed but meet a market need.

In all the reports, no waste fraud or abuse has been found. None.

The White House strongly endorsed the program and called for doubling.

The SBIR bill adopted by the Small Business Committee, as amended by the Armed Services Committee and the Science and Technology Committee:

General explanation

H.R. 4400, as reported by the Small Business Committee, the Armed Services Committee, and the Science and Technology Committee, changes existing law in four ways:

First, H.R. 4400 would have reauthorized and expand the SBIR Program. It would reauthorize the program for 7 more years, until October 1, 2000. It would gradually increase the set-aside percentage starting in fiscal year 1994, from the current 1.25 percent to 2.5 percent in fiscal year 1997—5 years. To insure that the program does not out grow its small business base, the GAO and each participating agency head will conduct a study after 3 years and the program will be capped at 2 percent at that point if it is having growth problems.

Second, H.R. 4400 and S. 2941 would increase the program's emphasis on commercialization of SBIR research done for the Federal Government.

Third, H.R. 4400 and S. 2941 would enhance the protections for participating small businesses in the following areas: data rights, timely payment of award money, use of equipment, and subsequent agency work resulting from an SBIR project.

Fourth, H.R. 4400 would create a Small Business Technology Transfer [STTR] Program. STTR would be a separate but parallel program to SBIR, which would use small, innovative companies to commercialize research at universities, Federal laboratories, and nonprofit research institutions through joint ventures. This is a pilot program funded over 3 years to test the structure of STTR.

THE INCREASED LEVEL OF SBIR IS WARRANTED

The Small Business Committee maintains—with the concurrence of the other committees—that the success of the program has earned it the right to a higher percentage.

In 1982, the original SBIR proposal set the award level at 3 percent of extramural R&D budgets. Some jointly referred committees expressed concern about devoting the full portion to an untried program, preferring to test the concept at a much more limited level and withholding complete support until SBIR proved itself—1.25 percent was finally agreed to and some types and categories of research were excluded—particularly intelligence areas, nuclear areas, and applied research.

As explained above, the SBIR Program has been thoroughly studied and has now proved itself successful beyond anyone's expectations. Indeed, other nations have studied the program and copied it. The commercialization program has garnered praise for its effectiveness and its unique ability to deliver innovative ideas to the marketplace by leveraging Federal technology using private sector investment and techniques. Based on GAO research, fully 27 percent of SBIR phase II winners commercialize their research.

When compared to other private research purchases by the Federal Government, the SBIR share is truly modest. According to estimates by the Office of Technology Assessment, the Federal Government can expect to spend $75 billion for R&D in fiscal year 1992. Of that, $38 billion will be spent for "extramural" R&D—the pot that pays for university research, SBIR, and so forth. Of that $38 billion, the Nation's 3,500 colleges and universities will receive $15 billion—with 84 percent, or $13 billion, going to the top 100 institutions. SBIR firms will receive about $460 million, or about 3.5 percent of the amount universities receive.

At the 2.5 percent level recommended by the committees, SBIR firms will win just under $1 billion—after 5 phase-in years—or about 6 percent of what all universities get and only half of what the Nation's top 10 university winners receive. When you consider, as agency project officers have, that SBIR participants are twice as likely to commercialize their innovations, it becomes clear that this small investment will pay for itself in jobs, growth, and increased tax revenue.

The Small Business Committee argued that, having proven itself worthy, the SBIR had earned its wings and deserved the opportunity to be restored to the level originally proposed—3 percent with all extramural budgets restored. The Armed Services Committee and the Science Tech Committee have reached a compromise which doubles the program—2.5 percent—over 5 years. This would include new categories such as nuclear energy and applied research. This level was adopted by the Senate in their bill S. 2941. To allay their concerns about the adequacy of the small business base to support such growth, we have agreed to a review of the program once we reach the 2 percent level, with DOD making a recommendation about the impact of the growth to that point on the quality of research in the program. We believe that the Secretary of Defense and the GAO, which will be performing a companion study, will find small business fully able to meet the Government's research needs.

STTR IS NEEDED

Purpose of STTR

SBIR has been remarkably successful at cultivating commercially promising ideas within the small business community. STTR, by contrast, is designed to exploit a vast new reservoir of commercially promising ideas in universities, Federal laboratories, and nonprofit research institutions, using an approach parallel to that of SBIR. STTR would thereby foster the kind of small business, high-tech economic development now seen along route 128 in Massachusetts and Silicon Valley in California, around research institutions across the country. At the same time, STTR would—like SBIR—sponsor top-quality research that meets the Government's R&D needs.

How STTR would work

Under STTR, each Federal agency whose total R&D budget exceeds $1 billion per year would earmark a modest 0.25 percent of that budget to fund cooperative research projects involving a small company and a researcher from a university, Federal laboratory, or nonprofit research institution. Each STTR research project would thus combine the two elements that are essential for successful innovation—the scientific and technical expertise of the researcher, and the commercialization expertise of the small company. As under SBIR, each research project would support the mission of the sponsoring agency.

STTR addresses key problem in U.S. competitiveness

Our inability to translate our leadership in research into economic advantage. As the MIT Commission on Industrial Productivity has written:

> * * * the nation's technological strength depends on far more than the health of its research laboratories, important as that is. Prowess in research does not lead automatically to commercial success * * *. The United States is still unarguably the leader in basic research. The scale of its scientific enterprise is unequaled, and it is second to none in making new discoveries. Yet U.S. companies increasingly find themselves lagging behind their foreign rivals in the commercial exploitation of inventions and discoveries.

Transfer mechanism needed

What is needed is an effective, systematic "technology transfer" mechanism to move new knowledge from the research institution to industry, where it can be used for the Nation's economic benefit. STTR would provide that mechanism. As John Preston, director of technology licensing at MIT and Lincoln Laboratories, has testified:

> The STTR proposal would supply funding at the most critical point in technology commercialization—before investors are willing to make risk investments, and after Government research funding sources consider the project too commercial to fund. Much of our technology has languished in this gap only to be recognized by foreign competitors and developed abroad. There is no question in my mind that the STTR Program would strengthen U.S. competitiveness.

Necessary safeguards are provided to small business participants

Clarifies that phase 1 and phase 2 awards process satisfies the Competition in Contracting Act for the award of a phase 3 contract by an agency and specifically authorizes the agency to make such an award based on the competition.

Requires agency to experiment with broad topics which small R&D businesses participate in writing and refining. Also stresses topics and proposals which would address "National Critical Technologies."

Requires agencies to make final payment "in lieu of audit" within 12 months after completion of their research or research and development.

Extends small businesses rights in the data they have developed from 2 year to 4 years.

Instructs SBA to develop help agencies develop "gap funding" mechanisms.

Requires agencies to extend their outreach to minority owned and women-owned businesses.

Permits small business participants to continue to use property they have developed for 2 years as long as they are actively pursuing phase 3 commercialization.

Requires agencies to use awardees "to the extent practicable" if the agency chooses to go further with the project or production.

Increases the phase 1 award ceiling from $50,000 to $100,000 for small businesses.

Increases the phase 2 award ceiling from $500,000 to $750,000

Requires the reporting to SBA of any "single proposal" awards.

Requires the GAO to report on the following:

Progress of the increase in the program and ability of the small business high technology community to provided top quality research in view of the growth;

Progress in implementing commercialization;

Amount of sole source awards;

Random audits of the base budget;

Ability of Small Businesses to sustain, participation of disadvantaged small businesses;

An analysis of gap-funding efforts;

Foreign ownership and participation in SBIR.

Addressing multi-winner commercialization

The GAO report indicated that Congress should continue to observe multiwinners, those who win five SBIR awards or more. Their level of commercialization appeared to be low when compared to participants who have won less. Testimony at our hearings made clear, some multiwinners who have not commercialized up to the so-called average are doing complex long-term projects that will have real value for our Nation. S. 2941 requires businesses who won 15 phase 2 awards over the past 5 years to report on their efforts to commercialize. Agencies would keep track of this information, and the GAO would report the results in their report. In this way Congress would have the information necessary to know if there was a problem.

The House included in its report on H.R. 4400, for example, a diagram from Foster Miller, Inc., one of our largest SBIR winners, showing the fascinating, yet unbelievably complex network of projects they are doing in just one area—liquid crystal polymers. They also demonstrated, for example, that only 18 percent of their income comes from SBIR and that they themselves produce many of the products that are the products of their research.

In conclusion, the SBIR Program is neither a giveaway nor a set-aside. There is ample proof in the record these businesses have provided first-class, top quality research that benefits the agency and benefits the taxpayer by providing jobs, exports, and a higher standard. I can only hope that all agencies will do as some agencies have done and increase this program on their own above the floor level we seek to set today. This is not a set-aside for small businesses; it is instead a gold mine for our country, and we should be using programs like this to point the way into the 21st century.

Mr. IRELAND. Mr. Speaker, I yield back the balance of my time.

Mr. SKELTON. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Missouri [Mr. SKELTON] that the House suspend the rules and pass the Senate bill, S. 2941.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SKELTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

PROFESSIONAL AND AMATEUR SPORTS PROTECTION ACT

Mr. BROOKS. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 474) to prohibit sports gambling under State law, as amended.

The Clerk read as follows:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Professional and Amateur Sports Protection Act".

SEC. 2. PROFESSIONAL AND AMATEUR SPORTS PROTECTION.

(a) IN GENERAL.—Part VI of title 28 of the United States Code is amended by adding at the end the following:

"CHAPTER 178—PROFESSIONAL AND AMATEUR SPORTS PROTECTION

"Sec.
"3701. Definitions.
"3702. Unlawful sports gambling.
"3703. Injunctions.
"3704. Applicability.

"§ 3701. Definitions

"For purposes of this chapter—

"(1) the term 'amateur sports organization' means—

"(A) a person or governmental entity that sponsors, organizes, schedules, or conducts a competitive game in which one or more amateur athletes participate, or

"(B) a league or association of persons or governmental entities described in subparagraph (A), "(2) the term 'governmental entity' means a State, a political subdivision of a State, or an entity or organization, including an entity or organization described in section 4(5) of the Indian Gaming Regulatory Act (25 U.S.C. 2703(5)), that has governmental authority within the territorial boundaries of the United States, including on lands described in section 4(4) of such Act (25 U.S.C. 2703(4)),

"(3) the term 'professional sports organization' means—

"(A) a person or governmental entity that sponsors, organizes, schedules, or conducts a competitive game in which one or more professional athletes participate, or

"(B) a league or association of persons or governmental entities described in subparagraph (A),

"(4) the term 'person' has the meaning given such term in section 1 of title 1, and

"(5) the term 'State' means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Palau, or any territory or possession of the United States.

"§ 3702. Unlawful sports gambling

"It shall be unlawful for—

"(1) a governmental entity to sponsor, operate, advertise, promote, license, or authorize by law or compact, or

"(2) a person to sponsor, operate, advertise, or promote, pursuant to the law or compact of a governmental entity,

a lottery, sweepstakes, or other betting, gambling, or wagering scheme based, directly or indirectly (through the use of geographical references or otherwise), on one or more competitive games in which amateur or professional athletes participate, or are intended to participate, or on one or more performances of such athletes in such games.

"§ 3703. Injunctions

"A civil action to enjoin a violation of section 3702 may be commenced in an appropriate district court of the United States by the Attorney General of the United States, or by a professional sports organization or amateur sports organization whose competitive game is alleged to be the basis of such violation.

"§ 3704. Applicability

"(a) Section 3702 shall not apply to—

"(1) a lottery, sweepstakes, or other betting, gambling, or wagering scheme in operation in a State or other governmental entity, to the extent that the scheme was conducted by that State or other governmental entity at any time during the period beginning January 1, 1976, and ending August 31, 1990;

"(2) a lottery, sweepstakes, or other betting, gambling, or wagering scheme in operation in a State or other governmental entity where both—

"(A) such scheme was authorized by a statute as in effect on October 2, 1991; and

"(B) a scheme described in section 3702 (other than one based on parimutuel animal racing or jai-alai games) actually was conducted in that State or other governmental entity at any time during the period beginning September 1, 1989, and ending October 2, 1991, pursuant to the law of that State or other governmental entity;

"(3) a betting, gambling, or wagering scheme, other than a lottery described in paragraph (1), conducted exclusively in casinos located in a municipality, but only to the extent that—

"(A) such scheme or a similar scheme was authorized, not later than one year after the effective date of this chapter, to be operated in that municipality; and

"(B) any commercial casino gaming scheme was in operation in such municipality throughout the 10-year period ending on such effective date pursuant to a comprehensive system of State regulation authorized by that State's constitution and applicable solely to such municipality; or

"(4) parimutuel animal racing or jai-alai games.

"(b) Except as provided in subsection (a), section 3702 shall apply on lands described in section 4(4) of the Indian Gaming Regulatory Act (25 U.S.C. 2703(4)).".

(b) CLERICAL AMENDMENTS.—The table of chapters for part VI of title 28, United States Code, is amended—

(1) by amending the item relating to chapter 176 to read as follows:

"176. Federal Debt Collection Procedure .... 3001",

and

(2) by adding at the end the following:

"178. Professional and Amateur Sports Protection .... 3701".

SEC. 3. EFFECTIVE DATE.

This Act shall take effect on January 1, 1993.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas [Mr. BROOKS] will be recognized for 20 minutes, and the gentleman from New York [Mr. FISH] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. BROOKS]

The purpose of this legislation is to stop the spread of legalized gambling on sporting events. It would prohibit States from operating or authorizing any lottery or other gambling scheme based on professional or amateur sports events. It also would permit the U.S. Government or an affected sports organization to sue to enjoin such gambling activity.

Mr. Speaker, the framework of this amendment is the sports gambling provision which was included as part of the conference report on the crime bill which the House passed last November. Regrettably, the crime bill was held hostage for 10 months in the other body. Now that the larger effort has been stymied, I feel it is important to move this crucial legislation separately.

For so many of us, the playing field is the crucible where character, drive and team effort is formed and developed. It is of paramount importance that we safeguard and protect both the image and reality of integrity in sports from the corrupting influence of gambling and the enticements of money on the American tradition of free and honest athletic competition.

I want to commend my colleague from Texas, Mr. Bryant, as well as the ranking minority member of the committee, Mr. FISH, who have taken a lead on this issue. I also want to note the contribution of the distinguished gentleman from New Jersey [Mr. HUGHES] who has worked hard to safeguard the interests of his home State within the framework of this legislation while fully supporting the laudable goal of the legislation.

Time is of the essence in pursuing the aims of S. 474, and I urge its swift passage today.

Mr. HUGHES. Mr. Speaker, I rise in support of S. 474, the Sports Betting Act, as admended by the House.

Under this legislation, legalized betting on amateur and professional sports would be prohibited in all States except Nevada, Oregon, Delaware, and Montana, where it has previously been approved by the voters of those States.

The legislation also includes an amendment which I wrote which would exempt New Jersey from this ban until January 1, 1994. The purpose of this exemption is to give the voters of New Jersey a 1-year opportunity to decide for themselves if they want to legalize sports betting in Atlantic City's casinos.

I believe this exemption is warranted because of New Jersey's unique role in the gaming industry.

As most of you know, New Jersey has had a highly regulated, legalized gaming industry in place in Atlantic City since 1978. There is no other State in the country except Nevada which has a comparable, state-regulated gaming industry.

New Jersey and Nevada are in direct competition when it come to the gaming industry. Nevada already had legalized sports betting in place in its cansinos. New Jersey has been considering this issue, but has not put it on the ballot as yet.

It just would not be fair for Congress to give Nevada a virtual monoply on sports betting, without first giving New Jersey residents the opportunity to vote on this proposal and decide it for themselves.

My amendent does not in any way guarantee that a sports betting referendum will be placed on the ballot in New Jersey or that it will pass. Indeed, this is a very controversial and emotional issue in may State, and the legislature decided earlier this year not to place a sports betting referedum on the ballot this November.

This legislation is very carefully drawn so that the exemption applies only to Atlantic City, and gives the State only until January 1, 1994 to authorize such a betting program.

Mr. Speaker, the House previously approved this exemption for New Jersey when I added it to the crime bill, and I would hope my colleagues would do the same this time as well.

This is not a vote in favor or legalizing sports betting in New Jersey. Only the voters or New Jersey can do that. This bill would simply give them the chance to decide this issue on their own, and not have the Federal Government decide it for them.

Mr. FISH. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am very pleased that this important measure is being considered in the House of Representatives today. I am the principal Republican sponsor of the House version of this legislation—H.R. 74—introduced by my Judiciary Committee colleague, Congressman JOHN BRYANT of

Texas. I want to compliment Congressman BRYANT for the leadership role he has taken in this effort and for the excellent work he has done on behalf of its enactment. I also want to express my appreciation to Chairman BROOKS for bringing this bill to the floor at this time.

Our version was favorably reported by the Subcommittee on Economic and Commercial Law on September 17, 1991. Subsequently, the text of H.R. 74 was included as title XXI in the Omnibus Crime Control Act—H.R. 3371—and passed the House of Representatives on October 22, 1991. It then was included as title XXX in the conference report on that same measure and again passed this House on November 27, 1991. However, because agreement could not be reached on the crime legislation our purposal has languished. Now we have the opportunity, in the waning hours of the 102d Congress, to resuscitate this bill.

This legislation would prospectively prevent States from authorizing any new forms of sports gambling or expanding existing sports lotteries. S. 474 would not apply to the Oregon sports lottery, which has instituted prior to introduction of the legislation, to private sports gambling in Nevada nor to parimutuel racing. In addition, this legislation would not preempt the State of Montana from conducting sports pools, which are capped at $1,000; the State of North Dakota which allows sports pools based on the outcome of professional sporting events if conducted by qualified organizations; and the State of Arizona which allows social gambling to include wagering on the outcome of sporting events up to $100.

Under this legislation, civil actions for declaratory and injunctive relief, to enjoin violations of the law by any State, could be brought by the Department of Justice or any affected sports organization. Furthermore, this legislation would not affect lotteries with a sports theme, as long as the lottery winners are not selected on the basis of the outcome of actual games between existing teams. Existing prohibitions, particularly regarding the use of trademarks, would remain fully applicable to all activities.

I would like to stress that I am a long-time supporter of State-conducted and State-operated lotteries. In the last two decades the growth of State lotteries in the United States has been dramatic. These lotteries have provided a new important and needed source of revenue for important programs at both the State and local level. In my own State, the New York Lottery has been in operation since 1967 and continues to be a great success story. The New York Lottery has raised over $6 billion for education in my State.

However, I do not believe that it is either wise or necessary for the States to use the results of professional and/or collegiate sporting events as the basis for determining their lottery winners. This is not a debate about the existence or advisability of State-sponsored lotteries. The issue is whether or not widespread State-sponsored or State-sanctioned sports gambling would be a positive development in our society.

In my view, the establishment of sports-based State lotteries would have a number of adverse consequences. First, it threatens to undermine public confidence and the integrity of the games themselves. Mere breaks of the game or strategy choices by coaches would become the source of suspicion and cynicism—unfairly subverting the honesty of what transpires on the field. Close or controversial calls would be viewed differently because of their impact on lottery winnings. The bottom line is that coast-to-coast gambling would threaten the credibility of popular sports events.

Second, sports-based lotteries could convert team sports from wholesome family entertainment into a mere vehicle for gambling. It would communicate very negative values about sports and the legitimacy of sports events to America's youth. Widespread State-sanctioned sports gambling could encourage young people to gamble in increasing numbers. Many successful athletes are inspirational role models for our Nation's youth; we simply should not allow anything to change that situation. There should not be a connection between sports and gambling in the minds of our young people.

Third, the further legalization of team sports betting by a State or municipality would increase the chances that persons gambling on games would attempt to influence the outcome of those games. Congress has already recognized this as a national problem by adopting provisions in the Federal Criminal Code with outlaw conspiracy and bribery aimed at influencing the outcome of a sports event. Senator Ken Keating of New York sponsored that legislation in the mid-1960's.

Fourth, State government sponsorship of sports lotteries would carry with it the unintended symbolism of legitimacy. If a large number of States and localities make betting on sports a public institution, they are really incorporating it into the fabric of public policy and implicitly giving it the stamp of an official sanction. Furthermore, sports lotteries would be trading on the property and goodwill of others. For example, no one has an unrestricted right to use such legendary names as "New York Yankees", "Boston Celtics", or "Chicago Bears" for their own profit. The trademarks, logos and business goodwill of professional and collegiate sports teams are their property and on one else's.

In summary, Mr. Speaker, the various State lotteries have been a financial success without having their winnings depend upon the outcome of football, baseball, basketball or hockey games. There is simply no reason to change what has been a successful system at the cost and expense of the legitimacy of professional and collegiate sports in the United States. I am hopeful we can enact this bill before 102d Congress adjourns.

Mr. Speaker, I yield back the balance of my time.

Mr. BROOKS. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. BROOKS] that the House suspend the rules and pass the Senate bill, S. 474, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill, as amended, was passed.

The title of the Senate bill was amended so as to read: "An Act to prohibit sports gambling under State law, and for other purposes."

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. BROOKS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

LAND MANAGEMENT AGENCY HOUSING IMPROVEMENT ACT OF 1992

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1704) to improve the administration and management of public lands, national forests, units of the National Park System, and related areas by improving the availability of adequate, appropriate, affordable, and cost-effective housing for employees needed to effectively manage the public lands, as amended.

The Clerk read as follows:

S. 1704

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SEC. 101. SHORT TITLE.

This title may be cited as the "Land Management Agency Housing Improvement Act of 1992".

SEC. 102. DEFINITIONS.

As used in this title,

(1) the term—"Secretaries" means the Secretary of the Interior and the Secretary of Agriculture,

(2) the term—"agency" refers to the Forest Service in the Department of Agriculture, and to the National Park Service, the United States Fish and Wildlife Service, the Bureau

of Land Management, the Bureau of Reclamation, and the Bureau of Indian Affairs in the Department of the Interior.

(3) the term—"suitable quarters" means well-constructed, and well-maintained housing appropriate to the individual and family needs of the employee.

(4) the term—"field employee" means an employee who is exclusively assigned to perform duties at a field unit (including but not limited to a national forest, national park, or national refuge). Such term does does not include any person assigned to any regional or central office except those employees who are grade nine or below on the General Schedule.

SEC. 103. SURVEY OF QUARTERS.

(a)(1) Within one year after enactment of this Act and each four years thereafter, the Secretaries shall conduct and submit to the Committees on Interior and Insular Affairs and Appropriations of the United States House of Representatives and the Committees on Energy and Natural Resources and Appropriations of the United States Senate a study of suitable quarters available for field employees of the Department of the Interior and the Department of Agriculture. The study shall expand upon existing studies and information available.

(2) The study shall analyze the distinct needs of permanent and temporary employees, as well as the particular needs of employees located in isolated, urban, and high-cost areas. The study shall be undertaken in consultation with employees, their families, experts in real estate, architectural consultants, and employee organizations.

(b) The study shall include an analysis of—

(1) the availability and affordability of suitable quarters at field units under each Secretary's jurisdiction;

(2) non-Federal suitable quarters available for field employees with recommendations for alternatives to Federal suitable quarters; and

(3) appropriate public and private partnerships for increasing the availability and affordability of suitable housing for field employees, considering the particular needs of field employees.

(c) The first such study shall also include an analysis of the benefits and disadvantages to the agency and to employees of "required occupancy" of federal quarters.

SEC. 104. SURVEY OF EXISTING FACILITIES.

(a) Within one year after the date of enactment of this Act, the Secretaries shall survey all existing governmental owned employee housing facilities under the jurisdiction of the Department of the Interior and the Department of Agriculture to assess the physical condition of such housing and the suitability of such housing for the effective prosecution of the agency mission. The Secretaries shall develop an agency wide priority listing, by structure, identifying those units in greatest need for repair, rehabilitation, replacement or initial construction, as appropriate. The survey and priority listing study shall be submitted to the Committees on Interior and Insular Affairs and Appropriations of the United States House of Representatives and the Committees on Energy and Natural Resources and Appropriations of the United States Senate.

(b) Unless otherwise provided by law, expenditure of any funds appropriated for construction, repair or rehabilitation shall follow, in sequential order, the priority listing established by each agency. Funding available from other sources for employee housing repair may be distributed by the Secretaries.

SEC. 105. SECONDARY QUARTERS.

The Secretaries shall provide suitable secondary quarters for field employees who are permanently duty stationed at remote locations and are regularly required to relocate for temporary periods as necessary for the effective administration of an area under the jurisdiction of the respective agency.

SEC. 106. QUARTERS RENTAL.

Increases in the Governmental housing rental rates for the agencies covered under this title shall not be in excess of ten percent more than the rental rates which were in effect on September 1, 1992, until twelve months after submission of the studies specified in Sections 103 and 104.

SEC. 107. HOUSING ACCOUNTS.

(a) Notwithstanding title 5, United States Code, or any other provision of law, rents and charges collected by payroll deduction or otherwise for use or occupancy of quarters of agencies identified in this Act shall, after the date of enactment of this Act, be deposited in a special fund for each agency in the Treasury, to remain available until expended, for the maintenance and operation of the quarters of that agency.

(b) All funds generated from rental income shall be deposited to a reimbursable account at no lower than the agency regional office level in order to ensure maximum efficiency in fund utilization.

SEC. 108. APPROPRIATIONS.

There are authorized to be appropriated such sums as may be necessary to carry out this title.

TITLE II—COLORADO MILITARY LANDS

SEC. 201. SHORT TITLE.

This title may be cited as the "Fort Carson-Pinon Canyon Military Lands Withdrawal Act".

SEC. 202. WITHDRAWAL AND RESERVATION OF LANDS AT FORT CARSON MILITARY RESERVATION.

(a) WITHDRAWAL.—Subject to valid existing rights and except as otherwise provided in this title, the lands at the Fort Carson Military Reservation that are described in subsection (c) are hereby withdrawn from all forms of appropriation under the public land laws including the mining laws and the mineral and geothermal leasing laws.

(b) RESERVATION.—The lands withdrawn under subsection (a) are reserved for use by the Secretary of the Army—

(1) for military maneuvering, training and weapons firing; and

(2) for other defense related purposes consistent with the uses specified in paragraph (1).

(c) LAND DESCRIPTION.—The lands referred to in subsection (a) comprise 3,133.02 acres of public land and 11,415.16 acres of federally-owned minerals in El Paso, Pueblo and Fremont Counties, Colorado, as generally depicted on the map entitled "Fort Carson Proposed Withdrawal—Fort Carson Base", dated February 1992, and filed in accordance with section 204.

SEC. 203. WITHDRAWAL AND RESERVATION OF LANDS AT PINON CANYON MANEUVER SITE.

(a) WITHDRAWAL.—Subject to valid existing rights and except as otherwise provided in this title, the lands at the Pinon Canyon Maneuver Site that are described in subsection (c) are hereby withdrawn from all forms of appropriation under the public land laws including the mining laws and the mineral and geothermal leasing laws.

(b) RESERVATION.—The lands withdrawn under subsection (a) are reserved for use by the Secretary of the Army—

(1) for military maneuvering and training; and

(2) for other defense related purposes consistent with the uses specified in paragraph (1).

(c) LAND DESCRIPTION.—The lands referred to in subsection (a) comprise 2,517.12 acres of public lands and 130,139 acres of federally-owned minerals in Las Animas County, Colorado, as generally depicted on the map entitled "Fort Carson Proposed Withdrawal—Fort Carson Maneuver Area—Pinon Canyon site", dated February 1992, and filed in accordance with section 204.

SEC. 204. MAPS AND LEGAL DESCRIPTIONS.

(a) PREPARATION.—As soon as practicable after the date of enactment of this Act, the Secretary of the Interior shall—

(1) publish in the Federal Register a notice containing the legal description of the lands withdrawn and reserved by this title; and

(2) file maps and a legal description of the lands withdrawn and reserved by this title with the Committee on Energy and Natural Resources of the United States Senate and with the Committee on Interior and Insular Affairs of the United States House of Representatives.

(b) LEGAL EFFECT.—Such maps and legal descriptions shall have the same force and effect as if they were included in this title, except that the Secretary of the Interior may correct clerical and typographical errors in such maps and legal descriptions.

(c) LOCATION OF COPIES.—Copies of such maps and legal descriptions shall be available for public inspection in the offices of the Colorado State Director and the Canon City District Manager of the Bureau of Land Management, and the Commander, Fort Carson, Colorado.

(d) COSTS.—The Secretary of the Army shall reimburse the Secretary of the Interior for the costs of implementing this section.

SEC. 205. MANAGEMENT OF WITHDRAWN LANDS.

(a) MANAGEMENT GUIDELINES.—(1) Except as provided in section 206, during the period of withdrawal, the Secretary of the Army shall manage for military purposes the lands covered by this title and may authorize use of the lands by the other military departments and agencies of the Department of Defense, and the National Guard, as appropriate.

(2) When military operations, public safety, or national security, as determined by the Secretary of the Army, require the closure of roads and trails on the lands withdrawn by this title commonly in public use, the Secretary of the Army is authorized to take such action, except that such closures shall be limited to the minimum areas and periods required for the purposes specified in this subsection. Appropriate warning notices shall be kept posted during closures.

(3) The Secretary of the Army shall take necessary precautions to prevent and suppress brush and range fires occurring within and outside the lands as a result of military activities and may seek assistance from the Bureau of Land Management in suppressing such fires. The memorandum of understanding required by this section shall provide for Bureau of Land Management assistance in the suppression of such fires, and for a transfer of funds from the Department of the Army to the Bureau of Land Management as compensation for such assistance.

(b) MANAGEMENT PLAN.—The Secretary of the Army, with the concurrence of the Secretary of the Interior, shall develop a plan for the management of acquired lands and lands withdrawn under sections 202 and 203 for the period of withdrawal. The plan shall—

(1) be consistent with applicable law;

(2) include such provisions as may be necessary for proper resource management and protection of the natural, cultural, and other resources and values of such lands;

(3) identify those withdrawn and acquired lands, if any, which are to be open to mining or mineral and geothermal leasing, including mineral materials disposal; and

(4) be developed not later than 5 years after the date of enactment of this Act.

(c) LISTING OF LANDS SUITABLE FOR MINING.—On completion of the management plan prepared pursuant to subsection (b), the Secretary of the Interior shall publish a notice in the Federal Register listing the lands determined under such subsection to be suitable for opening to mining, and mineral and geothermal leasing, including mineral materials disposal, and specifying the opening date.

(d) IMPLEMENTATION OF MANAGEMENT PLAN.—(1) The Secretary of the Army and the Secretary of the Interior shall enter into a memorandum of understanding to implement the management plan described in subsection (b).

(2) The duration of any such memorandum of understanding shall be the same as the period of withdrawal under section 208.

(3) The memorandum of understanding may be amended by agreement of both Secretaries.

(e) REEXAMINATION OF LANDS FOR SUITABILITY FOR MINING.—At least every five years after the initial identification of lands suitable for opening to mining required by subsection (b)(3), the Secretary of the Army and the Secretary of the Interior shall determine those withdrawn lands, if any, which the Secretaries consider suitable for opening to mining, mineral and geothermal leasing, or mineral material disposal, and those acquired lands, if any, which the Secretaries consider suitable for opening to mineral and geothermal leasing or mineral material disposal. The Secretary of the Interior shall publish a notice in the Federal Register listing the lands determined suitable for opening and specifying the opening date.

(f) USE OF CERTAIN RESOURCES.—The Secretary of the Army is authorized to utilize sand, gravel, or similar mineral or mineral material resources when the use of such resources is required for construction needs of the Fort Carson Reservation or Pinon Canyon Maneuver Site.

SEC. 206. MANAGEMENT OF WITHDRAWN AND ACQUIRED MINERAL RESOURCES.

(a) AUTHORITY OF SECRETARY OF THE INTERIOR.—Notwithstanding any other provision of law, and except as provided in section 205 of this title, the Secretary of the Interior shall manage all withdrawn and acquired mineral resources contained within the boundaries of the Fort Carson Reservation and Pinon Canyon Maneuver Site.

(b) EFFECT OF IDENTIFICATION OF LANDS AS SUITABLE FOR MINING.—On the day specified by the Secretary of the Interior in the notice published in the Federal Register pursuant to subsections (c) and (e) of section 205, the land identified as suitable for opening to the operation of the mining, mineral, and geothermal leasing and the mineral material disposal laws shall automatically be open to the operation of such laws without the necessity for further action by either the Secretary of the Interior or the Congress.

(c) EXCEPTION FROM CERTAIN LAWS.—No deposit of minerals or materials of the types identified by section 3 of the Act of July 23, 1955 (30 U.S.C. 611; 69 Stat. 368), whether or not included in the term "common varieties" in that Act, shall be subject to location under the Act of May 10, 1872 (commonly known as the Mining Law of 1872) (30 U.S.C. 22 et seq.), on lands described in sections 202 and 203.

(d) REGULATIONS.—On lands identified for opening to mining, mineral, and geothermal leasing or mineral material disposal by section 205(b)(3), or by subsequent amendments to the management plan described in section 205, all minerals contained in those lands shall be subject to mining, mineral, and geothermal leasing or mineral material disposal under such rules and regulations as the Secretary of the Interior may promulgate pursuant to the terms and conditions of section 12 of the Military Lands Withdrawal Act of 1986 (Public Law 99-606; 100 Stat. 3466).

(e) CLOSURE OF LANDS UNDER CERTAIN CIRCUMSTANCES.—In the event of a national emergency or for purposes of national defense or security, the Secretary of the Interior, at the request of the Secretary of the Army, shall close any lands that have been opened to mining, mineral, and geothermal leasing or mineral material disposal pursuant to this section.

(f) MINING CLAIMS.—(1) Except as otherwise provided in this title, mining claims located pursuant to this title shall be subject to the provisions of the Act of May 10, 1872 (commonly known as the Mining Law of 1872) (30 U.S.C. 22 et seq.). In the event of a conflict between that law and this title, this title shall prevail.

(2) All mining claims located under the terms of this title shall be subject to the provisions of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.).

(g) PATENTS FOR LOCATABLE MINERALS.—(1) Patents issued pursuant to this title for locatable minerals shall convey title to the locatable minerals only, and shall be issued together with an appropriate authorization for use of so much of the surface as may be necessary for purposes incident to mining under the guidelines for such use established by the Secretary of the Interior by regulation.

(2) All such patents shall contain a reservation to the United States of the surface of all lands patented and of all nonlocatable minerals on those lands.

(3) For the purposes of this section, all minerals subject to location under the Act of May 10, 1872 (commonly known as the Mining Law of 1872) (30 U.S.C. 22 et seq.), are referred to as "locatable minerals".

SEC. 207. HUNTING, FISHING, AND TRAPPING.

All hunting, fishing, and trapping on the lands withdrawn and reserved by this title shall be conducted in accordance with section 2671 of title 10, United States Code.

SEC. 208. TERMINATION OF WITHDRAWAL AND RESERVATION AND EFFECT OF CONTAMINATION.

(a) TERMINATION DATE.—The withdrawal and reservation established by this title shall terminate 15 years after the date of enactment of this Act.

(b) DETERMINATION OF CONTINUING MILITARY NEED.—(1) At least three years prior to the termination under subsection (a) of the withdrawal and reservation established by this title, the Secretary of the Army shall advise the Secretary of the Interior as to whether or not the Department of the Army will have a continuing military need for any of the lands after the termination date.

(2) If the Secretary of the Army concludes under paragraph (1) that there will be a continuing military need for any of the lands after the termination date established by subsection (a), the Secretary of the Army, in accordance with applicable law, shall evaluate the environmental effects of renewal of such withdrawal and reservation, shall hold at least one public hearing in Colorado concerning such evaluation, and shall thereafter file an application for extension of the withdrawal and reservation of such lands in accordance with the regulations and procedures of the Department of the Interior applicable to the extension of withdrawals for military uses. The Secretary of the Interior shall notify the Congress concerning such filing and thereafter may take necessary steps, in accordance with applicable law, to prevent uses inconsistent with such extension for a period not in excess of 2 years after the termination of the withdrawal and reservation made by this title.

(3) If the Secretary of the Army concludes under paragraph (1) that prior to the termination date established by subsection (a), there will be no military need for all or any of the lands withdrawn and reserved by this title, or if, during the period of withdrawal, the Secretary of the Army decides to relinquish any or all of the lands withdrawn and reserved under this title, the Secretary of the Army shall file a notice of intention to relinquish with the Secretary of the Interior.

(c) DETERMINATION OF CONTAMINATION.—Prior to the filing of a notice of intention to relinquish pursuant to subsection (b)(3), the Secretary of the Army shall prepare a written determination as to whether and to what extent the lands are contaminated with explosive, toxic, or other hazardous materials. A copy of the determination made by the Secretary of the Army shall be supplied with the notice of intention to relinquish. Copies of both the notice of intention to relinquish and the determination concerning the contaminated state of the lands shall be published in the Federal Register by the Secretary of the Interior.

(d) EFFECT OF CONTAMINATION.—(1) If any land which is the subject of a notice of intention to relinquish under subsection (b)(3) is contaminated, and the Secretary of the Interior, in consultation with the Secretary of the Army, determines that decontamination is practicable and economically feasible, taking into consideration the potential future use and value of the land, and that upon decontamination, the land could be opened to the operation of some or all of the public land laws, including the mining laws, the Secretary of the Army shall decontaminate the land to the extent that funds are appropriated for such purpose.

(2) If the Secretaries of the Army and the Interior conclude either that decontamination of any or all of the lands proposed for relinquishment is not practicable or economically feasible, or that the lands cannot be decontaminated sufficiently to allow them to be opened to the operation of the public land laws, or if Congress declines to appropriate funds for decontamination of the lands, the Secretary of the Interior shall not be required to accept the lands proposed for relinquishment.

(3) If, because of their contaminated state, the Secretary of the Interior declines under paragraph (2) to accept jurisdiction of the lands proposed for relinquishment, or if at the expiration of the withdrawal made by this title the Secretary of the Interior determines that some of the lands withdrawn by this title are contaminated to an extent which prevents opening such contaminated lands to operation of the public land laws—

(A) the Secretary of the Army shall take appropriate steps to warn the public of the contaminated state of such lands and any risks associated with entry onto such lands;

(B) after the expiration of the withdrawal, the Secretary of the Army shall undertake no activities on such lands except in connection with decontamination of such lands; and

(C) the Secretary of the Army shall report to the Secretary of the Interior and to the Congress concerning the status of such lands and all actions taken in furtherance of the subsection.

(4) If the lands are subsequently decontaminated, upon certification by the Secretary of the Army that the lands are safe for all nonmilitary uses, the Secretary of the Interior shall reconsider accepting jurisdiction over the lands.

(e) PROGRAM OF DECONTAMINATION.—Throughout the duration of the withdrawal and reservation made by this title, the Secretary of the Army, to the extent funds are made available, shall maintain a program of decontamination of the lands withdrawn by this title at least at the level of effort carried out during fiscal year 1992.

(f) ACCEPTANCE OF LANDS PROPOSED FOR RELINQUISHMENT.—Notwithstanding any other provision of law, the Secretary of the Interior, upon deciding that it is in the public interest to accept jurisdiction over the lands proposed for relinquishment, is authorized to revoke the withdrawal and reservation established by this title as it applies to the lands proposed for relinquishment. Should the decision be made to revoke the withdrawal and reservation, the Secretary shall publish in the Federal Register an appropriate order which shall—

(1) terminate the withdrawal and reservation;

(2) constitute official acceptance of full jurisdiction over the lands by the Secretary of the Interior; and

(3) state the date upon which the lands will be opened to the operation of the public land laws, including the mining laws if appropriate.

SEC. 209. DELEGATION.

The functions of the Secretary of the Army under this title may be delegated. The functions of the Secretary of the Interior under this title may be delegated, except that the order referred to in section 208(f) may be approved and signed only by the Secretary of the Interior, the Deputy Secretary of the Interior, or an Assistant Secretary of the Department of the Interior.

SEC. 210. HOLD HARMLESS.

The United States and all departments or agencies thereof shall be held harmless and shall not be liable for any injuries or damages to persons or property suffered in the course of any mining, mineral, or geothermal leasing activity conducted on lands comprising the Fort Carson Reservation or Pinon Canyon Maneuver Site.

SEC. 211. AMENDMENT TO MILITARY LANDS WITHDRAWAL ACT OF 1986.

Section 3(f) of the Military Lands Withdrawal Act of 1986 (Public Law 99-606, 100 Stat. 3461) is amended by adding at the end a new paragraph (2) as follows:

"(2) The Secretary of the military department concerned may utilize sand, gravel, or similar mineral or material resources when the use of such resources is required for construction needs on the respective lands withdrawn by this Act.".

SEC. 212. AUTHORIZATION OF APPROPRIATIONS.

There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this title.

TITLE III—"IN LIEU" LAND CLAIMS

SEC. 301. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Pursuant to the invitation and requirements contained in the 15th paragraph under the heading "Surveying the Public Lands" in the Act of June 4, 1897 (30 Stat. 11, 36), as amended or supplemented by the Acts of June 6, 1900 (31 Stat. 588, 614), March 4, 1901 (31 Stat. 1010, 1037), and September 22, 1922 (42 Stat. 1067), certain landowners or entrymen within forest reserves acted to transfer their lands to the United States as the basis for an in lieu selection of other Federal lands (hereafter in this Act referred to as "lieu lands") in exchange for such lands within such reserves (hereafter in this Act referred to as "base lands").

(2) By the Act of March 3, 1905 (33 Stat. 1264), Congress repealed the in lieu selection provisions of the Act of June 4, 1897, as amended, and terminated the right to select lieu lands, but expressly preserved the rights of land owners who had valid pending applications for in lieu selections, most of which have subsequently been granted.

(3) Other persons affected by the Acts cited in paragraphs (1) and (2) who acted to transfer base lands, or their successors in interest, have never obtained either (A) a patent to the lieu lands or any other consideration for their relinquishment, or (B) a quitclaim of their base lands, notwithstanding relief legislation enacted in 1922 and 1930.

(4) By the Act of July 6, 1960 (74 Stat. 334), Congress established a procedure to compensate persons affected by the Acts cited in paragraphs (1) and (2) who had not received appropriate relief under prior legislation. However, no payments of such compensation were made under that Act.

(5) Section 4 of the Act of July 6, 1960, further provided that lands with respect to which compensation under that Act were or could have been made, and not previously disposed of by the United States, shall be a part of any national forest, national park, or other area withdrawn from the public domain wherein they are located.

(6) Absent further legislation, lengthy and expensive litigation will be required to resolve existing questions about the title to lands covered by section 4 of the 1960 Act.

(b) PURPOSE.—The purpose of this title is to resolve the status of the title to base lands affected by the past legislation cited in subsection (a).

SEC. 302. IDENTIFICATION AND QUITCLAIM OF FEDERAL INTEREST IN BASE LANDS.

(a) QUITCLAIM.—Except as otherwise provided by this Act, and subject to valid existing rights, but notwithstanding any other provision of law, the United States hereby quitclaims to the listed owner or entryman, his heirs, devisees, successors, and assigns, all right, title, and interest of the United States in and to the base lands described on a final list published pursuant to subsection (d)(1), effective on the date of publication of such list.

(b) PREPARATION OF INITIAL LISTS.—(1) Not later than 6 months after the date of enactment of this Act, the Secretary of the Interior, with respect to lands under such Secretary's jurisdiction, and the Secretary of Agriculture with respect to National Forest System lands, shall each prepare an initial list of all parcels of base lands that were relinquished to the United States pursuant to the Act of June 4, 1897 (as amended), and for which selection or other rights under that Act or supplemental legislation were not realized or exercised.

(2) The initial lists prepared under paragraph (1) shall be based on information in the actual possession of the Secretaries of the Interior and Agriculture on the date of enactment of this Act, including information submitted to Congress pursuant to the directive contained in Senate Report No. 98-578, issued for the Fiscal Year 1985 Interior and Related Agencies Appropriation, as revised and updated. The initial lists shall be published and distributed for public review in accordance with procedures adopted by the Secretary concerned.

(3) For a period of 180 days after publication of a list pursuant to paragraph (2), persons asserting that particular parcels omitted from such a list should have been included may request the Secretary concerned to add such parcels to the appropriate list. The Secretary concerned shall add to the list any such parcels which the Secretary determines meet the conditions specified in paragraph (1).

(c) NATIONALLY SIGNIFICANT LANDS.—(1) During preparation or revision of an initial list under subsection (b), the Secretary concerned shall identify those listed lands which are located wholly or partially within any conservation system unit and all other listed lands which Congress has designated for specific management or which the Secretary concerned decides, in the concerned Secretary's discretion, should be retained in order to meet public, resource protection, or administrative needs. For purposes of this paragraph, the term "conservation system unit" means any unit of the National Park System, National Wildlife Refuge System, National Wild and Scenic Rivers System, National Trails System, or National Wilderness Preservation System, a national forest monument, or a national conservation area, a national recreation area, or any lands being studied for possible designation as part of such a system or unit.

(2) The provisions of subsection (a) shall not apply to any lands identified by the Secretary concerned pursuant to paragraph (1). The Secretary concerned shall not include any such lands on any list prepared pursuant to subsection (d). Subject to valid existing rights arising from factors other than those described in subsection (b)(1), any right, title, and interest in and to lands identified pursuant to paragraph (1) and not previously vested in the United States is hereby vested and confirmed in the United States.

(3) In the same manner as the initial list was published and distributed pursuant to subsection (b)(2), the Secretary concerned shall publish and distribute an identification of all lands in which right, title, and interest is vested and confirmed in the United States by paragraph (2).

(d) FINAL LISTS.—(1) As soon as possible after considering any requests made pursuant to subsection (b)(3) and the identification of lands pursuant to subsection (c), the Secretary of the Interior and the Secretary of Agriculture shall each publish a final list, consisting of lands included on each Secretary's initial list not identified pursuant to subsection (c)(1). Unless a Secretary has published a final list on or before the date 18 months after the date of publication, pursuant to subsection (b)(2), of such Secretary's initial list, the initial list prepared by such Secretary shall be deemed on such date to be the final list required to be published by such Secretary, and thereafter no lands included on such initial list shall be excluded from operation of subsection (a).

(2) If a court makes a final decision that a parcel of land was arbitrarily and capriciously excluded from operation of subsection (a), such parcel shall be deemed to have been included on a final list published pursuant to paragraph (1), unless such parcel

is located wholly or partially inside a conservation system unit or any other area which Congress has designated for specific management, in which case such parcel shall be subject to the provisions of subsection (c)(2).

(e) ISSUANCE OF INSTRUMENTS.—(1) Except as otherwise provided in this title, no later than 6 months after the date on which the Secretary concerned publishes a final list of lands pursuant to subsection (d), the Secretary concerned shall issue deeds confirming the quitclaim made by subsection (a) of this section of all right, title, and interest of the United States in and to the lands included on such final list, subject to valid existing rights arising from factors other than a relinquishment to the United States of the type described in subsection (b). Each such confirmatory deed shall operate to estop the United States from making any claim of right, title, or interest of the United States in and to the base lands described in the deed, shall be made in the name of the listed owner or entryman, his heirs, devisees, successors, and assigns, and shall be in a form suitable for recordation and shall be filed and recorded by the United States with the recorder of deeds or other like official of the county or counties within which the lands covered by such confirmatory deed are located so that the title to such lands may be determined in accordance with applicable State law.

(2) The United States shall not adjudicate and, notwithstanding any provision of law to the contrary, does not consent to be sued in any suit instituted to adjudicate the ownership of, or to quiet title to, any base land included in a final list and described in a confirmatory deed.

(3) Neither the Secretary of the Interior nor the Secretary of Agriculture shall be required to inspect any lands included on a final list nor to inform any member of the public regarding the condition of such lands prior to the issuance of the confirmatory deeds required by this subsection, and nothing in this Act shall be construed as affecting any valid rights with respect to lands covered by a confirmatory deed issued pursuant to this subsection that were in existence on the date of issuance of such confirmatory deed.

(f) WAIVER OF CERTAIN CLAIMS AGAINST THE UNITED STATES.—Any person or entity accepting the benefits of this Act of failing to act to seek such benefits within the time allotted by this Act with respect to any base or other lands shall be deemed to have waived any claims against the United States, its agents or contractors, with respect to such lands, or with respect to any revenues received by the United States from such lands prior to the date of enactment of this Act. All non-Federal, third party rights granted by the United States with respect to base lands shall remain effective subject to the terms and conditions of the authorizing document. The United States may reserve any rights-of-way currently occupied or used for Government purposes.

SEC. 303. OTHER CLAIMS.

(a) JURISDICTION AND DEADLINE.—(1) Subject to the requirements and limitations of this section, a party claiming right, title, or interest in or to land vested in the United States by section 302(c)(2) of this title may file in the United States Claims Court a claim against the United States seeking compensation based on such vesting. Notwithstanding any other provision of law, the Claims Court shall have exclusive jurisdiction over such claim.

(2) A claim described in paragraph (1) shall be barred unless the petition thereon is filed within 1 year after the date of publication of a final list pursuant to section 302(d) of this title.

(3) Nothing in this title shall be construed as authorizing any claim to be brought in any court other than a claim brought in the United States Claims Court based upon the vesting of right, title, and interest in and to the United States made by section 302(c)(2) of this title.

(b) LIMITATIONS, DEFENSES, AND AWARDS.—(1) Nothing in this Act shall be construed as diminishing any existing right, title, or interest of the United States in any lands covered by section 302(c), including but not limited to any such right, title, or interest established by the Act of July 6, 1960 (74 Stat. 334).

(2) Nothing in this title shall be construed as precluding or limiting any defenses or claims (including but not limited to defenses based on applicable statutes of limitations, affirmative defenses relating to fraud or speculative practices, or claims by the United States based on adverse possession) otherwise available to the United States.

(3) Nothing in this title shall be construed as entitling any party to compensation from the United States. However, in the event of a final judgment of the United States Claims Court in favor of a party seeking such compensation, or in the event of a negotiated settlement agreement made between such a party and the Attorney General of the United States, the United States shall pay such compensation from the permanent judgment appropriation established pursuant to section 1304 of title 31, United States Code.

(c) SAVINGS CLAUSE.—This title does not include within its scope selection rights required to be recorded under the Act of August 5, 1955 (69 Stat. 534), regardless of whether compensation authorized by the Act of August 31, 1964 (78 Stat. 751) was or was not received.

SEC. 304. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as may be necessary to carry out this title.

SEC. 305. TIME EXTENSION.

Section 103(c) of the Wildfire Disaster Recovery Act of 1989 (16 U.S.C. 551 note) is amended in the first sentence by striking out "1991" and inserting in lieu thereof "1992".

TITLE IV—NATIONAL PARK SYSTEM PROVISIONS

SEC. 401. ABRAHAM LINCOLN INTERPRETIVE CENTER.

The Act entitled "An Act to authorize the Secretary of the Interior to establish the Lincoln Home National Historic Site in the State of Illinois, and for other purposes", approved August 18, 1971 (85 Stat. 347), is amended by adding at the end the following new section:

"SEC. 4. ABRAHAM LINCOLN INTERPRETIVE CENTER.

"(a) ESTABLISHMENT.—In order to provide for the education, inspiration and benefit of the American people, and to further the interpretation of the life and contributions of Abraham Lincoln and his times, the Secretary of the Interior is authorized to establish at or near the Lincoln Home National Historic Site an interpretive center which shall be known as the Abraham Lincoln Interpretive Center (hereafter in this section referred to as the 'center'). The center shall be added to and administered as part of the Lincoln Home National Historic Site. Upon establishment of the center, the boundary of the Lincoln Home National Historic Site is hereby modified to include the center.

"(b) ACQUISITION OF LAND.—For the purposes of this section, the Secretary may acquire land or interests in land near the Lincoln Home National Historic Site by donation, purchase with donated or appropriated funds, or exchange. Lands or interests therein owned by the State of Illinois or any political subdivision thereof may be acquired only by donation.

"(c) CONSTRUCTION, OPERATION, AND MAINTENANCE OF FACILITIES.—In carrying out this section, the Secretary is authorized to construct, operate, and maintain a facility, including an exhibit area, in order to preserve and make available materials related to the life of Abraham Lincoln and to provide interpretive and educational services which communicate the meaning of the life of Abraham Lincoln.

"(d) COOPERATIVE AGREEMENTS.—In carrying out this section, the Secretary may enter into cooperative agreements with (1) appropriate Federal agencies and the State of Illinois, or any political subdivision thereof, for the interpretation of resources at the center, and (2) with the owners of documents and artifacts of historical or cultural significance as determined by the Secretary.

"(e) DOCUMENTS AND ARTIFACTS.—In carrying out this section, the Secretary may acquire by purchase with donated funds, exchange, loan, or donation documents and artifacts related to the purposes of the center for display at the center.

"(f) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts authorized to be appropriated by section 3, there is authorized to be appropriated not more than $18,000,000 to carry out this section.".

SEC. 402. COOPERATIVE AGREEMENTS.

(a) IN GENERAL.—(1) The Secretary of the Interior, acting through the Director of the National Park Service, is hereby authorized to enter into one or more cooperative agreements as specified in paragraph (2) that meet the requirements of subsection (b).

(2) The cooperative agreements authorized by this Act are:

(A)(i) with appropriate organizations or groups, on the basis of equal-dollar matching, in order to promote education concerning the natural and cultural resources of the Santa Monica Mountain National Recreation Area and lands adjacent thereto; and

(ii) with the William O. Douglas Outdoor Classroom whereby the Secretary agrees to maintain the facilities at 2600 Franklin Canyon Drive in Beverly Hills, California for nine years and to provide funding for programs of the William O. Douglas Outdoor Classroom that utilize such facilities for a maximum of nine years after the date of enactment of this Act, and whereby in return the William O. Douglas Outdoor Classroom agrees that at the end of the term of such agreement, all right, title, and interest in such facilities shall be donated to the United States for addition to and operation as a part of the Santa Monica Mountains National Recreation Area; and

(B) with the Santa Monica Mountains and Seashore Foundation and the University of California at Los Angeles (jointly) for completion of an archeological survey, vegetation mapping, historical context, and history of lands within the Santa Monica Mountains National Recreation Area.

(3) Federal funds may be expended on non-Federal property located within the San Monica Mountains National Recreation Area pursuant to any cooperative agreement described in paragraph (2) that meets the requirements of subsection (b) of this section.

(b) REQUIREMENTS.—(1) The provisions of clause (i) of subsection (a)(1)(A) shall apply only to a cooperative agreement under which there will be visits by students or other beneficiaries to Federally-owned lands within the Santa Monica Mountains National Recreation Area and under which the responsibility of the Secretary will be limited to the providing of interpretation services concerning the natural and cultural resources of the Santa Monica Mountain National Recreation Area, while the other party or parties will be responsible for all other costs.

(2) The Secretary may enter into the agreement specified in clause (ii) of subsection (a)(1)(A) only if the Secretary determines that acquisition of the facilities described therein would further the purposes of the Santa Monica Mountains National Recreation Area. The provisions of such clause shall not be construed as authorizing an agreement by the Secretary for reimbursement of expenses incurred by such organization that are not directly related to use of the facilities specified in such clause (ii) for environmental education and interpretation of the resources and values of the Santa Monica Mountains National Recreation Area and associated lands and resources.

(3) The provisions of subsection (a)(1)(B) shall apply only to a cooperative agreement under which work on non-Federal lands shall be done only with the consent of the owner thereof and under which all information obtained will be used by the Secretary to further public education and the interpretation and management of the resources and values of the Santa Monica Mountains National Recreation Area.

(C) AUTHORIZATION.—There are hereby authorized to be appropriated not to exceed $2,100,000 to implement the provisions of section 402(a)(2)(A) and not to exceed $300,000 to implement the provisions of section 402(a)(2)(B).

SEC. 403. REVERE BEACH, MASSACHUSETTS.

(a) FINDINGS.—The Congress finds that—

(1) Revere Beach played an important historic role as a public beach and park set aside for public leisure and recreation;

(2) Revere Beach represents a valuable example of the social and cultural aspects of early 20th century American working class history;

(3) Original structures and public buildings of Revere Beach remain to be preserved and interpreted;

(4) Revere Beach is located within easy access of a large urban population center and within reach of tourists visiting the historic city of Boston; and

(5) given the interest by organized groups and local and State governments in the preservation of Revere Beach, a coordinated evaluation should be conducted to consider options for preserving the historical, cultural, national and recreational resources of Revere Beach.

(b) STUDY.—The Secretary of the Interior (hereinafter in this section referred to as the "Secretary") shall conduct a study to identify potential means to preserve and interpret Revere Beach. As part of the study, the Secretary shall propose alternatives for cooperation in the preservation and interpretation of Revere Beach, including providing recommendations on the suitability and feasibility of establishing Revere Beach as a unit of the National Park System.

(c) CONTENTS OF STUDY.—The study of the Secretary shall contain, but not be limited to, findings with respect to—

(1) the role played by Revere Beach in the processes in industrialization, urbanization, and immigration;

(2) the historical, cultural, natural, and outdoor recreational values of Revere Beach;

(3) the types of Federal, State, and local programs that are available to preserve, develop, and make accessible Revere Beach to public use;

(4) the use of, and coordination with, Federal, State, and local programs to manage in the public interest the historical, cultural, natural, and recreational resources of Revere Beach; and

(5) the possible kinds and general intensities of development, including a visitor facility with sufficient space to accommodate exhibits and information regarding the history of Revere Beach, that would be associated with public enjoyment and use of Revere Beach, including general location and anticipated costs.

(d) CONGRESSIONAL REVIEW.—The Secretary shall transmit the study to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate within 12 months after the enactment of this Act.

(e) CONSULTATION.—In preparing the study under this section, the Secretary shall consult with the public, representatives of the city of Revere and the Commonwealth of Massachusetts, historians, planners, recreation specialists, and historic preservationists knowledgeable in American History, historic preservations, and architecture. The Secretary shall seek expertise from both local and national organizations.

(f) AUTHORIZATION.—There is authorized to be appropriated $200,000 to carry out this section.

TITLE V—REPORT ON STATE OF THE NATION'S RIVERS

SEC. 501. AMENDMENT OF OUTDOOR RECREATION ACT OF 1963.

The Outdoor Recreation Act of 1963 (16 U.S. 1901 and following) is amended by adding the following new section at the end thereof:

"SEC. 5. STATE OF THE NATION'S RIVERS REPORT.

"(a) IN GENERAL.—The Secretary of the Interior (hereinafter in this section referred to as the 'Secretary') acting through the National Park Service, in consultation with the United States Geological Survey, shall enter into a contract or other appropriate arrangement with the National Academy of Sciences or with any other independent entity having appropriate scientific expertise to prepare a 'State of the Nation's River Systems' report providing an assessment of the status and trends of the Nation's river resources and their associated riparian resources (hereinafter in this section referred to as the 'report'). The report shall be prepared by an independent panel of experts in fields of biology, zoology, ecology, and related fields and shall be based on existing data and information relating to the chemical, physical, and biological elements and processes of river resources and their associated riparian resources. The contract or other appropriate agreement shall provide for the formation of a partnership with the States in the development of the report, which shall include financial assistance to the States for the States' efforts. The contract or other arrangement shall provide for updating the report every 5 years after publication of the initial report. The initial report shall contain guidelines on how each subsequent report shall be developed. Each such updated report shall utilize additional information which becomes available after the publication of the prior report, including the information obtained through the information system established in accordance with subsection (b). The initial report shall be submitted to the Congress within 18 months after the enactment of this section.

"(b) COMPONENTS OF THE REPORT.—The report shall include, but not be limited to, the following components:

"(1) An evaluation of the existing status and historic and projected future trends on a national and regional level related to the riverine resource characteristics.

"(2) Identification of current and potential threats to the riverine resource characteristics.

"(3) A list of river systems and river reaches in the Nation for each ecoregion (as defined by the Secretary), the riverine resources characteristics of which have the highest natural qualities with particular emphasis on free-flowing river systems.

"(4) A list of river systems and river reaches in the Nation for each ecoregion the riverine resource characteristics of which are degraded but for which restoration is a feasible goal.

"(5) A standard methodology, describing resource definitions, data collection, methods, and other items needed for a comprehensive information system relating to river and riparian zone resources.

"(c) DISTRIBUTION OF REPORT.—Upon completion of the report, and following submission to Congress, the Secretary shall distribute the report to the heads of affected Federal departments, agencies, and instrumentalities, the States, including all State river management agencies and to the public. The report shall be utilized to improve the management of riparian areas under their respective jurisdictions. The Secretary shall utilize the report to educate the public on the importance of river systems and the issues and threats related to river systems nationwide."

TITLE VI—CALIFORNIA RAILROAD LAND TITLE CLEARANCES

SEC. 601. SHORT TITLE.

This title may be cited as the "Railroad Right-of-Way Conveyance Validation Act".

SEC. 602. VALIDATION OF CONVEYANCES.

Except as provided in section 605, the conveyances described in section 3 (involving certain lands in Nevada County, State of California) and section 4 (involving certain lands in San Joaquin County, State of California) concerning lands that form parts of the right-of-way granted by the United States to the Central Pacific Railway Company in the Act entitled "An Act to aid in the Construction of a Railroad and Telegraph Line from the Missouri River to the Pacific Ocean, and to secure to the Government the use of the same for Postal, Military, and Other Purposes", approved July 1, 1862 (12 Stat. 489), hereby are legalized, validated, and confirmed, as far as any interest of the United States in such lands is concerned, with the same force and effect as if the land involved in each such conveyance had been held, on the date of such conveyance, under absolute fee simple title by the grantor of such land.

SEC 603. CONVEYANCES OF LANDS IN NEVADA COUNTY, STATE OF CALIFORNIA.

The conveyances of land in Nevada County, State of California, referred to in section 602 are as follows:

(1) The conveyances entered into between the Southern Pacific Transportation Company, grantor, and David G. "Otis" Kantz and Virginia Thomas Bills Kantz, husband and wife, as joint tenants, grantees, recorded June 10, 1987, as instrument number 87-15995

in the official records of the county of Nevada.

(2) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Antone Silva and Martha E. Silva, his wife, grantees, recorded June 10, 1987, as instrument number 87-15996 in the official records of the county of Nevada.

(3) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Charlie D. Roeschen and Renee Roeschen, husband and wife as joint tenants, grantees, recorded June 10, 1987, as instrument number 87-15997 in the official records of the county of Nevada.

(4) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Manuel F. Nevarez and Margarita Nevarez, his wife, as joint tenants, grantees, recorded June 10, 1987, as instrument number 87-15998 in the official records of the county of Nevada.

(5) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Susan P. Summers, grantee, recorded June 10, 1987, as instrument number 87-15999 in the official records of the county of Nevada.

(6) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and James L. Porter, a single man, as his sole and separate property, grantee, recorded June 10, 1987, as instrument number 87-16000 in the official records of the county of Nevada.

(7) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Robert L. Helin, a single man, grantee, recorded June 10, 1987, as instrument number 87-16001 in the official records of the county of Nevada.

(8) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Thomas S. Archer and Laura J. Archer, husband and wife, as joint tenants, grantees, recorded June 10, 1987, as instrument number 87-16002 in the official records of the county of Nevada.

(9) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Wallace L. Stevens, a single man, grantee, recorded June 10, 1987, as instrument number 87-16003 in the official records of the county of Nevada.

(10) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Sierra Pacific Power Company, grantees, recorded June 10, 1987, as instrument number 87-16004 in the official records of the county of Nevada.

(11) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Truckee Public Utility District, grantees, recorded June 10, 1987, as instrument number 87-16005 in the official records of the county of Nevada.

(12) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Dwayne W. Haddock and Bertha M. Haddock, his wife as joint tenants, grantees, recorded June 10, 1987, as instrument number 87-16006 in the official records of the county of Nevada.

(13) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and William C. Thorn, grantee, recorded June 10, 1987, as instrument number 87-16007 in the official records of the county of Nevada.

(14) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Jose Guadelupe Lopez, grantees, recorded June 10, 1987, as instrument number 87-16008 in the official records of the county of Nevada.

(15) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Harold O. Dixon, an unmarried man, as to an undivided half interest, and Pedro Lopez, a married man, as to an undivided half interest, as joint tenants, grantees, recorded June 10, 1987, as instrument number 87-16009 in the official records of the county of Nevada.

(16) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Robert E. Sutton and Patricia S. Sutton, husband and wife, as joint tenants, grantees, recorded June 10, 1987, as instrument number 87-16010 in the official records of the county of Nevada.

(17) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Angelo C. Besio and Eva G. Besio, his wife, grantees, recorded June 10, 1987, as instrument number 87-16011 in the official records of the county of Nevada.

(18) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Lawrence P. Young and Mary K. Young, husband and wife, as joint tenants, grantees, recorded June 10, 1987, as instrument number 87-16012 in the official records of the county of Nevada.

(19) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and the estate of Charles Clyde Cozzaglio, grantee, recorded June 10, 1987, as instrument number 87-16013 in the official records of the county of Nevada.

(20) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Noel T. Hargreaves, an unmarried woman, as her sole and separate property, grantee, recorded June 10, 1987, as instrument number 87-16014 in the official records of the county of Nevada.

(21) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Athleisure Enterprises, Incorporated, a Nevada corporation, grantees, recorded January 24, 1989, as instrument number 89-01803 in the official records of the county of Nevada.

(22) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Richard Bwarie, a single man as to an undivided one-half interest, and Roger S. Gannam and Lucille Gannam, husband and wife, as joint tenants, as to an undivided one-half interest, grantees, recorded January 24, 1989, as instrument number 89-01804 in the official records of the county of Nevada.

(23) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and William Campbell and Juanita R. Campbell, his wife as joint tenants, grantees, recorded January 24, 1989, as instrument number 89-01805 in the official records of the county of Nevada.

(24) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and William E. Cannon and Lynn M. Cannon, husband and wife, as joint tenants as to an undivided one-half interest, and Brent Collinson and Dianne Collinson, husband and wife, as joint tenants, as to an undivided one-half interest, grantees, recorded January 24, 1989, as instrument number 89-01806 in the official records of the county of Nevada.

(25) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Christopher G. Eaton and Bernadette M. Eaton, husband and wife as community property, grantees, recorded January 24, 1989, as instrument number 89-01807 in the official records of the county of Nevada.

(26) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Christopher G. Eaton grantee, recorded January 24, 1989, as instrument number 89-01808 in the official records of the county of Nevada.

(27) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Valeria M. Kelly, an unmarried woman, grantee, recorded January 24, 1989, as instrument number 89-01809 in the official records of the county of Nevada.

(28) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and William J. Kuttel and Delia Rey Kuttel, husband and wife, grantees, recorded January 24, 1989, as instrument number 89-01810 in the official records of the county of Nevada.

(29) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Thomas A. Lippert and Laurel A. Lippert, husband and wife, grantees, recorded January 24, 1989, as instrument number 89-01811 in the official records of the county of Nevada.

(30) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Fred J. Mahler, a single man, grantee, recorded January 24, 1989, as instrument number 89-01812 in the official records of the county of Nevada.

(31) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Francis Doyle McGwinn also known as Doyle F. McGwinn, a widower, grantee, recorded January 24, 1989, as instrument number 89-01813 in the official records of the county of Nevada.

(32) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and James D. Ritchie and Susan Ritchie, 24, husband and wife, as joint tenants, grantees, recorded January 1989, as instrument number 89-01814 in the official records of the county of Nevada.

(33) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and William R. Smith and Joan M. Smith, his wife, as joint tenants, grantees, recorded January 24, 1989, as instrument number 89-01815 in the official records of the county of Nevada.

(34) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Anthony J. Stile and Laura A. Stile, husband and wife, as joint tenants, grantees, recorded January 24, 1989, as instrument number 89-01816 in the official records of the county of Nevada.

(35) The conveyance entered into between the Southern Pacific Transportation Company, grantor and Thomas R. Stokes, a single man, and Carla J. Stewart, a single woman, as joint tenants, grantees, recorded January 24, 1989, as instrument number 89-01817 in the official records of the county of Nevada.

(36) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Tom's Television System, Incorporated, a California Corporation, grantees, recorded January 24, 1989, as instrument number 89-01818 in the official records of the county of Nevada.

(37) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Tom's Television System, Incorporated, a California corporation, grantees, recorded January 24, 1989, as instrument number 89-01819 in the official records of the county of Nevada.

(38) The conveyance entered into between the Southern Pacific Transportation Com-

pany, grantor, and Harry M. Welch and Betty R. Welch, his wife, as joint tenants, grantees, recorded January 24, 1989, as instrument number 89-01820 in the official records of the county of Nevada.

(39) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Harry Fariel and Joan Fariel, husband and wife, as joint tenants, grantees, recorded February 2, 1989, as instrument number 89-02748 in the official records of the county of Nevada.

(40) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Edward Candler and May Candler, husband and wife as community property, as to an undivided two-thirds interest; and Harry Fariel and Joan Fariel, husband and wife, as joint tenants, as to an undivided one-third interest, grantees, recorded February 2, 1989, as instrument number 89-02749 in the official records of the county of Nevada.

(41) The conveyance entered into between the Central Pacific Railroad, grantor, and E.W. Hopkins and J.O.B. Gann, grantees, recorded April 7, 1984, in Book 79 of Deeds at page 679, official records of the county of Nevada.

(42) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and John David Gay and Elizabeth Jean Gay, as Trustees of the David and Elizabeth Gay Trust, grantees, recorded October 3, 1991, as instrument number 91-30654 of the official records of the county of Nevada.

SEC. 604. CONVEYANCES OF LAND IN SAN JOAQUIN COUNTY, STATE OF CALIFORNIA.

The conveyances of land in San Joaquin County, State of California, referred to in section 602 are as follows:

(1) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Ronald M. Lauchland and Lillian R. Lauchland, grantees, recorded October 1, 1985, as instrument number 85066621 in the official records of the county of San Joaquin.

(2) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Bradford A. Lange and Susan J. Lange, his wife, as to an undivided one-half, and Randall W. Lange and Charlene J. Lange, his wife, as to an undivided one-half interest, grantees, recorded October 1, 1985, as instrument number 85066623 in the official records of the county of San Joaquin.

(3) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Leo G. Lewis and Vasiliki L. Lewis, and Billy G. Lewis and Dimetria Lewis, grantees, recorded October 1, 1985, as instrument number 85066625 in the official records of the county of San Joaquin.

(4) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Louis J. Bennett, grantees, recorded October 1, 1985, as instrument number 85066627 in the official records of the county of San Joaquin.

(5) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Joe Alves Correia and Leontina Correia, his wife, grantees, recorded September 1, 1970, instrument number 33915, in book 3428, page 461, of the official records of the county of San Joaquin.

(6) The conveyance entered into between the Southern Pacific Transportation Company, grantor, and Willard H. Fike, Jr., and Doria E. Fike, his wife, grantees, recorded January 7, 1988, instrument number 88001473 of the official records of the county of San Joaquin.

(7) The conveyance entered into between Central Pacific Railway, Grantor, and Nettie M. Murray and Marie M. Hallinan, Grantees, dated May 31, 1949, recorded June 14, 1949, in volume 1179 at page 394 of the official records of the county of San Joaquin.

(8) The conveyance entered into between the Central Pacific Railway Company, a corporation, and its Lessee, Southern Pacific Company, a corporation, Grantor, and Lodi Winery, Incorporated, Grantee, dated August 2, 1938, recorded May 23, 1940, in volume 692, page 249, of the official records of the county of San Joaquin.

SEC. 605. LIMITATIONS ON VALIDATION OF CONVEYANCES.

Nothing in this Act shall be construed to—

(1) diminish the right-of-way referred to in section 602 to a width of less than fifty feet on each side of the center of the main track or tracks maintained by the Southern Pacific Transportation Company on the date of enactment of this Act; or

(2) legalize, validate, or confirm, with respect to any land that is the subject of a conveyance referred to in section 603 or 604 any right or title to, or interest in, such land arising out of adverse possession, prescription, or abandonment, and not confirmed by such conveyance.

(3) diminish any of the right, title, or interest of the United States with respect to oil, gas, and other minerals, or with respect to prospecting for or mining or removal thereof, in any of the lands that are the subject of a conveyance referred to in section 603 or 604.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes, and the gentleman from North Carolina [Mr. TAYLOR] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I yield my self such time as I may consume.

Mr. Speaker, in our continuing effort to complete the Interior Committee's unfinished business in these final hours of the session, we have included in S. 1704, a Senate-passed measure, a number of provisions from other bills that have been approved by the committee and for the most part passed by the House as well. So, the bill now before us has several separate titles.

Title I includes many of the provisions of the Senate-passed S. 1704, the Land Management Agency Housing Improvement Act of 1992, sponsored by Senator WALLOP. In recent years, the Committee has heard much of the unsatisfactory quality of housing available to the employees of the National Park Service, the Forest Service, the Bureau of Land Management and the Fish and Wildlife Service.

In addition, quarters rental rates have increased at a rate much faster than salaries, creating genuine hardship for employees struggling to live on salaries often inadequate for the basic necessities. Because employees cannot subsist on sunsets alone, a careful and deliberate analysis of the housing situation will help us work with the agencies to improve these conditions for employees. As a way of protecting employees from further quarter rate increases and as a strong incentive to the Secretaries to complete the studies the bill includes a rate cap.

Title I directs the Secretaries of the Interior and of Agriculture to study the need and availability of suitable quarters, to provide secondary quarters when needed and to cap title marks the first step in solving the housing crisis of the land managing agencies. I have asked the General Accounting Office to undertake an extensive study of housing and look forward to working with our colleagues in the Senate to make further changes in housing policy after receiving their report.

Title II is identical to H.R. 4404, A bill by Mr. HEFLEY of Colorado, that has already passed the House as part of S. 1183. It provides for a withdrawal of certain public lands and minerals in Colorado, for military use by the Department of Defense. The administration has requested this legislation, and while the House has passed it the Senate has not taken action on it. I am hopeful that including it in this bill will facilitate its early approval in the other body.

Title III corresponds to H.R. 1514, by the gentleman from California [Mr. LAGOMARSINO]. This also has already been passed by the House but still awaits Senate action. It is an important measure that will benefit people in a number of States who have found that the titles to their lands are clouded because of the tangled history of the so-called In Lieu Law of 1897. The bill is explained in detail in the Interior committee's report on H.R. 1514. I have had the pleasure of working with Mr. LAGOMARSINO on this for several years, and I sincerely hope that including it in this measure will assist in its speedy enactment.

Title IV groups several measures related to the National Park System previously approved by the Interior committee. These include an authorization for a study of Revere Beach, in Massachusetts; authorization for cooperative agreements for outdoor education in the Santa Monica Mountains National Recreation Area, in California; and an authorization for a center for interpretation of the life and contributions of President Abraham Lincoln, at the Lincoln Home National Historic Site, in Springfield, IL.

Title V provides for a report by the National Park Service, working with the U.S. Geological Survey and the National Academy of Sciences or other appropriate groups, concerning the state of the Nation's rivers and their associated resources. Similar provisions were included in H.R. 5001, by the gentleman from Pennsylvania [Mr. KOSTMAYER], which was reported by the Interior Committee and passed by the House last month.

Title VI is identical to H.R. 711, by the gentleman from California [Mr. DOOLITTLE], another bill that has already been passed by the House. It would clear the title to a number of parcels of land in Truckee and other California communities by resolving problems associated with their former status as part of the right-of-way granted for the first transcontinental railroad.

Mr. Speaker, this bill includes a variety of provisions involving management of the National Park System and the public lands, assisting in national defense, and resolving the legal problems of many landowners in California and other States. I urge its approval by the House.

Mr. Speaker, I reserve the balance of my time.

Mr. TAYLOR of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong opposition to S. 1704, the now misnamed housing for employees of public lands bill. The origin of this bill rests with the concern by Members on this side of the aisle to try to improve the deplorable housing conditions faced by Park Service, Forest Service and other Land Management Agency personnel around the country. We currently have employees living in land-sea shipping containers, unwinterized homes, buildings without indoor plumbing and often at exorbitant rents.

I am saddened today to see that the chairman of the Parks and Public Lands Subcommittee has seen fit to take this simple bill sent over by the Senate and load it up with nearly $600 million in pork barrel spending. In effect saying to Senator WALLOP who orchestrated passage of this bill in the Senate, if you want this bill, you will have to support A $20 million visitor center at the Lincoln homesite, A $500 million authorization to buy land at Santa Monica Mountains, a $2.5 million authorization to buy the unneeded William O. Douglas Nature Center, and a study to examine the possibility of a Federal takeover of the third worst beach in the country. These are all measures strongly opposed by the administration, as well as Members on this side of the aisle and on which the Senate has never even held hearings.

When Senator WALLOP introduced this bill, it was for no great political gain. While he no doubt has a handful of constituents in Wyoming who live in the dilapidated housing which characterizes so many of our great parks, Senator WALLOP introduced this bill because he believed it was the right thing to do. The gentleman from Minnesota responds by making this bill into a Christmas tree, with numerous highly objectionable provisions, and in effect killing this important bill.

When Republican Members who had titles added to this bill in an effort to provide bipartisan cover found out that their provisions were being used in an attempt to garner their support for this bill, each one of them requested they be removed from the bill. While those titles remain, this measure is by no means bipartisan.

When you have a chance to vote down this measure later this morning, portions of which have already been rejected by this body on a previous suspension vote, you will be making two statements. First, you will be casting a vote against wasteful Government spending. Second, you will be casting a vote which sends a message that we should not play political games with the very real concerns of our public employees.

I hope we will be able to return in the next Congress and work in a bipartisan fashion to improve the unacceptable housing conditions in our parks and forests.

Mr. VENTO. Mr. Speaker, will the gentleman yield?

Mr. TAYLOR of North Carolina. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Speaker, I just want to call to the gentleman's attention that we have removed the authorization of the Santa Monica Mountains so that type of authorization, that debate is not in here. We are only dealing with the educational center. I thought that was clear to the gentleman.

Mr. TAYLOR of North Carolina. Mr. Speaker, as I understand the gentleman, they have removed a $500 million authorization. There is still the $20 million that I mentioned earlier. There is a $2.5 million authorization for the William O. Douglas Nature Center. There is a study to examine the Federal takeover of the beach mentioned earlier by the gentleman, and many measures that I oppose and I feel add to legislation that is totally intended for a different purpose. Mr. Speaker, I would object to this legislation.

☐ 0540

Mr. TAYLOR of North Carolina. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. VENTO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the Senate bill, S. 1704, as amended.

The question was taken.

Mr. TAYLOR of North Carolina. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 5 of rule I and the Chair's prior announcement, further proceedings on this motion will be postponed.

NATIONAL MARINE SANCTUARIES PROGRAM AMENDMENTS ACT OF 1992

Mr. STUDDS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5617) to provide Congressional approval of a Governing International Fishery Agreement, as amended.

The Clerk read as follows:

H.R. 5617

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—APPROVAL OF GOVERNING INTERNATIONAL FISHERY AGREEMENT

SEC. 101. APPROVAL OF AGREEMENT.

Notwithstanding section 203 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1823), the governing international fishery agreement between the Government of the United States of America and the Government of the Republic of Estonia, as contained in the message to Congress from the President of the United States dated June 24, 1992, is approved by the Congress as a governing international fishery agreement for the purposes of such Act and shall enter into force and effect with respect to the United States on the date of enactment of this title.

TITLE II—NATIONAL MARINE SANCTUARIES PROGRAM

SEC. 201. SHORT TITLE.

This Act may be cited as the "National Marine Sanctuaries Program Amendments Act of 1992".

Subtitle A—Amendments to Marine Protection, Research, and Sanctuaries Act of 1972

SEC. 2101. FINDINGS, PURPOSES, AND POLICIES.

(a) FINDINGS.—Section 301(a) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431(a)) is amended—

(1) in paragraph (2) by inserting ", and in some cases international," after "national";

(2) in paragraph (4)—

(A) by inserting ", research," after "conservation"; and

(B) by striking "and" after the semicolon at the end;

(3) in paragraph (5) by striking the period at the end and inserting "; and"; and

(4) by adding at the end the following:

"(6) protection of these special areas can contribute to maintaining a natural assemblage of living resources for future generations.".

(b) PURPOSES AND POLICIES.—Section 301(b) of the (16 U.S.C. 1431(b)) Marine Protection, Research, and Sanctuaries Act of 1972 is amended to read as follows:

"(b) PURPOSES AND POLICIES.—The purposes and policies of this title are—

"(1) to identify and designate as national marine sanctuaries areas of the marine environment which are of special national significance;

"(2) to provide authority for comprehensive and coordinated conservation and management of these marine areas, and activities affecting them, in a manner which complements existing regulatory authorities;

"(3) to support, promote, and coordinate scientific research on, and monitoring of, the resources of these marine areas, especially long-term monitoring and research of these areas;

"(4) to enhance public awareness, understanding, appreciation, and wise use of the marine environment;

"(5) to facilitate, to the extent compatible with the primary objective of resource protection, all public and private uses of the resources of these marine areas not prohibited pursuant to other authorities;

"(6) to develop and implement coordinated plans for the protection and management of these areas with appropriate Federal agencies, State and local governments, Native American tribes and organizations, international organizations, and other public and private interests concerned with the continuing health and resilience of these marine areas;

"(7) to create models of, and incentives for, ways to conserve and manage these areas;

"(8) to cooperate with global programs encouraging conservation of marine resources; and

"(9) to maintain, restore, and enhance living resources by providing places for species that depend upon these marine areas to survive and propagate."

SEC. 2102. DEFINITIONS.

(a) Marine Environment.—Section 302(3) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1432(3)) is amended by adding "including the exclusive economic zone," after "jurisdiction,"

(b) Damages.—Section 302(6) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1432(6)) is amended—

(1) in subparagraph (A)(ii) by striking "and" at the end;

(2) in subparagraph (B) by adding "and" at the end; and

(3) by adding at the end the following:

"(C) the reasonable cost of monitoring appropriate to the injured, restored, or replaced resources;".

(c) Response Costs.—Section 302(7) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1432(7)) is amended by inserting "or authorized" after "taken".

(d) Exclusive Economic Zone.—Section 302 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1432) is amended—(1) by striking the period at the end of paragraph (8) and inserting "; and"; and (2) by adding after paragraph (8) the following: "(9) 'exclusive economic zone' means the exclusive economic zone as defined in the Magnuson Fishery Conservation and Management Act.".

(e) Technical Correction.—Section 302 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1432) is amended—

(1) in paragraph (1) by striking "304(a)(1)(E)" and inserting "304(a)(1)(C)(v)"; and

(2) in paragraph (5) by striking "and" after the semicolon.

SEC. 2103. SANCTUARY DESIGNATION STANDARDS.

(a) Standards.—Section 303(a)(2)(B) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1433(a)(2)(B)) is amended by inserting "or should be supplemented" after "inadequate".

(b) Factors and Consultations.—

(1) Section 303(b)(1)(A) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1433(b)(1)(A)) is amended by inserting "maintenance of critical habitat of endangered species," after "assemblages,".

(2) Section 303(b)(3) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1433(b)(3)) is amended—

(A) by inserting ", governmental," after "other commercial" and inserting ", governmental," after "any commercial";

(B) by adding at the end the following: "The Secretary, in consultation with the Secretary of Defense, the Secretary of Energy, and the Administrator, shall draft a resource assessment section for the report, including information on any past, present, or proposed future disposal or discharge of materials in the vicinity of the proposed sanctuary. Public disclosure by the Secretary of such information shall be consistent with national security regulations."; and

(C) by striking "304(a)(1)" and inserting "304(a)(2)".

SEC. 2104. PROCEDURES FOR DESIGNATION AND IMPLEMENTATION.

(a) Sanctuary Proposal.—Section 304(a) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434(a)) is amended—

(1) by striking "prospectus" wherever it appears and inserting "documents";

(2) in paragraph (1)(C) by striking "a prospectus on the proposal which shall contain—" and inserting "documents, including an executive summary, consisting of—"; and

(3) in paragraph (5)—

(A) by striking "United States Fishery Conservation Zone" and inserting "exclusive economic zone"; and

(B) by adding at the end: "The Secretary shall also cooperate with other appropriate fishery management authorities with rights responsibilities within a proposed sanctuary at the earliest practicable stage in drafting any sanctuary fishing regulations.".

(b) Taking Effect of Designations.—Section 304(b) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434(b)) is amended—

(1) in paragraph (1) by striking the dash after "unless" and all that follows and inserting ", in the case of a national marine sanctuary that is located partially or entirely within the seaward boundary of any State, the Governor affected certifies to the Secretary that the designation or any of its terms is unacceptable, in which case the designation or the unacceptable term shall not take effect in the area of the sanctuary lying within the seward boundary of the State.";

(2) in paragraph (2)—

(A) striking "paragraph (1)(A) or (B)" and inserting "paragraph (1)";

(B) by striking "not disapproved under paragraph (1)(A) or"; and

(C) by striking "paragraph (1)(B)" and inserting "paragraph (1)"; and

(3) by striking paragraph (3) and redesignating paragraph (4) as paragraph (3).

(c) Access and Valid Rights.—Section 304(c)(1) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434(c)(2)) is amended to read as follows:

"(1) Nothing in this title shall be construed as terminating or granting to the Secretary the right to terminate any valid lease, permit, license, or right of subsistence use or of access that is in existence on the date of designation of any national marine sanctuary.".

(d) Interagency Cooperation; Review of Management Plan.—Section 304 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434) is amended by adding at the end the following new subsections:

"(d) Interagency Cooperation.—

"(1) Review of agency action.—

"(A) In general.—Federal agency actions internal or external to a national marine sanctuary, including private activities authorized by licenses, leases, or permits, that are likely to destroy, cause the loss of, or injure any sanctuary resource are subject to consultation with the Secretary.

"(B) Agency statements required.—Subject to any regulations the Secretary * * * establish each Federal agency proposing an action described in subparagraph (A) shall provide the Secretary with a written statement describing the action and its potential effects on sanctuary resources at the earliest practicable time, but in no case later than 45 days before the final approval of the action unless such Federal agency and the Secretary agree to a different schedule.

"(2) Secretary's recommended alternatives.—If the Secretary finds that a Federal agency action is likely to destroy, cause the loss of, or injure a sanctuary resource, the Secretary shall (within 45 days of receipt of complete information on the proposed agency action) recommend reasonable and prudent alternatives, which may include conduct of the action elsewhere, which can be taken by the Federal agency in implementing the agency action that will protect sanctuary resources.

"(3) Response to recommendations.—The agency head who receives the Secretary's recommended alternatives under paragraph (2) shall promptly consult with the Secretary on the alternatives. If the agency head decides not to follow the alternatives, the agency head shall provide the Secretary with a written statement explaining the reasons for that decision.

"(e) Review of Management Plans.—Not more than 5 years after the date of designation of any national marine sanctuary, and thereafter at intervals not exceeding 5 years, the Secretary shall evaluate the substantive progress toward implementing the management plan and goals for the sanctuary, especially the effectiveness of site-specific management techniques, and shall revise the management plan and regulations as necessary to fulfill the purposes and policies of this title.".

SEC. 2105. APPLICATION OF REGULATIONS; INTERNATIONAL COOPERATION.

(a) Enforceability; International Cooperation.—Section 305 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1435) is amended—

(1) in subsection (a)—

(A) by striking "The" in the first sentence and inserting in lieu thereof "This title and the"; and

(B) by inserting "or be enforced against" immediately after "apply to"; and

(2) by adding at the end the following new subsection:

"(c) International Cooperation.—The Secretary, in consultation with the Secretary of State and other appropriate Federal agencies, shall cooperate with other governments and international organizations in furtherance of the purposes and policies of this title and consistent with applicable regional and multilateral arrangements for the protection and management of special marine areas.".

(b) Technical Amendment.—The section heading for section 305 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1435) is amended by striking all after "REGULATIONS" and inserting in lieu thereof "; INTERNATIONAL NEGOTIATIONS AND COOPERATION.".

SEC. 2106. PROHIBITED ACTIVITIES.

Section 306 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1436) is amended to read as follows:

"SEC. 306. PROHIBITED ACTIVITIES.

"It is unlawful to—

"(1) destroy, cause the loss of, or injure any sanctuary resource managed under law or regulations for that sanctuary;

"(2) possess, sell, deliver, carry, transport, or ship by any means any sanctuary resource taken in violation of this section;

"(3) interfere with the enforcement of this title; or

“(4) violate any provision of this title or any regulation or permit issued pursuant to this title.”.

SEC. 2107. ENFORCEMENT.

(a) CIVIL PENALTIES.—

(1) Section 307(c)(1) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1437(C)(1)) is amended by striking “$50,000” and inserting “$100,000”.

(2) Section 307(c)(3) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1437(c)(3)) is amended—

(a) by striking “and may be proceeded” and all that follows through “jurisdiction”; and

(B) by adding at the end of the following sentence: “Such penalty shall constitute a maritime lien on the vessel and may be recovered in an action in rem in the district court of the United States having jurisdiction over the vessel.”.

(b) PROCEEDS FROM CIVIL FORFEITURES.—Section 307(d)(1) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1437(d)(1) is amended by adding at the end the following new sentence: “The proceeds from forfeiture actions under this subsection shall constitute a separate recovery in addition to any amounts recovered as civil penalties under this section or as civil damages under section 312. None of those proceeds shall be subject to set-off.”.

(c) USE OF RECEIVED AMOUNTS.—Section 307(e) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1437(e)) is amended by striking paragraph (1) and inserting the following:

“(1) EXPENDITURES.—

“(A) Notwithstanding any other law, amounts received by the United States as civil penalties, forfeitures of property, and costs imposed under paragraph (2) shall be retained by the Secretary in the manner provided for in section 107(f)(1) of the Comprehensive Environmental Responses, Compensation and Liability Act (42 U.S.C. 9607(f)(1)).

“(B) Amounts received under this section for forfeitures and costs imposed under paragraph (2) shall be used to pay the reasonable and necessary costs incurred by the Secretary to provide temporary storage, care, maintenance, and disposal of any sanctuary resource or other property seized in connection with a violation of this title or any regulation or permit issued under this title.

“(C) Amounts received under this section as civil penalties and any amounts remaining after the operation of subparagraph (B) shall be used, in order of priority, to—

“(i) manage and improve the national marine sanctuary with respect to which the violation occurred that resulted in the penalty of forfeiture;

“(ii) pay a reward to any person who furnishes information leading to an assessment of a civil penalty, or to a forfeiture of property, for a violation of this title or any regulation or permit issued under this title; and

“(iii) manage and improve any other national marine sanctuary.”.

(d) CONFORMING AMENDMENT.—Section 312(d) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1443(d)) is amended—

(d) by striking “and civil penalties under section 307”;

(2) by striking paragraph (3); and

(3) by redesignating paragraph (4) as paragraph (3).

(e) ENFORCEABILITY.—Section 307 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1437) is amended by adding at the end the following new subsection:

“(j) AREA OF APPLICATION AND ENFORCEMENT.—The areas of application and enforceability of this title includes the territorial sea of the United States, as described in Presidential Proclamation 5928 of December 27, 1988, which is subject to the sovereignty of the United States, and the United States exclusive economic zone, consistent with international law.”.

SEC. 2108. RESEARCH, MONITORING, AND EDUCATION.

Section 309 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1440) is amended to read as follows:

“SEC. 309. RESEARCH, MONITORING, AND EDUCATION.

“(a) IN GENERAL.—The Secretary shall conduct research, monitoring, evaluation, and education programs as are necessary and reasonable to carry out the purposes and policies of this title.

“(b) PROMOTION AND COORDINATION OF SANCTUARY USE.—The Secretary shall take such action as is necessary and reasonable to promote and coordinate the use of national marine sanctuaries for research, monitoring, and education purposes. Such action may include consulting with Federal agencies, States, local governments, regional agencies, interstate agencies, or other persons to promote use of one or more sanctuaries for research, monitoring, and education, including coordination with the National Estuarine Research Reserve System.”.

SEC. 2109. COOPERATIVE AGREEMENTS; DONATIONS, AND ACQUISITIONS.

Section 311 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1442) is amended to read as follows:

“SEC. 311. COOPERATIVE AGREEMENTS; DONATIONS, AND ACQUISITIONS.

“(a) COOPERATIVE AGREEMENTS, GRANTS, AND OTHER AGREEMENTS.—The Secretary may enter into cooperative agreements, financial agreements, grants, contracts, or other agreements with States, local governments, regional agencies, interstate agencies, or other persons to carry out the purposes and policies of this title.

“(b) AUTHORIZATION TO SOLICIT DONATIONS.—The Secretary may enter into such agreements with any nonprofit organization authorizing the organization to solicit private donations to carry out the purposes and policies of this title.

“(c) DONATIONS.—The Secretary may accept donations of funds, property, and services for use in designating and administering national marine sanctuaries under this title. Donations accepted under this section shall be considered as a gift or bequest to or for the use of the United States.

“(d) ACQUISITIONS.—The Secretary may acquire by purchase, lease, or exchange, any land, facilities, or other property necessary and appropriate to carry out the purposes and policies of this title.”.

SEC. 2110. DESTRUCTION OF LOSS OF, OR INJURY TO, SANCTUARY RESOURCES.

(a) LIABILITY FOR INTEREST.—Section 312(a)(1) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1443(a)(1)) is amended to read as follows:

“(1) LIABILITY TO UNITED STATES.—Any person who destroys, causes the loss of, or injures any sanctuary resource is liable to the United States for an amount equal to the sum of—

“(A) the amount of response costs and damages resulting from the destruction, loss, or injury; and

“(B) interest on that amount calculated in the manner described under section 1005 of the Oil Pollution Act of 1990 (33 U.S.C. 2705).

(b) LIABILITY IN REM.—Section 312(a)(2) of the Marine Protection, Research and Sanctuaries Act of 1972 (16 U.S.C. 1443(a)(2)) is amended by adding at the end the following: “The amount of that liability shall constitute a maritime lien on the vessel and may be recovered in an action in rem in any district court of the United States that has jurisdiction over the vessel.”.

(c) LIMITS TO LIABILITY.—Section 312(a) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1443(a)) is amended by adding at the end the following:

“(4) LIMITS TO LIABILITY.—Nothing in sections 4281–4289 of the Revised Statutes of the United States or section 3 of the Act of February 13, 1893, shall limit the liability of any person under this title.”.

(d) RESPONSE ACTIONS.—Section 312(b)(1) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1443(b)(1)) is amended by inserting “or authorize” after “undertake”.

(e) USE OF RECOVERED AMOUNTS.—Section 312(d) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1443(d)) is amended in paragraph (3), as redesignated by this Act, by inserting “the court decree or settlement agreement, and” after “in accordance with”.

SEC. 2111. AUTHORIZATION OF APPROPRIATIONS.

Section 313. of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1444) is amended to read as follows:

“SEC. 313. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated to the Secretary to carry out this title the following—

“(1) $8,000,000 for fiscal year 1993;

“(2) $12,500,000 for fiscal year 1994;

“(3) $15,000,000 for fiscal year 1995; and

“(4) $20,000,000 for fiscal year 1996.”.

SEC. 2112. ADVISORY COUNCILS AND SHORT TITLE.

The Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.) is amended by adding at the end the following new sections:

“SEC. 315. ADVISORY COUNCILS.

“(a) ESTABLISHMENT.—The Secretary may establish one or more advisory councils (in this section referred to as an ‘Advisory Council’) to provide assistance to the Secretary regarding the designation and management of national marine sanctuaries. The Advisory Councils shall be exempt from the Federal Advisory Committee Act.

“(b) MEMBERSHIP.—Members of the Advisory Councils may be appointed from among—

“(1) persons employed by Federal or State agencies with expertise in management of natural resources;

“(2) members of relevant Regional Fishery Management Councils established under section 302 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1852); and

“(3) representatives of local user groups, conservation and other public interest organizations, scientific organizations, educational organizations, or others interested in the protection and multiple use management of sanctuary resources.

“(c) LIMITS ON MEMBERSHIP.—For sanctuaries designated after the date of enactment of the National Marine Sanctuaries Program Amendments Act of 1992, the membership of Advisory Councils shall be limited to no more than 15 members.

“(d) STAFFING AND ASSISTANCE.—The Secretary may make available to an Advisory Council any staff, information, administrative services, or assistance the Secretary determines are reasonably required to enable the Advisory Council to carry out its functions.

"(e) PUBLIC PARTICIPATION AND PROCEDURAL MATTERS.—The following guidelines apply with respect to the conduct of business meetings of an Advisory Council:

"(1) Each meeting shall be open to the public, and interested persons shall be permitted to present oral or written statements on items on the agenda.

"(2) Emergency meetings may be held at the call of the chairman or presiding officer.

"(3) Timely notice of each meeting, including the time, place, and agenda of the meeting, shall be published locally and in the Federal Register.

"(4) Minutes of each meeting shall be kept and contain a summary of the attendees and matters discussed.

"SEC. 316. SHORT TITLE.

"This title may be cited as 'The National Marine Sanctuaries Act'.".

Subtitle B—Miscellaneous

SEC. 2201. GRAVEYARD OF THE ATLANTIC ARTIFACTS.

(a) ACQUISITON OF SPACE.—Pursuant to section 314 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1445) and consistent with the Cooperative Agreement entered into in October, 1989, between the National Oceanic and Atmospheric Administration and the Mariner's Museum of Newport News, Virginia, the Secretary of Commerce shall make a grant for the acquisition of space in Hatteras Village, North Carolina, for—

(1) the display and interpretation of artifacts recovered from the area of the Atlantic Ocean adjacent to North Carolina generally known as the Graveyard of the Atlantic, including artifacts recovered from the Monitor National Marine Sanctuary; and

(2) administration and operations of the Monitor National Marine Sanctuary.

(b) AUTHORIZATION.—To carry out the responsibilities of the Secretary of Commerce under this section, there are authorized to be appropriated to the Secretary of Commerce a total of $800,000 for fiscal years 1993 and 1994, to remain available until expended.

(c) FEDERAL SHARE.—Not more than two-thirds of the cost of space acquired under this section may be paid with amounts provided pursuant to this section.

SEC. 2202. STELLWAGEN BANK NATIONAL MARINE SANCTUARY.

(a) DESIGNATION.—The area described in subsection (b) is designated as the Stellwagen Bank National Marine Sanctuary (hereafter in this section referred to as the "Sanctuary").

(b) AREA.—The Sanctuary shall consist of all submerged lands and waters, including living and nonliving marine resources within those waters, bounded by the area described as Boundary Alternative 3 in the Draft Environmental Impact Statement and Management Plan for the Proposed Stellwagen Bank National Marine Sanctuary, published by the Department of Commerce in January 1991, except that the western boundary shall be modified as follows:

(1) The southwestern corner of the Sanctuary shall be located at a point off Provincetown, Massachusetts, at the following coordinates: 42 degrees, 7 minutes, 44.89 seconds (latitude), 70 degrees, 28 minutes, 15.44 seconds (longitude).

(2) The northwestern corner of the Sanctuary shall be located at a point off Cape Ann, Massachusetts, at the following coordinates: 42 degrees, 37 minutes, 53.52 seconds (latitude), 70 degrees, 35 minutes, 52.38 seconds (longitude).

(c) MANAGEMENT.—The Secretary of Commerce shall issue a management plan for the Sanctuary in accordance with section 304 of the Marine Protection, Research, and Sanctuary Act of 1972 (16 U.S.C. 1434), as amended by this title.

(d) SAND AND GRAVEL MINING ACTIVITIES PROHIBITED.—Notwithstanding any other provision of law, exploration for, and mining of, sand and gravel and other minerals in the Sanctuary is prohibited.

(e) CONSULATION.—In accordance with the procedures established in section 304(e) of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended by this title, the appropriate Federal agencies shall consult with the Secretary on proposed agency actions in the vicinity of the Sanctuary that may affect Sanctuary resources.

(f) AUTHORIZATION.—There are authorized to be appropriated to the Secretary of Commerce for carrying out the purposes of this section $570,000 for fiscal year 1993 and $250,000 for fiscal year 1994.

(d) OFFICE.—The Secretary of Commerce shall consider establishing a satellite office for the Stellwagen Bank National Marine Sanctuary in Provincetown, Gloucester, or Hull, Massachusetts.

SEC. 2203. MONTEREY BAY NATIONAL MARINE SANCTUARY.

(a) ISSUANCE OF DESIGNATION NOTICE.—Notwithstanding section 304(b) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434(b)), the designation of the Monterey Bay National Marine Sanctuary (hereinafter in this section the "Sanctuary"), as described in the notice of designation submitted to the Congress on September 15, 1992, shall take effect on September 18, 1992.

(b) OIL AND GAS ACTIVITIES PROHIBITED.—Notwithstanding any other provision of law, no leasing, exploration, development, or production of oil or gas shall be permitted within the Sanctuary as provided by section 944.5 of the Final Environmental Impact Statement and Management Plan for the Monterey Bay National Marine Sanctuary, published by the Department of Commerce in June 1992.

(c) CONSULTATION.—Section 304(e) of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended by this title, shall apply to the Sanctuary as designated by the Secretary of Commerce.

(d) VESSEL TRAFFIC.—Within 18 months after the date of enactment of this title, the Secretary of Commerce and the Secretary of Transportation, in consultation with the State of California and with adequate opportunity for public comment, shall report to Congress on measures for regulating vessel traffic in the Sanctuary if it is determined that such measures are necessary to protect Sanctuary resources.

SEC. 2204. ENHANCING SUPPORT FOR NATIONAL MARINE SANCTUARIES.

(a) IN GENERAL.—Beginning on the date of enactment of this title, the Secretary shall conduct a 2-year pilot project to enhance funding for designation and management of national marine sanctuaries.

(b) PROJECT.—The project shall consist of—

(1) the creation, adoption, and publication in the Federal Register by the Secretary of a symbol for the national marine sanctuary program, or for individual national marine sanctuaries;

(2) the solicitation of persons to be designated as official sponsors of the national marine sanctuary program or of individual national marine sanctuaries;

(3) the designation of persons by the Secretary as official sponsors of the national marine sanctuary program or of individual sanctuaries;

(4) the authorization by the Secretary of the use of any symbol published under paragraph (1) by official sponsors of the national marine sanctuary program or of individual national marine sanctuaries;

(5) the establishment and collection by the Secretary of fees from official sponsors for the manufacture, reproduction or use of the symbols published under paragraph (1);

(6) the retention of any fees assessed under paragraph (5) by the Secretary in an interest-bearing revolving fund; and

(7) the expenditure of any fees and any interest in the fund established under paragraph (6), without appropriation, by the secretary to designate and manage national marine sanctuaries.

(c) CONTRACT AUTHORITY.—The Secretary may contract with any person for the creation of symbols or the solicitation of official sponsors under subsection (b).

(d) RESTRICTIONS.—The Secretary may restrict the use of the symbols published under subsection (b), and the designation of official sponsors of the national marine sanctuary program or of individual national marine sanctuaries to ensure compatibility with the goals of the national marine sanctuary program.

(e) PROPERTY OF UNITED STATES.—Any symbol which is adopted by the Secretary and published in the Federal Register under subsection (b) is deemed to be the property of the United States.

(f) PROHIBITED ACTIVITIES.—(1) It is unlawful for any person—

(A) designated as an official sponsor to influence or seek to influence any decision by the Secretary or any other Federal official related to the designation or management of a national marine sanctuary, except to the extent that a person who is not so designated may do so;

(B) to represent himself or herself to be an official sponsor absent a designation by the Secretary;

(C) to manufacture, reproduce, or use any symbol adopted by the Secretary absent designation as an official sponsor and without payment of a fee to the Secretary; and

(D) to violate any regulation promulgated by the Secretary under this section.

(2) Violation of this subsection shall be considered a violation of title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.).

(g) REPORT.—No later than 30 months after the date of enactment of this Act, the Secretary shall submit a report on the pilot project to Congress regarding the success of the program in providing additional funds for management and operation of national marine sanctuaries.

(h) DEFINITIONS.—In this section

(1) the term "national marine sanctuary" or "national marine sanctuaries" means a national marine sanctuary or sanctuaries designated under title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.), or by other law in accordance with title III of the Marine Protection, Research, and Sanctuaries Act of 1972;

(2) the term "official sponsor" means any person designated by the Secretary who is authorized to manufacture, reproduce, or use any symbol created, adopted, and published in the Federal Register under this section for a fee paid to the Secretary; and

(3) the term "Secretary" means the Secretary of Commerce.

SEC. 2205. TECHNICAL CORRECTIONS RELATING TO COASTAL ZONE MANAGEMENT ACT OF 1972.

(a) AMENDMENT OF COASTAL ZONE MANAGEMENT ACT OF 1972.—Except as otherwise expressly provided, whenever in this section an amendment is expressed in terms of an amendment to a section or other provision, the reference shall be considered to be made to a section or other provision of the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.).

(b) TECHNICAL CORRECTIONS.—

(1) The Act is amended by—

(A) striking "coastal State" each place it appears and inserting "coastal state";

(B) striking "coastal States" each place it appears and inserting "coastal states"; and

(C) striking "coastal State's" each place it appears and inserting "coastal state's".

(2) Section 6203(b)(1) of the Coastal Zone Act Reauthorization Amendments of 1990 (104 Stat. 1388–301, relating to section 303(2) of the Coastal Zone Management Act of 1972) is amended by striking "as well as the" the first place it appears and inserting "as well as to".

(3) Section 6204(a) of the Coastal Zone Act Reauthorization Amendments of 1990 (104 Stat. 1388–302, relating to section 304(1) of the Coastal Zone Management Act of 1972) is amended—

(A) in the matter preceding paragraph (1) by striking "The third sentence of section" and inserting "Section";

(B) in paragraph (1) by inserting after "period at the end" the following: "of the third sentence"; and

(C) in paragraph (2) by inserting after "territorial sea.'" the following: "at the end of the second sentence".

(4) Section 6204(b) of the Coastal Zone Act Reauthorization Amendments of 1990 (104 Stat. 1388–302) is amended by striking "following'" and inserting "following:".

(5) Section 304(1) (16 U.S.C. 1453(1)) is amended in the second sentence—

(A) by striking "the outer limit of" the first place it appears; and

(B) by striking "1705," and inserting "1705),".

(6) Section 304(2) (16 U.S.C. 1453(2)) is amended by striking "the term" and inserting "The term".

(7) Section 304(9) (16 U.S.C. 1453(9)) is amended to read as follows:

"(9) The term 'Fund' means the Coastal Zone Management Fund established under section 308(b).".

(8) Section 306(b) (16 U.S.C. 1455(b)) is amended by striking the semicolon at the end and inserting a period.

(9) Section 6216(a) of the Coastal Zone Act Reauthorization Amendments of 1990 (104 Stat. 1388–314, relating to section 306A(b)(1) of the Coastal Zone Management Act of 1972) is amended by striking "306a(b)(1)" and inserting "306A(b)(1)".

(10) Section 306A(a)(1)(B) (16 U.S.C. 1455a(a)(1)(B)) is amended by striking "specified" and all that follows through the end of the sentence and inserting "specified in section 303(2)(A) through (K).".

(11) Section 306A(b) (16 U.S.C. 1455a(b)) is amended—

(A) in paragraph (2) by striking "that are designated" and all that follows through the end of the paragraph and inserting "that are designated in the state's management program pursuant to section 306(d)(2)(C) as areas of particular concern."; and

(B) in paragraph (3) by—

(i) striking "access of" and inserting "access to"; and

(ii) striking "in accordance with" and all that follows through the end of the paragraph and inserting "in accordance with the planning process required under section 306(d)(2)(G).".

(12) Section 306A(c) (16 U.S.C. 1455a(c)) is amended in paragraph (2)(C) in the matter following clause (iii) by striking "shall not by" and inserting "shall not be".

(13) Section 6208(b)(3)(B) of the Coastal Zone Act Reauthorization Amendments of 1990 (104 Stat. 1388–308, relating to section 307(c)(3)(B) of the Coastal Zone Management Act of 1972) is amended by inserting "with" after "complies".

(14) Section 307(i) (16 U.S.C. 1456(i)) is amended—

(A) by inserting "(1)" after "(i)";

(B) in paragraph (1) (as designated by subparagraph (A) of this paragraph) by striking the second sentence; and

(C) by adding at the end the following:

"(2)(A) The Secretary shall collect such other fees as are necessary to recover the full costs of administering and processing such appeals under subsection (c).

"(B) If the Secretary waives the application fee under paragraph (1) for an applicant, the Secretary shall waive all other fees under this subsection for the applicant.

"(3) Fees collected under this subsection shall be deposited into the Coastal Zone Management Fund established under section 308.".

(15) Section 6209 of the Coastal Zone Act Reauthorization Amendments of 1990 (104 Stat. 1388–308, relating to section 308 of the Coastal Zone Management Act of 1972) is amended in the matter preceding the quoted material by striking "1456" and inserting "1456a".

(16) Section 308(a)(1) (16 U.S.C. 1456a(a)(1)) is amended in the first sentence by striking "pursuant to this Act" and inserting "pursuant to this title".

(17) Section 308(b)(1) (16 U.S.C. 1456a(b)(1)) is amended by striking "(hereinafter" and all that follows through "'Fund')".

(18) Section 308(b)(1) (16 U.S.C. 1456a(b)(1)) is amended by inserting after "subsection (a)" the following: "and fees deposited into the Fund under section 307(i)(3)".

(19) The first section 313 (16 U.S.C. 1459) is amended—

(A) in subsection (a) by striking "section 308" and inserting "section 308, as in effect before the date of the enactment of the Coastal Zone Act Reauthorization Amendments of 1990,"; and

(B) in paragraph (1) of subsection (b) by striking "section 208(d)" and all that follows through the end of the paragraph and inserting "section 308, as in effect before the date of the enactment of the Coastal Zone Act Reauthorization Amendments of 1990; and".

(20) The second section 313 (16 U.S.C. 1460, relating to Walter B. Jones excellence in coastal zone management awards) is amended—

(A) by redesignating that section as section 314;

(B) in subsection (a) by inserting after "under section 308" the following: "and other amounts available to carry out this title (other than amounts appropriated to carry out sections 305, 306, 306A, 309, 310, and 315)"; and

(C) in subsection (e) by inserting after "under section 308" the following: "and other amounts available to carry out this title (other than amounts appropriated to carry out sections 305, 306, 306A, 309, 310, and 315)".

(21) Section 315(a) (16 U.S.C. 1461(a)) is amended by striking "National Estuarine Reserve Research System" and inserting "National Estuarine Research Reserve System".

(22) Section 315(c)(4) (16 U.S.C. 1461(c)(4)) is amended by striking "subsection (1)" and inserting "paragraph (1)".

(23) Section 316(a) (16 U.S.C. 1462(a)) is amended in clause (5) by striking "subsections (c) and (d) of this section" and inserting "subsections (c) and (d) of section 312".

(24) Section 6217(i)(3) of the Coastal Zone Act Reauthorization Amendments of 1990 (104 Stat. 1388–319, relating to definitions under that Act) is amended—

(A) by striking the comma; and

(B) by inserting "Zone" after "Coastal".

SEC. 2206. RESEARCH TO IMPROVE MANAGEMENT.

(a) FLORIDA NATIONAL MARINE SANCTUARY.—Section 7(a) of the Florida Keys National Marine Sanctuary and Protection Act (16 U.S.C. 1433 note) is amended by striking paragraph (4); by redesignating paragraphs (5) through (8) as paragraphs (6) through (9), respectively, and by inserting after paragraph (3) the following new paragraphs:

"(4) identify priority needs for research and amounts needed to—

"(A) improve management of the Sanctuary, and in particular, the coral reef ecosystem within the Sanctuary; and

"(B) identify clearly the cause and effect relationships between factors threatening the health of the coral reef ecosystem in the Sanctuary;

"(5) establish a long-term ecological monitoring program and data base, including methods to disseminate information on the management of the coral reef ecosystem;".

(b) DEADLINES NOT AFFECTED.—The amendments made by subsection (a) shall not be construed to modify, by implication or otherwise, the deadlines established under

(1) section 7(a) of the Florida Keys National Marine Sanctuary and Protection Act regarding completion of the comprehensive management plan and final regulations; or

(2) section 8(a) of that Act regarding development of the water quality protection program.

SEC. 2207. OLYMPIC COAST NATIONAL MARINE SANCTUARY.

No oil gas leasing or preleasing activity shall be conducted within the area designated as the Olympic Coast National Marine Sanctuary in accordance with Public Law 100–627.

SEC. 2208. PROVASOLI-GUILLARD CENTER FOR CULTURE OF MARINE PHYTOPLANKTON.

(a) FINDINGS.—The Congress finds the following:

(1) The oceans cover 70 percent of the surface of the Earth.

(2) The foundation of the food webs and fisheries productivity of the oceans rests with microscopic plants known as phytoplankton.

(3) Phytoplankton serve as a vital natural resource in the oceans.

(4) By serving as primary agents in the control of the flux of atmospheric carbon dioxide to the deep ocean, phytoplankton influence climate and the rate of global warming.

(5) There is limited knowledge of the biology, physiology, chemistry, and taxonomy of phytoplankton, and it is of vital interest to this Nation to improve the body of knowledge relating to phytoplankton to benefit this Nation and other countries.

(6) The Provasoli-Guillard Center for the Culture of Marine Phytoplankton located in West Boothbay Harbor, Maine, houses a

phytoplankton collection that contains species from each of the ocean environments of the World, and is recognized as the largest collection of phytoplankton in the World.

(7) The Provasoli-Guillard Center for the Culture of Marine Phytoplankton is of vital interest to oceanographers in this Nation and throughout the World, and provides cultures of phytoplankton for critical research on global issues.

(b) DESIGNATION.—In light of the findings under subsection (a), the Provasoli-Guillard Center for the Culture of Marine Phytoplankton located in West Boothbay Harbor, Maine, is designated as a National Center and Facility.

SEC. 2209. FLORIDA KEYS NATIONAL MARINE SANCTUARY.

(a) IMPLEMENTATION.—Section 8 of the Florida Keys National Marine Sanctuary and Protection Act (16 U.S.C. 1433 note) is amended by adding at the end the following new subsection:

"(d) IMPLEMENTATON.—(1) The Administrator of the Environmental Protection Agency and the Governor of the State of Florida shall implement the program required by this section, in cooperation with the Secretary of Commerce.

"(2)(A) The Regional Administrator of the Environmental Protection Agency shall with the Governor of the State of Florida establish a Steering Committee to set guidance and policy for the development and implementation of such program. Membership shall include representatives of the Environmental Protection Agency, the National Park Service, the United States Fish and Wildlife Service, the Army Corps of Engineers, the National Oceanic and Atmospheric Administration, the Florida Department of Community Affairs, The Florida Department of Environmental Regulation, the South Florida Water Management District, and the Florida Keys Aqueduct Authority; three individuals in local government in the Florida Keys; and three citizens knowledgeable about such program.

"(B) The Steering Committee shall, on a biennial basis, issue a report to Congress that—

"(i) summarizes the progress of the program;

"(ii) summarizes any modifications to the program and its recommended actions and plans; and

"(iii) incorporates specific recommendations concerning the implementation of the program.

"(C) The Administrator of the Environmental Protection Agency and the Administrator of the National Oceanic and Atmospheric Administration shall cooperate with the Florida Department of Environmental Regulation to establish a Technical Advisory Committee to advise the Steering Committee and to assist in the design and prioritization of programs for scientific research and monitoring. The Technical Advisory Committee shall be composed of scientists from Federal agencies, State agencies, academic institutions, private non-profit organizations, and knowledgeable citizens.

"(3)(A) The Regional Administrator of the Environmental Protection Agency shall appoint a Florida Keys Liaison Officer. The Liaison Officer, who shall be located within the State of Florida, shall have the authority and staff to—

"(i) assist and support the implementation of the program required by this section, including administrative and technical support for the Steering Committee and Technical Advisory Committee;

"(ii) assist and support local, State, and Federal agencies in developing and implementing specific action plans designed to carry out such program;

"(iii) coordinate the actions of the Environmental Protection Agency with other Federal agencies, including the National Oceanic and Atmospheric Administration and the National Park Service, and State and local authorities, in developing strategies to maintain, protect, and improve water quality in the Florida Keys;

"(iv) collect and make available to the public publications, and other forms of information that the Steering Committee determines to be appropriate, related to the water quality in the vicinity of the Florida Keys; and

"(v) provide for public review and comment on the program and implementing actions.

"(4)(A) There are authorized to be appropriated to the Administrator of the Environmental Protection Agency $2,000,000 for fiscal year 1993, $3,000,000 for fiscal year 1994, and $4,000,000 for fiscal year 1995, for the purpose of carrying out this section.

"(B) There are authorized to be appropriated to the Secretary of Commerce $300,000 for fiscal year 1993, $400,000 for fiscal year 1994, and $500,000 for fiscal year 1995, for the purpose of enabling the National Oceanic and Atmospheric Administration to carry out this section.

"(C) Amounts appropriated under this paragraph shall remain available until expended.

"(D) No more than 15 percent of the amount authorized to be appropriated under subparagraph (A) for any fiscal year may be expended in that fiscal year on administrative expenses.".

(B) TECHNICAL AMENDMENT.—Section 8(c) of the Florida Keys National Marine Sanctuary Protection Act (16 U.S.C. 1433 note) is amended by striking "paragraph (1)" and inserting in lieu thereof "subsection (a)".

Subtitle C—Hawaii Islands Humpback Whale Sanctuary

SEC. 2301. SHORT TITLE.

This subtitle may be cited as the "Hawaiian Islands National Marine Sanctuary Act".

SEC. 2302. FINDINGS.

The Congress finds the following:

(1) Many of the diverse marine resources and ecosystems within the Western Pacific region are of national significance and importance.

(2) There are at present no ocean areas in the Hawaiian Islands designated as national marine sanctuaries or identified on the Department of Commerce's Site Evaluation List of sites to be investigated as potential candidates for designation as a national marine sanctuary under title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.).

(3) The Hawaiian Islands consist of 8 major islands and 124 minor islands, with a total land area of 6,423 square miles and a general coastline of 750 miles.

(4) The marine environment adjacent to and between the Hawaiian Islands is a diverse and unique subtropical marine ecosystem.

(5) The Department of Commerce recently concluded in its Kahoolawe Island National Marine Sanctuary Feasibility Study that there is preliminary evidence of biological, cultural, and historical resources adjacent to Kahoolawe Island to merit further investigation for national marine sanctuary status.

(6) The Department of Commerce also concluded in its Kahoolawe Island National Marine Sanctuary Feasibility Study that there are additional marine areas within the Hawaiian archipelago which merit further consideration for national marine sanctuary status and that the national marine sanctuary program could enhance marine resource protection in Hawaii.

(7) The Hawaiian stock of the endangered humpback whale, the largest of the three North Pacific stocks, breed and calve within the waters of the main Hawaiian Islands.

(8) The marine areas surrounding the main Hawaiian Islands, which are essential breeding, calving, and nursing areas for the endangered humpback whale, are subject to damage and loss of their ecological integrity from a variety of disturbances.

(9) The Department of Commerce recently promulgated a humpback whale recovery plan which sets out a series of recommended goals and actions in order to increase the abundance of the endangered humpback whale.

(10) An announcement of certain Hawaiian waters frequented by humpback whales as an active candidate for marine sanctuary designation was published in the Federal Register on March 17, 1982 (47 FR 11544).

(11) The existing State and Federal regulatory and management programs applicable to the waters of the main Hawaiian Islands are inadequate to provide the kind of comprehensive and coordinated conservation and management of humpback whales and their habitat that is available under title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.).

(12) Authority is needed for comprehensive and coordinated conservation and management of humpback whales and their habitat that will complement existing Federal and State regulatory authorities.

(13) There is a need to support, promote, and coordinate scientific research on, and monitoring of, that portion of the marine environment essential to the survival of the humpback whale.

(14) Public education, awareness, understanding, appreciation, and wise use of the marine environment are fundamental to the protection and conservation of the humpback whale.

(15) The designation, as a national marine sanctuary, of the areas of the marine environment adjacent to the main Hawaiian Islands which are essential to the continued recovery of the humpback whale is necessary for the preservation and protection of this important national marine resource.

(16) The marine sanctuary designated for the conservation and management of humpback whales could be expanded to include other marine resources of national significance which are determined to exist within the sanctuary.

SEC. 2303. DEFINITIONS.

In this subtitle, the following definitions apply:

(1) The term "adverse impact" means an impact that independently or cumulatively damages, diminishes, degrades, impairs, destroys, or otherwise harms.

(2) The term "Sanctuary" means the Hawaiian Islands Humpback Whale National Marine Sanctuary designated under section 2305.

(3) The term "Secretary" means the Secretary of Commerce.

SEC. 2304. POLICY AND PURPOSES.

(a) POLICY.—It is the policy of the United States to protect and preserve humpback whales and their habitat within the Hawaiian Islands marine environment.

(b) PURPOSES.—The purposes of this subtitle are—

(1) to protect humpback whales and their habitat in the area described in section 2305(b);

(2) to educate and interpret for the public the relationship of humpback whales to the Hawaiian Islands marine environment;

(3) to manage such human uses of the Sanctuary consistent with this subtitle and title III of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended by this Act; and

(4) to provide for the identification of marine resources and ecosystems of national significance for possible inclusion in the sanctuary designated in section 2305(a).

SEC. 2305. DESIGNATION OF SANCTUARY.

(a) DESIGNATION.—Subject to subsection (c), the area described in subsection (b) is designated as the Hawaiian Islands Humpback Whale National Marine Sanctuary under title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1451 et seq.), as amended by this title.

(b) AREA INCLUDED.—(1) Subject to subsections (c) and (d), the area referred to in subsection (a) consists of the submerged lands and waters off the coast of the Hawaiian Islands seaward of the upper reaches of the wash of the waves on shore—

(A) to the 100-fathom (183-meter) isobath adjoining the islands of Lanai, Maui, and Molokai, including Penguin Bank but excluding the area within 3 nautical miles of the upper reaches of the waves on the shore of Kahoolawe Island;

(B) to the deep water area of Pailolo Channel from Cape Halawa, Molokai, to Nakalele Point, Maui, and southward; and

(C) to the 100-fathom (183-meter) isobath adjoining the Kilauea National Wildlife Refuge on the island of Kauai.

(2)(A) On January 1, 1996, the area of the marine environment within 3 nautical miles of the upper reaches of the wash of the waves on the shore of Kahoolawe Island is designated a part of the Sanctuary, unless during the 3-month period immediately preceding January 1, 1996, the Secretary certifies in writing to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives that the area is not suitable for inclusion in the Sanctuary. If such certification is made, it shall be accompanied by a written explanation of the Secretary's reasoning in support of the certification.

(B) After a certification of unsuitability is made under subparagraph (A), the Secretary shall annually make a finding concerning the suitability of the area for inclusion in the Sanctuary and submit to such congressional committees a report on that finding and the reasons therefor. If the Secretary finds that the area is suitable for inclusion in the Sanctuary, the area is designated a part of the Sanctuary on the 30th day after such report is submitted.

(C) Upon designation of the area under subparagraph (A) or (B), the area shall be managed as if it has been designated under section 2305, and the Secretary shall—

(i) publish a notice in the Federal Register announcing the designation and identifying the area; and

(ii) issue such regulations for the area as are necessary to fulfill the Secretary's responsibilities under this subtitle and title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.).

(3) The Secretary shall generally identify and depict the Sanctuary on National Oceanic and Atmospheric Administration charts. Those charts shall be maintained on file and kept available for public examination during regular business hours at the Office of Ocean and Coastal Resource Management of the National Oceanic and Atmospheric Administration. The Secretary shall update the charts to reflect any boundary modification under subsection (d), and any additional designation under paragraph (2) of this subsection.

(c) EFFECT OF OBJECTION BY GOVERNOR.—(1) If within 45 days after the date of enactment of this title the Governor of Hawaii certifies to the Secretary that the designation (including the prospective additional designation under subsection (b)(2) of the area within 3 nautical miles of Kahoolawe Island) is unacceptable, the designation shall not take effect in the area of the Sanctuary lying within the seaward boundary of the State of Hawaii.

(2) If within 45 days after the date of issuance of the comprehensive management plan and implementing regulations under section 2306 the Governor of Hawaii certifies to the Secretary that the management plan, any implementing regulation, or any term of the plan or regulations is unacceptable, the management plan, regulation, or term, respectively, shall not take effect in the area of the Sanctuary lying within the seaward boundary of the State of Hawaii.

(3) If the Secretary considers that an action taken under paragraph (1) or (2) will affect the Sanctuary in a manner that the goals and objectives of this subtitle cannot be fulfilled, the Secretary may terminate the entire designation under subsection (a). At least 30 days prior to such termination, the Secretary shall submit written notification of the proposed termination to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives.

(d) BOUNDARY MODIFICATIONS.—No later than the date of issuance of the draft environmental impact statement for the Sanctuary under section 304(a)(1)(C)(vii) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434(a)(1)(C)(vii)), the Secretary, in consultation with the Governor of Hawaii, if appropriate, may make modifications to the boundaries of the Sanctuary as necessary to fulfill the purposes of this subtitle. The Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a written notification of such modifications.

SEC. 2306. COMPREHENSIVE MANAGEMENT PLAN.

(a) PREPARATION OF PLAN.—The Secretary, in consultation with interested persons and appropriate Federal, State, and local government authorities, shall develop and issue not later than 18 months after the date of enactment of this title a comprehensive management plan and implementing regulations to achieve the policy and purposes of this subtitle. In developing the plan and regulations, the Secretary shall follow the procedures specified in sections 303 and 304 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1433 and 1434), as amended by this title. Such comprehensive management plan shall—

(1) facilitate all public and private uses of the Sanctuary (including uses of Hawaiian natives customarily and traditionally exercised for subsistence, cultural, and religious purposes) consistent with the primary objective of the protection of humpback whales and their habitat;

(2) set forth the allocation of Federal and State enforcement responsibilities, as jointly agreed by the Secretary and the State of Hawaii;

(3) identify research needs and establish a long-term ecological monitoring program with respect to humpback whales and their habitat;

(4) identify alternative sources of funding needed to fully implement the plan's provisions and supplement appropriations under section 2307 of this subtitle and section 313 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1444);

(6) ensure coordination and cooperation between Sanctuary managers and other Federal, State, and local authorities with jurisdiction within or adjacent to the Sanctuary; and

(7) promote education among users of the Sanctuary and the general public about conservation of humpback whales, their habitat, and other marine resources.

(b) PUBLIC PARTICIPATION.—The Secretary shall provide for participation by the general public in development of the comprehensive management plan or any amendment thereto.

SEC. 2307. AUTHORIZATION OF APPROPRIATIONS.

For carrying out this subtitle, there are authorized to be appropriated to the Secretary $500,000 for fiscal year 1993 and $300,000 for fiscal year 1994. Of the amounts appropriated under this section for fiscal year 1993—

(1) not less than $50,000 shall be used by the Western Pacific Regional Team to evaluate potential national marine sanctuary sites for inclusion on the Department of Commerce's Site Evaluation List; and

(2) not less than $50,000 shall be used to continue the investigation of biological, cultural, and historical resources adjacent to Kahoolawe Island.

TITLE III—MARINE MAMMAL STRANDINGS

SEC. 301. SHORT TITLE.

This title may be cited as the "Marine Mammal Health and Stranding Response Act".

SEC. 302. FINDINGS.

The Congress finds the following:

(1) Current stranding network participants have performed an undeniably valuable and ceaseless job of responding to marine mammal strandings over the last 15 years.

(2) Insufficient understanding of the connection between marine mammal health and the physical, chemical, and biological parameters of their environment prevents an adequate understanding of the causes of marine mammal unusual mortality events.

(3) An accurate assessment of marine mammal health, health trends in marine mammal populations in the wild, and causes of marine mammal unusual mortality events cannot be made without adequate reference data on marine mammals and the environment in which they live.

(4) A systematic assessment of the sources, presence, levels, and effects of potentially harmful contaminants on marine mammals would provide a better understanding of some of the causes of marine mammal unusual mortality events and may serve as an indicator of the general health of our coastal and marine environments.

(5) Responses to marine mammal unusual mortality events are often uncoordinated, due to the lack of sufficient contingency planning.

(6) Standardized methods for the reporting of dying, dead, or otherwise incapacitated

marine mammals in the wild would greatly assist in the determination of the causes of marine mammal unusual mortality events and enhance general knowledge of marine mammal species.

(7) A formal system for collection, preparation, and archiving of, and providing access to, marine mammal tissues will enhance efforts to investigate the health of marine mammals and health trends of marine mammal populations, and to develop reference data.

(8) Information on marine mammals, including results of analyses of marine mammal tissues, should be broadly available to the scientific community, including stranding network participants, through a marine mammal data base.

SEC. 303. MARINE MAMMAL HEALTH AND STRANDING RESPONSE PROGRAM.

(a) IN GENERAL.—The Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.) is amended by adding at the end the following new title:

"TITLE III—MARINE MAMMAL HEALTH AND STRANDING RESPONSE

"SEC. 301. ESTABLISHMENT OF PROGRAM.

"(a) ESTABLISHMENT.—The Secretary shall, in consultation with the Secretary of the Interior, the Marine Mammal Commission, and individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, including stranding network participants, establish a program to be known as the 'Marine Mammal Health and Stranding Response Program'.

"(b) PURPOSES.—The purposes of the Program shall be to—

"(1) facilitate the collection and dissemination of reference data on the health of marine mammals and health trends of marine mammal populations in the world;

"(2) correlate the health of marine mammals and marine mammal populations, in the wild, with available data on physical, chemical, and biological environmental parameters; and

"(3) coordinate effective responses to unusual mortality events by establishing a process in the Department of Commerce in accordance with section 304.

"SEC. 302. DETERMINATION; DATA COLLECTION AND DISSEMINATION.

"(a) DETERMINATION FOR RELEASE.—The Secretary shall, in consultation with the Secretary of the Interior, the Marine Mammal Commission, and individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, including stranding network participants, develop objective criteria, after an opportunity for public review and comment, to provide guidance for determining at what point a rehabilitated marine mammal is releasable to the wild.

"(b) COLLECTION.—The Secretary shall, in consultation with the Secretary of the Interior, collect and update, periodically, existing information on—

"(1) procedures and practices for—

"(A) rescuing and rehabilitating stranded marine mammals, including criteria used by stranding network participants, on a species-by-species basis, for determining at what point a marine mammal undergoing rescue and rehabilitation is returnable to the wild; and

"(B) collecting, preserving, labeling, and transporting marine mammal tissues for physical, chemical, and biological analyses;

"(2) appropriate scientific literature on marine mammal health, disease, and rehabilitation;

"(3) strandings, which the Secretary shall compile and analyze, by region, to monitor species, numbers, conditions, and causes of illnesses and deaths of stranded marine mammals; and

"(4) other life history and reference level data, including a marine mammal tissue analyses, that would allow comparison of the causes of illness and deaths in stranded marine mammals with physical, chemical, and biological environmental parameters.

"(c) AVAILABILITY.—The Secretary shall make information collected under this section available to stranding network participants and other qualified scientists.

"SEC. 303. STRANDING RESPONSE AGREEMENTS.

"(a) IN GENERAL.—The Secretary may enter into agreement under section 112(c) with any person to take marine mammals under section 209(h)(1) in response to a stranding.

"(b) REQUIRED PROVISION.—An agreement authorized by subsection (a) shall—

"(1) specify each person who is authorized to perform activities under the agreement; and

"(2) specify any terms and conditions under which a person so specified may delegate that authority to another person.

"(c) REVIEW.—The Secretary shall periodically review agreements under section 112(c) that are entered into pursuant to this title, for performance adequacy and effectiveness.

"SEC. 304. UNUSUAL MORTALITY EVENT RESPONSE.

"(a) RESPONSE.—

"(1) WORKING GROUP.—

"(A) The Secretary, acting through the Office, shall establish, in consultation with the Secretary of the Interior, a marine mammal unusual mortality event working group, consisting of individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, marine conservation, and medical science, to provide guidance to the Secretary and the Secretary of the Interior for—

"(i) determining whether an unusual mortality event is occurring;

"(ii) determining, after an unusual mortality event has begun, if response actions with respect to that event are no longer necessary; and

"(iii) developing the contingency plan in accordance with subsection (b), to assist the Secretary in responding to unusual mortality events.

"(B) The Federal Advisory Committee Act (5 App. U.S.C.) shall not apply to the marine mammal unusual mortality event working group established under this paragraph.

"(2) RESPONSE TIMING.—The Secretary, in consultation with the Secretary of the Interior, shall to the extent necessary and practicable—

"(A) within 24 hours after receiving notification from a stranding network participant that an unusual mortality event might be occurring, contact as many members as is possible of the unusual mortality event working group for guidance; and

"(B) within 48 hours after receiving such notification—

"(i) make a determination as to whether an unusual mortality event is occurring;

"(ii) inform the stranding network participant of that determination; and

"(iii) if the Secretary has determined an unusual mortality event is occurring, designate an Onsite Coordinator for the event, in accordance with subsection (c).

"(b) CONTINGENCY PLAN.—

"(1) IN GENERAL.—The Secretary shall, in consultation with the Secretary of the Interior and the unusual mortality event working group, and after an opportunity for public review and comment, issue a detailed contingency plan for responding to any unusual mortality event.

"(2) CONTENTS.—The contingency plan required under this subsection shall include—

"(A) a list of persons, including stranding network participants, at a regional, State, and local level, who can assist the Secretary in implementing a coordinated and effective response to an unusual mortality event;

"(B) the types of marine mammal tissues and analyses necessary to assist in diagnosing causes of unusual mortality events;

"(C) training, mobilization, and utilization procedures for available personnel, facilities, and other resources necessary to conduct a rapid and effective response to unusual mortality events; and

"(D) such requirements as are necessary to—

"(i) minimize death of marine mammals in the wild and provide appropriate care of marine mammals during an unusual mortality event;

"(ii) assist in identifying the cause or causes of an unusual mortality event;

"(iii) determine the effects of an unusual mortality event on the size estimates of the affected populations of marine mammals; and

"(iv) identify any roles played in an unusual mortality event by physical, chemical, and biological factors, including contaminants.

"(c) ONSITE COORDINATORS.—

"(1) DESIGNATION.—

"(A) The Secretary shall, in consultation with the Secretary of the Interior, designate one or more Onsite Coordinators for an unusual mortality event, who shall make immediate recommendations to the stranding network participants on how to proceed with response activities.

"(B) An Onsite Coordinator so designated shall be one or more appropriate Regional Directors of the National Marine Fisheries Service or the United States Fish and Wildlife Service, or their designees.

"(C) If, because of the wide geographic distribution, multiple species of marine mammals involved, or magnitude of an unusual mortality event, more than one Onsite Coordinator is designated, the Secretary shall, in consultation with the Secretary of the Interior, designate which of the Onsite Coordinators shall have primary responsibility with respect to the event.

"(2) FUNCTIONS.—

"(A) An Onsite Coordinator designated under this subsection shall coordinate and direct the activities of all persons responding to an unusual mortality event in accordance with the contingency plan issued under subsection (b), except that—

"(i) with respect to any matter that is not covered by the contingency plan, an Onsite Coordinator shall use his or her best professional judgment; and

'(ii) the contingency plan may be temporarily modified by an Onsite Coordinator, consulting as expeditiously as possible with the Secretary, the Secretary of the Interior, and the unusual mortality event working group.

"(B) An Onsite Coordinator may delegate to any qualified person authority to act as an Onsite Coordinator under this title.

"SEC. 305. UNUSUAL MORTALITY EVENT ACTIVITY FUNDING.

"(a) ESTABLISHMENT OF FUND.—There is established in the Treasury a fund to be known as the 'Marine Mammal Unusual Mortality

Event Fund', which shall consist of amounts deposited into the Fund under subsection (c).

"(b) USES.—

"(1) IN GENERAL.—Amounts in the Fund—

"(A) shall be available only for use by the Secretary, in consultation with the Secretary of the Interior—

"(i) to compensate persons for special costs incurred in acting in accordance with the contingency plan issued under section 304(b) or under the direction of an Onsite Coordinator for an unusual mortality event; and

"(ii) for reimbursing any stranding network participant for costs incurred in preparing and transporting tissues collected with respect to an unusual mortality event for the Tissue Bank; and

"(B) shall remain available until expended.

"(2) PENDING CLAIMS.—If sufficient amounts are not available in the Fund to satisfy any authorized pending claim, such claim shall remain pending until such time as sufficient amounts are available. All authorized pending claims shall be satisfied in the order received.

"(c) DEPOSITS INTO THE FUND.—There shall be deposited into the Fund—

"(1) amounts appropriated to the Fund;

"(2) other amounts appropriated to the Secretary for use with respect to unusual mortality events; and

"(3) amounts received by the United States in the form of gifts, devises, and bequests under subsection (d).

"(d) ACCEPTANCE OF DONATIONS.—For purposes of carrying out this title, the Secretary may accept, solicit, and use the services of volunteers, and may accept, solicit, receive, hold, administer, and use gifts, devises, and bequests.

"SEC. 306. LIABILITY.

"(a) IN GENERAL.—A person who is authorized to respond to a stranding pursuant to an agreement entered into under section 112(c) is deemed to be an employee of the government for purposes of chapter 171 of title 28, United States, with respect to actions of the person that are—

"(1) in accordance with the agreement; and

"(2) in the case of an unusual mortality event, in accordance with—

"(A) the contingency plan issued under section 304(b);

"(B) the instructions of an Onsite Coordinator designated under section 304(c); or

"(C) the best professional judgment of an Onsite Coordinator, in the case of any matter that is not covered by the contingency plan.

"(b) LIMITATION.—Subsection (a) does not apply to actions of a person described in that subsection that are grossly negligent or that constitute willful misconduct.

"SEC. 307. NATIONAL MARINE MAMMAL TISSUE BANK AND TISSUE ANALYSIS.

"(a) TISSUE BANK.—

"(1) IN GENERAL.—The Secretary shall make provision for the storage, preparation, examination, and archiving of marine mammal tissues. Tissues achieved pursuant to this subsection shall be known as the 'National Marine Mammal Tissue Bank'.

"(2) GUIDANCE FOR MARINE TISSUE COLLECTION, PREPARATION, AND ARCHIVING.—The Secretary shall, in consultation with individuals with knowledge and expertise in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, issue guidance, after an opportunity for public review and comment, for marine mammal tissue collection, preparation, archiving, and quality control procedures, regarding—

"(A) appropriate and uniform methods and standards for those activities to provide confidence in marine mammal tissue samples used for research; and

"(B) documentation of procedures used for collecting, preparing, and archiving those samples.

"(3) SOURCE OF TISSUE.—In addition to tissue taken during marine mammal unusual mortality events, the Tissue Bank shall incorporate tissue samples taken from other sources in the wild, including—

"(A) samples from marine mammals taken incidental to commercial fishing operations;

"(B) samples from marine mammals taken for subsistence purposes;

"(C) biopsy samples; and

"(D) any other samples properly collected.

"(b) TISSUE ANALYSIS.—The Secretary shall, in consultation with the Marine Mammal Commission, the Secretary of the Interior, and individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, and marine conservation, issue guidance, after an opportunity for public review and comment, for analyzing tissue samples (by use of the most effective and advanced diagnostic technologies and tools practicable) as a means to monitor and measure overall health trends in representative species or populations of marine mammals, including—

"(1) the levels of, and if possible, the effects of, potentially harmful contaminants; and

"(2) the frequency of, and if possible, the causes and effects of abnormal lesions or anomalies.

"(c) DATA BASE.—

"(1) IN GENERAL.—The Secretary shall maintain a central data base which provides an effective means for tracking and accessing data on marine mammals, including relevant data on marine mammal tissues collected for and maintained in the Tissue Bank.

"(2) CONTENTS.—The data base established under this subsection shall include—

"(A) reference data on the health of marine mammals and populations of marine mammals; and

"(B) data on species of marine mammals that are subject to unusual mortality events.

"(d) ACCESS.—The Secretary shall, in consultation with the Secretary of the Interior, establish criteria, after an opportunity for public review and comment, for access to—

"(1) marine mammal tissues in the Tissue Bank;

"(2) analyses conducted pursuant to subsection (b); and

"(3) marine mammal data in the data base maintained under subsection (c);

which provide for appropriate uses of the tissues, analyses, and data by qualified scientists, including stranding network participants.

"SEC. 308. AUTHORIZATION OF APPROPRIATIONS.

"There is authorized to be appropriated—

"(1) to the Secretary for carrying out this title (other than sections 305 and 307) $250,000 for each of fiscal years 1993 and 1994;

"(2) to the Secretary for carrying out section 307, $250,000 for each of fiscal years 1993 and 1994; and

"(3) to the Fund, $500,000 for fiscal year 1993.

"SEC. 309. DEFINITIONS.

"In the title, the following definitions apply:

"(1) The term 'Fund' means the Marine Mammal Unusual Mortality Event Fund established by section 305(a).

"(2) The term 'Office' means the Office of Protected Resources, in the National Marine Fisheries Service.

"(3) The term 'stranding' means an event in the wild in which—

"(A) a marine mammal is dead and is—

"(i) on a beach or shore of the United States; or

"(ii) in waters under the jurisdiction of the United States (including any navigable waters); or

"(B) a marine mammal is alive and is——

"(i) on a beach or shore of the United States and unable to return to the water;

"(ii) on a beach or shore of the United States and, although able to return to the water, is in need of apparent medical attention; or

"(iii) in the waters under the jurisdiction of the United States (including any navigable waters), but is unable to return to its natural habitat under its own power or without assistance.

"(4) The term 'stranding network participant' means a person who is authorized by an agreement under section 112(c) to take marine mammals as described in section 109(h)(1) in response to a stranding.

"(5) The term 'Tissue Bank' means the National Marine Tissue Bank provided for under section 307(a).

"(6) The term 'unusual mortality event' means a stranding that—

"(A) is unexpected;

"(B) involves a significant die-off of any marine mammal population; and

"(C) demands immediate response."

(b) IMPLEMENTATION.—The Secretary of Commerce shall—

(1) in accordance with section 302 (a) and (b) of the Marine Mammal Protection Act of 1972, as amended by this Act, and not later than 24 months after the date of enactment of this Act—

(A) develop and implement objective criteria to determine at what point a marine mammal undergoing rehabilitation is returnable to the wild; and

(B) collect and make available information on marine mammal health and health trends; and

(2) in accordance with section 304(b) of the Marine Mammal Protection Act of 1972, as amended by this Act, issue a detailed contingency plan for responding to any unusual mortality event—

(A) in proposed form by not later than 18 months after the date of enactment of this Act; and

(B) in final form by not later than 24 months after the date of enactment of this Act.

SEC. 304. CONFORMING AMENDMENTS.

(a) CROSS REFERENCES.—The Marine Mammal Protection Act of 1972 is amended—

(1) in section 102(a) (16 U.S.C. 1372(a)) by inserting "or title III" after "this title" the first place it appears;

(2) in section 109(h)(1) (16 U.S.C. 1379(h)(1)) by inserting "or title III" after "this title"; and

(3) in section 112(c) (16 U.S.C. 1382(c)) by inserting "or title III" after "this title".

(b) DEFINITION OF SECRETARY.—Section 3(11) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1362(11)) is amended—

(1) by striking "The term" and inserting "(A) Except as provided in subparagraph (B), the term";

(2) by redesignating subparagraph (A) as clause (i);

(3) by redesignating subparagraph (B) as clause (ii); and

(4) by adding at the end the following new subparagraph:

"(B) In title III the term 'Secretary' means the Secretary of Commerce."

SEC. 305. COASTAL IMPROVEMENTS.

The Secretary of the Army shall conduct studies for navigation projects for Provincetown Harbor, Massachusetts, and Aunt Lydia's Cove, Chatham, Massachusetts, and shall evaluate the benefits of the projects to commercial fishermen at full manufacturing wages. After completion of the studies, the Secretary of the Army shall carry out the projects under section 107 of the River and Harbor Act of 1960 (33 U.S.C. 577).

SEC. 306. TECHNICAL CLARIFICATION.

Section 4283B of the Revised Statutes (46 App. U.S.C. 183c) is amended in paragraph (2) by adding the word "any" before the word "court".

TITLE IV—NEW YORK ZEBRA MUSSELS

SEC. 402. NEW YORK CITY ZEBRA MUSSEL PROGRAM.

(a) MONITORING AND PREVENTION.—

(1) IN GENERAL.—The Secretary, in consultation with the Administrator of the Environmental Protection Agency, the Director of the United States Fish and Wildlife Service, the Governor of the State of New York and the Mayor of the city of New York, shall—

(A) develop a prevention monitoring program for zebra mussels throughout the New York City water supply system;

(B) develop appropriate zebra mussel prevention and removal technologies for the New York City water supply system; and

(C) provide technical assistance to the State of New York and the city of New York on alternative design and maintenance practices for the New York City water supply system in the event of zebra mussel infestation.

(2) COST SHARING.—The Secretary shall not initiate any monitoring, prevention, or technical assistance project or program under this subsection until appropriate non-Federal interests agree, by contract, to contribute 25 percent of the cost for such project or program during the period of such project or program.

(3) AUTHORIZATION OF APPROPRIATIONS.—For the purposes of carrying out this subsection, there is authorized to be appropriated to the Secretary $2,000,000 for each fiscal years 1993, 1994, 1995, 1996, and 1997. Such sums shall remain available until expended.

(b) EXOTIC AQUATIC ORGANISMS.—

(1) IN GENERAL.—Section 1101(b) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4711(b)) is amended by adding at the end the following new paragraph:

"(3) In addition to issuing regulations under paragraph (1), the Secretary, in consultation with the Task Force shall, not later than 24 months after the date of the enactment of this paragraph, issue regulations to prevent the introduction and spread of aquatic nuisance species into the Great Lakes through ballast water carried on vessels that, after operating on the waters beyond the exclusive economic zone, enter a United States port on the Hudson River north of the George Washington Bridge.".

(2) TECHNICAL CORRECTIONS.—The Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701 *et seq.*) is amended—

(A) by striking paragraph (1) of section 1003 and renumbering paragraphs (2) through (15) as paragraphs (1) through (14); and

(B) in subparagraph 1101(b)(2)(A) by striking "require" and inserting "apply to".

TITLE V—COAST GUARD AUTHORIZATION

SEC. 501. SHORT TITLE.

This title may be cited as the "Coast Guard Authorization Act of 1992".

SEC. 502. AUTHORIZATION OF APPROPRIATIONS.

Funds are authorized to be appropriated for necessary expenses of the Coast Guard for Fiscal Year 1993, as follows:

(1) For the operation and maintenance of the Coast Guard, $2,603,000,000, of which—

(A) $253,100,000 shall be transferred from the Department of Defense;

(B) $31,876,000 shall be derived from the Oil Spill Liability Trust Fund; and

(C) $35,000,000 shall be expended from the Boat Safety Account.

(2) For the acquisition, construction, rebuilding, and improvement of aids-to-navigation, shore and offshore facilities, vessels, and aircraft, including equipment related thereto, $419,300,000 to remain available until expended, of which—

(A) $18,000,000 shall be transferred from the Department of Defense; and

(B) $38,122,000 shall be derived from the Oil Spill Liability Trust Fund.

(3) For research, development, test, and evaluation, $29,900,000, to remain available until expended, of which $4,000,000 shall be derived from the Oil Spill Liability Trust Fund.

(4) For retired pay (including the payment of obligations otherwise chargeable to lapsed appropriations for this purpose), payments under the Retired Serviceman's Family Protection and Survivor Benefit Plans, and payments for medical care of retired personnel and their dependents under chapter 55 of title 10, United States Code, $519,700,000, to remain available until expended.

(5) For alteration or removal of bridges over navigable waters of the United States constituting obstructions to navigation, and for personnel and administrative costs associated with the Bridge Administration Program, $12,600,000, to remain available until expended.

(6) For environmental compliance and restoration at Coast Guard facilities, $30,500,000, to remain available until expended.

SEC. 503. AUTHORIZED LEVELS OF MILITARY STRENGTH AND MILITARY TRAINING.

(a) As of September 30, 1993, the Coast Guard is authorized an end-of-year strength for active duty personnel of 39,732. The authorized strength does not include members of the Ready Reserve called to active duty under section 712 of title 14, United States Code.

(b) For Fiscal Year 1993, the Coast Guard is authorized average military training student loads as follows:

(1) For recruit and special training, 2,653 student years.

(2) For flight training, 110 student years.

(3) For professional training in military and civilian institutions, 362 student years.

(4) For officer acquisition, 878 student years.

SEC. 504. SHORE FACILITIES IMPROVEMENTS AT GROUP CAPE HATTERAS.

Of amounts authorized to be appropriated for acquisition, construction rebuilding and improvement, the Secretary of Transportation shall expend not more than $5,500,000, in Fiscal Years 1993, 1994, 1995, 1996, and 1997, for shore facilities improvements within Group Cape Hatteras, North Carolina.

SEC. 505. PREPOSITIONED OIL SPILL CLEANUP EQUIPMENT.

Of the amounts authorized to be appropriated for acquisition, construction, rebuilding, and improvement that are derived from the Oil Spill Liability Trust Fund in fiscal year 1993, the Secretary of Transportation shall expend not more than—

(1) $890,000 to acquire and preposition oil spill response equipment at Houston, Texas; and

(2) $1,160,000 for the enhancement of Columbia River marine, fire, oil, and toxic spill response communications, training, equipment, and program administration activities conducted by the Maritime Fire and Safety Association.

SEC. 506. OIL SPILL TRAINING SIMULATORS.

Of the amounts authorized to be appropriated for acquisition, construction, rebuilding, and improvement that are derived from the Oil Spill Liability Trust Fund in fiscal year 1993, the Secretary of Transportation shall make available not more than—

(1) $1,250,000 to the Texas Center for Marine Training and Safety at Galveston, Texas, for the purchase of a marine oil spill management simulator; and

(2) $1,250,000 to the Massachusetts Center for Marine Environmental Protection, located at Buzzards Bay, Massachusetts, for the purchase of a marine oil spill management simulator.

SEC. 507. EVACUATION ALLOWANCE.

Section 208 of the Dire Emergency Supplemental Appropriations Act, 1992 (Public Law 102-368) applies to military personnel and civilian employees of the United States Coast Guard to the same extent as that section applies to the Department of Defense, except that funds available to the Coast Guard shall be used.

Subtitle A—Boating Safety

SEC. 5101. TREATMENT OF UNOBLIGATED ALLOCATIONS FOR STATE RECREATIONAL BOATING SAFETY PROGRAMS.

Section 13104 of title 46, United States Code, is amended to read as follows: § 13104. Availability of allocations

"(a)(1) Amounts allocated to a State shall be available for obligation by that State for a period of 3 years after the date of allocation.

"(2) Amounts allocated to a State that are not obligated to the end of the 3-year period referred to in paragraph (1) shall be withdrawn and allocated by the Secretary in addition to any other amounts available for allocation in the fiscal year in which they are withdrawn or the following fiscal year.

"(b) Amounts available to the Secretary for State recreational boating safety programs for a fiscal year that have not been allocated at the end of the fiscal year shall be allocated among States in the next fiscal year in addition to amounts otherwise available for allocation to States for the next fiscal year.".

SEC. 5102. INCREASED PENALTIES FOR OPERATING A VESSEL WHILE INTOXICATED.

Section 2302(c)(1) of title 46, United States Code, is amended by striking "$1,000;" and inserting "$1,000 for a first violation and not more than $5,000 for a subsequent violation;"

SEC. 5103. FUTURE BOATERS EDUCATION PROGRAM.

Not later than 6 months after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a plan to increase the availability of voluntary safe boating education to individuals 16 years of age or younger. In developing the plan, the Secretary shall consider using the resources of the Coast Guard Auxiliary to provide boating education to the greatest extent possible.

Subtitle B—Miscellaneous

SEC. 5201. COAST GUARD BAND DIRECTOR.

Section 336(d) of title 14, United States Code, is amended by striking "lieutenant".

SEC. 5202. RECYCLING PROGRAM.

Section 641 of title 14, United States Code, is amended by adding the following:

"(c)(1) The Commandant may—

"(A) provide for the sale of recyclable materials that the Coast Guard holds;

"(B) provide for the operation of recycling programs at Coast Guard installations; and

"(C) designate Coast Guard installations that have qualified recycling programs for the purposes of subsection (d)(2).

"(2) Recyclable materials shall be sold in accordance with section 203 of the Federal Property and Administrative Services Act of 1949 (U.S.C. 484).

"(d)(1) Proceeds from the sale of recyclable materials at a Coast Guard installation shall be credited to funds available for operations and maintenance at that installation in amounts sufficient to cover operations, maintenance, recycling equipment, and overhead costs for processing recyclable materials at the installation.

"(2) If, after funds are credited, a balance remains available to a Coast Guard installation and the installation has a qualified recycling program, not more than 50 percent of that balance may be used at the installation for projects for pollution abatement, energy conservation, and occupational safety and health activities. The cost of the project may not be greater than 50 percent of the amount permissible for a minor construction project.

"(3) The remaining balance available to a Coast Guard installation may be transferred to the Coast Guard Morale, Welfare and Recreation Program.

"(e) If the balance available to the Coast Guard installation under this section at the end of a fiscal year is in excess of $200,000, the amount of that excess shall be deposited in the general fund of the Treasury as offsetting receipts of the department in which the Coast Guard is operating and ascribed to Coast Guard activities.".

SEC. 5203. CONFIDENTIALITY OF MEDICAL RECORDS.

(a) Title 14, United States Code is amended by inserting after section 644 the following new section:

"§ 645. Confidentiality of medical quality assurance records; qualified immunity for participants

"(a) In this section—

"(1) 'medical quality assurance program' means any activity carried out by or for the Coast Guard to assess the quality of medical care, incuding activities conducted by individuals, military medical or dental treatment facility committees, or other review bodies responsible for quality assurance, credentials, infection control, patient care assessment (including treatment procedures, blood, drugs, and therapeutics) medical records, health resources management review and identification and prevention of medical or dental incidents and risks.

"(2) 'medical quality assurance record' means the proceedings, records, minutes, and reports that emanate from quality assurance program activities described in paragraph (1) and are produced or compiled by the Coast Guard as part of a medical quality assurance program.

"(3) 'health care provider' means any military or civilian health care professional who, under regulations prescribed by the Secretary, is granted clinical practice privileges to provide health care services in a military medical or dental treatment facility or who is licensed or certified to perform health care services by a governmental board or agency or professional health care society or organization.

"(b) Medical quality assurance records created by or for the Coast Guard as part of a medical quality assurance program are confidential and privileged. The records may not be disclosed to any person or entity except as provided in subsection (d).

"(c)(1) Medical quality assurance records are not subject to discovery and may not be admitted into evidence in any judicial or administrative proceeding, except as provided in subsection (d).

"(2) Except as provided in this section, an individual who reviews or creates quality assurance records for the Coast Guard or who participates in any proceeding that reviews or creates the records may not testify in any judicial or administrative proceeding with respect to the records or with respect to any finding, recommendation, evaluation, opinion, or action taken by that person in connection with the records.

"(d)(1) Subject to paragraph (2), a medical quality assurance record may be disclosed, and an individual referred to in subsection (c) may testify in connection with a record only as follows:

"(A) To a Federal executive agency or private organization, if necessary to license, accredit, or monitor Coast Guard health care facilities.

"(B) To an administrative or judicial proceeding commenced by a present or former Coast Guard or Coast Guard Public Health Service assignee, health care provider concerning the termination, suspension, or limitation of clinical privileges of the health care provider.

"(C) To a governmental board or agency or to a professional health care society or organization, if necessary to perform licensing, or privileging, or to monitor professional standards for a health care provider who is or was a member or an employee of the Coast Guard or the Public Health Service assigned to the Coast Guard.

"(D) To a hospital, medical center, or other institution that provides health care services, if necessary to assess the professional qualifications of any health care provider who is or was a member or employee of the Coast Guard or the Public Health Service assigned to the Coast Guard and who has applied for or been granted authority or employment to provide health care services in or on behalf of the institution.

"(E) To an officer, member, employee, or contractor of the Coast Guard or the Public Health Service assigned to the Coast Guard if for official purposes.

"(F) To a criminal or civil law enforcement agency or instrumentality charged under applicable law with the protection of the public health or safety, if a qualified representative of the agency or instrumentality makes a written request that the record or testimony be provided for a purpose authorized by law.

"(G) In an administrative or judicial proceeding commenced by a criminal or civil law enforcement agency or instrumentality referred to in subparagraph (F), but only with respect to the subject of the proceeding.

"(2) Except in a quality assurance action, the identity of any individual receiving health care services from the Coast Guard or the identity of any other individual associated with the agency for the purposes of a medical quality assurance program that is disclosed in a medical quality assurance record shall be deleted from that record or document before any disclosure of the record is made outside the Coast Guard. This requirement does not apply to the release of information under section 552a of title 5.

"(d) Except as provided in this section, a person having possession of or access to a record or testimony described by this section may not disclose the contents of the record or testimony.

"(e) Medical quality assurance records may not be made available to any person under section 552 of title 5.

"(f) An individual who participates in or provides information to an individual that reviews or creates medical quality assurance records is not civilly liable for participating or providing the information if the participation or provision of information was in good faith based on prevailing professional standards at the time the medical quality assurance program activity took place.

"(g) Nothing in this section shall be construed as—

"(1) authority to withhold from any person aggregate statistical information regarding the results of Coast Guard medical quality assurance programs;

"(2) authority to withhold any medical quality assurance record from a committee of either House of Congress, any joint committee of Congress, or the General Accounting Office if the record pertains to any matter within their respective jurisdictions;

"(3) limiting access to the information in a record created and maintained outside a medical quality assurance program, including a patient's medical records, on the grounds that the information was presented during meetings of a review body that are part of a medical quality assurance program.

"(h) Except as otherwise provided in this section, an individual who willfully discloses a medical quality assurance record knowing that the record is a medical quality assurance record, is liable to the United States Government for a civil penalty of not more than $3,000 in the case of a first offense and not more than $20,000 in the case of a subsequent offense."

(b) The analysis for chapter 17 of title 14, United States Code, is amended by adding after the item relating to section 644 the following new item:

"§ 645. Confidentiality of medical quality assurance records; qualified immunity for participants".

SEC. 5204. TELEPHONE INSTALLATION AND CHARGES.

(a) Title 14, United States Code, is amended by adding the following new section:

"§ 669. Telephone installation and charges

"Under regulations prescribed by the Secretary, amount appropriated to the Department of Transportation are available to install, repair, and maintain telephone wiring in residences owned or leased by the United States Government and, if necessary for national defense purposes in other private residences."

(b) The analysis for chapter 17 of title 24, United States Code, is amended by adding at the end the following new item:

"§ 669. Telephone installation and charges".

SEC. 5205. SPECIAL PAY.

(a) Section 306(a) of title 37, United States Code, is amended by striking "of pay grade O-3, O-4, O-5, or O-6" and inserting "of pay grade O-6 or below", and by striking the chart and inserting the following new chart:

"Pay Grade	Monthly Rate
O–6	$150
O–5	100
O–4 and below	50".

(b) Section 306(c) of title 307, United States Code, is amended by striking "in pay grade O–3," and inserting "in each of the pay grades O–3 and below,".

SEC. 5206. AMENDMENT OF INLAND NAVIGATIONAL RULES.

Section 2 of the Inland Navigational Rules Act of 1980 (33 U.S.C. 2001 et seq.) is amended by amending Rule 1(d) (33 U.S.C. 2001(d)) to read as follows:

"(d) Traffic separation schemes may be established for the purpose of these rules. Vessel traffic service regulations may be in effect in certain areas."; and

(2) by amending Rule 10 (33 U.S.C. 2010) to read as follows:

"RULE 10

"TRAFFIC SEPARATION SCHEMES

"(a) This Rule applies to traffic separation schemes and does not relieve any vessel of her obligation under any other Rule.

"(b) A vessel using a traffic separation scheme shall:

"(i) proceed in the appropriate traffic lane in the general direction of traffic flow for that lane;

"(ii) so far as practicable keep clear of a traffic separation line or separation zone;

"(iii) normally join or leave a traffic lane at the termination of the lane, but when joining or leaving from either side shall do so at as small an angle to the general direction of traffic flow as practicable.

"(c) A vessel shall, so far as practicable, avoid crossing traffic lanes but if obliged to do so shall cross on a heading as nearly as practicable at right angles to the general direction of traffic flow.

"(d)(i) A vessel shall not use an inshore traffic zone when she can safely use the appropriate traffic lane within the adjacent traffic separation scheme. However, vessels of less than 20 meters in length, sailing vessels, and vessels engaged in fishing may use the inshore traffic zone.

"(ii) Notwithstanding subparagraph (d)(i), a vessel may use an inshore traffic zone when en route to or from a port, offshore installation or structure, pilot station, or any other place situated within the inshore traffic zone, or to avoid immediate danger.

"(e) A vessel other than a crossing vessel or a vessel joining or leaving a land shall not normally enter a separation zone or cross a separation line except:

"(i) in cases of emergency to avoid immediate danger; or

"(ii) to engage in fishing within a separation zone.

"(f) A vessel navigating in areas near the terminations of traffic separation schemes shall do so with particular caution.

"(g) A vessel shall so far as practicable avoid anchoring in a traffic separation scheme or in areas near its terminations.

"(h) A vessel not using a traffic separation scheme shall avoid it by as wide a margin as is practicable.

"(i) A vessel engaged in fishing shall not impede the passage of any vessel following a traffic lane.

"(j) A vessel of less than 20 meters in length or a sailing vessel shall not impede the safe passage of a power-driven vessel following a traffic lane.

"(k) A vessel restricted in her ability to maneuver when engaged in an operation for the maintenance of safety of navigation in a traffic separation scheme is exempted from complying with this rule to the extent necessary to carry out the operation.

"(l) A vessel restricted in her ability to maneuver when engaged in an operation for the laying, servicing, or picking up of a submarine cable, within a traffic separation scheme, is exempted from complying with this rule to the extent necessary to carry out the operation.".

SEC. 5207. STATE MARITIME ACADEMY VESSEL INSPECTION FEE RELIEF.

Section 2110 of title 46, United States Code, is amended by adding at the end the following:

"(j) The Secretary may not establish or collect a fee or charge for the inspection under part B of this subtitle of training vessels operated by state maritime academies.".

SEC. 5208. INSPECTION OF GREAT LAKES BARGES.

(a) Section 2101 of title 46, United States Code, is amended by inserting after paragraph (13) the following new paragraph:

"(13a) 'Great Lakes barge' means a non-self-propelled vessel of at least 3,500 gross tons operating on the Great Lakes."

(b) Section 3301 of title 46, United States Code, is amended by adding at the end the following new paragraph:

"(13) Great Lakes barges.".

(c) For Great Lakes barges placed in operation after the date of enactment of this Act, the amendments made by this section take effect on the date of enactment of this Act.

(d)(1) For Great Lakes barges in operation on the date of enactment of this Act, the amendments made by this section take effect one year after the date of enactment of this Act.

(2) The Secretary of Transportation may impose reasonable interim requirements to assure safe operation of the barges affected by paragraph (1).

SEC. 5209. TANK VESSEL DEFINITION CLARIFICATION.

(a) In this section, "offshore supply vessel", "fish tender vessel", "fishing vessel", and "tank vessel" have the meanings given those terms under section 2101 of title 46, United States Code.

(b) The following vessels are deemed not to be a tank vessel for the purposes of any law:

(1) An offshore supply vessel.

(2) A fishing or fish tender vessel of not more than 750 gross tons that transfers without charge to a fishing vessel owned by the same person.

(c)(1) This section does not affect the authority of the Secretary of Transportation under chapter 33 of title 46, United States Code, to regulate the operation of the vessels listed in subsection (b) to ensure the safe carriage of oil and hazardous substances.

(2) This section does not affect the requirement for fish tender vessels engaged in the Aleutian trade to comply with chapters 33, 45, 51, 81, and 87 of title 46, United States Code, as provided in the Aleutian Trade Act of 1990 (Public Law 101–595).

(d) Current regulations governing the vessels in subsection (b) remain in effect.

SEC. 5210. AUTHORITY FOR THE COAST GUARD TO INSPECT AND WITHHOLD DOCUMENTS OF CERTAIN FOREIGN PASSENGER VESSELS.

(a) Section 3303(a) of title 46, United States Code, is amended in the first sentence—

(1) by striking "only" immediately after "is subject"; and

(2) by striking "the condition of the vessel's propulsion equipment and lifesaving equipment are" and inserting in lieu thereof "the condition of the vessel is".

(b) Section 3505 of title 46, United States Code, is amended by striking "or domestic vessel of more than 100 gross tons having berth or stateroom accommodations for at least 50 passengers" and insert "vessel".

SEC. 5211. REIMBURSEMENT FOR OVERSEAS INSPECTIONS AND EXAMINATIONS.

Section 3317(b) of title 46, United States Code, is amended—

(1) by striking "chapter" and inserting "part"; and

(2) by inserting "or a foreign vessel" immediately after "documented vessel".

SEC. 5212. WATCHSTANDING ON CERTAIN VESSELS.

Section 8104 of title 46, United States Code, is amended—

(1) in subsection (g), by inserting "a vessel used only to respond to a discharge of oil or a hazardous substance," after "an offshore supply vessel,"; and

(2) by redesignating the second subsection (n) as subsection (o).

SEC. 5213. DENIAL AND REVOCATION OF ENDORSEMENTS.

(a) Chapter 121 of title 46, United States Code, is amended—

(1) in section 12103(a), by striking "On" and inserting "Except as provided in section 12123 of this title, on";

(2) by amending section 12110(c) to read as follows:

"(c) A vessel and its equipment are liable to seizure by and forfeiture to the United States Government—

"(1) when a vessel is operated after its endorsement has been denied or revoked under section 12123 of this title;

"(2) when a vessel is employed in a trade without an appropriate trade endorsement; or

"(3) when a documented vessel with a recreational endorsement is operated other than for pleasure."; and

(3) by adding the following new section:

§12123. Denial and revocation of endorsements

"When the owner of a vessel fails to pay a civil penalty assessed by the Secretary, the Secretary may deny the issuance or renewal of an endorsement or revoke the endorsement on a certificate of documentation issued under this chapter.".

(b) The analysis for chapter 121 of title 46, United States Code, is amended by adding at the end the following:

§12123. Denial and revocation of endorsements".

SEC. 5214. ACCEPTANCE OF EVIDENCE OF PAYMENT OF COAST GUARD FEES.

The Secretary of Transportation may not issue a citation for failure to pay a fee or charge established under section 2110 of title 46, United States Code, to an owner or operator of a recreational vessel who provides reasonable evidence of prior payment of the fee or charge to a Coast Guard boarding officer.

SEC. 5215. SCHEDULE FOR OPERATION OF DRAWBRIDGE OF WOODROW WILSON MEMORIAL BRIDGE.

(a)(1) The Secretary of the department in which the Coast Guard is operating (in this section referred to as the "Secretary") shall not operate the drawbridge of the Woodrow Wilson Memorial Bridge in the following periods for the passage of a commercial vessel:

(A) Monday through Friday (except Federal holidays), 5:00 a.m. to 10:00 a.m. and 2:00 p.m. to 8:00 p.m.

(B) Saturday, Sunday, and Federal holidays, 2:00 p.m. to 7:00 p.m.

(2) The Secretary need not operate the drawbridge of the Woodrow Wilson Memorial

Bridge for the passage of a commercial vessel under paragraph (1) unless—

(A) the owner or operator of the vessel provides the bridge tender with an estimate of the approximate time of that passage at least 12 hours in advance; and

(B) the owner or operator of the vessel notifies the bridge tender at least 4 hours in advance of the requested time for that passage.

(3) Not later than 180 days after the date of enactment of this Act, the Secretary shall issue an Advance Notice of Proposed Rulemaking to solicit comments on whether there are practical ways to encourage owners and operators of commercial vessels to make every reasonable effort to notify the bridge tender of the time a vessel will pass the Woodrow Wilson Memorial Bridge by not later than 24 hours before that passage.

(b)(1) The Secretary shall not operate the drawbridge of the Woodrow Wilson Memorial Bridge in the following periods for the passage of a recreational vessel:

(A) Monday through Friday (except Federal holidays), 5:00 a.m. to 12:00 midnight;

(B) Saturday, Sunday, and Federal holidays, 7:00 a.m. to 12:00 midnight, except as provided in paragraph (2).

(2) Notwithstanding paragraph (1)(B), the Secretary may operate the drawbridge of the Woodrow Wilson Memorial Bridge beginning at 10:00 p.m. on Saturday, Sunday, or a Federal holiday for the passage of a recreational vessel, if the owner or operator of the vessel notifies the Secretary of the time of that passage by not later than 12 hours before that time.

(3) This subsection shall not be construed to prohibit a recreational vessel from passing the Woodrow Wilson Memorial Bridge at any time at which the drawbridge is being operated for the passage of a commercial vessel.

(c) The Secretary shall operate the drawbridge of the Woodrow Wilson Memorial Bridge on signal at anytime for a vessel in distress.

SEC. 5216. STATION BRANT POINT BOAT HOUSE.

(a)(1) The Secretary of Transportation shall convey to the town of Nantucket, Massachusetts, all right, title, and interest of the United States in and to the building known as the Station Brant Point Boat House located at Coast Guard Station Brant Point, Nantucket, Massachusetts.

(2) A conveyance of the building under paragraph (1) shall be made—

(A) without the payment of consideration; and

(B) subject to appropriate terms and conditions the Secretary considers necessary.

(b)(1) The Secretary shall enter into a lease of not less than 20 years permitting the town of Nantucket to occupy the property on which the Brant Point Boat House is located, subject to appropriate terms and conditions the Secretary considers necessary.

(2) If the Secretary determines that the property leased under paragraph (1) is necessary for purposes of Coast Guard, the Secretary—

(A) may terminate the lease without payment of compensation; and

(B) shall provide the town of Nantucket with not less than 12 months notice of the requirement to vacate the site and move the Boat House to another location.

SEC. 5217. STUDY OF THE APPLICATION OF TILTROTOR AIRCRAFT TECHNOLOGY TO COAST GUARD MISSIONS.

(a) Not later than one year after the date of enactment of this Act, the Secretary of Transportation shall submit a study to Congress on the application of the V-22 Osprey tiltrotor technology to Coast Guard missions.

(b) In conducting the study under subsection (a), the Secretary shall—

(1) evaluate the application of tiltrotor technology to Coast Guard mission including—

(A) search and rescue at sea; and

(B) the enforcement of laws of the United States especially with respect to drug interdiction;

(2) determine whether use of the technology in the Coast Guard marine environmental protection program would minimize the damage caused by oil or hazardous substances spills in the waters of the United States; and

(3) determine what effect the technology would have on Coast Guard manpower and operating costs, compared to those costs associated with technology currently used by the Coast Guard.

SEC. 5218. ENFORCEMENT AGREEMENTS.

The Coast Guard and the Department of Commerce shall enter into a Memorandum of Agreement regarding fisheries enforcement practices and procedures that provide at a minimum for the opportunity, if timely requested, to appear in person to respond to charges of violation of law or regulation when the opportunity for a hearing is granted by statue. The Memorandum of Agreement shall also provide that all enforcement procedures shall be fair and consistently applied.

SEC. 5219. AUTHORIZING PAYMENTS TO CERTAIN SUBCONTRACTORS.

(a) Not later than 6 months after the date of enactment of this title, the Secretary of Transportation shall determine the amounts that MZP, Incorporated, owes to all subcontractors that performed work or supplied materials under Coast Guard contract DTCG50-87-C-00096.

(b) Investigation or interviews conducted to determine amounts owed under subsection (a) shall be conducted in Ketchikan, Alaska.

(c) Not later than two months after making the determinations under subsection (a), the Secretary is authorized to pay the subcontractors the amounts owed.

SEC. 5220. SANKATY HEAD LIGHT STATION.

(a)(1) The Secretary of Transportation shall convey to the Nantucket Historical Association in Nantucket, Massachusetts, by an appropriate means of conveyance, all right, title, and interest of the United States in and to property comprising the Sankaty Head Light Station.

(2) The Secretary may identify, describe, and determine the property to be conveyed pursuant to this section.

(b)(1) A conveyance of property pursuant to this section snall be made—

(A) without the payment of consideration;

(B) subject to the condition that all or part of the property may be sold and the money from the sale used for the purpose of moving the Sankaty Head Lighthouse to a location at which the Lighthouse can be maintained and preserved and for its maintenance and preservation in accordance with paragraph (2); and

(C) subject to such other terms and conditions as the Secretary may consider appropriate.

(2) In addition to any term or condition established pursuant to paragraph (1), any conveyance of property pursuant to this section shall be subject to the condition that all right, title, and interest in the Sankaty Head Lighthouse shall immediately revert to the United States if the Lighthouse ceases to be maintained as a nonprofit center for public benefit for the interpretation and preservation of the material culture of the United States Coast Guard and the maritime history of Nantucket, Massachusetts.

(3) Any conveyance of property pursuant to this section shall be subject to such conditions as the Secretary considers to be necessary to assure that—

(A) the light, antennas, sound signal, and associated lighthouse equipment located on the property conveyed, which are active aids to navigation, shall continue to be operated and maintained by the United States for as long as they are needed for this purpose;

(B) the Nantucket Historical Association may not interfere or allow interference in any manner with such aids to navigation without express written permission from the United States;

(C) there is reserved to the United States the right to replace, or add any aids to navigation, or make any changes to the Sankaty Head Lighthouse as may be necessary for navigation purposes;

(D) the United States shall have the right, at any time, to enter the property conveyed, or the property to which the Sankaty Head Lighthouse is relocated, without notice for the purpose of maintaining navigation aids; and

(E) the United States shall have an easement of access to such property for the purpose of maintaining the navigational aids in use on the property.

(4) The Nantucket Historical Association shall not have any obligation to maintain any active aid to navigation equipment on property conveyed pursuant to this section or on property to which the Sankaty Head Lighthouse may be relocated.

(c) The Nantucket Historical Association shall maintain the Sankaty Head Lighthouse in accordance with the provisions of the National Historic Preservation Act (16 U.S.C. 470 et seq.) and other applicable laws.

(d) For purposes of this section—

(1) "Sankaty Head Light Station" means the Coast Guard lighthouse located on the eastern shore of Nantucket Island, Massachusetts, including the keeper's dwelling, adjacent Coast Guard rights of way, and such land as may be necessary to enable the Nantucket Historical Association to use the proceeds from the sale of the land for the relocation, maintenance and preservation of the Sankaty Head Lighthouse; and

(2) "Sankaty Head Lighthouse" means the Coast Guard lighthouse located at the Sankaty Head Light Station.

SEC. 5221. STUDY OF BUOY CHAIN PROCUREMENT PRACTICES.

(a) Not later than 6 months after the date of enactment of this title, the Secretary of Transportation shall submit a study to Congress on acquisition of Coast Guard buoy chain.

(b) In conducting the study under subsection (a), the Secretary shall consider—

(1) the ability of United States buoy chain manufacturers to successfully compete for United States Government contracts to provide buoy chain to the Coast Guard; and

(2) the effect on the national security of United States dependence on foreign sources for acquisition of buoy chain.

SEC. 5222. CORRECTION REGARDING CERTAIN EXEMPTIONS.

Section 4506 of title 46, United States Code, is amended by striking "4502(b)(2)" and inserting "4502(b)(2)(B)".

SEC. 5223. CONTRACT FOR CERTAIN SERVICES AT COAST GUARD SUPPORT CENTER IN KODIAK, ALASKA.

Notwithstanding any other law, the Coast Guard is authorized, pursuant to the provisions of applicable acquisition regulations, to enter into a negotiated contract with PTI, at a fair and reasonable price that reflects a fair allocation of costs between Alaska ratepayers and the Coast Guard, to provide Digitrex central-office-based business services to the Coast Guard Support Center in Kodiak, Alaska, at Building 576. The Coast Guard shall pay only for service and service enhancements received or to be received by the United States at the Coast Guard Support Center, Kodiak, Alaska. The termination liability of such contract shall be negotiated, but shall not exceed $842,047.

Subtitle C—Abandoned Barges

SEC. 5301. SHORT TITLE.

This subtitle may be cited as the "Abandoned Barge Act of 1992".

SEC. 5302. ABANDONMENT OF BARGES.

Part B of subtitle II of title 46, United States Code, is amended by adding at the end the following new chapter:

"CHAPTER 47—ABANDONMENT OF BARGES

"Sec.
"4701. Definitions.
"4702. Abandonment of barge prohibited.
"4703. Penalty for unlawful abandonment of barge.
"4704. Removal of abandoned barges.
"4705. Liability of barge removal contractors.

"§ 4701. Definitions

"In this chapter—

"(1) 'abandon' means to moor, strand, wreck, sink, or leave a barge of more than 100 gross tons unattended for longer than forty-five days.

"(2) 'barge removal contractor' means a person that enters into a contract with the United States to remove an abandoned barge under this chapter.

"(3) 'navigable waters of the United States' means waters of the United States, including the territorial sea.

"(4) 'removal' or 'remove' means relocation, sale, scrapping, or other method of disposal.

"§ 4702. Abandonment of barge prohibited

"(a) An owner or operator of a barge may not abandon it on the navigable waters of the United States. A barge is deemed not to be abandoned if—

"(1) it is located at a Federally- or State-approved mooring area;

"(2) it is on private property with the permission of the owner of the property; or

"(3) the owner or operator notifies the Secretary that the barge is not abandoned and the location of the barge."

"§ 4703. Penalty for unlawful abandonment of barge

"Thirty days after the notification procedures under section 4704(a)(1) are completed, the Secretary may assess a civil penalty of not more than $1,000 for each day of the violation against an owner or operator that violates section 4702. A vessel with respect to which a penalty is assessed under this chapter is liable in rem for the penalty.

"§ 4704. Removal of abandoned barges

"(a)(1) The Secretary may remove a barge that is abandoned after complying with the following procedures;

"(A) If the identity of the owner or operator can be determined, the Secretary shall notify the owner or operator by certified mail—

"(i) that if the barge is not removed it will be removed at the owner's or operator's expense; and

"(ii) of the penalty under section 4703.

"(B) If the identity of the owner or operator cannot be determined, the Secretary shall publish an announcement in—

"(i) a notice to mariners; and

"(ii) an official journal of the county in which the barge is located

that if the barge is not removed it will be removed at the owner's or operator's expense.

"(2) The United States, and any officer or employee of the United States is not liable to an owner or operator for damages resulting from removal of an abandoned barge under this chapter.

"(b) The owner or operator of an abandoned barge is liable, and an abandoned barge is liable in rem, for all expenses that the United States incurs in removing an abandoned barge under this chapter.

"(c)(1) The Secretary may, after providing notice under subsection (a)(1), solicit by public advertisement sealed bids for the removal of an abandoned barge.

"(2) After solicitation under paragraph (1) the Secretary may award a contract. The contract—

"(A) may be subject to the condition that the barge and all property on the barge is the property of the barge removal contractor; and

"(B) must require the barge removal contractor to submit to the Secretary a plan for the removal.

"(3) Removal of an abandoned barge may begin thirty days after the Secretary completes the procedures under subsection (a)(1).

"§ 4705. Liability of barge removal contractors

"(a)(1) A barge removal contractor and its subcontractor not liable for damages that result from actions taken or omitted to be taken in the course of removing a barge under this chapter.

"(2) Paragraph (1) does not apply—

"(A) with respect to personal injury or wrongful death; or

"(B) if the contractor or subcontractor is grossly negligent or engages in willful misconduct.".

SEC. 5303. APPLICATION TO CERTAIN BARGES.

Chapter 47 of title 46, United States Code, as added by subsection (a), does not apply to a barge abandoned before June 11, 1992, if the barge was removed before the date that is 1 year after the date of enactment of this title.

SEC. 5304. CLERICAL AMENDMENT.

The analysis of subtitle II at the beginning of title 46, United States Code, is amended by inserting after the item relating to chapter 45 the following:

"47. Abandonment of barges .... 4701".

SEC. 5305. NUMBERING OF BARGES.

Section 12301 of title 46, United States Code, is amended—

(1) by inserting "(a)" before "An undocumented vessel"; and

(2) by adding at the end the following:

"(b) The Secretary shall require an undocumented barge more than 100 gross tons operating on the navigable waters of the United States to be numbered.".

Subtitle D—Honoring the Coast Guard Women's Reserve

SEC. 5401. FINDINGS.

The Congress finds the following:

(1) The Congress passed legislation 50 years ago establishing the Coast Guard Women's Reserve.

(2) The Congress recognized both women's right to participate in the total war effort and the military's pressing need for women during World War II.

(3) The Congress responded to women's commitment and dedication by creating the Coast Guard Women's Reserve as a sister service to the WACS, and the Women Marines.

(4) The first director of the Coast Guard Women's Reserve, Captain Dorothy C. Stratton, named the Coast Guard Women's Reserve SPAR, an acronym derived from the Latin and English translations of the Coast Guard motto, Semper Paratus Always Ready.

(5) The first director recruited the best and brightest women from industry, educational institutions, and homes.

(6) SPARs' high level of education and experience greatly reduced the need for further training and SPARs only needed to be taught military structure and Coast Guard missions and traditions.

(7) SPARs made history by being the first women trained at a service academy.

(8) SPARs performed admirably as executive officers, division heads, officers of the day, watch officers, and courts martial members.

(9) SPARs served our Nation as boatswain mates, coxswains, gunners mates, carpenters, and machinists mates.

(10) SPARs served with distinction in highly specialized jobs during the Korean War and the Vietnam conflict.

(11) A group of Coast Guard Women's Reserves remained on active duty during the 1950's and 1960's primarily at Coast Guard headquarters.

(12) In 1950, women were integrated into the Organized Reserve Training Program.

(13) In every phase of Coast Guard history, women have served our Nation with dedication, honor, and sacrifice.

SEC. 5402. DESIGNATION OF SPAR ANNIVERSARY WEEK.

November 17 through November 23, 1992, is designated as "SPAR Anniversary Week". The President is authorized and requested to issue a proclamation calling on the people of the United States to observe the week with appropriate programs, ceremonies, and activities.

Subtitle E—Merchant Marine Provisions

SEC. 5501. COASTWISE LAWS.

(a)(1) Section 1 of the Act of May 28, 1906 (46 App. U.S.C. 292), is amended to read as follows:

"SECTION 1. VESSELS THAT MAY ENGAGE IN DREDGING.

"(a) IN GENERAL.—Except as provided in subsection (b), a vessel may engage in dredging in the navigable waters of the United States only if—

"(1) the vessel meets the requirements of section 27 of the Merchant Marine Act, 1920 and section 2 of the Shipping Act, 1916 for engaging in the coastwise trade;

"(2) when chartered, the charterer of the vessel is a citizen of the United States under section 2 of the Shipping Act, 1916 for engaging in the coastwise trade; and

"(3) for a vessel that is at least 5 net tons, the vessel is documented under chapter 121 of title 46, United States Code, with a coastwise endorsement.

"(b) EXCEPTION.—A documented vessel with a registry endorsement may engage in the dredging of gold in Alaska.

"(c) PENALTY.—When a vessel is operated in knowing violation of this section, that vessel and its equipment are liable to seizure by and forfeiture to the United States Government.".

(2) The amendment made by paragraph (1) does not apply to—

(A)(i) the vessel STUYVESANT, official number 648540;

(ii) any other hopper dredging vessel documented under chapter 121 of title 46, United States Code before the effective date of this Act and chartered to Stuyvesant Dredging Company or to an entity in which it has an ownership interest; however, this exception expires on December 3, 2022, or when the vessel STUYVESANT ceases to be documented under chapter 121, whichever first occurs; and

(iii) any other non-hopper dredging vessel documented under chapter 121 and chartered to Stuyvesant Dredging Company or to an entity in which it has an ownership interest, as is necessary (a) to fulfill dredging obligations under a specific contract, including any extension periods; or (b) as temporary replacement capacity for a vessel which has become disabled but only for so long as the disability shall last and until the vessel is in a position to fully resume dredging operations; however, this exception expires on December 8, 2022, or when the vessel STUYVESANT ceases to be documented under chapter 121, whichever first occurs;

(B) the vessel COLUMBUS, official number 590658, except that the vessel's certificate of documentation shall be endorsed to prohibit the vessel from engaging in the transportation of merchandise (except valueless material), including dredge material of value, between places within the navigable waters of the United States;

(C) a vessel that is engaged in dredged material excavation if that excavation is not more than a minority of the total cost of the construction contract in which the excavation is a single, integral part, and the vessel is—

(i) built in the United States;

(ii) a non-self-propelled mechanical clamshell dredging vessel; and

(iii) owned or chartered by a corporation that had on file with the Secretary of Transportation, on August 1, 1989, the certificate specified in section 27A of the Merchant Marine Act, 1920 (46 App. U.S.C. 883–1); or

(D) any other documented vessel engaged in dredging and time chartered to an entity that, on August 1, 1989, was, and has continuously remained, the parent of a corporation that had on file with the Secretary of Transportation on August 1, 1989, a certificate specified in section 27A of the Merchant Marine Act, 1920 (46 App. U.S.C. 883–1) if the vessel is—

(i) not engaged in a federally funded navigation dredging project; and

(ii) engaged only in dredging associated with, and integral to, accomplishment of that parent's regular business requirements.

(b) Section 27 of the Merchant Marine Act, 1920 (46 App. U.S.C. 883) is amended by striking "merchandise" the first place it appears and inserting "merchandise, including merchandise owned by the United States Government, a State (as defined in section 2101 of title 26, United States Code), or a subdivision of a State,".

(c) The Act of June 7, 1988 (Public Law 100–329; 102 Stat. 588), including the amendments made by that Act, does not apply to a vessel—

(1) engaged in the transportation of valueless material or valueless dredged material; and

(2) owned or chartered by a corporation that had on file with the Secretary of Transportation on August 1, 1989, the certificate specified in section 27A of the Merchant Marine Act, 1920 (46 App. U.S.C. 883–1).

SEC. 5502. TREATMENT OF CERTAIN SEIZED FISHING VESSELS UNDER FISHERMEN'S PROTECTIVE ACT OF 1967.

(a) Notwithstanding another law, each of the vessels described in subsection (b) of this section is deemed to have been covered by an agreement, beginning August 13, 1992, and ending September 29, 1992, with the Secretary of State under section 7 of the Fishermen's Protective Act of 1967 (22 U.S.C. 1977).

(b) The vessels referred to in subsection (a) are the following:

(1) THE KANAOLA (United States official number 923848).

(2) THE MANA LOA (United States official number 919649).

(3) THE MANA OLA (United States official number 902605).

(4) THE MANA IKI (United States official number 906800).

Subtitle F—Clean Vessel

SEC. 5601. SHORT TITLE.

This subtitle may be cited as the "Clean Vessel Act of 1992".

SEC. 5602. FINDINGS; PURPOSE.

(a) FINDINGS.—The Congress finds the following:

(1) The discharge of untreated sewage by vessels is prohibited under Federal law in all areas within the navigable waters of the United States.

(2) The discharge of treated sewage by vessels is prohibited under either Federal or State law in many of the United States bodies of water where recreational boaters operated.

(3) There is currently an inadequate number of pumpout stations for type III marine sanitation devices where recreational vessels normally operate.

(4) Sewage discharged by recreational vessels because of an inadequate number of pumpout stations is a substantial contributor to localized degradation of water quality in the United States.

(b) PURPOSE.—The purpose of this subtitle is to provide funds to States for the construction, renovation, operation, and maintenance of pumpout stations and waste reception facilities.

SEC. 5603. DETERMINATION AND PLAN REGARDING STATE MARINE SANITATION DEVICE PUMPOUT STATION NEEDS.

(a) SURVEY.—Within 3 months after the notification under section 5605(b), each coastal State shall conduct a survey to determine—

(1) the number and location of all operational pumpout stations and waste reception facilities at public and private marinas, mooring areas, docks, and other boating access facilities within the coastal zone of the state; and

(2) the number of recreational vessels in the coastal waters of the State with type III marine sanitation devices or portable toilets, and the areas of those coastal waters where those vessels congregate.

(b) PLAN.—Within 6 months after the notification under section 5605(b), and based on the survey conducted under subsection (a), each coastal State shall—

(1) develop and submit to the Secretary of the Interior a plan for any construction or renovation of pumpout stations and waste reception facilities that are necessary to ensure that, based on the guidance issued under section 5605(a), there are pumpout stations and waste reception facilities in the State that are adequate and reasonably available to meet the needs of recreational vessels using the coastal waters of the State; and

(2) submit to the Secretary of the interior with that plan a list of all stations and facilities in the coastal zone of the State which are operational on the date of submittal.

(c) PLAN APPROVAL.—

(1) IN GENERAL.—Not later than 60 days after a plan is submitted by a State under subsection (b), the Secretary of the Interior shall approve or disapprove the plan, based on—

(A) the adequacy of the survey conducted by the State under subsection (a); and

(B) the ability of the plan, based on the guidance issued under section 5605(a), to meet the construction and renovation needs of the recreational vessels identified in the survey.

(2) NOTIFICATION OF STATE; MODIFICATION.—The Secretary of the Interior shall promptly notify the affected Governor of the approval or disapproval of a plan. If a plan is disapproved, the Secretary of the Interior shall recommend necessary modifications and return the plan to the affected Governor.

(3) RESUBMITTAL.—Not later than 60 days after receiving a plan returned by the Secretary of the Interior, the governor shall make the appropriate changes and resubmit the plan.

(d) INDICATION OF STATIONS AND FACILITIES ON NOAA CHARTS.—

(1) IN GENERAL.—The Under Secretary of Commerce for Oceans and Atmosphere shall indicate, on charts published by the National Oceanic and Atmospheric Administration for the use of operators of recreational vessels, the locations of pumpout stations and waste reception facilities.

(2) NOTIFICATION OF NOAA.—

(A) LISTS OF STATIONS AND FACILITIES.—The Secretary of the Interior shall transmit to the Under Secretary of Commerce of Oceans and Atmosphere each list of operational stations and facilities submitted by a State under subsection (b)(2), by not later than 30 days after the date of receipt of that list.

(B) COMPLETION OF PROJECT.—The Director of the United States Fish and Wildlife Service shall notify the Under Secretary of the location of each station or facility at which a construction or renovation project is completed by a State with amounts made available under the Act of August 9, 1950 (16 U.S.C. 777a et seq.), as amended by this subtitle, by not later than 30 days after the date of notification by a State of the completion of the project.

SEC. 5604. FUNDING.

(a) TRANSFER.—Section 4 of the Act of August 9, 1950 (16, U.S.C. 777c), is amended—

(1) by striking "So much, not to exceed 6 per centum," and all that follows through "shall apportion the remainder of the appropriation for each fiscal year among the several States" and inserting the following:

"(a) The Secretary of the Interior shall distribute 18 per centum of each annual appropriation made in accordance with the provisions of section 3 of this Act as provided in the Coastal Wetlands Planning, Protection, and Restoration Act (title III, Public Law 101–646). Notwithstanding the provisions of section 3 of this Act, such sums shall remain available to carry out such Act through fiscal year 1999.

"(b) Of the balance of each such annual appropriation remaining after making the distribution under subsection (a), an amount equal to $10,000,000 for fiscal year 1993, $15,000,000 for each of fiscal years 1994 and 1995, and $20,000,000 for each of fiscal years 1996 and 1997 shall be used as follows:

"(1) One-half shall be transferred to the Secretary of Transportation and be expended for State recreational boating safety programs under section 13106(a)(1) of title 46, United States Code; and

"(2) One-half of amounts made available under this subsection in a fiscal year shall be available for two years for obligation under section 5604(c) of the Clean Vessel Act of

1992. The Secretary of Interior may make grants for qualified projects in an amount up to the amount available under this paragraph. Amounts unobligated by the Secretary of the Interior after 2 years shall be transferred to the Secretary of Transportation and be expended for State recreational boating safety programs under section 13106(a)(1) of title 46, United States Code.

In fiscal year 1998, an amount equal to $20,000,000 of the balance remaining after the distribution under subsection (a) shall be transferred to the Secretary of Transportation and be expended for State recreational boating safety programs under section 13106(a)(1) of title 46, United States Code.

"(c) Of the balance of each such annual appropriation remaining after the distribution and use under subsections (a) and (b), respectively, so much, not to exceed 6 per centum of such balance, as the Secretary of the Interior may estimate to be necessary for his or her expenses in the conduct of necessary investigations, administration, and the execution of this Act and for aiding in the formulation, adoption, or administration of any compact between 2 or more States for the conservation and management of migratory fishes in marine or freshwaters, shall be deducted for that purpose, and such sum is authorized to be made available until the expiration of the next succeeding fiscal year.

"(d) The Secretary of the Interior, after the distribution, transfer, use, and deduction under subsections (a), (b), and (c), respectively, shall apportion the remainder of each such annual appropriation among the several States"; and

(2) by inserting "(e)" before "So much of any sum" and redesignating the last 2 sentences of that section as subsection (e).

(b) ACCESS INCREASE.—Section 8 of the Act of August 9, 1950 (16 U.S.C. 777g), is amended—

(1) in subsection (b)(1) by:

(A) striking "10 per centum" and inserting "12½ per centum"; and

(B) inserting after the first sentence the following: "Notwithstanding this provision, States within a United States Fish and Wildlife Service Administrative Region may allocate more or less than 12½ per centum in a fiscal year, provided that the total regional allocation averages 12½ per centum over a 5 year period.";

(2) in subsection (b)(2) by:

(A) striking "fiscal year" after "succeeding" the first time it appears and inserting "four fiscal years"; and

(B) striking "succeeding fiscal year" the second time it appears and inserting "period";

(3) in subsection (c) by inserting "and outreach" in the first sentence after "education"; and

(4) by adding at the end the following new subsection:

"(d) Pumpout Stations and Waste Reception Facilities.—Amounts apportioned to States under section 4 of this Act may be used to pay not more than 75 percent of the costs of constructing, renovating, operating, or maintaining pumpout stations and waste reception facilities (as those terms are defined in the Clean Vessel Act of 1992).".

(c) GRANT PROGRAM.—

(1) MATCHING GRANTS.—The Secretary of the Interior may obligate an amount not to exceed the amount made available under section 4(b)(2) of the Act of August 8, 1950 (16 U.S.C. 777c(b)(2), as amended by this Act), to make grants to—

(A) coastal States to pay not more than 75 percent of the cost to a coastal State of—

(i) conducting a survey under section 5603(a);

(ii) developing and submitting a plan and accompanying list under section 5603(b);

(iii) constructing and renovating pumpout stations and waste reception facilities; and

(iv) conducting a program to educate recreational boaters about the problem of human body waste discharges from vessels and inform them of the location of pumpout stations and waste reception facilities.

(B) inland States, which can demonstrate to the Secretary of the Interior that there are an inadequate number of pumpout stations and waste reception facilities to meet the needs of recreational vessels in the waters of that State, to pay 75 percent of the cost to that State of—

(i) constructing and renovating pumpout stations and waste reception facilities in the inland state; and

(ii) conducting a program to educate recreational boaters about the problem of human body waste discharges from vessels and inform them of the location of pumpout stations and waste reception facilities.

(2)PRIORITY.—In awarding grants under this subsection, the Secretary of the Interior shall give priority consideration to grant applications that—

(A) in coastal States, propose constructing and renovating pumpout stations and waste reception facilities in accordance with a coastal State's plan approved under section 5603(c);

(B) provide for public/private partnership efforts to develop and operate pumpout stations and waste receptions facilities; and

(C) propose innovative ways to increase the availability and use of pumpout stations and waste reception facilities.

(d) DISCLAIMER.—Nothing in this subtitle shall be interpreted to preclude a State from carrying out the provisions of this subtitle with funds other than those described in this section.

SEC. 5605. GUIDANCE AND NOTIFICATION.

(a) ISSUANCE OF GUIDANCE.—Not later than 3 months after the date of the enactment of this subtitle, the Secretary of the Interior shall, after consulting with the Commandant of the Coast Guard, issue for public comment pumpout station and waste reception facility guidance. The Secretary of the Interior shall finalize the guidance not later than 6 months after the date of enactment of this subtitle. The guidance shall include—

(1) guidance regarding the types of pumpout stations and waste reception facilities that may be appropriate for construction, renovation, operation, or maintenance with amounts available under the Act of August 9, 1950 (16 U.S.C. 777a et seq.), as amended by this subtitle, and appropriate location of the stations and facilities within a marina or boatyard;

(2) guidance defining what constitutes adequate and reasonably available pumpout stations and waste reception facilities in boating areas;

(3) guidance on appropriate methods for disposal of vessel sewage from pumpout stations and waste reception facilities;

(4) guidance on appropriate connector fittings to facilitate the sanitary and expeditious discharge of sewage from vessels;

(5) guidance on the waters most likely to be affected by the discharge of sewage from vessels; and

(6) other information that is considered necessary to promote the establishment of pumpout facilities to reduce sewage discharges from vessels and to protect United States waters.

(b) NOTIFICATION.—Not later than 1 month after the guidance issued under subsection (a) is finalized, the Secretary of the Interior shall provide notification in writing to the fish and wildlife, water pollution control, and coastal zone management authorities of each State, of—

(1) the availability of amounts under the Act of August 9, 1950 (16 U.S.C. 777a et seq.) to implement the Clean Vessel Act of 1992; and

(2) the guidance developed under subsection (a).

SEC. 5606. EFFECT ON STATE FUNDING ELIGIBILITY.

This subtitle shall not be construed or applied to jeopardize any funds available to a coastal State under the Act of August 9, 1950 (16 U.S.C. 777a et seq.), if the coastal State is, in good faith, pursuing a survey and plan designed to meet the purposes of this subtitle.

SEC. 5607. APPLICABILITY.

The requirements of section 5603 shall not apply to a coastal State if within 6 months after the date of enactment of this subtitle the Secretary of the Interior certifies that—

(1) the State has developed and is implementing a plan that will ensure that there will be pumpout stations and waste reception facilities adequate to meet the needs of recreational vessels in the coastal waters of the State; or

(2) existing pumpout stations and waste reception facilities in the coastal waters of the State are adequate to meet those needs.

SEC. 5608. DEFINITIONS.

For the purposes of this subtitle the term:

(1) "coastal State"—

(A) means a State of the United States in, or bordering on the Atlantic, Pacific, or Arctic Ocean; the Gulf of Mexico; Long Island Sound; or one or more of the Great Lakes;

(B) includes Puerto Rico, the Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa; and

(C) does not include a State for which the ratio of the number of recreational vessels in the State numbered under chapter 123 of title 46, United States Code, to number of miles of shoreline (as that term is defined in section 926.2(d) of title 15, Code of Federal Regulations, as in effect on January 1, 1991), is less than one.

(2) "coastal waters" means—

(A) in the Great Lakes area, the waters within the territorial jurisdiction of the United States consisting of the Great Lakes, their connecting waters, harbors, roadsteads, and estuary-type areas such as bays, shallows, and marshes; and

(B) in other areas, those waters, adjacent to the shorelines, which contain a measurable percentage of sea water, including sounds, bays, lagoons, bayous, ponds, and estuaries.

(3) "coastal zone" has the same meaning that term has in section 304(1) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1453(1));

(4) "inland State" means a State which is not a coastal state;

(5) "type III marine sanitation device" means any equipment for installation on board a vessel which is specifically designed to receive, retain, and discharge human body wastes;

(6) "pumpout station" means a facility that pumps or receives human body wastes out of type III marine sanitation devices installed on board vessels;

(7) "recreational vessel" means a vessel—

(A) manufactured for operation, or operated, primarily for pleasure; or

(B) leased, rented, or chartered to another for the latter's pleasure; and

(8) "waste reception facility" means a facility specifically designed to receive wastes from portable toilets carried on vessels, and does not include lavatories.

Subtitle G—Maritime Amendments.

SEC. 5701. STUDENT INCENTIVE PAYMENTS.

(a) AMOUNT OF ANNUAL PAYMENT.—

(1) INCREASE IN AMOUNT.—Section 1304(g)(1) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1295c(g)(1) is amended by striking "$1,200" and inserting "$3,000".

(2) APPLICATION.—The amendment made by subsection (a) shall apply to payments under section 1304(g)(1) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1295c(g)(1)) made with respect to academic years beginning after the date of the enactment of this Act.

(b) MANNER OF PAYMENT.—Section 1304(g)(1) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1295c(g)(1)) is further amended—

(1) in subparagraph (B) by inserting "and" after the semicolon;

(2) by striking subparagraph (C);

(3) by redesignating subparagraph (D) as subparagraph (C); and

(4) in subparagraph (C) (as so redesignated) by striking ", for the academic years after those years specified in subparagraph (C),".

(c) CONFORMING AMENDMENT.—Section 1304(g)(4) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1293c(g)(4)) is amended by striking "paragraph (1)(C) of this subsection" and inserting "paragraph (1)".

SEC. 5702. TRANSFER OF CERTAIN VESSELS.

The Secretary of the Navy shall transfer to the Department of Transportation the following vessels, to be assigned as training ships to Texas A&M University at Galveston, Texas, and to the Maine Maritime Academy at Castine, Maine, when those vessels are no longer required for use by the Navy.

(1) U.S.N.S. CHAUVENET (T-AG-29).

(2) U.S.N.S. HARKNESS (T-AG-32).

SEC. 5703. MASSACHUSETTS CENTER FOR MARINE ENVIRONMENTAL PROTECTION.

For Fiscal Year 1993, $242,000 is authorized to be appropriated to the Maritime Administration for the Massachusetts Center for Marine Environmental Protection located at the Massachusetts Maritime Academy.

SEC. 5704. FEDERAL SHIP MORTGAGE INSURANCE FOR CERTAIN CONSTRUCTION AND RECONSTRUCTION.

Section 1104B(b)(2) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1274a(b)(2)) is amended by striking "75 percent" and inserting "87½ percent".

SEC. 5705. TECHNICAL CORRECTIONS.

(a) MERCHANT SHIP SALES ACT OF 1946.—Section 11(b) of the Merchant Ship Sales Act of 1946 (50 App. U.S.C. 1744), as amended by section 6 of the Act of October 13, 1989 (Public Law 101-115; 103 Stat. 693; commonly referred to as the "Maritime Administration Authorization, 1990"), is amended to read as if it had not been repealed by section 307(12) of the Coast Guard Authorization Act of 1989 (Public Law 101-225; 103 Stat. 1925). The effective date of this subsection is December 12, 1989.

(b) MERCHANT MARINE ACT, 1920.—Section 19 of the Merchant Marine Act, 1920 (46 App. U.S.C. 876) is amended—

(1) in paragraph (1)(b) by striking "sysetms" and inserting "systems"; and

(2) in paragraph (7)(d) by striking "in proceedings under paragraph (1)(b)(7) of this section," and inserting "under subdivision (b),".

TITLE VII—PARTNERSHIPS FOR WILDLIFE

SEC. 7101. SHORT TITLE.

This title may be cited as the "Partnerships for Wildlife Act".

SEC. 7102. FINDINGS.

The Congress finds the following:

(1) Three-fourths of all American children and adults participate in wildlife-related recreational activities other than hunting, fishing and trapping.

(2) In 1985, Americans spent over $14 billion on non-consumptive wildlife-related recreation.

(3) The United States and Canada are inhabited by approximately two thousand six hundred vertebrate species of native fish and wildlife, which have provided food, clothing, and other essentials to a rapidly expanding human population.

(4) Over 80 percent of vertebrate fish and wildlife species in North America are not harvested for human use.

(5) The continued well-being of this once-abundant fish and wildlife resource, and even the very existence of many species, is in peril.

(6) In 1987, the United States Fish and Wildlife Service reported that forty-five common migratory bird species, which are not hunted, had exhibited significant declines in abundance, and that thirteen of these species have experienced widespread, systematic declines of 46.9 percent during a twenty-year study period.

(7) There have been nationwide declines in frogs and other amphibians.

(8) Over two hundred and seventy-five of vertebrate fish and wildlife species in the United States are now officially classified as threatened or endangered by the Federal Government.

(9) During the past decade, fish and wildlife species, including invertebrates, were added to the rapidly growing list of threatened and endangered species in North America at the average rate of over one per month.

(10) Currently, eighty-two species of invertebrates in the United States are listed as threatened or endangered under the Endangered Species Act, and another nine hundred and fifty-one United States invertebrate species are candidates for listing under that Act.

(11) Proper management of fish and wildlife, before species become threatened or endangered with extinction, is the key to reversing the increasingly desperate status of fish and wildlife.

(12) Proper fish and wildlife conservation includes not only management of fish and wildlife species taken for recreation and protection of endangered and threatened species, but also management of the vast majority of species which fall into neither category.

(13) Partnership in fish and wildlife conservation, such as the Federal Aid in Wildlife Restoration Program, the Federal Aid in Sport Fish Restoration Program, and the North American Wetlands Conservation Act have benefitted greatly the conservation of fish and wildlife and their habitats.

(14) A program that encourages partnerships among Federal and State governments and private entities to carry out wildlife conservation and appreciation projects would benefit all species of fish and wildlife through such activities as management, research, and interagency coordination.

(15) Many States, which are experiencing declining revenues, are finding it increasingly difficult to carry out projects to conserve the entire array of diverse fish and wildlife species and to provide opportunities for the public to associate with, enjoy, and appreciate fish and wildlife through nonconsumptive activities.

SEC. 7103. PURPOSES.

The purposes of this title are to establish a partnership among the United States Fish and Wildlife Service, designated State agencies, and private organizations and individuals—

(1) to carry out wildlife conservation and appreciation projects to conserve the entire array of diverse fish and wildlife species in the United States and to provide opportunities for the public to use and enjoy these fish and wildlife species through nonconsumptive activities;

(2) to enable designated State agencies to respond more fully and utilize their statutory and administrative authorities by carrying out wildlife conservation and appreciation projects; and

(3) to encourage private donations, under the leadership of the National Fish and Wildlife Foundation, to carry out wildlife conservation and appreciation projects.

SEC. 7104. DEFINITIONS.

As used in this title—

(1) The terms "conserve" and "conservation" means to use, and the use of, such methods and procedures which are necessary to ensure, to the maximum extent practicable, the well being and enhancement of fish and wildlife and their habitats for the educational, aesthetic, cultural, recreational, scientific, and ecological enrichment of the public. Such methods and procedures may include, but are not limited to, any activity associated with scientific resources management, such as research, census, law enforcement, habitat acquisition, maintenance, development, information, education, population manipulation, propagation, technical assistance to private landowners, live trapping, and transplantation.

(2) The term "designated State agency" means the State fish and wildlife agency, which shall be construed to mean any department, or any division of any department of another name, of a State that is empowered under its laws to exercise the functions ordinarily exercised by a State fish and wildlife agency.

(3) The term "fish and wildlife" means wild members of the animal kingdom that are in an unconfined state.

(4) The term "Fund" means the Wildlife Conservation and Appreciation Fund established under section 5(f) of this Act.

(5) The term "National Fish and Wildlife Foundation" means the charitable and nonprofit corporation established under section 2 of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3701).

(6) The term "nonconsumptive activities" means fish and wildlife associated activities other than harvesting of fish and wildlife and includes, but is not limited to, photographing, observing, learning about, or associating with, fish and wildlife.

(7) The term "Secretary" means the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service.

(8) The term "wildlife conservation and appreciation project" means a project which is directed toward nonconsumptive activities or toward the conservation of those species of fish and wildlife that—

(A) are not ordinarily taken for recreation, fur, or food; except that if under applicable State law, any fish and wildlife may be taken for recreation, fur, or food in some but not all, areas of the State, a wildlife conservation and appreciation project may be directed toward the conservation of any of such fish and wildlife within any area of the State in which such taking is not permitted.

(B) are not listed as endangered species or threatened species under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531–1543); and

(C) are not marine mammals within the meaning of section 3(5) of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1362(5)).

SEC. 7105. WILDLIFE PARTNERSHIP PROGRAM.

(a) IN GENERAL.—The secretary shall provide the amounts available in the Fund to designated State agencies on a matching basis to assist in carrying out wildlife conservation and appreciation projects that are eligible under subsection (b) of this section.

(b) ELIGIBLE PROJECTS.—The following wildlife conservation and appreciation projects shall be eligible for matching funds from the Fund:

(1) inventory of fish and wildlife species;

(2) determination and monitoring of the size, range and distribution of populations of fish and wildlife species;

(3) identification of the extent, condition, and location of the significant habitats of fish and wildlife species;

(4) identification of the significant problems that may adversely affect fish and wildlife species and their significant habitats;

(5) actions to conserve fish and wildlife species and their habitats; and

(6) actions of which the principal purpose is to provide opportunities for the public to use and enjoy fish and wildlife through nonconsumptive activities.

(c) PROJECT STANDARDS.—The Secretary shall not provide funding to carry out as eligible wildlife conservation and appreciation project unless the Secretary determines that such a project—

(1) is planned adequately to accomplish the stated objective or objectives;

(2) utilizes accepted fish and wildlife management principles, sound design and appropriate procedures;

(3) will yield benefits pertinent to the identified need at a level commensurate with project costs;

(4) provides for the tracking of costs and accomplishments related to the project;

(5) provides for monitoring, evaluating, and reporting of the accomplishment of project objectives; and

(6) complies with all applicable Federal environmental laws and regulations.

(d) LIMITATIONS ON FEDERAL PAYMENT.—The amount of appropriated Federal funds provided from the Fund by the Secretary to any designated State Agency with respect to any fiscal year to carry out an eligible wildlife conservation and appreciation project under this section—

(1) may not exceed $250,000;

(2) may not exceed one third of the total project cost for that fiscal year;

(3) may not exceed 40 percent of the total project cost for that fiscal year if designated State agencies from two or more States cooperate in implementing such a project;

(4) may not be used to defray the administrative cost of State programs; and

(5) may not exceed the State share of the cost of implementing such a project.

(e) FORM OF STATE SHARE.—The share of the cost of carrying out eligible projects under this section shall be from a non-Federal source and shall not be in the form of an in-kind contribution.

(f) ELIGIBILITY OF DESIGNATED STATE AGENCIES.—No designated State agency shall be eligible to receive matching funds from the Wildlife Conservation and Appreciation Fund if revenue derived from activities regulated by such an agency is diverted for any purpose other than the management and conservation of fish and wildlife. Such revenue shall include, but not be limited to, all income from the sale of hunting, fishing and trapping licenses; all income from nongame checkoff systems; all income from the sale of waterfowl, habitat conservation, and other stamps that are requisite for engaging in certain activities regulated by the designated State agency; all income from the sale of any commodities and products by the designated State agency from lands and waters administered by the State for fish and wildlife purposes; and all funds apportioned to the designated State agency under the Federal Aid in Wildlife and Sport Fish Restoration Programs.

(g) ESTABLISHMENT OF FUND.—(1) The Secretary shall establish the Fund, which shall consist of amounts deposited into the Fund by the Secretary under paragraph (2) of this subsection.

(2) The Secretary shall deposit into the Fund—

(A) amounts appropriated to the Secretary for deposit to the Fund, of which not more than 4 percent shall be available to the Secretary and the National Fish and Wildlife Foundation to defray the costs of administering this Act and evaluating wildlife conservation and appreciation projects; and

(B) amounts received as donations from the National Fish and Wildlife Foundation or other private entities or persons for deposit to the Fund.

(3) The Secretary may accept and use donations from the National Fish and Wildlife Foundation and other private entities or persons for purposes of assisting States under this section.

(4) Of the total amount provided from the Fund to assist a State in carrying out a wildlife conservation and appreciation project under subsection (a) of this section, at least 50 percent shall have been donated to the Fund by the National Fish and Wildlife Foundation.

(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Fund and to the Secretary for each of fiscal years 1992 through 1995 not to exceed $6,250,000 to match the amount of contributions made to the Fund by the National Fish and Wildlife Foundation.

TITLE VIII—NORTH PACIFIC ANADROMOUS STOCKS CONVENTION

SEC. 8001. SHORT TITLE.

This title may be cited as the "North Pacific Anadromous Stocks, Convention Act of 1992".

SEC. 8002. PURPOSE.

It is the purpose of this title to implement the Convention for the Conservation of Anadromous Stocks in the North Pacific Ocean, signed in Moscow, February 11, 1992.

SEC. 8003. DEFINITIONS.

As used in this title, the term—

(1) "Anadromous stocks" means stocks of species listed in the Annex to the Convention that migrate into the Convention area.

(2) "Anadromous fish" means fish of the species listed in the Annex to the Convention that migrate into the Convention area.

(3) "Authorized officer" means a law enforcement official authorized to enforce this title under section 8009(a).

(4) "Commission" means the North Pacific Anadromous Fish Commission provided for by article VIII of the Convention.

(5) "Convention" means the Convention for the Conservation of Anadromous Stocks of the North Pacific Ocean, signed in Moscow, February 11, 1992.

(6) "Convention area" means the waters of the North Pacific Ocean and its adjacent seas, north of 33 degrees North Latitude, beyond 200 nautical miles from the baselines from which the breadth of the territorial sea is measured.

(7) "Directed fishing" means fishing targeted at a particular species or stock of fish.

(8) "Ecologically related species" means living marine species which are associated with anadromous stocks found in the Convention area, including, but not restricted to, both predators and prey of anadromous fish.

(9) "Enforcement officer" means a law enforcement official authorized by any Party to enforce this title.

(10) "Exclusive economic zone" means the zone established by Proclamation Numbered 5030, dated March 10, 1983. For purposes of applying this title, the inner boundary of that zone is a line coterminous with the seaward boundary of each of the coastal States.

(11) "Fish" means finfish, mollusks, crustaceans, and all other forms of marine animal and plant life other than marine mammals and birds.

(12) "Fishing" means—

(A) the catching, taking, or harvesting of fish, or any other activity that can reasonably be expected to result in the catching, taking, or harvesting of fish; or

(B) any operation at sea in preparation for or in direct support of any activity described in subparagraph (A).

(13) "Fishing vessel" means—

(A) any vessel engaged in catching fish within the Convention area or in processing or transporting fish loaded in the Convention area;

(B) any vessel outfitted to engage in any activity described in subparagraph (A);

(C) any vessel described in subparagraph (A) or (B).

(14) "Incidental taking" means catching, taking, or harvesting a species or stock of fish while conducting directed fishing for another species or stock of fish.

(15) "Party" means Canada, Japan, the Russian Federation, the United States, and any other nation that may accede to the Convention.

(16) "Secretary" means the Secretary of State.

(17) "United States Section" means the United States Commissioners of the Commission.

SEC. 8004. UNITED STATES COMMISSIONERS.

(a) COMMISSIONERS.—The United States shall be represented on the Commission by not more than three United States Commissioners to be appointed by and serve at the pleasure of the President. Each United States Commissioner shall be appointed for a term of office not to exceed 4 years, but is eligible for reappointment. Of the Commissioners—

(1) one shall be an official of the United States Government;

(2) one shall be a resident of the State of Alaska; and

(3) one shall be a resident of the State of Washington.

An individual is not eligible for appointment under paragraph (2) or (3) as a Commissioner unless the individual is knowledgeable or experienced concerning the anadromous stocks and ecologically related species of the North Pacific Ocean.

(b) ALTERNATE COMMISSIONERS.—The Secretary, in consultation with the Secretary of

Commerce, may designate from time to time Alternate United States Commissioners to the Commission. An Alternate United States Commissioner may exercise all designated powers and duties of a United States Commissioner in the absence of a duly designated Commissioner for whatever reason. The number of such Alternate United States Commissioners that may be designated for any such meeting shall be limited to the number of authorized United States Commissioners that will not be present.

(c) UNITED STATES SECTION.—The United States Section, in consultation with the Advisory Panel established in section 8005, shall identify and recommend to the Commission research needs and priorities for anadromous stocks and ecologically related species subject to the Convention, and oversee the United States research programs involving such fisheries, stocks, and species.

(d) COMPENSATION.—United States Commissioners and Alternate United States Commissioners shall receive no compensation for their services as Commissioners and Alternate Commissioners.

SEC. 8005. ADVISORY PANEL.

(a) ESTABLISHMENT OF PANEL.—An Advisory Panel to the United States Section is established. The Advisory Panel shall be composed of the following:

(1) The Commissioner of the Alaska Department of Fish and Game.

(2) The Director of the Washington Department of Fisheries.

(3) One representative of the Pacific States Marine Fisheries Commission, designated by the Executive Director of that commission.

(4) Eleven members (six of whom shall be residents of the State of Alaska and five of whom shall be residents of the State of Washington), appointed by the Secretary, in consultation with the Secretary of Commerce, from among a slate of 12 persons nominated by the Governor of Alaska and a slate of 10 persons nominated by the Governor of Washington.

(b) QUALIFICATIONS.—Persons appointed to the Advisory Panel shall be individuals who are knowledgeable or experienced concerning anadromous stocks and ecologically related species. In submitting a slate of nominees pursuant to subsection (a)(4), the Governors of Alaska and Washington shall seek to represent the broad range of parties interested in anadromous stocks and ecologically related species, and at a minimum shall include on each slate at least one representative of commercial salmon fishing interests and of environmental interests concerned with protection of living marine resources.

(c) LIMITATION ON SERVICE.—Any person appointed to the Advisory panel pursuant to subsection (a)(4) shall serve for a term not to exceed 4 years, and may not serve more than two consecutive terms.

(d) FUNCTIONS.—The Advisory Panel shall be invited to all nonexecutive meetings of the United States Section and at such meetings shall be granted the opportunity to examine and to be heard on all proposed programs of study and investigation, reports, and recommendations of the United States Section.

(e) COMPENSATION AND EXPENSES.—The members of the Advisory Panel shall receive no compensation or travel expenses for their services as such members.

SEC. 8006. COMMISSION RECOMMENDATIONS.

The Secretary, with the concurrence of the Secretary of Commerce, may accept or reject, on behalf of the United States, recommendations made by the Commission in accordance with article IX of the Convention.

SEC. 8007. ADMINISTRATION AND ENFORCEMENT OF CONVENTION.

(a) RESPONSIBILITIES.—The Secretary of Commerce shall be responsible for administering provisions of the Convention, this title, and regulations issued under this title. The Secretary, in consultation with the Secretary of Commerce and the Secretary of Transportation, shall be responsible for coordinating the participation of the United States in the Commission.

(b) CONSULTATION AND COOPERATION.—In carrying out such functions, the Secretary of Commerce—

(1) shall, in consultation with the Secretary of Transportation and the United States Section, issue such regulations as may be necessary to carry out the purposes and objectives of the Convention and this title; and

(2) may, with the concurrence of the Secretary, cooperate with the authorized officials of the government of any party.

SEC. 8008. COOPERATION WITH OTHER AGENCIES.

(a) IN GENERAL.—Any agency of the Federal Government is authorized, upon request of the Commission, to cooperate in the conduct of scientific and other programs, and to furnish, on a reimbursable basis, facilities and personnel for the purpose of assisting the Commission in carrying out its duties under the convention. Such agency may accept reimbursement from the Commission.

(b) FUNCTIONS OF SECRETARY OF COMMERCE.—In carrying out the provisions of the Convention and this title, the Secretary of Commerce may arrange for cooperation with agencies of the United States, the States, private institutions and organizations, and agencies of the government of any Party, to conduct scientific and other programs, and may execute such memoranda as may be necessary to reflect such agreements.

SEC. 8009. ENFORCEMENT PROVISIONS.

(a) DUTIES OF SECRETARIES OF COMMERCE AND TRANSPORTATION.—This title shall be enforced by the Secretary of Commerce and the Secretary of Transportation. Such Secretaries may by agreement utilize, on a reimbursable basis or otherwise, the personnel, services, equipment (including aircraft and vessels), and facilities of any other Federal agency, including all elements of the Department of Defense, and of any State agency, in the performance of such duties. Such Secretaries shall, and the head of any Federal or State agency that has entered into an agreement with either such Secretary under the preceding sentence may (if the agreement so provides), authorize officers to enforce the provisions of the Convention, this title, and regulations issued under this title. Any such agreement or contract entered into pursuant to this section shall be effective only to such extent or in such amounts as are provided in advance in appropriations Acts.

(b) DISTRICT COURT JURISDICTION.—The district courts of the United States shall have exclusive jurisdiction over any case or controversy arising under the provisions of this title.

(c) POWERS OF ENFORCEMENT OFFICERS.—Authorized officers may, shoreward of the outer boundary of the exclusive economic zone, or during hot pursuit from the zone—

(1) with or without a warrant or other process—

(A) arrest any person, if he or she has reasonable cause to believe that such person has committed an act prohibited by section 8010;

(B) board, and search or inspect, any fishing vessel subject to the provisions of the Convention and this title;

(C) seize any fishing vessel (together with its fishing gear, furniture, appurtenances, stores, and cargo) used or employed in, or with respect to which it reasonably appears that such vessel was used or employed in, the violation of any provision of the Convention, this title, or regulations issued under this title;

(D) seize any fish (wherever found) taken or retained in violation of any provision referred to in subparagraph (C);

(E) seize any other evidence related to any violation of any provision referred to in subparagraph (c);

(2) execute any warrant or other process issued by any court of competent jurisdiction; and

(3) exercise any other lawful authority.

(d) ADDITIONAL POWERS.—(1) An authorized officer may in the Convention area—

(A) board a vessel of any Party that reasonably can be believed to be engaged in directed fishing for, incidental taking of, or processing of anadromous fish, and, without warrant or process, inspect equipment, logs, documents, catch, and other articles, and question persons, on board the vessel, for the purpose of carrying out the provisions of the Convention, this title, or any regulation issued under this title; and

(B) if any such vessel or person on board is actually engaged in operations in violation of any such provision, or there is reasonable ground to believe any person or vessel was obviously so engaged before the boarding of such vessel by the authorized officer, arrest or seize such person or vessel and further investigate the circumstance if necessary.

If an authorized officer, after boarding and investigation, has reasonable cause to believe that any such fishing vessel or person engaged in operations in violation of any provision referred to in subparagraph (A), the officer shall deliver the vessel or person as promptly as practicable to the enforcement officers of the appropriate Party, in accordance with the provisions of the Convention.

(2) When requested by the appropriate authorities of a Party, an authorized officer may be directed to attend as a witness, and to produce such available records and files or duly certified copies thereof as may be necessary, for the prosecution by that Party of any violation of the provisions of the Convention or any law of that Party relating to the enforcement thereof.

SEC. 8010. UNLAWFUL ACTIVITIES.

It is unlawful for any person or fishing vessel subject to the jurisdiction of the United States—

(1) to fish for any anadromous fish in the Convention area;

(2) to retain on board any anadromous fish taken incidentally in a fishery directed at nonanadromous fish in the Convention area;

(3) to fail to return immediately to the sea any anadromous fish taken incidentally in a fishery directed at nonanadromous fish in the Convention area;

(4) to ship, transport, offer for sale, sell, purchase, import, export, or have custody, control, or possession of, any anadromous fish taken or retained in violation of the Convention, this title or any regulation issued under this title;

(5) to refuse to permit any enforcement officer to board a fishing vessel subject to such person's control for purposes of conducting any search or inspection in connection with the enforcement of the Convention, this title, or any regulation issued under this title;

(6) to forcibly assault, resist, oppose, impede, intimidate, or interfere with any en-

forcement officer in the conduct of any search or inspection described in paragraph (5);

(7) to resist a lawful arrest or detection for any act prohibited by this section;

(8) to interfere with, delay, or prevent, by any means, the apprehension, arrest, or detection of another person, knowing that such person has committed any act prohibited by this section; or

(9) to violate any provision of the Convention, this title, or any regulation issued under this title.

SEC. 8011. PENALTIES.

(a) CIVIL PENALTIES.—(1) Any person who is found by the Secretary of Commerce, after notice and opportunity for a hearing in accordance with section 554 of title 5, United States Code, to have committed an act prohibited by section 8010 shall be liable to the United States for a civil penalty. The amount of the civil penalty shall not exceed $100,000 for each violation. Each day of a continuing violation shall constitute a separate offense. The amount of such civil penalty shall be assessed by the Secretary of Commerce, or the Secretary's designee, by written notice. In determining the amount of such penalty, the Secretary of Commerce shall take into account the nature, circumstances, extent, and gravity of the prohibited acts committed and, with respect to the violation, the degree of culpability, and history of prior offenses, ability to pay, and such other matters as justice may require.

(2) Any person against who a civil penalty is assessed under paragraph (1) may obtain review thereof in the appropriate court of the United States by filing a complaint in such court within 30 days from the date of such order and by simultaneously serving a copy of such complaint by certified mail on the Secretary of Commerce, the Attorney General, and the appropriate United States Attorney. The Secretary of Commerce shall promptly file in such court a certified copy of the record upon which such violation was found or such penalty imposed, as provided in section 2112 of title 28, United States Code. The findings and order of the Secretary of Commerce shall be set aside by such court if they are not found to be supported by substantial evidence, as provided in section 706(2) of title 5, United States Code.

(3) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order, or after the appropriate court has entered final judgment in favor of the Secretary of Commerce, the matter shall be referred to the Attorney General, who shall recover the amount assessed in any appropriate district court of the United States. In such action, the validity and appropriateness of the final order imposing the civil penalty shall not be subject to review.

(4) A fishing vessel (including its fishing gear, furniture, appurtenances, stores, and cargo) used in the commission mission of an act prohibited by section 8010 shall be liable in rem for any civil penalty assessed for such violation under paragraph (1) and may be proceeded against in any district court of the United States have jurisdiction thereof. Such penalty shall constitute a maritime lien on such vessel that may be recovered in an action in rem in the district court of the United States having jurisdiction over the vessel.

(5) The Secretary of Commerce may compromise, modify, or remit, with or without conditions, any civil penalty that is subject to imposition or that has been imposed under this section.

(6) For the purposes of conducting any hearing under this section, the Secretary of Commerce may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States. In case of contempt or refusal to obey a subpoena served upon any person pursuant to this paragraph, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Secretary of Commerce or to appear and produce documents before the Secretary of Commerce, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(b) OFFENSES.—(1) A person is guilty of an offense if that person commits any act prohibited by section 8010 (5), (6), (7), or (8).

(2) Any offense described in paragraph (1) is a class A misdemeanor punishable by a fine under title 18, United States Code, or imprisonment for not more than 6 months, or both; except that if in the commission of any offense the person uses a dangerous weapon, engages in conduct that causes bodily injury to any enforcement officer, or places any such officer in fear of imminent bodily injury, the offense is a felony punishable by a fine under title 18, United States Code, or imprisonment for not more than 10 years, or both.

(c) FORFEITURE.—(1) Any fishing vessel (including its fishing gear, furniture, appurtenances, stores, and cargo) used, and any fish (or a fair market value thereof) taken or retained, in any manner, in connection with or as a result of the commission of any act prohibited by section 1810 shall be subject to forfeiture to the United States. All or part of such vessel may, and all such fish shall, be forfeited to the United States pursuant to a civil proceeding under this section.

(2) Any district court of the United States shall have jurisdiction, upon application of the Attorney General on behalf of the United States, to order any forfeiture authorized under paragraph (1) and any action provided for under paragraph (4).

(3) If a judgment is entered for the United States in a civil forfeiture proceeding under this section, the Attorney General may seize any property or other interest declared forfeited to the United States, which has not previously been seized pursuant to this title or for which security has not previously been obtained. The provisions of the customs laws relating to—

(A) the seizure, forfeiture, and condemnation of property for violation of the customs law;

(B) the disposition of such property or the proceeds from the sale thereof; and

(C) the remission or mitigation of any such forfeiture;

shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this title, unless such provisions are inconsistent with the purposes, policy, and provisions of this title.

(4)(A) Any officer authorized to serve any process in rem that is issued by a court having jurisdiction under section 8009(b) shall—

(i) stay the execution of such process; or

(ii) discharge any fish seized pursuant to such process;

upon receipt of a satisfactory bond or other security from any person claiming such property. Such bond or other security shall be conditioned upon such person delivering such property to the appropriate court upon order thereof, without any impairment of its value, or paying the monetary value of such property pursuant to an order of such court. Judgment shall be recoverable on such bond or other security against both the principal and any sureties in the event that any condition thereof is breached, as determined by such court.

(B) Any fish seized pursuant to this title may be sold, subject to the approval and direction of the appropriate court, for not less than the fair market value thereof. The proceeds of any such sale shall be deposited with such court pending the disposition of the matter involved.

(5) For purposes of this section, it shall be a rebuttable presumption that all fish found on board a fishing vessel and which is seized in connection with an act prohibited by section 8010 were taken or retained in violation of the Convention and this title.

SEC. 8012. FUNDING REQUIREMENTS.

(a) AUTHORIZATION.—There are authorized to be appropriated from time to time such sums as may be necessary for carrying out the purposes and provisions of the Convention and this title, including—

(1) necessary travel expenses of the United States Commissioners or Alternate Commissioners; and

(2) the United States share of the joint expenses of the Commission.

(b) RESEARCH.—Such funds as shall be made available to the Secretary of Commerce for research and related activities shall be expended to carry out the program of the Commission in accordance with the recommendations of the United States Section and to carry out other research and observer programs pursuant to the Convention.

SEC. 8013. DISPOSITION OF PROPERTY.

The Secretary shall dispose of any United States property held by the International North Pacific Fisheries Commission on the date of its termination in a manner that would further the purposes of this title.

SEC. 8014. REPEAL OF THE NORTH PACIFIC FISHERIES ACT OF 1954.

The Act of August 12, 1954 (16 U.S.C. 1021-1035) is repealed.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts [Mr. STUDDS] will be recognized for 20 minutes, and the gentleman from Michigan [Mr. DAVIS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5617, as amended by the committee amendment, is a good, composite bill that deserves broad support. It is comprised of five separate reauthorizations which reflect the traditional bipartisan approach of the Merchant Marine Committee and its Senate counterparts.

Title I of the amendment confers congressional approval on a new fisheries agreement between the United States and the Republic of Estonia. The agreement is necessitated by the breakup of the former Soviet Union and will make possible joint fishing ventures between the United States and Estonia in the United States exclusive economic zone. It is strongly supported by the administration.

Title II of the amendment is comprised of a House-Senate text of a bill to reauthorize and strengthen the marine sanctuaries program, which is of considerable importance to many Members and to the administration. It represents a bipartisan agreement on the reauthorization and is to my knowledge without opposition.

As one of authors of H.R. 4310, the National Marine Sanctuaries Reauthorization and Improvement Act of 1992, Mr. Speaker, I cannot emphasize enough its importance to protecting the marine environment. Ever since its creation 20 years ago, the National Marine Sanctuary Program has been visionary in one very important aspect of coastal management—preserving special areas of the coast for a variety of uses.

Balancing human needs against the fragility of our marine environments is not easy. But the bill we bring before this body today manages just such a balance.

H.R. 4310 was passed by the House under suspension of the rules on August 3. The title we offer here is virtually identical to the House-passed version.

The bill streamlines the sanctuary designation process, and clarifies and strengthens NOAA's management authority by adding a provision requiring Federal agencies to consult with NOAA on proposed actions that are likely to harm sanctuary resources. Finally, the bill designates new sanctuaries at Stellwagen Bank, MA, and in the Hawaiian Islands.

I would like to thank my colleagues on the Merchant Marine and Fisheries Committee who worked hard to get a good strong sanctuaries bill out of the committee—Mr. HERTEL, who has chosen to leave us at the end of this year for calmer and, I assume, greener pastures; and Mr. YOUNG, whose efforts to negotiate a bill acceptable to both sides of the aisle deserve special thanks.

Mr. Speaker, I am pleased to include as title III, the text of H.R. 3486, the Marine Mammal Health and Stranding Response Act, in this composite.

This bill is a response to the need to understand and better coordinate our responses to the mass strandings of whales and dolphins that regularly occur along the coasts of our Nation.

Until just a few years ago, it was believed that nothing could be done to help these animals. Fortunately, that has changed. On Cape Cod, thanks to the tireless efforts of hundreds of volunteers willing to do anything from handing out coffee to supporting exhausted and disoriented whales in the cold midwinter waters of Cape Cod Bay, we know that—with human assistance—stranded whales can survive, and we no longer stand by in frustration and watch them die.

H.R. 3486 was passed by the House under suspension of the rules on August 3, and the title presented here is virtually identical to the bill passed by this body. It provides a means by which we can monitor health trends of marine mammals, and use those trends to determine the general health of the marine environment.

H.R. 3486 is a good bill, thanks to the efforts of my colleague from Delaware, who authored the legislation. The administration supports the bill as well, and I'm pleased to bring it before you today.

This title also includes an amendment to section 4283B of the revised statutes (46 App. U.S.C. 183c) to make it clear that plaintiffs may bring actions for bodily injury or loss of life in any court of competent jurisdiction. This amendment is needed because of the Supreme Court ruling in *Carnival Cruise Lines* v. *Shute*, 111 S.Ct. 1522, 113 LEd.2d 662, 1991 AMC 1697 (1991), which allowed a cruise line to enforce a forum selection cause.

The amendment ensures that the general prohibition in section 4283B of the revised statutes against stipulations purporting to lessen, weaken, or avoid the passenger's right to a trail apply to forum selection clauses. It would overturn the result in *Carnival*. Allowing the plaintiff to choose the forum will further the plaintiff's due process rights.

Title IV contains the provisions of S. 36, as passed by the Senate, that would address the continuing problems of zebra mussel infestations. Its purpose is to require the Corps of Engineers to establish a monitoring and remediation program for the New York City water supply system. Title IV also requires the Coast Guard to establish a mandatory ballast water exchange program for vessels entering the upper reaches of the Hudson River.

Title V of the bill authorizes approximately $3.6 billion for the U.S. Coast Guard in fiscal year 1993, which represents a modest increase of 6 percent over fiscal year 1992 spending levels. Approximately 60 percent of this increase is attributable to personnel costs, including cost-of-living increases, improved family housing, barracks upgrades, and child care centers. This emphasis reflects Commandant Kime's commitment to improving the quality of life for the Coast Guard's most valuable resources—its people. While not exactly a windfall, it will allow the Coast Guard to fulfill its missions of search and rescue, protection of the marine environment, law enforcement, and national security.

This bill does more than just fund the operations of the Coast Guard. Once again, the Coast Guard authorization bill has become the end-of-session vehicle to move other important legislative initiatives through the Halls of Congress.

Several of those provisions are particularly important to my own State of Massachusetts. The bill provides $1.5 million for a marine management oil-spill training simulator at the Massachusetts Center for Marine Environmental Protection. This center, located at the Massachusetts Maritime Academy, is operated in conjunction with the Woods Hole Oceanographic Institution. The chief purpose of the center is to educate and train undergraduates and professionals in environmentally sound maritime operations and the simulator will be a great tool with which to teach effective oilspill response.

The legislation also transfers the boat house at Coast Guard Station Brant Point to the town of Nantucket. This boathouse, constructed in 1936, is obsolete. It's too small for the Coast Guard's rescue boats and badly in need of repair. The town of Nantucket has been leasing the building for the past decade, and currently uses it as an aquaculture shellfish laboratory. This provision would permanently convey the building to Nantucket, while allowing the Coast Guard to reclaim access to the land should it be required for its operations.

Also the bill provides for the transfer of the Sankaty Head Light Station—a national historic monument—to the Nantucket Historical Association. The association plans to maintain the lighthouse as a nonprofit center for the preservation of the maritime history and culture of the Coast Guard and the town of Nantucket.

While these Massachusetts provisions are immensely important, this legislation also addresses myriad other matters. In short, it: improves the quality of medical care for Coast Guard personnel; pays tribute to the Coast Guard's Women's Reserve; empowers the Coast Guard to remove thousands of abandoned barges that currently foul our waterways; increases the stockpile of repositioned oil spill response equipment; and improves safety on our waterways.

I am inserting in the RECORD at this point a detained section-by-section analysis of the Coast Guard Authorization Act.

Mr. Speaker, we have also included selected provisions from H.R. 4484, the fiscal year 1993 authorization for the Maritime Administration [MarAd], approved by the House on September 9, 1992. The provisions include changes in State maritime academy programs and an authorization of $242,000 for the nation's first Center for Maritime Environmental Protection and Safety located at the Massachusetts Maritime Academy.

SECTION-BY-SECTION ANALYSIS OF TITLE V—COAST GUARD AUTHORIZATION ACT OF 1992

AUTHORIZATION OF APPROPRIATIONS

Section 5001. Short title

This section states that the Act may be cited as the Coast Guard Authorization Act of 1992.

Section 5002. Authorization of appropriations

This section authorizes the appropriation of approximately $3.615 billion to support Coast Guard activities in Fiscal Year 1993.

Subsection (1) authorizes the appropriation of $2.603 billion for Coast Guard operations and maintenance. Of this amount, $253.1 million is to be transferred from the Department of Defense; $31.876 million is to be derived from the Oil Spill Liability Trust Fund; and $35 million is to be expended from the Boat Safety Account as authorized by section 6 of the Coast Guard Authorization Act of 1988 (Public Law 100–448).

Subsection (2) authorizes the appropriation of $419.3 million for acquisition, construction, rebuilding, and improvements (the AC&I Account). These funds are for the acquisition, construction, rebuilding, and improvement of aids-to-navigation, shore and offshore facilities, vessels, aircraft and related equipment. Of this amount, $18 million is to be transferred from the Department of Defense, and $38.122 million is to be derived from the Oil Spill Liability Trust Fund.

Subsection (3) authorizes an appropriation of $29.9 million for research and development, of which $4 million is to be derived from the Oil Spill Liability Trust Fund.

Subsection (4) authorizes an appropriation of $519.7 million for retired pay and related benefits.

Subsection (5) authorizes the appropriation of $12.6 million for alteration or removal of bridges that obstruct navigation over navigable waters of the United States.

Subsection (6) authorizes the appropriation of $30.5 million for the Environmental Compliance and Restoration Account. This Account is used to clean up and minimize environmental problems at Coast Guard facilities.

Section 5003. Authorized levels of military strength and military training

Subsection (a) authorizes an end-of-year (as of September 30, 1993) strength for active duty personnel of 39,732 for the Coast Guard. This does not include members of the Ready Reserve authorized under section 712 of title 14, United States Code.

Subsection (b) authorizes training levels for recruitment and special training, (2,653 student years); flight training, (110 student years); professional training in civilian and military institutions, (362 student years); and officer acquisition (878 student years).

Section 5004. Shore facilities improvements at group Cape Hatteras

This section requires the Secretary of Transportation, in Fiscal Years 1993–1997, to expend not more than $5.5 million for shore facilities within Coast Guard Group Cape Hatteras, North Carolina. This is to be expended from the AC&I Account. Expenditures at or near this level will be necessary to eliminate the deplorable conditions noted by the Committee on Merchant Marine and Fisheries in Committee Report 102–564. The Coast Guard is given flexibility to determine how to allocate these funds over a five-year period.

Section 5005. Prepositioned oil spill cleanup equipment

This section requires the Secretary of Transportation to expend $890,000 to acquire and preposition oil spill response equipment at Houston, Texas, and $1.16 million for certain activities of the Maritime Fire and Safety Association located in Portland, Oregon. These funds are to be derived from the Oil Spill Liability Trust Fund through the AC&I Account.

Section 5006. Oil spill training simulators

This section provides that, of the amount derived from the Oil Spill Liability Trust Fund through the AC&I Account, the Secretary of Transportation shall expend $2.5 million for the purchase of two marine oil spill management training simulators. These simulators are to be located at the Texas Center for Marine Training and Safety at Texas A&M University at Galveston, Texas, and at the Massachusetts Center for Marine Environmental Protection at Buzzards Bay, Massachusetts. These funds are to be evenly divided between these two institutions.

Section 5007. Evacuation allowance

Section 208 of the Dire Emergency Supplemental Appropriations Act, 1992 (Public Law 102–368) authorizes the Department of Defense to pay evacuation allowances for victims of Hurricane Andrew retroactively to August 23, 1992. However, Coast Guard military personnel and civilian employees were inadvertently omitted from coverage. Section 107 would correct this oversight. It also provides that Coast Guard funds are to be made available for these payments.

SUBTITLE A—BOATING SAFETY

Section 5101. Treatment of unobligated allocations for State recreational boating safety programs

This section amends section 13104 of title 46, United States Code, to modify the cap on the Boat Safety Account. Current laws provides that funds from the Boat Safety Account that have been allocated to a state but not obligated by the state within three years shall be withdrawn from the state, added to funds appropriated for that fiscal year and reallocated by the Secretary. The need to reallocate funds may be caused by a variety of reasons. For example, the Coast Guard may allocate the full amount but retain a small amount from the nonprofit grant program, or states may not make actual expenditures and request reimbursements in the years the funds are allocated.

Because of the cap on the total amount that can be credited to the Boat Safety Account at any given time, the fact that funds are reallocated means that not all of the amounts appropriated by Congress are transferred into the Account. Any amounts not actually obligated by the States within the three-year period provided in current law are, in effect, lost by virtue of the fact that the full amount authorized cannot be deposited into the Account. In the past, funds authorized for the state grant programs have been lost as a result of this cap.

This corrective amendment would require no increase in the Federal budget.

Section 5102. Increased penalties for operating a vessel while intoxicated

Under section 2302(c)(1) of title 46, United States Code, the civil penalty for an individual who operates a vessel under the influence of alcohol or a dangerous drug is not more than $1,000. This section retains the $1,000 penalty for a first violation, and provides for a civil penalty of not more than $5,000 for subsequent violations.

Section 5103. Future boaters education program

This section requires the Secretary of Transportation to submit a plan to the House Committee on Merchant Marine and Fisheries and to the Senate Committee on Commerce, Science, and Transportation on ways to increase the availability of voluntary safe boating education to individuals 16 years of age or younger.

SUBTITLE B—MISCELLANEOUS

Section 5201. Coast Guard band director

This section amends current law to allow the Coast Guard to promote the Coast Guard band director to the grade of commander. Currently, the Coast Guard band director's maximum attainable grade is lieutenant commander, two pay grades below his counterparts in the other armed services.

Section 5202. Recycling program

This section authorizes the Coast Guard to establish programs for the sale of recyclable materials. Proceeds will be credited to the Coast Guard's Operations and Maintenance Account to defray the costs associated with processing recyclable materials. Coast Guard installations with a qualifying recycling program may apply up to 50 percent of any remaining funds to pollution abatement, energy conservation, and occupational safety and health projects. All remaining funds may be transferred to the Coast Guard Morale, Welfare, and Recreation Program to fund morale activities. If at the end of a fiscal year, more than $200,000 remains available, it will be transferred to the general fund of the Treasury as offsetting receipts of the department in which the Coast Guard is operating and ascribed to Coast Guard activities.

Section 5203. Confidentiality of medical records

This section amends title 14, United States Code, by adding a new section 645, which concerns confidentiality of medical quality assurance records and qualified immunity for participants. These records are developed by the Coast Guard in the course of peer reviews of Coast Guard physicians and health care providers. This section protects the confidentiality of these records and proceedings. The restrictions on disclosure extend to testimony concerning these records or proceedings taken in connection with developing these records. Finally, this section would confer "good faith" civil immunity on persons who are involved in medical quality assurance activities. The section provides limited exceptions for disclosure to government bodies and other appropriate institutions.

This section gives the Coast Guard the same protection the Department of Defense has in its peer review programs. Central to quality assurance review activities is the peer review process, which consists of the evaluation of the performance of physicians and other health care providers by individuals or committees. In order to elicit candid appraisals and evaluations of fellow professionals, this type of peer review must operate in an environment of confidentality.

Section 5204. Telephone installation and charges

This section adds a new section to title 14, United States Code, to allow for the installation of a Federal Telecommunications System (FTS) and other phone lines in residences owned or leased by the Federal government and, when necessary for national defense purposes, in other private residences. This section will enable Coast Guard flag officers to have both FTS and secure (classified) telephones installed in their homes.

Section 5205. Special pay

This section amends 306 of title 37, United States Code, to permit special pay for certain junior officers. The change would give the Secretary the discretion to award additional compensation to persons at pay grades

0-1 and 0-2 and commissioned warrant officers who are serving in positions of unusual responsibility.

Section 5206. Amendment of inland navigation rules

This section amends section 2 of the Inland Navigation Rules Act of 1980 (33 U.S.C. 2001 et seq.) to conform United States Inland Rules 1(d) and 10 with corresponding provisions in the International Regulations for Preventing Collisions at Sea, 1972 (COLREGS).

The COLREGS entered into force for the United States by Presidential Proclamation on July 15, 1977. They apply to all vessels operating on the high seas and in all waters connected therewith that are navigable by seagoing vessels. The Inland Navigational Rules Act of 1980 applies to all vessels operating on the inland waters of the United States, and to all vessels of the United States on the Canadian waters of the Great Lakes to the extent that there is no conflict with Canadian law.

In line with Rule 1(b) of the International Regulations and the policy of the United States every effort has been made to maintain consistency, as much as possible, between the International Regulations and the Inland Navigational Rules. This consistency avoids confusion for vessel operators thereby promoting safety.

The inconsistency between Inland Rules 1(d) and 10 and the corresponding International Regulations was reviewed by the Navigation Safety Advisory Council (formerly the Rules of the Road Advisory Council) at its December 1991 meeting. The Council resolved that Inland Rule 1(d) should be amended, consistent with the International Regulations, to acknowledge that traffic separation schemes (TSS's) may be established for the purposes of the Inland Rules. The Council unanimously resolved that Inland Rule 10 should be amended to incorporate the operative language of International Rule 10 in order to prevent vessel collisions and to provide specific guidance to vessels on how to enter, depart, cross, and navigate safely with a TSS.

Inland Navigational Rule 10 currently provides that each vessel required to participate in a vessel traffic service (VTS) shall comply with the applicable VTS regulations. The only rules that direct vessel navigation in inshore traffic separation schemes are those found in the VTS regulations (33 C.F.R. 161). With the exception of the Puget Sound VTS, however, where the rules apply to all vessels, VTS regulations generally apply only to vessels subject to the Vessel Bridge-to-Brige Radiotelephone Act of 1971 (33 U.S.C. 1201 et seq.). That includes: (1) power-driven vessels of 20 meters or over in length; (2) vessels of 100 gross tons or more carrying one or more passengers for hire; (3) towing vessels of 26 feet or more in length; and (4) dredges and floating plants engaged in or near a channel or fairway in operations likely to restrict or affect navigation of other vessels.

Section 5207. State maritime academy vessel inspection fee relief

This section prohibits the Secretary of Transportation from imposing Coast Guard fees for the inspection of vessels operated by state maritime academies.

Section 5208. Inspection of Great Lakes barges

This section amends sections 2101 and 3301 of title 46, United States Code, to require the Coast Guard to inspect barges and other non-self-propelled vessels of at least 3,500 gross tons operating on the Great Lakes. The inspection requirement also includes freight ships permanently converted to barges and operating with a dedicated tug.

This section is effective one year after the date of enactment of this Act for barges of at least 3,500 gross tons currently in operation on the Great Lakes. The inspection requirement is effective on the date of enactment of this Act for barges placed in operation after the date of enactment of this Act. The Secretary of Transportation is authorized to impose reasonable interim requirements to assure the safe operation of these barges.

Section 5209. Tank vessel definition clarification

This section states that offshore supply vessels and fishing or fish tender vessels under 750 gross tons that transfer fuel without charge to a fishing vessel owned by the same person are not tank vessels for the purposes of any law. Subsection (c) provides that the Secretary of Transportation continues to have authority to regulate these vessels under title 33, United States Code. Subsection (c)(2) clarifies that this section does not affect the requirements of the Aleutian Trade Act. Uninspected fish tender vessels engaged in the Aleutian trade may carry dry bulk cargo only in accordance with the provisions of the Aleutian Trade Act. Furthermore, this section does not provide any additional authority for these vessels to engage in any other trade or activity. Regulations in effect on the effective date of this Act would continue to be effective until modified or repealed. Definitions for these vessels are provided in section 2102 of title 46, United States Code.

Section 5210. Authority for the Coast Guard to inspect and withhold the documents of certain foreign passenger vessels

Currently, section 3303(a) of title 46, United States Code provides that the Coast Guard may inspect a vessel registered in a country that is a party to the International Convention for the Safety of Life at Sea (SOLAS) to ensure that the vessel's propulsion and life saving equipment are as stated in the certificate of registry. Section 310 of H.R. 5055 amends current law to permit the Coast Guard to inspect these vessels to ensure the condition of the vessel is as stated in the certificate of registry. This change brings domestic law into compliance with SOLAS.

This section also amends section 3505 of title 46, United States Code, to clarify U.S. authority to treat smaller foreign passenger vessels the same as larger foreign passenger vessels for purposes of ensuring that the vessels are in compliance with SOLAS. Current law provides that vessels over 100 gross tons having accommodations for a least 50 passengers may not depart from a U.S. port with passengers embarked at that port if the vessel is not in compliance with SOLAS. The Coast Guard now uses SOLAS authority instead to prevent noncomplying smaller passenger vessels from departing. This section would align domestic law with SOLAS.

Section 5211. Reimbursement for overseas inspections and examination

This section amends current law to permit the Coast Guard to inspect or examine a vessel at a foreign place. It further requires the owner or operator of a foreign vessel who requests an overseas inspection or examination to reimburse the Coast Guard for travel and subsistence expenses incurred for those services overseas. The reimbursement received will be credited to the Coast Guard's Operations and Maintenance Account.

Inspecting or examining a foreign vessel overseas, instead of waiting until it enters U.S. waters, can benefit both the Coast Guard and the vessel owner. The Coast Guard currently examines foreign vessels on their arrival in the United States for compliance with the International Convention for the Safety of Life at Sea (SOLAS), other international conventions, and U.S. laws and regulations. The Coast Guard currently inspects foreign tank vessels carrying hazardous liquids or liquefied gases, other tank vessels, and passenger vessels when they arrive in the U.S. for the first time or following a major rebuilding or structural modification.

In many cases, the Coast Guard's inspections can be more effectively conducted while a vessel is being constructed or while a vessel is in dry dock. This section will enable the Coast Guard to identify and evaluate problems before a foreign vessel enters a U.S. port.

Section 5212. Watchstanding on certain vessels

This section amends section 8104(g) of title 46, United States Code, to allow a two-section watchstanding system aboard Oil Spill Response Vessels (OSRV). An OSRV is a vessel used only to respond to a discharge of oil or hazardous substances. Normally, merchant vessels of over 100 gross tons require a three-section watchstanding system. This amendment requires OSRV's to conform to the same watchstanding requirements as vessels of similar class, such as towing vessels, offshore supply vessels, fishing vessels, and fish processing vessels.

Section 5213. Denial and revocation of endorsements

This section authorizes the Secretary of Transportation to deny the issuance or renewal of a trade or recreation endorsement on a certificate of documentation issued under chapter 121 of title 46, United States Code, and to revoke the endorsement if the Secretary finds that the vessel's owner has not paid an assessment of a civil penalty after final agency action for a violation of law for which as assessment has been made by the Secretary.

Section 5214. Acceptance of evidence of payment of coast guard fees

This section prohibits the Coast Guard from issuing a citation to a boater for failing to display a recreational vessel user fee (RVF) decal if the boater is able to provide evidence of prior purchase of the RVF decal to the boarding officer.

Section 5215. Schedule for operation of drawbridge of Woodrow Wilson Memorial Bridge

This section restricts the opening of the drawbridge portion of the Woodrow Wilson Memorial Bridge to non-rush hour periods of the day. The purpose of this section is to improve automobile safety and avoid the traffic gridlock that occurs when the bridge is opened during weekday rush hours.

The Woodrow Wilson Memorial Bridge spans the Potomac River in the Metropolitan Washington areas and is part of the Interstate 95 highway system. When the bridge is raised during rush hours, traffic backs up over 2.5 miles and when it is lowered, usually after about ten minutes, it takes over three hours for traffic to return to normal. The bridge was designed to carry 75,000 vehicles per day and it now carries over 165,000 vehicles every day.

This section continues to allow midday openings for commercial vessels, but prohibits openings during the morning and evening rush hour. It requires recreational vessels to pass through the bridge between midnight and 5:00 a.m. on weekdays and midnight and 7:00 a.m. on weekends. Recreational vessels may also pass through the bridge when opened for commercial vessels.

It also requires a commercial vessel operator to give the bridge tender a 12-hour estimate of the approximate time of the vessel's passage through the bridge followed by a 4-hour advance notice of the vessel's approach to the bridge.

In addition, not later than 180 days after the date of enactment, the Secretary is required to issue an Advanced Notice or Proposed Rulemaking to solicit comments on whether there are practical ways to encourage owners and operators of commercial vessels to make every reasonable effort to notify the bridge tender of the time a vessel will pass the Woodrow Wilson Memorial Bridge by not later than 24 hours before that passage.

Section 5216. Station Brant Point boat house

This section conveys the building known as the Station Brant Point Boat House to the Town of Nantucket, Massachusetts. In addition, it authorizes the Coast Guard to lease the land the Boat House occupies to the town of Nantucket for a period of at least twenty years. The Coast Guard may terminate the lease if the property is needed for Coast Guard purposes. However, the Coast Guard must provide the Town of Nantucket with not less than 12 months notice of the need to vacate the property.

The Boat House was constructed in 1936 and no longer is suitable for Coast Guard use. Currently, the Town of Nantucket leases the building from the Coast Guard and uses it as an aquaculture shellfish laboratory. The current lease will expire in March of 1994. Both parties are interested in entering into a new lease agreement. This section will expedite the leasing process, transfer the building to the Town at no cost, and protect the Coast Guard's interest in using the property for other purposes in the future.

Section 5217. Study of the application of tiltrotor technology to Coast Guard missions

This section requires the Secretary of Transportation to report to Congress on the applications of V-22 Osprey tiltrotor aircraft technology to Coast Guard missions.

Section 5218. Enforcement agreements

This section directs the Coast Guard to enter into a Memorandum of Agreement with the Department of Commerce regarding fisheries enforcement practices and procedures. The memorandum shall provide for the opportunity for an in person hearing to respond to charges of violations if requested in a timely manner. The Memorandum shall also provide that all enforcement procedures shall be fair and consistently applied.

Section 5219. Authorizing payments to certain subcontractors

This section requires the Secretary of Transportation, within six months of enactment of this Act, to determine amounts owed to subcontractors under Coast Guard contract number DTCG50-87-C-00096. The Coast Guard has compensated the general contractor, MZP, Incorporated, for work performed under this contract, however, MZP, Incorporated, did not compensate its subcontractors for work they performed under the contract. Under the unique circumstances surrounding this contract, the Coast Guard has an obligation to ensure that the subcontractors are compensated for work they performed under this contract. The Coast Guard has changed its contracting procedures to avoid a recurrence of this contracting problem.

This section requires the Coast Guard to hold investigations in Ketchikan, Alaska, to determine amounts owed under the contract to avoid further expenses to the subcontractors. Not later than two months after making the necessary determinations, the Secretary is authorized to pay the subcontractors the amounts they are owed.

Section 5220. Sankaty Head Light Station

This section requires the Secretary of Transportation to convey to the Nantucket Historical Association in Nantucket, Massachusetts, all right, title, and interest of the United States in and to property comprising the Sankaty Head Light Station.

The conveyance is to be made without the payment of consideration. The property may be sold and the proceeds from the sale may be used to move the Lighthouse to a location where the Lighthouse can be preserved. In addition, the Secretary may convey the property subject to other terms and conditions the Secretary considers appropriate.

The Lighthouse is to be maintained as a nonprofit center for public benefit for the interpretation and preservation of the material culture of the United States Coast Guard and the maritime history of Nantucket, Massachusetts. If the Lighthouse ceases to be used for these purposes, it would revert to the United States.

This section also requires that the conveyance include conditions to assure that the aids-to-navigation continue to be operated and maintained by the United States as long as they are needed for this purpose. The Nantucket Historical Association is prohibited from interfering with those aids. The United States retains the right to replace any aids-to-navigation, and to enter the property to maintain the aids.

The Nantucket Historical Association is directed to maintain the Lighthouse, but is not required to maintain any active aids-to-navigation equipment located on property where the Lighthouse is located

Section 5221. Study of Coast Guard buoy chain procurement practices

This section requires the Secretary of Transportation, within six months of enactment of the Act, to submit a study to Congress on the acquisition of buoy chain. The Secretary is to consider the ability of United States buoy chain manufacturers to successfully compete for United States Government contracts for buoy chain and the effect on the national security of United States dependence on foreign acquired buoy chain.

Section 5222. Correction regarding certain exemptions

When the Aleutian Trade Act (ATTA) was passed in 1990, section 4502(b) of title 46, United States Code, was renumbered. Prior to ATA, section 4506 provided an exemption from the liferaft carriage requirements of section 4502, combined with the failure to change the cross-reference in 4506, resulted in small vessels being exempted from all safety requirements. This amendment returns the law to its original intent.

Section 5223. Contract for certain services at Coast Guard support center in Kodiak, Alaska

This section authorizes the Coast Guard, in accordance with applicable acquisition regulations, to enter into a negotiated contract with PTI for Digitrex central office based business services to Coast Guard Support Center, Kodiak, Alaska. This contract is to be at a fair allocation of costs between Alaska ratepayers and the Coast Guard. The termination liability of the contract is required to be negotiated, but is not to exceed $842,047.

SUBTITLE C—ABANDONED BARGE ACT

Section 5301. Short title

This section states that this title may be cited as the "Abandoned Barge Act of 1992".

Section 5302. Abandonment of barges

This section amends Part B of subtitle II of title 46, United States Code, by adding a new chapter 47.

The new chapter is entitled "Abandonment of Barges", and it includes the following provisions.

Section 4701. Definitions

This section contains definitions of terms used throughout the new chapter.

"Abandon" means to moor, strand, wreck, sink, or leave for longer than 45 days a barge of more than 100 gross tons.

"Barge removal contractor" is defined as a person that enters into a contract with the United States to remove an abandoned barge.

"Navigable waters of the United States" are the waters of the United States, including the territorial sea. This definition is identical to that in the Oil Pollution Act of 1990, and the Clean Water Act.

"Removal and remove" means relocation, sale, scrapping, or any other method of disposal.

Section 4702. Abandonment of barge prohibited

A barge owner or operator is prohibited from abandoning a barge on the navigable waters of the United States. This section is designed to prohibit abandonment without interfering with a barge's normal day-to-day operation. A barge is not abandoned, however, if it is located at a Federally- or state-approved mooring area, is on private property with the permission of the property owner, or if the barge owner or operator notifies the Secretary of the barge's location, and of his intention not to abandon the barge. It must be moored more than 45 days before this notification would be required.

Section 4703. Penalty for unlawful abandonemt of barge

This section permits the Secretary to assess a civil penalty of up to $1,000 against an owner or operator for each day a barge is abandoned in violation of section 4702. The barge is also liable *in rem* for the penalty. The penalty may not be assessed until 30 days after the notification procedures under section 4704 are completed.

Section 4704. Removal of abandoned barges

The authority to remove abandoned barges, and the procedures necessary to exercise that authority, are set forth in this section.

This section provides that if the barge owner's or operator's identity can be determined, the Secretary must notify the owner or operator by certified mail that if the barge is not removed, it will be removed at the owner's or operator's expense, and that a penalty may be assessed under section 4703.

This section provides that if the barge owner's or operator's identity is unknown, the Secretary must publish notice in "a notice to mariners" and "an official journal of the county in which the barge is located". The notice must advise that if the barge is not removed, it will be removed by the Coast Guard and the owner or operator, if subsequently identified will be assessed the costs of removal and civil penalties. Removal of an abandoned barge may begin 30 days after the Secretary completes the notification procedures under this section.

The barge owner or operator, and the vessel, *in rem*, bear all liability for any expense incurred during removal of an abandoned barge. The United States, and any of its officers or employees, are not liable to an owner or operator for damages resulting from removal of an abandoned barge.

This section also provides for the removal of a barge by a contractor. Removal services may be solicited by public advertisement for sealed bids, after notice is provided to the barge owner under this chapter. The Secretary may award a contract for removal, and may condition that contract on the barge removal contractor: 1) assuming all property rights in the barge and property on the barge; and 2) submitting a plan for barge removal to the Secretary.

Finally, this section provides that the United States is not liable to the owner or operator of an abandoned barge for damages caused by removal of the abandoned barge. The United States may, however, be liable to other persons damaged by the removal of the barge.

Section 4705. Liability of barge removal contractors

This section limits the liability of barge removal contractors and their subcontractors when performing work under this chapter. A barge removal contractor is not liable for damages that result from actions taken or omitted in the course of removing a barge. This section's liability limitation does not apply if the contractor is grossly negligent or engages in willful misconduct. This section's liability limitation also does not apply with respect to personal injury or wrongful death.

Section 5303. Application to certain barges

Section 403 of the bill provides that one year after the date of enactment of this Act, the Secretary may assess a civil penalty under section 4703 against an owner or operator of a barge abandoned before June 11, 1992, that continues to be abandoned one year after the enactment date.

Section 5304. Clerical amendment

Section 404 of the bill amends the analysis of subtitle II at the beginning of title 46, United States Code, by inserting a reference to new chapter 47.

Section 5305. Numbering of barges

Section 405 amends section 12301 of title 46, United States Code. It requires undocumented barges of more than 100 gross tons operating on the navigable waters of the United States to be numbered.

SUBTITLE D—HONORING THE COAST GUARD WOMEN'S RESERVE

Section 5401. Findings

This section recognizes the fiftieth anniversary of the legislation that created the Coast Guard Women's Reserve also known as the SPARs (Semper Paratus—Always Ready). The SPARs were established during World War II and made significant contributions to the Nation's total war effort. The SPARs were the forerunners of today's fully integrated Coast Guard.

Section 5402. Designation of SPAR Anniversary Week

This section designates November 17 through November 23, 1992, as "SPAR Anniversary Week". In addition, it authorizes and requests the President to issue a proclamation calling on the people of the United States to observe the week with appropriate programs, ceremonies, and activities.

SUBTITLE E—MERCHANT MARINE PROVISIONS

Section 5501. Coastwise laws

This section amends section 1 of the Act of May 28, 1906 (46 App. U.S.C. 292) to clarify the application of the coastwise trade laws to certain dredges.

New section 1(a) requires all vessels that are engaged in dredging operations in the navigable waters of the United States (including the territorial sea of the United States as described in Presidential Proclamation 5928 of December 27, 1988) to meet the same requirements as other vessels engaged in coastwise operations. Therefore, these vessels must be U.S.-built, U.S.-owned, and U.S.-flag. If the vessel is over five net tons, it also must be documented under chapter 121 of title 46, United States Code, with a coastwise endorsement.

Additionally, if the vessel is chartered, the charterer of the vessel must be a citizen of the United States under section 2 of the Shipping Act, 1916 (46 App. U.S.C. 802) for purposes of engaging in the coastwise trade.

New section 1(b) exempts vessels that are engaged in the dredging of gold in Alaska from the coastwise eligibility requirements by allowing U.S. documented vessels with a registry endorsement to engage in these operations. Therefore, a U.S.-flag vessel that is foreign-built and foreign-controlled may engage in the dredging of gold in waters of the State of Alaska.

New section 1(c) provides that a vessel that is operated in knowing violation of this section and its equipment are liable to seizure by and forfeiture to the United States Government. This is in addition to other penalties provided under section 12122 for violation of the documentation laws.

Subsection (a)(2) of the bill grandfathers certain existing vessels that do not currently comply with these new requirements and vessels that are used as an integral part of an operation where dredging is a minority of the total costs of that operation.

Subsection (b) of the bill amends the Merchant Marine Act, 1920 (46 App. U.S.C. 883), commonly referred to as the "Jones Act", to clarify that merchandise owned by the United States Government, a State, or a subdivision of a state is subject to the coastwise trade laws.

Subsection (c) of the bill grandfathers a vessel under Public Law 100-329. Public Law 100-329 incorporated the transportation of valueless material or valueless dredge material within the coastwise trade laws. This vessel had been engaged in dredging before the enactment of that law, and this amendment restores its ability to continue these operations.

Section 5502. Treatment of certain seized fishing vessels under Fishermen's Protective Act of 1967

Subsection (a) includes four U.S. registered vessels under an agreement with the Secretary of State under section 7 of the Fishermen's Protective Act of 1967. This inclusion makes the vessel owners eligible for reimbursement of costs incurred as a result of seizure and illegal detention by a foreign nation that was in direct contravention of the freedom of navigation recognized under international law.

Subsection (b) describes the four vessels referred to in subsection (a).

SUBTITLE F—CLEAN VESSELS

Section 5601. Short title

This section provides that this subtitle shall be referred to as the "Clean Vessel Act of 1992".

Section 5602. Findings; purpose

Subsection (a) states the findings of Congress that the discharge of untreated sewage is illegal under federal law, the discharge of treated sewage is prohibited in many areas under state and federal law, there are an inadequate number of pumpout stations for Marine Sanitation Devices (MSD) where recreational vessels operate and sewage discharges from MSDs is a water quality problem in many U.S. waters.

Subsection (b) provides that the purpose of the Act is to provide funds for the construction, renovation, operation, and maintenance of pumpout stations and waste reception facilities in states.

Section 5603. Determination and plan regarding State marine sanitation device pumpout station needs

Subsection (a) directs each coastal state to conduct a survey to determine whether pumpout stations for MSDs and portable toilets are adequate and reasonably available to meet the recreational vessel needs within the state. The survey should focus on obtaining two pieces of information: (1) the number and location of all operational MSD or portable toilet pumpout stations; and (2) the number and areas where recreational vessels with type III MSDs or portable toilets congregate (i.e., marinas, mooring areas, and docks). This survey should include pumpout facilities at both public and private boating access facilities (i.e., marinas, docks, and boat launches). A list of the location of all operational pumpout stations is required to be transmitted to the Secretary of the Interior under subsection (b). Each coastal state is to use the guidance developed pursuant to section 5605(b) of this subtitle to determine what constitutes an adequate and reasonably available number of pumpout stations for the recreational vessels which operate on its waters. Amounts available under section 8(d) of the Dingell-Johnson Act (as added by this subtitle) may be used to conduct this survey.

Subsection (b) directs each coastal state to develop and submit to the Secretary of the Interior a plan for the construction or renovation of Marine Sanitation Device and portable toilet pumpout stations that are adequate and reasonably available, based on the guidance developed pursuant to section 5605(a) of this subtitle, to meet the recreational vessel needs in the state. At the same time that it submits the plan to the Secretary of the Interior, each state should submit a list of the MSD and portable toilet pumpout stations which were operational when the survey mandated by subsection (a) was conducted. The plan and the list should be based on information developed and needs identified in the survey mandated by subsection (a). The plan may include proposals to construct pumpout facilities at private as well as public boating access facilities.

Subsection (c) requires the Secretary of the Interior to approve or disapprove each state's plan within 60 days of receipt. The Secretary of the Interior is to base this decision on the adequacy of the survey conducted by the state under subsection (a), and the ability of the plan to meet the construction and renovation needs identified in the survey. The Secretary of the Interior is to promptly notify the affected governor of the approval or disapproval of the plan. If the plan is disapproved, the Secretary of the Interior shall state the reasons and recommend the necessary modifications. The affected governor has 60 days after the plan is returned to make the necessary changes and resubmit the plan.

Subsection (d) directs the Under Secretary of Commerce for Oceans and Atmosphere to indicate the locations of pumpout facilities for MSDs and portable toilets on charts published by NOAA. This directive only applies to NOAA charts that are published for use by recreational boaters. To assist NOAA in updating its charts, the Secretary of the Interior is to transmit each coastal state's list of existing pumpout facilities to NOAA within 30 days of receipt. The U.S. Fish and Wildlife Service is also directed to notify NOAA within 30 days of the completion of each project funded under the Clean Vessel Act of 1992, so that the location of these facilities can be indicated on the NOAA nautical charts. The Committee anticipates that NOAA will carry out the mandates of this subsection as part of its normal nautical chart revisions.

Section 5604. Funding

This section amends current law to provide additional funding from the Sport Fish Restoration Account for boat access, pumpout stations, and boating safety grants to states.

Subsection (a) deals with increasing the funding for pumpout stations and boating safety. Under this subsection, 18 percent of monies in the Sport Fish Account will be used to implement the Coastal Wetlands Planning, Protection, and Restoration Act.

After this deduction, an amount will be deducted and evenly divided between the Secretary of the Interior and the Secretary of Transportation. Funds to the Secretary of the Interior shall be used to provide grants to states to implement the Clean Vessel Act of 1992. Funds to the Secretary of Transportation shall be used to provide grants under the Boating Safety Grant Program established by Chapter 131 of title 46, United States Code. These funds shall be allocated among the states in accordance with section 13106(a)(1) of title 46, United State Code. The amount transferred to the Secretaries shall be $10 million in Fiscal Year 1993; $15 million in Fiscal Years 1994 and 1995; and $20 million in Fiscal Years 1996, 1997, and 1998. In Fiscal Year 1998, the entire amount will be allocated to the Secretary of Transportation for distribution as state boating safety grants. Any funds not obligated by the Secretary of the Interior within two years would be transferred to the Secretary of Transportation and distributed as state boating grants in accordance with section 13106(a)(1) of title 46, United States Code.

From amounts remaining in the fund, the Secretary of the Interior may use up to six percent for investigatory, administrative, and other appropriate purposes to promote the conservation and management of sport fishing.

Subsection (b) increases funding for facilities to improve public access to the waters of the United States. Under current law, states are required to allocate ten percent of their Sport Fish funds for public access; this subsection would increase that requirement to 12.5 percent. This change will allow the states within a U.S. Fish and Wildlife Service Administrative Region the flexibility to spend more or less than the required per centum each year under the Boat Access Account to meet priority needs. It will permit scheduling projects in an orderly fashion without being constrained by annual state level allocations. It does not change the annual apportionment to each state, and it does not allow for the transfer of appropriations between states. It does provide that if the USFWS regional allocation target is met, the states can spend any remaining apportioned funds on any qualified Sport Fish Restoration Project, and not have to satisfy, by individual state, the 12½ percent minimum spending requirements under the Boat Access Account.

Subsection (b) also adds the term "outreach" to the allowed uses under the education set aside of the Sport Fish Restoration Program. The term "outreach" encompasses the following activities: development, publication and distribution of print, audio and visual materials for and about the Aquatic Resources Trust Fund, particularly on the program's accomplishments; promotion of sound ethics programs; and cooperative programs with the sport fishing industry.

This section will increase grants to state recreational boating safety programs. These grants are currently financed through the Boat Safety Account of the Aquatic Resources Trust Fund, which is funded from excise taxes on fishing tackle and gasoline used by boaters. Currently, $70 million in gasoline excise taxes is annually transferred from the Trust Fund to the Boat Safety Account and is available for appropriation to the Coast Guard. Half of this amount is used for Coast Guard operating expenses and half is used for grants to state safe boating programs. These state grants have been enormously successful in reducing boating accidents and saving lives. The remaining monies in the Trust Fund are transferred to the Sport Fish Restoration Account.

As a result of the recent increase in the motorboat fuel tax, additional funds are flowing into the Trust Fund. Under current law, the additional monies are deposited into the Sport Fish Restoration Account. This provision uses a portion of this new gas tax money to increase funding for state boating safety programs.

The Committee believes that there are a number of boating problems that are not being adequately addressed. Additional funding for the following would likely lead to a reduction in boating accidents and an improvement in the marine environment: increased boater education; additional training and resources to improve investigations of the causes of boating accidents; the placement of buoys and other aids-to-navigation to assure the safety of our waterways; increased training and other resources for state officers charged with detecting the use of alcohol and drugs; increased training for state officials about the role of small boats in the drug trade; increased resources to prevent boat theft which is a major tool of the drug cartels; and state-wide and cooperative training of emergency response teams to deal with water-related emergencies, such as hazardous chemical spills.

Paragraph (1) of subsection (c) authorizes the Secretary of the Interior to obligate an amount not to exceed the amount made available under section 4(b)(2) of the Sport Fish Restoration Act to make matching grants. Grants are authorized to pay 75 percent of the cost to a coastal state of: (1) conducting a survey under section 5603(b); (2) developing and submitting a plan and list under section 5603(b); (3) constructing and renovating marine sanitation devices and waste reception facilities; and (4) conducting a program to educate boaters about sewage discharges from boats. This authorization does not preclude the Secretary from awarding grants that do not meet a coastal state's plan developed pursuant to section 5603. However, priority should be given projects that implement a coastal state's plan. Grants are also authorized to pay 75 percent of the cost to an inland state, which can demonstrate that it has an inadequate number of pumpout stations and waste reception facilities, of: (1) constructing and renovating pumpout stations and waste reception facilities; and (2) conducting a program to educate boaters about sewage discharges from boats.

Paragraph (2) directs the Secretary of the Interior to give priority consideration to state grant applications that fall into any of three categories. First, priority should be given to projects which implement a coastal state's approved construction and renovation plan. Compliance with a state plan is necessary because projects should be funded in the context of the overall needs of the state.

Second, priority should be given to projects which include public/private partnerships to develop and operate pumpout stations and waste reception facilities. Public/private partnerships will enable states to leverage more projects with this grant money. These partnerships will also ensure the long-term operation of these facilities. However, projects built at private facilities must be available to the public on the same basis as patrons of the private facility. In addition, operators of private facilities may only charge for the operation and maintenance of facilities and may not charge the public more than their patrons to use the facilities. The owners or operators of private facilities shall be required to pay at least 25 percent of the cost of projects funded with a grant awarded under this section. Priority should be given to grant proposals which include more than 25 percent private money.

Finally, priority should be given to projects which propose innovative ways to increase the availability and use of pumpout stations and waste reception facilities. There are a variety of portable pumpout stations (wheeled units and barges) which have the potential to increase pumpout use by boaters. These and other new technologies should be encouraged.

Subsection (d) states that nothing in this subtitle is intended to prevent a state from carrying out the requirements of the title with funds other than Sport Fish Restoration monies.

Section 5605. Guidance and Notification

Subsection (a) requires the Secretary of the Interior to, after consulting with the Administrator of the Environmental Protection Agency, the Under Secretary of Commerce for Oceans and Atmosphere, and the Commandant of the Coast Guard, issue guidance for pumpout stations and waste reception facilities guidance for public comment within three months of the date of enactment. The guidance shall include: (1) guidance on the types of pumpout stations and waste reception facilities that may be appropriate for construction, renovation, operation, or maintenance with funds available under the Sport Fish Restoration Act; (2) guidance on what constitutes adequate and reasonably available pumpout facilities and waste reception facilities; (3) guidance on appropriate methods for disposal of vessel sewage from pumpout facilities; (4) guidance on appropriate connector fittings to facilitate discharge of sewage from vessels; (5) guidance on the waters most likely to be affected by the discharge of sewage from vessels; (6) other information considered necessary to promote the establishment of pumpout stations and waste reception facilities. This guidance is to be finalized no later than six months after the date of enactment of this subtitle.

Subsection (b) directs the Secretary of the Interior to, not later than one month after the guidance in subsection (a) is finalized, to notify in writing each state fish and wildlife, water pollution control, and coastal zone authority of: (1) the availability of Sport Fish Restoration monies to implement this subtitle; and (2) the guidance developed under (2).

Section 5606. Effect on State Funding Eligibility

This section clarifies that this subtitle will not jeopardize any funds available to a coastal state under the Sport Fish Restoration Program if the state is pursuing a survey and plan designed to meet the purposes of this subtitle.

Section 5607. Applicability

This section states that section 5603 does not apply if a state can demonstrate to the Secretary of the Interior that it has: (1) developed and is implementing a pumpout station construction plan to meet the needs of recreational vessels in the state; or (2) adequate pumpout stations to meet the needs of recreational vessels in the state.

Section 5608. Definitions

For the purposes of this subtitle several terms are defined.

The term "coastal state" is defined as a state bordering on the Atlantic, Pacific, or Arctic Ocean, the Gulf of Mexico, Long Island Sound, or a state bordering one or more of the Great Lakes. The term includes Puerto Rico, the Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa. The term does not include a state for which the ratio of the number of recreational vessels in the state to the number of miles of shoreline is less than one, and the Governor certifies to the Secretary of the Interior that water quality in the state is not significantly affected by sewage discharged from recreational vessels.

The term "coastal waters" is defined as waters within the territorial jurisdiction of the United States and includes Great Lakes waters within the jurisdiction of the United States.

The term "coastal zone" has the same meaning the term has in section 304(1) of the Coastal Zone Management Act.

The term "inland state" means any state which is not a coastal state.

The term "type III marine sanitation device" is defined as any equipment for installation on board a vessel which is designed to receive, retain, and discharge sewage.

The term "pumpout station" means a facility that pumps or receives human body wastes out of type III marine sanitation devices.

The term "recreational vessel" is defined as vessel which is manufactured for operation, or operated primarily for pleasure, or is leased, rented, or chartered to another for the latter's pleasure.

The term "waste reception facility" means a facility specifically designed to receive wastes from portable toilets.

TITLE VI—DOCUMENTATION OF VESSELS—

SUBTITLE A

Section 6101. General waivers

Section 6101 waives the vessel documentation laws to waive certain restrictions for coastwise endorsements, great lakes endorsements, and fisheries endorsements so that the Secretary of Transportation may issue these endorsements for the 29 vessels listed. The waivers are mainly for the inability of vessel owners to prove the continuous ownership of the vessels by U.S. citizens and because some of the vessels were constructed in foreign shipyards.

Section 6102. Waiver for oil spill activities

Section 6102 waives the U.S. building requirement for the U.S.M.V. *Deliverer* and allows the Secretary of Transportation to issue a limited coastwise and great lakes endorsement for limited use in support of oil spill activities.

Section 6103. Limited waiver

Section 6103 waives the U.S. building requirement for the vessel *Tesoro* so this vessel may engage in the coastwise trade.

Section 6104. Limited waiver for Yupik Star

Section 6104 waives the U.S. building requirement for the *Yupik Star* and allows the Secretary of Transportation to issue a certificate of documentation with a coastwise endorsement for this vessel.

Section 6105. Sale of vessels

Section 6105 allows 3 vessels built with the aid of construction-differential subsidy, the *Ocean Challenger*, *Ocean Runner*, and *Ocean Wizard*, to be transferred to foreign registry before they reach the normal 20-year CDS life for these vessels. However, the transfers must be approved by the Secretary of Transportation under section 9 of the Shipping Act, 1916.

SUBTITLE B

Section 6201. Student incentive payments

Section 6201 amends Section 1304(g)(1) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1295c(g)(1)) by raising the amount of Student Incentive Payments from $1,200 to $3,000 a year. The $3,000 payment applies to payments made in academic years beginning after the date of the enactment of the bill. The current section 1304(g)(1)(C) is deleted so that a student will not have to wait until the second academic year to receive the $3,000 for the first year.

Section 6202. Transfer of certain vessels

Section 6202 transfers the U.S.N.S. *Chauvenet* (T-AG-29) and the U.S.N.S. *Harkness* (T-AG-32) from the Secretary of the Navy to the Department of Transportation for assignment of these vessels to Texas A&M University at Galveston, Texas and to the Maine Maritime Academy at Castine, Maine, for use as training vessels at these state maritime academies.

Section 6203. Massachusetts Center for Marine Environmental Protection

Section 6203 authorizes $242,000 for assistance to the Massachusetts Center for Marine Environmental Protection located at the Massachusetts Maritime Academy.

Section 6204. Federal ship mortgage insurance for certain construction and reconstruction

Section 6204 amends section 1104(B)(b(2) to allow the Secretary of Transportation to issue loan guarantees for 87½ percent of the loan amount for tank vessels under the title XI loan guarantee program. This will allow the Secretary to guarantee the same percentage of the loan amount as the Secretary may guarantee for all other vessels.

Section 6205. Technical correction

Section 6005 corrects an error in the Coast Guard Authorization Act of 1989 (Public Law 101-225) that mistakenly repealed a section of the Merchant Ship Sales Act and corrects a spelling and cross reference error in the Merchant Marine Act, 1920.

Mr. Speaker, I reserve the balance of my time.

Mr. DAVIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as the gentleman from Massachusetts [Mr. STUDDS] has explained, this legislation has passed eight different pieces of legislation in here. Most of them have passed the House, one has passed the Senate, so we concur in its passage.

Mr. HERTEL. Mr. Speaker, I am pleased that the House will complete consideration on legislation tonight that will reauthorize the National Marine Sanctuary Program for 4 years. As chairman of the House Subcommittee on Oceanography, Great Lakes and the Outer Continental Shelf, I have enjoyed working with my colleagues on the Merchant Marine and Fisheries Committee on this important title to the Marine Protection, Research and Sanctuaries Act. I know we will all enjoy the benefits of this bill's enactment.

Originally authorized in 1972, the National Marine Sanctuary Program established a special governmental designation process and trust for managing unique, discrete marine areas and protecting their most fragile resources. This legislation marks how substantially the program has grown and changed during its 20-year history.

During consideration of H.R. 4310, the Subcommittee on Oceanography, Great Lakes, and the Outer Continental Shelf and the Subcommittee on Fisheries and Wildlife Conservation and the Environment held two joint hearings. The first hearing was held on November 7, 1991; the second, on March 31, 1992.

After considerable attention to the recommendations of various witnesses, scientists, resource managers, policymakers, and each other, members of the Merchant Marine and Fisheries Committee formulated a consensus on the process for selection and designation of sanctuaries, on management improvements necessary to meet program objectives, and on areas that require immediate sanctuary designation by statute.

Throughout the legislative process, I emphasized the need for sufficient funds to support the necessary manpower, equipment, and resources NOAA will require to implement effectively the range of its full responsibilities under the National Marine Sanctuary Program. Although deliberations have tailored my initial recommendation for authorization funding growth, I continue to believe that this issue will be the key to future program effectiveness.

Additionally, I believe firmly that the National Marine Sanctuary Program should be elevated in priority—not to glorify the coastal waters of isolated areas in the backyards of a few—but to offer a national schematic for protecting our most precious marine and freshwater areas. These areas are a national treasure requiring national, not just local, support. They require commitment, management, and wise planning so that we, and generations after us, can enjoy their splendor and be proud.

Over the course of my chairmanship of the Subcommittee on Oceanography, Great Lakes and the Outer Continental Shelf, I have personally visited five of the sites proposed to become, or designated as, national marine sanctuaries. I found that the coastline of each one is as diverse as the weather that envelopes them. Their locations and expanse differ substantially, and the marine life that inhabits these areas is unique, precious and irreplaceable.

In my visits, I have become personally moved by the thought that over time without a measured hand protecting them, each of these areas could become exploited—devoid of fisheries and marine life, wasted by navigational traffic, polluted by carelessness or accident, and overwrought by a variety of poisons that come almost automatically with population growth, industrialization, and unchecked use.

There is no marine sanctuary near my home in Michigan, nor is there one near the homes of any of my constituents. Yet, I am pleased to share a part in this process for them, because it is a process of developing legislation to protect something that is national—not something purely parochial. Some day soon, I hope that each of my constituents will, as I have, be able to visit a national marine sanctuary. Perhaps then they will join me to advocate for a greater Federal commitment of funds to the National Marine Sanctuary Program so that the future of all sanctuaries is certain and safe.

Mr. Speaker, with that background, allow me please to summarize some of the provisions of the bill before us. The first sections of H.R. 4310 add strength to the purposes and policies of the National Marine Sanctuaries Act—with special focus on education and long-term monitoring and research. With these new goals, sanctuary resources will be protected through comprehensive, well-coordinated, multiuse management plans.

Under the legislation, sanctuary designation procedures are streamlined, and interagency cooperation will ensure that consultation and joint cooperation remain cornerstones to conserving resources in selected, discrete marine and coastal areas. Strengthened enforcement and penalties against prohibited activities will aid in restoring damage to sanctuary resources and allow for monitoring and research necessary to keep these resources thriving for generations to come.

A variety of provisions I authored encourage partnerships in managing sanctuary resources. These include cooperative agreements in the bill that will enable the Secretary of Commerce to get help from other Government agencies and private organizations with funds or activities that support a sanctuary. Also incorporated are streamlined arrangements for the use or purchase of equipment and facilities, such as docks, minimizing current bureaucratic red tape.

Advisory councils for each sanctuary, established in the legislation, guarantee that the variety of interests—especially those who live or work near a sanctuary—are heard publicly and are taken into account in any designation or management decisions.

Appropriations are authorized in the first section of the bill at $8 million in the current fiscal year; augmented to $12.5 million in 1994; $15 million in 1995; and $20 million in 1996. These amounts, plus additional earmarked levels for specific designations in other sections of the bill, allow for modest growth in a climate of budget constraint. A new emphasis on funding of field activities continues to be a key focus of this legislation to ensure that effective on-site management of sanctuaries already designated, or under evaluation, is accomplished smoothly.

Every aspect of this reauthorization legislation has involved consultation. This bill is the product of a blending of philosophies and principles securing a positive direction for the National Marine Sanctuaries Act in the next 4 years.

In closing, Mr. Speaker, I would like to thank the senior Senator from Massachusetts for his cooperation and support in working on this legislation. I am grateful to have had the opportunity to work with all of my colleagues on the Merchant Marine and Fisheries Committee to reinforce the national direction and special mission of the National Marine Sanctuary Program.

Mr. HERTEL. Mr. Speaker, H.R. 2130/S. 1405, the National Oceanic and Atmospheric Administration Authorization Act of 1992 is significant—for the first time in NOAA's 32-year history, this act will authorize appropriations for the agency's operation.

I introduced this bill on April 30 of last year, along with Chairman Jones, Mr. Bateman, Mr. Davis, Mr. Studds, Mr. Young, and Mr. Hughes. Since that time, the bill has been revised to include authorization for so many of the broad array of programs that NOAA manages. As it is presented to us for final passage tonight, H.R. 2130 includes authorization for NOAA's research, monitoring, and management of NOAA's coastal, marine and freshwater programs and for NOAA's atmospheric, weather and satellite programs.

From the depths of our Nation's oceans and Great Lakes, to the outer reaches of our Earth's atmosphere, NOAA scientists have sought to understand the vast complexity of both wet and dry processes that threaten the life and limb of our citizens and critically determine the economic and environmental well-being of our Nation's resources.

The bill before us today will do much to clarify the wide array of missions under NOAA's umbrella, while improving program oversight. Moreover, H.R. 2130 encourages new directions in NOAA science in response to newly emerging problems.

I'm very pleased that a new coastal water quality monitoring provision of the bill will include the Great Lakes in a joint NOAA–EPA initiative to develop a comprehensive strategy and standardized protocols for assessing the environmental health of our Nation's coastal waters. All too often in the past, our Great Lakes have been denied the national scientific attention that they fully warrant, at a time when global supplies of clean surface freshwater are declining at an alarming rate.

Two other subsections of the bill will also encourage NOAA to focus its science on problems related to management and protection of freshwater resources. Section 202(b) authorizes funds to support ongoing research by NOAA's Cooperative Institute for Limnology and Ecosystems Research [CILER]. CILER is the youngest of seven cooperative institutes established between NOAA Environmental Research Laboratories and participating universities. It is a unique partnership between NOAA's Great Lakes Environmental Research Laboratory, the University of Michigan, Michigan State University, and other participating universities from around the Great Lakes. Support and development of this new program promises large and cost-effective returns in the scientific understanding of processes of the Great Lakes and other freshwater ecosystems throughout the world.

Section 202(c) of the bill authorizes a new NOAA initiative directed toward the comparative scientific study of select large lakes around the world. A large lake is any lake with a surface area greater than 192 square miles—a surface area that is about 2.8 times as large as the surface area of the District of Columbia.

There are 189 large lakes around the globe and collectively, they contain 85 percent of the Earth's surface freshwater. Aside from the large water supplies these lakes contain, some of these lakes are up to 30 million years old and possess valuable geological records from which scientists can document changes in climate, plant and animal communities and most recently, effects of man—namely the transport and fate of toxic contaminants.

Closer to home, the scientific knowledge gained from the study of large lakes will help improve management and protection of our Great Lakes. These lakes alone, contain 20 percent of the world's surface freshwater. By looking at how large lakes around the world function, scientists hope to understand more fully how our own Great Lakes work and how we might more effectively manage and protect them.

Finally, I'm pleased that the bill before us today includes a title providing for the replacement and modernization of NOAA's rapidly-aging national civilian oceanographic fleet. Much of the language of this title, title VI, is derived from H.R. 5324, The NOAA Fleet Replacement and Modernization Act, a bill I introduced on June 4, 1992, with several members of the Merchant Marine and Fisheries Committee—our former Chairman Walter B. Jones, ranking Minority Member Davis, Acting Chairman Gerry Studds, Mr. Bill Hughes, Mr. Billy Tauzin, Mr. Herbert Bateman, and Mr. James Saxton.

Over the past 4 years, a study by General Accounting Office and subsequent studies have documented the deterioration of the NOAA fleet, while emphasizing the critical need to begin immediate vessel modernization and replacement. Title VI of the bill authorizes the Secretary of Commerce to carry out a 15-year program to replace and modernize the NOAA fleet, while prescribing requirements for: a fleet replacement and modernization plan; vessel design; multiyear contract authority; use of vessels; and interoperability with Navy vessels where practicable.

Additionally, section 607 prohibits repair or construction of NOAA vessels by shipyards that receive significant subsidies. This provision was added to ensure fair, competitive terms for NOAA fleet construction and repair contracts to shipyards that do not engage in subsidy practices that do not comply with our international trade agreements. After much debate and negotiation, I am pleased that we will pass a bill tonight that incorporates a strong provision to protect jobs in the ailing American shipbuilding industry and that, according to administration representatives, will finally be signed by the President.

In its initial form, although more strict "Buy America" language was passed by the House, the Senate followed the President's direction in opposing that provision of H.R. 2130. The bill before us today includes a compromise negotiated to honor progress made already and the promise for further future progress in international shipbuilding and procurement agreements. Most importantly, the codification of the term "significant subsidy" establishes for the first time that we do have a national policy position that strengthens America's position when competing for shipbuilding and ship repair contracts. I believe this is the most important provision in this legislation for American workers.

Mr. Speaker, having highlighted only a few of the many provisions of H.R. 2130 that have been thoughtfully drafted by committee and subcommittee staff under the wise guidance of members of the Merchant Marine and Fisheries Committee, I commend all who support this legislation and urge its final approval for swift signature by the President.

Mr. DAVIS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. STUDDS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts [Mr. STUDDS] that the House suspend the rules and pass the bill, H.R. 5617, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "To provide Congressional approval of a Governing International Fishery Agreement, and for other purposes."

A motion to reconsider was laid on the table.

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN ENGROSSMENT OF H.R. 5617, NATIONAL MARINE SANCTUARIES PROGRAM AMENDMENTS ACT OF 1992

Mr. STUDDS. Mr. Speaker, I ask unanimous consent that the Clerk be authorized to make technical corrections in the engrossment of H.R. 5617, including corrections in spelling, punctuation, section numbering, and cross-referencing.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

PROVIDING FOR CONSIDERATION OF SENATE AMENDMENT TO H.R. 2130, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION AUTHORIZATION ACT OF 1992

Mr. STUDDS. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 610) to provide for the consideration of the Senate amendment to H.R. 2130.

The Clerk read as follows:

H. RES. 610

Resolved, That upon adoption of this resolution, the bill (H.R. 2130), the National Oceanic and Atmospheric Administration Act of 1991, with the Senate amendment thereto, shall be considered to have been taken from the Speaker's table to the end that the Senate amendment thereto be, and the same are hereby, agreed to with the following amendments:

In lieu of the matter proposed to be inserted by the amendment of the Senate to the text of the bill, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Oceanic and Atmospheric Administration Authorization Act of 1992".

SEC. 2. DEFINITIONS.

For the purposes of this Act, the term—

(1) "Act of 1890" means the Act entitled "An Act to increase the efficiency and reduce the expenses of the Signal Corps of the Army, and to transfer the Weather Bureau to the Department of Agriculture", approved October 1, 1890 (26 Stat. 653); and

(2) "Act of 1947" means the Act entitled "An Act to define the functions and duties of the Coast and Geodetic Survey, and for other purposes", approved August 6, 1947 (33 U.S.C. 883a et seq.).

TITLE I—NOAA ATMOSPHERIC AND SATELLITE PROGRAMS

SEC. 101. NATIONAL WEATHER SERVICE OPERATIONS AND RESEARCH.

(a) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out the operations and research activities of the National Weather Service under law, $311,532,000 for fiscal year 1992 and $395,822,000 for fiscal year 1993. Moneys appropriated pursuant to this authorization shall be used to fund those activities relating to National Weather Service operations and research specified by the Act of 1890, the Act of 1947, and any other law involving such activities. Such activities include meteorological, hydrological, aviation, and oceanographic public warnings and forecasts, as well as applied research in support of such warnings and forecasts.

(b) PACIFIC WEATHER BUOYS.—Of the sums authorized under subsection (a), $840,000 for fiscal year 1992 and $1,135,000 for fiscal year 1993 are authorized to be appropriated for the purpose of operating and maintaining weather buoys off the coast of California, Oregon, Washington, and Hawaii.

(c) COOPERATIVE WEATHER OBSERVER PROGRAM.—The Secretary of Commerce may use funds otherwise available for conducting weather observations to strengthen the Cooperative Weather Observer Program and encourage public participation in the program. The Secretary may—

(1) provide distinctive insignia or paraphernalia to Cooperative Weather Observers; and

(2) make awards of nominal value to recognize continued participation in the program by observers or to recognize outstanding achievements by such observers or groups of observers without regard to any law restricting expenditures for such purposes to Federal employees.

SEC. 102. PUBLIC WARNING AND FORECAST SYSTEMS.

(a) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to improve its public warning and forecast systems under law, $132,034,000 for each of the fiscal years 1992 and 1993. Moneys appropriated pursuant to this authorization shall be used to fund those activities relating to public warning and forecast systems specified by the Act of 1890, the Act of 1947, and any other law involving such activities. Such activities include the development, acquisition, and implementation of major public warning and forecast systems.

(b) WEATHER RADAR COMPLETE PROGRAM AUTHORIZATION.—(1) Except as provided in paragraph (2), there are authorized to be appropriated to the Secretary of Commerce for all fiscal years beginning with fiscal year 1993, not to exceed $426,971,000, to remain available until expended, to complete the acquisition and deployment of the Next Generation Weather Radar system, and to cover all associated activities (including program management and operations and maintenance through September 30, 1996).

(2) None of the funds are authorized to be appropriated for any fiscal year under paragraph (1), unless, within 60 days after the submission of the President's budget request for such fiscal year, the Secretary of Commerce—

(A) certifies to the Congress that—

(i) the radars, including system software, meet the technical performance specifications included in the radar procurement contract as in effect on October 1, 1992;

(ii) the system contract is viable, and the Secretary does not foresee circumstances which would prevent fulfillment of the contract;

(iii) the system can be fully sited, commissioned, and operational without requiring further authorization of appropriations beyond amounts authorized under paragraph (1); and

(iv) the Secretary does not foresee further delays in the system deployment and operation schedule; or

(B) submits to the Congress a report which describes—

(i) the circumstances which prevent a certification under subparagraph (A);

(ii) remedial actions undertaken or to be undertaken with respect to such circumstances;

(iii) the effects of such circumstances on the deployment and operation schedule and radar coverage; and

(iv) a justification for proceeding with the program, if appropriate.

SEC. 103. CLIMATE AND AIR QUALITY RESEARCH.

(a) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out its climate and air quality research activities under law, $100,718,000 for fiscal year 1992 and $103,877,000 for fiscal year 1993. Moneys appropriated pursuant to this authorization shall be used to fund those activities relating to climate and air quality research specified by the Act of 1890, the Act of 1947, and any other law involving such activities. Such activities include interannual and seasonal climate research, long-term climate and air quality research, and the National Climate Program.

(b) CLIMATE AND GLOBAL CHANGE.—Of the sums authorized under subsection (a), $67,000,000 for each of the fiscal years 1992 and 1993 are authorized to be appropriated for the purposes of studying climate and global change. Such program shall augment and integrate existing programs of the National Oceanic and Atmospheric Administration and shall include global observations, monitoring, and data and information management relating to the study of changes in the Earth's climatic system, fundamental research on critical oceanic and atmospheric processes, and climate prediction and diagnostics.

SEC. 104. ATMOSPHERIC RESEARCH.

There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out its atmospheric research activities under law, $43,935,000 for fiscal year 1992 and $44,781,000 for fiscal year 1993. Moneys appropriated pursuant to this authorization shall be used to fund those activities relating to atmospheric research specified by the Act of 1890 and by any other law involving such activities. Such activities include research for developing improved observation and prediction capabilities for atmospheric processes, as well as solar-terrestrial services and research.

SEC. 105. SATELLITE OBSERVING SYSTEMS.

(a) IN GENERAL.—(1) There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out its satellite observing systems activities under law, $305,744,000 for fiscal year 1992 and $336,000,000 for fiscal year 1993. Moneys appropriated pursuant to this authorization shall be used to fund those activities relating to data and information services specified by the Act of 1890 and by any other law involving such activities. Such activities include spacecraft procurement, launch, and associated ground station modifications for polar orbiting and geostationary environmental satellite systems, as well as the operation of such satellites and land remote-sensing satellites.

(2) Of the sums authorized under paragraph (1), $2,300,000 in fiscal year 1993 are authorized for the administration by the National Oceanic and Atmospheric Administration of the ground stations for the Search and Rescue Satellite Aided Tracking system. Such administration shall be carried out in consultation with the Department of Transportation and the Department of Defense.

(b) EMERGENCY CONTINGENCY FUND.—There are authorized to be appropriated to the Secretary of Commerce, $110,000,000 for fiscal year 1992, to be deposited in an Emergency Weather Satellite Contingency Fund. Such Fund shall be available subject to the restrictions of appropriations Acts, without fiscal year limitation, to the Secretary only for the purpose of enabling the National Oceanic and Atmospheric Administration to maintain geostationary environmental satellite coverage for monitoring and prediction of hurricanes and severe storms, including but not limited to the procurement of gap filler satellites, launch vehicles, and payments to foreign governments.

(c) STRATEGIC PLAN.—(1) The Secretary of Commerce and the Administrator of the National Aeronautics and Space Administration shall jointly develop and, not more than 120 days after the date of enactment of this Act, submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a strategic plan for development, procurement, and operation of the environmental satellite program of the Department of Commerce.

(2) The objectives of the strategic plan shall be—

(A) to ensure continuous and adequate operational environmental satellite coverage; and

(B) to require direct Federal fiscal and administrative accountability in all aspects of such environmental satellite program.

(3) The strategic plan shall—

(A) delineate the management duties and functions of each Federal department or agency involved in such satellite program;

(B) establish funding responsibilities for each Federal department or agency in a manner which reflects their respective management duties and functions;

(C) set forth procedures to be followed in the development, procurement, and operations of environmental satellites in such program;

(D) minimize the potential for developmental procurement problems, and for cost overruns;

(E) provide for effective interagency and international coordination;

(F) provide for research and development activities to ensure that the procurement of operational environmental satellites relies on proven technologies, and to investigate potential improvements in data applications and operations for such satellites in order to improve the national weather warning and forecast system; and

(G) specify legislative and administrative actions necessary to implement the plan and to accomplish the objectives described in paragraph (2).

(d) GEOSTATIONARY SATELLITE COMPLETE PROGRAM AUTHORIZATION.—(1) Except as provided in paragraph (2), there are authorized to be appropriated to the Secretary of Commerce for all fiscal years beginning with fiscal year 1993, not to exceed $1,005,255,000, to remain available until expended, to complete the procurement of Geostationary Operational Environmental Satellites I, J, K, L, and M, and the procurement of the launching and supporting ground systems of such satellites.

(2) None of the funds are authorized to be appropriated for any fiscal year under paragraph (1), unless, within 60 days after the submission of the President's budget request for such fiscal year, the Secretary of Commerce—

(A) certifies to the Congress that—

(i) the results of testing indicate that the satellite instruments are likely to meet the technical performance specifications included in the satellite contract as in effect on October 1, 1992;

(ii) the procurements can be completed without requiring further authorization of appropriations beyond amounts authorized under paragraph (1); and

(iii) the Secretary foresees no gap in two-satellite service operations resulting from non-performance of the satellite contract; or

(B) submits to the Congress a report which describes—

(i) the circumstances which prevent a certification under subparagraph (A);

(ii) remedial actions undertaken or to be undertaken with respect to such circumstances;

(iii) the effects of such circumstances on the launch schedule and satellite coverage; and

(iv) a justification for proceeding with the program, if appropriate.

SEC. 106. DATA AND INFORMATION SYSTEMS.

(a) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out its data and information services activities under law, $32,628,000 for fiscal year 1992 and $39,596,000 for fiscal year 1993. Moneys appropriated pursuant to this authorization shall be used to fund those activities relating to data and information services specified by the Act of 1890 and by any other law involving such activities. Such activities include climate data services, ocean data services, geographic data services, and environmental assessment and information services.

(b) MODERNIZATION INITIATIVE.—Of the sums authorized under subsection (a), $10,000,000 in fiscal year 1992 and $15,000,000 in fiscal year 1993 are authorized to be appropriated for the purpose of modernizing the data and information systems of the National Oceanic and Atmospheric Administration to meet increasing requirements for managing, archiving, and distributing environmental data and information.

(c) NEEDS ASSESSMENT FOR DATA MANAGEMENT, ARCHIVAL, AND DISTRIBUTION.—(1) Not later than 12 months after the date of enactment of this Act and at least biennially thereafter, the Secretary of Commerce shall complete an assessment of the adequacy of the environmental data and information systems of the National Oceanic and Atmospheric Administration. In conducting such an assessment, the Secretary shall take into consideration the need to—

(A) provide adequate capacity to manage, archive, and disseminate environmental data and information collected and processed, or expected to be collected and processed, by the National Oceanic and Atmospheric Administration and other appropriate departments and agencies;

(B) establish, develop, and maintain information bases, including necessary management systems, which will promote consistent, efficient, and compatible transfer and use of data;

(C) develop effective interfaces among the environmental data and information systems of the National Oceanic and Atmospheric Administration and other appropriate departments and agencies;

(D) develop and use nationally accepted formats and standards for data collected by various national and international sources; and

(E) integrate and interpret data from different sources to produce information that can be used by decisionmakers in developing policies that effectively respond to national and global environmental concerns.

(2) Not later than 12 months after the date of enactment of this Act and biennially thereafter, the Secretary of Commerce shall develop and submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a comprehensive plan, based on the assessment under paragraph (1), to modernize and improve the environmental data and information systems of the National Oceanic and Atmospheric Administration. The report shall—

(A) set forth modernization and improvement objectives for the 10-year period beginning with the year in which the plan is submitted, including facility requirements and critical new technological components that would be necessary to meet the objectives set forth;

(B) propose specific agency programs and activities for implementing the plan;

(C) identify the data and information management, archival, and distribution responsibilities of the National Oceanic and Atmospheric Administration with respect to other Federal departments and agencies and international organizations, including the role of the National Oceanic and Atmospheric Administration with respect to large data systems like the Earth Observing System Data and Information System; and

(D) provide an implementation schedule and estimate funding levels necessary to achieve modernization and improvement objectives.

SEC. 107. HURRICANE RECONNAISSANCE PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—(1) The Secretary of Defense and the Secretary of Commerce shall establish a 5-year joint program for collecting operational and reconnaissance data, conducting research, and analyzing data on tropical cyclones to assist the forecast and warning program and increase the understanding of the causes and behavior of tropical cyclones.

(2) The Secretary of Commerce shall establish the Tropical Cyclone Research Advisory Committee, an advisory committee of tropi-

cal cyclone research scientists, to make recommendations for tropical cyclone research activities and reconnaissance procedures.

(b) Responsibilities.—(1) The Secretary of Defense shall have the responsibility for maintaining, flying, and funding tropical cyclone reconnaissance aircraft to accomplish the program established under this section and to transfer the data to the Secretary of Commerce. Program responsibility may not be transferred to any other Federal department or agency, including the Coast Guard, without the agreement and approval of the Secretary of Defense, the Secretary of Commerce, and the head of any other Federal agency or department to which the responsibility is transferred.

(2) The Secretary of Commerce shall have the responsibility to provide funding for data gathering and research by remote sensing, ground sensing, research aircraft, and other technologies necessary to accomplish the program established under this section.

(c) Management Plans.—The Secretary of Defense and the Secretary of Commerce shall jointly develop and, within 120 days after the date of enactment of this Act, submit to the Congress a management plan for the program established under this section, which shall include organizational structure, goals, major tasks, and funding profiles for 5-year duration of the program.

(2) The Secretary of Defense and the Secretary of Commerce, in consultation with the Tropical Cyclone Research Advisory Committee established by section 107(a)(2), shall jointly develop and, within 4 years after the date of enactment of this Act, submit to the Congress a management plan providing for continued tropical cyclone surveillance and reconnaissance which will adequately protect the citizens of the coastal areas of the United States.

(3) The management plans and programs required by this section shall in every sense provide for at least the same degree and quality of protection (such as early warning capability and accuracy of fixing a storm's location) as currently exists with a combination of satellite technology and manned reconnaissance flights. Additionally, such plans and programs shall in no way allow any reduction in the level, quality, timeliness, sustainability, or area served (including the State of Hawaii) of both the existing principal and back-up tropical cyclone reconnaissance and tracking systems.

SEC. 108. UNITED STATES WEATHER RESEARCH PROGRAM.

(a) Establishment.—The Secretary of Commerce, in cooperation with the Federal Coordinating Council for Science, Engineering, and Technology through the Committee on Earth and Environmental Sciences, shall establish a United States Weather Research Program to—

(1) increase benefits to the Nation from the substantial investment in modernizing the public weather warning and forecast system in the United States;

(2) improve local and regional weather forecasts and warnings;

(3) address critical weather-related scientific issues; and

(4) coordinate governmental, university, and private-sector efforts.

(b) Implementation Plan—Not later than 90 days after the date of enactment of this Act, the Secretary of Commerce, in cooperation with the Committee on Earth and Environmental Sciences, shall prepare and submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a plan for implementation of the United States Weather Research Program which shall—

(1) establish, for the 10-year period beginning in the year the plan is submitted, the goals and priorities for Federal weather research which most effectively advance the scientific understanding of weather processes and provide information to improve weather warning and forecast systems in the United States.

(2) describe specific activities, including research activities, data collection and data analysis requirements, predictive modeling, participation in international research efforts, demonstration of potential operational forecast applications, and education and training required to achieve such goals and priorities; and

(3) set forth the role of each Federal agency and department to be involved in the United States Weather Research Program, identifying and addressing, as appropriate, relevant programs and activities of the Federal agencies and departments that would contribute to such Program.

SEC. 109. WEATHER SERVICE OFFICE IN RENO, NEVADA.

(a) Facility Acquisition.—The Administrator of the National Oceanic and Atmospheric Administration is authorized—

(1) to construct, on approximately 10 acres of land to be leased from the University of Nevada System, Desert Research Institute, or

(2) in the alternative, to acquire by lease construction on such land, with a lease term of up to 30 years,

a Weather Forecast Office, upper air facility, regional climate center, and associated instruments and site improvements as part of the implementation of the Next Generation Weather Radar and National Weather Service Modernization Program for the Reno, Nevada area. This authorization is subject to the availability of appropriations provided in advance for the purpose stated in paragraph (1) or (2).

(b) Reimbursement Authority.—The Administrator is authorized to reimburse the Desert Research Institute for the cost of providing utilities and access to the site.

(c) Operations.—The Administrator is authorized to carry out the operations of the National Oceanic and Atmospheric Administration in such facility.

SEC. 110. WEATHER SERVICE FACILITIES IN SOUTH FLORIDA.

(a) Construction of Facility.—The Administrator of the National Oceanic and Atmospheric Administration is authorized to construct, on land to be leased from Florida International University at the University's Tamiami campus, a facility for the National Hurricane Center, a Weather Forecast Office, an upper air facility, and associated site improvements as part of the implementation of the Next Generation Weather Radar and National Weather Service Modernization Program for the South Florida area. This authorization is subject to the availability of appropriations provided in advance for the purpose stated in this subsection.

(b) Operations.—The Administrator is authorized to carry out the operations of the National Oceanic and Atmospheric Administration in such facility.

SEC. 111. WEATHER FORECAST OFFICE, HONOLULU.

(a) Facility Acquisition.—(1) The Administrator of the National Oceanic and Atmospheric Administration is authorized to lease building and associated space from the University of Hawaii, Honolulu, for the operation of a Weather Forecast Office, as part of the implementation of the Next Generation Weather Radar and National Weather Service Modernization Program for the State of Hawaii, for a term of up to 20 years. This authorization is subject to the availability of appropriations provided in advance for the purpose stated in this paragraph.

(2) Rental costs for the space leased under paragraph (1) shall not exceed fair annual rental value as established by governmental appraisal.

(b) Alterations.—The Administrator is authorized to expend funds to make all necessary alterations to the space to allow for operation of a Weather Forecast Office.

(c) Operations.—The Administrator is authorized to carry out the operations of the National Oceanic and Atmospheric Administration in such facility.

SEC. 112. INSTITUTE FOR AVIATION WEATHER PREDICTION.

The Administrator of the National Oceanic and Atmospheric Administration shall establish an Institute for Aviation Weather Prediction. The Institute shall provide forecasts, weather warnings, and other weather services to the United States aviation community. The Institute shall expand upon the activities of the aviation unit currently at the National Severe Storms Forecast Center in Kansas City, Missouri, and shall be established in the Kansas City, Missouri area. The Administrator shall provide a full and fair opportunity for employees at the National Severe Storms Forecast Center to assume comparable duties and responsibilities within the Institute.

SEC. 113. WEATHER SERVICE OFFICE IN OKLAHOMA.

(a) Facility Acquisitions.—(1) The Administrator of the National Oceanic and Atmospheric Administration is authorized to lease building and associated space to be constructed by the University of Oklahoma, Norman, for the operation of the National Severe Storms Laboratory, Weather Forecast Office, NEXRAD Operational Support Facility, and National Institute for Storm Prediction as part of the implementation of the Next Generation Weather Radar and National Weather Service Modernization Program, for a term of up to 20 years. This authorization is subject to the availability of appropriations provided in advance for the purpose stated in this paragraph.

(2) Rental costs for the space leased under paragraph (1) shall not exceed fair annual rental value as established by governmental appraisal.

(b) Alterations.—The Administrator is authorized to expend funds to make all necessary alterations to the space to allow for operations listed in subsection (a)(1).

(c) Operations.—The Administrator is authorized to carry out the operations of the National Oceanic and Atmospheric Administration in such facility.

SEC. 114. TRANSFER OF DATA ARCHIVING RESPONSIBILITY.

(a) Findings.—The Congress finds that—

(1) section 602 of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4272) directs the Secretary of Commerce to provide for the archiving of land remote-sensing data for historical, scientific, and technical purposes, including long-term global environmental monitoring;

(2) the Secretary of Commerce currently provides for the archiving of Landsat data at the Department of the Interior's EROS Data Center, which is consistent with the requirement of section 602(g) of such Act (15 U.S.C.

4272(g)) to use existing Federal Government facilities to the extent practicable in carrying out this archiving responsibility;

(3) the Landsat data collected since 1972 are an important global data set for monitoring and assessing land resources and global change;

(4) the Secretary of the Interior maintains archives of aerial photography, digital cartographic data, and other Earth science data at the EROS Data Center that also are important data sets for monitoring and assessing land resources and global change;

(5) it is appropriate to transfer authority to the Secretary of the Interior for the archiving of land remote-sensing data; and

(6) the Secretary of the Interior should explore ways to facilitate the use of archived data for research purposes consistent with other provisions of the Land Remote-Sensing Commercialization Act of 1984.

(b) PROVISION OF UNENHANCED DATA.—Section 402(b)(4) of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4242(b)(4)) is amended by inserting "of the Interior" immediately after "Secretary".

(c) ARCHIVING OF DATA.—Section 602 of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4272) is amended—

(1) in subsections (b), (c), (d), (f), and (g), by inserting "of the Interior" immediately after "Secretary" each place it appears; and

(2) by adding at the end the following new subsection:

"(h) In carrying out the functions of this section, the Secretary of the Interior shall consult with the Secretary to ensure that archiving activities are consistent with the terms and conditions of any contract or agreement entered into under title II, III, or V of this Act and with any license issued under title IV of this Act.".

SEC. 115. WEATHER OFFICE IN EUREKA, CALIFORNIA.

Notwithstanding any other law, any property and improvements to that property located on Woodley Island in the city of Eureka, California, that are—

(1) acquired by the Secretary of Commerce from Hubolt Bay Harbor Recreation and Conservation District, California, for use as a weather forecasting office; and

(2) determined by the Secretary to be excess property, shall revert to that district.

SEC. 116. REPORT ON SATELLITE OCEANOGRAPHY.

SEC. 116. (a) IN GENERAL.—The Federal Coordinating Council for Science, Engineering, and Technology through the Committee on Earth and Environmental Sciences, in consultation with Federal, academic, and commercial users of remotely sensed data, shall consider and develop findings and recommendations regarding—

(1) the most urgent current needs of oceanographic researchers within the Federal Government, the academic community, and the private sector, for remote sensing capabilities and remotely sensed data, including findings regarding the present inadequacies in these capabilities and data; and

(2) the major goals of satellite oceanography for the next 10 years.

(b) REPORT.—Not later than one year after the date of enactment of this Act, the Federal Coordinating Council for Science, Engineering, and Technology shall submit to the Congress a report which describes the findings and recommendations of the Committee on Earth and Environmental Sciences, including recommendations for, or a description of actions to be taken toward—

(1) correcting the inadequacies in remote sensing capabilities;

(2) improving the availability of remotely sensed data; and

(3) achieving the major goals of satellite oceanography developed pursuant to subsection (a)(2).

TITLE II—NOAA OCEAN AND COASTAL PROGRAMS

SEC. 201. NATIONAL OCEAN SERVICE.

(a) MAPPING, CHARTING, AND GEODESY.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out mapping, charting, and geodesy activities (including geodetic data collection and analysis) under the Act of 1947 and any other law involving those activities, $50,917,000 for fiscal year 1992 and $51,087,000 for fiscal year 1993.

(b) OBSERVATION AND ASSESSMENT.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out observation and assessment activities—

(1) under the Act of 1947 and other law involving those activities, $57,273,000 for fiscal year 1992 and $57,273,000 for fiscal year 1993; and

(2) under title II of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1441 et seq.), $11,000,000 for fiscal year 1992 and $11,000,000 for fiscal year 1993.

(c) COASTAL OCEAN PROGRAM.—Of the sums authorized under subsection (b)(1), $17,352,000 for each of the fiscal years 1992 and 1993 are authorized to be appropriated for the purposes of conducting a Coastal Ocean Program. Such program shall augment and integrate existing programs of the National Oceanic and Atmospheric Administration and shall include efforts to improve predictions of fish stocks, to better conserve and manage living marine resources, to improve predictions of coastal ocean pollution to help correct and prevent degradation of the ocean environment to promote development of ocean technology to support the effort of science to understand and characterize the role oceans play in global climate and environmental analysis, and to improve predictions of coastal hazards to protect human life and personal property.

(d) LONG ISLAND SOUND CIRCULATION MODEL.—No moneys appropriated pursuant to the authorizations in this Act shall be used to conduct analyses of samples collected under the National Status and Trends Program until the Policy Committee of the Long Island Sound Study certifies that the National Oceanic and Atmospheric Administration has completed the water circulation model for Long Island Sound.

(e) CIRCULATION MODEL FUNDING.—Of the sums authorized under subsection (b) for fiscal year 1992, $600,000 is available for completion of the water circulation model for Long Island Sound and $400,000 is available for National Status and Trends Program stations in Long Island Sound.

(f) OCEAN MANAGEMENT.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out ocean management activities, $1,678,000 for fiscal year 1992 and $1,823,000 for fiscal year 1993.

SEC. 202. OCEAN AND GREAT LAKES RESEARCH.

(a) OCEAN AND GREAT LAKES RESEARCH AUTHORIZATION.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out ocean and Great Lakes research activities under the Act of 1947, the Act of 1890, and any other law involving those activities, $32,171,000 for fiscal year 1992 and $39,800,000 for fiscal year 1993.

(b) COOPERATIVE INSTITUTE FOR LIMNOLOGY AND ECOSYSTEMS RESEARCH.—In addition to amounts authorized under subsection (a), there are authorized to be appropriated to the Office of Oceanic and Atmospheric Research of the National Oceanic and Atmospheric Administration $250,000 for fiscal year 1992 and $260,000 for fiscal year 1993, for use by the Cooperative Institute for Limnology and Ecosystems Research (established in partnership with the State of Michigan and the Great Lakes Environmental Research Laboratory) for—

(1) research conducted by the Institute;

(2) development of the Institute; and

(3) for preparation of a five-year plan for research and development.

(c) LARGE LAKES RESEARCH.—(1) In addition to amounts authorized under subsections (a) and (b), there are authorized to be appropriated to the Secretary of Commerce for use by the Office of Oceanic and Atmospheric Research $2,000,000 for fiscal year 1992 and $2,080,000 for fiscal year 1993 for use for preparing a plan for large lakes research.

(2) Amounts appropriated under this subsection may be used for—

(A) preparation of a 5-year plan designating large lake study sites, research activities, and anticipated research products; and

(B) collection of physical, chemical, and biological data required for preparing that plan.

(3) Activities conducted with amounts appropriated under this subsection shall be coordinated through the Great Lakes Environmental Research Laboratory, working in association with the Cooperative Institute for Limnology and Ecosystems Research and the National Undersea Research Program.

SEC. 203. AQUATIC NUISANCE PREVENTION AND CONTROL PROGRAM.

(a) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Commerce $11,000,000 for fiscal year 1992 and $11,440,000 for fiscal year 1993 for use in implementing the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (Public Law 101-646).

(b) REPORT.—Not later than one year after the date of the enactment of this Act, the Secretary of Commerce shall submit a report to the Congress on progress toward establishing a nonindigenous aquatic nuisance prevention and control program within the National Oceanic and Atmospheric Administration and projected funding for such a program for the following five fiscal years.

SEC. 204. REPEAL OF NATIONAL OCEAN POLLUTION PLANNING ACT OF 1978.

The National Ocean Pollution Planning Act of 1978 (33 U.S.C. 1701-1709) is repealed.

SEC. 205. NOAA OIL AND HAZARDOUS SUBSTANCE SPILL COST REIMBURSEMENT.

(a) TREATMENT OF AMOUNTS RECEIVED AS REIMBURSEMENT OF EXPENSES.—Notwithstanding any other provision of law, amounts received by the United States as reimbursement of expenses related to oil or hazardous substance spill response activities, or natural resource damage assessment, restoration, rehabilitation, replacement, or acquisition activities, conducted (or to be conducted) by the National Oceanic and Atmospheric Administration—

(1) shall be deposited into the Fund;

(2) shall be available, without fiscal year limitation and without apportionment, for use in accordance with the law under which the activities are conducted; and (3) shall not

be considered to be an augmentation of appropriations.

(b) APPLICATION.—Subsection (a) shall apply to amounts described in subsection (a) that are received—

(1) after the date of the enactment of this Act; or

(2) with respect to the oil spill associated with the grounding of the EXXON VALDEZ.

(c) DEFINITIONS.—For purposes of this section—

(1) the term "Fund" means the Damage Assessment and Restoration Revolving Fund of the National Oceanic and Atmospheric Administration referred to in title I of Public Law 101-515 under the heading "National Oceanic and Atmospheric Administration" (104 Stat. 2105); and

(2) the term "expenses" includes incremental and base salaries, ships, aircraft, and associated indirect costs, except the term does not include base salaries and benefits of National Oceanic and Atmospheric Administration Support Coordinators.

TITLE III—NOAA MARINE FISHERY PROGRAMS

SEC. 301. AUTHORIZATION OF APPROPRIATIONS.

The National Oceanic and Atmospheric Administration Marine Fisheries Program Authorization Act (Public Law 98-210, 97 Stat. 1409) is amended—

(1) in section 2(a) by striking "$26,500,000" and all that follows through "fiscal year 1989" and inserting in lieu thereof "$47,933,000 for fiscal year 1992 and $59,162,000 for fiscal year 1993";

(2) in section 3(a) by striking "$35,000,000" the first time it appears and all that follows through "fiscal year 1989" and inserting in lieu thereof "$27,290,000 for fiscal year 1992 and $35,594,000 for fiscal year 1993"; and

(3) in section 4(a) by striking "$10,000,000" and all that follows through "fiscal year 1989" and inserting in lieu thereof "$12,182,000 for fiscal year 1992 and $18,838,000 for fiscal year 1993".

SEC. 302. DEVELOPMENT OF DOLPHIN-SAFE METHODS OF TUNA FISHING.

Section 2 of the National Oceanic and Atmospheric Administration Marine Fisheries Program Authorization Act (Public Law 98-210; 97 Stat. 1409) is amended by adding at the end the following new subsection:

(d) Of the sums authorized under subsection (a) of this section, $1,000,000 for each of the fiscal years 1992 and 1993 are authorized to be appropriated for the purpose of developing dolphin-safe methods of locating and catching yellowfin tuna. Such authorization shall be in addition to moneys authorized under section 7 of the Act entitled 'An Act to improve the operation of the Marine Mammal Protection Act of 1972, and for other purposes', approved October 9, 1981 (16 U.S.C. 1384). Within six months after the date of enactment of this subsection, the Secretary, in cooperation with the Inter-American Tropical Tuna Commission and after consultation with interested persons, shall publish a program plan for public comment that shall provide for—

"(1) cooperative research to improve understanding of the behavior association of dolphins and yellowfin tuna in the eastern tropical Pacific Ocean;

"(2) development, testing, and implementation of new methods of locating and catching yellowfin tuna without the incidental taking of dolphins; and

"(3) appropriate measures to ensure program participation and sharing of associated costs by each foreign government that conducts, or authorizes its nationals to conduct, yellowfin tuna fishing in the eastern tropical Pacific Ocean.".

SEC. 303. FISHERIES RESEARCH.

Section 304(e) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1854(e)) is amended by redesignating paragraphs (1), (2), and (3), and any reference thereto, as paragraphs (2), (3), and (4) respectively, and by inserting immediately after "FISHERIES RESEARCH.—" the following: "(1) The Secretary shall initiate and maintain in cooperation with the Councils, a comprehensive program of fishery research to carry out and further the purposes, policy, and provisions of this Act. Such program shall be designed to acquire knowledge and information, including statistics, on fishery conservation and management and on the economics of the fisheries.".

SEC. 304. FISHERY FACILITIES.

Section 1101(k) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1271(k)), is amended—

(1) by striking "or" at the end of paragraph (1);

(2) by adding "or" at the end of paragraph (2); and

(3) by inserting immediately after paragraph (2) the following new paragraph:

"(3) for acquaculture, including operations on land or elsewhere—

"(A) any structure or appurtenance thereto designed for acquaculture.

"(B) the land necessary for any such structure or appurtenance described in subparagraph A;

"(C) equipment which is for use in connection with any such structure or appurtenance and which is necessary for the performance of any function referred to in subparagrah (A); and

"(D) any vessel built in the United States used for, equipped to be used for, or of a type which is normally used for aquaculture;".

SEC. 305. STUDY OF JOINT ENFORCEMENT OF FISHERIES REGULATIONS.

Not later than 4 months after the date of enactment of this Act, the Secretary of Transportation and the Secretary of Commerce shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a joint report describing methods by which Coast Guard enforcement efforts in the western Pacific Ocean under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) may be enhanced and coordinated with those of the National Oceanic and Atmospheric Administration. The report shall—

(1) evaluate the ability of the Coast Guard to address key enforcement problems, which the Secretary of Commerce shall identify, for the western Pacific Ocean, particularly in the exclusive economic zone adjacent to the Hawaiian Islands, the Northern Marina Islands, and the territories and possessions of the United States;

(2) propose procedures by which the Coast Guard and the National Oceanic and Atmospheric Administration may coordinate their efforts to improve and maximize effective enforcement of fisheries regulations, including but not limited to the chartering of light aircraft for fisheries surveillance and enforcement; and

(3) recommend appropriate levels of Coast Guard participation in such efforts.

SEC. 306. STUDY ON EFFECTS OF DOLPHIN FEEDING.

(a) STUDY.—The Secretary of Commerce shall conduct a study in the eastern Gulf of Mexico on the effects of feeding of noncaptive dolphins by human beings. The study conducted pursuant to this section shall be designed to detect any behavior or diet modification resulting from this feeding and to identify the effects, if any, of these modifications on the health and well-being of the dolphins.

(b) EXTERNAL REVIEW.—In design and conduct of the study required under subsection (a), the Secretary shall consult with the National Academy of Sciences and the Marine Mammal Commission.

(c) REPORT.—Within 18 months after the date of the enactment of this Act, the Secretary shall submit to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study conducted pursuant to subsection (a).

SEC. 307. CHESAPEAKE BAY ESTUARINE RESOURCES OFFICE.

(a) ESTABLISHMENT.—(1) The Secretary of Commerce shall establish, within the National Oceanic and Atmospheric Administration, an office to be known as the Chesapeake Bay Estuarine Resources Office (hereinafter referred to as the "Office").

(2) The Office shall be headed by a Director who shall be appointed by the Secretary of Commerce, in consultation with the Chesapeake Bay Executive Council. Any individual appointed as Director shall have knowledge and experience in research or resource management efforts in the Chesapeake Bay.

(3) The Director may appoint such additional personnel for the Office as the Director determines necessary to carry out this section.

(b) FUNCTIONS.—The Office, in consultation with the Chesapeake Bay Executive Council, shall—

(1) provide technical assistance to the Administrator, to other Federal departments and agencies, and to State and local government agencies in—

(A) assessing the processes that shape the Chesabeake Bay system and affect its living resources;

(B) identifying technical and management alternatives for the restoration and protection of living resources and the habitats they depend upon; and

(C) monitoring the implementation and effectiveness of management plans;

(2) develop and implement a strategy for the National Oceanic and Atmospheric Administration that integrates the science, research, monitoring, data collection, regulatory, and management responsibilities of the Secretary of Commerce in such a manner as to assist the cooperative, intergovernmental Chesapeake Bay Program to meet the commitments of the Chesapeake Bay Agreement;

(3) coordinate the programs and activities of the various organizations within the National Oceanic and Atmospheric Administration and the Chesapeake Bay Regional Sea Grant Programs (including programs and activities in coastal and estuarine research, monitoring, and assessment; fisheries research and stock assessments; data management; remote sensing; coastal management; and habitat conservation);

(4) coordinate the activities of the National Oceanic and Atmospheric Administration with the activities of the Environmental Protection Agency and other Federal, State, and local agencies;

(5) establish an effective mechanism which shall ensure that projects have undergone appropriate peer review and provide other appropriate means to determine that projects have acceptable scientific and technical merit for the purpose of achieving max-

imum utilization of available funds and resources to benefit the Chesapeake Bay area;

(6) remain cognizant of ongoing research, monitoring, and management projects and assist in the dissemination of the results and findings of those projects; and

(7) submit a biennial report to the Congress and the Secretary of Commerce with respect to the activities of the Office and on the progress made in protecting and restoring the living resources and habitat of the Chesapeake Bay.

(c) BUDGET LINE ITEM.—The Secretary of Commerce shall identify, in the President's annual budget to the Congress, the funding request for the Office.
